This Annual Report and Audited Financial Statements (the "Report and Accounts") may be translated into other languages. Any such translation shall only contain the same information and have the same meaning as the English language Report and Accounts. To the extent that there is any inconsistency between the English language Report and Accounts and the Report and Accounts in another language, the English language Report and Accounts will prevail, except to the extent (and only to the extent) that it is required by law of any jurisdiction where the shares are sold, that in an action based upon disclosure in a Report and Accounts in a language other than English, the language of the Report and Accounts on which such action is based shall prevail. Any disputes as to the terms of the Report and Accounts, regardless of the language of the Report and Accounts, shall be governed by and construed in accordance with the laws of Ireland.

Directors' Report

The Board of Directors (the "Directors" or the "Board") present their annual report together with the audited financial statements for the financial year ended 31 March 2024. Lazard Global Active Funds plc (the "Company") is an open-ended investment company with variable capital structured as an umbrella fund with segregated liability between sub funds (individually referred to as the "Fund" and collectively the "Funds"), which at the financial year end had 26 Funds in existence, 16 of which were active (31 March 2023: 17 active Funds).

The investment objectives of each Fund within the Company are set out in the Prospectus. The Company is authorised by the Central Bank as a UCITS pursuant to the Central Bank UCITS Regulations.

Statement of Directors' Responsibilities

The Directors are responsible for preparing the Directors' Report and the financial statements in accordance with Irish applicable law and regulations.

Irish Company law requires the Directors to prepare financial statements for each financial year that give a true and fair view of the Company's assets, liabilities and financial position as at the end of the financial year and of the profit or loss of the Company for the financial year. Under that law, the Directors have prepared the financial statements in accordance with Financial Reporting Standard 102 "The Financial Reporting Standard applicable in the United Kingdom and Republic of Ireland" ("FRS 102").

Under Irish Company law, the Directors shall not approve the financial statements unless they are satisfied that they give a true and fair view of the Company's assets, liabilities and financial position as at the end of the financial year and of the profit or loss of the Company for the financial year.

In preparing these financial statements, the Directors are required to:

- select suitable accounting policies and then apply them consistently;
- make judgements and estimates that are reasonable and prudent;
- state whether the financial statements have been prepared in accordance with applicable accounting standards and identify the standards in question, subject to any material departures from those standards being disclosed and explained in the notes to the financial statements; and
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the Company will continue in business.

The Directors are responsible for keeping adequate accounting records that are sufficient to:

- correctly record and explain the transactions of the Company;
- enable, at any time, the assets, liabilities, financial position and profit or loss of the Company to be determined with reasonable accuracy; and
- enable the Directors to ensure that the financial statements comply with the Companies Act 2014 and enable those financial statements to be audited.

The Directors are also responsible for safeguarding the assets of the Company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

The Directors have taken all reasonable measures to secure compliance with the Company's obligation, under Section 281 to 285 of the Companies Act 2014 to keep proper accounting records and the use of appropriate systems and procedures and the employment of competent persons. The accounting records are kept at the following address: 78 Sir John Rogerson's Quay, Dublin 2, D02 HD32, Ireland.

The measures taken by the Directors to ensure compliance with the Company's obligation to keep adequate accounting records are through the appointment of an experienced administrator, State Street Fund Services (Ireland) Limited, (the "Administrator"), and through such appointment, the use of appropriate systems and procedures. The accounting records are held at the office of the Administrator. Under the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations, 2011 (as amended), (the "UCITS Regulations") and the Central Bank's (Supervision and Enforcement) Act 2013 (section 48(1)) UCITS Regulations 2019 (as amended), (the "Central Bank UCITS Regulations"), the Directors are required to entrust the assets of the Company to a depositary for safe-keeping. In carrying out this duty, the Company has delegated custody of the Company's assets to State Street Custodial Services (Ireland) Limited, (the "Depositary"). Both the Administrator and the Depositary are regulated by and under the supervision of the Central Bank of Ireland (the "Central Bank").

Directors' Report (continued)

Statement of Directors' Responsibilities (continued)

Audited annual reports and unaudited half yearly reports are available on www.lazardassetmanagement.com. The Directors are responsible for the maintenance and integrity of the financial statements. Lazard Fund Managers (Ireland) Limited (the "Manager") ensures they are accurately published on the website. Information published on the internet is accessible in many countries with different legal requirements. Legislation in the Republic of Ireland governing the preparation and dissemination of financial statements may differ from legislation in other jurisdictions.

Statement of Directors' Compliance

The Directors acknowledge that they are responsible for securing the Company's compliance with the relevant obligations as set out in Section 225 of the Companies Act 2014 and all tax law within the Republic of Ireland (the "relevant obligations").

The Directors confirm that:

1. a compliance policy statement has been drawn up that sets out policies, which in the Directors' opinion are appropriate to the Company, respecting compliance by the Company with its relevant obligations;
2. appropriate arrangement or structures are in place that are, in the Directors' opinion, designed to secure material compliance with the Company's relevant obligations; and
3. during the financial year, the arrangements or structures referred to in (2) have been reviewed.

Connected Persons Transactions

In accordance with the requirements of the Central Bank UCITS Regulations 43(1), any transaction carried out with the Company by its management company or depositary, and the delegates or sub-delegates of such a management company or depositary (excluding any non-group company sub-custodians appointed by a depositary), and any associated or group company of such a management company, depositary, delegate or sub-delegate ("Connected Persons") must be carried out as if negotiated at arm's length. Such transactions must be in the best interests of the shareholders.

Therefore, having regard to confirmations from the Company's management and its relevant delegates, the Directors of the Company are satisfied that:

- (i) there are arrangements (as evidenced by written procedures documented by the Manager) in place to ensure that the obligations described above are applied to all transactions with Connected Persons; and
- (ii) transactions with Connected Persons entered into during the financial year complied with these obligations, as attested by the Manager through regular updates to the Directors.

Details of fees paid to related parties and certain Connected Persons are set out in Note 3 and Note 12 to the financial statements. However, shareholders should understand that not all "Connected Persons" are related parties as such latter expression is defined by Section 33 of FRS 102.

Review of Business and Future Developments

The Investment Managers' Reports contain a review of the factors which contributed to the performance for the financial year. The Directors do not anticipate any changes in the structure of the Company or investment objectives of any of the Funds in the immediate future.

Lazard Global Equity Income Fund was fully redeemed on 19 February 2019, Lazard Sterling High Quality Bond Fund was fully redeemed on 14 October 2019, Lazard Pan European Equity Fund, Lazard UK Omega Equity Fund were fully redeemed on 25 November 2019, Lazard MENA Fund was fully redeemed on 28 May 2020, Lazard Global Strategic Equity Fund was fully redeemed on 27 July 2021, Lazard Emerging Markets Core Equity Fund was fully redeemed on 30 June 2022 and Lazard Emerging World Fund was fully redeemed on 17 January 2023, as these Funds have Nil balances, they are no longer being shown on the Statement of Comprehensive Income, the Statement of Financial Position or the Statement of Changes in Net Assets Attributable to Redeemable Participating Shareholders. Lazard Developing Markets Equity Fund was fully redeemed on 31 July 2023 and Lazard Global Thematic Fund was fully redeemed on 29 January 2024. Lazard Pan European Small Cap Fund was fully redeemed on 13 June 2024. All fully redeemed Funds are pending application to the Central Bank to revoke the Fund's authorisation. A notice has been issued to fund investors to close Lazard Global Managed Volatility Fund. The final redemptions from the Fund will be on or before 17 July 2024. The Company will continue to act as an investment vehicle as set out in its Prospectus. A review and the outlook for the Funds is included in the Investment Managers' Reports. The Financial Statements except as noted above are prepared on a going concern basis.

Directors' Report (continued)

Geo-political and Market Events

Fund portfolios may incur losses due to declines in one or more markets in which it invests. These declines may be the result of, among other things, political, regulatory, market, economic or social developments affecting the relevant market(s). To the extent that such developments impact specific industries, market sectors, countries or geographic regions, a Fund's investments in such industries, market sectors, countries and/or geographic regions can be expected to be particularly affected, especially if such investments are a significant portion of its investment portfolio. In addition, turbulence in financial markets and reduced liquidity in equity, credit and/or fixed income markets may negatively affect many issuers, which could adversely affect a Fund. Global economies and financial markets are increasingly interconnected, and conditions and events in one country, region or financial market may adversely impact issuers worldwide. As a result, local, regional or global events such as war or military conflict, acts of terrorism, the spread of infectious illness or other public health issues, social unrest, supply chain disruptions, market manipulations, government defaults, government shutdowns, the imposition of sanctions and other similar measures, recessions or other events could have a significant negative impact on global economic and market conditions. Additionally, general market conditions may impact the value of a Fund's securities, including changes in interest rates, currency rates or monetary policies. It is not known how long the effects of such impacts, or any future impacts of other significant events described above, will or would last, but there could be a prolonged period of global economic slowdown, which may be expected to impact a Fund and its investments.

Risk Management Objectives and Policies

Information in relation to the Company's risk management objectives and policies is included in Note 9 of the financial statements.

Results and Distributions

The results and distributions for the financial year are set out in the Statement of Comprehensive Income. Please see Note 13 for details of any distributions paid during the financial years ended 31 March 2024 and 31 March 2023 and Note 15 for post financial year end distributions.

Significant Events During the Financial Year and Since the Financial Year End

Please see Notes 14 and 15 for details of significant events during the financial year and since the financial year end, respectively.

Directors

The names of the persons who were Directors of the Company during the financial year ended 31 March 2024 are set out below:

Deirdre Gormley (Irish)*/**/**
Andreas Hübner (German)**
Jeremy Taylor (British)**/**
Samantha McConnell (Irish)*/**/**
Denis Faller (French)

* Independent Directors.

** Members of the Audit Committee.

*** Members of the LFMI Risk Committee.

All Directors are Non-Executive with the exception of Denis Faller who is an Executive Director of the Manager.

All Directors of the Company are also Directors of the Manager.

Transactions Involving Directors

As contemplated by the Corporate Governance Code issued by the Irish Funds (see below), Letters of Appointment have been entered into between the Company and each of the Directors, all terminable on three months' notice.

All of the Directors are also Directors of the Manager, and have an interest in fees paid by the Company to the Manager.

Directors' Report (continued)

Directors' and Secretary's Interests in Shares and Contracts

None of the Directors or the Secretary held an interest in the shares of the Company during the financial years ended 31 March 2024 or 31 March 2023.

The Directors are not aware of any other contracts or arrangements of any significance in relation to the business of the Company.

Directors' fees paid and payable are disclosed in Note 3 to the financial statements.

Corporate Governance Statement

Irish Funds, the association for the funds industry in Ireland, has published a corporate governance code (the "Code") that may be adopted on a voluntary basis by Irish authorised collective investment schemes. The Board of Directors has adopted the Code and the Company was in compliance with all elements of the Code during the financial year.

Audit Committee

An Audit Committee, currently consisting of Deirdre Gormley, Jeremy Taylor and Samantha McConnell, who are all non-executive directors, has been formed since 2013 and is charged with oversight of the Company's audit and financial control functions.

The Directors acknowledge that they are required, under Section 167 of the Companies Act 2014, to consider the establishment of an Audit Committee which meets the requirements of that Section. Section 167 requires, amongst other things, that the members of such an Audit Committee shall include at least one independent director, meaning a person who is:

- (i) a non-executive Director;
- (ii) possesses the required degree of independence so as to enable the Director to contribute effectively to the committee's functions (being a director who has not, or in the period of the three years preceding his or her appointment to the committee, did not have, a material business relationship with the company); and
- (iii) is a person who has competence in accounting or auditing.

In accordance with Section 332 of the Companies Act 2014 each of the persons who are Directors at the time that the report is approved confirm the following:

- (i) so far as the Director is aware there is no relevant audit information of which the Company's auditors are unaware; and
- (ii) the Director has taken all the steps that he or she ought to have taken as a Director in order to make himself or herself aware of any relevant audit information and to establish that the Company's statutory auditors are aware of that information.

Disclosure of Information to the Auditors

So far as each person who was a Director at the date of approving this report is aware, there is no relevant audit information, being information needed by the auditors in connection with preparing their report, which they have not disclosed to the auditors. Each Director has taken all the steps that they are obliged to take as a Director in order to make themselves aware of any relevant audit information and to ensure that it is disclosed to the auditors.

Independent Auditors

The independent auditors, PricewaterhouseCoopers, have indicated their willingness to remain in office in accordance with Section 383(2) of the Companies Act 2014.

On behalf of the Board of Directors

Director: Deirdre Gormley

Director: Samantha McConnell

Date: 27 June 2024

Investment Managers' Report

Lazard Global Listed Infrastructure Equity Fund

Investment Review

Over the 12-month period ending 31 March 2024, the Lazard Global Listed Infrastructure Equity Fund (the "Fund") returned 9.33% in sterling terms, against a return of 3.85% for the MSCI World Core Infrastructure (GBP Hedged) Index¹.

Market Review

Global stock markets rose sharply despite uncertainty about the outlook for interest rates. Inflation concerns hung over markets, putting the actions of central banks front of mind for investors. Early in the 12-month period, markets rallied on hopes that a severe worldwide economic recession could be avoided, but that optimism faded in subsequent months after major central banks all warned that they were prepared to keep interest rates at elevated levels for a protracted period to ease inflationary pressure. The tide began to turn starting in November 2023 after encouraging inflation data stoked hopes that enough progress had been made to convince major central banks to end their aggressive rate-hiking campaigns. Further boosting risk appetites during the period was the ongoing fervour over artificial intelligence (AI), which raised hopes that the resultant frenzy would support economic growth worldwide.

Portfolio Review

What Contributed to Returns:

- Toll road and airport owner and operator Ferrovial maintained its strong performance from 2023 into early 2024, following the sale of its 25% stake in Heathrow Airport for £2.4 billion, a 27% premium to the regulatory asset base. The company also released robust results, helped by new toll roads.
- Freight railroad Norfolk Southern added to performance as freight volumes rose and the company's operating performance improved. In early 2024, its share price was boosted by news that an activist group had acquired a US\$1 billion stake in the railroad.
- Freight railroad CSX performed strongly following the release of its full-year 2023 results and management's 2024 guidance.

What Detracted from Returns

- Satellite operator Eutelsat detracted from performance in the last quarter of 2023 after reporting quarterly results. Despite upgraded earnings estimates, the company's share price continued to slide after its merger with OneWeb.
- Global toll road operator Atlas Arteria detracted following news of proposed changes to the French concession regime and a new concessions tax.
- UK water utilities companies Pennon and Severn Trent fell as the market was focused on high growth technology companies. Continued media coverage on pollution data led to further scrutiny of the sector, especially at a time when Thames Water is facing discussions over its high indebtedness outside of the regulatory structure set up by its private equity owners.

Outlook

A combination of volatile equity markets and our conservative approach leads us to view current market conditions cautiously. We believe inflation will remain above most central bank target ranges for several years ahead. High bursts of inflation have positive cashflow implications for toll roads, airports, railways and non-US utilities. In contrast, we remain cautious of the US utilities sector as the implications of higher inflation are likely negative.

All data contained herein is sourced by Lazard Asset Management unless otherwise noted as at 31 March 2024.

¹ **Source:** Lazard Asset Management. NAV to NAV price, net income reinvested in sterling terms, 'A' accumulation share class net of fees, to 31 March 2024. Index returns shown on a total return basis.

Fund Manager: Bertrand Cliquet and team.

Figures refer to past performance which is not a reliable indicator of future results.

Lazard Asset Management Pacific Co.
31 March 2024

Investment Managers' Report (continued)

Lazard Global Sustainable Equity Fund

Investment Review

Over the 12-month period ending 31 March 2024, the Lazard Global Sustainable Equity Fund (the "Fund") returned 21.25% in US dollar terms, against the MSCI AC World Index, which returned 23.22%¹.

Market Review

Global stock markets rose sharply despite uncertainty about the outlook for interest rates. Concerns over inflation hung over markets, putting the actions of central banks front of mind for investors. Early in the 12-month period, markets rallied on hopes that a severe worldwide economic recession could be avoided, but that optimism faded in subsequent months after the major central banks all warned that they were prepared to keep interest rates at elevated levels for a protracted period to ease inflationary pressure. The tide began to turn starting in November 2023 after encouraging inflation data stoked hopes that enough progress had been made to convince central banks to end their rate-hiking campaigns. Further boosting risk appetites during the period was the ongoing fervour over artificial intelligence (AI), which raised hopes that the resultant frenzy would support economic growth worldwide.

Portfolio Review

What Contributed to Returns:

- Stock selection and an overweight position in the information technology sector contributed to performance.
- Owning Nvidia, an AI chip designer, after the company reported strong earnings throughout the year. Investors were enthusiastic about its leadership position in graphics processing units (GPUs) for use in generative AI applications.
- Owning Microsoft as it reported generally strong earnings amid investor optimism about the company's potential to benefit from AI leadership.

What Detracted from Returns:

- Stock selection in the financials sector detracted from performance.
- Owning HDFC, the largest private-sector lender in India, after it reported lower-than-expected earnings with disappointing net interest margins due to a tight liquidity environment.
- Stock selection in the healthcare sector detracted. Specifically, owning Thermo Fisher, a global pharmaceuticals and biotechnology company, was unhelpful amid a constrained biotechnology spending environment in 2023.

Outlook

We expect to see continued volatility as the Federal Reserve and other central banks seek to balance the goals of maintaining financial stability and controlling inflation. While the market in the first quarter of 2024 was still narrow, we expect it to broaden and believe that our focus on financial productivity and valuation will benefit in that more normalised market environment.

All data contained herein is sourced by Lazard Asset Management unless otherwise noted as at 31 March 2024.

¹ **Source:** Lazard Asset Management, NAV to NAV price, net income reinvested in US dollars, 'A' accumulation share class, net of fees, to 31 March 2024. Index returns shown on a total return basis.

Fund Manager: Louis Florentin-Lee and Barnaby Wilson.

Figures refer to past performance which is not a reliable indicator of future results.

Lazard Asset Management LLC

31 March 2024

Investment Managers' Report (continued)

Lazard Global Managed Volatility Fund

Investment Review

Over the 12-month period ending 31 March 2024, the Lazard Global Managed Volatility Fund (the "Fund") returned 13.22% in euro terms, against the MSCI World NR Index, which returned 25.86%¹.

Market Review

Global stock markets rose sharply despite uncertainty about the outlook for interest rates. Concerns about inflation hung over markets, putting the actions of central banks front of mind for investors. Early in the 12-month period, markets rallied on hopes that a severe worldwide economic recession could be avoided, but that optimism faded in subsequent months after the major central banks all warned that they were prepared to keep interest rates at elevated levels for a protracted period to ease inflationary pressure. The tide began to turn starting in November 2023 after encouraging inflation data stoked hopes that enough progress had been made to convince central banks to end their rate-hiking campaigns. Further boosting risk appetites during the period was the ongoing fervour over artificial intelligence (AI), which raised hopes that the resultant frenzy would support economic growth worldwide.

Portfolio Review

What Contributed to Returns:

- Owing Novo Nordisk, a Danish pharmaceuticals company, which outlined its pipeline strategy for various therapeutic areas, provided guidance on enhancing operating margins beyond 2024, and disclosed preliminary phase one data for a new obesity programme.
- Owing industrial supplier W.W. Grainger after it enjoyed sustained sales momentum in the US and robust demand for non-pandemic, durable products.
- Owing US real estate investment trust Vornado Realty Trust, which experienced growth in revenue and net operating income.

What Detracted from Returns:

- Owing confectionary producer Hershey Company. It expressed concerns about diminishing elasticities of demand, increasing competitive pressures and market share decline in the North American market.
- Owing food conglomerate General Mills. Its struggling pet segment and a significantly reduced sales outlook for 2024 overshadowed positive sentiment stemming from improved margins and earnings per share performance.
- Owing Japanese gaming group Sega Sammy, whose share price continued to decline during the period after it lowered its earnings guidance. Additionally, the company plans to record a ¥3bn impairment.

Outlook

Looking ahead to the remainder of 2024, we believe the market has fully priced in potential interest rate cuts, and future market gains will be driven largely by corporate earnings and economic growth. Valuation expansion is reaching its upper limit, particularly in the US, and will not be a major source of return. The November US presidential election and geopolitical tensions are expected to continue to raise investor anxieties. We expect volatility to escalate as we move into the latter half of the year. Given the gains in the first quarter of 2024, we expect the remainder of the year to likely be more tepid in terms of market return. At the same time, the valuation disparities and broadening of market leadership should provide opportunities for our bottom-up stock selection process to earn an excess return that is well above the market indices.

All data contained herein is sourced by Lazard Asset Management unless otherwise noted as at 31 March 2024.

¹ **Source:** Lazard Asset Management, NAV to NAV price, net income reinvested in euros, 'A' accumulation share class, net of fees, to 31 March 2024. Index returns shown on a total return basis.

Fund Manager: Paul Moghtader and team.

Investment Managers' Report (continued)

Lazard Global Thematic Focus Fund

Investment Review

Over the 12-month period ending 31 March 2024, the Lazard Global Thematic Focus Fund (the "Fund") returned 17.58% in US dollar terms, against the MSCI AC World Index, which returned 23.22%¹.

Market Review

Global stock markets rose sharply over the 12-month period despite uncertainty about the outlook for interest rates. Inflation concerns hung over markets, putting the actions of central banks front of mind for investors. Early in the 12-month period, markets rallied on hopes that a severe worldwide economic recession could be avoided, but that optimism faded in subsequent months after major central banks all warned that they were prepared to keep interest rates at elevated levels for a protracted period to ease inflationary pressure. The tide began to turn starting in November 2023 after encouraging inflation data stoked hopes that enough progress had been made to convince central banks to end their rate-hiking campaigns. Further boosting risk appetites during the period was the ongoing fervour over artificial intelligence (AI), which raised hopes that the resultant frenzy would support economic growth worldwide.

Portfolio Review

What Contributed to Returns:

- The Software as a Standard theme contributed most to returns, led by Microsoft, Salesforce and Adobe, on positive sentiment around increased integration of new generation AI tools into broader software offerings.
- The Data and AI theme also performed well, with bullish sentiment about AI providing a tailwind for holdings in the theme, led by Alphabet and RELX.

What Detracted from Returns:

- The Smart Capex theme lagged as demand in factory automation and robotics markets was weaker amid inventory normalisation and weak Chinese demand, hurting names such as Fanuc and Cognex.
- The Energy Transitions theme also underperformed the market due to expectations for higher cost of capital for renewable development and policy uncertainty ahead of the US presidential election.

Outlook

Two key areas remain in focus. First, the macroeconomic background and policy, with structural growth opportunities looking particularly interesting at a time of cyclical weakness. Recently many cyclical stocks faced a twin headwind of inventory destocking and weak global trade, particularly related to China. Our conviction remains in the structural drivers of supply chain resilience, national security and reshoring in a multipolar world, sustainability goals and regulation.

The second key area is AI and technology. AI continues to dominate the headlines and market sentiment. Our focus remains on the long-term question of where gains from AI will ultimately accrue. Given the breadth of impact, AI exposure is embedded across all themes in the portfolio. The team is cognisant of valuation and focused on ideas that solve challenges such as power demand (Energy Transitions theme), real world pricing models evolving in the Software as a Standard and Data and AI themes, and opportunities to reduce costs in the Bits of Chips theme.

Lazard Global Equity Franchise Fund

Investment Review

Over the 12-month period ending 31 March 2024, the Lazard Global Equity Franchise Fund (the "Fund") returned 10.96% in US dollar terms, against a return of 25.11% for the MSCI World Index¹.

Market Review

Global stock markets rose sharply despite uncertainty about the outlook for interest rates. Concern over inflation hung over markets, putting the actions of central banks front of mind for investors. Early in the 12-month period, markets rallied on hopes that a severe worldwide economic recession could be avoided, but that optimism faded in subsequent months after the major central banks all warned that they were prepared to keep interest rates at elevated levels for a protracted period to ease inflationary pressure. The tide began to turn starting in November 2023 after encouraging inflation data stoked hopes that enough progress had been made to convince central banks to end their rate-hiking campaigns. Further boosting risk appetites during the period was the ongoing fervour over artificial intelligence (AI), which raised hopes that the resultant frenzy would support economic growth worldwide.

Portfolio Review

What Contributed to Returns

- Owning H&R Block, the largest tax agent in the US and the second-largest online tax software package provider. It reported better-than-expected full-year results in August 2023 and announced significant share buybacks.
- Owning IT outsourcer Cognizant after the efforts of its new management team were rewarded with a significant increase in its share price in 2023.
- Owning global e-commerce company eBay after it reported slightly better than expected Q4 2023 results and guided towards a stabilisation of gross merchandise volumes and an increase in profit margins.

What Detracted from Returns

- Owning specialist physician group Pediatrix Medical Group was unhelpful after its third-quarter results fell below expectations. The company also lowered its full-year 2023 earnings guidance due to clinician compensation expense growth outpacing customer prices.
- Owning Tapestry after the luxury retailer announced the acquisition of Capri Holdings, the parent company of Michael Kors, Versace and Jimmy Choo. This deal came as a surprise given the retailer's momentum with their current strategy.
- Owning Nexi, Europe's largest merchant acquirer, which saw a drop in its share price despite reporting solid results and announcing a €500 million share buyback.

Outlook

The portfolio holds high-quality franchise companies. The companies are market leaders and monopolies with higher long-run earnings predictability than the wider market and which are trading at reasonable valuations. Our portfolio is now trading at a sizeable discount to our assessment of its intrinsic value as well as the broader MSCI World Index on several valuation measures. We believe the economic franchise characteristics we seek for all our investments will continue to serve our investors well over the long run.

Lazard Asset Management Pacific Co.

31 March 2024

Lazard Digital Health Fund

Investment Review

Over the 12-month period ending 31 March 2024, the Lazard Digital Health Fund (the "Fund") returned -5.05% in US dollar terms, against the MSCI World Health Care Index, which returned 13.32%, and the MSCI World Index, which returned 25.11%¹.

Market Review

Global stock markets rose sharply over the 12-month period despite uncertainty about the outlook for interest rates. Anxiety about inflation hung over markets, putting the actions of central banks front of mind for investors. Markets initially rallied on hopes that a severe worldwide economic recession could be avoided, but that optimism faded in subsequent months after the major central banks all warned that they were prepared to keep interest rates at elevated levels for a protracted period to ease inflationary pressure. The tide began to turn from November 2023 after encouraging inflation data stoked hopes that enough progress had been made to convince major central banks to end their rate-hiking campaigns. Further boosting risk appetites during the period was the ongoing fervour over artificial intelligence, which raised hopes that the resultant frenzy would support economic growth worldwide.

