Report of the Board of Directors for the financial year from April 1, 2023 to March 31, 2024

Dear investors,

During the financial year under review, the assets of Vontobel Fund II decreased by 8.22%, from EUR 1,816.45 million to EUR 1,667.10 million. This decrease in assets is primarily due to the negative performance of the Sub-Funds and net outflows.

The following Share Classes were launched during the financial year:

Vontobel Fund II –	Share Class	Currency	Launch date
mtx Emerging Markets Sustainability Champions	C	USD	27.07.2023
	C	EUR	27.07.2023

Please find detailed information on the individual Share Classes and their respective performance during the year under review in the respective reports and statements.

For information on the events during and after the financial year, see points 13 and 14 of the Notes to the financial statements.

The Board of Directors points out that the statements contained in the auditor's opinion with respect to the statutory responsibility of the Board of Directors are exclusively those of the auditor. The responsibilities and obligations of the Board of Directors are regulated by law. The Board of Directors considers that it has met these obligations in their entirety.

The Board of Directors

Notes to the Financial Statements

1 General information

Vontobel Fund II (hereinafter referred to as the “Fund”) is an open-ended investment company with variable capital under Luxembourg law, incorporated on September 7, 2007 for an indefinite duration as a “Société d’Investissement à Capital Variable” (“SICAV”) in accordance with the provisions of Part I of the amended Luxembourg Law of December 17, 2010 on Undertakings for Collective Investment. The Fund’s financial year ends on March 31.

The Fund was incorporated as an “umbrella” Fund under the name of Wegelin (Lux) Funds SICAV on September 7, 2007 and was published in the *Mémorial C., Recueil des Sociétés et Associations* (the “Mémorial”), on September 25, 2007. The name was changed with effect on May 29, 2012 from Wegelin Asset Management Funds SICAV to 1741 Asset Management Funds SICAV. On March 30, 2017, an extraordinary general meeting of Shareholders approved an updated version of the articles of association including the new name of the Fund, Vontobel Fund II, entering into force with effect from April 28, 2017.

The Fund is registered in the Luxembourg Trade and Companies Register with registration number B131432.

The Fund is composed of several sub-funds (“Sub-Funds”), each of which represents a specific portfolio of assets and liabilities and is managed in accordance with its own specific investment objectives.

As at March 31, 2024, the Fund had the following Sub-Funds and Share Classes available:

Bond 2026		

The Articles of Association permit the Fund's board of directors (“Board of Directors”) at any time to issue various share classes (“Share Classes”) within a Sub-Fund, the assets of these Share Classes being managed jointly. The Share Classes may, however, differ in their specific characteristics, e.g. with respect to their investor profile, fee structure, minimum investment amount, taxation and their distribution policy.

The Board of Directors may at any time decide to issue the Share Classes listed below for each Sub-Fund. Share classes may be issued in the reference currency of the Sub-Fund or in alternative currencies and may be either accumulating or distributing. If the alternative currency is hedged against currency fluctuations with respect to the reference currency of the Sub-Fund, this will be indicated by the addition of the letter "H" and the term "hedged" to the name of the Share Class. The net asset value and, accordingly, the performance of the corresponding hedged shares may differ from the net asset value of the corresponding shares in the reference currency.

Further details of available Share Classes can be obtained from the registered office of the Fund or the Management Company and are available along with current prices and KIDs at vontobel.com/am at any time. As noted below, certain Share Classes are reserved for specific investors. Not all Share Classes are available in all countries in which the Fund has been approved for distribution:

a) Share classes with entitlement to distributions:

- A-shares may be subscribed by any type of investor and distribute annually.
- AM-shares may be subscribed by any type of investor and distribute monthly.
- AQ-shares may be subscribed by any type of investor and distribute quarterly.
- AS-shares may be subscribed by any type of investor and distribute semi-annually.

The Board of Directors may, at its sole discretion, resolve on the amounts to be distributed to the shareholders.

Notes to the Financial Statements

1 General information (continued)

The Board of Directors may decide to issue gross distributing share classes which may pay out distributions gross of fees and expenses. To achieve this, all or part of their fees and expenses may be paid out of capital, resulting in an increase in distributable income for the payment of dividends to such classes of shares. This may result in distribution of income and, in addition, both realized and unrealized capital gains, if any, and capital attributable to such Shares within the limits set up by Luxembourg law. Distribution of capital represents a withdrawal of part of an investor's original investment. Such distributions may result in a reduction of the net asset value per Share over time and the net asset value per Share may fluctuate more than other Share Classes. These gross distributing share classes will be indicated by the addition of the term "Gross" to the name of the Share Class entitled to distributions.

The use of income, and in particular any final distribution amount to be paid out, will be decided for each Share Class by the general meeting of Shareholders of the Fund, which may override the distribution provisions set out in the Sales Prospectus.

The Board of Directors may at any time decide to issue Share Classes with entitlement to distribution which are combined with characteristics of the following accumulation Share Classes (e.g. "AQG" share classes). These Share Classes will be entitled to distributions but provide apart from that the same characteristics as accumulation shares.

b) Non-distributing Share Classes (accumulating Share Classes):

- B-shares may be subscribed by any type of investor and are accumulating (no distribution).
- C-shares may be subscribed by any type of investor and are accumulating (no distribution). They are only available through specific distributors.
- E-shares may be subscribed only by institutional investors in the sense of Art. 174 par. 2 lett. c) of the Law of 2010 and are accumulating (no distribution). The Board of Directors may at any time decide to close E shares for subscriptions by further investors upon reaching a certain amount of subscription monies. Such amount will be determined per Share Class per Sub-Fund. The Board of Directors reserves the right to determine the Management Fee per Share Class per Sub-Fund.
- F-shares may be subscribed only by institutional investors in the sense of Art. 174 par. 2 lett. c) of the Law of 2010, which invest and hold at least 20 million in the currency of the Share Class or who have concluded a corresponding agreement with a company in the Vontobel Group. F shares are accumulating (no distribution) and shall be issued only by Sub-Funds which envisage a Performance Fee in the Special Part of the Sales Prospectus, applicable to the relevant Sub-Fund; F shares shall provide a higher management fee than other share classes for institutional investors whereas a Performance Fee shall not be calculated for and not be charged to the F shares.
- G-shares are reserved exclusively for institutional investors in the sense of Art. 174 par. 2 lett. c) of the 2010 Law which invest and hold at least 50 million in the currency of the Sub-Fund. An investor is still considered eligible for this Share Class if the value of his holdings falls below the above minimum holding threshold due to market movements. G Shares are accumulating (no distribution).
- H-(hedged) shares may be subscribed by any type of investor and are accumulating (no distribution) and are issued in a currency other than the reference currency of the relevant Sub-Fund. The subscription currency of the Share Class is always hedged against the reference currency of the relevant Sub-Fund. However, the extent of the hedge may slightly fluctuate around the full hedge level.
- PH-(partially hedged) shares may be subscribed by any type of investor, are accumulating (no distribution) and are issued in a currency other than the reference currency of the relevant Sub-Fund. PH (partially hedged) shares will seek to hedge only exposure to the proportion of the main investment currency of the portfolio of a Sub-Fund against the currency of the Share Class. Investors should be aware that these Share Classes will retain a level of currency exposure to the other investment currencies of the Sub-Fund portfolio other than the main investment currency. This exposure can be significant. For example: The Reference Currency of a Sub-Fund is USD, the Share Class currency is CHF and the main part of the Sub-Fund's assets is invested in EUR. This PH CHF Share Class seeks to hedge only the proportion of the EUR portion of the Sub-Fund's portfolio against CHF. The PH CHF share class thus will retain currency exposure to the other investment currencies of the Sub-Fund's portfolio.
- I-shares may be subscribed only by institutional investors in the sense of Art. 174 par. 2 lett. c) of the 2010 Law and are accumulating (no distribution).
- N-shares may be subscribed only:
 - by investors who are prohibited from accepting and retaining inducements from third parties under applicable laws and regulations or court rulings, such as in the United Kingdom and the Netherlands and
 - by investors with separate fee arrangements with their clients for the provision of discretionary portfolio management services or independent advice services or who have a separate fee arrangement with their clients for the provision of non-independent advice in cases in which they have agreed not to accept and retain inducements from third parties.

The shares are accumulating (no distribution) and do not grant any rebates or retrocessions.

Notes to the Financial Statements

1 General information (continued)

- R-shares may be subscribed only by investors who are entitled, according to staff regulations of a Vontobel company, to hold shares in their respective account / deposit at Bank Vontobel AG, Zurich, according to employee terms or who have concluded a special agreement with a Vontobel company. It is therefore possible that these shares will be subscribed and held by persons who have access to non-public, material information in relation to the relevant Sub-Fund. In order to prevent conflicts of interest, the Vontobel Group and associated companies have issued corresponding directives, compliance with which is constantly monitored.
- S-shares may be subscribed only by institutional investors in the sense of Art. 174 par. 2 lett. c) of the 2010 Law which have concluded a corresponding agreement with a company in the Vontobel Group (including the Management Company) and are accumulating (no distribution). Neither management fee nor performance fee are charged for the S Share Class; Fees, if any, are charged directly by the contracting company in the Vontobel Group to the investor under the aforementioned corresponding agreement.
- U-shares may be subscribed by any type of investor and are accumulating (no distribution). Provisions governing issuance of fractions of shares are not applicable to U Shares. Converting U Shares into Shares of other Share Classes in the Fund is not permitted.
- V-shares are reserved exclusively for institutional investors in the sense of Art. 174 par. 2 lett. c) of the 2010 Law, who are a company in the Vontobel Group or have a cooperation agreement with a company of the Vontobel Group. V Shares are accumulating (no distribution) and do not grant any rebates or retrocessions to the investors;
- X-shares may be subscribed only by institutional investors in the sense of Art. 174 par. 2 lett. c) of the 2010 Law which invest at least 50 million in the currency of the Share Class per initial subscription and who have concluded a corresponding agreement with a company belonging to the Vontobel Group. X shares are accumulating (no distribution).
- Y-shares are reserved exclusively for institutional investors in the sense of Art. 174 par. 2 lett. c) of the 2010 Law which invest and hold at least 500 million in the currency of the Share Class. An investor is still considered eligible for this Share Class if the value of his holdings falls below the above minimum holding threshold due to market movements. Y Shares are accumulating (no distribution).

The Board of Directors may at any time decide to issue Share Classes which provide a combination of various characteristics of Share Classes.

The above-mentioned Share Class types or combinations thereof may contain the additional denominations from "1" to "10". These Shares shall have the same architecture as the Share Classes from which they have been derived, but shall have one or another feature distinguishing them from the Share Classes from which they have been derived. Such special feature may include distributors who are domiciled in certain countries or carry out their business in those countries and who act on behalf of their own clients (who may be any type of investor) providing they fulfill the general eligibility criteria for the relevant Share Class, investors who have concluded a corresponding agreement with a company belonging to the Vontobel Group or similar.

There is a required minimum investment and/or holding amount for the acquisition and/or holding of Shares in several Shares Classes as set out above. The Board of Directors or the Management Company, after taking into consideration the equal treatment of the shareholders, have discretion to permit a lower minimum investment/holding amount in qualifying cases.

If a holder of any Share Class does not or does no longer fulfil the criteria provided for an investor in this Share Class, the Fund shall be entitled to repurchase the shares concerned in accordance with the provisions for redemption in the Sales Prospectus. The shareholder shall be informed that such measure has been taken. Alternatively, the Board may offer to such investor to convert the shares concerned into shares of another Share Class for which the investor fulfils all the eligibility criteria.

A number of different Share Classes may be issued within a single Sub-Fund.

2 Accounting principles

a) Financial statements

The financial statements have been drawn up on a going concern basis in accordance with Luxembourg legal provisions relating to investment funds.

As of March 31, 2024, the NAVs of these financial statements were determined for each of the Sub-Funds on the basis of the valuation of the underlying assets at the latest prices available as of March 28, 2024.

b) Valuation of the assets

- i. The value of any cash on hand or on deposit, bills and demand notes and accounts receivable, prepaid expenses, cash dividends and interest declared or accrued and not yet received is deemed to be the full amount thereof, unless in any case the same is unlikely to be paid or received in full, in which case the value thereof is arrived at after making such discount as may be considered appropriate in such case to reflect the true value thereof.

Notes to the Financial Statements

2 Accounting principles (continued)

- ii. The value of transferable securities, Money Market Instruments and any financial liquid assets listed or dealt in on a stock exchange or on a Regulated Market, or any other regulated market, are generally valued at the last available known price in the relevant market prior to the time of valuation. Fixed Income securities not traded on such markets are generally valued at the last available price or yield equivalents obtained from one or more dealers or pricing services approved by the Board of Directors. If such prices are not representative of their value, such securities are stated at market value or otherwise at the fair value at which it is expected they may be resold, as may be determined in good faith by or under the direction of the Board of Directors.
- iii. The liquidating value of futures, forward or options contracts not traded on a stock exchange or on Regulated Markets, or on other regulated markets shall mean their net liquidating value determined, pursuant to the policies established by the Board of Directors, on a basis consistently applied for each different variety of contracts. The value of futures, forward or options contracts traded on a stock exchange or on Regulated Markets, or on other regulated markets shall be based upon the last available settlement or closing prices as applicable to these contracts on a stock exchange or on Regulated Markets, or on other regulated markets on which the particular futures, forward or options contracts are traded on behalf of the Fund; provided that if a future, forward or options contract could not be liquidated on the day with respect to which assets are being determined, the basis for determining the liquidating value of such contract shall be such value as the Board of Directors may deem fair and reasonable.
- iv. All other transferable securities, Money Market Instruments and other financial liquid assets, including equity and debt securities, for which prices are supplied by a pricing agent but are not deemed to be representative of market values, but excluding Money Market Instruments with a remaining maturity of ninety days or less and including restricted securities and securities for which no market quotation is available, are valued at fair value as determined in good faith pursuant to procedures established by the Board of Directors. Money Market Instruments held by a Sub-Fund with a remaining maturity of 12 months or less will be valued by the amortized cost method, which approximates market value. Under this valuation method, the relevant Sub-Fund's investments are valued at their acquisition cost as adjusted for amortization of premium or accretion of discount rather than at market value.
- v. Interest rate swaps will be valued on the basis of their market value established by reference to the applicable interest rate curve.
- vi. Credit default swaps and total return swaps will be valued at fair value under procedures approved by the Board of Directors. As these swaps are not exchange-traded, but are private contracts into which the Fund and a swap counterparty enter as principals, the data inputs for valuation models are usually established by reference to active markets. However it is possible that such market data will not be available for credit default swaps and total return swaps near the date on which valuation is undertaken. Where such markets inputs are not available, quoted market data for similar instruments (e.g. a different underlying instrument for the same or a similar reference entity) will be used provided that appropriate adjustments be made to reflect any differences between the credit default swaps and total return swaps being valued and the similar financial instrument for which a price is available. Market input data and prices may be sourced from exchanges, a broker, an external pricing agency or a counterparty.
- vii. If no such market input data are available, credit default swaps and total return swaps will be valued at their fair value pursuant to a valuation method adopted by the Board of Directors which shall be a valuation method widely accepted as good market practice (i.e. used by active participants on setting prices in the market place or which has demonstrated to provide reliable estimate of market prices) provided that adjustments that the Board of Directors may deem fair and reasonable be made.
- viii. All other swaps will be valued at fair value as determined in good faith pursuant to procedures established by the Board of Directors.

