Copies of the report and accounts to 30 September 2024 may be obtained from the registered office of Columbia Threadneedle (Lux) III (the "Fund") at 49, Avenue J.F. Kennedy, L-1855 Luxembourg, Grand Duchy of Luxembourg and from foreign representatives and will be posted to shareholders on request. Notices to Shareholders are published in the *Recueil Electronique des Sociétés et Associations* (the "RESA") and in Luxembourg newspapers, to the extent required by Luxembourg law, and in such other newspapers as the Directors may decide. The articles of incorporation of the Fund (the "Articles") have been lodged at the *Registre de Commerce et des Sociétés* of Luxembourg where they are available for inspection and copies can be obtained upon request. The net asset value of each of the Fund's shares is published in accordance with the relevant appendices of the Fund's latest prospectus (the "Prospectus"). The issue and redemption prices are available from Columbia Threadneedle Management Limited, Cannon Place, 78 Cannon Street, London EC4N 6AG United Kingdom, at the registered office of the Fund and will be published as further described in the Prospectus.

No subscription can be received on the basis of financial reports. Subscriptions are only valid if made on the basis of the current Prospectus, the latest key investor information documents and the latest annual and the most recent semi-annual report, if published thereafter.

The information contained in this report is historical and should not be taken as a guide to future performance. Statements contained in this report concerning future performance are the opinions of management and there can be no guarantee that such opinions will prove to be correct.

Columbia Threadneedle (Lux) III

The Portfolios and their Objectives

CT (Lux) Diversified Growth

The investment objective of the Portfolio is to achieve capital appreciation over the medium to long-term through a broadly diversified mix of holdings into traditional and alternative assets including investments in: equities, bonds, indirect property and indirect commodities. The Portfolio intends to target a return of ESTR (Euro Short-Term Rate) (or the equivalent local currency SONIA (Sterling Overnight Index Average) rate per hedged share class) +4% over a rolling 3 year period. Portfolio efficiency is maximised, and costs minimised, by using the most efficient products in the market place, that provide liquid, low-cost exposure to the relevant asset class. A combination of cash, Exchange Traded Funds (ETF), financial derivative instruments, listed certificates issued by investment banks, as well as swap contracts and currency are used to structure the Portfolio.

CT (Lux) Euro Bond

The investment objective of the Portfolio is to ensure an adequate return of the invested capital while reducing risk due to an adequate investment diversification. The assets of the Portfolio are mainly invested, directly or through the use of financial derivative instruments, in debt securities having a fixed and variable income, listed on a stock exchange or dealt in on another regulated market of an OECD-member state, whilst attempting to reduce the exchange risks. Without changing the specific investment policy of the Portfolio and as market conditions and investment opportunities prevail, the Portfolio may, on an ancillary basis, invest in securities listed on a stock exchange or dealt in on a regulated market of a non OECD-member state. Taking into account the principle of investment risk spreading, the Portfolio will invest, directly or indirectly through the use of financial derivative instruments, in investment grade (at the time of the purchase and as defined by recognised rating agents such as Moody's Services or Standard & Poor's) bonds and money market instruments. The Portfolio may invest in financial derivative instruments to achieve its investment objective. Such instruments may also be used for hedging purposes. These instruments may include, but are not limited to, futures, forwards, options, swaptions, interest rate swaps and inflation swaps.

CT (Lux) European Growth & Income

The investment objective of the Portfolio is to achieve long-term capital appreciation and an enhanced level of income by investing in companies listed on one of the European Stock Exchanges or a regulated market. The Portfolio will invest at least 75% of its total assets in equity securities of companies that are incorporated under the laws of, and have their registered office in, a country in Europe. The Portfolio will invest more than 50% in equity securities in the sense of sec. 2 para. 8 of the German Investment Tax Reform Act ("GITA"). In addition to equity and equity-related securities, the Portfolio may also invest in warrants on equity and equity related securities, which qualify as transferable securities.

CT (Lux) European Smaller Cap (liquidated with effect from 12 June 2024)

The investment objective of the Portfolio is to make available to investors participation in a Portfolio consisting of securities of European domiciled companies listed on the various European Stock Exchanges. The Investment policy is directed towards achieving long-term capital growth through investment in small and medium sized companies.

The Portfolio will invest at least 75% of its total assets in equity securities of companies that are incorporated under the laws of, and have their registered office in Europe. In addition, the Portfolio will invest the majority (i.e., greater than 50%) of its total assets in European equities of companies that have a maximum capitalisation less than or equal to the highest capitalisation in the Index. The Portfolio will invest more than 50% in equity securities in the sense of sec. 2 para. 8 of the GITA.

CT (Lux) Global Absolute Return Bond

The investment objective of the Portfolio is to deliver a return through a combination of income and capital growth. The Portfolio seeks to deliver an absolute return irrespective of bond market direction. The Portfolio aims to achieve this objective through investing at least two thirds of its total assets in corporate bonds. In addition thereto, the Portfolio will invest in bonds issued by other entities including sovereign and supranational issuers. Investments in contingent convertible bonds will not exceed 10% of the Portfolio's net assets. Exposure to China through the Hong-Kong and Shanghai Bond Connect will normally not exceed 5% of the Portfolio's net assets. The Portfolio may also invest in other transferable securities, collective investment schemes, money market instruments, deposits, cash and cash equivalent, financial derivative instruments and forward transactions.

CT (Lux) Global Convertible Bond

The investment objective of the Portfolio is to achieve high returns by investing its assets through a balanced portfolio consisting of convertible securities. The Portfolio will invest its assets in a balanced portfolio consisting of convertible debt securities and synthetic convertibles which offer the most attractive risk/reward characteristics in terms of upward participation and downward protection. The Portfolio will invest at least two thirds of its total assets in convertible debt securities issued by corporations located in Europe, the United States, Japan and Asia.

Columbia Threadneedle (Lux) III The Portfolios and their Objectives (continued)

CT (Lux) Global Smaller Cap Equity (liquidated with effect from 12 June 2024)

The investment objective of the Portfolio is to make available to investors participation in a Portfolio consisting of listed securities of companies on a worldwide basis. The investment policy is directed towards achieving long-term capital growth through investment in small and medium sized companies. The Portfolio will invest more than 50% in equity securities in the sense of sec. 2 para. 8 of the German Investment Tax Reform Act ("GITA"). The Portfolio will invest primarily in equity and equity-linked securities (excluding convertible bonds and bonds with warrants) issued by small and medium sized companies. Small and medium sized companies will generally be companies with a maximum stock exchange capitalisation of US\$ 10 billion or equivalent at the time of purchase. The Portfolio may hold and continue to invest its assets in companies with a higher capitalisation if the capitalisation of the relevant company subsequently reaches or exceeds US\$ 10 billion or equivalent after acquisition by the Portfolio. The Portfolio may also hold exchange traded funds and fixed interest securities should this be considered to be appropriate at any particular time. Subject to the investment restrictions set forth in section S "Investment Restrictions", the Portfolio may also invest in money market instruments, bank deposits and other eligible liquid assets for treasury purposes and in case of unfavourable market conditions. In normal market conditions investment in such liquid assets and debt instruments of any kind will not exceed 15% of the Portfolio's Net Asset Value.

CT (Lux) Global Total Return Bond

The investment objective of the Portfolio is to deliver a return through a combination of income and capital growth. The Portfolio aims to achieve this objective through investing at least two thirds of its total assets in corporate bonds. In addition thereto, the Portfolio will invest in bonds issued by other entities including sovereign and supranational issuers. Investments in contingent convertible bonds will not exceed 10% of the Portfolio's net assets. Exposure to China through the Hong-Kong and Shanghai Bond Connect will normally not exceed 5% of the Portfolio's net assets. The Portfolio may also invest in other transferable securities, collective investment schemes, money market instruments, deposits, cash and cash equivalent, financial derivative instruments and forward transactions.

CT (Lux) Responsible Euro Corporate Bond

The investment objective of the Portfolio is to achieve an above average rate of return over the long-term, measured in Euro, through investing mainly in investment grade fixed income debt securities, floating rate and other debt securities, including asset backed securities and contingent convertible bonds, issued by companies. Investment grade securities are defined as securities that are rated Baa3/BBB- or higher by Moody's, Standard & Poor's or another recognised credit rating agency. The Portfolio may also invest up to 15% of its net assets in sub investment grade fixed income debt securities, floating rate and other debt securities. Investments in asset backed securities may not exceed 10% of the Portfolio's net assets. Investments in contingent convertible bonds will not exceed 10% of the Portfolio's net assets.

CT (Lux) Responsible Global Emerging Markets Equity

The purpose of the Portfolio is to provide a medium through which investors may participate in an actively managed portfolio, primarily invested in equity and equity-related securities of companies in emerging markets worldwide. The Portfolio may, as described below, invest in companies which are listed or traded on a recognised exchange in emerging market countries worldwide, which have, in the opinion of the Investment Manager, the potential for generating long term returns and contribute to or benefit from the sustainable economic development of the emerging market countries. The subscription proceeds relating to the different Classes of Shares in issue shall be invested in one common underlying portfolio of investments. Each Class of Shares will have a proportional entitlement to the assets (and liabilities) of the Portfolio (calculated according to the prevailing Net Asset Values of each Class). The Portfolio will invest at least two thirds of its total assets in equity and equity-linked securities (excluding convertible bonds and bonds with warrants), of companies that are incorporated under the laws of, and have their registered office in, an emerging market country, or that derive a predominant part of their economic activity from emerging market countries, even if listed elsewhere. The Portfolio will invest more than 50% in equity securities in the sense of sec. 2 para. 8 of the German Investment Tax Reform Act ("GITA").

CT (Lux) Responsible Global Equity

The Portfolio focuses on long-term capital growth through investment in companies across the world. Its objective is to maximise returns through investment in an ethically screened and diverse universe of companies. The Portfolio invests at least two thirds of its total assets in equity and equity-related securities (excluding convertible bonds and bonds with warrants) of companies, in any market, that meet the ethical and sustainable criteria. The Portfolio will invest a more than 50% in equity securities in the sense of sec. 2 para. 8 of the German Investment Tax Reform Act ("GITA").

Columbia Threadneedle (Lux) III The Portfolios and their Objectives (continued)

CT (Lux) SDG Engagement Global Equity

The Portfolio aims to achieve long-term capital growth and support sustainable development. The Portfolio invests primarily in a diversified portfolio of equity and equity-related securities (excluding convertible bonds and bonds with warrants) of mid-capitalisation companies, which may be anywhere in the world and be in any industry or sector. The Portfolio will invest more than 50% in equity securities in the sense of sec. 2 para. 8 of the German Investment Tax Reform Act ("GITA").

CT (Lux) Sustainable Global Equity Enhanced Income

The Portfolio aims to provide income combined with capital growth over the long term (at least 5 years). The Portfolio will invest more than 50% of its net assets in equity securities in the sense of sec. 2 para. 8 of the German Investment Tax Reform Act ("GITA"). The Portfolio aims to provide long-term capital growth by investing primarily in sustainable investments, considered for this Portfolio to be shares of companies that derive, or are on a credible short to medium-term pathway to derive, a significant amount of net revenue (50% or more) from activities that can be directly linked to one or more of the UN Sustainable Development Goals ("SDGs"). The Portfolio invests in shares of companies which may be located anywhere in the world, be of any size and from any industry or economic sector, subject to the Investment Manager's sustainable investment criteria.

CT (Lux) Sustainable Multi-Asset Income

The investment objective of the Portfolio is to achieve capital appreciation and income through sustainable investments, while maintaining long-term value. The Portfolio invests in a diversified mix of sustainable investments in traditional and alternative asset classes. The Portfolio will invest a majority of its assets in equity securities and debt securities, including investment grade, below investment grade debt securities and contingent convertible bonds. The Portfolio may invest in derivatives to enhance performance by gaining exposure to a number of alternative sources of return and controlling risk. Derivatives may be traded through recognised exchanges or over-the-counter ("OTC") and may include but are not limited to, options, futures, swaps (including, but not limited to, total return swaps on strategies, equity baskets, equity indices, property or commodity indices), contracts for difference and forward contracts. The Portfolio may invest up to 10% of its net assets in below investment grade debt securities. The Portfolio will not invest in securities that are "distressed" or "defaulted" at the time of their purchase by the Portfolio. In the event of a downgrading of any debt security held by the Portfolio, the Investment Manager will take all reasonable efforts to keep this exposure below 5% of the Portfolio's net assets and to realise the distressed or defaulted securities as soon as reasonably practicable if this is in the best interest of the Shareholders. Investments in contingent convertible bonds will not exceed 5% of the Portfolio's net assets. The Portfolio will invest a minimum of 26% in equity securities in the sense of sec. 2 para. 8 of the German Investment Tax Reform Act ("GITA").

CT (Lux) Sustainable Opportunities European Equity

The investment objective of the Portfolio is to achieve long-term capital appreciation through sustainable investments. The Portfolio invests in European companies listed on one of the European Stock Exchanges or a regulated market. The Portfolio will invest at least 75% of its total assets in equity securities of companies that are incorporated under the laws of, and have their registered office in, a country in Europe. The Portfolio will invest more than 50% in equity securities in the sense of sec. 2 para. 8 of the German Investment Tax Reform Act ("GITA").

CT (Lux) US Smaller Companies (liquidated with effect from 12 June 2024)

The investment objective of the Portfolio is to make available to investors participation in a Portfolio consisting of securities of United States companies listed on United States Stock Exchanges or NASDAQ. The investment policy is directed towards achieving long-term capital growth through investment in small and medium sized companies. The Portfolio will invest at least two thirds of its total assets in equity and equity-linked securities (excluding convertible bonds and bonds with warrants) of small capitalisation companies that are incorporated under the laws of, and have their registered office in the United States, or that derive a predominant part of their economic activity from the United States, even if listed elsewhere. The Portfolio will invest more than 50% in equity securities in the sense of sec. 2 para. 8 of the German Investment Tax Reform Act ("GITA"). The Portfolio will invest in companies with a maximum stock exchange capitalisation of US\$ 10 billion or equivalent at the time of purchase. The Portfolio may hold and continue to invest its assets in companies with a higher capitalisation if the capitalisation of the relevant company has reached or exceeded US\$ 10 billion or equivalent after acquisition by the Portfolio.

The Board of Directors (the "Board") is pleased to present the Audited Annual Report of Columbia Threadneedle (Lux) III (the "Fund") for the year ended 30th of September 2024, and considers that, taken as a whole, they are fair and balanced and provide the information necessary for Shareholders to assess the Fund's position and performance.

During the year, the size of the portfolio increased by EUR 871 million to EUR 3,948 million (EUR 3,077 million as of 30 September 2023), which was largely driven by strong inflows into CT (Lux) Sustainable Global Equity Enhanced Income. Positive markets, albeit interspersed with bouts of volatility, also contributed to the increase.

Structure of the Fund

The Fund is a variable capital open-ended investment company, organized as a "Société Anonyme", under the laws of the Grand Duchy of Luxembourg. The Board has appointed Carne Global Fund Managers (Luxembourg) S.A. as management company of the Fund (the "Management Company"). The Fund is organized as an "umbrella" with a number of Sub-Funds each of which has its own investment objective, policies and restrictions (each a "Portfolio" or a "Sub-Fund").

The objective of the Fund is to place the money available to it in transferable securities and other permitted assets of any kind, in accordance with the Fund's Prospectus, with the purpose of spreading investment risks and affording Shareholders the results of the management of their portfolios.

The Fund qualifies as an Undertaking for Collective Investment in Transferable Securities (UCITS) under the EC Directive 2009/65/EC of 13 July 2009 and is subject to the Luxembourg law of 17 December 2010, as amended, on undertakings for collective investment. The Fund may therefore be offered for sale in European Union Member States, subject to notification in countries other than the Grand Duchy of Luxembourg. In addition, applications to register the Fund and its Sub-Funds may be made in other countries.

The Fund has 13 active Sub-Funds as at 30 September 2024. All Sub-Funds and Share Classes are registered for offer and distribution in the Grand Duchy of Luxembourg and several of the Sub-Funds and Share Classes are registered for distribution in the following jurisdictions: Austria, Belgium, Denmark, Switzerland, Germany, Spain, Finland, France, UK, Ireland, Italy, Liechtenstein, Netherlands, Norway, Portugal, Sweden and Singapore.

During the year, the following 3 Sub-Funds were liquidated:

- CT (Lux) European Smaller Cap
- CT (Lux) Global Smaller Cap Equity
- CT (Lux) US Smaller Companies

No new Sub-Funds were launched during the year.

Role and Responsibility of the Board

The responsibility of the Board is governed exclusively by Luxembourg law. With respect to the annual accounts of the Fund, the duties of the Directors are governed by the law of 10 December 2010 on, inter alia, the accounting and annual accounts of undertakings for collective investment and by the law of 17 December 2010, as amended, relating to undertakings for collective investment.

Columbia Threadneedle (Lux) III

Chairman's Statement (continued)

An agreement between the Fund and the Management Company sets out the matters over which the Management Company has authority under Chapter 15 of the Law of 17 December 2010. This includes management of the Fund's assets and the provision of administration and marketing services. All other significant matters are reserved for approval by the Board, including the determination of each Sub-Fund's investment objective and policies, investment restrictions and powers, amendments to the Prospectus, reviewing and approving the annual accounts, as well as the appointment of, and review of the services provided by, the Management Company, Auditor and Depositary.

The Directors take decisions in the interests of the Fund and its Shareholders as a whole and refrain from taking part in any deliberation or decision, which creates a conflict of interest between their personal interests and those of the Fund and its Shareholders.

The Board can take independent professional advice if necessary and at the Fund's expense.

Board Composition

As of 30 September 2024, the Board comprised of 4 Directors, 2 of which are independent from the investment manager and all the directors are independent from the Management Company.

The Board does not limit the number of years of Directors' service, and it does consider the nature and requirements of the fund industry and of the Fund's business when making recommendation to Shareholders for Directors be appointed. The terms of each Director's appointment are set out in a contract for services.

Induction and Training

All new Directors will receive an induction incorporating relevant information regarding the Fund and their duties and responsibilities as a Director. In addition, the Board, and the Directors individually, takes active steps to keep up to date with developments relevant to the Fund by means of trainings or otherwise.

Board Remuneration

The Board believes that the remuneration of its members should reflect the responsibilities and experience of the Board as a whole and be fair and appropriate given the size, complexity and investment objectives of the Fund. The remuneration is reviewed on a periodic basis. The Chairman is paid EUR 27k and the other Directors EUR 22k per annum (all executive Directors have agreed to waive their remuneration). No element of the Directors remuneration, paid by the Fund, is performance related.

Board Meetings

The Board meets quarterly but if necessary additional meetings are arranged. Given the scope and nature of the business of the Fund, the Board does not currently consider it necessary to have a formal Audit or Remuneration Committee.

Corporate Governance and ALFI Code of Conduct

The Board is responsible for ensuring that a high level of corporate governance is met and considers that the Fund has complied with the best practices in the Luxembourg funds industry.

In particular, the Board has adopted the principles of the ALFI Code of Conduct (the "Code") which sets out principles of good governance.

These principles are the following:

1. The Board should adopt clear and transparent standards of corporate governance.
2. The Board should have good professional standing and appropriate experience and use best efforts to ensure that it is collectively competent to fulfil its responsibilities.
3. The Board should act fairly and independently in the best interests of the investors.
4. The Board should act with due care and diligence in the performance of its duties.
5. The Board should ensure compliance with all applicable laws and regulations and with the Fund's constitutional documents.
6. The Board should ensure that investors are properly informed, are fairly and equitably treated, and receive the benefits and services to which they are entitled.
7. The Board should ensure that an effective risk management process and appropriate internal Controls are in place.
8. The Board should identify and manage fairly and effectively, to the best of its ability, any actual, potential or apparent conflict of interest and ensure appropriate disclosure.
9. The Board should ensure that Shareholder rights are exercised in a considered way and in the best interests of the Fund.
10. The Board should ensure that the remuneration of the Board members is reasonable and fair and adequately disclosed.

Columbia Threadneedle (Lux) III Chairman's Statement (continued)

11. The Board should integrate as appropriate sustainability standards and objectives including environmental, social and governance (ESG) criteria in its business model and operations.

The Board considers that the Fund has complied with the principles of the Code in all material aspects throughout the financial year. The Board undertakes an annual review of ongoing compliance with the principles of the Code.

Environmental Social Governance ("ESG")

Certain Sub-Funds include ESG as part of their investment policy, details of which are included within the Prospectus.

Directors and Officers indemnity Insurance

The Fund's Articles of Incorporation indemnify the Directors against expenses reasonably incurred in connection with any claim against them arising in the course of their duties or responsibilities as long as they have not acted fraudulently or dishonestly. To protect Shareholders against any such claim, the Board has taken out Directors and Officers Indemnity Insurance, which indemnifies the Directors against certain liabilities arising in the course of their duties and responsibilities but does not cover against any fraudulent or dishonest actions on their part.

Independent Auditor

PwC has been the Fund's Auditor since 2002. The Board agreed that PwC should continue to be proposed to the Shareholders to be appointed as Auditor.

Annual General Meetings ("AGM")

The next AGM of the Fund will be held on 25 February 2025, at the Registered Office of the Fund to consider matters relating to the year ending on 30 September 2024. At this meeting, Shareholders will be requested to consider the usual matters at such meetings including:

1. The adoption of the Financial Statements and approval of the allocation of the results,
2. The approval of Directors' fees,
3. The election of Directors,
4. The election of the Auditor, and
5. The discharge of Directors duties.

No special business is being proposed by the Board.

Discharge of Directors

One of the resolutions in the AGM is, as required under Luxembourg Law, for Shareholders to vote on the discharge the Directors of their duties for the accounting year in question. This discharge is only valid where the annual accounts contain no omission or false information concerning the real financial situation of the Fund.

Significant Events

Please refer to Notes to the Financial Statements for details of significant events during the year.

Patrick Johns

Chairman of the Board of Directors
January 2025

Audit report

To the Shareholders of
Columbia Threadneedle (Lux) III

Our opinion

In our opinion, the accompanying financial statements give a true and fair view of the financial position of Columbia Threadneedle (Lux) III (the “Fund”) and of each of its sub-funds as at 30 September 2024, and of the results of their operations and changes in their net assets for the year then ended in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements.

What we have audited

The Fund’s financial statements comprise:

- the statement of net assets as at 30 September 2024;
- the schedule of investments as at 30 September 2024;
- the statement of operations and changes in net assets for the year then ended; and
- the notes to the financial statements, which include a summary of significant accounting policies.

Basis for opinion

We conducted our audit in accordance with the Law of 23 July 2016 on the audit profession (Law of 23 July 2016) and with International Standards on Auditing (ISAs) as adopted for Luxembourg by the “Commission de Surveillance du Secteur Financier” (CSSF). Our responsibilities under the Law of 23 July 2016 and ISAs as adopted for Luxembourg by the CSSF are further described in the “Responsibilities of the “Réviseur d’entreprises agréé” for the audit of the financial statements” section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

We are independent of the Fund in accordance with the International Code of Ethics for Professional Accountants, including International Independence Standards, issued by the International Ethics Standards Board for Accountants (IESBA Code) as adopted for Luxembourg by the CSSF together with the ethical requirements that are relevant to our audit of the financial statements. We have fulfilled our other ethical responsibilities under those ethical requirements.

Other information

The Board of Directors of the Fund is responsible for the other information. The other information comprises the information stated in the annual report but does not include the financial statements and our audit report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

*PricewaterhouseCoopers, Société coopérative, 2 rue Gerhard Mercator, B.P. 1443, L-1014 Luxembourg

*Cabinet de révision agréé. Expert-comptable (autorisation gouvernementale n°10028256)
R.C.S. Luxembourg B 65 477 - TVA LU25482518*

In connection with our audit of the financial statements, our responsibility is to read the other information identified above and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the Board of Directors of the Fund for the financial statements

The Board of Directors of the Fund is responsible for the preparation and fair presentation of the financial statements in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements, and for such internal control as the Board of Directors of the Fund determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Board of Directors of the Fund is responsible for assessing the Fund's and each of its sub-funds' ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors of the Fund either intends to liquidate the Fund or close any of its sub-funds or to cease operations, or has no realistic alternative but to do so.

Responsibilities of the “Réviseur d'entreprises agréé” for the audit of the financial statements

The objectives of our audit are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an audit report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Law of 23 July 2016 and with ISAs as adopted for Luxembourg by the CSSF will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with the Law of 23 July 2016 and with ISAs as adopted for Luxembourg by the CSSF, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control;
- obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control;
- evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Board of Directors of the Fund;

- conclude on the appropriateness of the Board of Directors of the Fund's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's or any of its sub-funds' ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our audit report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our audit report. However, future events or conditions may cause the Fund or any of its sub-funds to cease to continue as a going concern;
- evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and communicate to them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, actions taken to eliminate threats or safeguards applied.

CT (Lux) Diversified Growth

Performance

Over the twelve months to 30 September 2024, the Class X shares - EUR returned 17.3%. The Class A shares EUR returned 15.4%. By comparison, the benchmark of ESTR, plus 4% per annum, returned 7.9% over the same period. Performance is net of fees and in euro terms.

All the main elements of the portfolio contributed to returns. The largest contribution came from equities on the back of the strong recovery from their lows at the start of the period. Technology and the US led the rally on the back of a wave of optimism surrounding Artificial Intelligence (AI), fuelled by strong earnings reports in the industry. We increased total global equity exposure over the period, including adding to US equities on set-backs. Within fixed income we reduced overall exposure, with the majority coming from a reduction in exposure to government bonds. Yields fell sharply over the period allowing us to take profit on a relatively longstanding tactical overweight to government bonds. Alternative strategies were positive with performance led by the FX risk premia strategies. While the insurance-linked securities also continued their strong performance this year, with the impact of hurricane Helene not overly affecting returns, we did reduce this position ahead of the hurricane season.