Portfolio Review

What Contributed to Returns:

- Owning Shockwave Medical, a US-based healthcare technology company known for its intravascular lithotripsy technology. Its share price rose after fourth quarter 2023 sales and earnings surpassed consensus estimates. The shares were later boosted by news that Johnson & Johnson was considering acquiring the company, with a transaction announced in early April.
- Owning CRISPR Therapeutics, which traded higher on news that the US-based gene editing company had received approval from US and UK regulators for Exa-cel, the world's first gene editing therapy. Exa-cel is an effective treatment for sickle cell disease.
- Owning Lonza Group, a Swiss contract drug manufacturer, which reported strong results for the second half of 2023. Subsequently, the company agreed to buy a large biologic drug manufacturing facility from Roche, prompting an update to Lonza's 2024-2028 sales growth guidance.

What Detracted from Returns:

- During the recent period of rising interest rates, the stock market has favoured secure investments with low valuations and stable earnings, rather than rewarding innovation and long-term structural change in healthcare.
- In addition, while the broader market was driven by mega-cap stocks in the first quarter of 2024, the Digital Health universe, which is exposed to smaller companies at earlier stages of their lifecycle, did not participate in that rally.
- Owning Outset Medical detracted after the US-based home hemodialysis company pre-announced third-quarter 2023 results that were below expectations and lowered its outlook for the fiscal year.
- Owning Wuxi Biologics detracted after the China-based contract drugmaker reported weaker-than-anticipated third quarter results. Its share price fell further as geopolitical tensions rose with the introduction of the Biosecure Act, which aims to prevent Chinese companies from accessing US federal funding.

Outlook

The biotechnology funding environment has seen a remarkable recovery in 2024, with the first quarter witnessing a 191% year-on-year increase in funding (c. \$23 billion), marking the fourth-best quarter on record. This follows two years of weak funding that led to a 60% decline in the S&P Biotechnology Select Industry Index since February 2021. We believe the strong recovery in biotechnology funding is a leading indicator for accelerating growth within the Digital Health portfolio, as over 50% of the portfolio's holdings are expected to benefit from this recovery. M&A activity in healthcare also improved significantly in the first calendar quarter of 2024, with 30 biotech deals announced, compared to 14 in Q1 2023. With \$1.37 trillion M&A capacity among the top 25 healthcare companies, there is potential for significant deals unfolding in the near term.

The Fund focuses on long-term disruptive investment opportunities within healthcare. As noted above, trading within the investment universe was influenced by higher-for-longer rate concerns. However, while the exact timing of interest rate cuts remains uncertain, we believe the direction of travel is towards lower rates. The portfolio has demonstrated a positive response to declining rates in anticipation of future interest rate reductions, as last witnessed in November and December of 2023. Should this downward trend persist, we expect this to be positive for our portfolio holdings, which generally have longer duration characteristics.

Investment Managers' Report (continued)

Lazard European Equity Fund

Investment Review

Over the 12-month period ending 31 March 2024, the Lazard European Equity Fund (the "Fund") returned 17.36% in euro terms, against a return of 16.94% for the FTSE World Europe ex-UK Index¹.

Market Review

European stock markets advanced significantly over the 12-month period. Share prices were driven higher by a couple of key themes.

First, optimism surrounding the immediacy of artificial intelligence (AI) applications for businesses acted. There are several European businesses that are at the forefront of certain AI technologies.

Second, and more impactfully, there was a sharp rally into the end of 2023 driven by optimism about the global outlook for interest rates. The market was encouraged by the view inflation had fallen enough for major central banks to finally end their restrictive monetary policies and perhaps even begin cutting interest rates in the months ahead. The resultant fall in yields eased the pressure equities had been under during the third quarter.

Momentum in European equities continued into 2024, leading European markets to new all-time highs. Earnings season was largely positive for stocks, with some of Europe's largest companies demonstrating continued strength.

The European Central Bank (ECB) left interest rates unchanged at a record high for a fourth consecutive policy meeting in March. The ECB reiterated that it was making good progress in driving down inflation to its 2% target, though it was still not there yet, and strongly hinted that rate cuts may begin this summer.

European economic data paints a complex picture. Stagnant production in Germany and France, alongside modest gains in Southern Europe, has caused eurozone economic growth to flatline. However, recent data paints a slightly more optimistic picture looking ahead. Despite struggles in the manufacturing sector, services purchasing manager surveys have inflected into expansion territory. The labour market also remains favourable and wages have risen. The combination of falling inflation, a stable jobs market, and higher wage growth has resulted in rising real consumer incomes in Europe.

Portfolio Review

What Contributed to Returns:

- Stock selection in energy and financials.
- Owning Italian bank UniCredit, which continued to exceed investor earnings expectations. It is returning 20% of capital to shareholders, growing revenues and cutting costs.
- Not owning consumer goods business Nestlé, which underperformed the market.

What Detracted from Returns:

- Stock selection in consumer discretionary and allocation to industrials.
- Owning electrical utilities company Energias de Portugal, which lagged the index amid falling power prices.
- Owning Forvia, a French car parts supplier, which underperformed the market after cost inflation along with flat production led to disappointing results.

Outlook

While there remains scope for macroeconomic indicators to disappoint as currently high interest rates continue to bite, on balance, we believe European equity investors can look forward to the coming months with mild optimism. Supportive valuations, the potential for incremental improvements in the economic picture, helped in part by lower energy costs feeding through to lower manufacturing input prices, and the near-term prospect of a start to the rate-cutting cycle suggest European equities can extend their recent strength.

Investment Managers' Report (continued)

Lazard Pan-European Small Cap Fund

Investment Review

Over the 12-month period ending 31 March 2024, the Lazard Pan-European Small Cap Fund (the "Fund") returned 8.22% in euro terms, against the MSCI Europe Small Cap Index, which returned 10.20%¹.

Market Review

Stocks in European smaller companies rose during the period. The European Central Bank (ECB) increased interest rates by 25 basis points (bp) in May, June, July and September 2023, pushing borrowing costs to an all-time high, before holding them steady thereafter. Despite data showing that eurozone inflation had fallen materially from its double-digit peak, the ECB vowed to make rate cuts only when data confirmed it had its battle against inflation. However, it acknowledged in March that it was making good progress in driving down inflation to its 2% target.

Similarly, in the UK, the Bank of England (BoE) increased interest rates by 25bps, 50bps and 25bps in May, June and August 2023, respectively, before leaving them unchanged thereafter. While the BoE warned that it would need to see domestic inflation fall back to its 2% target and stay there before it would lower rates, it did acknowledge in March that "things were moving in the right direction", fuelling hopes that the central bank may begin cutting rates as early as June.

Portfolio Review

What Contributed to Returns:

- Owning Austrian bank Bawag Group after it reported solid quarterly results in the latter part of the period and announced plans to acquire Dutch digital banking company Knab.
- Owning UK-listed plastic piping systems-maker Genuit as the company continued to show strong execution and operational efficiencies amid difficult end-market dynamics.

What Detracted from Returns:

- Owning CAB Payments, a UK-listed payments and foreign exchange services provider, which suffered a profit warning.
- Owning UK-listed automotive parts supplier Dowlais, which fell amid slower end-market demand and uncertainty around the pace of the electric vehicle transition.

Outlook

We are positive on the outlook for smaller company stocks, which we believe present an attractive opportunity set. The asset class trades at near-historic discounts to both large-cap peers and its own history. Coupled with a more normalised market environment that favours corporate fundamentals, we believe our focus on companies with strong financial productivity trading at attractive valuations will translate into outperformance over the long term.

Lazard US Equity Concentrated Fund

Investment Review

Over the 12-month period ending 31 March 2024, the Lazard US Equity Concentrated Fund (the "Fund") returned 9.18% in US dollar terms, against the S&P 500 index, which returned 29.27%¹.

Market Review

As expected, the Federal Reserve (the Fed) kept interest rates steady at a 22-year high following policy meetings in September, November and December 2023. However, after months of signalling that it was adopting a "higher for longer" interest rate policy stance, the US central bank began taking a milder tone in November, as data suggested that a soft landing for the US economy was growing increasingly likely. Investors cheered when the Fed hinted that its rate-hiking campaign had reached its conclusion and forecast that it could reduce interest rates three times in 2024. After briefly exceeding the psychologically important threshold of 5% in late October, the yield on the benchmark 10-year US Treasury ended the year exactly where it started at 3.88%. The S&P 500 index rallied strongly and came within 0.6% of its record high at the end of 2023 on growing expectations that the Fed would pivot to a more relaxed stance on interest rates. The 'Magnificent Seven' group of mega-cap technology stocks accounted for roughly two-thirds of the index's gain in 2023.

The conclusion of the fourth-quarter corporate earnings season painted an encouraging picture of how company profits have continued to be resilient against interest-rate headwinds, with earnings up 4.2% from a year earlier. US stocks rose strongly in the first quarter of 2024 as further optimism that the domestic economy will avoid a recession extended the rally.

Portfolio Review

What Contributed to Returns:

- Construction materials producer and distributor Vulcan Materials contributed positively to performance with generally strong earnings driven by pricing increases.
- Alphabet, Google's parent company, rose amid generally strong earnings and investor optimism after the company showcased its artificial intelligence capabilities across its product suite at its annual developer conference.
- FIS, a leading provider of outsourced technology to banks and financial institutions, rose in anticipation of the sale of its majority stake in Worldpay. The company also reported generally solid earnings underpinned by cost control.

What Detracted from Returns:

- Dental equipment-maker Envista's share price fell after management significantly reduced earnings expectations for 2023 and 2024.
- Shares of cell tower operator Crown Castle underperformed amid headwinds from rising interest rates and after expectations of interest rate cuts were pushed back. Higher rates make REIT dividend payouts relatively less attractive.
- Internet infrastructure provider VeriSign reported solid earnings that were in line with expectations. However, its share price fell amid expectations of lower domain growth.

Outlook

We expect to see continued volatility as the Fed aims to balance the goals of maintaining financial stability and controlling inflation. As active stock pickers, we seek to take advantage of this volatility by adding capital to high-quality companies trading at attractive valuations that may be out of favour and investing in companies that are positioned to improve their returns. While US stock market leadership remained fairly narrow in the first quarter of 2024, we expect it to broaden. We believe that our strategy's focus on financial productivity and valuation should benefit in a more normalised market environment.

All data contained herein is sourced by Lazard Asset Management unless otherwise noted as at 31 March 2024.

Financial year ended 31 March 2024

Investment Managers' Report (continued)

Lazard Japanese Strategic Equity Fund

Investment Review

Over the 12-month period ending 31 March 2024, the Lazard Japanese Strategic Equity Fund (the "Fund") returned 48.29% in yen terms, against the Tokyo Stock Price Index (TOPIX) Total Return Index, which returned 41.34%¹.

Market Overview

The Japanese equity market's exceptionally strong performance over the 12-month review period was driven by two major themes: improving corporate governance and the country's exit from deflation. Following announcements by the Tokyo Stock Exchange in early 2023 designed to ensure Japanese management teams focus on their companies' cost of capital and share prices, there has been an acceleration in corporate activity. This has ranged from higher dividend payout policies and share repurchase programmes to the elimination of long-standing crossholding structures.

While inflationary pressure until this year was driven by external factors such as a weaker yen and Covid-19 related issues, it was domestic wage pressures that appeared to lead the Bank of Japan to exit its longstanding negative interest policy towards the end of the review period. This highly symbolic move represented a long-awaited exit from deflation to economic normalisation. As such, we have already begun to witness a change in consumption, investment and savings patterns. While many of these changes are still anecdotal, they suggest a potential shift in economic behaviour as the Japanese population finally abandons its deflationary mindset.

Lastly, the continued weakening of the Japanese yen over the fiscal year, from JPY 133/USD 1 to JPY 151/USD 1 was a tailwind for earnings sentiment and positive local currency performance.

Portfolio Review

What Contributed to Returns:

- Stock selection in information technology and materials and being overweight financials.
- Disco, a leading semiconductor capital equipment manufacturer, benefited from the boom in capital spending on artificial intelligence.
- Hitachi, a major industrial conglomerate, continued to be re-rated for its business portfolio rationalisation and increased focus on software and services.

What Detracted from Returns:

- Stock selection in consumer discretionary, industrials and communication services.
- Yakult, a leading probiotic beverage maker, lagged as concerns regarding Chinese demand continue to hurt the company's share price.
- Takeda, Japan's largest pharmaceutical company, lagged as a defensive stock in a strong market environment.

Outlook

We are positive on the medium and longer-term outlook for Japan as two key themes continue to play out. First, improvements in corporate governance are generating better capital efficiency and higher shareholder returns. The second key theme is the shift from deflation to inflation.

With the Nikkei 225 index reaching new highs, certain pockets of the market now appear to be trading ahead of fundamentals. However, we believe aggregate stock market valuations in Japan remain compelling. A market pullback is possible in the short term, but, in our view, that could be an opportunity for investors to re-evaluate their weighting to Japanese equities, considering the extremely positive structural changes underway in the Japanese market.

Lazard Emerging Markets Equity Fund

Investment Review

Over the 12-month period ending 31 March 2024, the Lazard Emerging Markets Equity Fund (the "Fund") returned 16.39% in US dollar terms, against the MSCI Emerging Markets Index, which returned 8.15%¹.

Market Review

Despite concerns over global economic activity and heightened geopolitical tensions, emerging markets stocks finished the 12-month period appreciably higher. Regional performance varied considerably, with Asia, the largest region in the index, lagging the benchmark but still recording gains. Latin American and European emerging markets performed very strongly. Concerns over the possibility of a global recession, commodity price volatility, combined with geopolitical instability, were the main features of the period. Markets rallied, especially towards the end of 2023 as investors began to expect a soft economic landing and became increasingly excited by artificial intelligence (AI) and its productivity potential. By sector, information technology, utilities and energy shares performed particularly well. Real estate, communications services, consumer discretionary and materials all performed poorly.

Portfolio Review

What Contributed to Returns:

- Security selection in the information technology, consumer discretionary, communication services and financials sectors.
- Being overweight the communication services and energy sectors and underweight the consumer discretionary sector.
- Security selection in Taiwan, South Korea, China and Brazil.

What Detracted from Returns:

- Security selection within the materials, consumer staples and healthcare sectors.
- Security selection in India.
- Being underweight India and Taiwan.

Outlook

We believe emerging markets equities remain one of the most mispriced asset classes globally with high and improving earnings growth and financial productivity, such as return on equity, free cash flow yield and dividend yield. Driven by more than just China, economic growth and optimism in emerging markets is starting to improve despite downside risks as developed markets' growth slows. As emerging market countries continue to improve policy, we believe the return of investors and inflows should build through the rest of the year.

All data contained herein is sourced by Lazard Asset Management unless otherwise noted as at 31 March 2024.

Lazard Asset Management LLC

31 March 2024

Lazard Emerging Markets Equity Advantage Fund

Investment Review

Over the 12-month period ending 31 March 2024, the Lazard Emerging Markets Equity Advantage Fund (the "Fund") returned 8.92% in US dollar terms, against the MSCI Emerging Markets Index, which returned 8.15%¹.

Market Review

Emerging market equities posted a solid overall performance despite a subdued performance in the first half of the review period. Higher interest rates along with heightened recessionary fears continued to dampen investor enthusiasm for equities. The European Central Bank and Federal Reserve maintained their tough rhetoric, acknowledging that there was still work to be done to lower inflation to their target levels.

Emerging market equities began the second half of the period with optimism over potential interest rate cuts given favourable downward trends in global inflation. The global economy remained strong and employment numbers, especially in the US, were tight. However, this optimism began to erode over the past two months as inflation figures remained above expectations and central banks in developed markets largely maintained tight monetary policy.

China's economic woes continued as the combination of real estate overbuilding, lack of consumer spending, youth unemployment and a weak policy response from the government disappointed investors and the market experienced significant capital outflows in the first quarter. India was the prime beneficiary of the capital outflows. Its population now exceeds that of China and GDP is expected to grow over 7%, approximately 50% faster than China. Emerging European and Latin American markets posted strong returns, benefiting from falling inflation and, until September, optimism over a stronger global economy and export sales. Taiwan rose as the demand for artificial intelligence (AI)-related technology benefited the country's semi-conductor industry.

Portfolio Review

What Contributed to Returns:

- Strong stock selection including within financials and materials.
- Owning Mediatek, a Taiwanese semiconductor company, which reported consistent rolling monthly increases in annual revenue. It is benefiting from consumer demand for AI-powered smart phones.
- Owning Taiwan Semiconductor Manufacturing Company, which benefited from the demand for high-end semiconductor chips to support AI applications. The company remains the world's dominant chip provider and continues to enjoy outsized growth.

What Detracted from Returns:

- Stock selection in utilities and consumer discretionary.
- Lack of exposure to Hon Hai Precision Industry, a contract electronic manufacturer and a large index constituent, hurt relative performance as its share price rose sharply over the period.
- Owning Yum China, a fast-food restaurant company, which was hurt by muted consumer spending in China. The company experienced high fixed costs and competition from other casual dining options.

Outlook

While we remain cautious in the near term, we continue to see long-term opportunity in emerging markets. Economic growth in these economies is outpacing developed markets and can be purchased at significant discounts to global opportunities. Emerging market central banks were among the first to hike interest rates to combat inflation, and, notwithstanding some notable exceptions, have largely been successful in doing so. Market bottoms are always difficult to time, but markets tend to price forward-looking expectations, which we find favourable in the emerging markets.

Lazard Emerging Markets Managed Volatility Fund

Investment Review

Over the 12-month period ending 31 March 2024, the Lazard Emerging Markets Managed Volatility Fund (the "Fund") returned 15.51% in US dollar terms, against the MSCI Emerging Markets Index, which returned 8.15%¹.

Market Review

Emerging market equities posted a solid overall performance despite a subdued performance in the first half of the review period. Higher interest rates along with heightened recessionary fears continued to dampen investor enthusiasm for equities. The European Central Bank and Federal Reserve maintained their tough rhetoric, acknowledging that there was still work to be done to lower inflation to their target levels.

Emerging market equities began the second half of the period with optimism over potential interest rate cuts given favourable downward trends in global inflation. The global economy remained strong and employment numbers, especially in the US, were tight. However, this optimism began to erode over the past two months as inflation figures remained above expectations and central banks in developed markets largely maintained tight monetary policy.

China's economic woes continued as the combination of real estate overbuilding, lack of consumer spending, youth unemployment and a weak policy response from the government disappointed investors and the market experienced significant capital outflows in the first quarter. India was the prime beneficiary of the capital outflows. Its population now exceeds that of China and GDP is expected to grow over 7%, approximately 50% faster than China. Emerging European and Latin American markets posted strong returns, benefiting from falling inflation and, until September, optimism over a stronger global economy and export sales. Taiwan rose as the demand for artificial intelligence (AI)-related technology benefited the country's semi-conductor industry.

Portfolio Review

What Contributed to Returns:

- Stock selection in the information technology, communication services and consumer discretionary sectors.
- Owning Wistron, a Taiwanese computer hardware manufacturer, which continued its strong performance, driven by its exposure to AI servers. Commercial replacement cycles and the need to upgrade for AI exposure continue to stimulate investor enthusiasm.

What Detracted from Returns:

- Being underweight energy and stock selection within the sector.
- Being underweight Taiwan Semiconductor Manufacturing Company, which benefited from the demand for high-end semiconductor chips to support AI applications.

Outlook

While we remain cautious in the near term, we continue to see long-term opportunity in emerging markets. Economic growth in these economies is outpacing developed markets and can be purchased at significant discounts to global opportunities. Emerging market central banks were among the first to hike interest rates to combat inflation, and, notwithstanding some notable exceptions, have largely been successful in doing so. Market bottoms are always difficult to time, but markets tend to price forward-looking expectations, which we find favourable in the emerging markets.

Lazard Global Sustainable Fixed Income Fund

Investment Review

Over the 12-month period ending 31 March 2024, the Lazard Global Sustainable Fixed Income Fund (the "Fund") returned -0.07% in US dollar terms, against the Bloomberg Global-Aggregate Total Return Index, which returned 0.49%¹.

Market Review

Global bond markets sold off over the 12-month reporting period, continuing an unprecedented period of challenging performance over the prior years caused by rising inflation and aggressive monetary policy tightening by central banks. Since the spring of 2022, the US Federal Reserve (Fed) had hiked interest rates by a cumulative 525 basis points (bps), which initially led to a significant strengthening of the US dollar. With other major central banks like the European Central Bank (ECB) following with rate rises, the dollar entered a narrow trading range. Shortly after the Fed and the ECB reached a peak in their respective cycles of interest rate hikes last summer, bond markets began to stabilise. October saw a peak in bond yields and the last two months of 2023 brought a strong recovery for bonds. The first quarter of 2024 then saw disinflation petering out, which led central banks to adopt a more cautious tone about interest rate cuts.

Elsewhere, the Bank of Japan (BoJ) continued to follow much looser monetary policy than other major central banks, despite signs of increasing inflationary pressures. This led to a significant weakening of the yen, especially against the US dollar. Even interventions in the foreign exchange market by the Japanese government could not prevent the yen from weakening. In the first quarter of 2024, the BoJ abandoned its yield-curve control mechanism and the negative yield regime, allowing 10-year Japanese government bond yields to move higher.

In the corporate bond market, credit spreads tightened after the risk aversion period in the early autumn after US economic growth proved stronger than expected. Corporate bond issuance recovered. Corporate defaults increased over the reporting period, albeit from a low level. Global issuance of ESG-labelled bonds continued, albeit at lower levels than in previous years.

Portfolio Review

What Contributed to Returns:

- Being underweight Japanese bonds.
- Being overweight Danish and Chilean bonds.
- Security selection in the US dollar, Australian dollar and euro yield curves.

What Detracted from Returns:

- Country allocation: being overweight Australian, New Zealand and Canadian bonds.
- Security selection in the Chilean and Mexican yield curves.
- Currency management: being overweight the New Zealand dollar and the Norwegian krona.

Outlook

Although this period of bond weakness has been generally painful for fixed income investors, the major central banks are seemingly near the end of their rate-tightening cycles. We believe current valuations are attractive and continue to look for diverse opportunities across interest rate, credit and currency markets, with a focus on ESG and sustainability factors. We are especially optimistic about fundamentals and valuations in high quality quasi-government bonds from Australia, New Zealand, Canada and Norway, as well as high-quality covered, sovereign external, supranational and corporate bonds in the US and European bond markets. We will continue to make tactical allocations to local and hard currency markets in smaller and emerging countries. We believe that select bond exposure in Eastern Europe, Asia and Latin America will add value in the coming periods and provides sources for carry, stability and diversification.

We will maintain our strong discipline by avoiding lower-quality markets, such as Argentina, Turkey and others that face idiosyncratic risks and challenging debt and fiscal conditions. We will remain underweight Chinese government debt as well as the Chinese renminbi, as term premia are too low and devaluation risk is elevated. The Fund owns green, social and sustainability-labelled bonds, along with investments in issuers whom we believe are pursuing sustainable initiatives or are sustainable businesses but choose not to label their bonds.

Depository's Report

Report of the Depository to the Shareholders

We have enquired into the conduct of Lazard Global Active Funds plc ("the Company") for the financial year ended 31 March 2024, in our capacity as Depository to the Company.

This report including the opinion has been prepared for and solely for the shareholders in the Company in accordance with Regulation 34, (1), (3) and (4) in Part 5 of the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011, as amended, ('the UCITS Regulations'), and for no other purpose. We do not, in giving this opinion, accept or assume responsibility for any other purpose or to any other person to whom this report is shown.

Responsibilities of the Depository

Our duties and responsibilities are outlined in Regulation 34, (1), (3) and (4) in Part 5 of the UCITS Regulations. One of those duties is to enquire into the conduct of the Company in each annual accounting period and report thereon to the shareholders.

Our report shall state whether, in our opinion, the Company has been managed in that period in accordance with the provisions of the Company's Constitution and the UCITS Regulations. It is the overall responsibility of the Company to comply with these provisions. If the Company has not so complied, we as Depository must state why this is the case and outline the steps which we have taken to rectify the situation.

Basis of Depository Opinion

The Depository conducts such reviews as it, in its reasonable opinion, considers necessary in order to comply with its duties as outlined in Regulation 34, (1), (3) and (4) in Part 5 of the UCITS Regulations and to ensure that, in all material respects, the Company has been managed (i) in accordance with the limitations imposed on its investment and borrowing powers by the provisions of the Company's Constitution and the UCITS Regulations and (ii) otherwise in accordance with the Company's constitution documentation and the appropriate regulations.

Opinion

In our opinion, the Company has been managed during the Financial Period, in all material respects:

- (i) in accordance with the limitations imposed on the investment and borrowing powers of the Company by the Constitution, the UCITS Regulations and the Central Bank (Supervision and Enforcement) Act 2013 (Section 48(1)) (Undertakings for Collective Investment in Transferable Securities) Regulations 2019 (as amended) ('the Central Bank UCITS Regulations'); and
- (ii) otherwise in accordance with the provisions of the Constitution, the UCITS Regulations and the Central Bank UCITS Regulations.

Notes to the Financial Statements

1. General

Lazard Global Active Funds plc (the “Company”) was incorporated on 10 April 1996 as an open-ended investment company with variable capital structured as an umbrella fund and with segregated liability between its sub funds (individually referred to as the “Fund” and collectively the “Funds”) organised under the laws of Ireland. The Company qualifies and is authorised in Ireland by the Central Bank of Ireland (the “Central Bank”) as an Undertaking for Collective Investment in Transferable Securities under the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations, 2011 (as amended) (the “UCITS Regulations”) and the Central Bank’s (Supervision and Enforcement) Act 2013 (section 48(1)) UCITS Regulations 2019 (as amended), (the “Central Bank UCITS Regulations”). The Company is structured as an umbrella fund in that the share capital of the Company may be divided into different classes of Shares with one or more classes representing a separate Fund of the Company.