The Board of Directors is entitled to temporarily apply other generally recognized valuation methods that are used in good faith and are verifiable by the Fund's auditors in order to calculate the assets of the Fund and/or the assets of a Sub-Fund if the aforementioned valuation criteria appear to be impossible or inexpedient due to exceptional circumstances, or if this is in the interests of the Fund or a Sub-Fund and/or shareholders (e.g. to avoid market timing) to achieve an appropriate valuation of the Fund and/or the Sub-Fund concerned.

c) Net realised gain/loss on the sale of securities

Realised net profits and net losses from the sale of securities are calculated on the basis of average costs. Realised profits and losses are reported in the statement of operations and changes in net assets under "Net realised gain/loss on investments".

Changes in unrealised gains and losses are reported in the statement of operations and changes in net assets under "Change in unrealised appreciation/depreciation on investments".

d) Income

Dividends are recognised as income in the statement of net income / loss on the day on which the security is first listed as ex-dividend, provided this information is available to the Fund. Accrued interests are allocated on a daily basis. Coupons received from the issuers of the underlying securities are included in the position "Net interests on bonds". Dividends received from the issuers of the underlying securities are included in the position "Net dividends". Interests and dividends receivable for the Fund are booked to "Receivable on interests and dividends".

e) Valuation of futures

Futures are valued on the basis of the last available price. Realised net profits and net losses from the sale of futures are calculated according to the FIFO-principle. Net profits and net losses are reported net in the statement of operations and changes in net assets under "Net realised gain/loss on futures".

Notes to the Financial Statements

2 Accounting principles (continued)

Changes in unrealised gains and losses are reported in the statement of operations and changes in net assets under “Change in unrealised appreciation/depreciation on Futures”.

f) Valuation of forward foreign exchange contracts

Forward foreign exchange contracts are valued on the basis of the forward foreign exchange rates on the valuation date. Realised net profits and net losses are reported in the statement of net income / loss under “Net realised gain/loss on forward foreign exchange contracts”.

Changes in unrealised gains and losses are reported in the statement of operations and changes in net assets under “Change in unrealised appreciation/depreciation on forward foreign exchange contracts”.

g) Valuation of options

Options are valued on the basis of the last available price. Realised net profits and net losses are reported in the statement of operations and changes in net assets under “Net realised gain/loss on options”.

Changes in unrealised gains and losses are reported in the statement of operations and changes in net assets under “Change in unrealised appreciation/depreciation on options”.

h) Valuation of contracts for difference

Contracts for difference are agreements between Sub-Funds and third parties which allow the Sub-Funds to benefit from price movements of shares, commodities, indices, interest rate products or currencies without the need to own them directly. Upon entering into such contracts, the Sub-Funds are required to deposit with a broker a one-off cash margin equal to a certain percentage of the contract amount. Variation margin payments are made or received by the Sub-Funds depending on the movement in the value of the underlying. Contracts for difference are valued as the difference between the market price of the underlying on the valuation day and the contract price. The changes in contract values are recorded as unrealised profits or losses and the Sub-Funds recognise a realised profit or loss when the contract is closed.

Unrealised gains and losses are reported in the statement of net assets under “Unrealised gain/loss on contracts for difference”.

Realised profits and losses are reported in the statement of operations and changes in net assets under “Net realised gain/loss on contracts for difference”.

Changes in unrealised profits and losses are reported in the statement of operations and changes in net assets under “Change in unrealised appreciation/depreciation on contracts for difference”. Interest is recognised as income or expenses and recorded in the statement of net income/loss under “Net interests on contracts for difference”.

The outstanding contracts for difference are shown in Note 9.

i) Other assets/liabilities

Other assets arise mainly from recoverable taxes and costs.

Other liabilities arise mainly from provisions for general tax advice, other costs, clearing brokerage costs and legal fees.

j) Combined financial statements

The reference currencies of the Sub-Funds are converted into Euro to produce combined financial statements (annual and semi-annual reports) that comply with provisions under Luxembourg Law.

k) Conversion of items in foreign currencies

Cash at banks, financial instruments as well as other assets / liabilities that are expressed in currencies other than the reference currency of the different Sub-Funds, are converted at the last known exchange rate on the valuation day. Income and expenses expressed in currencies other than the reference currency of the different Sub-Funds are converted at the exchange rate on the payment day. Realised profits and losses on currency exchanges are reported in the statement of operations and changes in net assets under “Net realised gain/loss on currency exchange”.

The acquisition cost of securities expressed in currencies other than the reference currency of the different Sub-Funds is converted at the exchange rate of the acquisition date.

l) Formation expenses

The formation expenses for the Fund have been allocated to the individual Sub-Funds in proportion to their initial subscription amounts and were written off in full over a period of five years.

m) Taxation

With the exception of the “taxe d'abonnement” (subscription tax) listed under Note 4, the Fund is not subject to any Luxembourg taxes. However, in accordance with the applicable foreign legislation, the Fund may be subject to capital gains taxes and withholding tax on interest and dividend income at differing rates.

Notes to the Financial Statements

2 Accounting principles (continued)

For the purpose of disclosure, non-refundable withholding taxes are deducted from the gross dividends/interest amounts. Capital gains taxes are deducted from sales proceeds as a reduction in realised profits.

n) Swing pricing

Trading in a Sub-Fund (in particular subscription and redemption activities) translates as a rule in corresponding trading activities in the portfolio of the relevant Sub-Fund (i.e. purchase of additional instruments in case of subscriptions and sale of instruments held in the portfolio of the relevant Sub-Fund in case of redemptions). Such trading activities entail various costs, including but not limited to bid-ask spreads, brokerage fees, transaction taxes and similar. Frequent trading in the portfolio of a Sub-Fund arising from frequent trading in the Sub-Fund may result in transaction costs that might be non-negligible and have a detrimental financial impact on the investors in the Sub-Fund, in particular on the long-term investors. To protect those investors, the Board of Directors may decide to apply the single swing pricing mechanism (the "SSP") in any Sub-Fund. The SSP mechanism adjusts the net asset value of the affected Sub-Fund, as calculated above, if a predetermined net capital activity threshold is exceeded ("partial" SSP), to accommodate it for those transaction costs. Subsequently, the adjustment takes place at the level of the relevant Sub-Fund and not at the level of an individual investor.

The adjustments of the net asset value on any valuation day in accordance with the SSP mechanism are made as follows:

- the net asset value of all Share Classes of the relevant Sub-Fund shall be increased by the applicable swing factor, as defined below, if the total subscriptions less the total redemptions for all Share Classes of the Sub-Fund on the relevant transaction day results in a net asset inflow (net subscriptions). Subsequently, subscribing investors shall receive a lower number of shares than they would receive without the application of the SSP while redeeming investors shall receive a higher redemption amount than they would receive without the application of the SSP (investors subscribing for a certain number of shares shall pay a higher total subscription amount); or
- the net asset value of all Share Classes of the relevant Sub-Fund shall be decreased by the applicable swing factor, as defined below, if the total subscriptions less the total redemptions for all Share Classes of the Sub-Fund on the relevant transaction day results in a net asset outflow (net redemptions). Subsequently, subscribing investors shall receive a higher number of shares than they would receive without the application of the SSP while redeeming investors shall receive a lower redemption amount than they would receive without the application of the SSP (investors subscribing for a certain number of shares shall pay a lower total subscription amount); or
- no change shall be made if the net asset inflow or net asset outflow on the relevant transaction day does not exceed a certain threshold which may be determined by the Board of Directors for the relevant Sub-Fund (single swing pricing threshold).

The maximum adjustment that may be made to the net asset value of the relevant Sub-Fund, as described above ("Swing Factor") has been determined by the Board of Directors to amount to 1% of the net asset value of the relevant Sub-Fund. Exceptions to the 1% maximum are listed below.

The effects of the SSP mechanism on the Sub-Funds on March 31, 2024, were as follows (a value of 0 for the Swing pricing adjustment means that the mechanism was not applied on March 31, 2024):

	Sub-Fund Currency	Overall net assets before application of the swing factor	Swing pricing adjustment	Overall net assets after application of the swing factor
Vontobel Fund II –				
mtx Emerging Markets Sustainability				
Champions	USD	277,956,421	0	277,956,421
Megatrends	USD	267,403,497	0	267,403,497
mtx China A-Shares Leaders	USD	34,013,531	0	34,013,531
Fixed Maturity Emerging Markets Bond 2026	USD	500,695,039	0	500,695,039

The following Sub-Fund is subject to single swing pricing and may apply a maximum single swing pricing factor of up to 3% of the Net Asset Value:

- Vontobel Fund II – Fixed Maturity Emerging Markets Bond 2026

The Board of Directors may decide to apply Single Swing Pricing Factors beyond the maximum adjustment level to a Sub-Fund in case of exceptional market circumstances, such as periods of high volatility, reduced asset liquidity and market stress.

All Sub-Funds subject to the application of the SSP mechanism may be consulted on the Internet at vontobel.com/am.

3 Management Fee

The relevant Sub-Fund pays a fee, known as a "Management Fee", which covers all costs relating to possible services rendered in connection with investment management and distribution and is payable at the end of every month. The composition of this Management Fee is determined by the Investment Managers, insofar as applicable, the Sub-Investment Managers and the distributors concerned. The distribution fee may also be paid directly out of the assets of the relevant Sub-Fund. This Management Fee is calculated based on the average of the daily net asset values of the Sub-Fund concerned during the relevant month. Information regarding the applicable Management Fee for each Sub-Fund is given in the Special Part of the Sales Prospectus relating to the individual Sub-Funds.

Notes to the Financial Statements

3 Management Fee (continued)

During the financial year, the applicable rates per annum and per share class were as follows:

Footnotes: in the table below, the following references are used:

(1) Management Fee until termination of the Share Class.

(2) Management Fee since launch of the Share Class.

As at March 31, 2024, management fees were charged at the following maximum rates at target fund level:

Vontobel Fund II –	Annual Management Fee
Active Beta Opportunities	
Vontobel Fund SIF – China Equity Opportunities I USD	0.500%

4 Subscription tax

The Sub-Funds are, in principle, subject to a subscription tax (taxe d'abonnement) levied at the rate of 0.05% per annum based on their net asset value at the end of the relevant quarter, calculated and paid quarterly.

A reduced subscription tax rate of 0.01% per annum may however be applicable to:

- Any Sub-Fund whose exclusive object is the collective investment in money market instruments, the placing of deposits with credit institutions, or both.
- Any Sub-Fund or Share Class provided that their shares are reserved to one or more institutional investors within the meaning of article 174 of the 2010 Law (an "Institutional Investor").

A subscription tax exemption may apply to:

- The portion of any Sub-Fund's assets (pro rata) invested in a Luxembourg investment fund or any of its Sub-Funds to the extent it is subject to the subscription tax;
- Any Sub-Fund (i) whose securities are reserved to Institutional Investor(s), and (ii) whose sole object is the collective investment in money market instruments and the placing of deposits with credit institutions, and (iii) whose weighted residual portfolio maturity does not exceed 90 days, and (iv) that have obtained the highest possible rating from a recognized rating agency. If several Share Classes are in issue in the relevant Sub-Fund meeting (ii) to (iv) above, only those Share Classes meeting (i) above will benefit from this exemption;
- Any Sub-Fund only held by pension funds and assimilated vehicles.

5 Service Fee

The relevant Sub-Fund pays a "Service Fee", which covers the costs involved in central administration, management, the Depositary function and support for the Fund. This Service Fee shall be calculated on the average daily net asset value of the relevant Sub-Fund during the relevant month and charged to the assets of the relevant Sub-Fund at the end of the month. Commissions due to the Management Company, the Administrator, the Depositary, the Representatives and Paying and Information Agents for countries in which the Fund is sold are paid from this Service Fee.

Unless otherwise stipulated in the Special Part of the Sales Prospectus, the Service Fee amounts to a maximum of 1.0494% p.a. Unless the Special Part of the Sales Prospectus stipulates otherwise, this Service Fee is calculated based on the average of the daily net asset values of the Sub-Fund concerned during the relevant month and paid during the following month.

6 Related parties

In accordance with the 2010 Law, no fees were charged for the subscription or redemption of shares in target funds that are managed by the same Management Company or by another company affiliated with the Management Company.

The Sub-Fund Vontobel Fund II – Active Beta Opportunities was invested in funds of affiliated parties at the end of the financial year (see note 3).

Notes to the Financial Statements

7 Exchange rates

When converting balance sheet positions that are denominated in foreign currencies into Euro as at March 31, 2024, the following exchange rates were used:

1 EUR	1.655426	AUD	1 EUR	0.854938	GBP	1 EUR	1,453.566622	KRW	1 EUR	4.050542	SAR
1 EUR	5.406001	BRL	1 EUR	8.452556	HKD	1 EUR	17.951531	MXN	1 EUR	11.547961	SEK
1 EUR	1.461510	CAD	1 EUR	394.039783	HUF	1 EUR	11.716462	NOK	1 EUR	1.457569	SGD

9 Balance-sheet transactions

The collateral received per Sub-Fund for each type of balance-sheet transaction are mentioned in section 9d).

a) Forward foreign exchange contracts

In order to protect its assets against currency fluctuations, the Fund may carry out transactions to dispose of foreign exchange forward contracts and call options on currencies, and to acquire put options on currencies. The arrangement of hedging transactions is subject to the condition that there is a direct connection between the transaction and the assets to be hedged. This means that transactions concluded in a given currency must not significantly exceed the total value of the assets denominated in that currency or the period during which the assets are held.

Notes to the Financial Statements

9 Balance-sheet transactions (continued)

The counterparties for the forward foreign exchange contracts listed below are: BNP Paribas, BofA Securities Europe S.A., CACEIS Investor Services Bank S.A., JP Morgan AG and Société Générale Paris.