Market Review

The period under review – the 12 months to 30 September 2024 – proved to be a positive one for the portfolio, albeit interspersed with some bouts of volatility. The period started amidst great uncertainty, as investors' concerns over persistent inflation and the resilience of the economy combined into fears of stagflation. We now know that the US Federal Reserve's (Fed) increase in interest rates to a targeted range of 5.25% - 5.50% in July 2023 represented the peak, but it was not until December 2023 that the Fed underwent a dovish pivot and first suggested that interest rates were set to fall. This provided investors with confidence for 2024, even though there remained scepticism that the US economy could achieve a 'soft-landing' - bringing inflation back to target without causing a recession. These fears were highlighted later in 2024 by the triggering of the Sahm Rule, a previously consistent recession indicator. However, inflation kept falling and the US economy kept growing, so the outlook for 2024 continued to improve, with bond yields falling and equity markets rallying. This eventually allowed the Fed to cut interest rates by 0.5%, though this was delayed until the very end of the period in September 2024. Elsewhere, Europe saw inflation fall while sustaining very modest overall growth, although the UK struggled with a technical recession and Germany proved weak. This allowed the European Central Bank to start cutting interest rates in June, with the Bank of England following in August. Japan continued with measures to wean itself off decades of very low interest rates, making progress despite triggering a crash in yen carry-trades in August. Chinese markets languished for most of the period under a property slump and punitive regulatory intervention, but the stimulus measures announced at the end of September were of sufficient magnitude to trigger a substantial rally erasing its underperformance in 2024.

Outlook

As we enter the last quarter of 2024, it appears that the Fed, following their aggressive rate hikes, has practically achieved immaculate disinflation - where the US economy avoids falling into a recession, inflation comes down to target, while employment remaining relatively unaffected. We would expect US inflation to continue its journey lower towards its 2% target, albeit at a slower pace than seen over the past 12 months. US annual headline inflation (CPI) currently sits at 2.4%, (although it should be noted that core inflation is higher at 3.3% and recently increased from its lows). Chair Powell and the Federal Open Market Committee (FOMC), appear to be comfortable with the inflation outlook and they are now focussing their attention on the second part of their mandate – full employment. Employment data is naturally very volatile, relatively hard to capture accurately and full of adjustments. Hence, we do not look at just one measure, nor pay too much attention to one single data point. When looking across a wide variety of employment measures, it is clear that the employment situation in the US remains strong but on a weakening path. This weaker data led to the FOMC to start the rate cutting cycle with a larger than normal 0.5% cut. There was a danger that this sized cut could be interpreted as being behind the curve, leading to the market expecting further significant cuts. Powell managed to message this oversized-cut well by stating that this decision was just a small catch-up and not a signal of being way behind the curve. As a consequence, we have seen expectations of future rate cuts reduce down from a further three cuts by year end to less than two and as a consequence, Treasury yields have increased considerably. The strong jobs report for September, released just after quarter-end has put further upward pressure on bond yields. As mentioned earlier, employment data is notoriously volatile and are full of revisions and seasonality adjustments and so we would need to see further data releases to back up or reject this recent outlier. On balance we expect the FOMC to continue to cut rates, at a consistent pace over the next twelve months which, given where yields have retraced to, suggests government bonds are once again have the potential opportunity for outsized gains.

The backdrop of falling inflation and interest rates, should provide a pretty decent backdrop for further upside equity performance, however we would caution against getting too excited this time around. Interest rate cuts are normally enacted following weakness in economic growth and hence equity valuations are historically fairly cheap at these moments. This time around, the US cutting cycle is starting with growth still healthy and equity markets at or near to all-time highs. The US is currently one of the most expensive global markets, notwithstanding that some companies' valuations can be justified given the exceptionalism of those companies, particularly in the technology sector, coupled with attractive margins, growing revenues and the potential upside from AI. The broadening out of performance within the US market, certainly gives an element of comfort, but any further increase in the concentration of companies driving returns would give us pause for thought. As such, we remain slightly pro-risk across our portfolios, but not in any pronounced way. By the end of the year, we will also know who the new President of the United States will be.

Columbia Threadneedle (Lux) III CT (Lux) Diversified Growth - (continued)

Equity markets never like uncertainty and so volatility will likely rise in the run-up to the election. It is perceived wisdom that a Trump win would be the best outcome for equity markets, however a Harris win is not expected to be bad for markets. Hence, we are not looking to reduce equity based on either outcome, which currently looks too close to call. The Chinese authorities have recently released a series of stimulus measures and local equity markets rallied almost 30% in very short order. The exuberance has deflated somewhat over the past few days as, although the stimulus package is well targeted, the magnitude and willingness to see this through over an extended period of time by the authorities is far from assured.

Columbia Threadneedle (Lux) III

CT (Lux) Euro Bond

Performance

Over the twelve months to 30 September 2024, the I Acc EUR share class returned 10.1%. By comparison, the BBI Euro Aggregate Treasury TR Index returned 9.3%. Performance is total return and in euro terms.

Over the twelve-month period, the CT (Lux) Euro Bond Fund outperformed its benchmark. The position in higher-yielding supranational bonds was the largest contributor to outperformance. A modest duration overweight was positive as yields fell sharply in the last part of 2023. This position was closed at the end of 2023 as markets moved to price in interest rate cuts in the first quarter of 2024. As these overly optimistic expectations of the interest rate easing cycle were priced out, we again increased duration in the portfolio. This again delivered outperformance in the third quarter of 2024 as yields fell in response to the European Central Bank (ECB) cutting interest rates. The long duration stance was complemented by curve steepening positions. We also had contributions from our cross-market positions: short France against Spain; short gilts; and long US rates in the third quarter, shifting this position to Europe after strong outperformance.

Market Review

European bonds delivered good returns over the twelve-month period. However, the period started amidst great uncertainty, with German 10-year Bund yields setting a new 13-year high just shy of 3.0% in October 2023, before falling back and finally ending September 2024 at 2.1%, close to its lows. We now know that the ECB increase in September 2023 represented the peak for interest rates. Yet it was not until December that the US Federal Reserve surprised investors with its announcement that interest rates were set to fall in 2024, reassuring investors that inflationary pressures were set to fall and starting a market rally. While 2024 saw the German economy flirt repeatedly with recession, the Eurozone economy remained resilient, with continued, albeit modest, growth even as inflation fell. The euro area annual inflation rate was 1.7% in September 2024, down from 4.3% a year earlier. The decline of inflation allowed the ECB to start cutting interest rates in June 2024, underpinning European bond markets and economic outlook.

Outlook

Our bias for Eurozone bond yields turns less bullish given recent strong performance though we remain in curve steepening positions. The previous quarter saw positive returns in bonds as inflationary pressures eased and labour markets showed signs of easing towards better balance. Yields moved lower across the curve with a bull steepening as shorter-dated bonds led the way. The move occurred mostly in July, caused by weaker economic data and more dovish central banks. The exception was French credit yield spreads, which continued to widen as the new government failed to address a larger and widening deficit. The ECB cut rates by 0.25% in September to continue its cutting cycle. We scale back our bullish positioning as valuations are much richer across the curve, making further performance less likely.

CT (Lux) European Growth & Income

Performance

In the twelve months to 30 September 2024, the Class A EUR shares returned 25.6%. By comparison the FTSE All-World Developed Europe NR Index return was 19.2%. All figures are net of fees and in euro terms.

The Portfolio outperformed the very strong recovery of European equity markets over the period. The largest individual contributor was Cairn Homes, the Irish housebuilder, which saw house prices and sales stay strong, driving rising cash generation, on the back of the outperforming Irish economy. Our overweight stance in tech sectors and stocks, like SAP, boosted by the continued excitement around AI was positive. While the prospect of falling interest rates was negative for the banking sector in general, reflected in the underperformance of DAB in the portfolio, our stock selection in the sector was positive including Intesa Sanpaolo and NatWest, which outperformed on the back of good results. Brenntag underperformed on weak results, as the luxury goods industry struggled with poor sales momentum. TGS NOPEC Geophysical underperformed as weak oil prices cut demand for its services. The zero exposure to defence industries was also a negative for the portfolio compared for the benchmark.

Market Review

European equities delivered strong returns over the twelve months to 30 September 2024. However, the period started amidst great uncertainty, with bond yields peaking and equity markets hitting their lows in October 2023. We now know that the European Central Bank (ECB) increase in September 2023 represented the peak for interest rates. Yet it was not until December that the US Federal Reserve (Fed) surprised investors with its announcement that interest rates were set to fall in 2024, reassuring investors that inflationary pressures were set to fall. As a consequence, equities rallied sharply in the last part of 2023. While 2024 saw the German economy flirt repeatedly with recession, overall the Eurozone economy proved resilient, with continued modest growth even as inflation fell. This translated into a recovery in profitability for European companies. The decline of inflation allowed the ECB to start cutting interest rates in June 2024, underpinning European equity markets.

Outlook

In European equities, there are reasons to remain optimistic. Earnings have been resilient despite higher interest rates; over the longer term, share prices tend to follow earnings. Markets have been dominated by inflation and higher interest rates after a long period of low inflation and rates ended abruptly. Tighter monetary policy is now taking effect and inflation is lower. European economic growth is soft, and manufacturing continues to lag behind the services sector. After falls in inflation, the interest-rate environment in both Europe and the US looks more benign. The ECB, Bank of England and the Fed have started easing monetary policy and further interest rate cuts are anticipated. However, there remains political uncertainty, including the US election in November, while global geopolitical conflicts and tensions are elevated, with possible repercussions for energy prices.

David Moss
Portfolio Manager

Columbia Threadneedle (Lux) III CT (Lux) Global Absolute Return Bond

Performance

Over the twelve months to 30 September 2024, the Class F GBP Hedged shares returned 8.8% (net of investment management fees and net of expenses). By comparison, the SONIA Interbank Rate GBP return was 5.2%. Performance is total return, net of fees and in sterling terms.

The main drivers of returns were exposure to credit spread risk and the embedded interest rate risk of the fund's corporate bond holdings. The fund maintained its strategic tilt to higher beta corporate debt in the BBB-BB area, which had a positive impact on performance as credit spreads tightened. Performance benefitted from relative-value interest rate strategies, and from exposure to a short position in Japan. When central banks commenced their easing cycle, bond yields once again fell back and the fund delivered a good performance as a consequence of its increased duration and yield curve steepening positions. We adopted a more cautious view on credit as the year progressed through a credit hedging strategy. This dampened the credit sensitivity of the fund, which modestly detracted from returns as credit spreads became ever tighter.

Market Review

The period under review – the 12 months to 30 September 2024 – proved to be a positive one for the portfolio, albeit interspersed with some bouts of volatility. The period started amidst great uncertainty, as investors' concerns over persistent inflation and the resilience of the economy combined into fears of stagflation. We now know that the US Federal Reserve's (Fed) increase in interest rates to a targeted range of 5.25% - 5.50% in July 2023 represented the peak, but it was not until December 2023 that the Fed underwent a dovish pivot and first suggested that interest rates were set to fall. This provided investors with confidence for 2024, even though there remained scepticism that the US economy could achieve a 'soft-landing' - bringing inflation back to target without causing a recession. These fears were highlighted later in 2024 by the triggering of the Sahm Rule, a previously consistent recession indicator. However, inflation kept falling and the US economy kept growing, so the outlook for 2024 continued to improve, with bond yields falling and credit spreads tightening. This eventually allowed the Fed to cut interest rates by 0.5%, though this was delayed until the very end of the period in September 2024. Elsewhere, Europe saw inflation fall while sustaining very modest overall growth, although the UK struggled with a technical recession and Germany proved weak. This allowed the European Central Bank to start cutting interest rates in June, with the Bank of England following in August. Japan continued with measures to wean itself off decades of very low interest rates, making progress despite triggering a crash in yen carry-trades in August.

Outlook

Our bias for government bond yields turns less bullish given recent strong performance though we remain in curve steepening positions. The previous quarter saw positive returns in bonds as inflationary pressures eased and labour markets showed signs of easing towards better balance. Yields moved lower across the curve with a bull steepening as shorter-dated bonds led the way. The move occurred mostly in July caused both by weaker economic data and more dovish central banks. The Fed opted to lower rates by a sizable 0.50% to start its cutting cycle. We scale back our bullish positioning as valuations are much richer across the curve making further performance less likely. We see the outlook for global investment grade (IG) corporate credit as fairly neutral, with good fundamentals increasingly reflected in tight valuations. Economic projections point to low but positive growth, which is a benign backdrop for IG. The market is also supported by robust credit fundamentals, such as low leverage for corporate issuers and high levels of capital for banks. The key concern is that credit yield spreads finished Q3 further inside five and 20-year averages. Some of the reduction in spreads reflects the reduction in the average duration of the index over the last few years. Furthermore, outright yields – another way of looking at valuations – remain above their long-run average.

Columbia Threadneedle (Lux) III CT (Lux) Global Convertible Bond

Performance

In the twelve months to 30 September 2024, the return on the A EUR shares was 7.6%, while the return for the FTSE Global Focus Customised TR Index was 9.1%. Performance is net of fees and in euro terms.

The Portfolio delivered good returns but fell short of the benchmark. Stock selection was the main detractor driver compared to the index. In healthcare, Dexcom, maker of continuous glucose monitoring systems, surprised investors with a drastic cut to its sales projections. We maintained the holding on the view that Dexcom continues to hold a strong competitive position despite its recent stumble and bond became very defensive against downsides. Slowing electric vehicle sales hit not just manufacturers, such as the Portfolio's holding of Rivian Automotive, but also auto-related semiconductor manufactures and shares of lithium miner, Albemarle, held in the Portfolio, which suffered from weak demands and continued inventory deleverage. However, the Portfolio did take advantage of a late surge in billion-dollar issues to benefit from renewed outperformance of technology-driven sectors. Two of the China new issues, Alibaba and Trip.com, both surged in the final week of the period following the country's stimulus announcement, strongly contributing to relative performance. Issuers associated with artificial intelligence (AI) also continued to outperform, led by Hewlett Packard which issued a new convertible in September. Bitcoin Miner turned AI datacentre builder Core Scientific surged after its August issuance of a convertible bond. Rocket Lab rallied on optimism that the firm is positioned to capitalize on defence companies' desire to have an alternative to the current monopoly held by Elon Musk's SpaceX.

Market Review

While convertible securities registered positive returns over the twelve months to 30 September 2024, they trailed the equity market by a considerable margin. This reflects that much of the gain for equities came from large caps, particularly a narrow group of US mega-cap technology stocks. On the other hand, small- and mid-sized companies — the group most heavily represented in the convertible market — produced smaller gains. The period started amidst great uncertainty, as investors' concerns over persistent inflation and the resilience of the economy combined into fears of stagflation. We now know that the US Federal Reserve's (Fed) increase in interest rates to a targeted range of 5.25% - 5.50% in July 2023 represented the peak, but it was not until December 2023 that the Fed underwent a dovish pivot and first suggested that interest rates were set to fall. This provided investors with confidence for 2024, even though there remained scepticism that the US economy could achieve a 'soft-landing' - bringing inflation back to target without causing a recession. These fears were highlighted later in 2024 by the triggering of the Sahm Rule, a previously consistent recession indicator. However, inflation kept falling and the US economy kept growing, so the outlook for 2024 continued to improve, with bond yields falling and equity markets rallying. This eventually allowed the Fed to cut interest rates by 0.5%, though this was delayed until the very end of the period in September 2024. Elsewhere, Europe saw inflation fall while sustaining very modest overall growth, although the UK struggled with a technical recession and Germany proved weak. This allowed the European Central Bank to start cutting interest rates in June, with the Bank of England following in August. Japan continued with measures to wean itself off decades of very low interest rates, making progress despite triggering a crash in yen carry-trades in August. Chinese markets languished for most of the period under a property slump and punitive regulatory intervention, but the stimulus measures announced at the end of September were of sufficient magnitude to trigger a substantial rally erasing its underperformance in 2024.

Outlook

Market performance was uneven in the first half of the year, primarily as a result of macroeconomic factors. More recently, we've seen an easing of the various concerns in this area through developments such as falling inflation, the Fed enacting its long-awaited interest rate cut, and China choosing to take steps supportive for its economy. We think this should allow investors to return their focus to issuer fundamentals, which would be a positive since companies are benefiting from healthy consumer spending, increased investment in healthcare and technology, and steady economic growth. Although convertibles have performed well on a year-to-date basis, we see room for further gains given that the asset class continues to feature both meaningful participation in market upside as well as a measure of downside protection. Credit concerns have faded into the background with rates coming down, and new issues are featuring attractive coupons with reasonable premiums. We believe these factors help create a continued foundation for market performance as we move toward 2025.

Yan Jin
Senior Portfolio Manager

Columbia Threadneedle (Lux) III CT (Lux) Global Total Return Bond

Performance

Over the twelve months to 30 September 2024, the Class I Acc EUR shares returned 9.6% (net of investment management fees and net of expenses). By comparison, its market reference, the Bloomberg Barclays Global Aggregate TR EUR Hedged Index returned 8.7%. Performance is total return, net of fees and in euro terms.

The main drivers of returns were exposure to credit spread risk and the embedded interest rate risk of the fund's corporate bond holdings. The fund maintained its strategic tilt to higher beta corporate debt in the BBB-BB area, which had a positive impact on performance as credit spreads tightened. Performance benefitted from relative-value interest rate strategies, and from exposure to a short position in Japan. When central banks commenced their easing cycle, bond yields once again fell back and the fund delivered a good performance as a consequence of its increased duration and yield curve steepening positions. We adopted a more cautious view on credit as the year progressed through a credit hedging strategy. This dampened the credit sensitivity of the fund, which modestly detracted from returns as credit spreads became ever tighter.

Market Review

The period under review – the 12 months to 30 September 2024 – proved to be a positive one for the portfolio, albeit interspersed with some bouts of volatility. The period started amidst great uncertainty, as investors' concerns over persistent inflation and the resilience of the economy combined into fears of stagflation. We now know that the US Federal Reserve's (Fed) increase in interest rates to a targeted range of 5.25% - 5.50% in July 2023 represented the peak, but it was not until December 2023 that the Fed underwent a dovish pivot and first suggested that interest rates were set to fall. This provided investors with confidence for 2024, even though there remained scepticism that the US economy could achieve a 'soft-landing' - bringing inflation back to target without causing a recession. These fears were highlighted later in 2024 by the triggering of the Sahm Rule, a previously consistent recession indicator. However, inflation kept falling and the US economy kept growing, so the outlook for 2024 continued to improve, with bond yields falling and credit spreads tightening. This eventually allowed the Fed to cut interest rates by 0.5%, though this was delayed until the very end of the period in September 2024. Elsewhere, Europe saw inflation fall while sustaining very modest overall growth, although the UK struggled with a technical recession and Germany proved weak. This allowed the European Central Bank to start cutting interest rates in June, with the Bank of England following in August. Japan continued with measures to wean itself off decades of very low interest rates, making progress despite triggering a crash in yen carry-trades in August.

Outlook

Our bias for government bond yields turns less bullish given recent strong performance though we remain in curve steepening positions. The previous quarter saw positive returns in bonds as inflationary pressures eased and labour markets showed signs of easing towards better balance. Yields moved lower across the curve with a bull steepening as shorter-dated bonds led the way. The move occurred mostly in July caused both by weaker economic data and more dovish central banks. The Fed opted to lower rates by a sizable 0.50% to start its cutting cycle. We scale back our bullish positioning as valuations are much richer across the curve making further performance less likely. We see the outlook for global investment grade (IG) corporate credit as fairly neutral, with good fundamentals increasingly reflected in tight valuations. Economic projections point to low but positive growth, which is a benign backdrop for IG. The market is also supported by robust credit fundamentals, such as low leverage for corporate issuers and high levels of capital for banks. The key concern is that credit yield spreads finished Q3 further inside five and 20-year averages. Some of the reduction in spreads reflects the reduction in the average duration of the index over the last few years. Furthermore, outright yields – another way of looking at valuations – remain above their long-run average.

Columbia Threadneedle (Lux) III CT (Lux) Responsible Euro Corporate Bond

Performance

Over the twelve months to 30 September 2024, the Class F EUR shares returned 9.4%. This compares to the BBI Euro Aggregate Corporate TR Index, which returned 9.6%. Performance is total return, net of fees for the portfolio and in euro terms.

In gross terms, the portfolio generated a return slightly ahead of its benchmark. The primary market was even busier than expected in 2024 and we took advantage of many new issues. This boosted performance as new bonds, especially earlier in the period, were often issued at wider credit spreads than the market to attract investor demand. However, despite this activity, we managed the portfolio to ensure that the fund's credit risk profile was not driven higher, being mindful that overall credit spreads were expensive relative to their historic averages. As measured by duration times spread (DTS), credit risk in the portfolio started and ended the period broadly in line with the index. Relative duration (interest rate sensitivity) was reduced from a modest overweight to in line with the index as yields fell in reaction to the start of interest rate cuts in core markets. The lack of exposure to oil & gas also proved unfavourable, as did an overweight in consumer services. On the other side, the large overweight in banks, and financials more generally, added value.

Market Review

European corporate bonds delivered good returns over the twelve-month period. However, the period started amidst great uncertainty, with bond yields peaking and equity markets hitting their lows in October 2023. We now know that the European Central Bank (ECB) increase in September 2023 represented the peak for interest rates. Yet it was not until December that the US Federal Reserve surprised investors with its announcement that interest rates were set to fall in 2024, reassuring investors that inflationary pressures were set to fall and started a market rally. While 2024 saw the German economy flirt repeatedly with recession, overall, the Eurozone economy proved resilient, with continued modest growth even as inflation fell. This translated into a recovery in profitability for European companies allowing credit spreads to continue to tighten even as bond yields were more volatile. The decline of inflation allowed the ECB to start cutting interest rates in June 2024, underpinning European bond markets and economic outlook. The euro area annual inflation rate was 1.7% in September 2024, down from 4.3% a year earlier.

Outlook

We see a fairly neutral outlook for European investment grade (IG) corporate credit, with good fundamentals balanced by tight valuations. Interest rates in the eurozone will remain restrictive for some time – even if the ECB cuts more aggressively than currently expected. Headline inflation has returned to target, but the core measure remains sticky. The forecasted gentle economic recovery is positive for IG issuers. The market is also supported by strong balance sheets for both borrowers and banks. Valuations are the concern, with euro IG credit spreads tighter than their five- and 20-year averages at quarter end (albeit less expensive than US and UK markets). However, outright yields in the market remain above the long-run average, which we think provides an interesting entry point for those seeking income without too much risk.

Andrew Brown
Portfolio Manager

CT (Lux) Responsible Global Emerging Markets Equity

Performance

Over the twelve months to 30 September 2024, the Class A USD shares returned 15.8%. By comparison, the MSCI Emerging Markets NR Index, returned 26.1%. Performance is net of fees and in US dollar terms.

The Portfolio underperformed its benchmark over the period. A major driver was the underweight position in China. Chinese equities surged after a stimulus programme was announced, lifting companies such as Tencent, which we do not own given governance concerns. After 20% growth last year, Jeronimo Martins fell back on worries over their ability to maintain momentum in the face of higher comparators, rising costs and deflation worries. They have net cash and we're constructive over the outlook for growth long term, given new store rollout in Colombia, as well as market share gains. Sendas Distribuidora, the Brazilian cash & carry chain, underperformed as investors worried over high debt levels, though we are positive on rising sales from existing and upgraded stores. Wuxi Biologics detracted as it will potentially see a negative impact from the US "Biosecure Act" bill; we have sold this holding. By contrast, the overweight position in IT was positive as the sector continued to benefit from investor interest in AI, as was stock selection with FPT, the Vietnamese IT group, being the largest individual contributor after another strong set of results. Max Healthcare Institute, the Indian hospital group outperformed on the back of good results announced in January.

Market Review

It was a strong twelve-month period for emerging market (EM) equities overall, up +26% in US dollar terms and outperforming developed markets. But it wasn't a simple story, EM equities initially rallied when the US Federal Reserve's (Fed) signalled the end of rate hikes at the end of 2023. However, the Fed ending up getting ahead of themselves, following stronger-than-anticipated economic data, so that interest rate cuts were postponed repeatedly, hitting investor sentiment in the first half of 2024. The Fed only finally started easing in September 2024, lagging rather than leading the global interest rate cycle. There was a massive run-up in tech stocks related to AI over the period, but that was interrupted by a sharp, if temporary, reversal in the third quarter of 2024. Negative headlines from China, related to property sector concerns and weak consumption, held back that key equity market and acted as a drag on EM equities. However, Chinese equity underperformance was reversed after the government announced massive stimulus measures in September, helping to boost overall returns for EM equities.

Outlook

The Fed's first rate cut gives room for Emerging Market (EM) central banks to follow suit, providing a great boost for consumption, earnings and growth. While some EM economies have already begun their easing cycles, given relatively high policy rates, many now have scope to cut rates faster. North Asian economies are benefitting from the increasing demand for AI technology hardware. The Indian economy is experiencing a structural growth cycle underpinned by infrastructure and manufacturing investment. The Chinese economic challenges are well known, so we await details of its biggest monetary stimulus since the pandemic to understand the impact on economic activity, expansion and demand. EM stocks are undervalued, trading significantly below long-term averages and cheap relative to global equities. With a recovery in earnings and improving GDP growth estimates, we believe EM equities are now looking attractive.

Fund Manager Gokce Bulut

Performance

Over the twelve months to 30 September 2024, the Class A EUR shares returned 24.1%; by comparison the MSCI World NR Index returned 25.6%. Performance net of fees and in euro terms.

