Impact on figures presented

The performance of share classes launched during the year/period has been calculated by comparing net assets per share at the share class launch date with net assets per share at the end of the year/period.

Presented TER are annualized.

Same is applicable for effective remunerations.

ORGANISATION (continued)

Legal form	Securities umbrella fund under Swiss law. Last fund agreement, which came into effect on September 20, 2024, approved by the Swiss Financial Market Supervisory Authority (FINMA) on September 19, 2024.

-Z0- units	0.09	N/A

The ex-post tracking error corresponds to the standard deviation of the differences between the sub-fund's returns and those of its benchmark index. It is calculated on a daily basis during the stated period and is affected by application of the "swinging single pricing" and by the spread for the -Z dy- and -Z0- units.

Past performance does not constitute a guarantee of future performance. Performance data does not take into account fees received in respect of the issue and redemption of units.

NOTES TO THE FINANCIAL STATEMENTS

Net asset value ("NAV") calculation

A sub-fund's NAV and the share of the different classes therein are calculated at market value.

Investments traded on a stock exchange or on another regulated market open to the public must be valued at their price on the principal market on which they are traded.

If no price is available for a given day, investments must be valued at the best price that could be obtained for them if they were sold at the time of valuation.

Open-ended collective capital investments are valued at their redemption price or at the NAV.

For the sub-funds Pictet CH - Sovereign Short-Term Money Market CHF, Pictet CH - Sovereign Short-Term Money Market EUR, Pictet CH - Sovereign Short-Term Money Market USD, Pictet CH - Short-Term Money Market CHF, Pictet CH - Short-Term Money Market EUR, Pictet CH - Short-Term Money Market USD and Pictet CH - Short-Term Money Market GBP, Pictet CH - Enhanced Liquidity CHF, Pictet CH - Enhanced Liquidity EUR and Pictet CH - Enhanced Liquidity USD, money market instruments are valued at the current prices paid on the main market if they are traded on an exchange or any other regulated market; those that are not are marked to market with the projected interest income on the settlement date of a transaction carried out in these sub-funds on the pricing date. Note that for the above mentioned subfunds, the NAV calculation is performed at mid-day, following the prospectus. The determining emission and redemption price of units is determined based on closing rates of the preceding day, adjusted for 2 days projected interests. Thus, the NAV as at September 30, 2024 for these subfunds is based on the investments in portfolios' closing rates from the preceding business day, adjusted for 2 days projected interests.

For the other sub-funds, the money market instruments are valued in accordance with their price on the principal market if they are traded on an exchange or any other regulated market; those that are not are marked to market. The valuation basis of the different investments thus reflects market returns. If there is no current market price in such instances, the calculations are as a rule based on the valuation of money market instruments with the same characteristics (quality and domicile of the issuer, issuing currency, term to maturity).

Money market instruments are valued at their market value with two days' projected interest.

The value of forward contracts (futures and forwards) and options contracts traded on a stock exchange or another regulated market should be determined on the basis of the closing price or settlement price published by the stock exchange or the other regulated market that as a general rule serves as the principal trading place for these contracts. Forward contracts and options that are not traded on a stock exchange or another regulated market (OTC derivative) are valued using commonly accepted valuation models and principles, on the basis of the market value of the underlyings.

For interest rate swaps, expected future cash flows receivable and payable according to the swap contracts are valued at their present value. Credit default swaps (CDS) are revalued on the basis of replacement spreads provided by Bloomberg Valuation Services.

Bank deposits are valued on the basis of the amount due plus accrued interest.

The NAV per unit of a class of a sub-fund is equal to the share, at market value, of the assets of the sub-fund attributable to the class in question, less any commitments of the sub-fund attributable to that class, divided by the number of units of that class outstanding.

NOTES TO THE FINANCIAL STATEMENTS (continued)