The following forward foreign exchange contracts were outstanding as at March 31, 2024:

	AQ	19.01.2024	22.01.2024	26.01.2024	USD	0.96

12 Russia/Ukraine situation

In February 2022, a number of countries (including the US, UK and EU) imposed sanctions against certain entities and individuals in Russia as a result of the official recognition of the Donetsk People Republic and Lugansk People Republic by the Russian Federation. Additional sanctions continued to be imposed following the war initiated by Russia against Ukraine on February 24, 2022. The situation, together with growing turmoil from fluctuations in commodity prices and foreign exchange rates, has adversely impacted global economies and has driven a sharp increase in volatility across markets. The Board of Directors used fair value methodology to evaluate the impacted portfolios. For details on Sub-Funds invested in securities issued by Russian or Ukrainian entities for which a fair value was applied as a consequence of the events, please refer to note 10, Securities valuation.

The Board of Directors continues to monitor the evolving situation and its impact on the financial position of the Sub-Funds.

Notes to the Financial Statements

13 Events during the financial year

In October 2022, CACEIS and Royal Bank of Canada (RBC) announced they had signed a memorandum of understanding for the intended acquisition by CACEIS of the European asset servicing business of RBC. As part of this acquisition, CACEIS would acquire the entire issued share capital of RBC Investor Services Bank S.A. (IS Bank).

Completion of the sale of IS Bank occurred with effective date of July 3, 2023, following regulatory approval and RBC Investor Services Bank S.A. became CACEIS Investor Services Bank S.A.

On January 26, 2024, the Sub-Fund Vontobel Fund II – Vescore Active Beta was renamed Vontobel Fund II – Active Beta and the Sub-Fund Vontobel Fund II – Vescore Active Beta Opportunities was renamed Vontobel Fund II – Active Beta Opportunities.

14 Events after the end of the financial year

On May 14, 2024, the Sub-Fund Vontobel Fund II – Fixed Maturity Emerging Markets Bond 2 was launched.

On June 1, 2024, all CACEIS Investor Services Bank S.A. employees officially joined CACEIS Bank, Luxembourg Branch following the merger of their legal structures and the integration of RBC IS's European operations, less than a year after their acquisition.

All CACEIS employees have been brought together under the same legal structures and CACEIS Investor Services Bank S.A. is consequently being closed in Luxembourg.

15 Transaction costs

Transaction costs are costs incurred by the Fund as a result of buying and selling securities and derivatives as part of portfolio management.

Vontobel Fund II –	Currency	Amount

Megatrends	USD	169,062
Global Impact Equities	EUR	44,800
mtx China A-Shares Leaders	USD	70,757
Fixed Maturity Emerging Markets Bond 2026	USD	0

16 TER (Total Expense Ratio)

In accordance with the Asset Management Association Switzerland (AMAS) guidelines on the calculation and disclosure of the Total Expense Ratio (TER) of May 16, 2008 (version dated August 5, 2021), the Fund must show a TER for the past 12-month period. This figure expresses the total fees and costs which are charged on an ongoing basis to the Sub-Fund's assets as a percentage of net Sub-Fund assets (operating expenditure), and is generally calculated according to the following formula:

$$\text{TER} = \frac{\text{Total operating expenses in CU}^*}{\text{Average net Fund assets in CU}^*} \times 100$$

* CU = currency units in Sub-Fund accounting currency

The TER of the Sub-Funds is as follows:

Vontobel Fund II –		TER	Vontobel Fund II –		TER
Share Class	Currency		Share Class	Currency	
Active Beta			Active Beta (continued)		
A	EUR	1.10%	R	EUR	0.45%

Additional Unaudited Information

1 Performance

Historical performance is not an indicator of current or future performance. Performance data do not take account of any commissions and expenses charged on the issue and redemption of shares, or of possible custody fees or withholding taxes that decrease the value of the assets.

The Fund's return can rise or fall due to currency fluctuations. Investors should note that past performance is not necessarily indicative of the future performance of the various Sub-Funds.

Investors need to be aware of the following key points concerning the presentation of the benchmark performance:

- 1. Single Benchmark:** For some Sub-Funds, a single benchmark applies to all Share Classes, irrespective of their currency.
- 2. Hedged Benchmark:** For other Sub-Funds, which apply hedged benchmarks, the benchmark performance will be disclosed in all Share Class currencies.
- 3. Conversion Indicator:** Benchmarks marked with * represent a benchmark performance value converted to the Share Class currency using the exchange rate as at the end of each reporting period.
- 4. Calculation Reference:** The value of the benchmark performance is calculated from the launch date of the oldest Share Class in the Sub-Fund still active at the closing date of this report.

The performance figures have been calculated in accordance with the guidelines on the calculation and publication of performance data of the Asset Management Association Switzerland (AMAS) of May 16, 2008 (version dated August 5, 2021).

Footnotes: in the table below, the following references are used:

- (1) Performance until termination of the Share Class.
- (2) Performance since launch of the Share Class

2 Information on the remuneration (in EUR) of employees of Vontobel Asset Management S.A. for the financial year ended on December 31, 2023

Number of employees on December 31, 2023	Total fixed salaries p.a. as at December 31, 2023	Total variable salary payments in 2023
87	10,299,950	3,288,734

Identified employee categories*:

Fixed salaries p.a. as at December 31, 2023	Variable salary payments in 2023
3,982,083	1,989,649

* Identified employee categories

The remuneration policies and practices shall apply to those categories of staff, including senior management, risk takers, control functions and any employee receiving total remuneration that falls within the remuneration bracket of senior management and risk takers whose professional activities have a material impact on the risk profiles of the management companies or of the UCITS that they manage.

The remuneration practice for identified employee categories is described in the remuneration policy of Vontobel Asset Management S.A. and is available to investors upon request.

Neither the Management Company nor the Fund pays remuneration to identified employees of delegates.

The results of the annual review of the implementation of the remuneration policy were positive.

The remuneration paid to staff members of the investment management delegates in charge of investment management functions for Vontobel Fund II from January 1, 2023 to December 31, 2023 amounts to EUR 1,191,124 overall. For these purposes, "staff" is defined broadly and includes for example analysts of the relevant investment management delegates.

Number of employees related to Vontobel Fund II on December 31, 2023	Total remuneration for financial year 2023	of which variable remuneration paid in 2023
35	1,191,124	418,890

Additional Unaudited Information

3 Information concerning the remuneration of the members of the Board of Directors (in EUR) of the Fund for the financial year ending March 31, 2024

The members of the Board of Directors of the Fund received a total remuneration of EUR 20,000 for their activities in connection with the financial year. Members of the Board of Directors who are employed by a company of the Vontobel Group do not receive any remuneration for their activities as members of the Board of Directors of the Fund.

4 Global Exposure

The commitment approach method is used for calculating global exposure for all Sub-Funds, except for the Sub-Funds mentioned below. In relation to the Sub-Funds mentioned, global exposure is instead calculated based on a VaR method. The global exposure data for the financial year ended March 31, 2024 are as follows.

Vontobel Fund II -	Calculation of global exposure	Model type	Benchmark portfolio	VaR Limit	Lowest VaR in period	Highest VaR in period	Average VaR in period	Average leverage level ⁽¹⁾
Active Beta	Absolute VaR	Monte Carlo ⁽²⁾	-	20%	5.40%	8.09%	2.24%	48.74%
Active Beta Opportunities	Absolute VaR	Monte Carlo ⁽²⁾	-	20%	4.91%	7.81%	2.14%	159.40%

(1) In accordance with CSSF Circular 11/512, the data published here were collected daily. Leverage is calculated using the sum of notionals approach.

(2) The VaR is calculated with a confidence level of 99% and a horizon of 20 business days.

5 Securities Financing Transactions Regulation

The Fund is subject to the Regulation (EU) 2015/2365 of the European Parliament and of the Council on transparency of securities financing transactions and of reuse and amending Regulation (EU) No 648/2012 of the European Parliament ("SFTR").

A Securities Financing Transaction ("SFT") is defined in Article 3 (11) of the SFTR as:

- repurchase transactions or reverse repurchase transactions;
- securities or commodities lending and securities or commodities borrowing;
- a buy-sell back transaction or sell-buy back transaction;
- a margin lending transaction.

The SFTR also covers transactions that are usually described as total return swaps ("TRS").

The Fund did not use any instrument falling in the scope of the SFTR for the financial year ended March 31, 2024.

Report of the Réviseur d'entreprises agréé for the financial year from April 1, 2023 to March 31, 2024

To the Shareholders of Vontobel Fund II

Opinion

We have audited the financial statements of Vontobel Fund II (the “Fund”) and each of its Sub-Funds, which comprise the statement of net assets and the portfolio as at March 31, 2024, and the statement of operations and changes in net assets, and the statement of net income / loss for the year then ended, and the notes to the financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying financial statements give a true and fair view of the financial position of the Fund and each of its Sub-Funds as at March 31, 2024, and of the results of their operations and changes in their net assets for the year then ended in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements.

Basis for Opinion

We conducted our audit in accordance with the Law of 23 July 2016 on the audit profession (the “Law of 23 July 2016”) and with International Standards on Auditing (“ISAs”) as adopted for Luxembourg by the “Commission de Surveillance du Secteur Financier” (“CSSF”). Our responsibilities under the Law of 23 July 2016 and ISAs as adopted for Luxembourg by the CSSF are further described in the “responsibilities of the “réviseur d'entreprises agréé” for the audit of the financial statements” section of our report. We are also independent of the Fund in accordance with the International Code of Ethics for Professional Accountants, including International Independence Standards, issued by the International Ethics Standards Board for Accountants (“IESBA Code”) as adopted for Luxembourg by the CSSF together with the ethical requirements that are relevant to our audit of the financial statements, and have fulfilled our other ethical responsibilities under those ethical requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Other information

The Board of Directors of the Fund is responsible for the other information. The other information comprises the information included in the annual report but does not include the financial statements and our report of the “réviseur d'entreprises agréé” thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report this fact. We have nothing to report in this regard.

Responsibilities of the Board of Directors of the Fund for the financial statements

The Board of Directors of the Fund is responsible for the preparation and fair presentation of these financial statements in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements, and for such internal control as the Board of Directors of the Fund determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Board of Directors of the Fund is responsible for assessing the Fund's and each of its Sub-Funds' ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors of the Fund either intends to liquidate the Fund or any of its Sub-Funds or to cease operations, or has no realistic alternative but to do so.

Report of the Réviseur d'entreprises agréé for the financial year from April 1, 2023 to March 31, 2024

Responsibilities of the “réviseur d'entreprises agréé” for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue a report of the “réviseur d'entreprises agréé” that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Law of 23 July 2016 and with ISAs as adopted for Luxembourg by the CSSF will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with the Law of 23 July 2016 and with ISAs as adopted for Luxembourg by the CSSF, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Board of Directors of the Fund.
- Conclude on the appropriateness of the Board of Directors of the Fund's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's or any of its Sub-Funds' ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our report of the “réviseur d'entreprises agréé” to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our report of the “réviseur d'entreprises agréé”. However, future events or conditions may cause the Fund or any of its Sub-Funds to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Sustainable Finance Disclosure Regulation ("SFDR") (Unaudited Information)

Transparency of the promotion of environmental or social characteristics and of sustainable investments

On November 27, 2019, Regulation (EU) 2019/2088 of the European Parliament and of the Council on sustainability-related disclosures in the financial services sector was published (the "SFDR"). The SFDR aims to increase the harmonization of, and transparency towards the end investors with regard to, the integration of sustainability risks, the consideration of adverse sustainability impacts, the promotion of environmental or social characteristics and sustainable investment by requiring pre-contractual and ongoing disclosures to end investors.

Within the meaning of SFDR, the Sub-Funds which do not promote environmental and/or social characteristics nor have a sustainable investment as its objective are categorized as Article 6 products.

For the purpose of the "taxonomy" regulation (regulation EU 2020/852 of June 18, 2020 on the establishment of a framework to facilitate sustainable investment, and amending the EU regulation 2019/2088), the investments underlying the Sub-Funds categorized as Article 6 products do not take into account the EU criteria for environmentally sustainable economic activities.

The following Sub-Funds of Vontobel Fund II are categorized as products falling under the scope of Article 6 SFDR as at March 31, 2024:

Vontobel Fund II –

mtx China A-Shares Leaders

Fixed Maturity Emerging Markets Bond 2026

In addition, the SFDR provides high-level definitions and distinguishes between several categorizations of products including "Article 8 products" which are financial products that promote, among other characteristics, environmental or social characteristics, or a combination of those characteristics, provided that the companies in which the investments are made follow good governance practices ("SFDR Article 8 Products") and "Article 9 products" which are products that have sustainable investment as their objective ("SFDR Article 9 Products").

The following Sub-Funds of Vontobel Fund II are categorized as Article 8 and 9 products falling under the scope of the following SFDR articles as at March 31, 2024:

Vontobel Fund II –	Current SFDR categorization as at March 31, 2024
Active Beta	Article 8 product
Active Beta Opportunities	Article 8 product
mtx Emerging Markets Sustainability Champions	Article 9 product
Duff & Phelps Global Listed Infrastructure	Article 8 product
Megatrends	Article 8 product
Global Impact Equities	Article 9 product

All disclosures below concern the relevant Sub-Fund's investments during the Fund's financial year ending on March 31, 2024, except if specified otherwise.

The disclosure of the top investments of the financial products as well as the information concerning the economic sectors in which the investments were made are based on the average of quarter-end holdings of the Sub-Funds as at June 30, 2023, September 30, 2023, December 31, 2023 and March 31, 2024.

In the context of principal adverse impacts indicators, references to "Table 1", "Table 2" and "Table 3" concern Table 1, 2 and 3 of Annex I of Commission Delegated Regulation (EU) 2022/1288.

Periodic disclosure for the financial products referred to in Article 9, paragraphs 1 to 4a, of Regulation (EU) 2019/2088 and Article 5, first paragraph, of Regulation (EU) 2020/852

Product name: Vontobel Fund II - mtX Emerging Markets Sustainability Champions (FS_00117)

Legal entity identifier: 222100QEOA31312U5U17

Sustainable investment objective

Did this financial product have a sustainable investment objective?

Yes

No

It made **sustainable investments with an environmental objective: 32.97%**

It **promoted Environmental/Social (E/S) characteristics** and while it did not have as its objective a sustainable investment, it had a proportion of ___% of sustainable investments

in economic activities that qualify as environmentally sustainable under the EU Taxonomy

with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy

in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

with a social objective

It made **sustainable investments with a social objective: 64.62%**

It promoted E/S characteristics, but **did not make any sustainable investments**

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

To what extent was the sustainable investment objective of this financial product met?