The strong gains from the Portfolio lagged those of the benchmark over the period. From a sector allocation perspective, being overweight to IT was a tailwind, as the market embraced the AI thematic rally. From a stock perspective, performance was rooted in AI-related winners. Our holding in Nvidia was the biggest positive driver, as the stock rallied to all-time highs as demand for GPUs proved enormous. Our holding in chip manufacturer TSMC also drove significant returns, as demand for its capacity increased. Cyber-security firm CrowdStrike, also outperformed as the company reporting strong earnings. However, the sector was volatile as investor sentiment oscillated and returns were enhanced by profit-taking and timely trading activity. On the negative side, Aptiv underperformed given its exposure to a slowing EV industry. Dexcom, the manufacturer of diabetes monitoring systems, issued very disappointing guidance, as recent internal adjustments have driven market share losses.

Market Review

The period under review – the 12 months to 30 September 2024 – proved to be a positive one for the portfolio, albeit interspersed with some bouts of volatility. The period started amidst great uncertainty, as investors' concerns over persistent inflation and the resilience of the economy combined into fears of stagflation. We now know that the US Federal Reserve's (Fed) increase in interest rates to a targeted range of 5.25% - 5.50% in July 2023 represented the peak, but it was not until December 2023 that the Fed underwent a dovish pivot and first suggested that interest rates were set to fall. As a consequence, equities rallied sharply. Gains were led by technology shares fuelled by continuing excitement around AI. Inflation kept falling and the US economy kept growing, so the outlook for 2024 continued to improve, with bond yields falling and equity markets rallying. This eventually allowed the Fed to cut interest rates by 0.5%, though this was delayed until the very end of the period in September 2024. Elsewhere, Europe saw inflation fall while sustaining very modest overall growth, although the UK struggled with a technical recession and Germany proved weak. This allowed the European Central Bank to start cutting interest rates in June, with the Bank of England following in August. Japan continued with measures to wean itself off decades of very low interest rates, making progress despite triggering a crash in yen carry-trades in August. Chinese markets languished for most of the period under a property slump and punitive regulatory intervention, but the stimulus measures announced at the end of September were of sufficient magnitude to trigger a substantial rally erasing its underperformance in 2024.

Outlook

The MSCI World index continued to recover from its July sell-off, rallying in September to set an all-time high on the last day of the month. Fundamental to this rally has been central bank liquidity, with the Federal Reserve finally cutting rates in the US in September, reducing its policy rate by 50 basis points, the first cut since March 2020, and central banks are now focusing on protecting economies and employment. We are now in a moment when most developed market central banks are cutting rates simultaneously, and China is embarking on a significant program of economic stimulus. Geo-political risks are clearly bubbling to the surface, from tensions in the Middle East to US election volatility. However, we believe there are reasons to remain bullish on equities, and longer-term high quality, well managed companies will continue to perform well.

Performance

Over the twelve months to 30 September 2024, the Class AAcc USD shares returned 29.8%; by comparison the MSCI ACWI Mid Cap NR Index returned 26.8%. Performance is net of fees and in US dollar terms.

The Portfolio outperformed the strong gains of the benchmark over the period. The key driver was stock selection. On the positive side was US IT storage firm NetApp, which posted another positive set of results and benefitted from the AI tailwind. US flooring firm, Mohawk Industries, traded higher on assumption that US rate cuts will stimulate demand. US lighting solutions provider Acuity Brands rose after positive results and better profit margin momentum. Detracting from performance were US auto parts maker, Aptiv, on EV end-market slowdown fears, while US cold chain logistics firm, Americold Realty, laboured under worries about the impact of GLP-1s reducing food volumes. US multi-industrial, Idex, saw concerns about short order cycle momentum stalling.

Market Review

The period under review – the 12 months to 30 September 2024 – proved to be a positive one for the portfolio, albeit interspersed with some bouts of volatility. The period started amidst great uncertainty, as investors' concerns over persistent inflation and the resilience of the economy combined into fears of stagflation. We now know that the US Federal Reserve's (Fed) increase in interest rates to a targeted range of 5.25% - 5.50% in July 2023 represented the peak, but it was not until December 2023 that the Fed underwent a dovish pivot and first suggested that interest rates were set to fall. As a consequence, equities rallied sharply. Gains were led by technology shares fuelled by continuing excitement around AI. Inflation kept falling and the US economy kept growing, so the outlook for 2024 continued to improve, with bond yields falling and equity markets rallying. This eventually allowed the Fed to cut interest rates by 0.5%, though this was delayed until the very end of the period in September 2024. Elsewhere, Europe saw inflation fall while sustaining very modest overall growth, although the UK struggled with a technical recession and Germany proved weak. This allowed the European Central Bank to start cutting interest rates in June, with the Bank of England following in August. Japan continued with measures to wean itself off decades of very low interest rates, making progress despite triggering a crash in yen carry-trades in August. Chinese markets languished for most of the period under a property slump and punitive regulatory intervention, but the stimulus measures announced at the end of September were of sufficient magnitude to trigger a substantial rally erasing its underperformance in 2024.

Outlook

The MSCI World index continued to recover from its July sell-off, rallying in September to set an all-time high on the last day of the month. Fundamental to this rally has been central bank liquidity, with the Federal Reserve finally cutting rates in the US in September, reducing its policy rate by 50 basis points, the first cut since March 2020, and central banks are now focusing on protecting economies and employment. We are now in a moment when most developed market central banks are cutting rates simultaneously, and China is embarking on a significant program of economic stimulus. Geo-political risks are clearly bubbling to the surface, from tensions in the Middle East to US election volatility. However, we believe there are reasons to remain bullish on equities, and longer-term high quality, well managed companies will continue to perform well.

Columbia Threadneedle (Lux) III CT (Lux) Sustainable Global Equity Enhanced Income

Performance

Over the twelve months to 30 September 2024, the A Acc share class returned 30.5%. By comparison, the MSCI All-Country World NR Index returned 31.8%. Performance is net return and in US dollar terms.

The fund has a dual sustainable and income mandate. It aims to provide income combined with capital growth over the long term (at least 5 years). The fund is actively managed and combines a core equity component with an active derivatives strategy to enhance income. The fund aims to provide long-term capital growth by investing primarily in sustainable investments, considered for this fund to be shares of companies that derive, or are on a credible short to medium-term pathway to derive, a significant amount of net revenue (50% or more) from activities that can be directly linked to one or more of the UN Sustainable Development Goals ("SDGs").

During this risk-on period, the value-focused strategy of the Portfolio moderately underperformed the benchmark, but demonstrated decent resilience given the underlying trends within global equity markets. As an example of this, the largest single stock detractor was not owning Nvidia (which does not meet the income threshold for the Portfolio) which performed very strongly for the benchmark amid ongoing AI demand tailwinds. However, this was largely offset by contributions from holdings in Broadcom, NetApp and TSMC that performed strongly on the back of the same AI theme and good results. We trimmed recent AI winners at the start of the third quarter of 2024, namely Microsoft, NetApp, Broadcom and TSMC. These we rotated into more defensive compounding growers, such as SGS, Daiwa House Industry, and Hubbell. On a short-term view at any rate, these changes were well timed and decently to the benefit of relative performance.

Market Review

The period under review – the 12 months to 30 September 2024 – proved to be a positive one for the portfolio, albeit interspersed with some bouts of volatility. The period started amidst great uncertainty, as investors' concerns over persistent inflation and the resilience of the economy combined into fears of stagflation. We now know that the US Federal Reserve's (Fed) increase in interest rates to a targeted range of 5.25% - 5.50% in July 2023 represented the peak, but it was not until December 2023 that the Fed underwent a dovish pivot and first suggested that interest rates were set to fall. As a consequence, equities rallied sharply. Gains were led by technology shares fuelled by continuing excitement around AI. Inflation kept falling and the US economy kept growing, so the outlook for 2024 continued to improve, with bond yields falling and equity markets rallying. This eventually allowed the Fed to cut interest rates by 0.5%, though this was delayed until the very end of the period in September 2024. Elsewhere, Europe saw inflation fall while sustaining very modest overall growth, although the UK struggled with a technical recession and Germany proved weak. This allowed the European Central Bank to start cutting interest rates in June, with the Bank of England following in August. Japan continued with measures to wean itself off decades of very low interest rates, making progress despite triggering a crash in yen carry-trades in August. Chinese markets languished for most of the period under a property slump and punitive regulatory intervention, but the stimulus measures announced at the end of September were of sufficient magnitude to trigger a substantial rally erasing its underperformance in 2024.

Outlook

The MSCI World index continued to recover from its July sell-off, rallying in September to set an all-time high on the last day of the month. Fundamental to this rally has been central bank liquidity, with the Federal Reserve finally cutting rates in the US in September, reducing its policy rate by 50 basis points, the first cut since March 2020, and central banks are now focusing on protecting economies and employment. We are now in a moment when most developed market central banks are cutting rates simultaneously, and China is embarking on a significant program of economic stimulus. Geo-political risks are clearly bubbling to the surface, from tensions in the Middle East to US election volatility. However, we believe there are reasons to remain bullish on equities, and longer-term high quality, well managed companies will continue to perform well.

Fund Manager Nick Henderson

Performance

Over the twelve months to 30 September 2024, the Class F EUR share returned 15.2%. By comparison, the benchmark of 1-month Euribor rate, returned 3.9% over the same period. Performance is net of fees and in euro terms.

Our portfolio positioning retains its bias towards higher quality, sustainable growth companies that can prosper despite near-term economic and policy-driven volatility, giving us a bias towards healthcare, information technology and industrials. Our integrated approach to Sustainable Investment prevents any allocation to companies that manufacture weapons or tobacco or that own or derive revenue from fossil fuel reserves. We continue with our strategy of adding to positions where we see strong underlying quality and where the market allows us to add at more attractive levels. Equities and credit remain our largest allocations, with a smaller position in alternatives.

Market Review

The period under review – the 12 months to 30 September 2024 – proved to be a positive one for the portfolio, albeit interspersed with some bouts of volatility. The period started amidst great uncertainty, as investors' concerns over persistent inflation and the resilience of the economy combined into fears of stagflation. We now know that the US Federal Reserve's (Fed) increase in interest rates to a targeted range of 5.25% - 5.50% in July 2023 represented the peak, but it was not until December 2023 that the Fed underwent a dovish pivot and first suggested that interest rates were set to fall. This provided investors with confidence for 2024, even though there remained scepticism that the US economy could achieve a 'soft-landing' - bringing inflation back to target without causing a recession. These fears were highlighted later in 2024 by the triggering of the Sahm Rule, a previously consistent recession indicator. However, inflation kept falling and the US economy kept growing, so the outlook for 2024 continued to improve, with bond yields falling and equity markets rallying. This eventually allowed the Fed to cut interest rates by 0.5%, though this was delayed until the very end of the period in September 2024. Elsewhere, Europe saw inflation fall while sustaining very modest overall growth, although the UK struggled with a technical recession and Germany proved weak. This allowed the European Central Bank to start cutting interest rates in June, with the Bank of England following in August. Japan continued with measures to wean itself off decades of very low interest rates, making progress despite triggering a crash in yen carry-trades in August. Chinese markets languished for most of the period under a property slump and punitive regulatory intervention, but the stimulus measures announced at the end of September were of sufficient magnitude to trigger a substantial rally erasing its underperformance in 2024.

Outlook

As we enter the last quarter of 2024, it appears that the Fed, following their aggressive rate hikes, have practically achieved immaculate disinflation - where the US economy avoids falling into a recession, inflation comes down to target, while employment remains relatively unaffected. We would expect US inflation to continue its journey lower towards its 2% target, albeit at a slower pace than seen over the past 12 months. US annual headline inflation (CPI) currently sits at 2.4%, (although it should be noted that core inflation is higher at 3.3% and recently increased from its lows). The Fed appear to be comfortable with the inflation outlook, and they are now focussing their attention on the second part of their mandate – full employment. Employment data is naturally very volatile, relatively hard to capture accurately, and full of adjustments. Hence, we do not look at just one measure, nor pay too much attention to one single data point. When looking across a wide variety of employment measures it is clear that the employment situation in the US remains strong but on a weakening path. This weaker data led to the Fed starting their rate cutting cycle with a larger than normal 0.5% cut. There was a danger that this sized cut could be interpreted as meaning the Fed were behind the curve, leading the market to expect further significant cuts. Fed Chair Powell managed to message this oversized-cut well, by stating that this decision was just a small catch-up. As a consequence, we have seen expectations for future rate cuts reduce, from a further three cuts by year end to less than two and, as a consequence, Treasury yields have increased considerably. The strong jobs report for September, released just after quarter-end, has put further upward pressure on bond yields. As mentioned earlier, employment data is notoriously volatile and full of revisions and seasonality adjustments, and so we would need to see further data releases to back up or reject this recent outlier. On balance, we expect the Fed to continue to cut rates at a consistent pace over the next twelve months which, given where yields have retraced to, suggests government bonds once again have the potential opportunity for outsized gains.

Columbia Threadneedle (Lux) III CT (Lux) Sustainable Opportunities European Equity

Performance

In the twelve months to 30 September 2024, the Class A share EUR returned 25.1%. By comparison the benchmark returned 18.8%. Performance is net of fees and in euro terms. The benchmark for this Portfolio was changed to MSCI Europe NR Index on 14/10/19, previously it was the FTSE All-World Developed Europe NR.

The Portfolio outperformed the very strong recovery of European equity markets over the period. The largest individual contributor was Cairn Homes, the Irish housebuilder, which saw house prices and sales stay strong, driving rising cash generation, on the back of the outperforming Irish economy. Our overweight stance in tech sectors, boosted by the continued excitement around AI, was positive. This also boosted SAP, the software group, while ASML saw strong orders for its EUV lithography equipment used to make high end semi-conductors. There was also a positive contributor from not owning any luxury goods stocks, where sales momentum continues to weaken. On the negative side the two renewable energy exposed stocks, Alfen Beheer and Vestas Wind Systems, were the weakest performers. Alfen Beheer gave a profit warning on project delays and lower EV charging demand. Vestas Wind Systems was weak on concerns on weak order intake and Chinese competition. Lenzing, the textiles manufacturer, underperformed with weak results and a lacklustre outlook. The zero exposure to defence industries was also a negative for the portfolio compared for the benchmark.

Market Review

European equities delivered strong returns over the twelve months to 30 September 2024. However, the period started amidst great uncertainty, with bond yields peaking and equity markets hitting their lows in October 2023. We now know that the European Central Bank (ECB) increase in September 2023 represented the peak for interest rates. Yet it was not until December that the US Federal Reserve (Fed) surprised investors with its announcement that interest rates were set to fall in 2024, reassuring investors that inflationary pressures were set to fall. As a consequence, equities rallied sharply in the last part of 2023. While 2024 saw the German economy flirt repeatedly with recession, overall, the Eurozone economy proved resilient, with continued modest growth even as inflation fell. This translated into a recovery in profitability for European companies. The decline of inflation allowed the ECB to start cutting interest rates in June 2024, underpinning European equity markets.

Outlook

In European equities, there are reasons to remain optimistic. Earnings have been resilient despite higher interest rates; over the longer term, share prices tend to follow earnings. Markets have been dominated by inflation and higher interest rates after a long period of low inflation and rates ended abruptly. Tighter monetary policy is now taking effect and inflation is lower. European economic growth is soft, and manufacturing continues to lag behind the services sector. After falls in inflation, the interest-rate environment in both Europe and the US looks more benign. The ECB, Bank of England and the Fed have started easing monetary policy and further interest rate cuts are anticipated. However, there remains political uncertainty, including the US election in November, while global geopolitical conflicts and tensions are elevated, with possible repercussions for energy prices.

Columbia Threadneedle (Lux) III

Notes to the Financial Statements

as at 30 September 2024

1. Columbia Threadneedle (Lux) III, (THE “FUND”)

The Fund is a “Société d’Investissement à Capital Variable” and is qualified as a Luxembourg investment company. Under the laws of the Grand Duchy of Luxembourg, the Fund is registered as an undertaking for collective investment pursuant to Part I of the amended Law of 17 December 2010 relating to undertakings for collective investment (the “Law”).

Came Global Fund Managers (Luxembourg) S.A. has been designated by the directors of the Fund as management company (the “Management Company”) by an agreement dated 1 October 2021. The list of the investment funds managed by the Management Company may be obtained, on request, at the registered office of the Management Company.

The Management Company is a Société Anonyme incorporated under the laws of Luxembourg with registered number B 148258 and approved to act as a Management Company for Luxembourg authorised collective investment schemes pursuant to Chapter 15 of the law of 17 December 2010. The Management Company acts as UCITS Management Company to a range of Luxembourg authorised UCITS collective investment schemes. It also acts as an Alternative Investment Fund Manager to alternative investment funds. The registered office of the Management Company is at 3, rue Jean Piret, L-2350 Luxembourg, Grand Duchy of Luxembourg.

The Fund’s board of directors (the “Board” or “Directors” and each a “Director”) has adopted the ALFI Code of Conduct, which sets out the principles of good governance, and considers that the Fund has been in compliance with it in all material respects throughout the financial year ended 30 September 2024.

2. SIGNIFICANT ACCOUNTING POLICIES

Presentation of financial statements

The financial statements have been presented in accordance with the reporting requirements of the Luxembourg supervisory authorities and Luxembourg generally accepted accounting principles (“GAAP”).

Combined accounts

The combined financial statements have been presented in Euro, the functional currency of the Fund. Where a Portfolio is denominated in a currency other than Euro, the average exchange rate has been used for the Statement of Operations and Changes in Net Assets. The exchange rate ruling as at the reporting date has been used for the Statement of Net Assets.

Investments

As per the Prospectus and for the purpose of determining the Net Asset Value used for subscriptions and redemptions, the quoted investments and those traded in other regulated markets are valued on the basis of the last available price at 30 September 2024.

Securities which are not quoted on, or dealt, in an official or another regulated market, or securities which are so quoted or dealt in but in which the last sale price is not available, and securities for which the last sale price is not representative of the fair market value, the value of such securities will be determined based on an agreed pricing basis and the reasonably foreseeable sales price determined prudently and in good faith, upon the advice of the Investment Manager, by the Directors. Purchases and sales of investments are recognised on the trade date. Gains or losses on sales of investments are computed on the average cost basis and include transaction costs.

Investment income

Dividends are recognised in income, net of irrecoverable withholding tax, on the date upon which the relevant securities are declared “ex-dividend”.

Translation of foreign currencies

Assets and liabilities denominated in currencies other than the Portfolios’ reporting currencies have been translated at the rates of exchange ruling at 30 September 2024. Cost of investments and income and expenditure which are denominated in currencies other than the Portfolios’ reporting currency have been translated at the exchange rates ruling on the day of transaction. The exchange gain or loss arising from the translation of these items is taken into account in the determination of the results of operations. The average USD/EUR exchange rate during the year was 0.922498. The USD/EUR exchange rate as at 30 September 2024 was 0.896017.

Cross portfolio investments

At 30 September 2024 there were no cross investments.

Futures contracts on securities and indices

Initial margin deposits are made upon entering into futures contracts and can be made either in cash or securities. During the year the futures contract is open, changes in the value of the contract are recognised as unrealised gains or losses by “marking-to-market” on a daily basis to reflect the market value of the contract at the end of each day’s trading. Variation margin payments are made or received, depending upon whether unrealised losses or gains are incurred. When the contract is closed, the Fund records a realised gain or loss equal to the difference between the proceeds from (or cost of) the closing transaction and the Fund’s basis in the contract.

Columbia Threadneedle (Lux) III

Notes to the Financial Statements (continued)

as at 30 September 2024

Forward foreign exchange contracts

The unrealised gain or loss on open forward foreign exchange contracts is calculated as the difference between the contracted rate and the rate to close out the contract. Realised profit or loss includes net gains or losses on forward foreign exchange contracts which have been settled or offset by other contracts with the same counterparty.

Options Purchased and Options Written

The premium paid for options purchased is recorded as an investment and is subsequently adjusted to the current market value of the option. Premiums paid for the purchase of options which expire unexercised are treated as realised losses on the expiration date. If a purchased put option is exercised, the premium is subtracted from the proceeds of the sale of the underlying security, foreign currency or index, in determining whether the relevant Portfolio has realised a gain or a loss. If a purchased call option is exercised, the premium increases the cost basis of the security, foreign currency or index purchased by the Portfolio.

For a written option, an amount equal to the premium received by the relevant Portfolio is recorded as a liability and is subsequently adjusted to the current market value of the option written. Premiums received from written options which expire unexercised are treated by the relevant Portfolio as realised gains on the expiration date. If a written call option is exercised, the premium is added to the proceeds from the sale of the underlying security in determining whether the relevant Portfolio has realised a gain or a loss. If a written put option is exercised, the premium reduces the cost basis of the security purchased by the relevant Portfolio.

Future style options

In the case of options on futures, no premium margin is required as a daily profit and loss adjustment (variation margin) is made by the procedure known as "marking-to-market". The profit of one party to the contract is the loss of the other party. The resulting gains and losses are either debited or credited to the appropriate account on a daily basis via the mark-to-market process. The final valuation is made at the final settlement price of either the expiration date of the option or the day on which it was exercised.

Swap contracts

The Fund may enter into swap contracts in which the Fund and the counterparty agree to exchange payments (periodically throughout the life of the contract) where one or both parties pay the returns generated by a security, index commodities, or instruments on an agreed upon notional amount. The relevant indices include, but are not limited to, currencies, interest rates, prices and total return on interest rates indices, fixed income indices and stock indices. Swaps are valued at their fair value based on the underlying securities (at close of business or intraday) as well as on the characteristics of the underlying commitments.

Cash and cash equivalents

Cash and other liquid assets are valued at their face value, including interest accrued, where applicable. Interest is also accrued on bank overdrafts. All cash at bank is held either directly with a sub-depositary or by State Street Bank International GmbH, Luxembourg Branch, on overnight deposit with a third party institution which has been approved by the Board. The cash collateral in relations to the futures contracts, swaps, forward foreign exchange contracts and options are included in the statement of net assets respectively under "Cash held at brokers" and "Amounts due to brokers".

Income and receivable from securities lending

The Fund may lend its portfolio securities to specialised banks and credit institutions and other financial institutions of high standing and highly qualified registered brokers/dealers or through recognised clearing institutions such as Clearstream or Euroclear subject to complying with the provisions set forth in the CSSF Circular 08/356. Loans will be secured continuously by eligible collateral authorised from time to time by the CSSF. During the whole period of lending, collateral must be at least equal to the value of the global valuation of the securities lent. Each counterparty will possess an industry standard credit rating that is acceptable to the Investment Manager with reference to the market conditions prevailing at the relevant time.

Total amount of Security lending income: 92,505 EUR

Total amount of Security lending receivable: 2,127 EUR

As at 30 September, 2024, total amount of Security lending receivable is included in Other assets.

Net amortization/Net accretion

Net amortization/Net accretion, includes the amortization and accretion of premiums / discounts from both, the long and short term fixed income securities. Interest income, net of irrecoverable withholding tax, is accrued on a daily basis and includes the amortisation of premiums and accretion of discounts. All components are netted and disclosed in the Statement of Operations and Changes in Net Assets as a positive sum under the income position "Net amortization/ Net accretion" and as a negative sum under the expense position "Net amortization / Net accretion". Net amortization/Net accretion are calculated on straight line basis.

Columbia Threadneedle (Lux) III

Notes to the Financial Statements (continued)

as at 30 September 2024

3. EQUALISATION

The Fund follows the accounting practice known as "equalisation" by which a portion of the issue and redemption price representing, on a per share basis, accrued distributable investment income (excluding capital gains or losses), is credited or charged to distributable income. The amounts attributable to this income equalisation account are included in the proceeds from subscriptions to the Fund's shares or in the payment for the Fund's shares redeemed, and in the "Net equalisation", items of the Statement of Operations and Changes in Net Assets.

4. CASH BALANCES FOR LIQUIDATED PORTFOLIOS

Cash balances for liquidated Portfolios as of year end are disclosed in the below table:

Portfolio	Currency	Cash balance as of 30 September 2024
CT (Lux) Global Smaller Cap Equity	USD	6,613
CT (Lux) European Smaller Cap	CHF	2,527
CT (Lux) European Smaller Cap	EUR	12,584
CT (Lux) US Smaller Companies	USD	31,188

The cash held by the above Portfolios will be used to pay outstanding expenses up to liquidation date. Any residual cash will be paid to those who were shareholders as at the liquidation date.

5. INVESTMENT MANAGEMENT FEES

The Fund entered into an agreement with the Management Company and Columbia Threadneedle Management Limited ("CTML") to act as investment manager to the following Portfolios for a monthly fee calculated on the average of the net asset value of each of the following Portfolios managed by it during the preceding month at the following rates:

*Refer to Appendix I.

CTML is a company incorporated in England and regulated by the Financial Conduct Authority ("FCA").

For the CT (Lux) Global Convertible Bond (from December 15, 2023), CT (Lux) Global Total Return Bond, CT (Lux) Global Absolute Return Bond, CT (Lux) Responsible Euro Corporate Bond and CT (Lux) Sustainable Multi-Asset Income, CTML has delegated the portfolio management functions to Columbia Management Investment Advisers, LLC.

For the CT (Lux) Responsible Global Emerging Markets Equity, CTML has delegated the portfolio management functions to Columbia Threadneedle (EM) Investments Limited.

Columbia Threadneedle (Lux) III

Notes to the Financial Statements (continued)

as at 30 September 2024

For CT (Lux) US Smaller Companies (since 13 June 2024), CTML has delegated the portfolio management functions to Columbia Management Investment Advisers, LLC.

There are no Investment Management Fees payable on Class X shares or Class L shares (if any).