Submission and redemption	Cut-off days and times: Units of the subfund may be issued or redeemed on every bank business day in Switzerland. Subscription and redemption orders must be received by the custodian bank by 12.00 noon at the latest (10.00 for subfunds Pictet CH - LPP 25 and Pictet CH - LPP 40). Orders received after this cut-off time will be processed on the following bank business day.
Indication on soft commission agreements	The fund management may conclude soft commissions agreements within the authorised scope and following the best market practices, laws and rules applicable. In that case, it makes sure that the soft commissions or services settled that way do come back directly or indirectly in favour of the fund (i.e.: financial analyses, market systems and prices information systems).
Financial derivatives	The information is presented using the "Commitment II" approach.
Accounting of futures contracts	Realised capital gains/losses on ex-custody futures contracts are settled daily by the receipt/payment of a cash amount corresponding to the daily increase/decrease in the market value of each open futures contract. This cash amount is recognised at market value under "Receivables resulting from derivative transactions with brokers" or "Liabilities resulting from derivative transactions with brokers" in the statement of assets, with the corresponding amount recognised under "Net realised capital gains and losses" in the income statement.
Collateral	Collateral linked to "ex-custody" derivatives operations is recognised at market value under "Receivables resulting from derivative transactions with brokers" or "Liabilities resulting from derivative transactions with brokers" in the statement of assets.
Swing	<p>Some sub-funds may not include the netting of interest rate derivatives.</p> <p>In accordance with article 16.8 of the fund agreement, portfolio adjustment costs are taken into account using the Swinging Single Pricing (SSP) method for the "I dy", "J dy", "P dy", "R dy" and "R" et "F dy" unit classes of all sub-funds except for the Money Market and Enhanced Liquidity sub-funds.</p> <p>The Swinging Single Pricing method consists in calculating the "swung NAV" by including the Fund's portfolio adjustment costs. The net flow from the issue and redemption of units determines the volume requiring a portfolio adjustment.</p> <p>Portfolio adjustment incurs transaction costs that shall be borne by the investors subscribing or requesting the redemption of units, for a given trading day.</p> <p>If, on a given valuation day, the issue of units exceeds the redemption of units, the Fund Management Company shall increase the NAV by the transaction costs incurred by the Fund for the portfolio adjustment (swung NAV).</p> <p>If, on a given valuation day, the redemption of units exceeds the issue of units, the Fund Management Company subtract from the NAV the transaction costs incurred by the fund for the portfolio adjustment (swung NAV).</p> <p>Transaction costs are determined on a fixed-rate basis and reflect average transaction costs. They are reviewed periodically.</p> <p>If no transactions are intimated, the NAV that is established is referred to as an appraised NAV since it contains no provision for transaction costs.</p>

NOTES TO THE FINANCIAL STATEMENTS (continued)

Spread

The net asset value of "Z" units is calculated taking account of ancillary costs.

The issue price is determined as follows: the NAV calculated on the valuation day, plus the ancillary costs (standard market brokerage fees, fees, taxes, etc.) incurred on average by the fund in connection with the investment of the amount paid, plus the issue fee.

The redemption price is calculated as follows: the NAV calculated on the valuation day, minus the ancillary costs incurred on average by the fund in connection with the sale of the proportion of the investments that has been redeemed, and minus the redemption fee.

Securities lending

The fund did not engage in securities lending during the financial year ended September 30, 2024.

Contribution in kind

On February 2, 2024, securities were transferred as part of the contribution in kind (540,461.29 -Z0- units) from Pictet CH – CHF Bonds Tracker sub-fund. The securities transferred were valued at the last available price on February 1, 2024 at a total amount of CHF 527,030,825.89.

On November 2, 2023, securities were transferred as part of the contribution in kind (124,659.64 -Z- units) from Pictet CH – CHF Sustainable Bonds sub-fund. The securities transferred were valued at the last available price on November 1, 2023 at a total amount of CHF 11,418,823.48.

On June 11, 2024, securities were transferred as part of the contribution in kind (1,015,307.75 -Z0- units) from Pictet CH – CHF Sustainable Bonds sub-fund. The securities transferred were valued at the last available price on June 10, 2024 at a total amount of CHF 95,398,316.19

On June 11, 2024, securities were transferred as part of the contribution in kind (2,125,858.09579 -Z0- units) from Pictet CH – CHF Sustainable Bonds sub-fund. The securities transferred were valued at the last available price on June 10, 2024 at a total amount of CHF 199,745,626.68.

which comprise the statement of net assets as at 30 September 2024, the statement of income for the year then ended, information regarding the appropriation of net income and the disclosure of costs as well as additional information pursuant to art. 89 para. 1 let. b–h of the Swiss Collective Investment Schemes Act (CISA).

In our opinion, the financial statements are compliant with the Swiss Collective Investment Schemes Act, the relevant ordinances as well as the fund contract and the prospectus.

Basis for opinion

We conducted our audit of financial statements in accordance with Swiss law and the Swiss Standards on Auditing (SA-CH). Our responsibilities under those provisions and standards are further described in the “Responsibility of the auditor of the collective investment scheme for the auditing of the financial statements” section of our report. We are independent of the investment fund as well as of the fund management company in accordance with the provisions of Swiss law and the requirements of the Swiss audit profession, and we have fulfilled our other ethical responsibilities in accordance with these requirements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Responsibility of the Board of Directors of the fund management company for the financial statements

The Board of Directors of the fund management company is responsible for preparing the financial statements in accordance with the Swiss Collective Investment Schemes Act, the corresponding ordinances as well as the fund contract and the prospectus, and for such internal control as the Board of Directors of the fund management company determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

Responsibility of the auditor of the collective investment scheme for the auditing of the financial statements

Our objectives are to obtain reasonable assurance that the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Swiss law and SA-CH will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of the financial statements.

As part of an audit in accordance with Swiss law and SA-CH, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the investment fund's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made.

We communicate with the Board of Directors of the fund management company regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.