The Company currently has 26 Funds in existence, 14 of which are registered in Switzerland. As at 31 March 2024, Lazard Global Listed Infrastructure Equity Fund, Lazard Global Sustainable Equity Fund, Lazard Global Managed Volatility Fund, Lazard Global Thematic Focus Fund, Lazard Global Equity Franchise Fund, Lazard Digital Health Fund, Lazard European Equity Fund, Lazard Pan-European Small Cap Fund, Lazard US Equity Concentrated Fund, Lazard Japanese Strategic Equity Fund, Lazard Emerging Markets Equity Fund, Lazard Emerging Markets Equity Advantage Fund, Lazard Emerging Markets Managed Volatility Fund and Lazard Global Sustainable Fixed Income Fund were funded. The investment objectives of each Fund within the Company are set out in the Prospectus and relevant Supplements for the Funds.

Lazard Global Equity Income Fund was fully redeemed on 19 February 2019 and is pending application to the Central Bank to revoke the Fund’s authorisation.

Lazard Sterling High Quality Bond Fund was fully redeemed on 14 October 2019 and is pending application to the Central Bank to revoke the Fund’s authorisation.

Lazard Pan European Equity Fund and Lazard UK Omega Equity Fund were fully redeemed on 25 November 2019 and are pending application to the Central Bank to revoke the Funds’ authorisation.

Lazard MENA Fund was fully redeemed on 28 May 2020 and is pending application to the Central Bank to revoke the Fund’s authorisation.

Lazard Global Strategic Equity Fund was fully redeemed on 27 July 2021 and is pending application to the Central Bank to revoke the Fund’s authorisation.

Lazard Emerging Markets Core Equity Fund was fully redeemed on 30 June 2022 and is pending application to the Central Bank to revoke the Fund’s authorisation.

Lazard Developing Markets Equity Fund was fully redeemed on 31 July 2023 and is pending application to the Central Bank to revoke the Fund’s authorisation.

Lazard Global Thematic Fund was fully redeemed on 29 January 2024 and is pending application to the Central Bank to revoke the Fund’s authorisation.

2. Significant Accounting Policies

The significant accounting policies and estimation techniques adopted by the Company in the preparation of the financial statements are set out below. All references to net assets throughout the financial statements refer to Net Assets Attributable to Redeemable Participating Shareholders unless otherwise stated.

Statement of Compliance

The Company’s financial statements for the financial year ended 31 March 2024 have been prepared in accordance with Financial Reporting Standard 102 “The Financial Reporting Standard applicable in the UK and Republic of Ireland” (“FRS 102”), Irish statute comprising the Companies Act 2014, as amended (the “Companies Act 2014”), UCITS Regulations and the Central Bank UCITS Regulations.

Notes to the Financial Statements (continued)

2. Significant Accounting Policies (continued)

Basis of Preparation

The financial statements are prepared under the historical cost convention as modified by the revaluation of financial assets and financial liabilities held at fair value through profit or loss. The financial statements have been prepared on a going concern basis and in accordance with accounting standards generally accepted in Ireland, the provisions of the Companies Act 2014, UCITS Regulations and the Central Bank UCITS Regulations. Accounting standards generally accepted in Ireland in preparing financial statements giving a true and fair view are those accounting standards issued by the Financial Reporting Council (Generally Accepted Accounting Practice in Ireland).

The Company's management has made an assessment of the Company's and Funds' ability to continue as a going concern and is satisfied that the Company and Funds have the resources to continue in business for the foreseeable future. Furthermore, management is not aware of any material uncertainties that may cast significant doubt upon the Company's ability to continue as a going concern. Therefore, the financial statements of the Company and Funds (with the exception of the fully redeemed Funds noted below) continue to be prepared on a going concern basis.

Lazard Global Thematic Fund and Lazard Developing Markets Equity Fund were fully redeemed during the financial year ended 31 March 2024. Subsequent to the financial year end, the Company intend to close Lazard Pan European Small Cap Fund and Lazard Global Managed Volatility Fund. As a result, the financial statements of these Funds have been prepared on a non-going concern basis.

The Company has availed of the exemption available to open-ended investment funds under FRS 102, Section 7 "Statement of Cash Flows" not to prepare a cash flow statement on the basis that substantially all of the Company's investments are highly liquid and carried at fair value, and the Company provides a Statement of Changes in Net Assets Attributable to Redeemable Participating Shareholders.

Certain reclassifications have been made to previously reported amounts to confirm to current year presentation, which had no impact on reported net assets.

Foreign Exchange Translation

(a) Functional and presentation currency: Items included in the Company's financial statements are measured using the currency of the primary economic environment in which it operates (the "functional currency"). This is US Dollar ("USD") except for Lazard Japanese Strategic Equity Fund which is Japanese Yen ("JPY"), Lazard European Equity Fund and Lazard Pan-European Small Cap Fund which are Euro ("EUR") and Lazard Global Listed Infrastructure Equity Fund which is British Pound ("GBP"). The Company has adopted the functional currency of each Fund as the presentation currency for each Fund, and the Company level financial statements are presented in USD, which is the Company's presentation currency.

For the purpose of combining the financial statements of each Fund presented in EUR, GBP and JPY to arrive at the aggregated figures, the current financial assets and current financial liabilities in the Statement of Financial Position have been translated to USD at the exchange rate at the respective financial year end dates. The amounts in the Statement of Comprehensive Income and the Statement of Changes in Net Assets Attributable to Redeemable Participating Shareholders have been translated to USD using an average rate for the financial year as an approximation for actual rates. This has no effect on the Net Asset Value ("NAV") per share attributable to the individual Funds. All exchange rates are disclosed in Note 7.

The foreign currency translation adjustment of USD 22,271,982 (31 March 2023: USD (142,762,109)) included in the Statement of Changes in Net Assets Attributable to Redeemable Participating Shareholders reflects the movement in exchange rates for the financial year. This is a notional amount which has no impact on the results of the individual Funds.

(b) Assets and liabilities other than those denominated in the functional currency of each Fund are translated into the functional currency at the exchange rate ruling at the financial year end. Transactions in foreign currencies are translated into the functional currency at the exchange rates ruling at the dates of the transactions. The resulting gain or loss arising on translation of securities and other assets and liabilities is included in net movement in unrealised gains and losses on investments and foreign currency. Forward foreign currency exchange contracts which are outstanding at the financial year end are valued at the financial year end forward rates. The resulting unrealised gain or loss is included in net movement in unrealised gains and losses on investments and foreign currency. Realised gains and losses arising between the transaction and settlement dates on purchases or sales of securities denominated in the non-base currencies and on settled forward foreign currency exchange contracts are included in net realised gains and losses on investments and foreign currency.

Notes to the Financial Statements (continued)

2. Significant Accounting Policies (continued)

Accounting Estimates and Judgements

The preparation of the financial statements, in accordance with accounting standards generally accepted in Ireland, requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of income and expenses during the financial year. Actual results could differ from those estimates.

Financial Instruments

(i) Classification

The Company classifies its financial instruments as financial assets or financial liabilities at fair value through profit or loss. These financial assets and financial liabilities are classified as held for trading or designated by the Directors at fair value through profit or loss at inception. Financial assets and financial liabilities designated at fair value through profit or loss at inception are those that are managed and their performance evaluated on a fair value basis in accordance with the Company's documented investment strategy. The Company's policy is for the relevant Investment Manager and the Directors to evaluate the information about these financial assets and liabilities on a fair value basis together with other related financial information.

(ii) Recognition and Derecognition

Purchases and sales of investments are recognised on trade date, the date on which the Company commits to purchase or sell the asset. Investments are initially recognised at fair value, and transaction costs for all financial assets carried at fair value through profit or loss are expensed as incurred. Investments are derecognised when the rights to receive cash flows from the investments have expired or the Company has transferred substantially all risks and rewards of ownership.

(iii) Measurement

Financial assets and financial liabilities at fair value through profit or loss are initially recognised at fair value. Subsequent to initial recognition, all financial assets and financial liabilities at fair value through profit or loss are measured at fair value. Gains and losses arising from changes in the fair value of the financial assets or financial liabilities at fair value through profit or loss category are presented in the Statement of Comprehensive Income in the financial year in which they arise.

(iv) Fair Value Estimation

In accordance with FRS 102, the Company has applied the recognition and measurement provisions of International Accounting Standards 39 "Financial Instruments: Recognition and Measurement" as adopted for use in the European Union and the disclosure requirements of Sections 11 and 12 of FRS 102. Accordingly, the fair valuation input utilised for both financial assets and financial liabilities is the last traded price where the investment is an equity security and mid-market price where the investment is a fixed income security. During the financial year and previous financial year, the Company applied fair value factors on the market price of securities for certain Funds.

Securities listed on a recognised stock exchange or traded on any other organised market are valued at the last traded price where the investment is an equity security and where the investment is a fixed income security, at the mid-market price on the stock exchange or market which constitutes the principal market for such securities. If for specific assets the last traded price or mid-market price does not, in the opinion of the Directors, reflect their fair value or are not available, the value shall be the probable realisable value estimated with care and in good faith by the competent person who has been appointed by the Directors and approved by the Depositary.

The fair value of financial instruments that are not traded in an active market is determined by using valuation techniques. The Company uses a variety of methods and makes assumptions that are based on market conditions existing at each Statement of Financial Position date. Valuation techniques used include the use of comparable recent arm's length transactions, discounted cash flow analysis, option pricing models and other valuation techniques commonly used by market participants. Unlisted securities and thinly traded securities are valued in good faith by the competent person who has been appointed by the Directors and approved by the Depositary, based on quotations received from third parties including relevant brokers. As at 31 March 2024 and 31 March 2023, no securities were valued in this manner.

Fair Value Adjustment Factors were applied, where applicable, on a daily basis to manage the risk of potential market timing due to the closure of non-US exchanges prior to US exchanges. The application of Fair Value Adjustment Factors provides an estimate of the pricing divergence between local exchange closing prices and what the same securities are estimated to be worth at the valuation point of the NAV. Fair Value Adjustment Factors were applied to Lazard Emerging Markets Equity Fund, Lazard Emerging Markets Equity Advantage Fund and Lazard Emerging Markets Managed Volatility Fund.

Notes to the Financial Statements (continued)

2. Significant Accounting Policies (continued)

Financial Instruments (continued)

(iv) Fair Value Estimation (continued)

Russian equities, held by Lazard Emerging Markets Equity Fund, Lazard Emerging Markets Equity Advantage Fund and Lazard Emerging Markets Managed Volatility Fund were fair valued at zero as at 31 March 2024 and 31 March 2023.

Each of the Funds may employ investment techniques, repurchase transactions and financial derivative instruments (“FDIs”) for efficient portfolio management and/or investment purposes subject to the conditions and within the limits laid down by the Prospectus and the Central Bank and these are as follows:

Forward Foreign Currency Exchange Contracts

The unrealised appreciation or depreciation on open forward foreign currency exchange contracts is calculated by reference to the difference between the contracted rate and the forward rate to close out the contract as at the financial year end. Unrealised gain or loss on forward foreign currency exchange contracts is reported in the Statement of Financial Position and the Statement of Comprehensive Income. Realised gains and losses are reported with all other foreign currency gains and losses in the Statement of Comprehensive Income.

Participatory Notes (“P-Notes”)

P-Notes are valued by reference to the market price of the underlying security.

Repurchase agreements

The Fund may invest in repurchase agreements, which are short-term agreements in which the Fund receives delivery of underlying collateral securities and the seller of such securities agrees to repurchase the securities at a future time and specified price. Repurchase agreements, including accrued interest, are included on the Statement of Financial Position. Interest earned is recorded as a component of interest income from financial assets held at fair value through profit or loss on the Statement of Comprehensive Income.

Repurchase agreements outstanding at the end of the financial year, if any, are listed in each relevant Fund’s Portfolio of Investments.

Cash at Bank

Cash at bank is valued at face value, with interest accrued where applicable at relevant valuation point on the relevant business day.

Receivables and Payables

Receivables and payables for investments sold and purchased awaiting settlement represent receivables and payables for securities sold and purchased. Receivables and payables for subscriptions and redemptions represent Shares subscribed and redeemed that have been contracted for but not yet settled on the Statement of Financial Position. These amounts are recognised initially at fair value and subsequently measured at amortised cost.

Accrued Income and Expenses

Accrued income and expenses comprise of investments income receivable, other assets, and expenses payable. These amounts are recognised initially at fair value and subsequently measured at amortised cost.

The Funds may be subject to taxes imposed by certain countries on capital gains on the sale of investments. Taxes may be imposed by countries including Bangladesh, Brazil, Colombia, India, Indonesia and Pakistan. Capital gains taxes are accounted for on an accrual basis for these countries and are shown as a separate item in the Statement of Comprehensive Income.

Realised and Unrealised Gains/Losses on Investments

Realised gains/losses are calculated based on an average cost basis. Realised and unrealised gains/losses arising from changes in the fair value of financial assets and financial liabilities at fair value through profit or loss category are included in the Statement of Comprehensive Income in the financial year in which they arise.

Notes to the Financial Statements (continued)

2. Significant Accounting Policies (continued)

Interest Income and Expense

Interest income and expense are recognised in the Statement of Comprehensive Income for all debt instruments using the effective interest method.

The effective interest method is a method of calculating the amortised cost of a financial asset or financial liability and of allocating the interest income or interest expense over the relevant financial year. Bond interest income is reported gross of irrecoverable withholding tax, which is disclosed separately in the Statement of Comprehensive Income, and net of any tax credits.

The effective interest rate is the rate that exactly discounts estimated future cash payments or receipts throughout the expected life of the financial instrument, or a shorter period where appropriate, to the net carrying amount of the financial asset or financial liability.

Dividend Income

Dividend income is recognised in the Statement of Comprehensive Income on an ex-dividend basis. Dividend income is shown gross of any non-recoverable withholding taxes, which are disclosed separately in the Statement of Comprehensive Income.

Expenses

Expenses are accounted for on an accrual basis.

Offsetting Financial Instruments

Financial assets and financial liabilities are offset and the net amount reported in the Statement of Financial Position where there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis or realise the financial asset and settle the financial liability simultaneously.

Distributions

Distributions, if declared, will only be paid out of a Fund's net investment income return.

Distributions with an ex-date during the financial year are included as a finance cost in the Statement of Comprehensive Income. Dividends will not be paid in respect of any class of share which is an accumulating class. Income and profits, if any, attributable to an accumulating share class will be accumulated, reinvested in the relevant Fund on behalf of the shareholders of that class and will be reflected in the NAV of the relevant accumulating share class. Please refer to Note 13 for details of any distributions paid during the financial years ended 31 March 2024 and 31 March 2023.

Equalisation

Income equalisation arrangements apply to each Fund. The arrangements are intended to ensure that the income per share which is distributed in respect of the distribution period is not affected by changes in the number of shares in issue during the period. The arrangements have no effect on the NAV of any share class. The calculation of equalisation is based on total accumulated undistributed net income.

Swing Pricing

Swing pricing, where applied, aims to ensure that the burden of the costs associated with dealing in a Fund's Shares are borne by the investors that actually request those Share deals on a particular Dealing Day, and not by the Shareholders in a Fund who are not trading in the Shares on the relevant Dealing Day. In this way, swing pricing aims to mitigate the adverse effects of dilution on Fund assets and to preserve and protect the value of shareholdings. As at 31 March 2024 and 31 March 2023, there were no swing prices applied to any of the Funds, however, there were swing adjustments applied across various Funds during the financial year ended 31 March 2024.

Notes to the Financial Statements (continued)

2. Significant Accounting Policies (continued)

Transaction Costs

Transaction costs are incremental costs that are directly attributable to the acquisition, issue or disposal of a financial asset or financial liability. An incremental cost is one that would not have been incurred if the entity had not acquired, issued or disposed of the financial instrument. When a financial asset or financial liability is recognised initially, an entity shall measure it at its fair value through profit or loss plus transaction costs that are directly attributable to the acquisition or issue of the financial asset or financial liability. Transaction costs on the purchase and sale of fixed income securities, repurchase agreements and forward foreign currency exchange contracts are included in the purchase and sale price of the investment and are not separately identifiable. Transaction costs on the purchase and sale of equities and investment funds are included in net realised gains and losses on investments and foreign currency in the Statement of Comprehensive Income for each Fund.

Depository transaction costs include transaction costs paid to the Depository and the sub-custodian. Purchases and sales transaction costs include identifiable brokerage charges, commissions, transaction related taxes and other market charges. Depository transaction costs are included in depository fees as disclosed in Note 3. These costs are separately identifiable transaction costs and the total costs incurred by each Fund during the financial year and prior financial year are disclosed in Note 3.

3. Fees

Management Fees

The Manager has responsibility for the management and administration of the Company's affairs and the distribution of the shares, subject to the overall supervision and control of the Directors.

The Manager is entitled to a charge per annum of the NAV attributable respectively to each of the following share classes.

Such fees as detailed below shall accrue daily and be payable monthly in arrears. The Manager shall also be entitled to be reimbursed by the Funds for its reasonable out-of-pocket expenses.

See Note 14 for information on the launch and termination dates of the above Share classes.

Notes to the Financial Statements (continued)

3. Fees (continued)

Management Fees (continued)

Investors are only permitted to hold units in the X Share class where Lazard or an affiliate are appointed as the investment managers to carry out investment management or advisory services on their behalf. Shareholders in the class will be subject to a fee with regard to their investment in the Funds based on the Investment Management Agreement between themselves and the Investment Managers or a Lazard affiliate. Shares in the M Classes are available only to other Funds managed or advised by an affiliate or to such other persons as the Manager may determine from time to time. The annual management fee on the M Class and X Class are Nil and these classes have, therefore, been excluded in the preceding fee rate disclosure.

The Manager has delegated the performance of the investment management function in respect of the Funds to the Investment Managers. The Manager is responsible for discharging the fees and expenses of the Investment Managers, the Promoter and the Distributors out of its fee. For the financial year ended 31 March 2024, management fees of USD 32,647,272 (31 March 2023: USD 31,838,928) were charged, of which USD 2,708,306 (31 March 2023: USD 13,271,924) remained payable at the financial year end.

Reimbursement from Manager

Each class of Shares of each Fund shall bear its attributable portion of the other expenses of the Company, (as set out in detail under the heading "Other Expenses" in the section of the Prospectus entitled "Fees and Expenses"), which is subject to an appropriate cap per annum of the NAV of the Fund. The cap for each Fund is disclosed in the table below:

Fund Name	Cap %
Lazard Global Listed Infrastructure Equity Fund	0.30
Lazard Global Sustainable Equity Fund	0.30
Lazard Global Managed Volatility Fund	0.23
Lazard Global Thematic Fund***	0.30
Lazard Global Thematic Focus Fund	0.30
Lazard Global Equity Franchise Fund	0.20
Lazard Digital Health Fund	0.30
Lazard European Equity Fund	0.30
Lazard Pan-European Small Cap Fund	0.20
Lazard US Equity Concentrated Fund	0.30
Lazard Japanese Strategic Equity Fund	0.30
Lazard Emerging Markets Equity Fund	0.30
Lazard Emerging Markets Equity Advantage Fund	0.23
Lazard Emerging Markets Managed Volatility Fund	0.30
Lazard Developing Markets Equity Fund*	0.30
Lazard Global Sustainable Fixed Income Fund	0.30

* Fund fully redeemed on 31 July 2023.

** Fund fully redeemed on 29 January 2024.

As at the 31 March 2024, the above caps on expenses are in effect on Lazard Global Thematic Fund, Lazard Digital Health Fund and Lazard Developing Markets Equity Fund.

The Manager will be responsible for any such expenses in excess of this limit with the exception of the expenses of acquiring and disposing of investments (including brokerage expenses, custodial and sub-custodial transaction charges, stamp duties and other relevant taxes). For Lazard Global Equity Franchise Fund, Lazard Pan-European Small Cap Fund and Lazard US Equity Concentrated Fund, custodial and sub-custodial transactions charges are included in the cap. For the avoidance of doubt, the Manager will not be responsible for the costs of hedging the currency exposure for the benefit of any particular share class of the Funds, which costs shall be attributable exclusively to the relevant share class.

The fees reimbursed by the Manager during the financial year ended 31 March 2024 amounted to USD 73,805 (31 March 2023: USD 160,706), of which USD 135,082 (31 March 2023: USD 74,876) remained receivable at the financial year end.

Administration, Transfer Agency and Depositary Fees

The Administrator is entitled to an annual fee payable by the Funds of up to 0.02% of the Funds' NAV. Such fees accrue daily and are payable monthly in arrears. The Administrator is also entitled to recover from the Funds its reasonable out-of-pocket expenses.

Notes to the Financial Statements (continued)

3. Fees (continued)

Administration, Transfer Agency and Depositary Fees (continued)

The Depositary is entitled to be paid by the Funds an annual fee for the performance of its trustee functions of up to 0.0075% of the Funds' NAV. The Depositary is also entitled to charge the Funds transaction fees, which shall be at normal commercial rates, and to be reimbursed by the Funds for the fees and transactions charges of any sub-custodian (which shall also be at normal commercial rates), together with its reasonable out-of-pocket expenses. The Depositary is also entitled to be paid by the Funds at an annual fee for the performance of its function as custodian of up to 0.015% of the Fund's NAV. Such fees accrue daily and are payable monthly in arrears.

The administration, transfer agency and depositary fees charged during the financial year ended 31 March 2024 (including out-of-pocket expenses) amounted to USD 2,181,651 (31 March 2023: USD 3,625,292), of which USD 2,923,033 (31 March 2023: USD 1,615,110) remained payable at the financial year end.

Currency Manager's Fees

The Funds shall pay State Street Bank International GmbH (the "Currency Manager") an annual fee, calculated and accrued daily and payable quarterly in arrears, not in excess of 0.03% per annum of the NAV of each hedged Share class in issue in the relevant Funds, such fee to accrue solely to the hedged Share class in respect of which it is incurred. For the financial year ended 31 March 2024, Currency Manager's fees of USD 180,615 (31 March 2023: USD 295,770) were charged of which USD 44,453 (31 March 2023: USD 249,551) remained payable at the financial year end.

Directors' Fees

Directors' fees paid during the financial year ended 31 March 2024 were USD 74,821 (31 March 2023: USD 117,914), of which USD Nil (31 March 2023: USD 1,006) remained payable at the financial year end.

Auditors' Fees

Fees and expenses paid to the statutory auditors, PricewaterhouseCoopers (Ireland), in respect of the financial year, relate to the audit of the financial statements of the Company and to the provision of non-audit services. There were also tax advisory services provided by PricewaterhouseCoopers (Ireland), for the financial year ended 31 March 2024. There were no fees and expenses paid in respect of other assurance services provided by PricewaterhouseCoopers (Ireland), for the financial years ended 31 March 2024 and 31 March 2023.

Auditors' remuneration in respect of the statutory audit for the financial year was USD 115,069 (31 March 2023: USD 121,809), of which USD 115,069 was outstanding at 31 March 2024 (31 March 2023: USD 121,809). Fees paid in respect of tax advisory services for the financial year were USD 100,754 (31 March 2023: USD 90,608), of which USD 15,733 was outstanding at 31 March 2024 (31 March 2023: USD 90,608). These fees include out of pocket audit expenses and are exclusive of VAT. All such fees and expenses (inclusive of VAT) are included in Other expenses in the Statement of Comprehensive Income.

Transaction Costs

As disclosed in Note 2, transaction costs are incremental costs that are directly attributable to the acquisition, issue or disposal of the financial asset or financial liability. Transaction costs detailed below are the transaction costs on the purchase and sale of equities. Commission/brokerage costs on the purchase and sale of fixed income securities, repurchase agreements and forward foreign currency exchange contracts cannot be separately identified. They are included in the purchase and sale price of the investment, and therefore, are not disclosed separately in this note.

The table below shows the total transaction costs including the amounts for depositary transaction costs for each Fund during the financial years ended 31 March 2024 and 31 March 2023:

	Currency	31 March 2024	31 March 2023
Lazard Global Listed Infrastructure Equity Fund	GBP	481,893	1,230,919
Lazard Global Sustainable Equity Fund	USD	93,532	74,548

Lazard Global Sustainable Fixed Income Fund	USD	-	-

* Fund fully redeemed on 31 July 2023.

** Fund fully redeemed on 29 January 2024.

4. Taxation

Under current Irish law and practice, the Company qualifies as an investment undertaking as defined in Section 739B of the Taxes Consolidation Act, 1997, as amended. On that basis the Company will not be liable to taxation in respect of its income and gains, other than on the occurrence of a chargeable event. Generally, a chargeable event arises on any distribution, redemption, repurchase, cancellation, transfer of shares or on the ending of a 'relevant period', a 'relevant period' being an eight-year period beginning with the acquisition of the shares by the shareholders and each subsequent period of eight years beginning immediately after the preceding relevant period.

A chargeable event does not include:

- any transactions in relation to shares held in a recognised clearing system as designated by order of the Revenue Commissioners of Ireland; or
- an exchange of shares representing a Fund for another Fund; or
- an exchange of shares arising on a qualifying amalgamation or reconstruction of a Fund with another Fund; or
- certain exchanges of shares between spouses and former spouses.

A chargeable event will not occur in respect of shareholders who are neither resident nor ordinarily resident in Ireland and who have provided the Company with a relevant declaration to that effect.

In the absence of an appropriate declaration, the Company will be liable to Irish Tax on the occurrence of a chargeable event. There were no chargeable events during the financial year or prior financial year under review.

Capital gains, dividends and interest received may be subject to withholding taxes imposed by the country of origin and such taxes may not be recoverable by a Fund or its shareholders. Such non-recoverable withholding taxes are disclosed separately in the Statement of Comprehensive Income.

Withholding Tax Refunds

During the financial years ended 31 March 2024 and 31 March 2023, a number of Funds received withholding tax refunds which were not previously recognised due to uncertainty around their recoverability. Upon receipt of these refunds, these amounts are included in the NAV of the Funds and are recorded in the Statement of Comprehensive Income. These refunds would generally have a positive impact on the performance of the relevant Funds which received them.

5. Capital and Reserves

The Company has a variable share capital.

Management Shares

On incorporation, the authorised share capital of the Company was GBP 40,000 divided in 40,000 subscriber shares of par value of GBP 1 each ("Equity shares"), which were subsequently redeemed. There is currently 1 subscriber share in issue and that is held by the Manager.

The subscriber share does not form part of the NAV of the Company.

Notes to the Financial Statements (continued)

5. Capital and Reserves (continued)

Redeemable Participating Shares

The Company also has an authorised share capital of 500,000,000,000 Shares of no par value which are available for issue as fully paid participating shares in each of the Company's Funds ("Redeemable Participating Shares"). They may be redeemed by the Company at the request of the shareholder. The value of Shares issued and redeemed during the financial year is set out in the Statement of Changes in Net Assets Attributable to Redeemable Participating Shareholders. Each Fund issues Redeemable Participating Shares, which are redeemable at the holder's option and are classified as financial liabilities. Redeemable Participating Shares can be put back to the Fund at any time for cash equal to a proportionate share of the Fund's NAV. The Redeemable Participating Share is carried at the redemption amount that is payable at the Statement of Financial Position date if the holder exercises the right to put the Share back to the Fund.