The sustainable investment objective of the Sub-Fund was met. The Sub-Fund contributed to both social and environmental United Nations Sustainable Development Goals (UN SDGs) by investing in emerging market securities that were identified as Sustainability Champions. The objective was met through the use of the Investment Manager's proprietary UN SDG evaluation framework, the proprietary ESG framework and through application of extensive exclusion criteria. Finally, the Investment Manager applied active stewardship to the Sub-Fund, engaging directly with 8 companies on sustainability factors. Additionally, the Investment Manager's stewardship partner engaged with 5

companies over the reference period. The Investment Manager voted at 645 company ballots, accounting for 100% of eligible ballots over the year.

The Sub-Fund has not designated a reference benchmark for the purpose of attaining the sustainable investment objective.

Sustainability indicators

measure how the environmental or social characteristics promoted by the financial product are attained.

● How did the sustainability indicators perform?

Sustainability Indicator	Value	Comment
Percentage of investments in securities of corporate issuers that have at least 50% of their revenues (save where alternatives are used) derived from economic activities that are aligned with one or more of the UN SDGs or in certain cases, operational factors or alternative proxies to revenue demonstrate that the economic activities are highly material to advancing the SDGs as evaluated using the UN SDG Alignment Framework (SAF), the Investment Manager's proprietary UN SDG evaluation framework.	100%	Excludes Alrosa*
Percentage of investments in companies that pass the minimum ESG score (as evaluated using the "Minimum Standards Framework", the Investment Manager's proprietary ESG evaluation framework; minimum is set at 2.4 out of 5) set for this Sub-Fund	100%	Excludes Alrosa*
Percentage of investments in securities of corporate issuers that derive a non-negligible part of their revenues from products and/or activities excluded by the Sub-Fund (excluded products and/or activities are indicated under the investment strategy section of the pre-contractual disclosure)	0%	
Percentage of investments in companies evaluated as having an overriding Fail Score under the "Minimum Standards Framework"	0%	Excludes Alrosa*
Percentage of investments in companies with an "F-Score" evaluated under the "F-Score" Framework, the Investment Manager's proprietary tool for evaluating severe controversies	0%	
Percentage of investments in companies that are in violation of certain global norms and standards promoted by the Sub-Fund or that are exposed to critical controversies (aka Critical ESG Events), (unless the Investment Manager believes reasonable progress can be attained, for example, through active ownership activities). Such controversies may be related to environmental, social or governance issues.	0%	
Percentage of investments in UN Sanctioned Countries	0%	
The Sub-Fund's carbon footprint relative to the benchmark (evaluated on the basis of each issuer's scope 1 and 2 GHG emissions normalized by the company's enterprise value including cash (EVIC) and multiplied by its weight in the portfolio). The sum of such weighted average carbon footprint is calculated and then compared to that of the benchmark	-86%	As at March 31, 2024, the scope 1+2 WACI of the Sub-Fund was 21.2 and that of the benchmark was 148. Therefore, the Sub-Fund's financed

Sustainability Indicator	Value	Comment
(MSCI Emerging Markets Total Returns Net (USD)).		carbon footprint was 87.2% below that of the benchmark.
Percentage of securities covered by ESG analysis	100%	

*The values included in this report included the investment in Alrosa, a Russian mining company whose shares are blocked from trading. Alrosa failed the Investment Manager's ESG assessment in 2022, however the stock is blocked from trading since the Russia/Ukraine war, therefore the Investment Manager still awaits an opportunity to exit the stock. Alrosa has no weight in the Sub-Fund and is to be seen as a legacy issue that does not qualify for investment in this Sub-Fund.

● **... and compared to previous periods ?**

Sustainability Indicator	year ending on March 31, 2023
Percentage of investments in securities of corporate issuers that have at least 50% of their revenues (save where alternatives are used) derived from economic activities that are aligned with one or more of the UN SDGs or in certain cases, operational factors or alternative proxies to revenue demonstrate that the economic activities are highly material to advancing the SDGs as evaluated using the UN SDG Alignment Framework (SAF), the Investment Manager's proprietary UN SDG evaluation framework.	100%
Percentage of investments in companies that pass the minimum ESG score (as evaluated using the "Minimum Standards Framework", the Investment Manager's proprietary ESG evaluation framework; minimum is set at 2.4 out of 5) set for this Sub-Fund	100%
Percentage of investments in securities of corporate issuers that derive a non-negligible part of their revenues from products and/or activities excluded by the Sub-Fund (excluded products and/or activities are indicated under the investment strategy section of the pre-contractual disclosure)	0%

Sustainability Indicator	year ending on March 31, 2023
Percentage of investments in companies evaluated as having an overriding Fail Score under the “Minimum Standards Framework”	0%
Percentage of investments in companies with an “F-Score” evaluated under the “F-Score” Framework, the Investment Manager’s proprietary tool for evaluating severe controversies	0%
Percentage of investments in companies that are in violation of certain global norms and standards promoted by the Sub-Fund or that are exposed to critical controversies (aka Critical ESG Events), (unless the Investment Manager believes reasonable progress can be attained, for example, through active ownership activities). Such controversies may be related to environmental, social or governance issues.	0%
Percentage of investments in UN Sanctioned Countries	0%
The Sub-Fund’s carbon footprint relative to the benchmark (evaluated on the basis of each issuer’s scope 1 and 2 GHG emissions normalized by the company’s enterprise value including cash (EVIC) and multiplied by its weight in the portfolio). The sum of such weighted average carbon footprint is calculated and then compared to that of the benchmark (MSCI Emerging Markets Total Returns Net (USD)).	-87%
Percentage of securities covered by ESG analysis	100%

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

● **How did the sustainable investments not cause significant harm to any sustainable investment objective?**

For the Sustainable Investments that the financial product made, the Investment Manager took into account the adverse impacts on sustainability factors by applying a two-step process. Step 1: Identification of potential or confirmed adverse impacts at issuer level, based on tailored thresholds on all principal adverse impact (“PAI”) areas covered by Table 1 and selected PAIs covered by Table 2 and 3. Step 2 (In case of potential adverse impact initially identified): Further analysis to assess whether appropriate mitigation measures have been implemented by the issuer (where appropriate - not applied in all cases). This process was based on in-house research; data sources include ESG data providers, news alerts, and the issuers themselves. Where no reliable third-party data was available, the Investment Manager made reasonable estimates or assumptions. If the Investment Manager concluded that the investment was linked to unmanaged and significant harm, then this investment was not considered as a Sustainable Investment.

During the reporting period, the Investment Manager identified two companies with potential adverse impacts (high GHG emissions) under step one. For one, the detailed step two assessment cleared the issuer as sufficiently managing the flagged issue while the other one was sold on financial grounds.

- *How were the indicators for adverse impacts on sustainability factors taken into account?*

In order to ensure that the Sustainable Investments of the Sub-Fund did not cause significant harm to any environmental or social investment objective, the Sub-Fund took into account all the mandatory principal adverse impacts indicators and ensured that the Sub-Fund’s investments were aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights as further outlined below.

- *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:*

The Sub-Fund has a controversy monitoring process in place, that among others took into account the alignment with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights. This process was based on third party data and could be complemented by the Investment Manager’s own ESG research capabilities. The Sub-Fund excluded issuers that were (i) in violation of the norms and standards promoted by the Sub-Fund ; (ii) involved in severe controversies. Unless, in either case, the Investment Manager identified a positive outlook i.e., through proactive response by the issuer, proportionate rectification measures already announced or taken, or through active ownership activities with reasonable promise of successful outcomes.

How did this financial product consider principal adverse impacts on sustainability factors?

During the reference period, the Investment Manager took into account all the mandatory principal adverse impacts indicators and certain relevant additional indicators. In order to consider these principal adverse impacts, the Investment Manager analyzed to what extent the issuers were exposed to principal adverse

impacts on sustainability factors based on in-house research; data sources included ESG data providers, news alerts, and information from the issuers themselves, as well as reasonable estimates or assumptions. Where an issuer was identified by the Investment Manager as having a critical and poorly managed impact in one of the considered principal adverse impacts areas, and where no convincing sign of remedial action nor improvement were observed, the Investment Manager either excluded the issuer in question or decided to use active ownership.

The Investment Manager's screening identified that out of the 44 company holdings in the Sub-Fund as at March 31, 2024, 9 companies had 1 or more principal adverse impacts flagged but none were identified as a fail under the Investment Manager's Do No Significant Harm screening and evaluation framework. Of these flagged companies, 7 were identified under mandatory PAIs and 5 companies were covered by the Investment Manager's engagement plan. In 3 cases the flagged issue concerned board gender diversity, which triggered the initiation of engagement and/or voting activities. In 2 cases, deeper ESG research revealed that the flag was not warranted or that the company's policies and processes for managing the risk were robust. Therefore, the issues were covered by ESG Integration under research and monitoring.

As noted above, Alrosa's Do No Significant Harm flags could not be acted upon.

What were the top investments of this financial product?

The list includes the investments constituting **the greatest proportion of investments** of the financial product during the reference period which is: March 31, 2023 to April 1, 2024

Largest investments	Sector	% Assets	Country
Samsung Electronics	Electronics & semiconductors	6.37	Korea, Republic Of
Taiwan Semiconductor Manufacturing	Electronics & semiconductors	4.95	Taiwan
Taiwan Semiconductor Manufacturing ADR	Electronics & semiconductors	4.34	Taiwan
Alibaba Group Holding	Internet, software & IT services	3.49	Cayman Islands
Grupo Financiero Banorte	Banks & other credit institutions	3.11	Mexico
State Bank Of India	Banks & other credit institutions	3.03	India
BYD 'H'	Electronics & semiconductors	2.93	China
HDFC Bank	Banks & other credit institutions	2.82	India
Telkom Indonesia	Telecommunication	2.72	Indonesia
PT Bank Mandiri Persero TBK	Banks & other credit institutions	2.72	Indonesia
Media Tek	Electrical appliances & components	2.70	Taiwan

Largest investments	Sector	% Assets	Country
Raia Drogasil	Pharmaceuticals, cosmetics & med. products	2.70	Brazil
NARI Technology 'A'	Mechanical engineering & industrial equip.	2.49	China
Elite Material Co.	Electrical appliances & components	2.27	Taiwan
Accton Technology	Computer hardware & networking	2.24	Taiwan

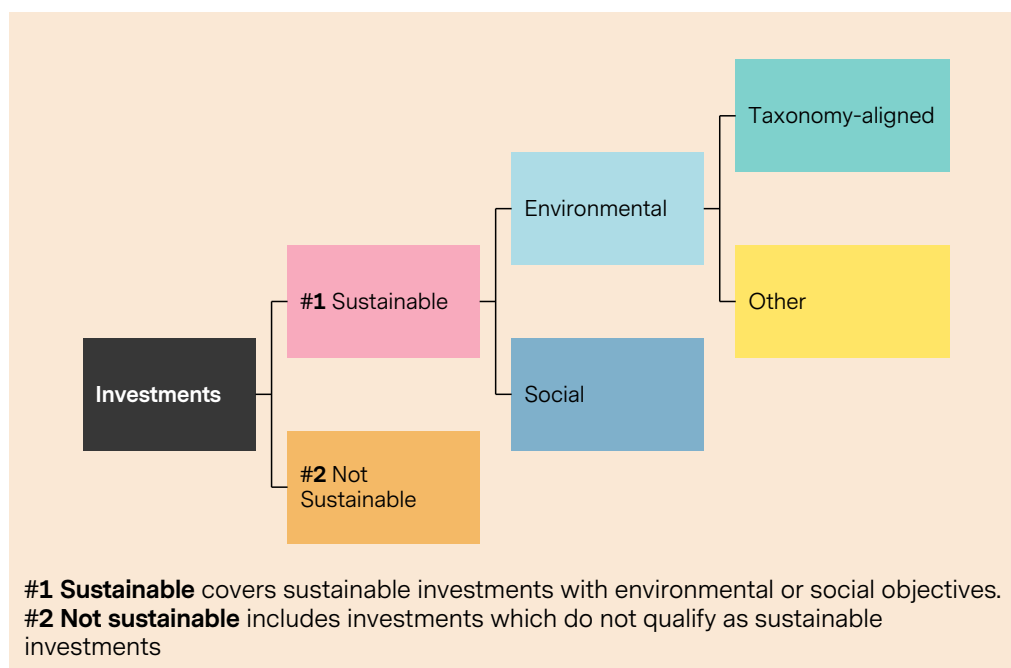

What was the proportion of sustainability-related investments?

The proportion of the investments that contributed to the sustainable investment objective was 97.59%

● What was the asset allocation?

Asset allocation describes the share of investments in specific assets.

97.59% of investments were sustainable investments (#1 Sustainable)

#1A Sustainable - Other environmental (32.97%); #1A Sustainable - Social (64.62%); #2 Not Sustainable - Other (2.41%).

● ***In which economic sectors were the investments made?***

Economic sector	
Electronics & semiconductors	26.11
Banks & other credit institutions	19.70
Electrical appliances & components	8.90
Insurance companies	6.76
Internet, software & IT services	6.01
Telecommunication	4.30
Mechanical engineering & industrial equip.	3.99
Pharmaceuticals, cosmetics & med. products	3.96
Miscellaneous consumer goods	2.42
Computer hardware & networking	2.24
Vehicles	2.00
Textiles, garments & leather goods	1.97
Miscellaneous services	1.75
Chemicals	1.65
Building materials & building industry	1.48
Non-ferrous metals	1.37
Miscellaneous trading companies	0.32

0% of the total value of investments (NAV) were in companies involved in sectors that could be associated to fossil fuels ('Energy & water supply', 'Mining, coal & steel', 'Petroleum/Oil and natural gas'). It is important to note that even companies categorized under different sectors might still have some involvement with fossil fuel-related activities, even if it is not their main focus.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

None of the sustainable investments with an environmental objective were aligned with the EU Taxonomy.

Did the financial product invest in fossil gas and/or nuclear energy related activities that comply with the EU Taxonomy¹?

- Yes:
- In fossil gas In nuclear energy
- No

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change (“climate change mitigation”) and do not significantly harm any EU Taxonomy objectives -see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflects the “greenness” of investee companies today.
- **capital expenditure** (CapEx) shows the green investments made by investee companies, relevant for a transition to a green economy.
- **operational expenditure** (OpEx) reflects the green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

● **What was the share of investments made in transitional and enabling activities?**

Activities	Investment share
transitional	0.00%
enabling	0.00%

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

Period	Investment share
year ending on March 31, 2023	0.00%

 are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

32.97% of NAV was invested in companies meeting the Investment Manager's evaluation of sustainable environmental objective. The approach used was the Investment Manager's SDG Assessment Framework and identifying the weights of holdings aligned to SDGs that UNEP identifies as having an environmental objective. Where companies were aligned to both social and environmental SDGs then their portfolio weight was split 50/50 to E and S objectives. The EU Taxonomy was not the selected methodology as the fund has an SDG alignment approach and because the fund invests only in emerging markets where EU Taxonomy reporting is negligible.