The Investment Manager(s) have, at their discretion, capped expenses on some share classes. For these share classes, in instances where the expenses exceed the capped level, the Investment Manager(s) reimburses the Fund. The amounts reimbursed to the fund are disclosed in "Waiver of investment management fees" in the statement of net assets and in the statement of operations and changes in net assets.

6. ADMINISTRATION AND DEPOSITARY FEES

State Street Bank International GmbH, Luxembourg Branch ("the Depositary") is entitled to fees payable by the Fund, accruing daily and payable monthly in arrears, of up to 0.50% of the assets under custody plus a transaction charge with respect to its function as the Depositary of the Fund. The actual level of the fees and transaction charges payable for the custody services vary, depending on the different countries. In addition, for acting as Registrar, Transfer, Domiciliary, Administrative and Paying Agent to the Fund, State Street Bank International GmbH, Luxembourg Branch will be entitled to fees of up to 0.045% of the applicable Net Asset Value plus a transaction charge.

In addition State Street Bank International GmbH, Luxembourg Branch is entitled to pass on to the Fund fees charged by external price vendors where the cost of obtaining vendor prices is not contained within the standard State Street Bank International GmbH, Luxembourg Branch fund accounting fixed percentage fee.

7. DIRECTORS' FEES

Each of the Directors of the Fund is entitled to remuneration for their services at the rate determined by the Fund in general meeting from time to time. Those Directors of the Fund who are employees of Columbia Threadneedle Management Limited (parent of the Investment Managers), or any of its subsidiaries, waive their fees in carrying out their duties as Directors of the Fund. Directors' fees are paid to the remaining directors and allocated to the Portfolios based on average net assets. For the year to 30 September 2024, the Chairman Patrick Johns is entitled to a fee of EUR 27,000 per annum and directors Jacques Elvinger and Ailbhe Jennings are entitled to a fee of EUR 22,000 per annum. In addition, each Director may be paid reasonable expenses in connection with meetings of the Board or otherwise properly incurred in connection with the business of the Fund.

8. MANAGEMENT COMPANY FEE

The Fund pays to the Management Company an annual Management Company fee payable out of the assets of the Fund of up to a maximum of 0.02% of the net asset value (on a sliding scale dependant on the size of the Portfolio), with no minimum fee.

9. TAXATION

Interest and dividend income received by the Fund may be subject to non-recoverable withholding tax in the source countries. The Fund may further be subject to tax on the realised or unrealised capital appreciation of its assets in the countries of origin.

Distributions made by the Fund are not subject to withholding tax in Luxembourg.

The Fund is not subject to taxation in Luxembourg on its income, profits or gains.

The Fund is not subject to net wealth tax in Luxembourg.

No stamp duty, capital duty or other tax will be payable in Luxembourg on the issue of Shares in the Fund.

The Portfolios are, nevertheless, in principle, subject to a subscription tax (taxe d'abonnement) levied at the rate of 0.05% per annum based on their net asset value at the end of the relevant quarter, calculated and paid quarterly.

Subject to certain conditions, a reduced subscription tax rate of 0.01% per annum is however applicable to:

- any Portfolio that is authorised as money market funds in accordance with Regulation (EU) 2017/1131 of the European Parliament and of the Council of 14 June 2017 on money market funds ("Regulation (EU) 2017/1131");
- any Portfolio or Class of Shares provided that their Shares are only held by one or more Institutional Investor(s).

Since 1st January 2021, the Portfolios may benefit from reduced subscription tax rates depending on the value of their net assets invested in economic activities that qualify as environmentally sustainable within the meaning of Article 3 of Regulation (EU) 2020/852 of 18 June 2020, except for the proportion of net assets invested in fossil gas and/or nuclear energy related activities (the "Qualifying Activities"). The reduced subscription tax rates would be of:

- 0.04% if at least 5% of the total net assets of the Portfolio are invested in Qualifying Activities;
- 0.03% if at least 20% of the total net assets of the Portfolio are invested in Qualifying Activities;
- 0.02% if at least 35% of the total net assets of the Portfolio are invested in - Qualifying Activities; and
- 0.01% if at least 50% of the total net assets of the Portfolio are invested in Qualifying Activities.

The subscription tax rates mentioned above would only apply to the net assets invested in Qualifying Activities.

Columbia Threadneedle (Lux) III

Notes to the Financial Statements (continued)

as at 30 September 2024

Subscription tax exemptions are detailed in the Prospectus.

As from 1 April 2007, investment vehicles listed in article 44, 1, d) of the Luxembourg VAT law (SICAVs, SICAFs and management companies of FCPs) should be registered as taxable persons for VAT purposes. As taxable persons for VAT purposes these investment vehicles must comply with the standard obligations foreseen in the Luxembourg VAT law such as VAT registration, VAT compliance and payment of the VAT due on services subject to reverse charge.

Investors should be aware that a United Kingdom offshore funds regime was introduced applicable to United Kingdom investors into "offshore funds". The Board has obtained reporting fund status approval from HM Revenue & Customs for the classes of shares listed below.

* Refer to Appendix I.

The Directors intend to issue the annual investor report on or around 31 March each year via the [CT Website](#) (This information is unaudited).

10. RELATED PARTY TRANSACTIONS

For certain share classes, CTML may be entitled to a placing and/or introductory fee of not more than 5% of the subscription value of the Fund shares. Out of this fee, stockbrokers or other approved introducing agents may be paid a proportion.

Patrick Johns (Chairman) is a non-executive adviser to Columbia Threadneedle Investments.

Columbia Threadneedle (Lux) III

Notes to the Financial Statements (continued)

as at 30 September 2024

Jacques Elvinger, a Director of the Fund, is a partner in the Luxembourg law firm Elvinger Hoss Prussen, société anonyme. Mr Elvinger has been an Avocat à la Cour, Luxembourg since 1984.

Ailbhe Jennings, a Director of the Fund, is an independent non-executive adviser to Columbia Threadneedle Investments, a subsidiary of Columbia Threadneedle Management Limited.

Rogier van Harten, a Director of the Fund (until 14 August 2024), was Head of Institutional, Europe, Columbia Threadneedle Netherlands B.V., a subsidiary of Columbia Threadneedle Investments.

Tina Watts, a Director of the Fund, is EMEA Head of Fund Services & CASS, Columbia Threadneedle Investments.

The Fund has entered into an Agency Agreement for the lending of securities in return for a loan fee. During the year under review, State Street Bank International GmbH, London Branch earned EUR 18,582 as securities lending agent. The Investment Managers earned EUR 12,388 for monitoring and oversight of the securities lending program.

No marketing expenses or distribution fees were charged to CT (Lux) Euro Bond. Any costs incurred in relation to the distribution of this Portfolio will be borne by CTML.

CTML may pass on to the Fund certain approved expenses incurred in the marketing of the Fund. The maximum chargeable during any accounting period is 0.025% of the net asset value of the Fund as the respective Portfolio(s).

CTML may also charge a fee to the Fund to cover the costs incurred in the distribution of the Fund in the various jurisdictions in which it is registered. The amount to be charged during any accounting period may not exceed 0.05% of the net asset value of the Fund or the respective Portfolio(s).

No marketing expenses or distribution fee will be charged to the Hong Kong Share Classes of any Portfolio. Any costs incurred in relation to the distribution of the Hong Kong Share Classes (if any) will be borne by CTML.

CTML is entitled to an annual service fee of 0.015% of the equity and bond investments of the Portfolios making use of its Responsible Engagement Overlay services as described in the Prospectus. This service is not charged to the Hong Kong Share Classes for any Portfolio.

Came Global Fund Managers (Luxembourg) S.A., as Manager to the Fund, earned a fee of 496,741 EUR during the year, of which 49,384 EUR was payable at year end.

11. STATEMENT OF CHANGES IN INVESTMENTS

A list, specifying for each Portfolio the total purchases and sales which occurred during the year under review, may be obtained, upon request, at the registered office of the Fund and the Fund's Registrar/Administrative Agent, Depository, or Paying Agent in the relevant jurisdiction.

12. PERFORMANCE FEE

No performance fees were charged to any of the Portfolios during the year.

13. SOFT COMMISSIONS ARRANGEMENTS AND OTHER SIMILAR ARRANGEMENTS

Since the implementation of MiFID II, in January 2018, all third party investment research consumed by investment teams in EMEA, were paid for directly by Columbia Threadneedle Investments. The use of Commission Sharing Agreements ceased at the end of December 2017 and since then, Client Portfolios have only incurred execution-related commission costs.

14. SECURITIES LENDING

The volume of the securities lending transactions will be kept at an appropriate level. The Fund will be entitled to request the return of the securities lent in a manner that enables it, at all times, to meet its redemption obligations. It will be ensured that securities lending transactions do not jeopardise the management of the Fund's assets in accordance with the investment policy.

The income earned from the securities lending program is reflected net of fees in the Statement of Operations and Changes in Net Assets.

State Street Bank International GmbH, London Branch as the securities lending agent receives a 15% fee for their services. The Investment Manager as the Fund's securities lending co-ordinator receives an administration fee of 10% to cover operational costs. There is no hidden revenue. As a result, the Fund receives 75% of the gross revenue generated from securities lending. It is the Investment Manager's policy to return all revenue to the Fund less direct and indirect operational costs.

Columbia Threadneedle (Lux) III Notes to the Financial Statements (continued)

as at 30 September 2024

The table below shows the market value of securities on loan as well as the market value of collateral held as at 30 September 2024. The collateral held at this date provided coverage of 104%.

Portfolio	Market Value of Securities on Loan in EUR	Market Value of Collateral held in EUR	Nature of Collateral held
CT (Lux) Diversified Growth	11,001,552	11,572,617	Government Bonds
CT (Lux) European Growth & Income	1,304,250	1,379,897	Government Bonds
CT (Lux) Global Absolute Return Bond	5,300,177	5,440,659	Government Bonds

During the year ended 30 September 2024, dividends with an ex-dividend date of 18 June 2024 were paid out to shareholders on 20 June 2024 as follows:

Share class Name	Share class Currency	Dividend per Share	Amount of Dividends paid out to Shareholders
CT (Lux) Sustainable Multi-Asset Income - Class A Shares - Euro	EUR	11.5500	755,311
CT (Lux) Sustainable Multi-Asset Income - Class F Shares - Euro	EUR	0.1400	15
CT (Lux) Sustainable Multi-Asset Income - Class I Shares - Euro	EUR	13.2600	1,101
CT (Lux) Sustainable Multi-Asset Income - Class R Shares - Euro	EUR	0.1400	376

For all distributing classes of shares which have registered for United Kingdom Reporting Fund Status it is intended to distribute 100 percent of reportable income (computed in accordance with the definition of reportable income under the United Kingdom Offshore Funds (Tax) Regulations 2009 (as amended)) which accrues to the Portfolio or distributing class, however it should be noted that this cannot be guaranteed. It may be that the Directors consider in certain cases that the amounts available for distribution are so minimal that a distribution is not commercially viable. Where Share Classes have not been registered for UK Reporting Fund Status, the Directors will determine an alternative basis for determining the level of any dividend.

The Board may decide to make dividend payments to Shareholders once a year or more frequently provided that no payment will be made as a result of which the total net assets of the Fund would become less than the minimum required by Luxembourg law.

16. SWING PRICING

Under certain circumstances (for example, large volumes of deals), investment and/or disinvestment costs may have an adverse effect on the Shareholders' interests in a Portfolio. In order to prevent this effect, called "dilution", the Board may determine that a "swing pricing" methodology applies so as to allow for the Net Asset Value per Share to be adjusted upwards or downwards by dealing and other costs and fiscal charges which would be payable on the effective acquisition or disposal of assets in the relevant Portfolio if the net capital activity exceeds, as a consequence of the aggregate transactions in that Portfolio on a given Valuation Date (as defined in the Prospectus), a threshold (the "Threshold") set by the Board from time to time.

Columbia Threadneedle (Lux) III

Notes to the Financial Statements (continued)

as at 30 September 2024

Description of the swing pricing methodology:

If the net capital activity on a given Valuation Date leads to a net inflow/outflow of assets in excess of the Threshold in the relevant Portfolio, the Net Asset Value used to process all subscriptions, redemptions or conversions in that Portfolio is adjusted upwards/downwards by the swing factor set by the Board from time to time.

The swing factor shall not exceed 2% of the Net Asset Value per Share of the relevant Portfolio. Further, for the purpose of calculating the expenses of a Portfolio which are based on the Net Asset Value of the relevant Portfolio (including any applicable performance fee), the Administrative Agent will continue to use the un-swung Net Asset Value.

The swing pricing mechanism was in place for all Portfolios during the financial year.

17. TRANSACTION COSTS

For the year ended 30 September 2024, the following Portfolios of the Columbia Threadneedle (Lux) III incurred transaction costs related to purchases and sales of transferable securities as follows:

Portfolio	Portfolios Currency	Transaction Costs
CT (Lux) Diversified Growth	EUR	24,317
CT (Lux) European Growth & Income	EUR	39,784
CT (Lux) European Smaller Cap *	EUR	5,907

CT (Lux) Sustainable Global Equity Enhanced Income	USD	1,205,705
CT (Lux) Sustainable Multi-Asset Income	EUR	13,418
CT (Lux) Sustainable Opportunities European Equity	EUR	12,073
CT (Lux) US Smaller Companies *	USD	14,175

*Refer to Appendix I.

These transaction costs are corresponding to broker fees and are included in the caption "Investments at cost" in the Statement of Net Assets of the report, and respectively in the captions "Net realised gain / (loss) on sales of investments" and "Net change in net unrealised appreciation / (depreciation) on investments" in the Statement of Operations and Changes in Net Assets.

18. SIGNIFICANT EVENT

On 13th May 2024, shareholders were notified of the liquidation of the following 3 Portfolios with effect from 12 June 2024:

- CT (Lux) US Smaller Companies
- CT (Lux) European Smaller Cap
- CT (Lux) Global Smaller Cap Equity

19. SUBSEQUENT EVENTS

No subsequent events occurred.

20. NOTICE TO INVESTORS

The SFDR disclosures are available in the appendix to the financial statements.

21. APPROVAL OF THE FINANCIAL STATEMENTS

The Board approved the financial statements on 23 January 2025.

Columbia Threadneedle (Lux) III

Additional Notes (Unaudited Sections)

as at 30 September 2024

1. SOCIALLY RESPONSIBLE INVESTMENT

CTML is convinced that investors increasingly care about environmental, social and corporate governance (ESG) issues and that these may have a material impact on the companies in which we invest. Therefore the Fund has appointed CTML to engage with companies held by the portfolios in order to improve the ESG performance and safeguard investor value. The Responsible Engagement Overlay service, known as reo®, aims to encourage companies to behave more responsibly with regard to social, environmental and corporate issues, in ways that are consistent with shareholder values. The objective of reo® is to encourage investee companies to enhance their business performance by adopting better corporate governance, social and environmental practices. reo® does not entail taking a view of acceptability of what investee companies do nor does it lead to exercising a significant influence over the management of such companies. reo® is about using CTML ability, as manager of the Fund's equity and bond Portfolios, to encourage investee companies, through a constructive dialogue, to behave more responsibly with regard to corporate governance, social and environmental practices. In CTML's view, reo® may contribute towards business success and therefore increase the value of the investee companies' shares and consequently the value of the Fund's investments. More information on reo® and the specific companies engaged via the reo® service is available on www.columbiathreadneedle.com.

RISK MANAGEMENT

Global exposure calculation method

The commitment approach

The following Portfolios use the commitment approach in order to monitor and measure their global exposure:

CT (Lux) European Growth & Income
 CT (Lux) European Smaller Cap*
 CT (Lux) Global Convertible Bond
 CT (Lux) Global Smaller Cap Equity*
 CT (Lux) Responsible Euro Corporate Bond
 CT (Lux) Responsible Global Emerging Markets Equity
 CT (Lux) Responsible Global Equity
 CT (Lux) SDG Engagement Global Equity
 CT (Lux) Sustainable Opportunities European Equity
 CT (Lux) US Smaller Companies*

*Refer to Appendix I.

The VaR approach

The following portfolios use an Absolute Value-at-Risk ("VaR") approach in order to monitor and measure their global exposure:

CT (Lux) Diversified Growth
 CT (Lux) Global Absolute Return Bond
 CT (Lux) Global Total Return Bond
 CT (Lux) Sustainable Multi-Asset Income

The VaR figures have been calculated based on the following input data and confidence interval:

Confidence interval	99%
Analysis time horizon	One month (20 days)
Time series extension	1 Year
Methodology	Absolute VaR
VaR method	Historical simulation
CSSF Limit	20%

The utilisation of the VaR from 01 October 2023 to 30 September 2024 was as follows:

CT (Lux) Diversified Growth	VaR Amounts	Utilisation of the VaR Limit
Minimum	2.13%	10.65%
Maximum	4.27%	21.33%
Average	3.63%	18.16%

The average leverage used, computed with sum of notionals, was 79.38%.

CT (Lux) Global Absolute Return Bond	VaR Amounts	Utilisation of the VaR Limit
Minimum	1.31%	6.53%
Maximum	2.93%	14.65%
Average	1.74%	8.69%

The average leverage used, computed with sum of notionals, was 176.78%.

CT (Lux) Global Total Return Bond	VaR Amounts	Utilisation of the VaR Limit
Minimum	1.58%	7.92%
Maximum	3.93%	19.66%
Average	2.39%	11.97%

Columbia Threadneedle (Lux) III
Risk Management, Remuneration and PEA Eligible Assets (unaudited)
(continued)

The average leverage used, computed with sum of notionals, was 255.72%.

CT (Lux) Sustainable Multi-Asset Income	VaR Amounts	Utilisation of the VaR Limit
Minimum	2.08%	10.42%
Maximum	3.97%	19.87%
Average	3.46%	17.28%

The average leverage used, computed with sum of notionals, was 88.39%.

Columbia Threadneedle (Lux) III Risk Management, Remuneration and PEA Eligible Assets (unaudited) (continued)

The following portfolio use Relative Value-at-Risk ("VaR") approach in order to monitor and measure their global exposure:

CT (Lux) Euro Bond
CT (Lux) Sustainable Global Equity Enhanced Income

The VaR figures have been calculated based on the following input data and confidence interval:

Confidence interval	99%
Analysis time horizon	One month (20 days)
Time series extension	1 Year
Methodology	Relative VaR
VaR method	Historical simulation
CSSF Limit	200%

The utilisation of the VaR from 01 October 2023 to 30 September 2024 was as follows:

CT (Lux) Euro Bond	VaR Amounts	Utilisation of the VaR Limit
Minimum	66.39%	33.19%
Maximum	96.51%	48.26%
Average	80.70%	40.35%

The average leverage used, computed with sum of notionals, was 24.69%.

CT (Lux) Sustainable Global Equity Enhanced Income	VaR Amounts	Utilisation of the VaR Limit
Minimum	64.43%	32.22%
Maximum	93.95%	46.97%
Average	78.92%	39.46%

The average leverage used, computed with sum of notionals, was 37.72%

Columbia Threadneedle (Lux) III Remuneration (unaudited)

REMUNERATION POLICY

Carne Global Fund Managers (Luxembourg) S.A

Carne Global Fund Managers (Luxembourg) S.A. (the "Management Company") has designed and implemented a remuneration policy (the "Remuneration Policy") in line with the provisions on remuneration as set out by the European Directive 2009/65/EC ("UCITS Directive"), as amended by Directive 2014/91/EU ("UCITS V Directive") as implemented into Luxembourg in the Law of 10 May 2016 (the "2016 Law").

The Management Company has developed and implemented remuneration policies and practices that are consistent with and promote sound and effective risk management of the Fund, do not encourage risk-taking which is inconsistent with the risk profiles/rules governing the Fund, and do not impair compliance with the Management Company's duty to act in the best interest of the Fund and ultimately its investors.

The Board of Directors of the Management Company is responsible for the design, implementation and regular review of the Remuneration Policy. In reviewing the Remuneration Policy, the Board of Directors of the Management Company will consider whether the remuneration framework operates as intended and ensure that the risk profile, long-term objectives and goals of the Fund are adequately reflected. No material amendments were made to the Remuneration Policy and no irregularities were uncovered during the period under review.

A copy of the Remuneration Policy is available, free of charge, at the registered office of the Management Company and at the following address: www.carnegroup.com.

The below table outlines the total remuneration¹ paid to Identified Staff² of the Management Company during the financial year³:

	Number of beneficiaries	Total remuneration* (EUR)	Fixed remuneration (EUR)	Variable remuneration (EUR)
Senior management	13	2,700,392	2,065,370	635,022
Other material risk takers	13	1,581,520	1,107,338	474,182

*The Management Company has also determined that, on the basis of number of sub-funds/net asset value of the UCITS relative to the number of sub-funds/assets under management, the portion of the total remuneration attributable to the UCITS is €112,612.

¹Total remuneration = sum of fixed remuneration and variable remuneration paid to identified staff of the Management Company during the Management Company's financial year.

²Identified Staff comprises = Directors of the Company, Chief Business Development Officer, Senior Business Development Officer, Person responsible for the Permanent Risk Function, Carne's Responsable du Contrôle, Conducting Officers of the Company, Head of Legal, members of the Investment Committee and members of the Valuation Committee.

³ 31 December is the financial year end of the Management Company.

CT Group (below note refers to CT Group only)

In accordance with the UCITS V Directive, the Investment Managers to the Fund have adopted a remuneration policy which is consistent with the remuneration principles applicable to UCITS management companies and aligned with the Columbia Threadneedle Investments (EMEA) Remuneration Policy. The size of the CT Group (the "Group") and the size of the funds it manages, the internal organisation and the nature, the scope and the complexity of their activities have been taken into consideration in this disclosure.

Report on Remuneration

This section of the annual report has been prepared in accordance with Article 14a(4) of Directive 2009/65/EC, as amended by Directive 2014/91/EU ("UCITS V Directive") and the Financial Conduct Authority's Handbook (SYSC 19E: UCITS Remuneration Code).

In accordance with the UCITS V Directive, Columbia Threadneedle Fund Management Limited (formerly BMO Fund Management Limited) the Authorised Corporate Director (ACD) for CT Group (the 'Group') has adopted a remuneration policy which is consistent with the remuneration principles applicable to UCITS management companies and aligned with the Columbia Threadneedle Asset Management (EMEA) Remuneration Policy. The size of the ACD and the size of the funds it manages, the internal organisation and the nature, the scope and the complexity of their activities have been taken into consideration in this disclosure.

Remuneration policy

The purpose of the ACD's remuneration policy is to describe the remuneration principles and practices within the ACD and for such principles and practices:

- (a) to be consistent with, and promote, sound and effective risk management;
- (b) to be in line with the business strategy, objectives, values and interests of the ACD;
- (c) not to encourage excessive risk-taking as compared to the investment policy of the relevant sub-funds of the ACD;

Columbia Threadneedle (Lux) III

Remuneration (unaudited) (continued)

- (d) to provide a framework for remuneration to attract, motivate and retain staff (including directors) to which the policy applies in order to achieve the objectives of the ACD; and
- (e) to ensure that any relevant conflicts of interest can be managed appropriately at all times.

Decision making and governance

The board of directors (the "Board") of the ACD is responsible for the remuneration policy of the ACD and for determining the remuneration of the directors of the ACD and other staff who undertake professional activities for the ACD. The Board has delegated to the EMEA Remuneration Committee (the "Committee") of Columbia Threadneedle Asset Management (Holdings) plc responsibility for maintaining a compliant remuneration policy. The Committee solely comprises non-executive directors of Columbia Threadneedle Asset Management (Holdings) plc. The Board has adopted the remuneration policy applicable to all members of the Group ("Columbia Threadneedle Asset Management (EMEA)") for this financial year as reviewed and approved by the Committee periodically (at least annually). The Committee is responsible for, and oversees, the implementation of the remuneration policy in line with the UCITS Regulations. The Board considers that the members of the Committee have appropriate expertise in risk management and remuneration to perform this review.

Applicability

The remuneration policy, which incorporates compliance with UCITS V requirements, applies to staff whose professional activities have a material impact on the risk profile of the ACD or of the funds it manages ("Identified Staff") and so covers:

- a) senior management;
- b) risk takers;
- c) control functions; and
- d) employees receiving total remuneration that takes them into the same remuneration bracket as senior management and risk takers, whose professional activities have a material impact on the risk profile of the ACD.

The Identified Staff list and the selection criteria above are subject to regular review (at least annually) by the Committee as well as formally reviewed in the event of significant organisation changes and changes in remuneration regulations the ACD is subject to.

Linking remuneration with performance

The ACD's remuneration policy is part of the Columbia Threadneedle Asset Management (EMEA) framework for promoting sound remuneration management, with the objective of providing total compensation to its employees that is warranted by corporate, business unit/function and individual performance and is comparable to market competitors, whilst being consistent with and promoting sound and effective risk management and the achievement of fair outcomes for all customers. Its purpose is to facilitate achievement of the business objectives and corporate values of the ACD, with the primary focus on clients, whilst ensuring that Columbia Threadneedle Asset Management (EMEA) is able to attract, retain and motivate the key talent required to achieve these business objectives and corporate values without incentivising excessive or inappropriate risk.