Swing Pricing

Certain costs are customarily incurred when a Fund has to buy or sell portfolio assets in order to satisfy or give effect to requests for subscription or redemption of its Shares. The incurring of such dealing costs by a Fund can result in a Fund's value being diminished or 'diluted' over time and can, therefore, have a disadvantageous effect on Shareholders' interests in a Fund if counteracting steps are not taken. With a view to offsetting the effects of dilution to the extent deemed appropriate in the interests of Shareholders, the Directors may determine at their discretion, to adjust ("Swing") the Net Asset Value per Share when calculating the Share Price on any particular Dealing Day.

Swing pricing, where applied, aims to ensure that the burden of the costs associated with dealing in a Fund's Shares are borne by the investors that actually request those Share deals on a particular Dealing Day, and not by the Shareholders in a Fund who are not trading in the Shares on the relevant Dealing Day. In this way swing pricing aims to mitigate the adverse effects of dilution on Fund assets and to preserve and protect the value of shareholdings.

The swing factors applied during the financial year ended 31 March 2024 ranged from 0.20 bps to 28.53 bps on both subscriptions and redemptions (31 March 2023: Nil).

The activity on Redeemable Participating Shares for the financial years ended 31 March 2024 and 31 March 2023 are detailed in the tables below:

		31/03/2024		31/03/2023

* Fund fully redeemed on 31 July 2023.

** Fund fully redeemed on 29 January 2024.

Notes to the Financial Statements (continued)

5. Capital and Reserves (continued)

Redeemable Participating Shares (continued)

See Note 14 for information on the launch and termination dates of the above share classes.

6. Net Asset Value

The NAV per share of any class of Shares in a portfolio is determined by dividing the value of net assets of the Fund by the total number of Redeemable Participating Shares in issue as at 31 March 2024, 31 March 2023 and 31 March 2022. The information disclosed in the following tables for all of the Company's Funds as at 31 March 2024, 31 March 2023 and 31 March 2022 is in line with the information as calculated in accordance with the Prospectus (published NAV). The NAV and NAV per share in the following tables are stated in the currency of the relevant class.

As at 31 March 2024 and 31 March 2023, no swing pricing was applied to the NAVs valuation.

Shares are issued and redeemed at a single price, being the NAV per share of the relevant class, which may be adjusted as described below.

Certain costs are customarily incurred when a Fund has to buy or sell portfolio assets in order to satisfy or give effect to requests for subscription or redemption of its Shares. The incurring of such dealing costs by a Fund can result in a Fund's value being diminished or 'diluted' over time and can, therefore, have a disadvantageous effect on Shareholders' interests in a Fund if counteracting steps are not taken. With a view to offsetting the effects of dilution to the extent deemed appropriate in the interests of Shareholders, the Directors may determine at their discretion, to adjust ("swing") the NAV per share when calculating the Share Price on any particular Dealing Day.

Swing pricing, where applied, aims to ensure that the burden of the costs associated with dealing in a Fund's Shares are borne by the investors that actually request those Share deals on a particular Dealing Day, and not by the Shareholders in a Fund who are not trading in the Shares on the relevant Dealing Day. In this way swing pricing aims to mitigate the adverse effects of dilution on Fund assets and to preserve and protect the value of shareholdings.

8. Cash at Bank

Cash at bank as of 31 March 2024 comprises of cash balances held with the Depository's global sub-custodian, State Street Bank and Trust Company ("State Street") and net unrealised gains and losses on open spot foreign currency exchange contracts. The Depository may utilise one or more approved sub-custodians for holding cash of the Funds.

Cash collateral may also be received by the Funds in respect of repurchase agreements held by the Funds at the respective financial year end. There were no cash collateral held or received by any of the Fund as at 31 March 2024 and 31 March 2023.

Cash account arrangements are in place in respect of the Company and the Funds as a consequence of the requirements relating to the subscription and redemption collection accounts pursuant to the Central Bank of Ireland (Supervision and Enforcement) Act 2013 (Section 48 (i)) Investor Money Regulations 2015 for Fund Service Providers ("Investor Money Regulations").

These cash accounts, held with Bank of America for collection of subscriptions, payment of redemptions and dividends for the Company are deemed assets of the Company and are included in the Statement of Financial Position.

9. Risk Management Policies and Procedures

The Funds' investment activities expose them to the various types of risk which are associated with the financial instruments and markets in which they invest. The following information is not intended to be a comprehensive summary of all risks and investors should refer to the Prospectus and Supplements for a more detailed discussion of the risks inherent in investing in the Funds.

The Directors review reports from the Investment Managers on a quarterly basis and more frequently as required in relation to the Funds' performance and risk profile. The Investment Managers are also responsible for ensuring that the Funds are managed within the terms of the Funds' investment guidelines and limits set out in the Prospectus' and Supplements as well as the Investment Managers' own internal investment guidelines and limits. The Directors delegate to the Manager who in turn delegates to the Investment Managers responsibility for the monitoring and managing of risk for the Funds.

Notes to the Financial Statements (continued)

9. Risk Management Policies and Procedures (continued)

There is a Risk Management Team responsible for overseeing the risk management process of the Investment Managers. Risk Management is delegated to the respective risk team in either the country of operation of the relevant Investment Manager or where not available, Lazard Asset Management LLC. The Manager's Chief Risk Officer along with various relevant committees review and monitor all Funds to ensure they remain consistent with their stated goals and objectives in terms of product characteristics, performance and risk meaning that the Funds are managed in line with client expectations and their legal and constitutional regulations.

The following paragraphs outline procedures undertaken to manage the market, credit and liquidity risks of the Funds. These are consistent with the procedures and risks that existed as at 31 March 2023.

Market Risk

Market risk arises mainly from uncertainty about future values of financial instruments held specifically from price, currency and interest rate movements. It represents the potential loss the Funds might suffer through holding market positions in the face of market movements.

(i) Market Price Risk

Market price risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices (other than those arising from interest rate risk or currency risk), whether those changes are caused by factors specific to the individual financial instrument or its issuer, or factors affecting similar financial instruments traded in the market. The Funds are exposed to market price risk arising from its investments in securities. By diversifying the portfolio, the risk that a price change of a particular investment will have a material impact on the Company is controlled. The Investment Managers and the Manager's Designated Person for Fund Risk Management manage the Funds' market risk on a daily basis in accordance with the Fund's investment objective, policies and core philosophy. The core philosophy of total performance measurement entails the active management of return, risk and cost. Relative-to-benchmark risk is controlled through the construction of diversified portfolios where exposures to certain market features (such as capitalisation or industry) are limited. All of the securities (excluding derivatives) were designated at fair value through profit or loss at the financial year end.

A factor that is used to assess an equity portfolio's market price risk is BETA, which expresses the portfolio's market price risk in comparison to that of the benchmark. A portfolio with a BETA of 1.5 has 50% more market price risk than its benchmark. In a rising market, a portfolio with a BETA of greater than 1.0 is more likely to outperform than underperform, while in a falling market, such a portfolio is more likely to underperform than outperform (ignoring all other factors).

The table below presents a scenario analysis, in which a +30% change is applied to each of the benchmarks against which each Fund is managed. Based on the BETA values (predicted by Axioma's risk models) and Fund valuations as at 31 March 2024, estimated monetary changes are provided:

Market rises by 30%

31 March 2024

	Currency	Beta	Initial Value (‘000)	New Value* (‘000)	Gain* (‘000)

Lazard Emerging Markets Managed Volatility Fund	USD	0.66	74,775	89,495	14,719

Notes to the Financial Statements (continued)

9. Risk Management Policies and Procedures (continued)

Market Risk (continued)

(i) Market Price Risk (continued)

For the purpose of comparison, the table below and overleaf shows an equivalent analysis using valuations and BETA estimates as at 31 March 2023:

Market rises by 30%

31 March 2023	Currency	Beta	Initial Value ('000)	New Value [#] ('000)	Gain [#] ('000)
Lazard Global Listed Infrastructure Equity Fund	GBP	0.86	1,366,987	1,719,776	352,790
Lazard Global Sustainable Equity Fund	USD	1.07	225,724	298,396	72,672
Lazard Global Managed Volatility Fund	USD	0.67	49,621	59,537	9,916
Lazard Global Thematic Fund**	USD	0.95	11,563	14,842	3,279
Lazard Global Thematic Focus Fund	USD	1.10	439,946	584,823	144,877
Lazard Global Equity Franchise Fund	USD	0.87	968,172	1,219,613	251,441
Lazard Digital Health Fund	USD	1.29	2,675	3,706	1,031
Lazard European Equity Fund	EUR	0.96	12,107	15,598	3,491
Lazard Pan-European Small Cap Fund	EUR	0.96	61,583	79,231	17,648
Lazard US Equity Concentrated Fund	USD	0.90	417,435	530,142	112,707
Lazard Japanese Strategic Equity Fund	JPY	0.99	7,426,156	9,631,724	2,205,568
Lazard Emerging Markets Equity Fund	USD	0.92	246,867	315,187	68,320
Lazard Emerging Markets Equity Advantage Fund	USD	0.99	554,497	719,330	164,833
Lazard Emerging Markets Managed Volatility Fund	USD	0.66	71,032	85,082	14,050
Lazard Developing Markets Equity Fund*	USD	1.02	2,913	3,804	891

* Fund fully redeemed on 31 July 2023.

** Fund fully redeemed on 29 January 2024.

Estimation based on BETA only, ignoring all other factors

A -30% change would have an equal but opposite effect.

The table below presents a scenario analysis, in which a +5% change is applied to the benchmark against which Lazard Global Sustainable Fixed Income Fund is managed. Based on the BETA values and Lazard Global Sustainable Fixed Income Fund valuations as at 31 March 2024 and 31 March 2023, estimated monetary impacts are provided:

Fund	Currency	Relevant Beta Calculation as at 31 March 2024	Estimated Portfolio return based on 5% relevant market increase as at 31 March 2024	Estimated monetary change	Relevant Beta Calculation as at 31 March 2023	Estimated Portfolio return based on 5% relevant market increase as at 31 March 2023	Estimated monetary change
Lazard Global Sustainable Fixed Income Fund	USD	1.07	5.33%	858,863	1.10	5.50%	1,056,561

A -5% change would have an equal but opposite effect.

The Company does not currently use FDIs for efficient portfolio management purposes. However, a number of the Funds use forward foreign currency exchange contracts for portfolio and share class hedging and investment purposes. Details of forward foreign currency exchange contracts held as at 31 March 2024 are included in the Portfolio of Investments. The Company uses the commitment approach to measure global exposure for the Funds which hold forward foreign currency exchange contracts.

(ii) Foreign Currency Risk

The Funds may invest in securities denominated in currencies other than its functional currency (or, indeed, the currency of the investor). Furthermore, the Funds may invest in forward foreign currency exchange contracts for the purpose of implementing investment views and/or share class hedging purposes. Consequently, the Funds are exposed to risks that the exchange rate of its reporting currency relative to other currencies may change in a manner that has an adverse effect on the value of the portion of the Fund's assets that are denominated in currencies other than its own currency. Currencies may also move in such a way as to cause losses on forward foreign currency exchange contracts.

For the Funds in which currency risk is hedged out, the currency risk is managed by regular rebalancing of the forward foreign currency exchange contracts to maintain zero (or close to zero) currency exposure. For those Funds for which currency exposure is a critical source of return, exposures are managed relative to the appropriate benchmark. For other portfolios, there is no explicit currency management policy.

Notes to the Financial Statements (continued)

9. Risk Management Policies and Procedures (continued)

Market Risk (continued)

(ii) Foreign Currency Risk (continued)

Investments amounts represented below primarily relate to non-monetary assets which include equities, fixed income securities, investment funds and repurchase agreements. All other amounts represented below relate to monetary assets and monetary liabilities. The sensitivity analysis calculation includes both monetary and non-monetary assets and liabilities.

The tables immediately below provide the exposure to different currencies, and a currency-shock scenario that shows the impact of the base currency strengthening instantaneously by 5% (relative to all other currencies) as at 31 March 2024 and 31 March 2023.

The currency risk exposures disclosed in the tables below do not include currency risk exposures related to forward foreign currency exchange contracts entered into for the purposes of share class hedging. The Manager believes that the exclusion of these hedge forward foreign currency exchange contracts provides a better representation of the true currency risk exposures of the Funds.

All of the assets and liabilities of Lazard Developing Markets Equity Fund were denominated in USD as at 31 March 2024, and this Fund has, therefore, been excluded from the disclosure. Lazard Developing Markets Equity Fund was fully redeemed on 31 July 2023.

	9,567,934	1,073,319	171,792	10,813,045		

* Fund fully redeemed on 29 January 2024.

A 5% weakening of the base currency (against the other currencies) would be expected to have an equal and opposite impact on the numbers shown in the previous tables, on the basis that all other variables remain constant. The scenarios used in this section are hypothetical, and provided only to illustrate potential losses that could be caused through currency movements. All sensitivities are based on historical information.

(iii) Interest Rate Risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in prevailing interest rates. The Funds are exposed to interest rate risk through its investments in securities with fixed and floating rates of interest held within bond Funds. The Investment Managers manage the Funds' interest rate risk on a daily basis in accordance with the Funds' investment objectives, policies and core philosophy.

A bond's sensitivity to interest rates can be expressed in terms of modified duration, which gives the estimated percentage change (excluding the minus sign) in portfolio value, associated with a 1% increase in interest rates.

The tables overleaf provide modified duration numbers as at 31 March 2024 and 31 March 2023 for each of the Funds that bear interest rate risk. Also shown in the table is the estimated impact on the portfolio of a 1% increase in interest rates. The sensitivity analysis is based on a small parallel shift of the yield curve (interest rates of all maturities moving in unison).

A 1% decrease would have an equal but opposite effect.

31 March 2024	Currency	Portfolio Value (^{'000})	Return expected if Interest Rates Rise by 1% (%)	Monetary (^{'000})	New Value (^{'000})
Lazard Global Sustainable Fixed Income Fund	USD	16,129	(5.50)%	(887)	17,016

31 March 2023	Currency	Portfolio Value (^{'000})	Return expected if Interest Rates Rise by 1% (%)	Monetary (^{'000})	New Value (^{'000})
Lazard Global Sustainable Fixed Income Fund	USD	19,210	(5.77)%	(1,108)	18,102

This is a simplistic approximation of an important factor, with changes in steepness and twists in the yield curve also likely, which will have additional impacts on asset prices. Furthermore, this analysis is intended only to be used to estimate the impact of small movements in bond yields. This sensitivity analysis is hypothetical and not intended to be predictive.

The interest rate profile of the financial assets and financial liabilities of the Funds as at 31 March 2024 and 31 March 2023 are as follows:

31 March 2024	Less than 1 year	1 to 5 years	5 to 10 years	Greater than 10 years	Non interest bearing	Total
	USD	USD	USD	USD	USD	USD
Lazard Global Sustainable Fixed Income Fund						
Financial assets at fair value through profit or loss	1,299,703	5,282,027	5,944,944	3,254,843	186,253	15,967,770
Financial liabilities at fair value through profit or loss	-	-	-	-	(206,224)	(206,224)
Other net receivables	303,906	-	-	-	63,438	367,344

Other net receivables	867,498	-	-	-	157,081	1,024,579
Net assets attributable to redeemable participating shareholders	952,305	5,919,940	7,898,231	4,306,437	133,286	19,210,199

For the tables included in market risk, all sensitivities are based on historical information.

Credit Risk

Credit risk is the risk that the counterparty or issuer to a financial instrument will fail to discharge an obligation or commitment that it has entered into with each Fund. The Company is exposed to credit risk via the Funds that invest in fixed income securities and repurchase agreements.

All transactions involving transferable securities are settled upon delivery using approved brokers. The risk of default is considered minimal, as delivery of securities sold is only made once the broker has received payment. Payment is made on a purchase once the securities have been received by the broker. The trade will fail if either party fails to meet their obligations.

The table below details the Portfolio of Investments by rating category for the Funds which invest in fixed income securities as at 31 March 2024 and 31 March 2023.

Rating	31 March 2024	31 March 2023
	Lazard Global Sustainable Fixed Income Fund	Lazard Global Sustainable Fixed Income Fund
AAA	22.79%	22.30%
AA	26.80%	19.89%
A	27.30%	25.99%
BBB	15.12%	27.03%
BB	7.05%	2.93%
B	0.94%	1.86%
Cash	-	-
NA	-	-
Total	100.00%	100.00%

Substantially all of the cash and securities held in the Funds are held via the Depository, except for the repurchase agreements and FDIIs that are held with counterparties as disclosed on the Portfolios of Investments. State Street Bank and Trust Company act as the Global Sub-Custodian for the Depository.

While cash held by the global sub-custodian and the Depository is identifiable as belonging to the Funds, the Funds will be exposed to the credit risk of the financial institution where cash is deposited. In the event of insolvency of the financial institution, the Funds will be treated as a general creditor of the financial institution in relation to cash holdings of the Funds.

In circumstances such as the insolvency of a sub-custodian or registrar, or retro-active application of legislation, the Funds may not, in all cases, be able to establish title to investments made and may suffer losses as a result. The Funds may find it impossible to enforce its rights against third parties. In addition, as the Funds may invest in markets where custodial and/or settlement systems are not fully developed, there is a transaction and custody risk involved in dealing in such markets. In certain circumstances, a Fund may not be able to recover some of its assets. Such circumstances may include any acts or omissions or the liquidation, bankruptcy or insolvency of the sub-custodian, retroactive application of legislation and fraud or improper registration of title. The costs borne by a Fund in investing and holding investments in such markets will generally be higher than in recognise securities markets.

The Funds' securities are always separately identified on the accounting records of the Depository, therefore, the rights with respect to those securities are preserved. Thus, in the event of insolvency or bankruptcy of the Depository, the Funds' securities are segregated and protected and this further reduces counterparty risk.

Notes to the Financial Statements (continued)

9. Risk Management Policies and Procedures (continued)

Credit Risk (continued)

Bankruptcy or insolvency by the Depository may cause the Funds' rights with respect to the cash and the securities held by the Depository to be delayed or limited. The Funds monitor their risk by monitoring the credit quality and financial position of the Depository that the Funds use. The Standard & Poor's credit rating of the parent company of the Depository is A for long term deposits.

The extent of the Funds' exposure to credit risk in respect of the financial statements approximates the carrying value as recorded in the Funds' Statement of Financial Position. There were no past due or impaired assets as at 31 March 2024 or 31 March 2023.

Counterparty/Issuer Risk

The Funds are exposed to a credit risk to parties with whom they trade and will bear the risk of settlement default. Counterparty/issuer risk is monitored and managed by a formal counterparty or issuer exposure management program within the Investment Managers.

The Investment Managers' approved list of counterparties is generally limited to the most highly rated and recognised dealers in their sectors. The Investment Managers perform ongoing monitoring of this list. Counterparty/issuer risk is monitored on an ongoing basis in the following manner:

- Approved broker selection – the trading system only permits trading with approved brokers. New brokers are added, subject to a formal review process that includes a review of the broker's creditworthiness, financial strength, ability to enter into legally enforceable arrangements and standing in the financial community.
- Broker monitoring – performed through a variety of ongoing activities, including the assessment of certain regulatory filings and financial statements.
- Measurement and monitoring of counterparty or issuer trade exposure – a daily review of outstanding positions is performed.

A Fund is exposed to a credit risk on the over-the-counter ("OTC") counterparties with whom it trades, that these counterparties may not perform their obligations and that settlement of transactions may not occur. All OTC counterparties must meet the following criteria as set out in the Central Bank UCITS Regulations namely:

- (i) A credit institution in accordance with the Central Bank UCITS Regulations, or
- (ii) Have a minimum credit rating of A2 or equivalent, or in the opinion of the Investment Managers, an implied credit minimum rating of A2 or equivalent.

Exposures to individual counterparties are limited to 10% of NAV in the case of (i) above and 5% of NAV in the case of (ii) above.

All counterparties to the forward foreign currency exchange contracts are disclosed in the relevant Portfolio of Investments.

A number of the Funds can be also exposed to credit risk via their investment in Participatory Notes ("P-Notes"). P-Notes are financial instruments that may be used by the Funds to obtain exposure to an equity investment in a local market where direct ownership is not allowed. Investment in P-Notes may involve an OTC transaction with a third party. Investing in P-Notes may expose the Funds not only to movements in the value of the underlying equity but also to the risk of counterparty default, which may in the event of counterparty default result in the loss of the full market value of the equity. This exposure to counterparties is managed to the Central Bank UCITS Regulations exposure limits as detailed above. P-Notes generally are issued by banks or broker-dealers and are promissory notes that are designed to replicate the performance of a particular underlying equity security or market. The return on a P-Note that is linked to a particular underlying security generally is increased to the extent of any dividends paid in connection with the underlying security. However, the holder of a P-Note typically does not receive voting rights as it would if it directly owned the underlying security. At 31 March 2024 and 31 March 2023, none of the Funds held P-Notes.

Notes to the Financial Statements (continued)

9. Risk Management Policies and Procedures (continued)

Counterparty/Issuer Risk (continued)

The ratings for counterparties holding forward foreign currency exchange contracts are listed below.

Counterparty	Standard & Poor's Long Term Rating	
	31 March 2024	31 March 2023
BNP Paribas	A+	A+
Citibank NA	A+	A+
HSBC Bank Plc	A+	A+
JP Morgan Chase and Company	A-	A-
Morgan Stanley	AA-	A+
National Australia Bank	A+	AA-
Royal Bank of Canada	AA-	AA-
State Street Bank and Trust Company	AA-	AA-
The Bank of New York Mellon	AA-	AA-

Liquidity Risk

The Funds' assets comprise mainly of realisable securities which can be readily sold. Please note that the Funds abide by the ESMA liquidity guidelines. Certain securities held by a Fund may be difficult (or impossible) to sell at the time and at the price the relevant Investment Manager would like. A Fund may have to hold these securities longer than it would like and may forego other investment opportunities. There is the possibility that a Fund may lose money or be prevented from earning capital gains if it cannot sell a security at the time and price that is most beneficial to that Fund. Funds that invest in certain small company securities, high-yield bonds, mortgage-backed securities or foreign or emerging market securities, which have all experienced periods of illiquidity, maybe subject to liquidity risks.

The main liability of the Funds is the redemption of any shares that investors wish to sell. Shareholders have the right to require the Funds to redeem their shares in the Funds on any business day subject to restrictions set out in the Prospectus. If total requests for redemption and/or switching on any dealing day for any Fund exceed 10% of the NAV of that Fund, each redemption or switching request in respect of shares in such Fund may, at the discretion of the Directors, be reduced pro rata so that the total number of shares of such Fund for redemption or switching on that dealing day shall not exceed 10% of the NAV of that Fund. Any redemption or switching request so reduced shall be carried forward to the next dealing day and effected in accordance with the Constitution on the following dealing day(s). The Funds have the ability to borrow in the short term to ensure settlement. No such borrowings have arisen during the current or prior financial year.

The Funds' financial liabilities due for payment within one month relate in the most part, to security purchases awaiting settlements, redemptions of Redeemable Participating Shares and payment of expenses and bank overdraft interest. Details of these amounts where relevant, can be found in the Statement of Financial Position. There are no financial liabilities that fall due over 3 months except for the forward foreign currency exchange contracts whose maturity dates are outlined on the Portfolios of Investments at 31 March 2024 or at 31 March 2023.

Concentration Risk

The Funds may be exposed to concentration risk when a shareholder holds a significant portion of the issued share capital of the Funds as disclosed in Note 12.

Fair Value Measurement

The Company has classified fair value measurements using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The fair value hierarchy has the following levels:

Level 1 inputs are unadjusted quoted prices in active markets for identical assets or liabilities that the reporting entity has the ability to access at the valuation date. An active market for the asset or liability is a market in which transactions for the asset or liability occur with sufficient frequency and volume to provide pricing information on an ongoing basis.

9. Risk Management Policies and Procedures (continued)

Fair Value Measurement (continued)

Level 2 inputs are inputs other than quoted prices in active markets included within level 1 that are observable for the asset or liability, either directly or indirectly. Fair value is determined through the use of models or other valuation methodologies. Level 2 inputs include the below points:

- a) Quoted prices for similar assets or liabilities in active markets.
- b) Quoted prices for identical or similar assets or liabilities in markets that are not active, that is, markets in which there are few transactions for the asset or liability, the prices are not current, or price quotations vary substantially either over time or among market makers, or in which little information is released publicly.
- c) Inputs other than quoted prices that are observable for the asset or liability (e.g. interest rate and yield curves observable at commonly quoted intervals, volatilities, prepayment speeds, loss severities, credit risks and default rates).
- d) Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Level 3 inputs are unobservable inputs for the asset or liability. Unobservable inputs reflect the Company's own assumptions about how market participants would be expected to value the asset or liability. Unobservable inputs are developed based on the best information available in the circumstances, other than market data obtained from sources independent of the Company and might include the Company's own data.

An investment is always categorised as level 1, 2 or 3 in its entirety. In certain cases, the fair value measurement for an investment may use a number of different inputs that fall into different levels of the fair value hierarchy. In such cases, an investment's level within the fair value hierarchy is based on the lowest level of input that is significant to the fair value measurement. The assessment of the significance of a particular input to the fair value measurement requires judgement and is specific to the investment.

All financial instruments for each Fund are level 1, apart from the financial instruments listed below which are level 2 as at 31 March 2024 and 31 March 2023:

Notes to the Financial Statements (continued)

9. Risk Management Policies and Procedures (continued)

Fair Value Measurement (continued)

Investments, whose values are based on quoted market prices in active markets, and therefore, classified within level 1, include active listed equities and investment funds. The Funds do not adjust the quoted price for these instruments. Financial instruments that do not have quoted market prices but are valued based on market prices, dealer quotations or alternative pricing sources supported by observable inputs are classified within level 2, these include common stock, bonds, P-Notes, unlisted rights, repurchase agreements and forward foreign currency exchange contracts.

There were level 3 securities held on Lazard Emerging Markets Equity Fund, Lazard Emerging Markets Equity Advantage Fund and Lazard Emerging Markets Managed Volatility Fund as at 31 March 2024 and 31 March 2023 but fair valued at zero value. These level 3 securities were all Russian held securities.