Investment share
32.97%

What was the share of socially sustainable investments?

Investment share
64.62%

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

Investments	Purpose	Minimum of environmental or social safeguards
Cash (2.41%)	Liquidity	No minimum environmental or social safeguards were applied

Investments	Purpose	Minimum of environmental or social safeguards
Investments in securities of corporate issuers that do not comply with the binding elements used to attain the sustainable investment objective (Alrosa; 0.00%)	Shares are blocked from trading and could not be sold during the reference period. Considering the company's valuation, the position accounts for 0.00% of the net assets.	No minimum environmental or social safeguards were applied

What actions have been taken to meet the sustainable investment objective during the reference period?

The binding elements of the investment strategy used for the selection of the investments to attain the environmental and/or social characteristics promoted by this financial product have been monitored throughout the reporting period. In addition, the Investment Manager applied active stewardship to the Sub-Fund, engaging directly with 8 companies on sustainability factors, additionally our stewardship partner engaged with 5 companies over the reference period. The Investment Manager voted at 645 company ballots, accounting for 100% of eligible ballots over the year.

How did this financial product perform compared to the reference benchmark?

The financial product has not designated a reference benchmark to determine whether this financial product is aligned with its sustainable investment objective.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

Periodic disclosure for the financial products referred to in Article 9, paragraphs 1 to 4a, of Regulation (EU) 2019/2088 and Article 5, first paragraph, of Regulation (EU) 2020/852

Product name: Vontobel Fund II - Global Impact Equities (FW_00724)

Legal entity identifier: 222100HNLRZ8OJNZI841

Sustainable investment objective

Did this financial product have a sustainable investment objective?

Yes

No

It made **sustainable investments with an environmental objective: 57.00%**

in economic activities that qualify as environmentally sustainable under the EU Taxonomy

in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

It made **sustainable investments with a social objective: 40.00%**

It **promoted Environmental/Social (E/S) characteristics** and while it did not have as its objective a sustainable investment, it had a proportion of ___% of sustainable investments

with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy

with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

with a social objective

It promoted E/S characteristics, but **did not make any sustainable investments**

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

To what extent was the sustainable investment objective of this financial product met?

The sustainable investment objectives of the Sub-Fund were met at all time. All holdings contributed to one of the pre-defined so-called “Impact Pillars” through their products and services, with more than the pre-determined revenue threshold of 20% and the minimum Impact Strategy score using a proprietary methodology. These sustainable investment objectives remained the same (eight Impact Pillars): clean water, clean energy, sustainable cities, innovative industries & technology, good health & well-being, sustainable food & agriculture, responsible consumption and equal opportunities. The invested companies provided products and services along the whole value chain, which tackle today’s pressing environmental and social problems.

The Sub-Fund partially invested in companies that contribute, amongst others, to the EU Taxonomy aligned objectives, climate change adaptation and climate change mitigation.

There were no sustainability-related changes made to the Sub-Fund, which had impacted any sustainability disclosures.

The Sub-Fund has not designated a reference benchmark for the purpose of attaining the sustainable investment objective.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

● **How did the sustainability indicators perform?**

Sustainability Indicator	Value	Comment
Percentage of investments in securities of corporate issuers that derive more than 20% of their revenues from economic activities that contribute to at least one of the Impact Pillars (based on a proprietary methodology)	100%	
Percentage of investments in securities of corporate issuers that pass the minimum Impact Strategy score (based on a proprietary methodology)	100%	The eight criteria for the Investment Manager's impact strategy assessment are described in the pre-contractual disclosure annex for the Sub-Fund.
Percentage of investments in securities of corporate issuers that derive a non-negligible part of their revenues from products and/or activities excluded by the Sub-Fund	0%	excluded products and/or activities are indicated under the investment strategy section of the pre-contractual disclosure
Percentage of investments in securities of corporate issuers that pass the minimum MSCI ESG rating that has been set for this Sub-Fund (ESG score of B)	100%	
Percentage of investments in securities of issuers that are in violation of certain global norms and standards promoted by the Sub-Fund or that are exposed to critical controversies (unless the Investment Manager believes reasonable progress can be attained, for example, through active ownership activities). Such controversies may be related to environmental, social or governance issues	0%	
Percentage of securities covered by ESG analysis	100%	

● **... and compared to previous periods ?**

Sustainability Indicator	year ending on March 31, 2023
Percentage of investments in securities of corporate issuers that derive more than 20% of their revenues from economic activities that contribute to at least one of the Impact Pillars (based on a proprietary methodology)	100%
Percentage of investments in securities of corporate issuers that pass the minimum Impact Strategy score (based on a proprietary methodology)	100%
Percentage of investments in securities of corporate issuers that derive a non-negligible part of their revenues from products and/or activities excluded by the Sub-Fund	0%
Percentage of investments in securities of corporate issuers that pass the minimum MSCI ESG rating that has been set for this Sub-Fund (ESG score of B)	100%
Percentage of investments in securities of issuers that are in violation of certain global norms and standards promoted by the Sub-Fund or that are exposed to critical controversies (unless the Investment Manager believes reasonable progress can be attained, for example, through active ownership activities). Such controversies may be related to environmental, social or governance issues	0%
Percentage of securities covered by ESG analysis	100%

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

● **How did the sustainable investments not cause significant harm to any sustainable investment objective?**

For the Sustainable Investments that the Sub-Fund made, the Investment Manager took into account the adverse impacts on sustainability factors by applying a two-step process. Step 1: Identification of potential or confirmed adverse impacts at issuer level, based on tailored thresholds on all principal adverse impact (“PAI”) areas covered by Table 1 and selected PAIs covered by Table 2 and 3. Step 2 (In case of potential adverse impact initially identified): Further analysis to assess whether appropriate mitigation measures have been implemented by the issuer (where appropriate - not applied in all cases). This process was based on in-house research; data sources include ESG data providers, news alerts, and the issuers themselves. Where no reliable third-party data was available, the Investment Manager

made reasonable estimates or assumptions. If the Investment Manager concluded that the investment was linked to unmanaged and significant harm, then this investment was not considered as a Sustainable Investment.

During the reporting period, the Investment Manager did not identify any companies with potential adverse impacts under step 1.

- *How were the indicators for adverse impacts on sustainability factors taken into account?*

For the sustainable investments that the financial product made, the Investment Manager took into account the adverse impacts on sustainability factors by applying the following process: The Investment Manager applied a process to identify the investments' exposure to principal adverse impacts on sustainability factors based on in-house research; data sources include ESG data providers, news alerts, and the issuers themselves. Where no reliable third-party data was available, the Investment Manager made reasonable estimates or assumptions. No investment was identified as having a critical and poorly managed impact in one of the considered principal adverse impacts areas.

- *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:*

The financial product has a controversy monitoring process in place, that among others takes into account the alignment with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights. This process is based on third party data and may be complemented by the Investment Manager's own ESG research capabilities. The financial product excludes issuers that are (i) in violation of the norms and standards (defined under the investment strategy section) promoted by the Sub-Fund; (ii) involved in severe controversies. Unless, in either case, the Investment Manager has identified a positive outlook (i.e., through proactive response by the issuer, proportionate rectification measures already announced or taken, or through active ownership activities with reasonable promise of successful outcomes).

How did this financial product consider principal adverse impacts on sustainability factors?

The Investment Manager took into account all the mandatory adverse impact indicators and any relevant additional adverse impact indicators. The Sub-Fund identified issuers that are exposed to principal adverse impacts on sustainability factors based on in-house research; data sources included ESG data providers, news alerts, and the issuers themselves. The Investment Manager did not encounter any critical and poorly managed impact in one of the considered principal adverse impacts areas for any of the Sub-Fund's holdings. The Investment Manager considered all mandatory Principal Adverse Sustainability Impacts Indicators and any relevant additional adverse impact indicators.

Table	#	Principal Adverse Impact Indicator
1	1	Greenhouse gas (GHG) emissions
1	2	Carbon footprint
1	3	GHG intensity of investee companies
1	4	Exposure to companies active in the fossil fuel sector
1	5	Share of non-renewable energy consumption and production
1	6	Energy consumption intensity per high impact climate sector

1	7	Activities negatively affecting biodiversity-sensitive areas
1	8	Emissions to water
1	9	Hazardous waste ratio
1	10	Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises
1	11	Lack of processes and compliance mechanisms to monitor UN Global Compact Principles and OECD Guidelines for Multinational Enterprises
1	12	Unadjusted gender pay gap between female and male employees
1	13	Board gender diversity
1	14	Exposure to controversial weapons
2	4	Investments in companies without carbon emission reduction initiatives
2	5	Breakdown of energy consumption by type of non-renewable sources of energy
2	6	Water usage and recycling
2	7	Investments in companies without water management policies
2	8	Exposure to areas of high water stress
3	9	Lack of a human rights policy
3	14	Number of identified cases of severe human rights issues and incidents
3	17	Number of convictions and amount of fines for violation of anti-corruption and anti-bribery laws

What were the top investments of this financial product?

The list includes the investments constituting **the greatest proportion of investments** of the financial product during the reference period which is: April 1, 2023 to March 31, 2024

Largest investments	Sector	% Assets	Country
UnitedHealth Group	Healthcare & social services	2.86	United States
Applied Materials	Electronics & semiconductors	2.58	United States

Retail trade & department stores	0.29
Agriculture & fishery	0.24
Miscellaneous consumer goods	0.08
Textiles, garments & leather goods	0.05

11.23% of the total value of investments (NAV) were in companies involved in sectors that could be associated to fossil fuels ('Energy & water supply', 'Mining, coal & steel', 'Petroleum/Oil and natural gas'). It is important to note that even companies categorized under different sectors might still have some involvement with fossil fuel-related activities, even if it is not their main focus

.....

.....

.....

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

8.3% of the sustainable investments with an environmental objective were aligned with the EU Taxonomy.

Did the financial product invest in fossil gas and/or nuclear energy related activities that comply with the EU Taxonomy¹?

- Yes:
- In fossil gas In nuclear energy
- No

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change (“climate change mitigation”) and do not significantly harm any EU Taxonomy objectives -see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflects the “greenness” of investee companies today.
- **capital expenditure** (CapEx) shows the green investments made by investee companies, relevant for a transition to a green economy.
- **operational expenditure** (OpEx) reflects the green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

● **What was the share of investments made in transitional and enabling activities?**

Activities	Investment share
transitional	0.00%
enabling	1.70%

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

Period	Investment share
year ending on March 31, 2023	6.00%

 are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

In the reported period, the Investment Manager also invested in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy as the Investment Manager's sustainable investment objectives have a broader focus which are not yet covered under the EU Taxonomy.

Investment share
48.70%

What was the share of socially sustainable investments?

Investment share
40.00%

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

Investments	Purpose	Minimum of environmental or social safeguards
Cash (3% of NAV)	Liquidity management	No minimum environmental or social safeguard were applied

What actions have been taken to meet the sustainable investment objective during the reference period?

The binding elements of the investment strategy that were used for the selection

of sustainable investments have been monitored throughout the reporting period. Especially the impact pillar contribution of all portfolio holdings was assessed. In addition, exclusion criteria, controversies levels and minimum ESG Ratings were screened. The Sub-Fund followed an active ownership approach, which took into account relevant environmental, social and governance matters. These activities supported the attainment of the environmental and social objectives promoted by the Sub-Fund. In view of the Investment Manager's active ownership approach a strong emphasis was put on direct engagement with the Investment Manager's holding companies, particularly on social and environmental issues and resulting opportunities. The Investment Manager also participated in direct and collaborative engagement and exercised voting rights as an integral part of its investment process.

How did this financial product perform compared to the reference benchmark?

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

The financial product has not designated a reference benchmark to determine whether this financial product is aligned with its sustainable investment objective.

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: Vontobel Fund II - Active Beta (FM_00129)

Legal entity identifier: 2221005PIXP5MRX7VZ80

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

Yes

No

It made **sustainable investments with an environmental objective:** ___%

in economic activities that qualify as environmentally sustainable under the EU Taxonomy

in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

It made **sustainable investments with a social objective:** ___%

It **promoted Environmental/Social (E/S) characteristics** and while it did not have as its objective a sustainable investment, it had a proportion of 15.70% of sustainable investments

with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy

with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

with a social objective

It promoted E/S characteristics, but **did not make any sustainable investments**

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The environmental and social characteristics promoted by the Sub-Fund were met. It adhered to the positive and negative screening criteria set in the pre-contractual disclosure. In addition, the Sub-Fund held 15.7% of sustainable investments by investing in certified green bonds at the end of the reporting period. The Sub-Fund's ESG approach was amended during the reporting period by changing the business activity screening and changing to a proprietary rating approach factoring in financial materiality and climate concerns.

The Sub-Fund has not designated a reference benchmark for the purpose of attaining the environmental and social characteristics that it promotes.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

● **How did the sustainability indicators perform?**

Sustainability Indicator	Value	Comment
Percentage of investments in securities of corporate issuers that derive a non-negligible part of their revenues from products and/or activities excluded by the Sub-Fund	0%	
Percentage of investments in securities of sovereign issuers, that are considered “non-democratic”	0%	
Percentage of investments in securities of sovereign issuers that are not a party to conventions on chemical and biological weapons.	0%	
Percentage of investments in securities of issuers that pass the minimum ESG Rating that has been set for this Sub-Fund	100%	
Percentage of investments in securities of issuers that pass the minimum Climate score that has been set for this Sub-Fund	78.7%	
Percentage of investments in securities of issuers that are in violation of global norms and standards promoted by the Sub-Fund or that are exposed to critical controversies	0%	
Percentage of investments in green, social or sustainability bonds in the securities portfolio or in investment funds that invest mainly in such bonds	15.7%	

● **... and compared to previous periods ?**

Sustainability Indicator	year ending on March 31, 2023
Percentage of investments in securities of corporate issuers that derive a non-negligible part of their revenues from products and/or activities excluded by the Sub-Fund	0%
Percentage of investments in securities of sovereign issuers, that are considered “non-democratic”	0%
Percentage of investments in securities of sovereign issuers that are not a party to conventions on chemical and biological weapons.	0%
Percentage of investments in securities of issuers that pass the minimum ESG Rating that has been set for this Sub-Fund	100%

Sustainability Indicator	year ending on March 31, 2023
Percentage of investments in securities of issuers that pass the minimum Climate score that has been set for this Sub-Fund	N/A
Percentage of investments in securities of issuers that are in violation of global norms and standards promoted by the Sub-Fund or that are exposed to critical controversies	0%
Percentage of investments in green, social or sustainability bonds in the securities portfolio or in investment funds that invest mainly in such bonds	7.7%

Please note that the above indicators do not reflect the ones valid at the end of previous reporting periods. The approach regarding the Sub-Fund has been updated by increasing the sustainable investment target from 5% to 15%, which explains the lower green bond quota in the previous reporting period. In the prospectus coming into effect in January 2024, the rating in use was changed to the investment manager's proprietary scores focusing on financial materiality for the rating and on climate for the newly introduced climate scores.