When setting remuneration levels, the following components and principles form part of the remuneration management framework:

- Fixed remuneration is determined taking into account factors including the requirements of the particular role and the staff member's experience, expertise, contribution level and the fixed pay for comparable roles. Fixed remuneration is set, with reference to market data, at a level that is sufficient to attract high calibre staff as well as to permit the operation of a fully-flexible remuneration policy (including the possibility of a staff member receiving reduced or no variable remuneration in a particular year). The Committee keeps the balance between fixed and variable remuneration under review.
- Variable remuneration is determined annually by reference to both financial and non-financial ACD performance considerations. External competitor practices are included in the funding review to ensure compensation opportunities in the markets within which the ACD operates are given due consideration and retention risks are effectively managed. Incentive funding is developed in view of current and projected economics and risks, supported by Columbia Threadneedle Asset Management (EMEA) Audit and Compliance Committee inputs, ensuring risk-adjustments and qualitative and quantitative considerations, such as the cost and quantity of capital and liquidity are actively considered as funding adjustments. The Committee ensures that all incentive awards are not paid through vehicles or methods that facilitate the avoidance of the requirements with regard to remuneration imposed by applicable law and/or regulations.
- Variable remuneration is allocated to respective business functions by reference to:
 - contribution of the respective business function or unit to corporate performance;
 - business function performance relative to pre-determined targets and objectives, including adherence to risk management obligations; and
 - competitive market pay data.

Individual award allocations are referenced to the individual achievement during the performance year relative to pre-agreed objectives and assessment of market comparability. Performance is assessed in relation to pre-agreed objectives, which include financial and non-financial goals (including the achievement of fair customer outcomes), compliance with the Group's policies and procedures, adherence to risk management and compliance requirements and the Group's Code of Conduct. The assessment of performance for Identified Staff reflects multi-year performance in a manner appropriate to the life-cycle of the funds that are managed by the ACD.

Columbia Threadneedle (Lux) III Remuneration (unaudited) (continued)

- Application of Financial Conduct Authority's Handbook (SYSC 19E: UCITS Remuneration Code) pay-out process rules, save for disapplication at individual or ACD level, which is determined by an annual proportionality assessment.

Quantitative remuneration disclosure

The total remuneration paid by Columbia Threadneedle Fund Management Limited to its staff is zero, as all UCITS staff are employed by other companies in Columbia Threadneedle Asset Management (EMEA).

The table below provides an overview of aggregate total remuneration paid to UCITS Identified Staff in respect of the proportion of their pay aligned to their UCITS responsibilities. It is not possible to apportion remuneration by individual Identified Staff working a specific UCITS fund, therefore figures are provided in aggregate on a UCITS management ACD basis.

Columbia Threadneedle Management Limited	Headcount	Fixed Remuneration (£m)	Variable Remuneration (£m)	Total Remuneration (£m)
Remuneration of UCITS Identified Staff	41	0.82	0.99	1.81
of which:				
Senior Management	12	0.16	0.31	0.47
Other Code Staff	29	0.66	0.68	1.34

Notes on the quantitative remuneration disclosure

Total remuneration reported is the sum of salary, cash bonus, any deferred annual bonus, value of any long-term incentive awards granted in respect of performance in the reportable financial year, plus the value of any applicable cash allowances.

"Senior Management" are defined in this table as the UCITS Directors, Executive and Non-Executive Directors and Group Management Team members of Columbia Threadneedle Asset Management. "Other Code Staff" includes all other identified Code staff in business areas, internal control functions and corporate functions.

The Identified Staff disclosure represents total compensation of those staff who are fully or partly involved in the activities of the UCITS funds, apportioned to the estimated time relevant to the UCITS or to the amount attributable to the UCITS allocated on an AUM basis.

Columbia Threadneedle (Lux) III Portfolio Turnover Ratio (unaudited)

The Portfolio Turnover Ratio have been calculated for the year ended 30 September 2024 based on the following formula:

$$\text{PTR} = \frac{(\text{Total purchases} + \text{Total sales}) - (\text{Total subscriptions} + \text{Total redemptions})}{\text{Average net assets of the Portfolio}} \times 100$$

Portfolio	Portfolio Currency	Total Net Assets, average during the year	Portfolio Turnover Ratio as of 30 September 2024 (annualised) %
CT (Lux) Diversified Growth	EUR	111,015,953	74.37%

Additional Information:

Investors in Switzerland can obtain the documents of the Fund, such as the Prospectus, the KIIDS, the Articles of Incorporation and the semi-annual and annual reports, the list of purchases and sales during the accounting period, and further information free of charge from the Swiss representative.

The Total Expense Ratio and Portfolio Turnover Ratio have been calculated in accordance with Swiss Funds & Asset Management Association's guidelines 16 May 2008.

Columbia Threadneedle (Lux) III Performance Data (unaudited)

The performance data is calculated based on the movement of the net asset value per share during the period. Performance figures shown in the Investment Managers reports are based on total return figures, inclusive of distributions, and may differ from the below.

Global data

The following table details the market value of securities lent as a proportion of the relevant Portfolio's total lendable assets and Net Assets, and the value of Total Return Swaps ("TRS") as a proportion of the Portfolio's Net Assets, as at 30 September 2024. Total lendable assets represents the total market value of the securities portfolio excluding derivatives as at the reporting date. The value of TRS is based on the Unrealised Gain/(Loss) on an absolute basis.

Portfolio	Portfolio currency	Securities lent			TRS	
		Market value of securities lent	% of lendable assets	% of Net Assets	Unrealised profit/loss	% of Net Assets
CT (Lux) Diversified Growth	EUR	11,001,552	10.26%	9.48%	868,546	0.75%
CT (Lux) European Growth & Income	EUR	1,304,250	3.05%	2.97%	-	-
CT (Lux) Global Absolute Return Bond	EUR	5,300,177	2.89%	2.76%	-	-
CT (Lux) Global Total Return Bond	EUR	572,060	3.96%	3.71%	-	-

The above maturity tenor analysis has been based on the contractual maturity date of the securities lent, and of the relevant TRS transaction.

The following table provides an analysis of the non cash collateral received for the securities lending transactions and OTC by clearing mechanism indicating as well the triparty agent and the bilateral, as at 30 September 2024:

	Security lent non cash collateral received	OTC non cash collateral received
Triparty		
JP Morgan Chase Bank	1,383,037.00	-
Bank of New York	26,470,168.00	-
Total	27,853,205.00	-
bilateral	458,256.00	1,151,622.00

Data on reuse of collateral

As at 30 September 2024, none of the cash collateral received in respect of OTC derivative transactions (including TRS) was re-invested. In respect of securities lending transactions, the Fund does not accept cash collateral in the securities lending program.

Non-cash collateral received by way of title transfer collateral arrangement in relation to securities lending transactions and OTC derivative transactions, cannot be sold, re-invested or pledged.

Safekeeping of collateral

The following table provides an analysis of the amounts of non-cash collateral received by the Portfolios in respect of securities lending transactions and OTC derivatives transactions (including TRS) and held by the Funds' Depository (or through its delegates) or through a third party Depository, as at 30 September 2024:

Depository	Portfolio currency	Market value of non-cash collateral received

Total	USD	7,868,181	-

Data on return and cost

For the securities lending transactions the breakdown of return and cost by portfolio is disclosed in the Notes. Please refer to the note "Securities lending".

All returns from OTC derivative transactions (including TRS) will accrue to the Portfolio and are not subject to any returns sharing agreement with the Portfolio's manager or any other third parties.

For TRS transactions costs are not separately identifiable. For these investments, transaction costs are included in the purchase and sales price and are part of the gross investment performance of each Portfolio. Returns are identified as the realised gains and change in unrealised appreciations on swaps contract during the reporting period.

Columbia Threadneedle (Lux) III

Appendix II – SFDR Periodic Disclosure

As at 30 September 2024

Portfolios under Art.6

The following Portfolios are considered not to fall within the scope of either Article 8 or Article 9 of SFDR. The investments underlying these Portfolios do not take into account the EU criteria for environmentally sustainable economic activities:

- CT (Lux) Diversified Growth
- CT (Lux) Euro Bond
- CT (Lux) European Growth & Income
- CT (Lux) European Smaller Cap *
- CT (Lux) Global Absolute Return Bond
- CT (Lux) Global Convertible Bond
- CT (Lux) Global Smaller Cap Equity *
- CT (Lux) Global Total Return Bond
- CT (Lux) US Smaller Companies *

* Refer to Appendix I.

Independent Limited Assurance Report on the SFDR periodic reporting

To the Board of Directors of
Columbia Threadneedle (Lux) III

We have performed a limited assurance engagement with respect to the periodic reporting according to the Regulation (EU) 2019/2088 (SFDR) on sustainability-related disclosures in the financial sector (the “SFDR periodic reporting”) of the sub-funds of Columbia Threadneedle (Lux) III (the “Fund”) as detailed in the Appendix 1 for the year ended 30 September 2024.

Criteria

The criteria used by the Fund to prepare the SFDR periodic reporting is set out in the Appendix 2 (the “Criteria”) which are based on the requirements from the Article 11 of SFDR as well as the requirements of the Articles 5 and 6 of the Regulation (EU) 2020/852 on the establishment of a framework to facilitate sustainable investment (the “EU Taxonomy”).

Responsibilities of the Board of Directors

The Board of Directors of the Fund is responsible for the preparation of the SFDR periodic reporting in accordance with the Criteria, including the selection and consistent application of appropriate indicators and calculation methods as well as making assumptions and estimates, which are reasonable in the circumstances. This responsibility includes the design, implementation and maintenance of internal control relevant to the preparation of the SFDR periodic reporting that is free from material misstatement, whether due to fraud or error.

Inherent limitations

The absence of a significant body of established practice on which to draw to evaluate and measure non-financial information allows for different, but acceptable, measures and measurement techniques and can affect comparability between entities. In addition, we do not provide any assurance over the source information that the Fund obtained directly from the investments or third-party experts.

Our Independence and Quality Management

We have complied with the independence and other ethical requirements of the International Code of Ethics for Professional Accountants, including International Independence Standards, issued by the International Ethics Standards Board for Accountants (IESBA Code) as adopted for Luxembourg by the “Commission de Surveillance du Secteur Financier” (CSSF), which is founded on fundamental principles of integrity, objectivity, professional competence and due care, confidentiality and professional behaviour.

Our firm applies International Standard on Quality Management 1, as adopted for Luxembourg by the CSSF, which requires the firm to design, implement and operate a system of quality management including policies or procedures regarding compliance with ethical requirements, professional standards and applicable legal and regulatory requirements.

Responsibility of the “Réviseur d’entreprises agréé”

Our responsibility is to express a limited assurance conclusion on the SFDR periodic reporting based on the procedures we have performed and the evidence we have obtained. We conducted our limited assurance engagement in accordance with the International Standard on Assurance Engagements (ISAE) 3000 (Revised) *Assurance Engagements other than Audits or Reviews of Historical Financial Information*, as adopted for Luxembourg by the “Institut des Réviseurs d’Entreprises”. This Standard requires that we plan and perform our engagement to obtain limited assurance about whether the SFDR periodic reporting is free from material misstatement.

A limited assurance engagement involves assessing the suitability in the circumstances of the Fund’s use of the Criteria as the basis for the preparation of the SFDR periodic reporting, assessing the risks of material misstatement of the SFDR periodic reporting whether due to fraud or error, responding to the assessed risks as necessary in the circumstances, and evaluating the overall presentation of the SFDR periodic reporting. A limited assurance engagement is substantially less in scope than a reasonable assurance engagement in relation to both the risk assessment procedures, including an understanding of internal control, and the procedures performed in response to the assessed risks.

Summary of work performed

The procedures we performed were based on our professional judgment and included inquiries, observation of processes performed, inspection of documents, analytical procedures, evaluating the appropriateness of quantification methods and reporting policies, and agreeing or reconciling with underlying records.

Given the circumstances of the engagement, in performing the procedures listed above, we:

- gained an understanding of the process of compilation of the SFDR periodic reporting;
- gained an understanding of the Criteria and its suitability for the evaluation of the SFDR periodic reporting;
- gained an understanding of the design and operation of the controls in place in relation to the preparation of the SFDR periodic reporting;
- evaluated the reasonableness of those estimates and judgements made by management in the preparation of the information included in the SFDR periodic reporting, that we considered relevant for the purpose of our limited assurance conclusion;
- performed substantive testing using sampling techniques on the information included in the SFDR periodic reporting, and assessing the related disclosures; and
- reconciled disclosures with the corresponding data in the audited financial statements, when applicable.

The procedures performed in a limited assurance engagement vary in nature and timing from, and are less in extent than for, a reasonable assurance engagement. Consequently, the level of assurance obtained in a limited assurance engagement is substantially lower than the assurance that would have been obtained had we performed a reasonable assurance engagement. Accordingly, we do not express a reasonable assurance opinion about whether the SFDR periodic reporting has been prepared, in all material respects, in accordance with the Criteria.

Limited Assurance Conclusion

Based on the procedures we have performed and evidence we have obtained, nothing has come to our attention that causes us to believe that the SFDR periodic reporting for the year ended 30 September 2024 has not been prepared, in all material respects, in accordance with the Criteria.

Other Matter

The comparative information of the Fund as at 30 September 2023 has not been subject to any assurance procedure in accordance with ISAE 3000. Our conclusion is not modified in respect of this matter.

Purpose and Restriction on use

This report, including the opinion, has been prepared for and only for the Board of Directors of the Fund and the Shareholders in accordance with the terms of our engagement letter and is not suitable for any other purpose. We do not accept any responsibility to any other party to whom it may be distributed.

CT (Lux) SDG Engagement Global Equity	8
CT (Lux) Sustainable Global Equity Enhanced Income	8
CT (Lux) Sustainable Multi-Asset Income	9
CT (Lux) Sustainable Opportunities European Equity	9

Appendix 2
Criteria

General Criteria:

- Appropriate use of the Annex IV (for Article 8 products) and Annex V (for Article 9 products) of the Regulation 2022/1288 of 6 April 2022 supplementing Regulation (EU) 2019/2088 of the European Parliament and of the Council with regard to regulatory technical standards, as amended (the “RTS”);
- Conformity of the client’s Sustainable Finance Disclosure Regulation (SFDR) periodic reporting layout vis-à-vis the general principles for the presentation of information stated in the Article 2 of the RTS;
- Appropriate inclusion of the elements outlined in SFDR Regulation 2019/2088, as amended (the “SFDR Regulation”) Article 11 to the disclosure made in the SFDR periodic reporting;
- All relevant sections of either the Annex IV or V of the RTS, and relevant requirements as defined in the RTS, have been included and responded to;
- Consistency of the qualitative statement of sustainable indicators with the evidence obtained for the numeric information on those indicators;
- Appropriate application of the formula according to the RTS in the following questions:
 - What were the top investments of this financial product?
 - What was the proportion of sustainability-related investments?
- Consistency of the information described in the financial information of the annual report with the SFDR Periodic reporting;
- When applicable, consistency of the information described in the SFDR Periodic reporting with the information disclosed in the pre-contractual documents (Prospectus “Investment policy section” & RTS Annex II-III).

Criteria where at least one Sub-Fund is an Article 8 product:

- Appropriate inclusion of the elements outlined in SFDR Regulation 2019/2088 Article 11 to the methodology related to the promotion of environmental or social characteristics (the “*Methodology for E/S characteristics*”) described in the website disclosure according to SFDR Regulation 2019/2088 Article 10.1(b);
- Appropriate design of the formulas with the Methodology for E/S characteristics (the “E/S Characteristics Formulas”);
- Appropriate application of the E/S Characteristics Formulas.

Appendix 2
Criteria

Criteria where at least one Sub-Fund is having sustainable investments according to the Article 2(17) of the SFDR RTS and opt to report a 0% Taxonomy alignment:

- Appropriate inclusion of the elements outlined in SFDR Regulation 2019/2088 Article 2(17) to the methodology (the “*Sustainable Investments Methodology*”) described in the website disclosure according to SFDR Regulation 2019/2088 Article 10.1(b);
- Appropriate design of the formula with the Sustainable Investments Methodology (the “SFDR Sustainable Investments Formulas”);
- Appropriate application of the SFDR Sustainable Investments Formulas.

Criteria where at least one Sub-Fund is having sustainable investments according to the Article 3 of the EU Taxonomy Regulation 2020/852 and not per SFDR Article 2(17):

- Appropriate application of the methodology outlined in EU Taxonomy Regulation 2020/852;
- Appropriate design of the formula with the EU Taxonomy Regulation 2020/852 (the “EU Taxonomy Formulas”);
- Appropriate application of the EU Taxonomy Formulas.

Criteria where at least one Sub-Fund is having sustainable investments according to the Article 2(17) of the SFDR RTS and opt to report following the EU Taxonomy:

- Appropriate inclusion of the elements outlined in SFDR Regulation 2019/2088 Article 2(17) to the methodology (the “*Sustainable Investments Methodology*”) described in the website disclosure according to SFDR Regulation 2019/2088 Article 10.1(b);
- Appropriate design of the formula with the Sustainable Investments Methodology (the “SFDR Sustainable Investments Formulas”);
- Appropriate application of the methodology outlined in EU Taxonomy Regulation 2020/852;
- Appropriate design of the formula with the EU Taxonomy Regulation 2020/852 (the “EU Taxonomy Formulas”);
- Appropriate application of the SFDR Sustainable Investments Formulas and EU Taxonomy Formulas.

Criteria where at least one Sub-Fund is opting to report the Principal Adverse Impact:

- Appropriate design of the formulas with the elements outlined in the Annex I supplementing the EU Regulation 2019/2088 (the “PAI formulas”);
- Appropriate application of the PAI formulas.

Criteria where at least one Sub-Fund has designated an index as a reference benchmark:

- Appropriate inclusion of the elements outlined in SFDR Regulation 2019/2088 Article 11 1. (b) (ii) to the design of the formulas (the “Benchmark Formulas”);
- Appropriate application of the Benchmark Formulas.

ANNEX IV

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Product name: CT (Lux) Responsible Euro Corporate Bond
 Legal entity identifier: 2138007PU8621E722925

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?	
<input checked="" type="radio"/> <input checked="" type="radio"/> <input type="checkbox"/> Yes	<input checked="" type="radio"/> <input type="radio"/> <input checked="" type="checkbox"/> No
<input type="checkbox"/> It made sustainable investments with an environmental objective: ____ <ul style="list-style-type: none"> <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy 	<input checked="" type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of <u>85.59%</u> of sustainable investments <ul style="list-style-type: none"> <input checked="" type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input checked="" type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input checked="" type="checkbox"/> with a social objective
<input type="checkbox"/> It made sustainable investments with a social objective: ____	<input type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The Fund promoted environmental and/or social characteristics by integrating the following responsible investment measures into the investment decision-making process:

- Avoiding companies with environmentally or socially damaging products, or unsustainable business or governance practices.
- Investing in companies that make a positive contribution to society and/or the environment.
- Improving management of ESG issues, using the Investment Manager’s influence as an

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

investor to encourage best practice through engagement

The Fund, while it does not have a sustainable objective, aims to hold a minimum of 25% in sustainable investments that provide sustainability solutions or otherwise make a positive contribution to society or the environment. As at 30/09/2024, the Fund held 85.59% in sustainable investments.

● ***How did the sustainability indicators perform?***

The Investment Manager uses the following sustainability indicators to measure the attainment of the environmental and social characteristics promoted by the Fund:

1. The number of companies determined to be in breach of the Fund's exclusion criteria and/or global norms.

The Fund did not invest in companies that breached its exclusion criteria and/or global norms.

2. Held companies' revenue alignment with the targets which underpin the UN Sustainable Development Goals (SDGs).

As at 30/09/2024, 85.59% of the Fund was invested in companies with greater than 50% of net revenues positively aligned with the SDGs.

3. The percentage of the Fund which constitutes labelled bonds, including sustainability-linked bonds and green bonds.

As at 30/09/2024, 40.87% of the Fund was invested in labelled bonds.

4. The number of environmental- and social-linked engagement objectives and/or milestones that are achieved.

During the reporting period, 81 engagements were undertaken with 42 companies. This resulted in 17 milestones, meaning a company made a tangible improvement in its policies and practices in alignment with the Investment Manager's engagement objective.

● **...and compared to previous periods?**

Indicator	2024	2023	2022
The number of companies determined to be in breach of the Fund's exclusion criteria and/or global norms	0	0	0
Held companies' revenue alignment with the targets which underpin the Sustainable Development Goals (SDGs)	85.59%	83.06%	48.51%
The percentage of the Fund which constitutes labelled bonds, including Sustainability-Linked Bonds and Green Bonds	40.87%	39.74%	35.27%
The number of environmental- and social-linked engagement objectives and/or milestones achieved	17	16	16
Number of Engagements	81	70	144
Numer of Companies Engaged	42	31	53
Number of Milestones	17	16	16

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

As at 30/09/2024, 85.59% of the Fund was invested in bonds issued by companies which generate greater than net 50% of their revenue positively aligned to the SDGs, and are considered to be sustainable investments.

The Fund also had 40.87% of its holdings invested in labelled bonds that substantially contribute to sustainable objectives. The Investment Manager requires the proceeds to be used in key environmental project categories such as:

1. Renewable energy and transmission
2. Alternative fuels
3. Energy efficiency
4. Clean transport
5. Biodiversity conservation
6. Sustainable waste management
7. Water

8. Green buildings
9. Sustainable land use (forestry and agriculture)

The bond should also comply with IMCA's Green Bond Principles (GBP), Social Bond Principles (SBP), Sustainability Bond Guidelines (SBG) or Sustainability-Linked Bond Principles.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

The Fund's investment approach assesses that the sustainable investments held in the portfolio do not significantly harm other sustainable investment objectives in several ways.

The Fund screens out investments that are contrary to the goals of making positive contributions to the environment and/or society. The criteria is product- and conduct-based, covering topics such as fossil fuels, weapons, and global norms breaches.

For labelled bonds, each bond is reviewed and approved by the Investment Manager to ensure it does not significantly harm sustainability objectives. The Investment Manager excludes labelled bonds with very poor ESG management practices that breach the Fund's exclusion criteria. Labelled bonds are also assessed for financial management issues that may undermine confidence in the issuer's ability to fulfil its Green Bond commitments. Such assessments consider whether the proceeds are ring-fenced for environmental-linked projects; any unallocated proceeds are to be held in cash, government bonds, or other liquid short-term instruments

Through the Investment Manager's investment research, ESG factors are considered throughout the investment cycle, which serves to mitigate the risks of significant harm.

Companies are also identified which the Investment Manager thinks could benefit from active engagement to address material ESG issues, before they are considered to be significantly harmful.

How were the indicators for adverse impacts on sustainability factors taken into account?

Investments which are reported as sustainable investments have been assessed to ensure they do not significantly harm (DNSH) sustainability objectives using an in-house data driven model and investment due diligence.

- — — The Investment Manager identifies harm when assessing a sustainable investment by using quantitative thresholds against a selection of principal adverse impact indicators, including mandatory indicators from Table 1 and certain indicators from Tables 2 and 3 of Annex I of the Regulatory Technical Standards. Issuers which fall below these thresholds are flagged as potentially harmful and a review is then undertaken to determine whether significant harm is being caused by the issuer. Where quantitative data is not available, the Investment Manager endeavours to satisfy that no significant harm has taken place through desk-based qualitative research.

Depending on the type and materiality of the principal adverse impact indicator, the Investment Manager will either engage with the issuer to address the harmful practices by taking appropriate action, or limit exposure to such issuers in the portfolio.

During the review period, the Investment Manager reviewed all portfolio holdings and concluded that there were no significant adverse impacts relating to them.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details.:

The sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights, including the principles and rights set out in the eight fundamental conventions identified in the Declaration of the International Labour Organisation on Fundamental Principles and Rights at Work and the International Bill of Human Rights.

The Fund excluded companies that breached UN Global Compact (UNGC) principles and further considered good conduct when making investments. In addition, the DNSH checks also assessed issuers for explicit harm against the underlying principles of the UNGC and OECD Guidelines.

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

The Fund proactively considered the principal adverse impacts (“PAIs”) of its investment decisions that may negatively harm sustainability factors through a combination of exclusions, engaging with investee companies and investment research.

As part of portfolio construction and stock selection, the Fund has in place exclusions that correspond to sustainability factors. The exclusions applied by the Fund relate to fossil fuels, biodiversity, deforestation, human rights, global norms, hazardous waste and controversial weapons. The Fund adhered to its exclusion policy during the period under review.

In addition, the Fund considered PAIs as part of its stewardship activities. Details of PAI engagement are outlined later in this report. PAIs were also considered as part of investment research during the period under review.

What were the top investments of this financial product?

The list includes the investments constituting the **greatest proportion of investments** of the financial product during the reference period which is: 01/10/2023 to 30/09/2024

Issuer name*	Sector	Average weight	Country
Nationwide Building Society	Banking	2.95%	United Kingdom
Volkswagen International Finance NV	Consumer Cyclical	2.77%	Germany
BNP Paribas S.A.	Banking	2.25%	France
Bank of America Corporation	Banking	2.23%	United States
ING Groep N.V.	Banking	2.20%	Netherlands
Bank of Ireland Group plc	Banking	1.92%	Ireland
Deutsche Bank Aktiengesellschaft	Banking	1.86%	Germany

Orange SA	Communications	1.35%	France
Societe Generale SA	Banking	1.34%	France

* The top investments held by the Fund during the current reference period have been calculated at representative intervals commencing from 01/01/2024.

What was the proportion of sustainability-related investments?

Asset allocation describes the share of investments in specific assets.

Investments aligned with environmental or social characteristics comprised 99.37% of the Fund as at 30/09/2024.