10. Credit Facility

On 2 August 2022, the Company entered into an unsecured credit facility ("Line of Credit") with State Street, to be utilised on a temporary basis for short-term liquidity purposes. The maximum amount of the Line of Credit available is USD 25,000,000 and the amount utilised by any Fund may not exceed 10% of that Fund's adjusted net assets. Each Fund will pay a commitment fee at the rate of 0.20% per annum on its pro-rata portion of the Line of Credit, which will be reflected as an expense in the Statement of Comprehensive Income. Interest on borrowings is charged at the applicable rate for the respective interest period plus a margin. There were no amounts drawn down from the Line of Credit during the financial year ended 31 March 2024 or financial year ended 31 March 2023.

11. Soft Commission Arrangements

The Investment Managers for the Company, in accordance with common market practice for investment managers entered into dealing arrangements with brokers whereby part of the dealing commissions paid to them are used to discharge the cost of investment related services supplied to them by the broker or by third parties. These services may be either market research or be related to the execution of trades on behalf of clients.

The Investment Managers place business with these counterparties including transactions relating to the Funds' investments. The Investment Managers will endeavour at all times to obtain best execution on all transactions for all clients including the Funds, and are satisfied that these arrangements are of benefit to the Funds. There were no soft commission arrangements during the financial years ended 31 March 2024 or 31 March 2023.

12. Related Party Transactions

The authorised share capital of the Company is one subscriber share of par value of £1.00 and it is held by the Manager. All material related party transactions with the Manager and Directors are included in Note 3 to the financial statements. The fees and expenses of the Investment Managers, the Promoter and the Distributors are paid by the Manager out of its fee.

Directors

Andreas Hübner, Jeremy Taylor and Denis Faller are full time executives of the Lazard Group as well as Directors of the Company and also directors of the Manager. Andreas Hübner, Jeremy Taylor and Denis Faller are not entitled to any Directors' fees. Directors' fees paid during the financial year ended 31 March 2024 were USD 74,821 (31 March 2023: USD 117,914), of which USD Nil (31 March 2023: USD 1,006) remained payable at the financial year end.

Significant Shareholders

The following table details the number of shareholders with significant holdings of at least 20% of the relevant Fund and the percentage of that holding as at 31 March 2024 and as at 31 March 2023.

	31 March 2024		31 March 2023	
	Number of significant shareholders	Aggregate Shareholding as a % of the Fund	Number of significant shareholders	Aggregate Shareholding as a % of the Fund
Lazard Global Sustainable Equity Fund	-	-	1	21.89%
Lazard Global Managed Volatility Fund	1	93.01%	1	89.98%
Lazard Global Thematic Fund**	-	-	1	46.20%
Lazard Global Thematic Focus Fund	1	31.22%	1	37.25%
Lazard Global Equity Franchise Fund	1	23.99%	1	26.07%
Lazard Digital Health Fund	1	75.51%	1	82.80%
Lazard Pan-European Small Cap Fund	1	98.57%	1	87.45%
Lazard US Equity Concentrated Fund	1	63.07%	2	62.79%
Lazard Japanese Strategic Equity Fund	-	-	1	81.47%
Lazard Emerging Markets Equity Fund	1	31.97%	1	43.87%
Lazard Emerging Markets Equity Advantage Fund	1	20.40%	1	23.70%
Lazard Emerging Markets Managed Volatility Fund	1	99.71%	1	99.77%
Lazard Developing Markets Equity Fund*	-	-	1	89.03%
Lazard Global Sustainable Fixed Income Fund	2	60.86%	3	76.83%

* Fund fully redeemed on 31 July 2023.

** Fund fully redeemed on 29 January 2024.

Notes to the Financial Statements (continued)

13. Distributions

Distributions will not be paid in respect of any class of Share which is an accumulating class. Income and profits, if any, attributable to an accumulating Share class will be accumulated and reinvested in the relevant Fund on behalf of the Shareholders of that class and will be reflected in the NAV of the relevant accumulating Share class.

The below distributions were paid to the Shareholders of AM Dist GBP class in the Lazard Global Listed Infrastructure Equity Fund on monthly basis during the financial year ended 31 March 2024:

Ex-date	Payment date	Local amount	Local Distribution per Share
01/11/2023	08/11/2023	231	0.1199
01/12/2023	08/12/2023	2,106	0.5278
02/01/2024	09/01/2024	1,138	0.1885
01/02/2024	09/02/2024	2,643	0.0809
01/03/2024	08/03/2024	7,354	0.2131

During the financial year ended 31 March 2024, distributions were paid on the following class of Shares:

Effective 22 March 2024, the Company's Prospectus and Supplements were amended for the introduction of the flexibility to use repurchase transactions on behalf of the Funds.

Notes to the Financial Statements (continued)

14. Significant Events During the Financial Year (continued)

Geo-political and Market Events

Fund portfolios may incur losses due to declines in one or more markets in which it invests. These declines may be the result of, among other things, political, regulatory, market, economic or social developments affecting the relevant market(s). To the extent that such developments impact specific industries, market sectors, countries or geographic regions, a Fund's investments in such industries, market sectors, countries and/or geographic regions can be expected to be particularly affected, especially if such investments are a significant portion of its investment portfolio. In addition, turbulence in financial markets and reduced liquidity in equity, credit and/or fixed income markets may negatively affect many issuers, which could adversely affect a Fund. Global economies and financial markets are increasingly interconnected, and conditions and events in one country, region or financial market may adversely impact issuers worldwide. As a result, local, regional or global events such as war or military conflict, acts of terrorism, the spread of infectious illness or other public health issues, social unrest, supply chain disruptions, market manipulations, government defaults, government shutdowns, the imposition of sanctions and other similar measures, recessions or other events could have a significant negative impact on global economic and market conditions. Additionally, general market conditions may impact the value of a Fund's securities, including changes in interest rates, currency rates or monetary policies. It is not known how long the effects of such impacts, or any future impacts of other significant events described above, will or would last, but there could be a prolonged period of global economic slowdown, which may be expected to impact a Fund and its investments..

There were no other significant events affecting the Company during the financial year.

15. Significant Events Since the Financial Year End

Distributions were declared on the below share classes in respect of the financial year from 1 April 2023 to 31 March 2024. These were paid to the Shareholders of that class in the relevant Fund on 9 and 12 April 2024 and details of these distributions are as follows:

* Repurchase agreement with State Street Bank and Trust Company dated 28/03/2024 at 5.280% to be repurchased at \$290,000 on 01/04/2024 collateralised by 305,300 United States Treasury Note, 3.500%, 31/01/2030 with a market value of USD 295,835.

The counterparty for the repurchase agreement contracts is State Street Bank and Trust Company.

The counterparties for the open forward foreign currency exchange contracts are:

Citibank NA
 HSBC Bank Plc
 JP Morgan Chase and Company
 Morgan Stanley
 State Street Bank and Trust Company

Fixed income securities are primarily classified by the country of incorporation of the issuer for corporate fixed income securities and country of issuer for government type fixed income securities.

Statement of Major Changes in Investments (Unaudited)

In accordance with the Central Bank UCITS Regulations, a statement of largest changes in the composition of the Portfolios of Investments during the reporting period is provided to ensure that shareholders can identify changes in the investments held by the Funds. These are defined as the aggregate purchases and sales of an investment (including maturities but excluding repurchase agreements, overnight discount notes and time deposits, which are employed chiefly as a means of seeking to ensure efficient portfolio management) exceeding 1.00% of the total value of purchases and sales for the financial year. At a minimum, the largest 20 purchases and sales are listed. If the Fund entered into less than 20 purchases or sales during the reporting period, then all transactions are presented.

Repurchase Agreements, which may be utilised for uninvested Fund cash and which usually mature the next business day, and securities held to maturity, which matured during the reporting period, have been excluded from the Statement of Major Changes in Investments.

Securities Financing Transactions Regulation Appendix (Unaudited)

Securities Financing Transactions Regulation (Regulation (EU) 2015/2365) (“SFTR”) came into force on 12 January 2016 and, amongst other requirements, introduced new disclosure requirements in the Company’s financial statements, detailing the Fund’s use of securities financing transactions (“SFTs”).

Article 13 of Regulation (EU) 2015/2365 on transparency of SFTs and of reuse and amending Regulation (EU) No 648/2012, requires UCITS investment companies to provide the following information on the use made of SFTs.

1. Market value of assets engaged in securities financing transactions as at 31 March 2024

Below is the market value of assets engaged in SFTs as at 31 March 2024. The assets which are engaged in SFTs at this date are repurchase agreements.

Fund	Currency	Fair Value	% of Net Assets Value
Lazard Global Sustainable Equity Fund	USD	1,410,000	0.60
Lazard Global Managed Volatility Fund	USD	450,000	0.61
Lazard Global Thematic Focus Fund	USD	3,180,000	0.48
Lazard Global Equity Franchise Fund	USD	9,760,000	0.84
Lazard Digital Health Fund	USD	10,000	0.37
Lazard US Equity Concentrated Fund	USD	5,730,000	3.26
Lazard Emerging Markets Equity Fund	USD	2,670,000	1.33
Lazard Emerging Markets Managed Volatility Fund	USD	130,000	0.17
Lazard Global Sustainable Fixed Income Fund	USD	290,000	1.80

2. Top counterparties used for the repurchase agreements held as at 31 March 2024*

Counterparty Name	State Street Bank and Trust Company
Country of Establishment	United States

*This list is a complete list of the counterparties for the repurchase agreements held as at 31 March 2024. The fair value of outstanding transactions for each Fund is as per table 1 above.

3. Maturity tenor of repurchase agreements held as at 31 March 2024

The maturity of all repurchase agreements held on the relevant Funds as at 31 March 2024 is 1 April 2024, therefore, the maturity tenor is between 1 day to 1 week.

4. Maturity tenor of collateral received in respect of repurchase agreements held as at 31 March 2024

Fund	Currency	Less than 1 day	1 day to 1 week	1 week to 1 month	1 to 3 months	3 months to 1 year	Greater than 1 year	Open Maturity

UCITS Remuneration Disclosure (Unaudited)

As a result of the implementation of the UCITS V Directive in March 2016, all authorised UCITS Management Companies must make certain disclosures in relation to the remuneration of 'UCITS Code Staff' (broadly defined as those staff whose professional activities have a material impact on the risk profiles of the funds managed by that UCITS Management Company).

Lazard Global Active Funds plc (the "Fund") is managed by Lazard Fund Managers (Ireland) Limited (the "Manager"), which is a subsidiary of the Lazard Asset Management Group ("LAM Group").

The table below provides an overview of the following;

- Aggregate total remuneration paid by the Manager to its staff; and
- Aggregate total remuneration paid by the Manager to its UCITS Code Staff for activities in respect of the Fund.

	Headcount	Total Remuneration USD
Remuneration paid to staff of the Manager	90	9,574,572
<i>of which</i>		
Fixed remuneration	90	2,227,213
Variable remuneration	90	7,347,359
Aggregate Remuneration paid to UCITS Remuneration Code Staff	76	9,574,572
<i>of which</i>		
Senior Management	8	1,332,490
Other code staff/risk takers	68	8,242,083

- 1) 'UCITS Remuneration Code Staff' relates to the total number of UCITS Code Staff who are employed by the Manager, including directors and similar. It also includes employees of other entities within the LAM Group to whom certain functions in respect of the Fund (in particular investment management) have been delegated.
- 2) Please note, because of the global way in which LAM operates, the majority of these staff members provide services to more than one LAM Group entity.
- 3) The remuneration disclosed above only relates to the provision of services by these employees to the Fund (that staff remuneration is pro-rated based on the proportion of their time spent on the Fund) rather than the total remuneration paid to those employees in the year. Remuneration is pro-rated on the basis of assets under management within the Fund.

Remuneration is made up of fixed pay (i.e. salary and benefits such as pension contributions) and performance-related pay (annual and long-term incentives). Annual incentives are designed to reward performance in line with the business strategy, objectives, values and long-term interests of the Manager and LAM. The annual incentive earned by an individual is dependent on the achievement of financial and non-financial objectives, including adherence to effective risk management practices. The Manager provides long-term incentives which are designed to link reward with long-term success and recognise the responsibility participants have in driving future success and delivering value. The structure of remuneration packages is such that the fixed element is sufficiently large to enable a flexible incentive policy to be operated.

Employees are eligible for an annual incentive based on their individual performance, and depending on their role, the performance of their business unit and/or the LAM Group. These incentives are managed within a strict risk framework. The LAM Group actively manages risks associated with delivering and measuring performance. Employee activities are carefully managed within the LAM risk management framework, and individual incentive outcomes are reviewed and may be reduced in light of any associated risk management issues.

LAM's Remuneration Committee operates on a global basis, across the Lazard Group as a whole. It reports to the Board of the Lazard Group. This Committee reviews risk and compliance issues in relation to remuneration (including deferred awards) for all employees.

These remuneration processes and oversight arrangements apply to all entities within the LAM Group, including those to which investment management of UCITS funds has been delegated. Those delegates are subject to contractual arrangements to ensure that policies which are regarded as equivalent are applied.

The general principles of the applicable remuneration policies, and the implementation of the remuneration policies is reviewed at least annually.

Sustainable Finance Disclosures Regulation Appendix (Unaudited)

Lazard Global Active Funds plc in scope of SFDR were classified as Article 6 or 8 in March 2021 after a review process that included mandatory ESG signatures, an assessment how ESG factors are factored into the investment process, and how ESG research is actioned either through trading decisions and stewardship activities. Funds were also assessed against criteria across the different regulatory environments in Europe, including AMF (France) and MiFID requirements. As part of the classification process, all Funds in scope of SFDR classified as Article 8 or 9 placed additional minimum exclusion screens on companies with tobacco production (5% of revenue or greater), military weapons production (10% of revenue or greater), thermal coal mining or production (30% of revenue or greater), and United Nations Global Compact principles violations.

To meet evolving SFDR requirements, LAM Group developed a firmwide approach for products categorised as Article 8 (and any future Article 9 funds), with specific binding criteria that must be met. LAM Group is currently developing the required tools to implement and monitor the SFDR binding criteria. Binding criteria will be monitored on a regular basis by LAM's Global Risk Management Team with support from the Sustainable Investment & ESG Team and also external ESG information sourced from third-party data providers. Trading and compliance systems and functions will support pre-trade compliance.

The following tables, as at the date of publication of financials, outlines the SFDR categorisation of the Funds:

Fund	SFDR Categorisation
Lazard Global Listed Infrastructure Equity Fund	Article 8
Lazard Global Strategic Equity Fund *	N/A
Lazard Global Sustainable Equity Fund	Article 8
Lazard Global Equity Income Fund *	N/A

Sustainable Finance Disclosures (“Annex IV”) (Unaudited)

ANNEX IV

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

<p>Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.</p> <p>The EU Taxonomy is a classification system laid down in Regulation (EU) 2020/852, establishing a list of environmentally sustainable economic activities. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.</p>	Product name:	Lazard Global Listed Infrastructure Equity Fund	Legal entity identifier:	549300HW60RXBYCMXK04
	Environmental and/or social characteristics			
Did this financial product have a sustainable investment objective				
<input checked="" type="radio"/> <input checked="" type="radio"/> Yes		<input checked="" type="radio"/> <input type="radio"/> No		
<input type="checkbox"/>	It made sustainable investments with an environmental objective : ____%	<input type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of ____% of sustainable investments		
<input type="checkbox"/>	in economic activities that qualify as environmentally sustainable under the EU Taxonomy	<input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy		
<input type="checkbox"/>	in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy	<input type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy		
<input type="checkbox"/>	It made sustainable investments with a social objective : ____%	<input type="checkbox"/> with a social objective		
<input checked="" type="checkbox"/>		<input checked="" type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments		
	To what extent were the environmental and/or social characteristics promoted by this financial product met?			
<p>During the twelve-month period ended March 2024, the Fund sought to limit investments in companies that were rated ‘Severe’ on ESG Risk Rating, and to avoid investing in companies deemed in violation of the UNGC principles and those involved in the controversial weapons, military weapons, thermal coal, or tobacco production. The Fund achieved these environmental/social characteristics during the relevant period, as more fully explained in the section below on the sustainability indicators of the Fund.</p>				

Sustainable Finance Disclosures (“Annex IV”) (Unaudited) (continued)

<p>Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.</p>	<p>● How did the sustainability indicators perform?</p> <p>The Fund’s sustainability indicators performed as follows:</p> <ol style="list-style-type: none"> The Fund had no exposure to companies that were rated ‘Severe’ on ESG Risk Rating, resulting in the Fund being in line with its maximum 10% threshold of portfolio holdings with a ‘Severe’ ESG Risk Rating (see below).  <p>As of March 2024. Scores range from 0 (Negligible ESG Risk) to 40+ (Severe ESG Risk). Lower scores are better. Source: Sustainalytics.</p> <ol style="list-style-type: none"> The Fund had no exposure to companies deemed by the Investment Manager to be breaching the UNGC principles. The Fund had no exposure to companies excluded by the exclusion criteria relating to controversial weapons production, military weapons production, thermal coal mining or production, or tobacco production.
	<p>● ...and compared to previous periods?</p>
	<p>Please refer to the LGAF Annual Report and Audited Financial Statements for year ended 31 March 2023 available at: https://www.lazardassetmanagement.com/docs/-m0-/17564/lazardglobalactivefunds-ra-annual.pdf</p>
	<p>● What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?</p>
	<p>N/A. The Fund did not make sustainable investments.</p>
	<p>● How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?</p>
<p>Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee</p>	<p>N/A</p> <p>— — How were the indicators for adverse impacts on sustainability factors taken into account?</p>

Sustainable Finance Disclosures (“Annex IV”) (Unaudited) (continued)

<p>matters, respect for human rights, anti-corruption and anti-bribery matters</p>	<p>N/A</p> <p>— — Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:</p>
	<p>N/A</p>
	<p><i>The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.</i></p> <p>The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.</p> <p><i>Any other sustainable investments must also not significantly harm any environmental or social objectives.</i></p>
	<p>How did this financial product consider principal adverse impacts on sustainability factors?</p> <p>The Fund considered principal adverse impacts (PAIs) on sustainability factors through several methods over the reference period.</p> <p>Exclusions Through pre-investment global norms and activity-based exclusions, investments in certain corporates or countries were avoided, mitigating potential adverse sustainability impacts. Specific exclusion criteria are available in the relevant pre-contractual disclosure for the Fund.</p> <p>ESG integration and investment due diligence Material environmental and social issues in the mandatory PAI indicators were incorporated as part of the Investment Manager’s proprietary research over the period, taking into consideration sector, geographical, and other factors that impact the materiality and relevance of PAIs to each investment. The Investment Manager also referenced third-party ESG research and data for additional information and relative industry and universe positioning. By integrating these ESG considerations within the investment process, the Investment Manager may reduce or avoid potential adverse sustainability impacts from investments.</p> <p>Stewardship activities Although engagement is not directly linked to the specific environmental or social characteristics of the Fund, the Investment Manager considered adverse impacts on sustainability factors through actions such as engagement and voting on ESG topics. Over the period, the Investment Manager conducted engagements focusing on material PAIs such as GHG emissions and other carbon metrics, board diversity and governance issues such as executive compensation and shareholder rights. Engagement activity is prioritised by considering both ESG and financial impacts, as well as sector and regional considerations.</p> <p>Further information how PAIs can be found in the relevant pre-contractual disclosure for the Fund.</p>

Sustainable Finance Disclosures (“Annex IV”) (Unaudited) (continued)

What were the top investments of this financial product?

The Fund had the following top investments over the reference period:

Largest investments	Sector	Assets (%)	Country
National Grid plc	Utilities	8.14	United Kingdom
Ferrovial SE	Industrials	8.04	Spain
Norfolk Southern Corporation	Industrials	8.04	United States
VINCI SA	Industrials	7.85	France
CSX Corporation	Industrials	4.66	United States
Snam S.p.A.	Utilities	4.60	Italy
United Utilities Group PLC	Utilities	4.52	United Kingdom
Severn Trent Plc	Utilities	4.43	United Kingdom
Atlas Arteria	Industrials	3.91	Australia
Exelon Corporation	Utilities	3.73	United States
Terna S.p.A.	Utilities	3.51	Italy
Power Assets Holdings Limited	Utilities	3.04	Hong Kong
Italgas SpA	Utilities	3.01	Italy
Union Pacific Corporation	Industrials	2.79	United States
American Electric Power Company, Inc.	Utilities	2.67	United States

Note: Proportion of investments are shown as average position sizes over the reference period.

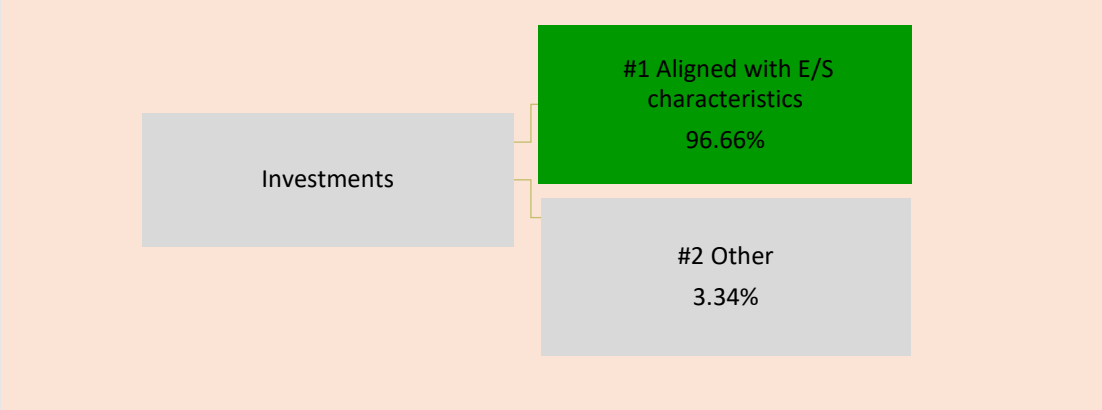

Sustainable Finance Disclosures (“Annex IV”) (Unaudited) (continued)

What was the proportion of sustainability-related investments?

● *What was the asset allocation?*

Asset allocation describes the share of investments in specific assets.

#1 Aligned with E/S characteristics includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

#2 Other includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

● *In which economic sectors were the investments made?*

The Fund made investments in the following economic sectors:

Sector	Portfolio weight (%)
Utilities	48.74
Industrials	42.19
Cash	5.49
Communication Services	3.51

Note: Based on GICS sector definitions. Sectors allocations shown net of any cash or derivative exposures in the Fund.

The average exposure to direct fossil fuels activities was 0.54% over the period.

Sustainable Finance Disclosures (“Annex IV”) (Unaudited) (continued)

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

While the Fund did not have a commitment to make sustainable investments, as of the production date of this document, the Investment Manager assessed that 16.52% of the Fund is aligned with the EU Taxonomy.