● ***What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?***

The Sub-Fund invested 15.7% in green bonds. These investments were considered sustainable. The green bonds' objective is to enable capital-raising and investment for new and existing sound and sustainable projects with environmental benefits, that foster a net-zero emissions economy and protect the environment (example: renewable energy, pollution prevention and control, environmentally sustainable management of living natural resources and land use)"

● ***How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?***

In order to ensure that the Sustainable Investments of the Sub-Fund do not cause significant harm to any environmental or social investment objective, the Sub-Fund takes into account all the mandatory principal adverse impacts indicators and ensures that the Sub-Fund's investments are aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights as further outlined below.

- *How were the indicators for adverse impacts on sustainability factors taken into account?*

For the sustainable investments that the Sub-Fund partially made, the Investment Manager took into account the adverse impacts on sustainability factors by applying the following process: The Investment Manager applied a process to identify the investments' exposure to

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

principal adverse impacts on sustainability factors based on in-house research; data sources include ESG data providers, news alerts, and the issuers themselves. Where no reliable third-party data was available, the Investment Manager made reasonable estimates or assumptions. No investment was identified as having a critical and poorly managed impact

- *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:*

The Sub-Fund has a controversy monitoring process in place, that among others takes into account the alignment with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights. This process is based on third party data and may be complemented by the Investment Manager's own ESG research capabilities. The Sub-Fund excludes issuers that are (i) in violation of the norms and standards (defined under the investment strategy section of the pre-contractual disclosure) promoted by the Sub-Fund ; (ii) involved in severe controversies. Unless, in either case, the Investment Manager has identified a positive outlook (i.e., through proactive response by the issuer, proportionate rectification measures already announced or taken, or through active ownership activities with reasonable promise of successful outcomes)

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the Union criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the Union criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

The Investment Manager considered a set of principal adverse impacts on sustainability factors in the following areas:

For corporates: greenhouse gas emissions (Table 1 - PAI indicator 3 GHG intensity 1, 2), controversial weapons (Table 1 - PAI 14 exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons)), social matters and human rights (Table 1 - PAI indicator 10 share of companies involved in violation of UN Global Compact Principles and OECD Guidelines For Multinational Enterprises);

For sovereigns and supranationals: environmental aspects (Table 1 - PAI indicator 15 GHG intensity) and social matters (Table 1 - PAI 16 investee countries subject to social violations).

The Investment Manager followed a process to identify issuers that are exposed to principal adverse impacts on sustainability factors based on in-house research

and/or external data sources including ESG data providers, news alerts, and the issuers themselves.

No investment in the portfolio was identified as having a critical and poorly managed impact in one of the considered principal adverse impacts areas.

What were the top investments of this financial product?

The list includes the investments constituting **the greatest proportion of investments** of the financial product during the reference period which is: April 1, 2023, to March 31, 2024

Largest investments	Sector	% Assets	Country
Land Niedersachsen	Cantons, federal states, counties, provinces etc.	4.75	Germany
Land Berlin	Cantons, federal states, counties, provinces etc.	3.80	Germany
Land Hessen	Cantons, federal states, counties, provinces etc.	3.77	Germany
Land Rheinland-Pfalz	Cantons, federal states, counties, provinces etc.	3.38	Germany
Berlin Hyp AG	Banks & other credit institutions	3.11	Germany
Nordrhein-Westfalen Land	Cantons, federal states, counties, provinces etc.	2.84	Germany
Land Rheinland-Pfalz	Cantons, federal states, counties, provinces etc.	2.57	Germany
Investitionsbank Schleswig-Holstein	Banks & other credit institutions	2.52	Germany
Hansestadt Bremen Landschatz	Cantons, federal states, counties, provinces etc.	2.49	Germany
European Investment Bank	Supranational organisations	2.47	Luxembourg
Land Hamburg	Cantons, federal states, counties, provinces etc.	2.37	Germany
NRW Bank	Banks & other credit institutions	2.34	Germany
LFA Foerderbank Bayern	Banks & other credit institutions	2.33	Germany
DZ Hyp	Mortgage & funding institutions	2.30	Germany
Land Niedersachsen	Cantons, federal states, counties, provinces etc.	2.13	Germany

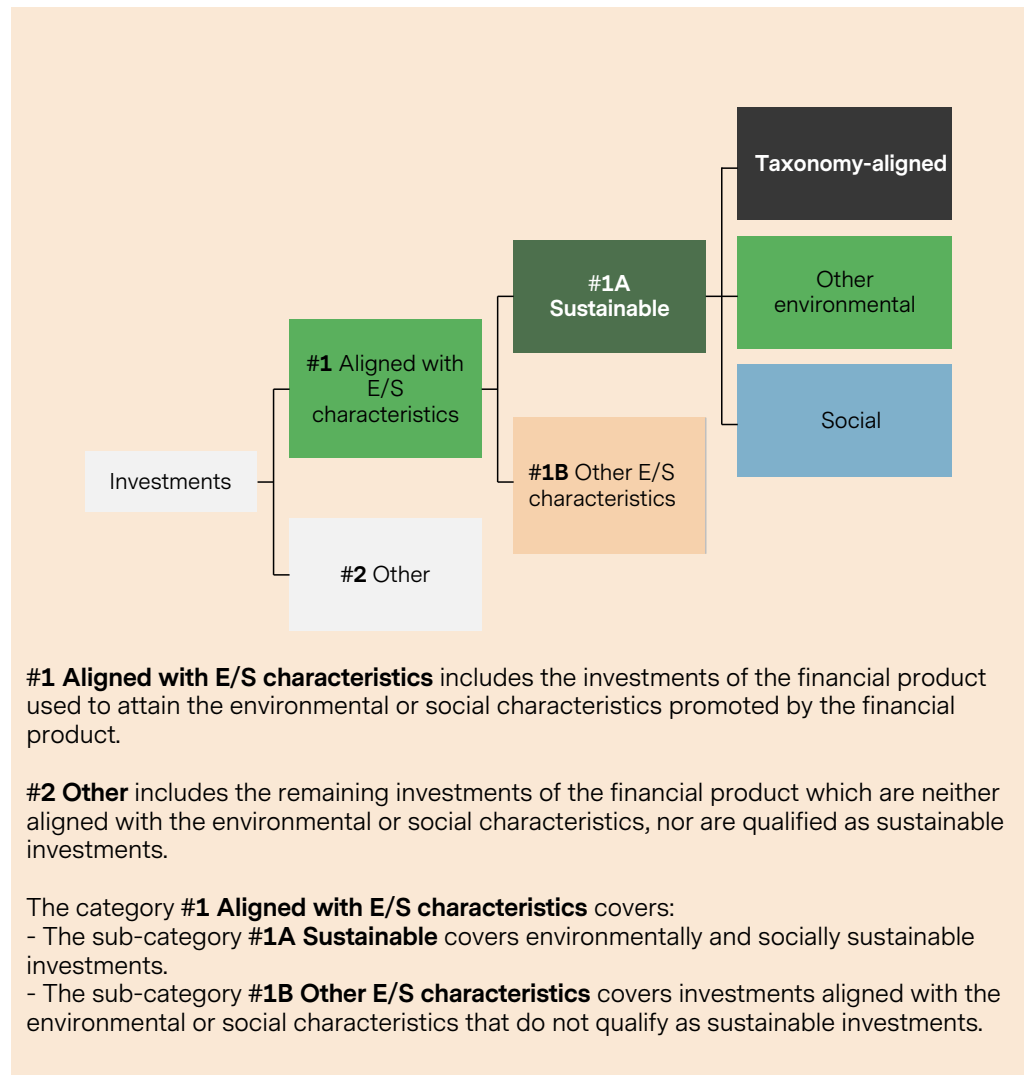

What was the proportion of sustainability-related investments?

The proportion of sustainability-related investments was 74.1% (assets aligned with environmental and social characteristics).

● What was the asset allocation?

Asset allocation describes the share of investments in specific assets.

74.10% of the investments of the financial product were used to attain the environmental and social characteristics (#1 Aligned with E/S characteristics)

15.70% of investments were sustainable investments (#1A Sustainable). These sustainable investments were included under assets aligned with E/S characteristics (#1 Aligned with E/S characteristics)

#1A Sustainable - Other environmental (15.7%); #2 Other (25.9%)

● **In which economic sectors were the investments made?**

Economic sector	
Cantons, federal states, counties, provinces etc.	51.55
Banks & other credit institutions	31.01
Supranational organisations	5.74
Mortgage & funding institutions	3.82

0% of the total value of investments (NAV) were in companies involved in sectors that could be associated to fossil fuels ('Energy & water supply', 'Mining, coal & steel', 'Petroleum/Oil and natural gas'). It is important to note that even companies categorized under different sectors might still have some involvement with fossil fuel-related activities, even if it is not their main focus. The Sub-Fund might invest in bonds labelled as green, social or sustainability bonds. These bonds typically fund projects that are not related to fossil fuels, even if the companies issuing them may be active in sectors that could be associated to fossil fuels.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

None of the sustainable investments with an environmental objective were aligned with the EU Taxonomy.

Did the financial product invest in fossil gas and/or nuclear energy related activities that comply with the EU Taxonomy¹?

- Yes:
- In fossil gas In nuclear energy
- No

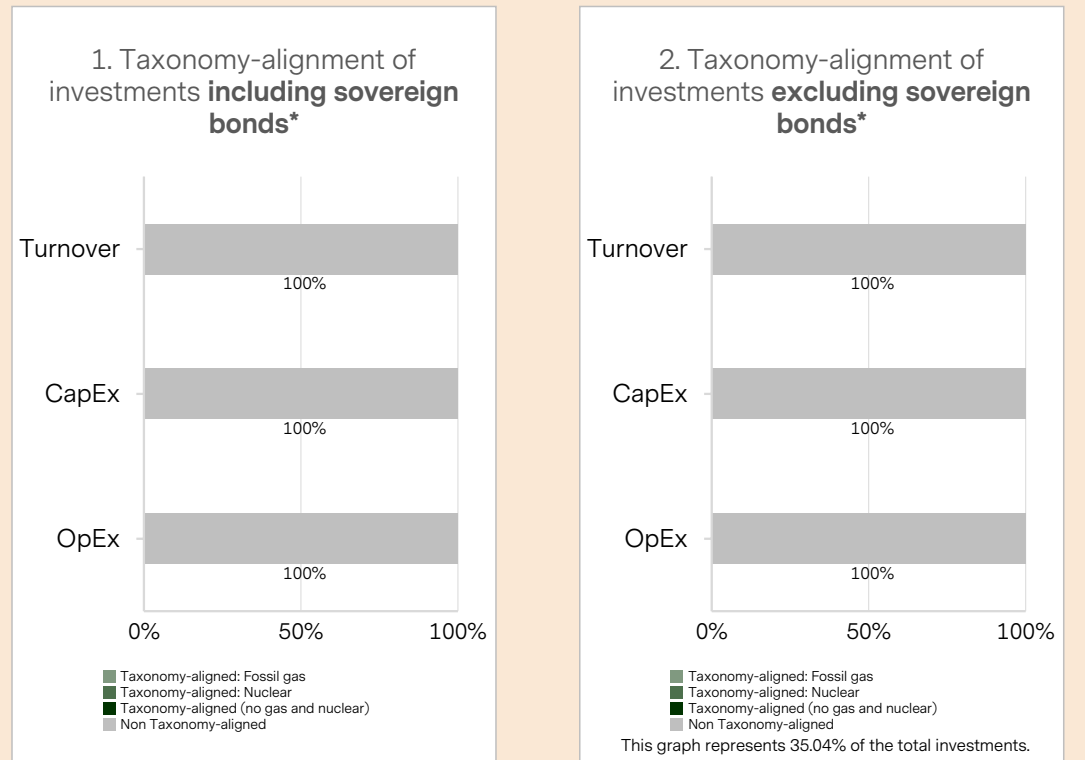

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change (“climate change mitigation”) and do not significantly harm any EU Taxonomy objectives -see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflects the “greenness” of investee companies today.
- **capital expenditure** (CapEx) shows the green investments made by investee companies, relevant for a transition to a green economy.
- **operational expenditure** (OpEx) reflects the green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

● **What was the share of investments made in transitional and enabling activities?**

Activities	Investment share
transitional	0.00%
enabling	0.00%

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

Period	Investment share
year ending on March 31, 2023	0.00%

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

The positive contribution of the sustainable investments were not (fully) aligned with the criteria for environmentally sustainable economic activities under the EU Taxonomy and the Investment Manager did not have sufficient equivalent information to conclude its assessment.

Investment share
15.70%

What was the share of socially sustainable investments?

Investment share
0.00%

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

Investments	Purpose	Minimum of environmental or social safeguards
Cash and futures (5.8%)	Liquidity management and strategy implementation	None
Bonds with missing climate scores (20.1%)	Investments	Controversy process, sufficient rating not part of excluded activity

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The binding elements of the investment strategy used for the selection of the investments to attain the environmental and/or social characteristics promoted by this Sub-Fund have been monitored throughout the reporting period. The Sub-Fund’s securities were subject to pooled engagement activities undertaken by a third-party engagement service provider. The screening approach used within the Sub-Fund has been changed to focus more on financial materiality and to include climate considerations.

How did this financial product perform compared to the reference benchmark?

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

The financial product has not designated a reference benchmark to determine whether this financial product is aligned with the environmental and/or social characteristics that it promotes.

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: Vontobel Fund II - Active Beta Opportunities (FM_00130)

Legal entity identifier: 222100KNV8LZRXL0538

Environmental and/or social characteristics

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Did this financial product have a sustainable investment objective?

Yes

No

It made **sustainable investments with an environmental objective:** ___%

It **promoted Environmental/Social (E/S) characteristics** and while it did not have as its objective a sustainable investment, it had a proportion of 16.80% of sustainable investments

in economic activities that qualify as environmentally sustainable under the EU Taxonomy

with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy

in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

with a social objective

It made **sustainable investments with a social objective:** ___%

It promoted E/S characteristics, but **did not make any sustainable investments**

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The environmental and social characteristics promoted by the Sub-Fund were met. It adhered to the positive and negative screening criteria set in the pre-contractual disclosure. In addition, the Sub-Fund held 16.8% of sustainable investments by investing in certified green bonds at the end of the reporting period. The Sub-Fund's ESG approach was amended during the reporting period by changing the business activity screening and changing to a proprietary rating approach factoring in financial materiality and climate concerns. The Sub-Fund has not designated a reference benchmark for the purpose of attaining the environmental and social characteristics that it promotes.

