INFORMATION AND NOTICE TO THE SHAREHOLDERS OF

UBAM - GLOBAL TECH CONVERTIBLE BOND UBAM - GLOBAL CONVERTIBLE BOND

Dear Shareholders,

The Board of Directors of UBAM informs you of the decision taken by circular resolution, i.e.:

The sub-fund UBAM - GLOBAL TECH CONVERTIBLE BOND (the "Absorbed Sub-Fund") will merge with the sub-fund UBAM - GLOBAL CONVERTIBLE BOND (the "Absorbing Sub-Fund"), the latter absorbing the former, in accordance with the type of merger described in article 1 point 20 a) of the law of 17th December 2010.

This merger is motivated by the fact that the Absorbed Sub-Fund's assets have reached a low level, and that the Absorbing Sub-Fund offers to shareholders a similar but more global exposure to convertible bonds with a lower SRI. In addition, Absorbed Sub-Fund is classified as Article 6 under the Sustainable Finance Disclosure Regulation ("SFDR") while the Absorbing Sub-Fund is classified as Article 8.

The merger will become effective on 7 September 2023 (the "Effective Date").

The investment policies and objectives of the Absorbing and the Absorbed Sub-Funds differ as follows.

High Yield non-convertible bonds or similar are limited to 20% of its net assets. <p>The equity exposure of the Sub-Fund shall not exceed 70% (through investments in eligible assets, as detailed above). In this context, "equity exposure" refers to the aggregate equity sensitivity of the portfolio. At single security (e.g. convertible bond) level, the equity sensitivity refers to the change in the price of the security for 1% change in the underlying equity price. At portfolio level, the average equity sensitivity is computed as the weighted average of each security's equity sensitivity."</p> <p>The Sub-Fund will hedge non-denominated Euro currencies and residual direct exposure to currencies other than the base currency (EUR) will be up to 10% maximum. It aims to obtain an average Environmental, Social and Governance (ESG) rating which is higher than that of the Refinitiv Global Hedged Convertible Bond</p>

	<p>(EUR) and a lower carbon footprint (as measured by the weighted average carbon intensity). This index is used to measure the ESG characteristics of the Sub-Fund.</p> <p>Environmental, Social and Governance (ESG) criteria are an integral part of the investment process of the Sub-Fund (security selection, portfolio construction). The sustainability strategy of the Sub-Fund is based on two main components:</p> <ul style="list-style-type: none"> - negative screening (exclusion criteria): respect of the UBP's Responsible Investment Policy (available at https://www.ubp.com/en/investment-expertise/responsible-investment) - positive ESG integration (see details below). <p>A minimum of 80% of the Sub-Fund's net assets is subject to an extra-financial analysis carried out internally or externally.</p> <p>Internally, the ESG rating methodology of the Sub-Fund is based on the assessment of (1) climate risk, (2) the environment, (3) social and (4) governance issues. For each one of these 4 components, companies are analysed on the most significant sustainable development issues appropriate to their business activity. This assessment is based on a combination of fundamental internal analyses and quantitative data provided by external ESG providers.</p> <p>The overall ESG quality of the portfolio is measured against that of the Refinitiv Global Hedged Convertible Bond (EUR) in order to ensure that the Sub-Fund trends towards a higher ESG quality profile and a lower carbon footprint than that of the global convertible bond market index. The ESG quality profile of the fund is measured by the weighted average Industry-Adjusted ESG score of the companies in which the portfolio is invested. The carbon footprint is measured by the weighted average of the fund's carbon intensity.</p> <p>The Sub-Fund promotes E/S characteristics and does not have a sustainable investment objective.</p> <p>The Investment Manager takes into consideration the negative impacts of investments on environmental (weighted-average carbon intensity), social (gender diversity: percentage of women within management, exposure to controversial arms)</p>

	<p>issues and the respect of international standards (violations of the UN Global Compact).</p> <p>The Investment Manager takes governance into consideration in its assessment related to sustainability. Thus, the Investment Manager assesses factors such as accounting practices and the quality of the financial data disclosed, the composition of the board of directors, independence of the chairman and the board of directors, the shareholding structure, dispersed ownership of shares, as well as remuneration policies and particularly the integration of extra-financial criteria.</p> <p>The investment strategy includes three constraints to the achievement of environmental and social objectives promoted by the Sub-Fund:</p> <ul style="list-style-type: none"> - Application of negative screening (exclusion criteria): respect of the UBP's Responsible Investment Policy (available at https://www.ubp.com/en/investment-expertise/responsible-investment) - A minimum of 80% of the Sub-Fund's allocation to underlying convertible bonds is subject to an extra-financial analysis carried out internally or externally; - Looking for an ESG quality profile higher than that of the global convertible bond market index, Refinitiv Global Hedged Convertible Bond (EUR) and a lower carbon footprint than that of the latter. <p>Exposure to derivatives is not related to the promotion of environmental and social characteristics of the Sub-Fund. The Sub-Fund may use futures, swaps (including Credit Default Swaps (CDS)), options and foreign-exchange forward contracts on regulated, organized and/or OTC markets in order to hedge the portfolio and/or expose it to equity, interest rate, credit, foreign-exchange and volatility risk. We consider the impact of the use of derivatives on the SRI quality of the Sub-Fund to be limited. Calculations of the ESG score/rating of the Sub-Fund are carried out only on bonds within the portfolio.</p> <p>Although this Sub-Fund is classified Article 8 SFDR, the investments underlying this Sub-Fund do not take into account the EU criteria for environmentally sustainable economic activities. (Article 7 of EU Taxonomy</p>