● **Did the financial product invest in fossil gas and/or nuclear energy related activities that comply with the EU Taxonomy¹?**

Yes:

In fossil gas In nuclear energy

No

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

*For the purpose of these graphs, ‘sovereign bonds’ consist of all sovereign exposures.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change (“climate change mitigation”) and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Sustainable Finance Disclosures (“Annex IV”) (Unaudited) (continued)

<p>Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.</p>	<ul style="list-style-type: none"> ● What was the share of investments made in transitional and enabling activities?
	<p>As of the production date of this document, the Investment Manager does not have the necessary data to identify the share of transitional or enabling activities.</p>
<p>Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.</p>	<ul style="list-style-type: none"> ● How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?
	<p>N/A</p>
<p> are sustainable investments with an environmental objective that do not take into account the criteria for environmentally sustainable economic activities under Regulation (EU) 2020/852.</p>	<ul style="list-style-type: none">  What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?
	<p>N/A. The Fund did not make any sustainable investments over the reference period.</p>
<p> What was the share of socially sustainable investments?</p>	<ul style="list-style-type: none"> ● What was the share of socially sustainable investments?
	<p>N/A. The Fund did not make sustainable investments over the reference period.</p>
<p> What investments were included under “#2 Other”, what was their purpose and were there any minimum environmental or social safeguards?</p>	<ul style="list-style-type: none"> ● What investments were included under “#2 Other”, what was their purpose and were there any minimum environmental or social safeguards?
	<p>“#2 Other” included other investments and instruments of the Fund that cannot be aligned with the environmental and/or social characteristics of the Fund. These included, cash, and cash equivalents, which are used for the purpose of efficient portfolio management and liquidity.</p>
<p> What actions have been taken to meet the environmental and/or social characteristics during the reference period?</p>	<p>Over the reference period, the Investment Manager incorporated ESG considerations into research and investment due diligence, selecting investments to promote the relevant environmental and/or social characteristics of the Fund based on the specific investment strategy and applying binding criteria set out in the Fund’s pre-contractual disclosure.</p> <p>Although engagement is not directly linked to the specific environmental or social characteristics of the Fund, the Investment Manager may have undertaken certain stewardship activities, through constructive dialogue with senior management representatives, to share views when given the opportunity, and to support companies undertaking positive changes. The Investment Manager seeks to incorporate the insights from stewardship activities into investment decisions, and vice versa, to enhance long-term value.</p>

Sustainable Finance Disclosures (“Annex IV”) (Unaudited) (continued)

	<p>How did this financial product perform compared to the reference benchmark?</p>
	<p>The Fund did not designate an index as a reference benchmark to attain the environmental or social characteristics it promotes.</p>
<p>Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.</p>	<p>● <i>How does the reference benchmark differ from a broad market index?</i></p>
	<p>N/A</p>
	<p>● <i>How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?</i></p>
	<p>N/A</p>
	<p>● <i>How did this financial product perform compared with the reference benchmark?</i></p>
	<p>N/A</p>
	<p>● <i>How did this financial product perform compared with the broad market index?</i></p> <p>N/A</p>

Sustainable Finance Disclosures (“Annex IV”) (Unaudited) (continued)

ANNEX IV

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

	Product name:	Lazard Global Sustainable Equity Fund	Legal entity identifier:	549300KFQW77LQH68M19
<p>Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.</p>	Environmental and/or social characteristics			
<p>The EU Taxonomy is a classification system laid down in Regulation (EU) 2020/852, establishing a list of environmentally sustainable economic activities. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.</p>	Did this financial product have a sustainable investment objective			
	●● <input type="checkbox"/> Yes		●○ <input checked="" type="checkbox"/> No	
	<input type="checkbox"/>	It made sustainable investments with an environmental objective : ___%	<input checked="" type="checkbox"/>	It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of 76.5% of sustainable investments
	<input type="checkbox"/>	in economic activities that qualify as environmentally sustainable under the EU Taxonomy	<input type="checkbox"/>	with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy
	<input type="checkbox"/>	in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy	<input checked="" type="checkbox"/>	with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy
	<input type="checkbox"/>	It made sustainable investments with a social objective : ___%	<input checked="" type="checkbox"/>	with a social objective
	<input type="checkbox"/>	It promoted E/S characteristics, but did not make any sustainable investments	<input type="checkbox"/>	
	To what extent were the environmental and/or social characteristics promoted by this financial product met?			
	<p>During the twelve-month period ended March 2024, the Fund sought to invest at least 30% of its assets in sustainable investments. The Fund sought to maintain a better than benchmark ESG rating and Weighted Average Carbon Intensity (WACI). The Fund also sought to avoid investing in companies deemed in violation of the UNGC principles and those involved in the controversial weapons, military weapons, direct fossil fuel activities (generation, extraction, and/or refining certain fossil fuels including oil, gas, thermal coal), or tobacco production. The Fund achieved these environmental/social characteristics during the relevant period, as more fully explained in the section below on the sustainability indicators of the Fund.</p>			

Sustainable Finance Disclosures (“Annex IV”) (Unaudited) (continued)

<p>Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.</p>	<p>● How did the sustainability indicators perform?</p> <p>The sustainability indicators performed as follows:</p> <ol style="list-style-type: none"> The Fund invested 76.5% of its assets in companies that, in the opinion of the Investment Manager, qualified as ‘sustainable investments’ under SFDR. This exceeded the minimum level of 30% sustainable investments set by the Fund. The Fund’s ESG Risk Rating outperformed the benchmark index (shown below). <div data-bbox="533 439 995 792" data-label="Figure"> <table border="1"> <caption>ESG RISK RATING</caption> <thead> <tr> <th>Category</th> <th>Score</th> </tr> </thead> <tbody> <tr> <td>PORTFOLIO</td> <td>16.8</td> </tr> <tr> <td>BENCHMARK</td> <td>21.6</td> </tr> </tbody> </table> <p><i>As of March 2024. BENCHMARK	129.5												
	<p>● ...and compared to previous periods?</p>												
	<p>Please refer to the LGAF Annual Report and Audited Financial Statements for year ended 31 March 2023 available at: https://www.lazardassetmanagement.com/docs/-m0-/17564/lazardglobalactivefunds-ra-annual.pdf</p>												
	<p>● What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?</p>												

Sustainable Finance Disclosures (“Annex IV”) (Unaudited) (continued)

	<p>For environmentally sustainable investments, qualifying companies are assessed for their contribution to environmental objectives such as energy efficiency and resource efficiency activities such as renewable energy, water efficiency, green transportation, and digitisation, which support lower environmental impact from emissions and resource use.</p> <p>For socially sustainable investments, qualifying companies are assessed for their contribution to social objectives such as improved health care, sustainable food production and sourcing, improved safety and security services, access to financial services through inclusion, and improved education systems.</p> <p>The Investment Manager identifies qualifying companies which contribute to environmental and/or social objectives by assessing positive contribution through products/services and operations to environmental and/or social objectives. The Investment Manager undertakes a revenue-based assessment, using third-party company-level sustainability impact data, to determine the positive contribution of a company's products/services to such objectives, as well as an assessment of positive alignment and operational performance with respect to climate and EU taxonomy objectives. Companies which meet the Investment Manager's criteria are considered, in the Investment Manager's opinion, to qualify as sustainable investments.</p> <p>The Fund's invested 76.46% of its assets in companies that qualified as Sustainable Investments under the Investment Manager's proprietary sustainable investment assessment.</p>
	<p>● <i>How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?</i></p>
<p>Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters</p>	<p>Each company that is assessed to be significantly contributing towards environmental/and or social objectives must also pass the following tests to qualify as a sustainable investment to ensure that it does not cause significant harm to any environmental or social sustainable objective:</p> <ul style="list-style-type: none"> • screening out companies with material revenue exposure to controversial business activities, such as tobacco, gambling, weapons, electricity generation from fossil fuels. • Undertaking an assessment of the relevant and available indicators of principal adverse impact (PAI) of the qualifying companies on sustainability factors, among other ESG metrics, to assess companies' interaction with key stakeholders such as employees, customers, communities, and the environment. • an assessment of alignment with the UN Global Compact principles. Any company that is flagged for a violation of the UNGC principles will not qualify. <p>--- <i>How were the indicators for adverse impacts on sustainability factors taken into account?</i></p> <p>The Investment Manager's DNSH assessment took into account the PAI indicators by reviewing the performance of qualifying companies against relative or absolute thresholds for the relevant mandatory PAI indicators (set out in Table 1, Annex I, EU Regulation 2022/1288 (SFDR Level 2)) for which data is sufficiently available. Relative thresholds for relevant PAI indicators (e.g. PAI 3, 4) are set by reference to peer performance against the PAI indicators in the sub-industry in which the qualifying company operates. Absolute thresholds are those embedded in the PAI indicator methodologies and criteria under SFDR Level 2 (e.g. PAI 10). The worst performing companies, either in relative or absolute terms, did not pass the DNSH assessment and did not qualify as sustainable investments.</p> <p>--- <i>Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:</i></p>

Sustainable Finance Disclosures (“Annex IV”) (Unaudited) (continued)

	<p>To assess whether an investment is aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights, the Investment Manager assessing each corporate for compliance with the UN Global Compact principles (UNGC) leveraging both third-party and internal research. Over the reference period, no companies were flagged for UNGC violations and as such the sustainable investments in the portfolio passed the assessment for alignment with these global norms and standards.</p>
	<p><i>The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.</i></p> <p>The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.</p> <p><i>Any other sustainable investments must also not significantly harm any environmental or social objectives.</i></p>
	<p>How did this financial product consider principal adverse impacts on sustainability factors?</p>
	<p>The Fund considered principal adverse impacts (PAIs) on sustainability factors through several methods over the reference period, where data was available.</p> <p>Exclusions Through pre-investment global norms and activity-based exclusions, investments in certain corporates or countries were avoided, mitigating potential adverse sustainability impacts. Specific exclusion criteria are available in the relevant pre-contractual disclosure for the Fund.</p> <p>ESG integration and investment due diligence Material environmental and social issues in the mandatory PAI indicators were incorporated as part of the Investment Manager’s proprietary research over the period, taking into consideration sector, geographical, and other factors that impact the materiality and relevance of PAIs to each investment. The Investment Manager also referenced third-party ESG research and data for additional information and relative industry and universe positioning. By integrating these ESG considerations within the investment process, the Investment Manager may reduce or avoid potential adverse sustainability impacts from investments.</p> <p>Stewardship activities Although engagement is not directly linked to the specific environmental or social characteristics of the Fund, the Investment Manager considered adverse impacts on sustainability factors through actions such as engagement and voting on ESG topics. Over the period, the Investment Manager conducted engagements focusing on material PAIs such as GHG emissions and other carbon metrics, board diversity and governance issues such as executive compensation and shareholder rights. Engagement activity is prioritised by considering both ESG and financial impacts, as well as sector and regional considerations.</p> <p>Further information about the consideration of PAIs and any mitigating action is detailed in the Investment Manager’s Global Sustainable Sustainability Focus Report 2023.</p>

Sustainable Finance Disclosures (“Annex IV”) (Unaudited) (continued)

What were the top investments of this financial product?

The Fund had the following top investments over the reference period:

Largest investments	Sector	Assets (%)	Country
Microsoft Corporation	Information Technology	6.64	United States
Thermo Fisher Scientific Inc.	Health Care	3.67	United States
Accenture Plc Class A	Information Technology	3.28	United States
NVIDIA Corporation	Information Technology	3.15	United States

Sustainable Finance Disclosures (“Annex IV”) (Unaudited) (continued)

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

As of the production date of this document, the Investment Manager assessed that 0% of sustainable investments are aligned with the EU Taxonomy.

Did the financial product invest in fossil gas and/or nuclear energy related activities that comply with the EU Taxonomy²?

- Yes:
 - In fossil gas
 - In nuclear energy
- No

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

*For the purpose of these graphs, ‘sovereign bonds’ consist of all sovereign exposures.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure (CapEx)** showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure (OpEx)** reflecting green operational activities of investee companies.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives

What was the share of investments made in transitional and enabling activities?

As of the production date of this document, the Investment Manager does not have the necessary data to identify the share of transitional or enabling activities.

² Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change (“climate change mitigation”) and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Sustainable Finance Disclosures (“Annex IV”) (Unaudited) (continued)

ANNEX IV

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

	Product name:	Lazard Global Managed Volatility Fund	Legal entity identifier:	549300EQCOTFFL3VVO14
<p>Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.</p>	Environmental and/or social characteristics			
<p>The EU Taxonomy is a classification system laid down in Regulation (EU) 2020/852, establishing a list of environmentally sustainable economic activities. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.</p>	Did this financial product have a sustainable investment objective			
	<input checked="" type="radio"/> <input checked="" type="radio"/> <input type="checkbox"/> Yes		<input checked="" type="radio"/> <input type="radio"/> <input checked="" type="checkbox"/> No	
	<input type="checkbox"/>	It made sustainable investments with an environmental objective : ___%	<input type="checkbox"/>	It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of ___% of sustainable investments
	<input type="checkbox"/>	in economic activities that qualify as environmentally sustainable under the EU Taxonomy	<input type="checkbox"/>	with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy
	<input type="checkbox"/>	in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy	<input type="checkbox"/>	with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy
	<input type="checkbox"/>	It made sustainable investments with a social objective : ___%	<input type="checkbox"/>	with a social objective
	<input type="checkbox"/>	It made sustainable investments with a social objective : ___%	<input checked="" type="checkbox"/>	It promoted E/S characteristics, but did not make any sustainable investments
	To what extent were the environmental and/or social characteristics promoted by this financial product met?			
	<p>During the twelve-month period ended March 2024, the Fund sought to maintain a better than benchmark ESG rating and to avoid investing in companies deemed in violation of the UNGC principles and those involved in the controversial weapons, military weapons, thermal coal, or tobacco production. The Fund achieved these environmental/social characteristics during the relevant period by maintaining a better weighted-average ESG rating than the benchmark index and not investing in the excluded companies, as more fully explained in the section below on the sustainability indicators of the Fund.</p>			

Sustainable Finance Disclosures (“Annex IV”) (Unaudited) (continued)

<p>Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.</p>	<p>● How did the sustainability indicators perform?</p> <p>The Fund’s sustainability indicators performed as follows:</p> <ol style="list-style-type: none"> The Fund’s ESG Risk Rating outperformed the benchmark index (shown below). <div data-bbox="534 398 960 772" data-label="Figure"> <table border="1"> <caption>ESG RISK RATING</caption> <thead> <tr> <th>Category</th> <th>Score</th> </tr> </thead> <tbody> <tr> <td>PORTFOLIO</td> <td>21.0</td> </tr> <tr> <td>BENCHMARK</td> <td>21.3</td> </tr> </tbody> </table> <p><i>As of March 2024. ANNEX IV

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

	Product name:	Lazard Global Thematic Focus Fund	Legal entity identifier:	254900001NRFZOKGEI69	
<p>Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.</p> <p>The EU Taxonomy is a classification system laid down in Regulation (EU) 2020/852, establishing a list of environmentally sustainable economic activities. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.</p>	Environmental and/or social characteristics				
	Did this financial product have a sustainable investment objective				
	●● <input type="checkbox"/> Yes		●○ <input checked="" type="checkbox"/> No		
	<input type="checkbox"/>	It made sustainable investments with an environmental objective : ___%	<input checked="" type="checkbox"/>	It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of 53.6% of sustainable investments	
	<input type="checkbox"/>	in economic activities that qualify as environmentally sustainable under the EU Taxonomy	<input type="checkbox"/>	with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy	
<input type="checkbox"/>	in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy	<input checked="" type="checkbox"/>	with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy		
<input type="checkbox"/>	It made sustainable investments with a social objective : ___%	<input checked="" type="checkbox"/>	with a social objective		
<input type="checkbox"/>	It promoted E/S characteristics, but did not make any sustainable investments	<input type="checkbox"/>			
	To what extent were the environmental and/or social characteristics promoted by this financial product met?				
	During the twelve-month period ended March 2024, the Fund sought to invest at least 20% of its assets in sustainable investments. The Fund also sought to invest in companies assigned a net positive sustainability score under the Investment Manager's proprietary sustainability framework, maintain a better than benchmark ESG rating, and to avoid investing in companies deemed in violation of the UNGC principles and those involved in the controversial weapons, military weapons, thermal coal, or tobacco production. The Fund achieved these environmental/social characteristics during the relevant period, as more fully explained in the section below on the sustainability indicators of the Fund.				

Sustainable Finance Disclosures (“Annex IV”) (Unaudited) (continued)

<p>Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.</p>	<p>● How did the sustainability indicators perform?</p> <p>The Fund’s sustainability indicators performed as follows:</p> <ol style="list-style-type: none"> 1. The Fund’s invested 53.6% of its assets in companies that, in the opinion of the Investment Manager, qualified as ‘sustainable investments’ under SFDR. This exceeded the minimum level of 20% sustainable investments set by the Fund. 2. The Fund assessed all portfolio holdings against the Investment Manager’s proprietary sustainability framework and only those that were assigned a net positive score were eligible for investment. 3. The Fund’s ESG Risk Rating outperformed the benchmark index (shown below). <div data-bbox="536 629 995 987" data-label="Figure"> <table border="1"> <caption>ESG RISK RATING</caption> <thead> <tr> <th>Category</th> <th>Score</th> </tr> </thead> <tbody> <tr> <td>PORTFOLIO</td> <td>18.6</td> </tr> <tr> <td>BENCHMARK</td> <td>21.6</td> </tr> </tbody> </table> <p><i>As of March 2024. Based on twelve-month rolling average. Scores range from 0 (Negligible ESG Risk) to 40+ (Severe ESG Risk). Lower scores are better. Source: Sustainalytics.</i></p> </div> <ol style="list-style-type: none"> 4. The Fund had no exposure to companies deemed by the Investment Manager to be breaching the UNGC principles. 5. The Fund had no exposure to companies excluded by the exclusion criteria relating to controversial weapons production, military weapons production, thermal coal mining or production, or tobacco production. 	Category	Score	PORTFOLIO	18.6	BENCHMARK	21.6
Category	Score						
PORTFOLIO	18.6						
BENCHMARK	21.6						
	<p>● ...and compared to previous periods?</p>						
	<p>Please refer to the LGAF Annual Report and Audited Financial Statements for year ended 31 March 2023 available at: https://www.lazardassetmanagement.com/docs/-m0-/17564/lazardglobalactivefunds-ra-annual.pdf</p>						
	<p>● What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?</p>						
	<p>For environmentally sustainable investments, qualifying companies are assessed for their contribution to environmental objectives such as energy efficiency and resource efficiency activities such as renewable energy, water efficiency, green transportation, and digitisation, which support lower environmental impact from emissions and resource use.</p> <p>For socially sustainable investments, qualifying companies are assessed for their contribution to social objectives such as improved health care, sustainable food production and sourcing, improved safety and security services, access to financial services through inclusion, and improved education systems.</p>						

Sustainable Finance Disclosures (“Annex IV”) (Unaudited) (continued)

	<p>The Investment Manager identifies qualifying companies which contribute to environmental and/or social objectives by assessing positive contribution through products/services and operations to environmental and/or social objectives. The Investment Manager undertakes a revenue-based assessment, using third-party company-level sustainability impact data, to determine the positive contribution of a company's products/services to such objectives, as well as an assessment of positive alignment and operational performance with respect to climate and EU taxonomy objectives. Companies which meet the Investment Manager’s criteria are considered, in the Investment Manager’s opinion, to qualify as sustainable investments.</p> <p>The Fund’s invested 53.6% of its assets in companies that qualified as Sustainable Investments under the Investment Manager's proprietary sustainable investment assessment.</p>
<p>Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters</p>	<p>● <i>How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?</i></p>
	<p>Each company that is assessed to be significantly contributing towards environmental/and or social objectives must also pass the following tests to qualify as a sustainable investment to ensure that it does not cause significant harm to any environmental or social sustainable objective:</p> <ul style="list-style-type: none"> • screening out companies with material revenue exposure to controversial business activities, such as tobacco, gambling, weapons, electricity generation from fossil fuels. • Undertaking an assessment of the relevant and available indicators of principal adverse impact (PAI) of the qualifying companies on sustainability factors, among other ESG metrics, to assess companies' interaction with key stakeholders such as employees, customers, communities, and the environment. • an assessment of alignment with the UN Global Compact principles. Any company that is flagged for a violation of the UNGC principles will not qualify.
	<p>--- <i>How were the indicators for adverse impacts on sustainability factors taken into account?</i></p>
	<p>The Investment Manager's DNSH assessment took into account the PAI indicators by reviewing the performance of qualifying companies against relative or absolute thresholds for the relevant mandatory PAI indicators (set out in Table 1, Annex I, EU Regulation 2022/1288 (SFDR Level 2)) for which data is sufficiently available. Relative thresholds for relevant PAI indicators (e.g. PAI 3, 4) are set by reference to peer performance against the PAI indicators in the sub-industry in which the qualifying company operates. Absolute thresholds are those embedded in the PAI indicator methodologies and criteria under SFDR Level 2 (e.g. PAI 10). The worst performing companies, either in relative or absolute terms, did not pass the DNSH assessment and did not qualify as sustainable investments.</p>
<p>--- <i>Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:</i></p>	
	<p>To assess whether an investment is aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights, the Investment Manager assessing each corporate for compliance with the UN Global Compact principles (UNGC) leveraging both third-party and internal research. Over the reference period, no companies were flagged for UNGC violations and as such the sustainable investments in the portfolio passed the assessment for alignment with these global norms and standards.</p>

Sustainable Finance Disclosures (“Annex IV”) (Unaudited) (continued)

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

The Fund considered principal adverse impacts (PAIs) on sustainability factors through several methods over the reference period.

Exclusions

Through pre-investment global norms and activity-based exclusions, investments in certain corporates or countries were avoided, mitigating potential adverse sustainability impacts. Specific exclusion criteria are available in the relevant pre-contractual disclosure for the Fund.

ESG integration and investment due diligence

Material environmental and social issues in the mandatory PAI indicators were incorporated as part of the Investment Manager’s proprietary research over the period, taking into consideration sector, geographical, and other factors that impact the materiality and relevance of PAIs to each investment. The Investment Manager also referenced third-party ESG research and data for additional information and relative industry and universe positioning. By integrating these ESG considerations within the investment process, the Investment Manager may reduce or avoid potential adverse sustainability impacts from investments.

Stewardship activities

Although engagement is not directly linked to the specific environmental or social characteristics of the Fund, the Investment Manager considered adverse impacts on sustainability factors through actions such as engagement and voting on ESG topics. Over the period, the Investment Manager conducted engagements focusing on material PAIs such as GHG emissions and other carbon metrics, board diversity and governance issues such as executive compensation and shareholder rights. Engagement activity is prioritised by considering both ESG and financial impacts, as well as sector and regional considerations.

Further information how PAIs can be found in the relevant pre-contractual disclosure for the Fund.

Sustainable Finance Disclosures (“Annex IV”) (Unaudited) (continued)

What were the top investments of this financial product?

The Fund had the following top investments over the reference period:

Largest investments	Sector	Assets (%)	Country
Microsoft Corporation	Information Technology	4.29	United States
Alphabet Inc. Class A	Communication Services	3.93	United States
Amazon.com, Inc.	Consumer Discretionary	2.70	United States
Applied Materials, Inc.	Information Technology	2.18	United States
Mastercard Incorporated Class A	Financials	2.14	United States
Taiwan Semiconductor Manufacturing Co., Ltd. Sponsored ADR	Information Technology	2.11	Taiwan
Salesforce, Inc.	Information Technology	2.09	United States
Adobe Inc.	Information Technology	2.09	United States
Electronic Arts Inc.	Communication Services	2.09	United States
Accenture Plc Class A	Information Technology	2.03	United States
PTC Inc.	Information Technology	2.02	United States
SAP SE	Information Technology	2.02	Germany
RELX PLC	Industrials	2.02	United Kingdom
EssilorLuxottica SA	Health Care	2.01	France
Marsh & McLennan Companies, Inc.	Financials	2.01	United States

Note: Proportion of investments are shown as average position sizes over the reference period.

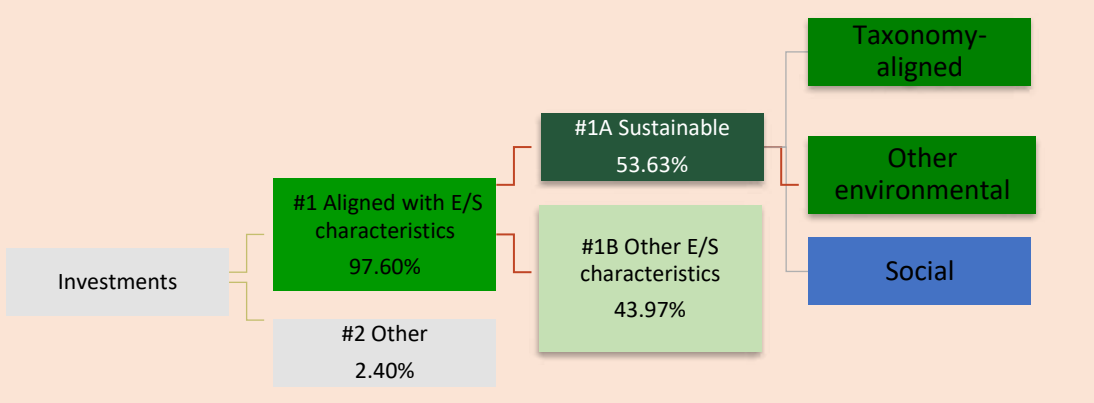

Sustainable Finance Disclosures (“Annex IV”) (Unaudited) (continued)

What was the proportion of sustainability-related investments?

● **What was the asset allocation?**

Asset allocation describes the share of investments in specific assets.

#1 Aligned with E/S characteristics includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

#2 Other includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

● **In which economic sectors were the investments made?**

The Fund made investments in the following economic sectors:

Sector	Portfolio weight (%)
Information Technology	35.65
Industrials	15.89
Communication Services	10.49
Consumer Discretionary	9.23
Financials	9.20
Energy	6.73
Materials	3.86
Utilities	3.00
[Cash]	2.41
Health Care	2.01
Consumer Staples	1.54

Note: Based on GICS sector definitions. Sectors allocations shown net of any cash or derivative exposures in the Fund.

The average exposure to direct fossil fuels activities was 9.59% over the period.

Sustainable Finance Disclosures (“Annex IV”) (Unaudited) (continued)

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

As of the production date of this document, the Investment Manager assessed that 3.60% of sustainable investments are aligned with the EU Taxonomy.

● Did the financial product invest in fossil gas and/or nuclear energy related activities that comply with the EU Taxonomy⁴?

Yes:

In fossil gas In nuclear energy

No

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

*For the purpose of these graphs, ‘sovereign bonds’ consist of all sovereign exposures.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives

● What was the share of investments made in transitional and enabling activities?

As of the production date of this document, the Investment Manager does not have the necessary data to identify the share of transitional or enabling activities.

⁴ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change (“climate change mitigation”) and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

By integrating these ESG considerations within the investment process, the Investment Manager may reduce or avoid potential adverse sustainability impacts from investments.</p> <p>Stewardship activities Although engagement is not directly linked to the specific environmental or social characteristics of the Fund, the Investment Manager considered adverse impacts on sustainability factors through actions such as engagement and voting on ESG topics. Over the period, the Investment Manager conducted engagements focusing on material PAIs such as GHG emissions and other carbon metrics, board diversity and governance issues such as executive compensation and shareholder rights. Engagement activity is prioritised by considering both ESG and financial impacts, as well as sector and regional considerations.</p> <p>Further information regarding PAIs can be found in the relevant pre-contractual disclosure for the Fund.</p>

Sustainable Finance Disclosures (“Annex IV”) (Unaudited) (continued)

What were the top investments of this financial product?

The Fund had the following top investments over the reference period:

Largest investments	Sector	Assets (%)	Country
Thermo Fisher Scientific Inc.	Health Care	5.84	United States
IQVIA Holdings Inc	Health Care	5.32	United States
Inspire Medical Systems, Inc.	Health Care	4.45	United States
Doximity, Inc. Class A	Health Care	4.39	United States
Schrodinger, Inc.	Health Care	4.10	United States
Siemens Healthineers AG	Health Care	4.06	Germany
Novartis AG	Health Care	3.67	Switzerland
Veeva Systems Inc Class A	Health Care	3.60	United States
Medtronic Plc	Health Care	3.48	United States
CRISPR Therapeutics AG	Health Care	3.47	United States
Phreesia, Inc.	Health Care	3.43	United States
Halozyne Therapeutics, Inc.	Health Care	3.42	United States
Catalent Inc	Health Care	3.15	United States
Wuxi Biologics (Cayman) Inc.	Health Care	3.14	China
AbCellera Biologics, Inc.	Health Care	2.91	United States

Note: Proportion of investments are shown as average position sizes over the reference period.