Sustainability indicators

measure how the environmental or social characteristics promoted by the financial product are attained.

● **How did the sustainability indicators perform?**

Sustainability Indicator	Value	Comment
Percentage of investments in securities of corporate issuers that derive a non-negligible part of their revenues from products and/or activities excluded by the Sub-Fund.	0%	
Percentage of investments in securities of sovereign issuers, that are considered “non-democratic”, based on a third-party research provider.	0%	
Percentage of investments in securities of sovereign issuers that are not a party to conventions on chemical and biological weapons.	0%	
Percentage of investments in securities of issuers that pass the minimum ESG Rating that has been set for this Sub-Fund (based on a proprietary methodology, minimum is set at E from A-G, G being the lowest). If the issuer cannot be rated by proprietary methodology a minimum MSCI ESG rating of BB is taken.	99.5%	
Percentage of investments in securities of issuers that pass the minimum Climate score that has been set for this Sub-Fund (based on a proprietary methodology, minimum is set at 10 from 0-100, 0 being the lowest).	80.7%	
Percentage of investments in securities of issuers that are in violation of certain global norms and standards promoted by the Sub-Fund or that are exposed to critical controversies (unless the Investment Manager believes reasonable progress can be attained, for example, through active ownership activities). Such controversies may be related to environmental, social or governance issues.	0%	
Percentage of investments in green, social or sustainability bonds in the securities portfolio or in investment funds that invest mainly in such bonds.	16.8%	

● **... and compared to previous periods ?**

Sustainability Indicator	year ending on March 31, 2023
Percentage of investments in securities of corporate issuers that derive a non-negligible part of their revenues from products and/or activities excluded by the Sub-Fund.	0%

Sustainability Indicator	year ending on March 31, 2023
Percentage of investments in securities of sovereign issuers, that are considered “non-democratic”, based on a third-party research provider.	0%
Percentage of investments in securities of sovereign issuers that are not a party to conventions on chemical and biological weapons.	0%
Percentage of investments in securities of issuers that pass the minimum ESG Rating that has been set for this Sub-Fund (based on a proprietary methodology, minimum is set at E from A-G, G being the lowest). If the issuer cannot be rated by proprietary methodology a minimum MSCI ESG rating of BB is taken.	100%
Percentage of investments in securities of issuers that pass the minimum Climate score that has been set for this Sub-Fund (based on a proprietary methodology, minimum is set at 10 from 0-100, 0 being the lowest).	NA
Percentage of investments in securities of issuers that are in violation of certain global norms and standards promoted by the Sub-Fund or that are exposed to critical controversies (unless the Investment Manager believes reasonable progress can be attained, for example, through active ownership activities). Such controversies may be related to environmental, social or governance issues.	0%
Percentage of investments in green, social or sustainability bonds in the securities portfolio or in investment funds that invest mainly in such bonds.	9.2%

Please note that the above indicators do not reflect the ones valid at the end of previous reporting periods. The approach regarding the Sub-Fund has been updated by increasing the sustainable investment target from 5% to 15%, which explains the lower green bond quota in the previous reporting period. In the prospectus coming into effect in January 2024, the rating in use was changed to the Investment Manager's proprietary scores focusing on financial materiality for the rating and on climate for the newly introduced climate scores.

● **What were the objectives of the sustainable investments that the financial**

product partially made and how did the sustainable investment contribute to such objectives?

The Sub-Fund invested 16.8% in green bonds. These investments were considered sustainable. The green bonds' objective is to enable capital-raising and investment for new and existing sound and sustainable projects with environmental benefits that foster a net-zero emissions economy and protect the environment (example: renewable energy, pollution prevention and control, environmentally sustainable management of living natural resources and land use).

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

In order to ensure that the Sustainable Investments of the Sub-Fund do not cause significant harm to any environmental or social investment objective, the Sub-Fund takes into account all the mandatory principal adverse impacts indicators and ensures that the Sub-Fund's investments are aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights as further outlined below.

- *How were the indicators for adverse impacts on sustainability factors taken into account?*

For the sustainable investments that the Sub-Fund partially made, the Investment Manager took into account the adverse impacts on sustainability factors by applying the following process: The Investment Manager applied a process to identify the investments' exposure to principal adverse impacts on sustainability factors based on in-house research; data sources include ESG data providers, news alerts, and the issuers themselves. Where no reliable third-party data was available, the Investment Manager made reasonable estimates or assumptions. No investment was identified as having a critical and poorly managed impact in one of the considered principal adverse impacts areas.

- *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:*

The Sub-Fund has a controversy monitoring process in place, that among others takes into account the alignment with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights. This process is based on third party data and may be complemented by the Investment Manager's own ESG research capabilities. The Sub-Fund excludes issuers that are (i) in violation of the norms and standards (defined under the investment strategy section of the pre-contractual disclosure) promoted by the Sub-Fund ; (ii) involved in severe controversies. Unless, in either case, the Investment Manager has identified a positive outlook (i.e., through proactive response by the issuer, proportionate rectification measures already announced or taken, or through active ownership activities with reasonable promise of successful outcomes).

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the Union criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the Union criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

The Investment Manager considered a set of principal adverse impacts on sustainability factors in the following areas:

For corporates: greenhouse gas emissions (Table 1 - PAI indicator 3 GHG intensity 1, 2), controversial weapons (Table 1 - PAI 14 exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons)), social matters and human rights (Table 1 - PAI indicator 10 share of companies involved in violation of UN Global Compact Principles and OECD Guidelines For Multinational Enterprises);

For sovereigns and supnationals: environmental aspects (Table 1 - PAI indicator 15 GHG intensity) and social matters (Table 1 - PAI 16 investee countries subject to social violations).

The Investment Manager followed a process to identify issuers that are exposed to principal adverse impacts on sustainability factors based on in-house research and/or external data sources including ESG data providers, news alerts, and the issuers themselves.

No investment in the portfolio was identified as having a critical and poorly managed impact in one of the considered principal adverse impacts areas.

What were the top investments of this financial product?

The list includes the investments constituting **the greatest proportion of investments** of the financial product during the reference period which is: April 1, 2023 to March 31, 2024

Largest investments	Sector	% Assets	Country
DekaBank Deutsche Girozentrale	Banks & other credit institutions	7.33	Germany
Land Rheinland-Pfalz	Cantons, federal states, counties, provinces etc.	7.16	Germany
Land Baden-Württemberg	Cantons, federal states, counties, provinces etc.	6.32	Germany
Kreditanstalt für Wiederaufbau	Banks & other credit institutions	6.08	Germany

Largest investments	Sector	% Assets	Country
Kreditanstalt für Wiederaufbau	Banks & other credit institutions	6.05	Germany
Land Hessen	Cantons, federal states, counties, provinces etc.	5.89	Germany
Investitionsbank Berlin	Banks & other credit institutions	4.90	Germany
Bundesländer	Cantons, federal states, counties, provinces etc.	4.88	Germany
Land Niedersachsen	Cantons, federal states, counties, provinces etc.	4.47	Germany

What was the proportion of sustainability-related investments?

The proportion of sustainability-related investments was 77.9% (assets aligned with environmental and social characteristics).

● *What was the asset allocation?*

Asset allocation describes the share of investments in specific assets.

#1 Aligned with E/S characteristics includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

#2 Other includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

The category **#1 Aligned with E/S characteristics** covers:

- The sub-category **#1A Sustainable** covers environmentally and socially sustainable investments.
- The sub-category **#1B Other E/S characteristics** covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

77.90% of the investments of the financial product were used to attain the environmental and social characteristics (#1 Aligned with E/S characteristics)

16.80% of investments were sustainable investments (#1A Sustainable). These sustainable investments were included under assets aligned with E/S characteristics (#1 Aligned with E/S characteristics)

#1A Sustainable - Other environmental (16.8%); #2 Other (22.1%)

● **In which economic sectors were the investments made?**

Economic sector

Cantons, federal states, counties, provinces etc.	45.08
Banks & other credit institutions	41.13
Supranational organisations	1.95
Mortgage & funding institutions	1.31
Investment or pension funds/trusts	0.46

0% of the total value of investments (NAV) were in companies involved in sectors that could be associated to fossil fuels ('Energy & water supply', 'Mining, coal & steel', 'Petroleum/Oil and natural gas'). It is important to note that even companies categorized under different sectors might still have some involvement with fossil fuel-related activities, even if it is not their main focus. The Sub-Fund might invest in bonds labelled as green, social or sustainability bonds. These bonds typically fund projects that are not related to fossil fuels, even if the companies issuing them may be active in sectors that could be associated to fossil fuels.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

None of the sustainable investments with an environmental objective were aligned with the EU Taxonomy.

Did the financial product invest in fossil gas and/or nuclear energy related activities that comply with the EU Taxonomy¹?

- Yes:
- In fossil gas In nuclear energy
- No

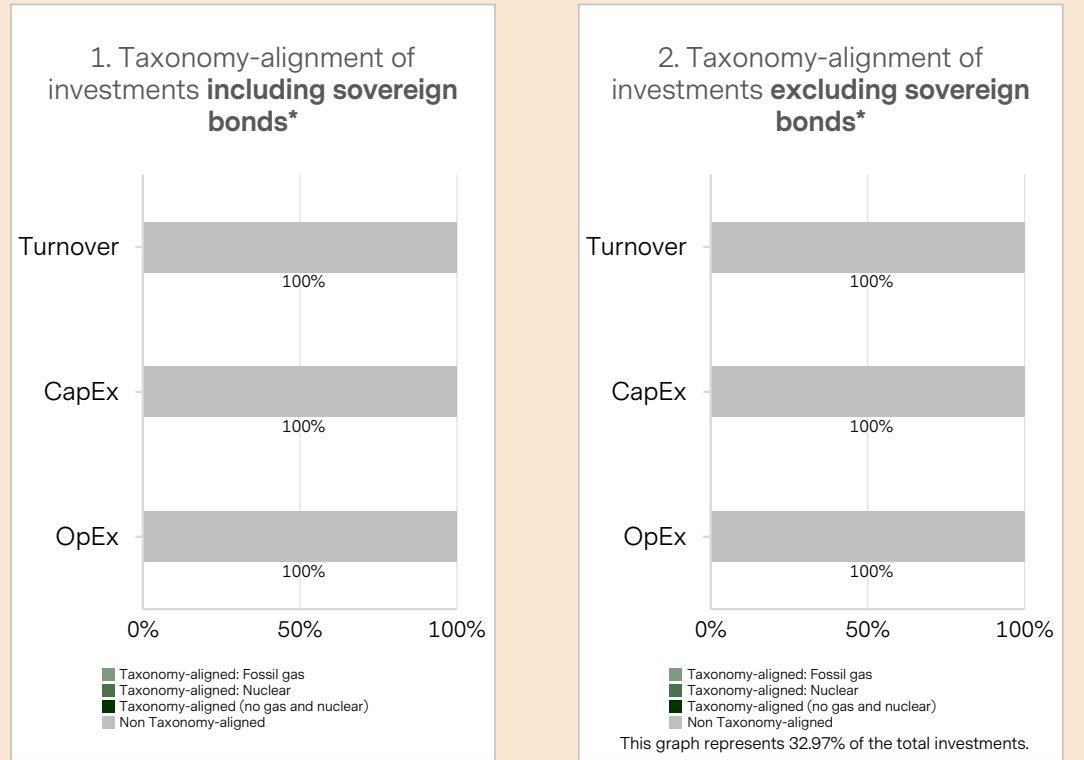

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change (“climate change mitigation”) and do not significantly harm any EU Taxonomy objectives -see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflects the “greenness” of investee companies today.
- **capital expenditure** (CapEx) shows the green investments made by investee companies, relevant for a transition to a green economy.
- **operational expenditure** (OpEx) reflects the green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

● **What was the share of investments made in transitional and enabling activities?**

Activities	Investment share
transitional	0.00%
enabling	0.00%

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

Period	Investment share
March 31, 2023	0.00%

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

The positive contribution of the sustainable investments were not (fully) aligned with the criteria for environmentally sustainable economic activities under the EU Taxonomy and the Investment Manager did not have sufficient equivalent information to conclude its assessment.

Investment share
16.80%

What was the share of socially sustainable investments?

Investment share
0.00%

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

Investments	Purpose	Minimum of environmental or social safeguards
Cash and futures (3.5%)	Liquidity management and strategy implementation	None
Bonds with missing climate scores (18.1%)	Investments	Controversy process, sufficient rating not part of excluded activity
Target fund (0.5%)	Investments	Controversy process, controversial weapon exclusion

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The binding elements of the investment strategy used for the selection of the investments to attain the environmental and/or social characteristics promoted by this Sub-Fund have been monitored throughout the reporting period. The Sub-Fund’s securities were subject to pooled engagement activities undertaken by a third-party engagement service provider. The screening approach used within the Sub-Fund has been changed to focus more on financial materiality and to include climate considerations.

How did this financial product perform compared to the reference benchmark?

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

The financial product has not designated a reference benchmark to determine whether this financial product is aligned with the environmental and/or social characteristics that it promotes.

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: Vontobel Fund II - Duff & Phelps

(FM_00574)

Legal entity identifier:
222100JBMJE9TXV2DM84

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

Yes

It made **sustainable investments with an environmental objective:** ___%

in economic activities that qualify as environmentally sustainable under the EU Taxonomy

in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

It made **sustainable investments with a social objective:** ___%

No

It **promoted Environmental/Social (E/S) characteristics** and while it did not have as its objective a sustainable investment, it had a proportion of ___% of sustainable investments

with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy

with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

with a social objective

It promoted E/S characteristics, but **did not make any sustainable investments**

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The environmental and social characteristics promoted by the financial product were met. The Sub-Fund promoted environmental and social characteristics and invested in issuers that the Investment Manager considers well-prepared to handle financially material environmental and social challenges.

There were no significant sustainability-related changes that occurred during the reporting period.

The Sub-Fund has not designated a reference benchmark for the purpose of

attaining the environmental and social characteristics that it promotes.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

● **How did the sustainability indicators perform?**

Sustainability Indicator	Value	Comment
Percentage of investments in securities of corporate issuers that derive a non-negligible part of their revenues from products and/or activities excluded by the Sub-Fund	0%	excluded products and/or activities are indicated under the investment strategy section of the pre-contractual disclosure

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

Not applicable

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

Not applicable

- *How were the indicators for adverse impacts on sustainability factors taken into account?*

Not applicable

- *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:*

Not applicable

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the Union criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the Union criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

The Investment Manager followed a process to identify issuers that are exposed to principal adverse impacts on sustainability factors based on in-house research and/or external data sources including ESG data providers, news alerts, and the issuers themselves. No investment in the portfolio was identified as having a critical and poorly managed impact in one of the considered principal adverse impacts areas.