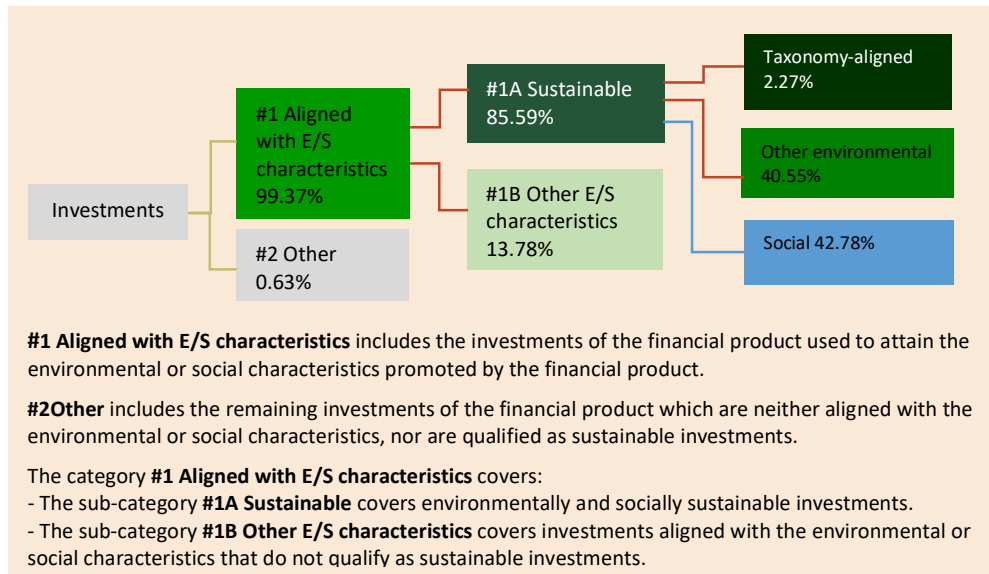

Sustainable investments comprised 85.59% of the Fund as at 30/09/2024.

● **What was the asset allocation?**

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Note: an investment may contribute to one of more environmental or social objectives. Investments have been split based on a quantitative review of revenue exposure. Due to rounding, reported figures may not sum to 100%.

● **In which economic sectors were the investments made?**

Sector	% of Net Assets*
Banking	36.97%
Banking	36.97%

* Due to rounding, the percentages for subsectors may not total to the sector percentage

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

The Fund does not commit to holding a minimum proportion in sustainable investments with an environmental objective aligned with the EU Taxonomy Regulation. It does, however, have a discretion to invest in these type of securities as part of delivering its investment objective.

2.27% of the investments made by the Fund are in economic activities that qualify as environmentally sustainable under the EU Taxonomy Regulation. This taxonomy alignment figure is based on reliable data that has been made available by third-party data providers and is measured by the proportion of turnover associated with economic activities that qualify as environmentally sustainable. Third-party data providers may use actual data reported by companies on taxonomy alignment or estimated data when calculating taxonomy alignment. The methodology upon which any estimates are based are proprietary to the third-party data provider. An economic activity qualifies as environmentally sustainable under the EU Taxonomy Regulation where it substantially contributes to one of six environmental objectives.

The proportion of the Fund's investments that contributed towards these

environmental objectives is broken down as follows:

Climate change mitigation	This figure will be presented when data quality improves
Climate change adaptation	This figure will be presented when data quality improves
Sustainable use and protection of water and marine resources	This figure will be presented when data quality improves
Transition to a circular economy	This figure will be presented when data quality improves
Pollution prevention and control	This figure will be presented when data quality improves
Protection and restoration of biodiversity and ecosystems	This figure will be presented when data quality improves

The mentioned percentage figures have been subject to an assurance review by a third party auditor.

● **Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?**

Yes:

In fossil gas

In nuclear energy

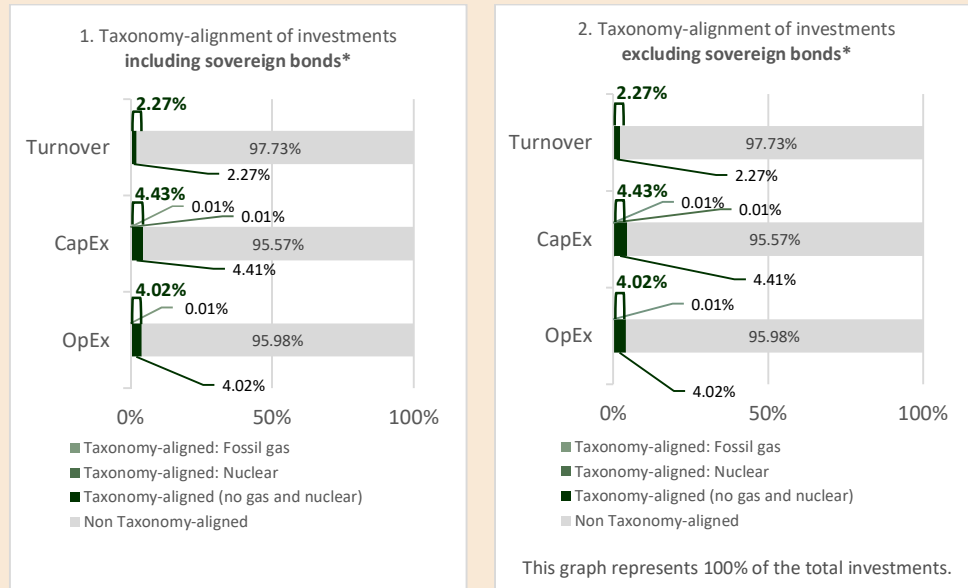

No

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change (“climate change mitigation”) and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure (CapEx)** showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure (OpEx)** reflecting green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

● **What was the share of investments made in transitional and enabling activities?**

0.04% of the investments made by the Fund are in transitional activities as defined by the EU Taxonomy Regulation.

1.68% of the investments made by the Fund are in enabling activities as defined by the EU Taxonomy Regulation.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

	2024	2023	2022
EU Taxonomy Alignment	2.27 %	2.79%	0%

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

40.55% of the sustainable investments had an environmental objective not aligned with the EU Taxonomy.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What was the share of socially sustainable investments?

42.78% of the sustainable investments had a social objective.

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards.?

Holdings classified as “other” include: (i) ancillary liquid assets (i.e. bank deposit at sight) which are held for the purposes of liquidity management; (ii) bank deposits, money market instruments or money market funds held for treasury purposes; and (iii) derivatives for hedging purposes.

These investments are not used to meet the environmental and/or social characteristics of the Fund, and are held for liquidity and hedging purposes. Minimum environmental or social safeguards are ensured for these instruments by incorporating ESG considerations into the counterparty risk assessment.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

During the year there were 81 ESG specific engagements with companies held in the portfolio. These covered 42 companies in 11 countries across a range of themes.

Engagements are structured in line with the Investment Manager’s engagement themes, which align with the PAIs. Below is a breakdown of the engagements undertaken and the PAI categories that they address. It is noted that an engagement may correlate with a number of PAI indicators.

Engagements theme	Alignment with PAIs	Proportion of engagements
Climate Change	GHG Emissions and Energy Performance	30.00%
Environmental Stewardship	Biodiversity, Water, Waste	11.33%
Business Conduct	Social and Employee Matters	4.00%
Human Rights		8.67%
Labour Standards		17.33%
Public Health		3.33%
Corporate Governance		25.33%

How did this financial product perform compared to the reference benchmark?

The Fund does not have a designated reference benchmark that is used to measure whether it attains the environmental and/or social characteristics that it promotes.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

- ***How does the reference benchmark differ from a broad market index?***
Not applicable.

- ***How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?***
Not applicable.

- ***How did this financial product perform compared with the reference benchmark?***
Not applicable.

- ***How did this financial product perform compared with the broad market index?***
Not applicable.

ANNEX IV

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Product name: CT (Lux) Responsible Global Emerging Markets Equity
 Legal entity identifier: 213800BICB11V5TYV922

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?	
<input checked="" type="radio"/> <input type="radio"/> <input type="checkbox"/> Yes	<input type="radio"/> <input checked="" type="radio"/> <input checked="" type="checkbox"/> No
<input type="checkbox"/> It made sustainable investments with an environmental objective: ____ <ul style="list-style-type: none"> <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy 	<input checked="" type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of <u>71.95%</u> of sustainable investments <ul style="list-style-type: none"> <input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input checked="" type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input checked="" type="checkbox"/> with a social objective
<input type="checkbox"/> It made sustainable investments with a social objective: ____	<input type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The Fund promoted environmental and/or social characteristics by integrating the following responsible investment measures into the investment decision-making process:

- Avoiding companies with environmentally or socially damaging products, or unsustainable business or governance practices
- Investing in companies that make a positive contribution to society and/or the environment
- Improving management of ESG issues, using the Investment Manager’s influence as an

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

investor to encourage best practice through engagement and voting

The Fund, while it does not have a sustainable objective, aims to hold a minimum of 67.5% in sustainable investments that provide sustainability solutions or otherwise make a positive contribution to society or the environment. As at 30/09/2024, the fund held 71.95% in sustainable investments.

● **How did the sustainability indicators perform?**

The Investment Manager uses the following sustainability indicators to measure the attainment of the environmental and social characteristics promoted by the Fund:

1. The number of companies determined to be in breach of the Fund's exclusion criteria and/or global norms.

The Fund did not invest in companies that breached its exclusion criteria and/or global norms. Holdings were monitored post-investment and one issuer was divested during the reporting period when it no longer adhered to the exclusion requirements of the Fund.

2. The percentage of the Fund which aligns to its key sustainability themes.

Sustainability Theme	2024
Energy Transition	10.24%
Responsible Finance	17.34%
Food and Nutrition	11.45%
Health and Wellbeing	16.17%
Sustainable Infrastructure	11.52%
Technological Innovation	31.91%

3. Held companies' revenue alignment with the targets which underpin the UN Sustainable Development Goals (SDGs).

As at 30/09/2024, 71.95% of the Fund was invested in companies with greater than 50% of net revenues positively aligned with the SDGs.

4. The number of environmental- and social-linked engagement objectives and/or milestones achieved.

During the reporting period, 27 engagements were undertaken with 13

companies. This resulted in 8 milestones, meaning a company made a tangible improvement in its policies and practices in alignment with the Investment Manager's engagement objective.

● **...and compared to previous periods?**

Indicator	2024	2023	2022

--------------------------	--------	--------	--------

● ***What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?***

As at 30/09/2024, the Fund had 71.95% of holdings invested in companies which align to the SDGs, and are considered sustainable investments.

These investments contribute to a sustainable objective through their contribution to key sustainability themes which have an environmental or social focus, most notably:

1. Health and well-being – Supporting the provision of services to improve personal long-term well-being, e.g. education, health and sanitation
2. Food and nutrition – Helping advance sustainable production and consumption patterns
3. Technological innovation – Delivering technological and connectivity solutions to advance sustainable development
4. Energy transition – Fueling the economy with efficient and affordable energy from both conventional and alternative sources
5. Sustainable infrastructure – Helping build resilient infrastructure in transport, energy, water, communications and other sectors
6. Responsible finance – Providing financial services to advance financial inclusion, small and medium-sized enterprise (SME) development, green finance and sustainable financial markets

● ***How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?***

The Fund’s investment approach assesses that the sustainable investments held in the portfolio do not significantly harm other sustainable investment objectives in several ways.

The Fund screens out investments that are contrary to the goals of making positive contributions to the environment and/or society. The criteria is product- and conduct-based, covering topics such as fossil fuels, weapons, and global norms breaches.

Through the Investment Manager's investment research, ESG factors are considered throughout the investment cycle, which serves to mitigate the risks of significant harm.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

Companies are also identified which the Investment Manager thinks could benefit from active engagement to address material ESG issues, before they are considered to be significantly harmful.

— *How were the indicators for adverse impacts on sustainability factors taken into account?*

Investments which are reported as sustainable investments have been assessed to ensure they do not significantly harm (DNSH) sustainability objectives using an in-house data driven model and investment due diligence.

The Investment Manager identifies harm when assessing a sustainable investment by using quantitative thresholds against a selection of principal adverse impact indicators, including mandatory indicators from Table 1 and certain indicators from Tables 2 and 3 of Annex I of the Regulatory Technical Standards. Issuers which fall below these thresholds are flagged as potentially harmful and a review is then undertaken to determine whether significant harm is being caused by the issuer. Where quantitative data is not available, the Investment Manager endeavours to satisfy that no significant harm has taken place through desk-based qualitative research.

Depending on the type and materiality of the principal adverse impact indicator, the Investment Manager will either engage with the issuer to address the harmful practices by taking appropriate action, or limit exposure to such issuers in the portfolio.

During the review period, the Investment Manager reviewed all portfolio holdings and concluded that there were no significant adverse impacts relating to them.

— — *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details.:*

The sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights, including the principles and rights set out in the eight fundamental conventions identified in the Declaration of the International Labour Organisation on Fundamental Principles and Rights at Work and the International Bill of Human Rights.

The Fund excluded companies that breached UN Global Compact (UNGC) principles and further considered good conduct when making investments. In addition, the DNSH checks also assessed issuers for explicit harm against the underlying principles of the UNGC and OECD Guidelines

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

The Fund proactively considered the principal adverse impacts (“PAIs”) of its investment decisions that may negatively harm sustainability factors through a combination of exclusions, engaging with investee companies and investment research.

As part of portfolio construction and stock selection, the Fund has in place exclusions that correspond to sustainability factors. The exclusions applied by the Fund relate to fossil fuels, biodiversity, deforestation, human rights, global norms, hazardous waste and controversial weapons. The Fund adhered to its exclusion policy during the period under review.

In addition, the Fund considered PAIs as part of its stewardship activities. Details of PAI engagement are outlined later in this report. PAIs were also considered as part of investment research during the period under review.

What were the top investments of this financial product?

The list includes the investments constituting the **greatest proportion of investments** of the financial product during the reference period which is: 01/10/2023 to 30/09/2024

Issuer name*	Sector	Average weight	Country
Taiwan Semiconductor Manufacturing Company Limited	Information Technology	9.57%	Taiwan
FPT Corp.	Information Technology	5.26%	Vietnam
Jeronimo Martins, SGPS S.A.	Consumer Staples	4.05%	Portugal
AIA Group Limited	Financials	4.03%	Hong Kong
PT Bank Central Asia Tbk	Financials	3.80%	Indonesia
HDFC Bank Ltd.	Financials	3.69%	India

Discovery Limited	Financials	2.12%	South Africa

* The top investments held by the Fund during the current reference period have been calculated at representative intervals commencing from 01/01/2024.

Asset allocation describes the share of investments in specific assets.

What was the proportion of sustainability-related investments?

Investments aligned with environmental or social characteristics comprised 98.08% of the Fund as at 30/09/2024.

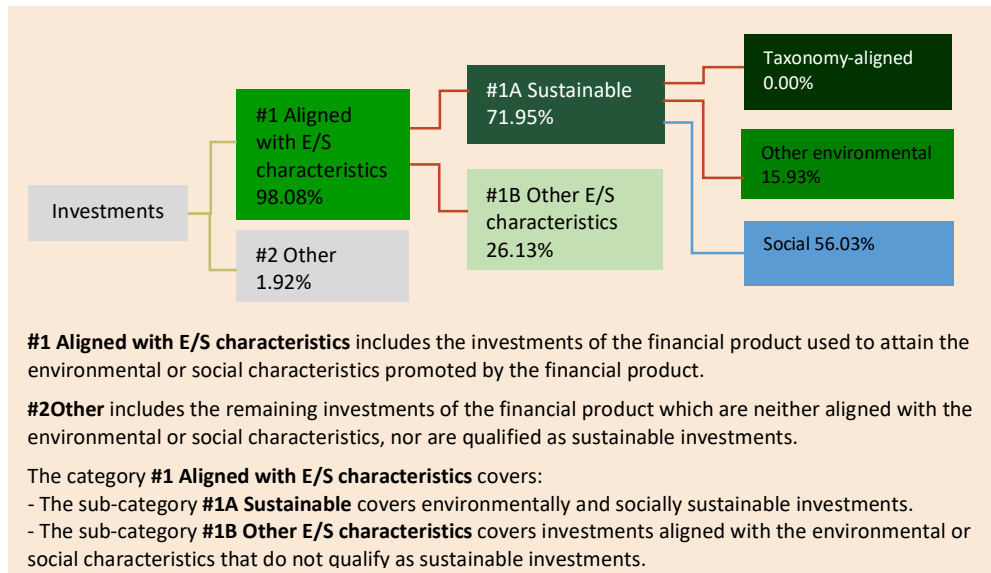

Sustainable investments comprised 71.95% of the Fund as at 30/09/2024.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

● **What was the asset allocation?**

Note: an investment may contribute to one of more environmental or social objectives. Investments have been split based on a quantitative review of revenue exposure. Due to rounding, reported figures may not sum to 100%.

● **In which economic sectors were the investments made?**

Sector	% of Net Assets
Communication Services	4.06%
Entertainment	1.65%
Interactive Media & Services	1.77%
Wireless Telecommunication Services	0.64%
Consumer Discretionary	9.17%

It Services	9.22%
Semiconductors & Semiconductor Equipment	14.93%
Technology Hardware Storage & Peripherals	4.23%
Real Estate	2.22%
Real Estate Management & Development	2.22%

* Due to rounding, the percentages for subsectors may not total to the sector percentage

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

The Fund does not commit to holding a minimum proportion in sustainable investments with an environmental objective aligned with the EU Taxonomy Regulation. It does, however, have a discretion to invest in these type of securities as part of delivering its investment objective.

0% of the investments made by the Fund are in economic activities that qualify as environmentally sustainable under the EU Taxonomy Regulation. This taxonomy alignment figure is based on reliable data that has been made available by third-party data providers and is measured by the proportion of turnover associated with economic activities that qualify as environmentally sustainable. Third-party data providers may use actual data reported by companies on taxonomy alignment or estimated data when calculating taxonomy alignment. The methodology upon which any estimates are based are proprietary to the third-party data provider. An economic activity qualifies as environmentally sustainable under the EU Taxonomy Regulation where it substantially contributes to one of six environmental objectives.

The proportion of the Fund's investments that contributed towards these environmental objectives is broken down as follows:

Climate change mitigation	This figure will be presented when data quality improves
Climate change adaptation	This figure will be presented when data quality improves

Sustainable use and protection of water and marine resources	This figure will be presented when data quality improves
Transition to a circular economy	This figure will be presented when data quality improves
Pollution prevention and control	This figure will be presented when data quality improves
Protection and restoration of biodiversity and ecosystems	This figure will be presented when data quality improves

The mentioned percentage figures have been subject to an assurance review by a third party auditor.

● **Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?**

Yes:

In fossil gas

In nuclear energy

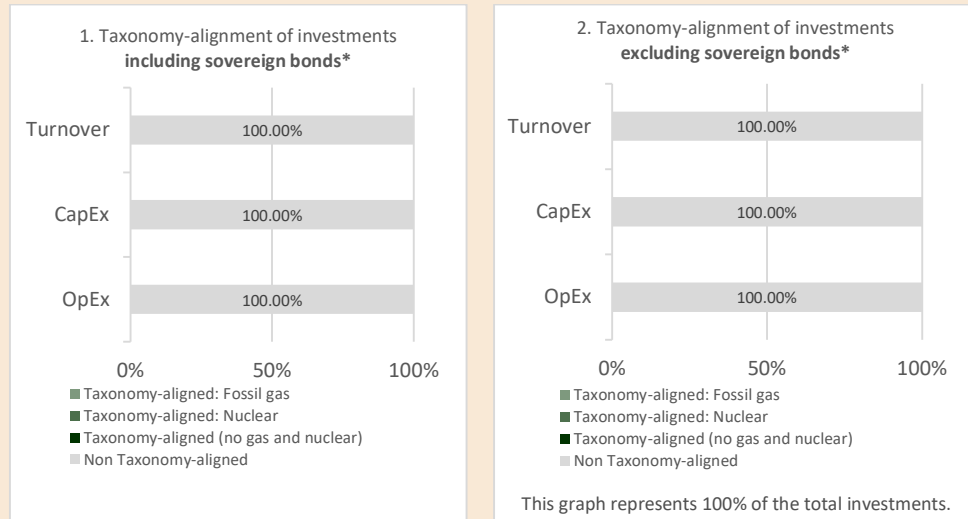

No

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change (“climate change mitigation”) and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

● **What was the share of investments made in transitional and enabling activities?**

0.00% of the investments made by the Fund are in transitional activities as defined by the EU Taxonomy Regulation.

0.00% of the investments made by the Fund are in enabling activities as defined by the EU Taxonomy Regulation.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

	2024	2023	2022
EU Taxonomy Alignment	0.00%	0.00%	0.00%

 are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

 **What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?**

15.93% of the sustainable investments had an environmental objective not aligned with the EU Taxonomy.

 **What was the share of socially sustainable investments?**

56.03% of the sustainable investments had a social objective.

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards.?

Holdings classified as “other” include: (i) ancillary liquid assets (i.e. bank deposit at sight) which are held for the purposes of liquidity management; (ii) bank deposits, money market instruments or money market funds held for treasury purposes; and (iii) derivatives for hedging purposes.

These investments are not used to meet the environmental and/or social characteristics of the Fund, and are held for liquidity and hedging purposes. Minimum environmental or social safeguards are ensured for these instruments by incorporating ESG considerations into the counterparty risk assessment.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

During the year there were 27 ESG specific engagements with companies held in the portfolio. These covered 13 companies in 7 countries across a range of themes.

Engagements are structured in line with the Investment Manager’s engagement themes, which align with the PAIs. Below is a breakdown of the engagements undertaken and the PAI categories that they address. It is noted that an engagement may correlate with a number of PAI indicators.

Engagement theme	Alignment with PAIs	Proportion of engagements
Climate Change	GHG Emissions and Energy Performance	19.05%
Environmental Stewardship	Biodiversity, Water, Waste	12.70%
Business Conduct	Social and Employee Matters	3.17%
Human Rights		6.35%
Labour Standards		17.46%
Public Health		0.00%
Corporate Governance		41.27%

How did this financial product perform compared to the reference benchmark?

The Fund does not have a designated reference benchmark that is used to measure whether it attains the environmental and/or social characteristics that it promotes.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

- ***How does the reference benchmark differ from a broad market index?***
Not applicable.

- ***How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?***
Not applicable.

- ***How did this financial product perform compared with the reference benchmark?***
Not applicable.

- ***How did this financial product perform compared with the broad market index?***
Not applicable.

ANNEX IV

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Sustainable

investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Product name: CT (Lux) Responsible Global Equity

Legal entity identifier: 213800QUBFOSM6S1V262

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

Yes

It made **sustainable investments with an environmental objective**: ____

in economic activities that qualify as environmentally sustainable under the EU Taxonomy

in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

It made **sustainable investments with a social objective**: ____

No

It **promoted Environmental/Social (E/S) characteristics** and while it did not have as its objective a sustainable investment, it had a proportion of 95.09% of sustainable investments

with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy

with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

with a social objective

It promoted E/S characteristics, but **did not make any sustainable investments**

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The CT (Lux) Responsible Global Equity Fund invested in companies in line with its investment policy during the reporting period. The overarching philosophy of the Fund is to:

- Avoid companies with environmentally or socially damaging products, or unsustainable business or governance practices.
- Invest in companies that make a positive contribution to society and/or the environment.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

- Improve management of ESG issues, using the Investment Manager’s influence as an investor to encourage best practice through engagement and voting.

● **How did the sustainability indicators perform?**

The Investment Manager uses the following indicators to measure the attainment of the environmental and social characteristics promoted by the Fund:

1) The number of companies determined to be in breach of the Fund’s exclusion criteria and/or global norms.

The Fund did not invest in companies which breached its standards.

2) The percentage of the Fund which aligns to its key sustainability themes.

As at 30/09/2024, 98.2%% of the Fund was aligned to its key sustainability themes.

Energy Transition	8.9%
Resource Efficiency	13.4%
Sustainable Cities	7.7%
Health & Wellbeing	20.4%
Connect & Protect	15.4%
Digital Empowerment	26.8%
Sustainable Finance	5.6%
No Theme / Cash	1.8%

3) Held companies' revenue alignment with the targets which underpin the SDGs.

As at 30/09/2024, 95.09% of the Fund was invested in companies with greater than 50% of net revenues positively aligned with the SDGs.

4) The number of environmental- and social-linked engagement objectives and/or milestones achieved.

During the reporting period, engagements were undertaken with 19 companies. This resulted in 8 milestones, meaning a company made a tangible improvement in its policies and practices in alignment with the Investment Manager’s engagement objective.

● **...and compared to previous periods?**

Indicator	2024	2023	2022
The number of companies determined to be in breach of the Fund's exclusion criteria and/or global norms	0	0	0
Held companies' revenue alignment with the targets which underpin the SDGs	95.09%	93.97%	92.54%
The percentage of the Fund which aligns to its key sustainability themes	98.2%	97.1%	97.8%
The number of environmental- and social-linked engagement objectives and/or milestones achieved	8	11	16

Sustainability themes	2024	2023	2022
Energy Transition	8.9%	11.5%	11.4%
Resource Efficiency	13.4%	10.2%	7.2%
Sustainable Cities	7.7%	6.9%	8.2%
Health & Wellbeing	20.4%	22.4%	23.9%
Connect & Protect	15.4%	16.3%	15.9%
Digital Empowerment	26.8%	20.1%	17.4%
Sustainable Finance	5.6%	9.8%	13.8%
No Theme / Cash	1.8%	2.9%	2.2%

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

The Fund aims to invest a minimum proportion of 67.5% in sustainable investments. As at 30/09/2024, the Fund had 95.09% of holdings invested in companies with greater than 50% net revenue positively contributing to the SDGs, and considered to be sustainable investments.

These investments contributed to a sustainable objective through their contribution to key sustainability themes which have an environmental or social

focus, including: energy transition, health and well-being and resource efficiency.

The Investment Manager uses a proprietary framework to assess the extent to which companies prioritise sustainability:

- **Additionality:** Is the company a leader in its industry, making a real difference to the positive direction of the industry? Here the Investment Manager focuses on and evidences the Fund's exposure through its view of high quality businesses.
- **Intentionality:** How core is sustainability to the company's strategy and overall raison d'être? Here the Investment Manager leverages its extensive engagement capability to assess the company's transparency and communication around strategic goals, which will evidence the management team's and Board's intentions in prioritising these issues/opportunities.
- **Materiality:** How material are sustainability opportunities for the company? In addition to assessing revenue alignment to the SDGs, the Investment Manager makes an assessment of the company's revenue alignment to the following seven sustainability themes: Environmental Stewardship, Climate Change, Human Rights, Labour Standards, Public Health, Business Ethics and Corporate Governance.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

The Fund's investment approach assesses that the sustainable investments held in the portfolio do not significantly harm other sustainable investment objectives in several ways.