The list includes the investments constituting the greatest proportion of investments of the financial product during the reference period which is:
01/04/2023-31/03/2024

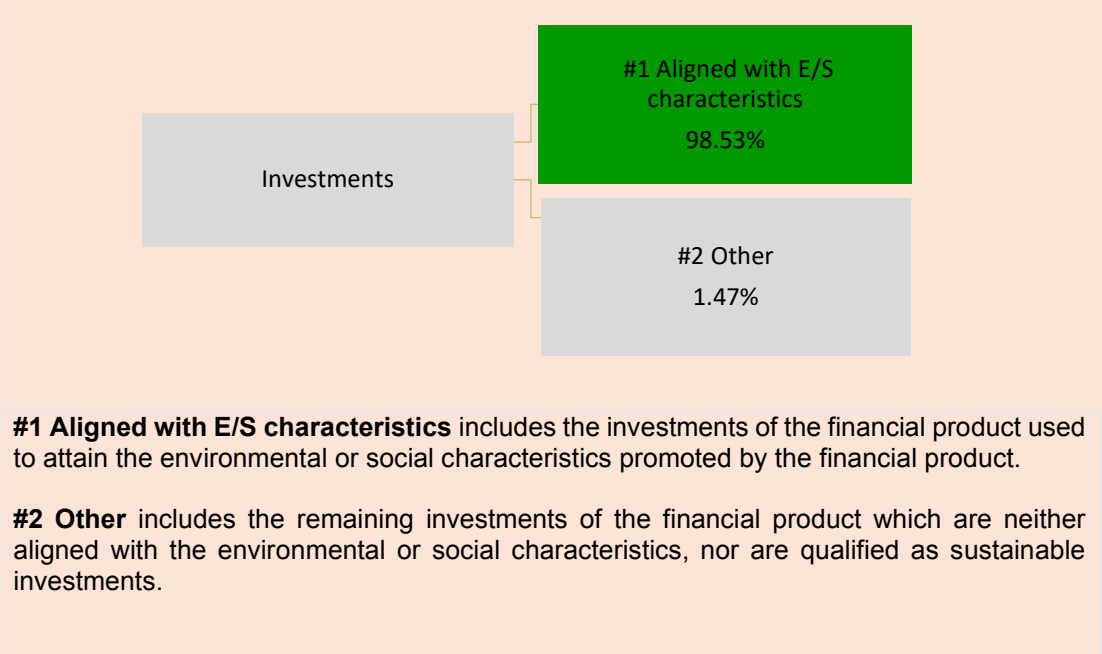

Sustainable Finance Disclosures (“Annex IV”) (Unaudited) (continued)

What was the proportion of sustainability-related investments?

● **What was the asset allocation?**

Asset allocation describes the share of investments in specific assets.

#1 Aligned with E/S characteristics includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

#2 Other includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

● **In which economic sectors were the investments made?**

The Fund made investments in the following economic sectors:

Sector	Portfolio weight (%)
Health Care	98.32
[Cash]	1.47
Consumer Discretionary	0.21

Note: Based on GICS sector definitions. Cash is not viewed as a strategic asset class. Allocations shown net of any cash or derivative exposures in the Fund.

The average exposure to direct fossil fuels activities was 0.00% over the period.

Sustainable Finance Disclosures (“Annex IV”) (Unaudited) (continued)

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

N/A. The Fund did not make any sustainable investments. Therefore the Fund was 0% aligned with EU Taxonomy objectives.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure (CapEx)** showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure (OpEx)** reflecting green operational activities of investee companies.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

● **Did the financial product invest in fossil gas and/or nuclear energy related activities that comply with the EU Taxonomy⁷?**

Yes:

In fossil gas In nuclear energy

No

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

*For the purpose of these graphs, ‘sovereign bonds’ consist of all sovereign exposures.

⁷ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change (“climate change mitigation”) and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Sustainable Finance Disclosures (“Annex IV”) (Unaudited) (continued)

<p>Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.</p>	<p>● What was the share of investments made in transitional and enabling activities?</p>
	N/A
<p>Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.</p>	<p>● How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?</p>

Sustainable Finance Disclosures (“Annex IV”) (Unaudited) (continued)

ANNEX IV

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

	Product name:	Lazard European Equity Fund	Legal entity identifier:	5493005HYXTLWPEWMJ57
<p>Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.</p>	Environmental and/or social characteristics			
<p>The EU Taxonomy is a classification system laid down in Regulation (EU) 2020/852, establishing a list of environmentally sustainable economic activities. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.</p>	Did this financial product have a sustainable investment objective			
	●● <input type="checkbox"/> Yes		●○ <input checked="" type="checkbox"/> No	
	<input type="checkbox"/>	It made sustainable investments with an environmental objective : ___%	<input checked="" type="checkbox"/>	It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of 74.2% of sustainable investments
	<input type="checkbox"/>	in economic activities that qualify as environmentally sustainable under the EU Taxonomy	<input checked="" type="checkbox"/>	with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy
	<input type="checkbox"/>	in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy	<input checked="" type="checkbox"/>	with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy
			<input checked="" type="checkbox"/>	with a social objective
	<input type="checkbox"/>	It made sustainable investments with a social objective : ___%	<input type="checkbox"/>	It promoted E/S characteristics, but did not make any sustainable investments
	To what extent were the environmental and/or social characteristics promoted by this financial product met?			
	<p>During the twelve-month period ended March 2024, the Fund sought to invest at least 30% of its assets in sustainable investments. The Fund also sought to maintain a better than benchmark ESG rating and to avoid investing in companies deemed in violation of the UNGC principles and those involved in the controversial weapons, military weapons, thermal coal, or tobacco production. The Fund achieved these environmental/social characteristics during the relevant period, as more fully explained in the section below on the sustainability indicators of the Fund.</p>			

Sustainable Finance Disclosures (“Annex IV”) (Unaudited) (continued)

<p>Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.</p>	<p>● How did the sustainability indicators perform?</p> <p>The Fund’s sustainability indicators performed as follows:</p> <ol style="list-style-type: none"> 1. The Fund invested 74.2% of its assets in companies that, in the opinion of the Investment Manager, qualified as ‘sustainable investments’ under SFDR. This exceeded the minimum level of 30% sustainable investments set by the Fund. 2. The Fund’s ESG Risk Rating outperformed the benchmark index (shown below). <div data-bbox="534 495 1019 869" data-label="Figure"> <p>The chart shows two bars: a dark blue bar for 'PORTFOLIO' with a value of 18.3, and a light grey bar for 'BENCHMARK' with a value of 19.3. The y-axis represents the ESG Risk Rating score, where lower scores indicate better performance.</p> <table border="1"> <thead> <tr> <th>Category</th> <th>ESG Risk Rating</th> </tr> </thead> <tbody> <tr> <td>PORTFOLIO</td> <td>18.3</td> </tr> <tr> <td>BENCHMARK</td> <td>19.3</td> </tr> </tbody> </table> <p><i>As of March 2024. Based on twelve-month rolling average. Scores range from 0 (Negligible ESG Risk) to 40+ (Severe ESG Risk). Lower scores are better. Source: Sustainalytics.</i></p> <ol style="list-style-type: none"> 3. The Fund had no exposure to companies deemed by the Investment Manager to be breaching the UNGC principles. 4. The Fund had no exposure to companies excluded by the exclusion criteria relating to controversial weapons production, military weapons production, thermal coal mining or production, or tobacco production. </div>	Category	ESG Risk Rating	PORTFOLIO	18.3	BENCHMARK	19.3
Category	ESG Risk Rating						
PORTFOLIO	18.3						
BENCHMARK	19.3						
	<p>● ...and compared to previous periods?</p>						
	<p>Please refer to the LGAF Annual Report and Audited Financial Statements for year ended 31 March 2023 available at: https://www.lazardassetmanagement.com/docs/-m0-/17564/lazardglobalactivefunds-ra-annual.pdf</p>						
	<p>● What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?</p>						
	<p>For environmentally sustainable investments, qualifying companies are assessed for their contribution to environmental objectives such as energy efficiency and resource efficiency activities such as renewable energy, water efficiency, green transportation, and digitisation, which support lower environmental impact from emissions and resource use.</p> <p>For socially sustainable investments, qualifying companies are assessed for their contribution to social objectives such as improved health care, sustainable food production and sourcing, improved safety and security services, access to financial services through inclusion, and improved education systems.</p> <p>The Investment Manager identifies qualifying companies which contribute to environmental and/or social objectives by assessing positive contribution through products/services and operations to environmental and/or social objectives. The Investment Manager undertakes a</p>						

Sustainable Finance Disclosures (“Annex IV”) (Unaudited) (continued)

	<p>revenue-based assessment, using third-party company-level sustainability impact data, to determine the positive contribution of a company's products/services to such objectives, as well as an assessment of positive alignment and operational performance with respect to climate and EU taxonomy objectives. Companies which meet the Investment Manager’s criteria are considered, in the Investment Manager’s opinion, to qualify as sustainable investments.</p> <p>The Fund’s invested 74.2% of its assets in companies that qualified as Sustainable Investments under the Investment Manager's proprietary sustainable investment assessment.</p>
	<p>● <i>How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?</i></p>
<p>Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters</p>	<p>Each company that is assessed to be significantly contributing towards environmental/and or social objectives must also pass the following tests to qualify as a sustainable investment to ensure that it does not cause significant harm to any environmental or social sustainable objective:</p> <ul style="list-style-type: none"> ● screening out companies with material revenue exposure to controversial business activities, such as tobacco, gambling, weapons, electricity generation from fossil fuels. ● Undertaking an assessment of the relevant and available indicators of principal adverse impact (PAI) of the qualifying companies on sustainability factors, among other ESG metrics, to assess companies' interaction with key stakeholders such as employees, customers, communities, and the environment. ● an assessment of alignment with the UN Global Compact principles. Any company that is flagged for a violation of the UNGC principles will not qualify. <p>--- <i>How were the indicators for adverse impacts on sustainability factors taken into account?</i></p> <p>The Investment Manager's DNSH assessment took into account the PAI indicators by reviewing the performance of qualifying companies against relative or absolute thresholds for the relevant mandatory PAI indicators (set out in Table 1, Annex I, EU Regulation 2022/1288 (SFDR Level 2)) for which data is sufficiently available. Relative thresholds for relevant PAI indicators (e.g. PAI 3, 4) are set by reference to peer performance against the PAI indicators in the sub-industry in which the qualifying company operates. Absolute thresholds are those embedded in the PAI indicator methodologies and criteria under SFDR Level 2 (e.g. PAI 10). The worst performing companies, either in relative or absolute terms, did not pass the DNSH assessment and did not qualify as sustainable investments.</p> <p>--- <i>Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:</i></p>
	<p>To assess whether an investment is aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights, the Investment Manager assessing each corporate for compliance with the UN Global Compact principles (UNGC) leveraging both third-party and internal research. Over the reference period, no companies were flagged for UNGC violations and as such the sustainable investments in the portfolio passed the assessment for alignment with these global norms and standards.</p>

Sustainable Finance Disclosures (“Annex IV”) (Unaudited) (continued)

	<p><i>The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.</i></p> <p>The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.</p> <p><i>Any other sustainable investments must also not significantly harm any environmental or social objectives.</i></p>
	<p>How did this financial product consider principal adverse impacts on sustainability factors?</p> <p>The Fund considered principal adverse impacts (PAIs) on sustainability factors through several methods over the reference period.</p> <p>Exclusions Through pre-investment global norms and activity-based exclusions, investments in certain corporates or countries were avoided, mitigating potential adverse sustainability impacts. Specific exclusion criteria are available in the relevant pre-contractual disclosure for the Fund.</p> <p>ESG integration and investment due diligence Material environmental and social issues in the mandatory PAI indicators were incorporated as part of the Investment Manager’s proprietary research over the period, taking into consideration sector, geographical, and other factors that impact the materiality and relevance of PAIs to each investment. The Investment Manager also referenced third-party ESG research and data for additional information and relative industry and universe positioning. By integrating these ESG considerations within the investment process, the Investment Manager may reduce or avoid potential adverse sustainability impacts from investments.</p> <p>Stewardship activities Although engagement is not directly linked to the specific environmental or social characteristics of the Fund, the Investment Manager considered adverse impacts on sustainability factors through actions such as engagement and voting on ESG topics. Over the period, the Investment Manager conducted engagements focusing on material PAIs such as GHG emissions and other carbon metrics, board diversity and governance issues such as executive compensation and shareholder rights. Engagement activity is prioritised by considering both ESG and financial impacts, as well as sector and regional considerations.</p> <p>Further information how PAIs can be found in the relevant pre-contractual disclosure for the Fund.</p>

Sustainable Finance Disclosures (“Annex IV”) (Unaudited) (continued)

What were the top investments of this financial product?

The Fund had the following top investments over the reference period:

Largest investments	Sector	Assets (%)	Country
Roche Holding Ltd Dividend Right Cert.	Health Care	4.86	Switzerland
Novartis AG	Health Care	3.33	Switzerland
TotalEnergies SE	Energy	3.20	France

Sustainable Finance Disclosures (“Annex IV”) (Unaudited) (continued)

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

As of the production date of this document, the Investment Manager assessed that 4.79% of sustainable investments are aligned with the EU Taxonomy.

Did the financial product invest in fossil gas and/or nuclear energy related activities that comply with the EU Taxonomy⁸?

- Yes:
 - In fossil gas
 - In nuclear energy
- No

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

*For the purpose of these graphs, ‘sovereign bonds’ consist of all sovereign exposures.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to

What was the share of investments made in transitional and enabling activities?

⁸ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change (“climate change mitigation”) and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Sustainable Finance Disclosures (“Annex IV”) (Unaudited) (continued)

<p>an environmental objective.</p>	<p>As of the production date of this document, the Investment Manager does not have the necessary data to identify the share of transitional or enabling activities.</p>

N/A
● <i>How did this financial product perform compared with the broad market index?</i>
N/A

Sustainable Finance Disclosures (“Annex IV”) (Unaudited) (continued)

ANNEX IV

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

	Product name:	Lazard Pan-European Small Cap Fund	Legal entity identifier:	54930054IT2ELERN9K12
<p>Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.</p>	Environmental and/or social characteristics			
<p>The EU Taxonomy is a classification system laid down in Regulation (EU) 2020/852, establishing a list of environmentally sustainable economic activities. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.</p>	Did this financial product have a sustainable investment objective			
	●● <input type="checkbox"/> Yes		●○ <input checked="" type="checkbox"/> No	
	<input type="checkbox"/>	It made sustainable investments with an environmental objective : ___%	<input type="checkbox"/>	It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of ___% of sustainable investments
	<input type="checkbox"/>	in economic activities that qualify as environmentally sustainable under the EU Taxonomy	<input type="checkbox"/>	with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy
	<input type="checkbox"/>	in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy	<input type="checkbox"/>	with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy
			<input type="checkbox"/>	with a social objective
	<input type="checkbox"/>	It made sustainable investments with a social objective : ___%	<input checked="" type="checkbox"/>	It promoted E/S characteristics, but did not make any sustainable investments
	To what extent were the environmental and/or social characteristics promoted by this financial product met?			
	<p>During the twelve-month period ended March 2024, the Fund sought to maintain a better than benchmark Weighted Average Carbon Intensity (WACI) and to avoid investing in companies deemed in violation of the UNGC principles and those materially involved in controversial weapons, military weapons, thermal coal, or tobacco production. The Fund achieved these environmental/social characteristics during the relevant period by maintaining a lower WACI than the benchmark index and not investing in excluded companies, as more fully explained in the section below on the sustainability indicators of the Fund.</p>			

Sustainable Finance Disclosures (“Annex IV”) (Unaudited) (continued)

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

● **How did the sustainability indicators perform?**

The Fund’s sustainability indicators performed as follows:

1. The Fund’s Weighted Average Carbon Intensity (WACI) outperformed the benchmark index (shown below).

As of March 2024. Based on twelve-month rolling average. WACI methodology based on TCFD approach. Source: Sustainalytics.

2. The Fund had no exposure to companies deemed by the Investment Manager to be breaching the UNGC principles.
3. The Fund had no exposure to companies excluded by the exclusion criteria relating to controversial weapons production, military weapons production, thermal coal mining or production, or tobacco production.

● **...and compared to previous periods?**

Please refer to the LGAF Annual Report and Audited Financial Statements for year ended 31 March 2023 available at: <https://www.lazardassetmanagement.com/docs/-m0-17564/lazardglobalactivefunds-ra-annual.pdf>

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

N/A. The Fund did not make sustainable investments.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

N/A

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee

--- **How were the indicators for adverse impacts on sustainability factors taken into account?**

Sustainable Finance Disclosures (“Annex IV”) (Unaudited) (continued)

<p>matters, respect for human rights, anti-corruption and anti-bribery matters</p>		<p>N/A</p> <p>— — — <i>Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:</i></p>
		<p>N/A</p>
		<p><i>The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.</i></p> <p>The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.</p> <p><i>Any other sustainable investments must also not significantly harm any environmental or social objectives.</i></p>
		<p>How did this financial product consider principal adverse impacts on sustainability factors?</p> <p>The Fund considered principal adverse impacts (PAIs) on sustainability factors through several methods over the reference period.</p> <p>Exclusions</p> <p>Through pre-investment global norms and activity-based exclusions, investments in certain corporates or countries were avoided, mitigating potential adverse sustainability impacts. Specific exclusion criteria are available in the relevant pre-contractual disclosure for the Fund.</p> <p>ESG integration and investment due diligence</p> <p>Material environmental and social issues in the mandatory PAI indicators were incorporated as part of the Investment Manager’s proprietary research over the period, taking into consideration sector, geographical, and other factors that impact the materiality and relevance of PAIs to each investment. The Investment Manager also referenced third-party ESG research and data for additional information and relative industry and universe positioning. By integrating these ESG considerations within the investment process, the Investment Manager may reduce or avoid potential adverse sustainability impacts from investments.</p> <p>Stewardship activities</p> <p>Although engagement is not directly linked to the specific environmental or social characteristics of the Fund, the Investment Manager considered adverse impacts on sustainability factors through actions such as engagement and voting on ESG topics. Over the period, the Investment Manager conducted engagements focusing on material PAIs such as GHG emissions and other carbon metrics, board diversity and governance issues such as executive compensation and shareholder rights. Engagement activity is prioritised by considering both ESG and financial impacts, as well as sector and regional considerations.</p> <p>Further information how PAIs can be found in the relevant pre-contractual disclosure for the Fund.</p>

Sustainable Finance Disclosures (“Annex IV”) (Unaudited) (continued)

The list includes the investments constituting **the greatest proportion of investments** of the financial product during the reference period which is:
01/04/2023-31/03/2024

What were the top investments of this financial product?

The Fund had the following top investments over the reference period:

Largest investments	Sector	Assets (%)	Country
BAWAG Group AG	Financials	2.95	Austria
JOST Werke SE	Industrials	2.19	Germany
Italgas SpA	Utilities	2.14	Italy

Sustainable Finance Disclosures (“Annex IV”) (Unaudited) (continued)

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

N/A. The Fund did not make any sustainable investments.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

● **Did the financial product invest in fossil gas and/or nuclear energy related activities that comply with the EU Taxonomy⁹?**

- Yes:
 In fossil gas In nuclear energy
- No

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

*For the purpose of these graphs, ‘sovereign bonds’ consist of all sovereign exposures.

Enabling activities directly enable other activities to make a substantial contribution to

● **What was the share of investments made in transitional and enabling activities?**

⁹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change (“climate change mitigation”) and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Sustainable Finance Disclosures (“Annex IV”) (Unaudited) (continued)

<p>an environmental objective.</p> <p>Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.</p>	<p>As of the production date of this document, the Investment Manager does not have the necessary data to identify the share of transitional or enabling activities.</p>
<p> are sustainable investments with an environmental objective that do not take into account the criteria for environmentally sustainable economic activities under Regulation (EU) 2020/852.</p>	<ul style="list-style-type: none"> ● How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?
<p></p>	<p>N/A</p>
	<p> What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?</p>

ANNEX IV

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

	Product name:	Lazard US Equity Concentrated Fund	Legal entity identifier:	5493005846GTJ5GL6564
<p>Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.</p>	Environmental and/or social characteristics			
<p>The EU Taxonomy is a classification system laid down in Regulation (EU) 2020/852, establishing a list of environmentally sustainable economic activities. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.</p>	Did this financial product have a sustainable investment objective			
	<input checked="" type="radio"/> <input checked="" type="radio"/> <input type="checkbox"/> Yes		<input checked="" type="radio"/> <input type="radio"/> <input checked="" type="checkbox"/> No	
	<input type="checkbox"/>	It made sustainable investments with an environmental objective : ____%	<input type="checkbox"/>	It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of ____% of sustainable investments
	<input type="checkbox"/>	in economic activities that qualify as environmentally sustainable under the EU Taxonomy	<input type="checkbox"/>	with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy
	<input type="checkbox"/>	in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy	<input type="checkbox"/>	with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy
	<input type="checkbox"/>	It made sustainable investments with a social objective : ____%	<input type="checkbox"/>	with a social objective
	<input type="checkbox"/>	It made sustainable investments with a social objective : ____%	<input checked="" type="checkbox"/>	It promoted E/S characteristics, but did not make any sustainable investments
	To what extent were the environmental and/or social characteristics promoted by this financial product met?			
	<p>During the twelve-month period ended March 2024, the Fund sought to maintain a better than benchmark ESG rating and to avoid investing in companies deemed in violation of the UNGC principles and those involved in the controversial weapons, military weapons, thermal coal, or tobacco production. The Fund achieved these environmental/social characteristics during the relevant period by maintaining a better weighted-average ESG rating than the benchmark index and not investing in the excluded companies, as more fully explained in the section below on the sustainability indicators of the Fund.</p>			

Sustainable Finance Disclosures (“Annex IV”) (Unaudited) (continued)

<p>Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.</p>	<p>● How did the sustainability indicators perform?</p> <p>The Fund’s sustainability indicators performed as follows:</p> <ol style="list-style-type: none"> The Fund’s ESG Risk Rating outperformed the benchmark index (shown below). <div data-bbox="536 394 1018 748" data-label="Figure"> <table border="1"> <caption>WEIGHTED AVERAGE CARBON INTENSITY</caption> <thead> <tr> <th>Category</th> <th>Value</th> </tr> </thead> <tbody> <tr> <td>PORTFOLIO</td> <td>23.6</td> </tr> <tr> <td>BENCHMARK</td> <td>97.3</td> </tr> </tbody> </table> <p><i>As of March 2024. Based on twelve-month rolling average. Scores range from 0 (Negligible ESG Risk) to 40+ (Severe ESG Risk). Lower scores are better. Source: Sustainalytics.</i></p> </div> <ol style="list-style-type: none"> The Fund had no exposure to companies deemed by the Investment Manager to be breaching the UNGC principles. The Fund had no exposure to companies excluded by the exclusion criteria relating to controversial weapons production, military weapons production, thermal coal mining or production, or tobacco production. 	To what extent were the environmental and/or social characteristics promoted by this financial product met?			
	<p>During the twelve-month period ended March 2024, the Fund sought to maintain a weighted average ESG Risk Rating of 30 (a "Medium ESG Risk Rating") or less, to ensure that at least 90% of the Fund's aggregate investment in companies is in companies which have an ESG Risk Rating of no higher than 40 (a score of 40 and above constituting a "Severe ESG Risk Rating"). The Fund also sought to avoid investing in companies deemed in violation of the UNGC principles and those involved in the controversial weapons, military weapons, thermal coal, or tobacco production. The Fund achieved these environmental/social characteristics during the relevant period, as more fully explained in the section below on the sustainability indicators of the Fund.</p>			

Sustainable Finance Disclosures (“Annex IV”) (Unaudited) (continued)

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

● **How did the sustainability indicators perform?**

The Fund’s sustainability indicators performed as follows:

1. The Fund’s weighted-average ESG Risk Rating over the period was 24.6, which outperformed the threshold of an overall score of 30 (shown below).

As of March 2024. Based on rolling twelve-month average. Scores range from 0 (Negligible ESG Risk) to 40+ (Severe ESG Risk). Lower scores are better. Source: Sustainalytics.

2. The Fund had 2.13% exposure to companies that were rated ‘Severe’ on ESG Risk Rating, resulting in the Fund being in line with its maximum 10% threshold of portfolio holdings with a ‘Severe’ ESG Risk Rating (see below).

As of March 2024. Scores range from 0 (Negligible ESG Risk) to 40+ (Severe ESG Risk). Lower scores are better. Source: Sustainalytics.

3. The Fund had no exposure to companies deemed by the Investment Manager to be breaching the UNGC principles.
4. The Fund had no exposure to companies excluded by the exclusion criteria relating to controversial weapons production, military weapons production, thermal coal mining or production, or tobacco production.

● **...and compared to previous periods?**

Please refer to the LGAF Annual Report and Audited Financial Statements for year ended 31 March 2023 available at: <https://www.lazardassetmanagement.com/docs/-m0-/17564/lazardglobalactivefunds-ra-annual.pdf>

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

N/A. The Fund did not make sustainable investments.

Sustainable Finance Disclosures (“Annex IV”) (Unaudited) (continued)

		<ul style="list-style-type: none"> ● How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?
<p>Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters</p>		N/A
		<ul style="list-style-type: none"> --- How were the indicators for adverse impacts on sustainability factors taken into account?
		N/A
		<ul style="list-style-type: none"> --- Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:
		N/A
		<p><i>The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.</i></p> <p>The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.</p> <p><i>Any other sustainable investments must also not significantly harm any environmental or social objectives.</i></p>
		<p>How did this financial product consider principal adverse impacts on sustainability factors?</p> <p>The Fund considered principal adverse impacts (PAIs) on sustainability factors through several methods over the reference period.</p> <p>Exclusions Through pre-investment global norms and activity-based exclusions, investments in certain corporates or countries were avoided, mitigating potential adverse sustainability impacts. Specific exclusion criteria are available in the relevant pre-contractual disclosure for the Fund.</p> <p>ESG integration and investment due diligence Material environmental and social issues in the mandatory PAI indicators were incorporated as part of the Investment Manager’s proprietary research over the period, taking into consideration sector, geographical, and other factors that impact the materiality and relevance of PAIs to each investment. The Investment Manager also referenced third-party ESG research and data for additional information and relative industry and universe positioning. By integrating these ESG considerations within the investment process, the Investment Manager may reduce or avoid potential adverse sustainability impacts from investments.</p> <p>Stewardship activities Although engagement is not directly linked to the specific environmental or social characteristics of the Fund, the Investment Manager considered adverse impacts on sustainability factors through actions such as engagement and voting on ESG topics. Over the period, the Investment Manager conducted engagements focusing on material PAIs such as GHG emissions and other carbon metrics, board diversity and governance issues such as executive compensation and shareholder rights. Engagement activity is prioritised by considering both ESG and financial impacts, as well as sector and regional considerations.</p> <p>Further information how PAIs can be found in the relevant pre-contractual disclosure for the Fund.</p>

Sustainable Finance Disclosures (“Annex IV”) (Unaudited) (continued)

What were the top investments of this financial product?