The following Principal Adverse Sustainability Impacts Indicators from Table 1 are considered in the investment strategy:
 Greenhouse gas emissions (PAI indicator 2, Carbon footprint (scope 1 and 2)),
 Controversial weapons (PAI indicator 14, exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons)),
 Social matters and human rights (PAI indicator 10, share of companies involved in violation of UN Global Compact Principles and OECD Guidelines.

What were the top investments of this financial product?

The list includes the investments constituting **the greatest proportion of investments** of the financial product during the reference period which is: April 1, 2023, to March 31, 2024

Largest investments	Sector	% Assets	Country
Transurban Group	Traffic & Transportation	5.77	Australia

Southern	Energy & water supply	2.48	United States
Enbridge	Energy & water supply	2.37	Canada
Atlas Arteria	Traffic & Transportation	2.33	Australia
Flughafen Zürich	Traffic & Transportation	2.13	Switzerland
XCEL Energy	Energy & water supply	2.13	United States

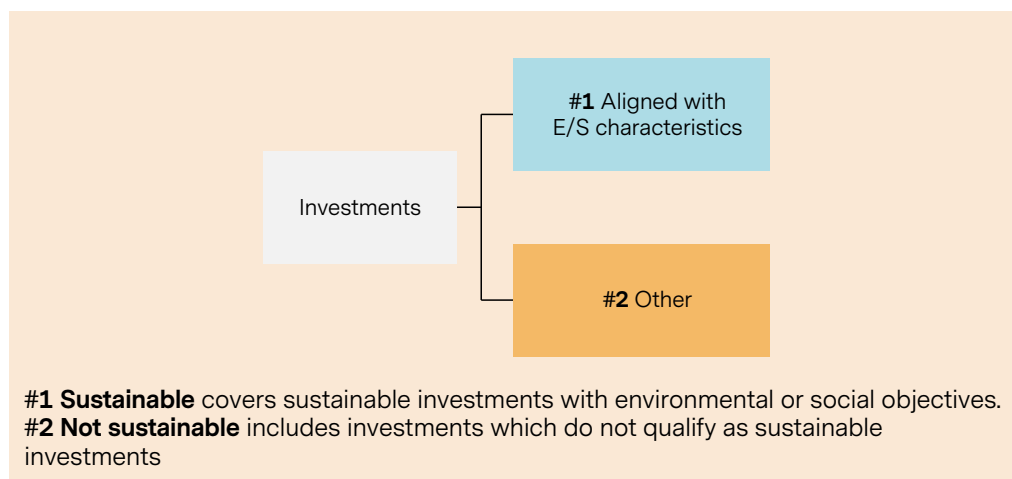

What was the proportion of sustainability-related investments?

Asset allocation describes the share of investments in specific assets.

The proportion of sustainability-related investments was 99.74% (assets aligned with environmental and social characteristics).

● **What was the asset allocation?**

99.74% of the investments of the financial product were used to attain the environmental and social characteristics (#1 Aligned with E/S characteristics)

0.26% were #2 Other investments consisting of cash.

● ***In which economic sectors were the investments made?***

Economic sector	
Energy & water supply	50.63
Traffic & Transportation	24.48
Real estate	8.41
Petroleum/Oil and natural gas	6.20
Internet, software & IT services	2.54
Financial, investment & other diversified comp.	2.42
Telecommunication	2.03
Building materials & building industry	1.50

56.83% of the total value of investments (NAV) were in companies involved in sectors that could be associated to fossil fuels ('Energy & water supply', 'Mining, coal & steel', 'Petroleum/Oil and natural gas'). It is important to note that even companies categorized under different sectors might still have some involvement with fossil fuel-related activities, even if it is not their main focus.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

As the Sub-Fund did not commit to making sustainable investments, this question is not applicable for this Sub-Fund.

Did the financial product invest in fossil gas and/or nuclear energy related activities that comply with the EU Taxonomy¹?

- Yes:
- In fossil gas In nuclear energy
- No

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change (“climate change mitigation”) and do not significantly harm any EU Taxonomy objectives -see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflects the “greenness” of investee companies today.
- **capital expenditure** (CapEx) shows the green investments made by investee companies, relevant for a transition to a green economy.
- **operational expenditure** (OpEx) reflects the green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

● **What was the share of investments made in transitional and enabling activities?**

Activities	Investment share

Legal entity identifier: 222100SVUS66GC1A1O71

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

Yes

No

It made **sustainable investments with an environmental objective:** ___%

in economic activities that qualify as environmentally sustainable under the EU Taxonomy

in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

It made **sustainable investments with a social objective:** ___%

It **promoted Environmental/Social (E/S) characteristics** and while it did not have as its objective a sustainable investment, it had a proportion of ___% of sustainable investments

with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy

with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

with a social objective

It promoted E/S characteristics, but **did not make any sustainable investments**

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The environmental and social characteristics promoted by the financial product were met at all times, such as defined exclusions of products and/or activities of companies considering the exception list, minimum MSCI ESG rating of B, no violation of global norms and standards and minimum 90% covered by ESG analysis.

There were no sustainability-related changes made to the Sub-Fund which had impacted any sustainability disclosures.

The financial product has not designated a reference benchmark for the purpose of attaining the environmental and social characteristics that it promotes.

Sustainability indicators

measure how the environmental or social characteristics promoted by the financial product are attained.

● **How did the sustainability indicators perform?**

Sustainability Indicator	Value	Comment
Percentage of investments in securities of corporate issuers that derive a non-negligible part of their revenues from products and/or activities excluded by the Sub-Fund Fund.	0%	The exclusion approach defined in the investment strategy of the pre-contractual disclosure annex allows the Sub-Fund to apply exceptions for companies that have a climate transition strategy. 1.36% of the net assets (Nextera Energy and RWE) were on the Investment Manager's exception list.
Percentage of investments in securities of corporate issuers that pass the minimum MSCI ESG rating that has been set for this Sub-Fund (set at B)	97.9%	The Sub-Fund is invested in the following four issuers, 2.06% in total, that are not rated by MSCI ESG: BB Biotech, Ermenegildo Zegna, Mobileye and On Holding
Percentage of investments in issuers that are in violation of certain global norms and standards promoted by the Sub-Fund or that are exposed to critical controversies (unless the Investment Manager believes reasonable progress can be attained, for example, through active ownership activities). Such controversies may be related to environmental, social or governance issues.	0%	
Percentage of securities covered by ESG analysis	97.9%	see above

- **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

Not applicable

- **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

Not applicable

- *How were the indicators for adverse impacts on sustainability factors taken into account?*

Not applicable

- *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:*

Not applicable

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the Union criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the Union criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

The Investment Manager considered a set of principal adverse impacts on sustainability factors in the following areas: controversial weapons (Table 1 - PAI indicator 14 share of investments involved in controversial weapons), social matters and human rights (Table 1 - PAI indicator 10 share of companies involved in violation of UN Global Compact Principles and OECD Guidelines For Multinational Enterprises). The Investment Manager applied a process to identify issuers that are exposed to principal adverse impacts on sustainability factors based on in-house research and/or external data sources including ESG data providers, news alerts, and the issuers themselves. No investment was identified as having a critical and poorly managed impact in one of the considered principal adverse impacts areas.

What were the top investments of this financial product?

The list includes the investments constituting **the greatest proportion of investments** of the financial product during the reference period which is: April 1, 2023, to March 31, 2024

Largest investments	Sector	% Assets	Country
Nvidia	Electronics & semiconductors	1.62	United States
Microsoft	Internet, software & IT services	1.30	United States
Amazon.com	Retail trade & department stores	1.11	United States
Iqvia Holdings	Pharmaceuticals, cosmetics & med. products	1.04	United States
Intuitive Surgical	Pharmaceuticals, cosmetics & med. products	1.04	United States
Deere & Co	Mechanical engineering & industrial equip.	1.03	United States
Xylem	Energy & water supply	0.99	United States

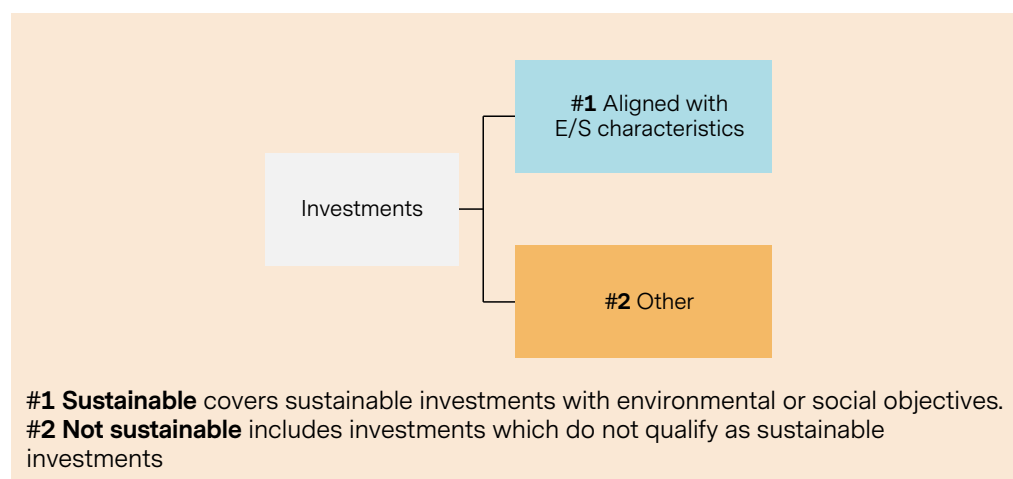

Largest investments	Sector	% Assets	Country
Uber	Internet, software & IT services	0.98	United States
Veolia Environnement	Energy & water supply	0.98	France
Alphabet 'A'	Internet, software & IT services	0.97	United States
ASML Holding	Electronics & semiconductors	0.96	Netherlands
Thermo Fisher Scientific	Electronics & semiconductors	0.94	United States
Trimble Navigation	Electronics & semiconductors	0.86	United States
Danaher	Mechanical engineering & industrial equip.	0.82	United States
Siemens Healthineers	Pharmaceuticals, cosmetics & med. products	0.79	Germany

What was the proportion of sustainability-related investments?

The proportion of sustainability-related investments was 97.27% (assets aligned with environmental and social characteristics).

● What was the asset allocation?

97.27% of the investments of the financial product were used to attain the environmental and social characteristics (#1 Aligned with E/S characteristics)

2.73% were #2 Other investments

● ***In which economic sectors were the investments made?***

Economic sector

Internet, software & IT services	15.80
Electronics & semiconductors	11.24
Mechanical engineering & industrial equip.	10.47
Energy & water supply	8.30
Pharmaceuticals, cosmetics & med. products	8.07
Financial, investment & other diversified comp.	4.53
Electrical appliances & components	4.38
Building materials & building industry	3.19
Vehicles	3.03
Retail trade & department stores	2.87
Chemicals	2.61

Textiles, garments & leather goods	1.49
Mining, coal & steel	1.44
Banks & other credit institutions	1.41
Computer hardware & networking	1.17
Telecommunication	0.91
Traffic & Transportation	0.75
Agriculture & fishery	0.68
Biotechnology	0.65
Precious metals & precious stones	0.57
Mortgage & funding institutions	0.41
Graphics, publishing & printing media	0.35
Tobacco & alcoholic beverages	0.34
Miscellaneous consumer goods	0.29
Lodging & catering ind., leisure facilities	0.27
Non-ferrous metals	0.26
Forestry, paper & forest products	0.12
Miscellaneous trading companies	0.11

11.64% of the total value of investments (NAV) were in companies involved in sectors that could be connected to fossil fuels, like "Energy & water supply", "Mining, coal & steel" or "Petroleum/Oil and natural gas". It is important to note that even companies categorized under different sectors might still have some involvement with fossil fuel-related activities, even if it is not their main focus.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

As the Sub-Fund did not commit to making sustainable investments, this question is not applicable for this Sub-Fund.

Did the financial product invest in fossil gas and/or nuclear energy related activities that comply with the EU Taxonomy¹?

- Yes:
- In fossil gas In nuclear energy
- No

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change (“climate change mitigation”) and do not significantly harm any EU Taxonomy objectives -see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflects the “greenness” of investee companies today.
- **capital expenditure** (CapEx) shows the green investments made by investee companies, relevant for a transition to a green economy.
- **operational expenditure** (OpEx) reflects the green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

● **What was the share of investments made in transitional and enabling activities?**

Activities	Investment share
transitional	0.00%
enabling	0.00%

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

Period	Investment share
March 31, 2023	0.00%

 are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

Not applicable

Investment share
0.00%

What was the share of socially sustainable investments?

Investment share
0.00%

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

Investments	Purpose	Minimum of environmental or social safeguards
Investments not rated by MSCI ESG (2.06%)	Diversification	The process for monitoring of severe controversies was applied
Cash (0.67%)	Liquidity Management	No minimum environmental or social safeguards were applied

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The binding elements of the investment strategy used for the selection of the investments to attain the environmental and/or social characteristics promoted by this financial product have been monitored throughout the reporting period. The exception list as a positive list is applied related to companies that have net zero commitments and significantly invest in renewable energy but exceed the revenue threshold related to thermal coal and nuclear power. During the reporting period, the Sub-Fund invested 1.36% of its net assets in securities of corporate issuers that were on the Investment Manager's exception list. An exception list can be maintained for companies that exceed the given revenue threshold in thermal coal and/or nuclear energy. These companies are investable if they have a specific climate transition strategy in the next one to three decades in place, such as quantitative Co2 emission reduction or net zero targets via increase of capital expenditures and production capacity in alternative energy in the next one to three decades and additionally have exit strategies from thermal coal and/or nuclear energy in place or their revenue share in these two areas decreases. The two companies were Nextera Energy and RWE. Nextera Energy has a nuclear exposure exceeding the 10% revenue threshold (i.e. 15.44%) but is a leading producer of renewable energy from wind and solar with the goal to eliminate all scope 1 and scope 2 carbon emissions across Nextera Energy's operations by no later than 2045 (Source: Nextera Energy). RWE has a thermal coal exposure exceeding the 10% revenue threshold (i.e. 17.00%). The rationale for making an exception in this case is that RWE is a leader in renewable energy with a clear ambition to be carbon neutral by 2040 with SBTi approved emission targets

How did this financial product perform compared to the reference benchmark?

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

The financial product has not designated a reference benchmark to determine whether this financial product is aligned with the environmental and/or social characteristics that it promotes.