The Fund screens out investments that are contrary to the goals of making positive contributions to the environment and/or society. The criteria is product- and conduct-based, covering topics such as fossil fuels, weapons, and global norms breaches.

Through the Investment Manager's investment research, ESG factors are considered throughout the investment cycle, which serves to mitigate the risks of significant harm.

Companies are also identified which the Investment Manager thinks could benefit from active engagement to address material ESG issues, before they are considered to be significantly harmful.

— — — *How were the indicators for adverse impacts on sustainability factors taken into account?*

Investments which are reported as sustainable investments have been assessed to ensure they do not significantly harm (DNSH) sustainability objectives using an in-house data driven model and investment due diligence.

The Investment Manager identifies harm when assessing a sustainable investment by using quantitative thresholds against a selection of principal adverse impact indicators, including mandatory indicators from Table 1 and certain indicators from Tables 2 and 3 of Annex I of the Regulatory Technical Standards. Issuers which fall below these thresholds are flagged as potentially harmful and a review is then undertaken to determine whether significant harm is being caused by the issuer. Where quantitative data is not available, the Investment Manager endeavours to satisfy that no significant harm has taken place through desk-based qualitative research.

Depending on the type and materiality of the principal adverse impact indicator, the Investment Manager will either engage with the issuer to address the harmful practices by taking appropriate action, or limit exposure to such issuers in the portfolio.

During the review period, the Investment Manager reviewed all portfolio holdings and concluded that there were no significant adverse impacts relating to them.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details.:

The sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights, including the principles and rights set out in the eight fundamental conventions identified in the Declaration of the International Labour Organisation on Fundamental Principles and Rights at Work and the International Bill of Human Rights.

The Fund excluded companies that breached UN Global Compact (UNGC) principles and further considered good conduct when making investments. In addition, the DNSH checks also assessed issuers for explicit harm against the underlying principles of the UNGC and OECD Guidelines.

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

The Fund proactively considered the principal adverse impacts (“PAIs”) of its investment decisions that may negatively harm sustainability factors through a combination of exclusions, engaging with investee companies and investment research.

As part of portfolio construction and stock selection, the Fund has in place exclusions that correspond to sustainability indicators that cannot be held. The exclusions applied by the Fund relate to fossil fuel exposure, non-renewable energy production, biodiversity, hazardous and radioactive waste, global norms, controversial weapons, deforestation and incidents of discrimination. The Fund adhered to its exclusion policy during the period under review.

In addition, the Fund considered PAIs as part of its stewardship activities. Details of PAI engagement are outlined later in this report. PAIs were also considered as part of investment research during the period under review.

What were the top investments of this financial product?

The list includes the investments constituting the **greatest proportion of investments** of the financial product during the reference period which is: 01/10/2023 to 30/09/2024

Issuer name*	Sector	Average weight	Country
Apple Inc.	Information Technology	6.22%	United States
NVIDIA Corporation	Information Technology	5.08%	United States
Mastercard Incorporated	Financials	4.24%	United States
Alphabet Inc.	Communication Services	4.09%	United States
Linde Plc	Materials	3.85%	United States
Intercontinental Exchange, Inc.	Financials	2.88%	United States
Waste Connections, Inc.	Industrials	2.62%	United States
ASML Holding NV	Information Technology	2.61%	Netherlands
Thermo Fisher Scientific Inc.	Health Care	2.58%	United States
Schneider Electric SE	Industrials	2.57%	France
Xylem Inc.	Industrials	2.46%	United States
Keyence Corporation	Information Technology	2.43%	Japan
Roper Technologies, Inc.	Information Technology	2.41%	United States
Intuitive Surgical, Inc.	Health Care	2.22%	United States
Taiwan Semiconductor Manufacturing Company	Information Technology	2.01%	Taiwan

* The top investments held by the Fund during the current reference period have been calculated at representative intervals commencing from 01/01/2024.

What was the proportion of sustainability-related investments?

Asset allocation describes the share of investments in specific assets.

Investments aligned with environmental or social characteristics comprised 99.58% of the Fund as at 30/09/2024.

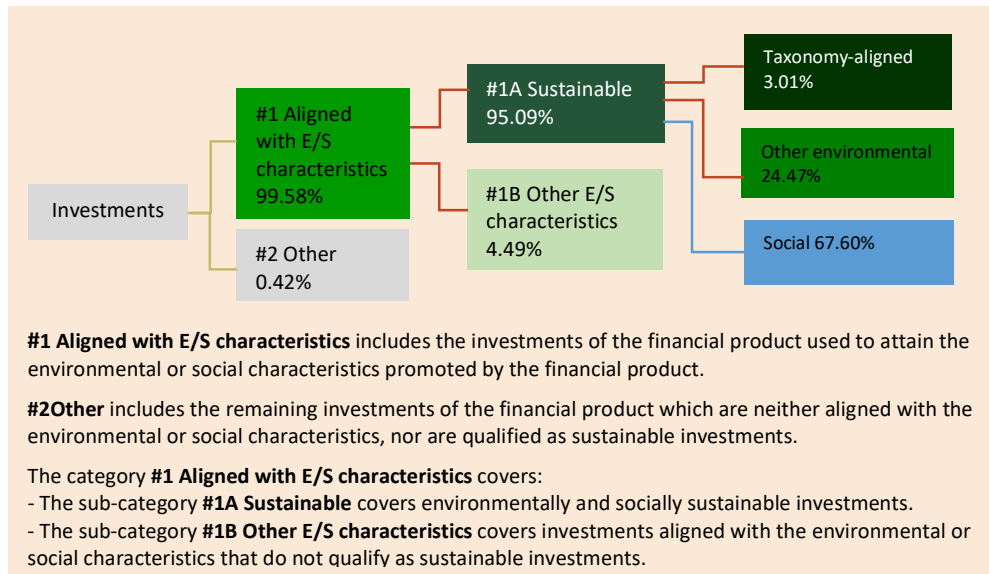

Sustainable investments comprised 95.09% of the Fund as at 30/09/2024.

● **What was the asset allocation?**

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Note: an investment may contribute to one of more environmental or social objectives. Investments have been split based on a quantitative review of revenue exposure. Due to rounding, reported figures may not sum to 100%.

● **In which economic sectors were the investments made?**

Sector	% of Net Assets
Consumer Discretionary	7.07%
Broadline Retail	1.58%
Hotels Restaurants & Leisure	1.89%
Leisure Products	1.00%
Specialty Retail	1.23%
Textiles Apparel & Luxury Goods	1.36%
Consumer Staples	1.62%
Food Products	1.62%
Financials	9.74%
Banks	1.11%
Capital Markets	4.86%
Financial Services	3.77%
Health Care	18.74%
Biotechnology	1.63%
Health Care Equipment & Supplies	6.09%
Life Sciences Tools & Services	3.64%
Pharmaceuticals	7.38%
Industrials	16.25%
Building Products	1.53%

Commercial Services & Supplies	2.33%
Electrical Equipment	5.42%
Ground Transportation	2.24%
Machinery	3.50%
Professional Services	1.22%
Information Technology	35.15%
Electronic Equipment Instruments & Components	6.09%
It Services	1.84%
Semiconductors & Semiconductor Equipment	9.49%
Software	12.30%
Technology Hardware Storage & Peripherals	5.44%
Materials	7.93%
Chemicals	5.86%
Containers & Packaging	2.07%
Real Estate	2.19%
Specialized Reits	2.19%
Utilities	1.40%
Electric Utilities	1.40%

* Due to rounding, the percentages for subsectors may not total to the sector percentage

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

The Fund does not commit to holding a minimum proportion in sustainable investments with an environmental objective aligned with the EU Taxonomy Regulation. It does, however, have a discretion to invest in these type of securities as part of delivering its investment objective.

3.01% of the investments made by the Fund are in economic activities that qualify as environmentally sustainable under the EU Taxonomy Regulation. This taxonomy alignment figure is based on reliable data that has been made available by third-party data providers and is measured by the proportion of turnover associated with economic activities that qualify as environmentally sustainable. Third-party data providers may use actual data reported by companies on taxonomy alignment or estimated data when calculating taxonomy alignment. The methodology upon which any estimates are based are proprietary to the third-party data provider. An economic activity qualifies as environmentally sustainable under the EU Taxonomy Regulation where it substantially contributes to one of six environmental objectives.

The proportion of the Fund's investments that contributed towards these environmental objectives is broken down as follows:

Climate change mitigation	This figure will be presented when data quality improves
---------------------------	--

Climate change adaptation	This figure will be presented when data quality improves
Sustainable use and protection of water and marine resources	This figure will be presented when data quality improves
Transition to a circular economy	This figure will be presented when data quality improves
Pollution prevention and control	This figure will be presented when data quality improves
Protection and restoration of biodiversity and ecosystems	This figure will be presented when data quality improves

The mentioned percentage figures have been subject to an assurance review by a third party auditor.

● **Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?**

Yes:

In fossil gas

In nuclear energy

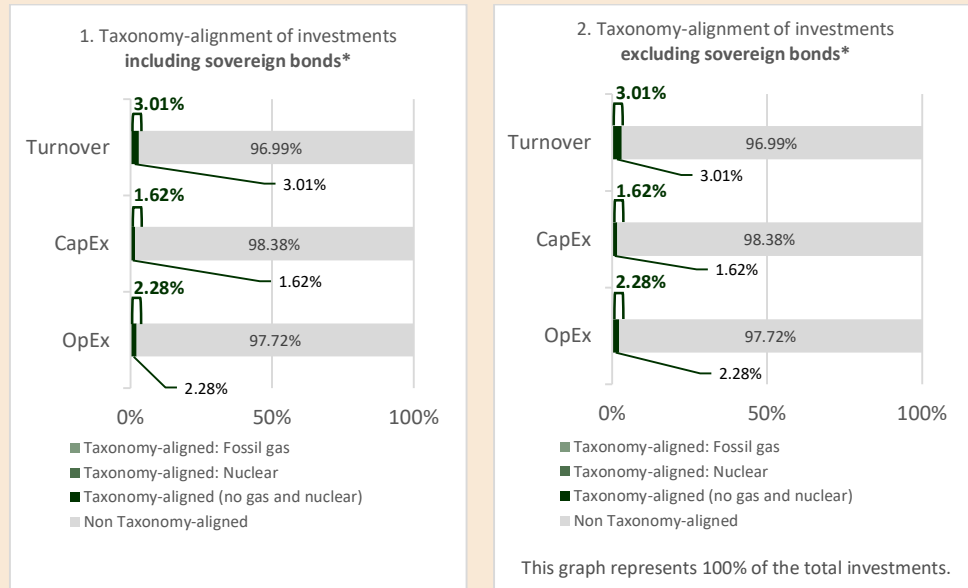

No

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change (“climate change mitigation”) and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

● **What was the share of investments made in transitional and enabling activities?**

0.00% of the investments made by the Fund are in transitional activities as defined by the EU Taxonomy Regulation.

1.48% of the investments made by the Fund are in enabling activities as defined by the EU Taxonomy Regulation.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

	2024	2023	2022
EU Taxonomy Alignment	3.01%	3.48%	0.00%

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

24.47% of the sustainable investments had an environmental objective not aligned with the EU Taxonomy.

What was the share of socially sustainable investments?

67.60% of the sustainable investments had a social objective.

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards.?

Holdings classified as “other” include: (i) ancillary liquid assets (i.e. bank deposit at sight) which are held for the purposes of liquidity management; (ii) bank deposits, money market instruments or money market funds held for treasury purposes; and (iii) derivatives for hedging purposes.

These investments are not used to meet the environmental and social characteristics of the Fund. The purpose of these securities are to meet liquidity and hedging requirements. For cash positions and derivatives, ESG considerations are integrated into the counterparty risk assessment.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

During the year there were 28 ESG specific engagements with companies held in the portfolio. These covered 19 companies across 7 countries across a range of themes.

Engagements are structured in line with the Investment Manager’s engagement themes, which align with the PAIs. Below is a breakdown of the engagements undertaken and the PAI categories that they address. It is noted that an engagement may correlate with a number of PAI indicators

Engagements theme	Alignment with PAIs	Proportion of engagements
Climate Change	GHG Emissions and Energy Performance	26.39%
Environmental Stewardship	Biodiversity, Water, Waste	13.89%
Business Conduct	Social and Employee Matters	4.17%
Human Rights		8.33%
Labour Standards		20.83%
Public Health		1.39%
Corporate Governance		25.00%

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

How did this financial product perform compared to the reference benchmark?

The Fund does not have a designated reference benchmark that is used to measure whether it attains the environmental and/or social characteristics that it promotes.

- ***How does the reference benchmark differ from a broad market index?***
Not applicable.

- ***How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?***
Not applicable.

- ***How did this financial product perform compared with the reference benchmark?***
Not applicable.

- ***How did this financial product perform compared with the broad market index?***
Not applicable.

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Product name: CT (Lux) SDG Engagement Global Equity
 Legal entity identifier: 213800TVDYDJOO2JBG48

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?	
Yes	No
<input type="checkbox"/> It made sustainable investments with an environmental objective: ____ <ul style="list-style-type: none"> <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy 	<input checked="" type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of <u>88.27%</u> of sustainable investments <ul style="list-style-type: none"> <input checked="" type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input checked="" type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input checked="" type="checkbox"/> with a social objective
<input type="checkbox"/> It made sustainable investments with a social objective: ____	<input type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments

To what extent were the environmental and/or social characteristics promoted by this financial product met?

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

The CT (Lux) SDG Engagement Global Equity Fund allocated to companies in line with its investment policy during the period. The Fund promotes companies that, through active engagement, will achieve targeted milestones aligned to one or more of the seventeen United Nations Sustainable Development Goals ("SDGs").

The overarching philosophy of the Fund is to:

- Avoid companies with environmentally or socially damaging products, or unsustainable

business or governance practices

- Invest in companies that make a positive contribution to society and/or the environment
- Improve management of ESG issues, using the Investment Manager's influence as an investor to encourage best practice through engagement and voting

The Fund aims for a minimum of 67.5% of its investments to be classified as sustainable investments. As at 30/09/2024, it held 88.27% in sustainable investments.

● ***How did the sustainability indicators perform?***

The Investment Manager uses the following sustainability indicators to measure the attainment of the environmental and social characteristics promoted by the Fund:

1. The Fund alignment with the SDGs.

As at 30/09/2024, the proportion of the Fund with >50% net revenue positively aligned with SDGs was 88.27%.

2. The number of SDG-linked engagements conducted.

During the reporting period the Fund had 44 investee company SDG-linked engagements, representing 29 companies engaged.

3. The number of SDG-linked engagement milestones achieved.

During the reporting period 22 SDG-linked engagement milestones were achieved. A milestone means that a company made a tangible improvement in their policies and practices in alignment with the Investment Manager's SDG engagement objective

● ***...and compared to previous periods?***

Indicator	2024	2023	2022
Proportion of the fund with >50% net revenue positively aligned with SDGs	88.27%	87.37%	87.58%
The number of SDG-linked engagements conducted	44	73	125
The number of SDG-linked engagement milestones achieved	22	33	19

Numer of Companies Engaged	29	35	-
----------------------------	----	----	---

● ***What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?***

The Fund aims to invest a minimum proportion of 67.5% in sustainable investments. As at 30/09/2024, the Fund had 88.27% of holdings invested in companies with greater than 50% net revenue positively contributing to the SDGs, and considered to be sustainable investments.

These investments contribute to a sustainable objective through their contribution to key sustainability themes which have an environmental or social focus, including: energy transition, health and well-being and resource efficiency.

The Investment Manager uses a proprietary framework to assess the extent to which companies prioritise sustainability:

- **Additionality:** Is the company a leader in its industry, making a real difference to the positive direction of the industry? Here the Investment Manager focuses on and evidences the Fund's exposure through its view of high quality businesses.
- **Intentionality:** How core is sustainability to the company's strategy and overall raison d'être? Here the Investment Manager leverages its extensive engagement capability to assess the company's transparency and communication around strategic goals, which will evidence the management team's and Board's intentions in prioritising these issues/opportunities.
- **Materiality:** How material are sustainability opportunities for the company? In addition to assessing revenue alignment to the SDGs, the Investment Manager makes an assessment of the company's revenue alignment to seven sustainability themes: Environmental Stewardship, Climate Change, Human Rights, Labour Standards, Public Health, Business Ethics and Corporate Governance.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

The Fund's investment approach assesses that the sustainable investments held in the portfolio do not significantly harm other sustainable investment objectives in several ways.

The Fund screens out investments that are contrary to the goals of making positive contributions to the environment and/or society. The criteria is product- and conduct-based, covering topics such as fossil fuels, weapons, and global norms breaches.

Through the Investment Manager's investment research, ESG factors are considered throughout the investment cycle, which serves to mitigate the risks of significant harm.

Companies are also identified which the Investment Manager thinks could benefit from active engagement to address material ESG issues, before they are considered to be significantly harmful.

How were the indicators for adverse impacts on sustainability factors taken into account?

Investments which are reported as sustainable investments have been assessed to ensure they do not significantly harm (DNSH) sustainability objectives using an in-house data driven model and investment due diligence.

The Investment Manager identifies harm when assessing a sustainable investment by using quantitative thresholds against a selection of principal adverse impact indicators, including mandatory indicators from Table 1 and certain indicators from Tables 2 and 3 of Annex I of the Regulatory Technical Standards. Issuers which fall below these thresholds are flagged as potentially harmful and a review is then undertaken to determine whether significant harm is being caused by the issuer. Where quantitative data is not available, the Investment Manager endeavours to satisfy that no significant harm has taken place through desk-based qualitative research.

Depending on the type and materiality of the principal adverse impact indicator, the Investment Manager will either engage with the issuer to address the harmful practices by taking appropriate action, or limit exposure to such issuers in the portfolio.

During the review period, the Investment Manager reviewed all portfolio holdings and concluded that there were no significant adverse impacts relating to them.

— — — *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details.:*

The sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights, including the principles and rights set out in the eight fundamental conventions identified in the Declaration of the International Labour Organisation on Fundamental Principles and Rights at Work and the International Bill of Human Rights.

The Fund excluded companies that breached UN Global Compact (UNGC) principles and further considered good conduct when making investments. In addition, the DNSH checks also assessed issuers for explicit harm against the underlying principles of the UNGC and OECD Guidelines

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

The Fund proactively considered the principal adverse impacts (“PAIs”) of its investment decisions that may negatively harm sustainability factors through a combination of exclusions, engaging with investee companies and investment research.

As part of portfolio construction and stock selection, the Fund has in place exclusions that correspond to sustainability factors. The exclusions applied by the Fund relate to fossil fuels, renewable energy, global norms and controversial weapons. The Fund adhered to its exclusion policy during the period under review.

In addition, the Fund considered PAIs as part of its stewardship activities. Details of PAI engagement are outlined later in this report. PAIs were also considered as part of

investment research during the period under review.

What were the top investments of this financial product?

The list includes the investments constituting the **greatest proportion of investments** of the financial product during the reference period which is: 01/10/2023 to 30/09/2024

Issuer name*	Sector	Average weight	Country
Smurfit WestRock plc	Materials	3.38%	United States
NetApp, Inc.	Information Technology	3.35%	United States
Waste Connections, Inc.	Industrials	3.09%	Canada
PT Bank Mandiri (Persero) Tbk.	Financials	3.03%	Indonesia
Kerry Group plc	Consumer Staples	2.86%	Ireland
Veolia Environnement SA	Utilities	2.82%	France
Halma plc	Information Technology	2.82%	United Kingdom
WEX Inc.	Financials	2.79%	United States
Shimadzu Corporation	Information Technology	2.72%	Japan

Wolters Kluwer N.V.	Industrials	2.66%	Netherlands
Rotork plc	Industrials	2.66%	United Kingdom
ICON plc	Health Care	2.64%	Ireland
A. O. Smith Corporation	Industrials	2.63%	United States
IDEX Corporation	Industrials	2.55%	United States

* The top investments held by the Fund during the current reference period have been calculated at representative intervals commencing from 01/01/2024.

What was the proportion of sustainability-related investments?

Asset allocation describes the share of investments in specific assets.

Investments aligned with environmental or social characteristics comprised 98.89% of the Fund as at 30/09/2024.

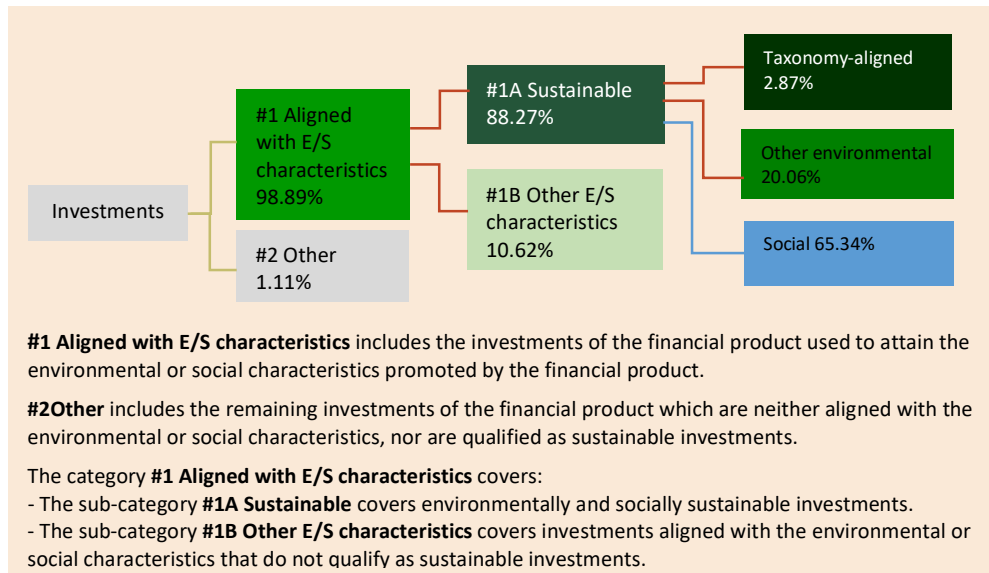

Sustainable investments comprised 88.27% of the Fund as at 30/09/2024.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

● **What was the asset allocation?**

Note: an investment may contribute to one of more environmental or social objectives. Investments have been split based on a quantitative review of revenue exposure. Due to rounding, reported figures may not sum to 100%.

● **In which economic sectors were the investments made?**

Sector	% of Net Assets
Consumer Discretionary	7.78%
Household Durables	2.02%
Specialty Retail	4.05%
Textiles Apparel & Luxury Goods	1.71%
Consumer Staples	8.36%
Consumer Staples Distribution & Retail	1.75%
Food Products	4.43%
Household Products	2.18%
Financials	15.13%

Real Estate	1.71%
Industrial Reits	1.71%
Utilities	2.65%
Multi-Utilities	2.65%

* Due to rounding, the percentages for subsectors may not total to the sector percentage

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

The Fund does not commit to holding a minimum proportion in sustainable investments with an environmental objective aligned with the EU Taxonomy Regulation. It does, however, have a discretion to invest in these type of securities as part of delivering its investment objective.

2.87% of the investments made by the Fund are in economic activities that qualify as environmentally sustainable under the EU Taxonomy Regulation. This taxonomy alignment figure is based on reliable data that has been made available by third-party data providers and is measured by the proportion of turnover associated with economic activities that qualify as environmentally sustainable. Third-party data providers may use actual data reported by companies on taxonomy alignment or estimated data when calculating taxonomy alignment. The methodology upon which any estimates are based are proprietary to the third-party data provider. An economic activity qualifies as environmentally sustainable under the EU Taxonomy Regulation where it substantially contributes to one of six environmental objectives.

The proportion of the Fund's investments that contributed towards these environmental objectives is broken down as follows:

Climate change mitigation	This figure will be presented when data quality improves
Climate change adaptation	This figure will be presented when data quality improves

Sustainable use and protection of water and marine resources	This figure will be presented when data quality improves
Transition to a circular economy	This figure will be presented when data quality improves
Pollution prevention and control	This figure will be presented when data quality improves
Protection and restoration of biodiversity and ecosystems	This figure will be presented when data quality improves

The mentioned percentage figures have been subject to an assurance review by a third party auditor.

● **Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?**

Yes:

In fossil gas

In nuclear energy

No

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change (“climate change mitigation”) and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

● **What was the share of investments made in transitional and enabling activities?**

0.00% of the investments made by the Fund are in transitional activities as defined by the EU Taxonomy Regulation.

0.22% of the investments made by the Fund are in enabling activities as defined by the EU Taxonomy Regulation.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

	2024	2023	2022
EU Taxonomy Alignment	2.87%	3.77%	0%

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

20.06% of the sustainable investments had an environmental objective not aligned with the EU Taxonomy.

are sustainable investments with an environmental objective that do not take into account the criteria for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What was the share of socially sustainable investments?

65.34% of the sustainable investments had a social objective.

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards.?

Holdings classified as “other” include: (i) ancillary liquid assets (i.e. bank deposit at sight) which are held for the purposes of liquidity management; (ii) bank deposits, money market instruments or money market funds held for treasury purposes; and (iii) derivatives for hedging purposes.

These investments are not used to meet the environmental and/or social characteristics of the Fund, and are held for liquidity and hedging purposes. Minimum environmental or social safeguards are ensured for these instruments by incorporating ESG considerations into the counterparty risk assessment.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

During the year there were 44 ESG specific engagements with companies held in the portfolio. These covered 29 companies in 10 countries across a range of themes.