The Fund had the following top investments over the reference period:

Largest investments	Sector	Assets (%)	Country
Mitsubishi UFJ Financial Group, Inc.	Financials	5.51	Japan
Sumitomo Mitsui Financial Group, Inc.	Financials	5.40	Japan
Hitachi, Ltd.	Industrials	4.69	Japan

ANNEX IV

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

	Product name:	Lazard Emerging Markets Equity Fund	Legal entity identifier:	549300YF50L8SBSKVC86
<p>Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.</p>	Environmental and/or social characteristics			
<p>The EU Taxonomy is a classification system laid down in Regulation (EU) 2020/852, establishing a list of environmentally sustainable economic activities. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.</p>	Did this financial product have a sustainable investment objective			
	<input checked="" type="radio"/> <input checked="" type="radio"/> <input type="checkbox"/> Yes		<input checked="" type="radio"/> <input type="radio"/> <input checked="" type="checkbox"/> No	
	<input type="checkbox"/>	It made sustainable investments with an environmental objective : ____%	<input type="checkbox"/>	It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of ____% of sustainable investments
	<input type="checkbox"/>	in economic activities that qualify as environmentally sustainable under the EU Taxonomy	<input type="checkbox"/>	with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy
	<input type="checkbox"/>	in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy	<input type="checkbox"/>	with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy
			<input type="checkbox"/>	with a social objective
	<input type="checkbox"/>	It made sustainable investments with a social objective : ____%	<input checked="" type="checkbox"/>	It promoted E/S characteristics, but did not make any sustainable investments
	To what extent were the environmental and/or social characteristics promoted by this financial product met?			
	During the twelve-month period ended March 2024, the Fund sought to maintain a better than benchmark ESG rating and to avoid investing in companies deemed in violation of the UNGC principles and those involved in the controversial weapons, military weapons, thermal coal, or tobacco production. The Fund achieved these environmental/social characteristics during the relevant period by maintaining a better weighted-average ESG rating than the benchmark index and not investing in the excluded companies, as more fully explained in the section below on the sustainability indicators of the Fund.			

Sustainable Finance Disclosures (“Annex IV”) (Unaudited) (continued)

Sustainable Finance Disclosures (“Annex IV”) (Unaudited) (continued)

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

N/A. The Fund did not make any sustainable investments. Therefore the Fund was 0% aligned with EU Taxonomy objectives.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure (CapEx)** showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure (OpEx)** reflecting green operational activities of investee companies.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

● **Did the financial product invest in fossil gas and/or nuclear energy related activities that comply with the EU Taxonomy¹²?**

- Yes:
 - In fossil gas
 - In nuclear energy
- No

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

*For the purpose of these graphs, ‘sovereign bonds’ consist of all sovereign exposures.

Enabling activities directly enable other activities to make a substantial contribution to

● **What was the share of investments made in transitional and enabling activities?**

¹² Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change (“climate change mitigation”) and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Sustainable Finance Disclosures (“Annex IV”) (Unaudited) (continued)

<p>an environmental objective.</p>	<p>N/A</p>
<p>Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.</p>	<p>● How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?</p>
	<p>N/A</p>
	<p> What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?</p>
<p> are sustainable investments with an environmental objective that do not take into account the criteria for environmentally sustainable economic activities under Regulation (EU) 2020/852.</p>	<p>N/A. The Fund did not make any sustainable investments over the reference period.</p>
	<p> What was the share of socially sustainable investments?</p>
	<p>N/A. The Fund did not make sustainable investments over the reference period.</p>
	<p> What investments were included under “#2 Other”, what was their purpose and were there any minimum environmental or social safeguards?</p>
	<p>“#2 Other” included other investments and instruments of the Fund that cannot be aligned with the environmental and/or social characteristics of the Fund. These included, cash, and cash equivalents, which are used for the purpose of efficient portfolio management and liquidity.</p>
<p></p>	<p>What actions have been taken to meet the environmental and/or social characteristics during the reference period?</p>
	<p>Over the reference period, the Investment Manager incorporated ESG considerations into research and investment due diligence, selecting investments to promote the relevant environmental and/or social characteristics of the Fund based on the specific investment strategy and applying binding criteria set out in the Fund’s pre-contractual disclosure.</p> <p>Although engagement is not directly linked to the specific environmental or social characteristics of the Fund, the Investment Manager may have undertaken certain stewardship activities, through constructive dialogue with senior management representatives, to share views when given the opportunity, and to support companies undertaking positive changes. The Investment Manager seeks to incorporate the insights from stewardship activities into investment decisions, and vice versa, to enhance long-term value.</p>
<p></p>	<p>How did this financial product perform compared to the reference benchmark?</p>
	<p>The Fund did not designate an index as a reference benchmark to attain the environmental or social characteristics it promotes.</p>

Sustainable Finance Disclosures (“Annex IV”) (Unaudited) (continued)

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

● <i>How does the reference benchmark differ from a broad market index?</i>
N/A
● <i>How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?</i>
N/A
● <i>How did this financial product perform compared with the reference benchmark?</i>
N/A
● <i>How did this financial product perform compared with the broad market index?</i>
N/A

Sustainable Finance Disclosures (“Annex IV”) (Unaudited) (continued)

ANNEX IV

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

	Product name:	Lazard Emerging Markets Equity Advantage Fund	Legal entity identifier:	254900ORNM1HFVTATV05
<p>Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.</p>	Environmental and/or social characteristics			
<p>The EU Taxonomy is a classification system laid down in Regulation (EU) 2020/852, establishing a list of environmentally sustainable economic activities. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.</p>	Did this financial product have a sustainable investment objective			
	<input checked="" type="radio"/> <input checked="" type="radio"/> <input type="checkbox"/> Yes		<input checked="" type="radio"/> <input type="radio"/> <input checked="" type="checkbox"/> No	
	<input type="checkbox"/>	It made sustainable investments with an environmental objective : ___%	<input type="checkbox"/>	It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of ___% of sustainable investments
	<input type="checkbox"/>	in economic activities that qualify as environmentally sustainable under the EU Taxonomy	<input type="checkbox"/>	with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy
	<input type="checkbox"/>	in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy	<input type="checkbox"/>	with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy
	<input type="checkbox"/>	It made sustainable investments with a social objective : ___%	<input type="checkbox"/>	with a social objective
	To what extent were the environmental and/or social characteristics promoted by this financial product met?			
	<p>During the twelve-month period ended March 2024, the Fund sought to maintain a better than benchmark ESG rating and to avoid investing in companies deemed in violation of the UNGC principles and those involved in the controversial weapons, military weapons, thermal coal, or tobacco production. The Fund achieved these environmental/social characteristics during the relevant period by maintaining a better weighted-average ESG rating than the benchmark index and not investing in the excluded companies, as more fully explained in the section below on the sustainability indicators of the Fund.</p>			

Sustainable Finance Disclosures (“Annex IV”) (Unaudited) (continued)

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

● **How did the sustainability indicators perform?**

The Fund’s sustainability indicators performed as follows:

- 1. The Fund’s ESG Risk Rating outperformed the benchmark index (shown below).

As of March 2024. Based on twelve-month rolling average. Scores range from 0 (Negligible ESG Risk) to 40+ (Severe ESG Risk). Lower scores are better. Source: Sustainalytics.

- 2. The Fund had no exposure to companies deemed by the Investment Manager to be breaching the UNGC principles.
- 3. The Fund had no exposure to companies excluded by the exclusion criteria relating to controversial weapons production, military weapons production, thermal coal mining or production, or tobacco production.

● **...and compared to previous periods?**

Please refer to the LGAF Annual Report and Audited Financial Statements for year ended 31 March 2023 available at: <https://www.lazardassetmanagement.com/docs/-m0-17564/lazardglobalactivefunds-ra-annual.pdf>

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

N/A. The Fund did not make sustainable investments.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

N/A

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee

--- **How were the indicators for adverse impacts on sustainability factors taken into account?**

Sustainable Finance Disclosures (“Annex IV”) (Unaudited) (continued)

<p>matters, respect for human rights, anti-corruption and anti-bribery matters</p>	<p>N/A</p> <p>— — — <i>Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:</i></p>
	<p>N/A</p>
	<p><i>The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.</i></p> <p>The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.</p> <p><i>Any other sustainable investments must also not significantly harm any environmental or social objectives.</i></p>
	<p>How did this financial product consider principal adverse impacts on sustainability factors?</p> <p>The Fund considered principal adverse impacts (PAIs) on sustainability factors through several methods over the reference period.</p> <p>Exclusions</p> <p>Through pre-investment global norms and activity-based exclusions, investments in certain corporates or countries were avoided, mitigating potential adverse sustainability impacts. Specific exclusion criteria are available in the relevant pre-contractual disclosure for the Fund.</p> <p>ESG integration and investment due diligence</p> <p>Material environmental and social issues in the mandatory PAI indicators were incorporated as part of the Investment Manager’s proprietary research over the period, taking into consideration sector, geographical, and other factors that impact the materiality and relevance of PAIs to each investment. The Investment Manager also referenced third-party ESG research and data for additional information and relative industry and universe positioning. By integrating these ESG considerations within the investment process, the Investment Manager may reduce or avoid potential adverse sustainability impacts from investments.</p> <p>Stewardship activities</p> <p>Although engagement is not directly linked to the specific environmental or social characteristics of the Fund, the Investment Manager considered adverse impacts on sustainability factors through actions such as engagement and voting on ESG topics. Over the period, the Investment Manager conducted engagements focusing on material PAIs such as GHG emissions and other carbon metrics, board diversity and governance issues such as executive compensation and shareholder rights. Engagement activity is prioritised by considering both ESG and financial impacts, as well as sector and regional considerations.</p> <p>Further information how PAIs can be found in the relevant pre-contractual disclosure for the Fund.</p>

Sustainable Finance Disclosures (“Annex IV”) (Unaudited) (continued)

What were the top investments of this financial product?

The Fund had the following top investments over the reference period:

Largest investments	Sector	Assets (%)	Country
Taiwan Semiconductor Manufacturing Co., Ltd.	Information Technology	7.61	Taiwan
Tencent Holdings Ltd.	Communication Services	4.25	China
Samsung Electronics Co., Ltd.	Information Technology	3.01	Korea
Alibaba Group Holding Limited	Consumer Discretionary	2.76	China
Delta Electronics, Inc.	Information Technology	1.57	Taiwan
State Bank of India	Financials	1.45	India
Samsung Electronics Co., Ltd. Sponsored GDR	Information Technology	1.40	Korea
Coca-Cola FEMSA SAB de CV Sponsored ADR Class L	Consumer Staples	1.29	Mexico
MediaTek Inc	Information Technology	1.26	Taiwan
Petroleo Brasileiro SA Pfd	Energy	1.22	Brazil
China Construction Bank Corporation Class H	Financials	1.19	China
Cipla Ltd	Health Care	1.13	India
Dr. Reddy's Laboratories Ltd.	Health Care	1.02	India
ICICI Bank Limited	Financials	0.98	India
Netease Inc	Communication Services	0.98	China

Note: Proportion of investments are shown as average position sizes over the reference period.

The list includes the investments constituting the greatest proportion of investments of the financial product during the reference period which is:
01/04/2023-31/03/2024

Sustainable Finance Disclosures (“Annex IV”) (Unaudited) (continued)

ANNEX IV

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

	Product name:	Lazard Global Sustainable Fixed Income Fund	Legal entity identifier:	18H3WF064EOCNZ95K434	
<p>Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.</p> <p>The EU Taxonomy is a classification system laid down in Regulation (EU) 2020/852, establishing a list of environmentally sustainable economic activities. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.</p>	Environmental and/or social characteristics				
	Did this financial product have a sustainable investment objective				
	●● <input type="checkbox"/> Yes		●○ <input checked="" type="checkbox"/> No		
	<input type="checkbox"/>	It made sustainable investments with an environmental objective : ___%	<input checked="" type="checkbox"/>	It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of 73.0% of sustainable investments	
	<input type="checkbox"/>	in economic activities that qualify as environmentally sustainable under the EU Taxonomy	<input type="checkbox"/>	with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy	
<input type="checkbox"/>	in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy	<input checked="" type="checkbox"/>	with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy		
<input type="checkbox"/>	It made sustainable investments with a social objective : ___%	<input checked="" type="checkbox"/>	with a social objective		
<input type="checkbox"/>	It made sustainable investments with a social objective : ___%	<input type="checkbox"/>	It promoted E/S characteristics, but did not make any sustainable investments		
	To what extent were the environmental and/or social characteristics promoted by this financial product met?				
	<p>During the twelve-month period ended March 2024, the Fund sought to invest at least 25% of its assets in sustainable investments. The Fund sought to invest in government and government-related securities which score in the top 75% of scores assigned to countries reviewed by the Investment Manager using its proprietary Country Risk Assessment (CRA) scoring model, and invest in the securities of corporate issuers which score in the top 75% of scores assigned to issuers reviewed by the Investment Manager using its proprietary Corporate ESG scoring model for corporate issuers. The Fund also sought to avoid investing in companies deemed in violation of the UNGC principles and those involved in the controversial weapons, military weapons, direct fossil fuel activities (generation, extraction, and/or refining certain fossil fuels including oil, gas, thermal coal), or tobacco production. The Fund achieved these environmental/social characteristics during the relevant period, as more fully explained in the section below on the sustainability indicators of the Fund.</p>				

Sustainable Finance Disclosures (“Annex IV”) (Unaudited) (continued)

<p>Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.</p>	<p>● How did the sustainability indicators perform?</p> <p>The sustainability indicators performed as follows:</p> <ol style="list-style-type: none"> 1. The Fund invested 73.0% of its assets in issuers that, in the opinion of the Investment Manager, qualified as ‘sustainable investments’ under SFDR. This exceeded the minimum level of 25% sustainable investments set by the Fund. 2. The Fund had no exposure to government and government-related securities which scored in the bottom quartile of the Investment Manager’s proprietary CRA scoring model. 3. The Fund had no exposure to corporate issuers which scored in the bottom quartile of the Investment Manager’s proprietary Corporate ESG scoring model. 4. The Fund had no exposure to corporate issuers deemed by the Investment Manager to be breaching the UNGC principles. 5. The Fund had no exposure to corporate issuers excluded by the exclusion criteria relating to controversial weapons production, military weapons production, direct fossil fuel activities (generation, extraction, and/or refining certain fossil fuels including oil, gas, thermal coal), or tobacco production.
	<p>● ...and compared to previous periods?</p>
	<p>Please refer to the LGAF Annual Report and Audited Financial Statements for year ended 31 March 2023 available at: https://www.lazardassetmanagement.com/docs/-m0-/17564/lazardglobalactivefunds-ra-annual.pdf</p>
	<p>● What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?</p>
	<p>For environmentally sustainable investments, qualifying companies are assessed for their contribution to environmental objectives such as energy efficiency and resource efficiency activities such as renewable energy, water efficiency, green transportation, and digitisation, which support lower environmental impact from emissions and resource use.</p> <p>For socially sustainable investments, qualifying companies are assessed for their contribution to social objectives such as improved health care, sustainable food production and sourcing, improved safety and security services, access to financial services through inclusion, and improved education systems.</p> <p>The Investment Manager identifies qualifying companies which contribute to environmental and/or social objectives by assessing positive contribution through products/services and operations to environmental and/or social objectives. The Investment Manager undertakes a revenue-based assessment, using third-party company-level sustainability impact data, to determine the positive contribution of a company's products/services to such objectives, as well as an assessment of positive alignment and operational performance with respect to climate and EU taxonomy objectives. Companies which meet the Investment Manager’s criteria are considered, in the Investment Manager’s opinion, to qualify as sustainable investments.</p> <p>Specifically for fixed income securities, any investment in bonds the proceeds of which are used to pursue environmental, social and/or sustainability initiatives can qualify as sustainable investments. These bonds are often referred to as labelled bonds in the market. The environmental, social, or sustainable use of proceeds from a labelled bond is explicitly specified in the terms of the bond, and the issuer generally follows the voluntary green bond principles, social bond principles or sustainable bond guidelines set out in the Green Bonds Principles.</p>

Sustainable Finance Disclosures (“Annex IV”) (Unaudited) (continued)

		The Fund’s invested 73.01% of its assets in companies that qualified as Sustainable Investments under the Investment Manager's proprietary sustainable investment assessment.
		<ul style="list-style-type: none"> ● <i>How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?</i>
<p>Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters</p>		<p>Each issuer that is assessed to be significantly contributing towards environmental/and or social objectives must also pass the following tests to qualify as a sustainable investment to ensure that it does not cause significant harm to any environmental or social sustainable objective:</p> <ul style="list-style-type: none"> ● screening out issuers with material revenue exposure to controversial business activities, such as tobacco, gambling, weapons, electricity generation from fossil fuels. ● undertaking an assessment of the relevant and available indicators of principal adverse impact (PAI) of the qualifying companies on sustainability factors, among other ESG metrics, to assess issuers’ interaction with key stakeholders such as employees, customers, communities, and the environment. ● an assessment of alignment with the UN Global Compact principles. Any issuer that is flagged for a violation of the UNGC principles will not qualify.
		<p>— — <i>How were the indicators for adverse impacts on sustainability factors taken into account?</i></p>
		<p>The Investment Manager's DNSH assessment took into account the PAI indicators by reviewing the performance of qualifying issuers against relative or absolute thresholds for the relevant mandatory PAI indicators (set out in Table 1, Annex I, EU Regulation 2022/1288 (SFDR Level 2)) for which data is sufficiently available. Relative thresholds for relevant PAI indicators (e.g. PAI 3, 4) are set by reference to peer performance against the PAI indicators in the sub-industry in which the qualifying company operates. Absolute thresholds are those embedded in the PAI indicator methodologies and criteria under SFDR Level 2 (e.g. PAI 10). The worst performing companies, either in relative or absolute terms, did not pass the DNSH assessment and did not qualify as sustainable investments.</p>
		<p>— — — <i>Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:</i></p>
		<p>To assess whether an investment is aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights, the Investment Manager assessing each corporate for compliance with the UN Global Compact principles (UNGC) leveraging both third-party and internal research. Over the reference period, no issuers were flagged for UNGC violations and as such the sustainable investments in the portfolio passed the assessment for alignment with these global norms and standards.</p>

Sustainable Finance Disclosures (“Annex IV”) (Unaudited) (continued)

	<p><i>The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.</i></p> <p>The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.</p> <p><i>Any other sustainable investments must also not significantly harm any environmental or social objectives.</i></p>
	<p>How did this financial product consider principal adverse impacts on sustainability factors?</p>
	<p>Fund considered a selection of the principal adverse impacts (PAIs) on sustainability factors through several methods over the reference period, where data was available.</p> <p>Exclusions Through pre-investment global norms and activity-based exclusions, investments in certain corporates or countries were avoided, mitigating potential adverse sustainability impacts. Specific exclusion criteria are available in the relevant pre-contractual disclosure for the Fund.</p> <p>ESG integration and investment due diligence Material environmental and social issues in the mandatory PAI indicators were incorporated as part of the Investment Manager’s proprietary research over the period, taking into consideration sector, geographical, and other factors that impact the materiality and relevance of PAIs to each investment. The Investment Manager also referenced third-party ESG research and data for additional information and relative industry and universe positioning. By integrating these ESG considerations within the investment process, the Investment Manager may reduce or avoid potential adverse sustainability impacts from investments.</p> <p>Stewardship activities Although engagement is not directly linked to the specific environmental or social characteristics of the Fund, the Investment Manager considered adverse impacts on sustainability factors through actions such as engagement and voting on ESG topics. Over the period, the Investment Manager conducted engagements focusing on material PAIs such as GHG emissions and other carbon metrics, board diversity and governance issues such as executive compensation and shareholder rights. Engagement activity is prioritised by considering both ESG and financial impacts, as well as sector and regional considerations.</p> <p>Further information on the PAIs considered can be found in the relevant pre-contractual disclosure for the Fund.</p>

Sustainable Finance Disclosures (“Annex IV”) (Unaudited) (continued)

What were the top investments of this financial product?

The Fund had the following top investments over the reference period:

Largest investments	Sector	Assets (%)	Country
US TREASURY N/B	Government Bonds	2.87%	United States
GOVT OF BERMUDA	Government Bonds	2.71%	Bermuda
Kingdom of Spain 30/07/2042 EUR	Government Bonds	2.43%	Spain
Bank of Ireland 18/03/2031 EUR	Government Bonds	2.11%	Ireland
Kingdom of Denmark 15/11/2031 DKK	Government Bonds	1.99%	Denmark
TSY INFL IX N/B	Government Bonds	1.96%	United States
REPUBLIC OF PANAMA	Government Bonds	1.93%	Panama
OBRIGACOES DO TESOURO	Government Bonds	1.73%	Portugal
Prologis 15/10/2030 USD	Real Estate	1.68%	United States
KfW 14/09/2029 USD	Financials	1.67%	Germany
United Kingdom 01/07/2033 GBP	Government Bonds	1.62%	United Kingdom
CZECH REPUBLIC	Government Bonds	1.59%	Czech Republic
ASHTeAD CAPITAL INC	Financials	1.49%	United States
CIBC 23/10/2025 USD	Financials	1.48%	Canada
ISRAEL FIXED BOND	Government Bonds	1.44%	Israel

Note: Proportion of investments are shown as average position sizes over the reference period.

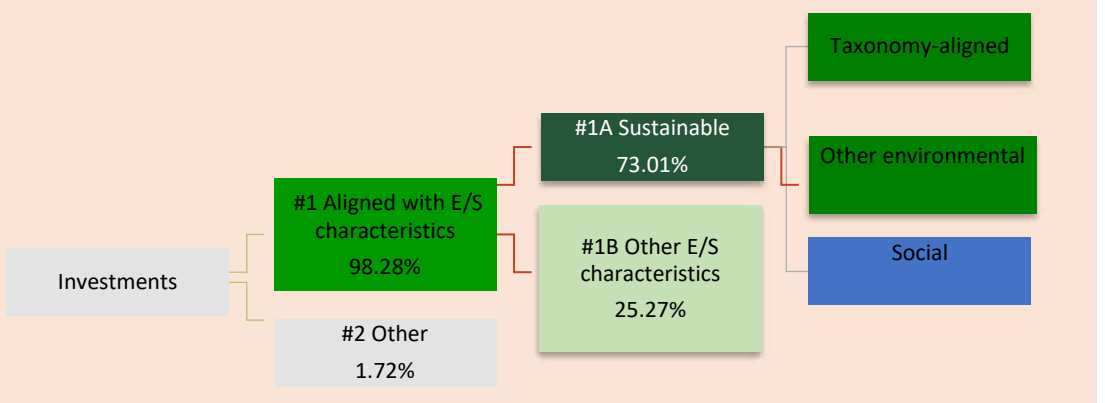

Sustainable Finance Disclosures (“Annex IV”) (Unaudited) (continued)

What was the proportion of sustainability-related investments?

● **What was the asset allocation?**

Asset allocation describes the share of investments in specific assets.

#1 Aligned with E/S characteristics includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

#2Other includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

The category **#1 Aligned with E/S characteristics** covers:

- The sub-category **#1A Sustainable** covers sustainable investments with environmental or social objectives.
- The sub-category **#1B Other E/S characteristics** covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

● **In which economic sectors were the investments made?**

The Fund made investments in the following economic sectors:

Sector	Portfolio weight (%)
Government Bonds	53.35%
Financials	23.86%
Communication Services	4.30%
Industrials	4.20%
Consumer Discretionary	3.96%
Consumer Staples	2.68%
Real Estate	2.56%
Information Technology	2.35%
Cash/other	1.72%
Health Care	1.02%

Note: Based on GICS sector definitions. Government and government-related issues are aggregated. ‘Other Bonds’ includes supranational organisations and any other bond from issuers other than government and corporate entities. Cash is not viewed as a strategic asset class. Sector allocations shown net of any cash or derivative exposures in the Fund. Financials sector includes supranational organisations focused on specialised financing.

The average exposure to direct fossil fuels activities was 0.00% over the period.

Sustainable Finance Disclosures (“Annex IV”) (Unaudited) (continued)

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

As of the production date of this document, the Investment Manager assessed that 0% of sustainable investments are aligned with the EU Taxonomy.

● Did the financial product invest in fossil gas and/or nuclear energy related activities that comply with the EU Taxonomy¹⁵?

Yes:

In fossil gas In nuclear energy

No

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

*For the purpose of these graphs, ‘sovereign bonds’ consist of all sovereign exposures.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives

● What was the share of investments made in transitional and enabling activities?

Not applicable. The Fund did not make taxonomy-aligned investments over the reference period.

¹⁵ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change (“climate change mitigation”) and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Sustainable Finance Disclosures (“Annex IV”) (Unaudited) (continued)

are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

 are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

<ul style="list-style-type: none"> ● How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods? 	N/A
 What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?	<p>As of the production date of this document, the Investment Manager does not currently split between environmental and social sustainable investments.</p>
 What was the share of socially sustainable investments?	<p>As of the production date of this document, the Investment Manager does not currently split between environmental and social sustainable investments.</p>
 What investments were included under “#2 Other”, what was their purpose and were there any minimum environmental or social safeguards?	<p>“#2 Other” included other investments and instruments of the Fund that cannot be aligned with the environmental and/or social characteristics of the Fund. These included, derivatives for hedging purposes, cash, and cash equivalents, which are used for the purpose of efficient portfolio management and liquidity.</p>
What actions have been taken to meet the environmental and/or social characteristics during the reference period?	<p>Over the reference period, the Investment Manager incorporated ESG considerations into research and investment due diligence, selecting investments to promote the relevant environmental and/or social characteristics of the Fund based on the specific investment strategy and applying binding criteria set out in the Fund’s pre-contractual disclosure.</p> <p>Although engagement is not directly linked to the specific environmental or social characteristics of the Fund, the Investment Manager may have undertaken certain stewardship activities with corporate issuers, through constructive dialogue with senior management representatives, to share views when given the opportunity, and to support companies undertaking positive changes. The Investment Manager also undertook engagement actions with sovereigns held within the portfolio as part of its overall stewardship activity. The Investment Manager seeks to incorporate the insights from stewardship activities into investment decisions, and vice versa, to enhance long-term value.</p>
How did this financial product perform compared to the reference benchmark?	<p>The Fund did not designate an index as a reference benchmark to attain the environmental or social characteristics it promotes.</p>

Sustainable Finance Disclosures (“Annex IV”) (Unaudited) (continued)

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.	● <i>How does the reference benchmark differ from a broad market index?</i>
	N/A
	● <i>How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?</i>
	N/A

*1 The Total Expense Ratio (TER) is calculated according to the following formula: (Total expenses / Average Net Assets * 100)

The Total Expense Ratio (TER) is calculated according to the guidelines of the Directives OAK BV D-02/2013 "Reporting Asset Management Costs" (Edition: 23.4.2013) and the "Guidelines on the calculation and disclosure of the Total Expense Ratio (TER) of collective investment schemes" issued by the Swiss Funds & Asset Management Association.