Engagements are structured in line with the Investment Manager’s engagement themes, which align with the PAIs. Below is a breakdown of the engagements undertaken and the PAI categories that they address. It is noted that an engagement may correlate with a number of PAI indicators.

Engagements theme	Alignment with PAIs	Proportion of engagements
Climate Change	GHG Emissions and Energy Performance	31.63%
Environmental Stewardship	Biodiversity, Water, Waste	13.27%
Business Conduct	Social and Employee Matters	3.06%
Human Rights		8.16%
Labour Standards		23.47%
Public Health		1.02%
Corporate Governance		19.39%

How did this financial product perform compared to the reference benchmark?

The Fund does not have a designated reference benchmark that is used to measure whether it attains the environmental and/or social characteristics that it promotes.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

- ***How does the reference benchmark differ from a broad market index?***

Not applicable.

- ***How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?***

Not applicable.

- ***How did this financial product perform compared with the reference benchmark?***

Not applicable.

- ***How did this financial product perform compared with the broad market index?***

Not applicable.

ANNEX IV

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Product name: CT (Lux) Sustainable Global Equity Enhanced Income
 Legal entity identifier: 213800OAOI7355A6IW44

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?	
<input checked="" type="radio"/> <input checked="" type="radio"/> <input type="checkbox"/> Yes	<input checked="" type="radio"/> <input type="radio"/> <input checked="" type="checkbox"/> No
<input type="checkbox"/> It made sustainable investments with an environmental objective: ____ <ul style="list-style-type: none"> <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy 	<input checked="" type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of <u>95.05%</u> of sustainable investments <ul style="list-style-type: none"> <input checked="" type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input checked="" type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input checked="" type="checkbox"/> with a social objective
<input type="checkbox"/> It made sustainable investments with a social objective: ____	<input type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The CT (Lux) Sustainable Global Equity Enhanced Income Fund invests in companies across 7 sustainability themes, which in turn link to the UN’s Sustainable Development Goals (“SDGs”).

The overarching philosophy of the Fund is to:

- Avoid companies with environmentally or socially damaging products, or unsustainable business or governance practices.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

- Invest in companies that make a positive contribution to society and/or the environment.
- Improve management of ESG issues, using the Investment Manager's influence as an investor to encourage best practice through engagement and voting.

The Fund aims for a minimum of 90% of its investments to be classified as sustainable investments. As at 30/09/2024, it held 95.05% in sustainable investments.

● **How did the sustainability indicators perform?**

The Investment Manager uses the following sustainability indicators to measure the attainment of the environmental and social characteristics promoted by the Fund:

1) The number of companies determined to be in breach of the Fund's exclusion criteria and/or global norms.

The Fund did not invest in companies that breached its exclusion criteria and/or global norms.

2) The percentage of the Fund which aligns to its key sustainability themes.

Sustainability Theme	2024
Connect & Protect	9.26%
Digital Empowerment	17.53%
Energy Transition	15.50%
Health & Wellbeing	18.78%
Resource Efficiency	15.48%
Sustainable Cities	12.58%
Sustainable Finance	10.62%
Cash / No theme	0.25%

3) Held companies' revenue alignment with targets that underpin the SDGs.

As at 30/09/2024, 95.05% of the Fund was invested in companies with greater than 50% of net revenues positively aligned with the SDGs.

4) The number of environmental- and social-linked engagement objectives and/or milestones achieved.

As at 30/09/2024, 31 engagements were undertaken with 22 companies. This resulted in 13 milestones, meaning a company made a tangible improvement in

its policies and practices in alignment with the Investment Manager’s engagement objective.

● ***...and compared to previous periods?***

As at 30/09/2024, the proportion of the Fund with >50% net revenue positively aligned with SDGs was 95.05%.

As at 30/09/2023, the proportion of the Fund with >50% net revenue positively aligned with SDGs was 94.85%.

As at 30/09/2024, the number of environmental- and social-linked engagements with companies was 31, with 13 milestones achieved.

As at 30/09/2023, the number of environmental- and social-linked engagements conducted with companies was 20, with 2 milestones achieved.

As at 30/09/2024, the number of companies engaged was 22 across 8 countries.

As at 30/09/2023, the number of companies engaged was 7.

No breaches were reported for the Fund’s exclusion criteria and/or global norms in this year and the prior years.

Sustainability Theme	2024	2023
Connect & Protect	9.26%	9.65%
Digital Empowerment	17.53%	18.34%
Energy Transition	15.50%	17.24%
Health & Wellbeing	18.78%	21.33%
Resource Efficiency	15.48%	9.19%
Sustainable Cities	12.58%	11.18%
Sustainable Finance	10.62%	12.44%
Cash / No theme	0.25%	-

● ***What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?***

The Fund aims to invest a minimum proportion of 90% in sustainable investments. As at 30/09/2024, the Fund had 95.05% of holdings invested in companies with greater than 50% net revenue positively contributing to the SDGs, and considered to be sustainable investments.

These investments contribute to a sustainable objective through their contribution to key sustainability themes which have an environmental or social focus, including: energy transition, health and well-being and resource efficiency.

The Investment Manager uses a proprietary framework to assess the extent to which companies prioritise sustainability:

- **Additionality:** Is the company a leader in its industry, making a real difference to the positive direction of the industry? Here the Investment Manager focuses on and evidences the Fund's exposure through its view of high quality businesses.
- **Intentionality:** How core is sustainability to the company's strategy and overall raison d'être? Here the Investment Manager leverages its extensive engagement capability to assess the company's transparency and communication around strategic goals, which will evidence the management team's and Board's intentions in prioritising these issues/opportunities.
- **Materiality:** How material are sustainability opportunities for the company? In addition to assessing revenue alignment to the SDGs, the Investment Manager makes an assessment of the company's revenue alignment to seven sustainability themes: Environmental Stewardship, Climate Change, Human Rights, Labour Standards, Public Health, Business Ethics and Corporate Governance.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

The Fund's investment approach assesses that the sustainable investments held in the portfolio do not significantly harm other sustainable investment objectives in several ways.

The Fund screens out investments that are contrary to the goals of making positive contributions to the environment and/or society. The criteria is product- and conduct-based, covering topics such as fossil fuels, weapons, and global norms breaches.

Through the Investment Manager's investment research, ESG factors are considered throughout the investment cycle, which serves to mitigate the risks of significant harm.

Companies are also identified which the Investment Manager thinks could benefit from active engagement to address material ESG issues, before they are considered to be significantly harmful.

— — — *How were the indicators for adverse impacts on sustainability factors taken into account?*

Investments which are reported as sustainable investments have been assessed to ensure they do not significantly harm (DNSH) sustainability objectives using an in-house data driven model and investment due diligence.

The Investment Manager identifies harm when assessing a sustainable investment by using quantitative thresholds against a selection of principal adverse impact indicators, including mandatory indicators from Table 1 and certain indicators from Tables 2 and 3 of Annex I of the Regulatory Technical Standards. Issuers which fall below these thresholds are flagged as potentially harmful and a review is then undertaken to determine whether significant harm is being caused by the issuer. Where quantitative data is not available, the Investment Manager endeavours to satisfy that no significant harm has taken place through desk-based qualitative research.

Depending on the type and materiality of the principal adverse impact indicator, the Investment Manager will either engage with the issuer to address the harmful practices by taking appropriate action, or limit exposure to such issuers in the portfolio.

During the review period, the Investment Manager reviewed all portfolio holdings and concluded that there were no significant adverse impacts relating to them.

— — — *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details.:*

The sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights, including the principles and rights set out in the eight fundamental conventions identified in the Declaration of the International Labour Organisation on Fundamental Principles and Rights at Work and the International Bill of Human Rights.

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

The Fund excluded companies that breached UN Global Compact (UNGC) principles and further considered good conduct when making investments. In addition, the DNSH checks also assessed issuers for explicit harm against the underlying principles of the UNGC and OECD Guidelines.

How did this financial product consider principal adverse impacts on sustainability factors?

The Fund proactively considered the principal adverse impacts (“PAIs”) of its investment decisions that may negatively harm sustainability factors through a combination of exclusions, engaging with investee companies and investment research.

As part of portfolio construction and stock selection, the Fund has in place exclusions that correspond to sustainability factors. The exclusions applied by the Fund relate to fossil fuels, biodiversity, deforestation, human rights, global norms, hazardous waste and controversial weapons. The Fund adhered to its exclusion policy during the period under review.

In addition, the Fund considered PAIs as part of its stewardship activities. Details of PAI engagement are outlined later in this report. PAIs were also considered as part of investment research during the period under review.

What were the top investments of this financial product?

The list includes the investments constituting the **greatest proportion of investments** of the financial product during the reference period which is: 01/10/2023 to 30/09/2024

Issuer name*	Sector	Average weight	Country
Microsoft Corporation	Information Technology	6.07%	United States
Linde Plc	Materials	3.20%	United States
NetApp, Inc.	Information Technology	2.86%	United States
Taiwan Semiconductor Manufacturing Company	Information Technology	2.76%	Taiwan
Packaging Corporation of America	Materials	2.73%	United States
Broadcom Inc.	Information Technology	2.72%	United States
eBay Inc.	Consumer Discretionary	2.64%	United States
Colgate-Palmolive Company	Consumer Staples	2.62%	United States
Gen Digital Inc.	Information Technology	2.56%	United States
Deutsche Telekom AG	Communication Services	2.56%	Germany
Daiwa House Industry Co., Ltd.	Real Estate	2.45%	Japan
Motorola Solutions, Inc.	Information Technology	2.43%	United States
SSE plc	Utilities	2.38%	United Kingdom

Johnson Controls International Plc	Industrials	2.36%	United States
Emerson Electric Co.	Industrials	2.32%	United States

* The top investments held by the Fund during the current reference period have been calculated at representative intervals commencing from 01/01/2024.

What was the proportion of sustainability-related investments?

Investments aligned with environmental or social characteristics comprised 95.05% of the Fund as at 30/09/2024.

Sustainable investments comprised 95.05% of the Fund as at 30/09/2024.

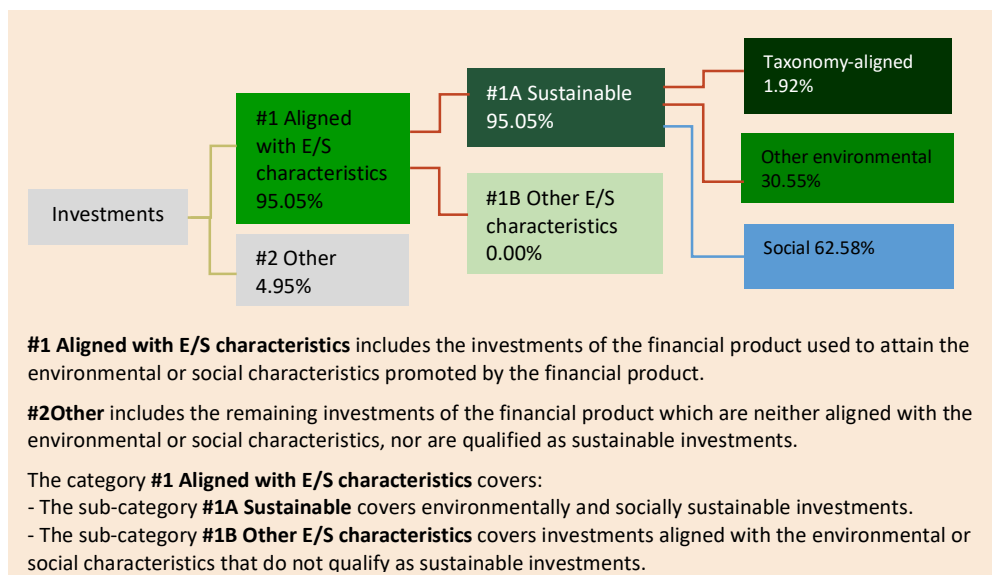

Asset allocation describes the share of investments in specific assets.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

What was the asset allocation?

Note: an investment may contribute to one of more environmental or social objectives. Investments have been split based on a quantitative review of revenue exposure. Due to rounding, reported figures may not sum to 100%.

In which economic sectors were the investments made?

Sector	% of Net Assets

Multi-Utilities	3.10%
Water Utilities	1.51%

* Due to rounding, the percentages for subsectors may not total to the sector percentage

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

The Fund does not commit to holding a minimum proportion in sustainable investments with an environmental objective aligned with the EU Taxonomy Regulation. It does, however, have a discretion to invest in these type of securities as part of delivering its investment objective.

1.92% of the investments made by the Fund are in economic activities that qualify as environmentally sustainable under the EU Taxonomy Regulation. This taxonomy alignment figure is based on reliable data that has been made available by third-party data providers and is measured by the proportion of turnover associated with

economic activities that qualify as environmentally sustainable. Third-party data providers may use actual data reported by companies on taxonomy alignment or estimated data when calculating taxonomy alignment. The methodology upon which any estimates are based are proprietary to the third-party data provider. An economic activity qualifies as environmentally sustainable under the EU Taxonomy Regulation where it substantially contributes to one of six environmental objectives.

The proportion of the Fund’s investments that contributed towards these environmental objectives is broken down as follows:

Climate change mitigation	This figure will be presented when data quality improves
Climate change adaptation	This figure will be presented when data quality improves
Sustainable use and protection of water and marine resources	This figure will be presented when data quality improves
Transition to a circular economy	This figure will be presented when data quality improves
Pollution prevention and control	This figure will be presented when data quality improves
Protection and restoration of biodiversity and ecosystems	This figure will be presented when data quality improves

The mentioned percentage figures have been subject to an assurance review by a third party auditor.

● **Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?**

Yes:

In fossil gas

In nuclear energy

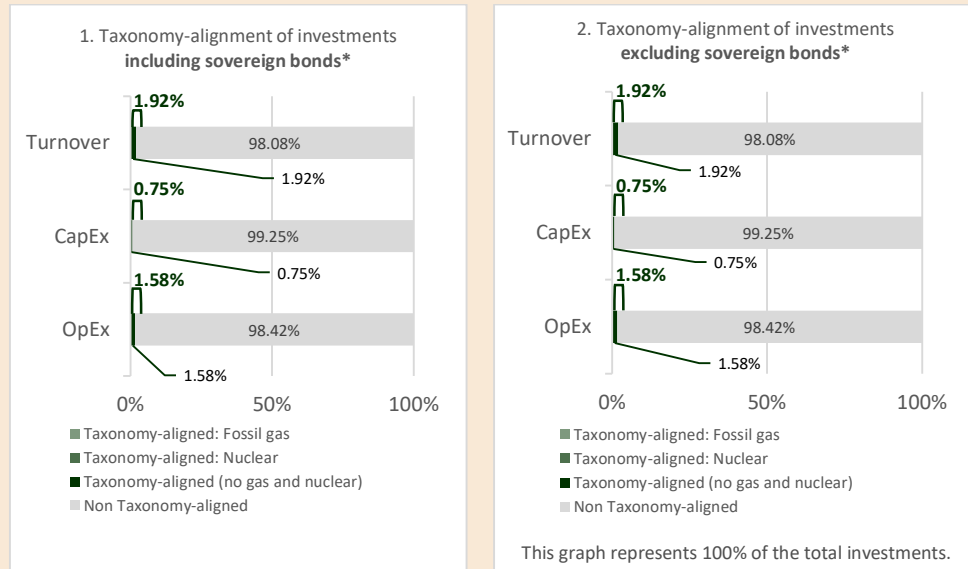

No

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change (“climate change mitigation”) and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

● **What was the share of investments made in transitional and enabling activities?**

0.00% of the investments made by the Fund are in transitional activities as defined by the EU Taxonomy Regulation.

1.06% of the investments made by the Fund are in enabling activities as defined by the EU Taxonomy Regulation.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

	2024	2023
EU Taxonomy Alignment	1.92%	2.68%

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

30.55% of the sustainable investments had an environmental objective not aligned with the EU Taxonomy.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What was the share of socially sustainable investments?

62.58% of the sustainable investments had a social objective.

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards.?

Holdings classified as “other” include: (i) ancillary liquid assets (i.e. bank deposit at sight) which are held for the purposes of liquidity management; (ii) bank deposits, money market instruments or money market funds held for treasury purposes; and (iii) derivatives for hedging purposes.

These investments are not used to meet the environmental and/or social characteristics of the Fund, and are held for liquidity and hedging purposes. Minimum environmental or social safeguards are ensured for these instruments by incorporating ESG considerations into the counterparty risk assessment.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

During the reporting period there were 31 ESG specific engagements with companies held in the portfolio. These covered 22 companies in 8 countries across a range of themes.

Engagements are structured in line with the Investment Manager’s engagement themes, which align with the PAIs. Below is a breakdown of the engagements undertaken and the PAI categories that they address. It is noted that an engagement may correlate with a number of PAI indicators.

Engagement theme	Alignment with PAIs	Proportion of engagements
Climate Change	GHG Emissions and Energy Performance	19.12%
Environmental Stewardship	Biodiversity, Water, Waste	11.76%
Business Conduct	Social and Employee Matters	4.41%
Human Rights		2.94%
Labour Standards		19.12%
Public Health		7.35%
Corporate Governance		35.29%

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

How did this financial product perform compared to the reference benchmark?

The Fund does not have a designated reference benchmark that is used to measure whether it attains the environmental and/or social characteristics that it promotes.

- ***How does the reference benchmark differ from a broad market index?***
Not applicable.

- ***How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?***
Not applicable.

- ***How did this financial product perform compared with the reference benchmark?***
Not applicable.

- ***How did this financial product perform compared with the broad market index?***
Not applicable.

'ANNEX V

Periodic disclosure for the financial products referred to in Article 9, paragraphs 1 to 4a, of Regulation (EU) 2019/2088 and Article 5, first paragraph, of Regulation (EU) 2020/852

Product name: CT (Lux) Sustainable Multi-Asset Income

Legal entity identifier: 213800VPOORXSZ9R2T24

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852 establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Sustainable investment objective

Did this financial product have a sustainable investment objective?	
<input checked="" type="radio"/> <input checked="" type="radio"/> <input checked="" type="checkbox"/> Yes	<input checked="" type="radio"/> <input type="radio"/> <input type="checkbox"/> No
<input checked="" type="checkbox"/> It made sustainable investments with an environmental objective : <u>46.85%</u>	<input type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of ___ of sustainable investments
<input checked="" type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy	<input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy
<input checked="" type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy	<input type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy
<input checked="" type="checkbox"/> It made sustainable investments with a social objective : <u>49.58%</u>	<input type="checkbox"/> with a social objective
	<input type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments

To what extent was the sustainable investment objective of this financial product met?

The CT (Lux) Sustainable Multi-Asset Income Fund allocated across sustainable equity, sustainable credit, sustainable government bonds and sustainable alternatives, in line with its investment policy, over the period. The Fund invests around a number of themes, which in turn link to the UN Sustainable Development Goals (“SDGs”). These themes include Health and Well-being, linking to SDG 2 and SDG 3, and Energy

Transition, linking to SDG 7 and SDG 13, among others. Every investment made by the Fund was deemed sustainable, as per the Investment Manager's definition of sustainable investment. In the event that an investment subsequently became non-sustainable, the Fund would divest from the name.

The Fund aims for a minimum of 90% of investments to be classified as sustainable investments. As at 30/09/2024, it held 96.44% in sustainable investments.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

● ***How did the sustainability indicators perform?***

The Fund exclusively invests in sustainable investments using the Investment Manager's 'Avoid, Invest, Improve' framework. It adheres to a set of exclusions, targets investment that are considered to be sustainable investments, and undertakes impact-focused, active engagement with companies, using the SDGs.

The Fund utilises several indicators to assess performance against this framework. During the period under review the Fund:

1. Did not invest in companies which breached the exclusion criteria and/or global norms.
2. Invested exclusively in sustainable investments, with 96.44% of holdings (as at 30/09/2024) demonstrating a positive revenue alignment with, or dedicated use of, proceeds that contributes to the SDGs.
3. Had 32.78% of its holdings in green, sustainability linked or labelled bonds (as at 30/09/2024).
4. Had 122 investee company engagements, representing 78 companies engaged across 14 countries. 23 milestones linked to environmental or social objectives were reported, of the total 30 milestones recorded.

● *...and compared to previous periods?*

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

Sustainability Indicator	2024	2023	2022
Divestment due to breach of exclusion criteria	0	0	0
Proportion of the Fund aligned with SDGs¹ including Green Bonds (ex cash and currency positions)	96.44%	98.92%	93.67%
Green or Labelled Bonds	32.78%	33.57%	17.9%
Engagement			
Companies Engaged	78	80	91
Engagement Milestones	30	28	33

● *How did the sustainable investments not cause significant harm to any sustainable investment objective?*

The Fund's investment approach assesses that the sustainable investments held in the portfolio do not significantly harm other sustainable investment objectives in several ways.

The Fund screens out investments that are contrary to the goals of making positive contributions to the environment and/or society. The criteria is product- and conduct-based, covering topics such as fossil fuels, weapons, and global norms breaches.

For labelled bonds, each bond is reviewed and approved by the Investment Manager to ensure it does not significantly harm sustainability objectives. The Investment Manager excludes labelled bonds with very poor ESG management practices that breach the Fund's exclusion criteria. Labelled bonds are also assessed for financial management issues that may undermine confidence in the issuer's ability to fulfil its Green Bond commitments. Such assessments consider whether the proceeds are ring-fenced for environmental-linked projects; any unallocated proceeds are to be held in cash, government bonds, or other liquid short-term instruments.

Through the Investment Manager's investment research, ESG factors are considered throughout the investment cycle, which serves to mitigate the risks of significant harm.

Companies are also identified which the Investment Manager thinks could benefit

¹ Calculated as the proportion of Fund held in issuers which have greater than 50% of their net revenue aligned with the UN SDGs.

from active engagement to address material ESG issues, before they are considered to be significantly harmful.

— — — *How were the indicators for adverse impacts on sustainability factors taken into account?*

Investments which are reported as sustainable investments have been assessed to ensure they do not significantly harm (DNSH) sustainability objectives using an in-house data driven model and investment due diligence.

The Investment Manager identifies harm when assessing a sustainable investment by using quantitative thresholds against a selection of principal adverse impact indicators, including mandatory indicators from Table 1 and certain indicators from Tables 2 and 3 of Annex I of the Regulatory Technical Standards. Issuers which fall below these thresholds are flagged as potentially harmful and a review is then undertaken to determine whether significant harm is being caused by the issuer. Where quantitative data is not available, the Investment Manager endeavours to satisfy that no significant harm has taken place through desk-based qualitative research.

Depending on the type and materiality of the principal adverse impact indicator, the Investment Manager will either engage with the issuer to address the harmful practices by taking appropriate action, or limit exposure to such issuers in the portfolio.

During the review period, the Investment Manager reviewed all portfolio holdings and concluded that there were no significant adverse impacts relating to them.

— — — *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details.*

The sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights, including the principles and rights set out in the eight fundamental conventions identified in the Declaration of the International Labour Organisation on Fundamental Principles and Rights at Work and the International Bill of Human Rights.

The Fund excluded companies that breached UN Global Compact (UNGC) principles and further considered good conduct when making investments. In addition, the DNSH checks also assessed issuers for explicit harm against the underlying principles of the UNGC and OECD Guidelines.

How did this financial product consider principal adverse impacts on sustainability factors?

The Fund proactively considered the principal adverse impacts (“PAIs”) of its investment decisions that may negatively harm sustainability factors through a combination of exclusions, engaging with investee companies and investment research.

As part of portfolio construction and stock selection, the Fund has in place exclusions that correspond to sustainability factors. The exclusions applied by the Fund relate to fossil fuel exposure, non-renewable energy consumption, global norms, controversial weapons and corruption. The Fund adhered to its exclusion policy during the period under review.

In addition, the Fund considered PAIs as part of its stewardship activities. Details of PAI engagement are outlined later in this report. PAIs were also considered as part of investment research during the period under review.

What were the top investments of this financial product?

The list includes the investments constituting the **greatest proportion of investments** of the financial product during the reference period which is: 01/10/2023 to 30/09/2024

Largest investments*	Sector	% Assets	Country
Government of United Kingdom	Treasury	12.59%	United Kingdom
Government of Germany	Treasury	5.45%	Germany

To what extent were sustainable investments with an environmental objective aligned with the EU Taxonomy?

The Fund does not commit to holding a minimum proportion in sustainable investments with an environmental objective aligned with the EU Taxonomy Regulation. It does, however, have discretion to invest in these type of securities as part of delivering its investment objective.

1.55% of the investments made by the Fund are in economic activities that qualify as environmentally sustainable under the EU Taxonomy Regulation. This taxonomy alignment figure is based on reliable data that has been made available by third-party data providers and is measured by the proportion of turnover associated with economic activities that qualify as environmentally sustainable. Third-party data providers may use actual data reported by companies on taxonomy alignment or estimated data when calculating taxonomy alignment. The methodology upon which any estimates are based are proprietary to the third-party data provider. An economic activity qualifies as environmentally sustainable under the EU Taxonomy Regulation where it substantially contributes to one of six environmental objectives.

The proportion of the Fund's investments that contributed towards these environmental objectives is broken down as follows:

Climate change mitigation	This figure will be presented when data quality improves.
Climate change adaptation	This figure will be presented when data quality improves.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

Sustainable use and protection of water and marine resources	This figure will be presented when data quality improves.
Transition to a circular economy	This figure will be presented when data quality improves.
Pollution prevention and control	This figure will be presented when data quality improves.
Protection and restoration of biodiversity and ecosystems	This figure will be presented when data quality improves.

The mentioned percentage figures have been subject to an assurance review by a third party auditor.

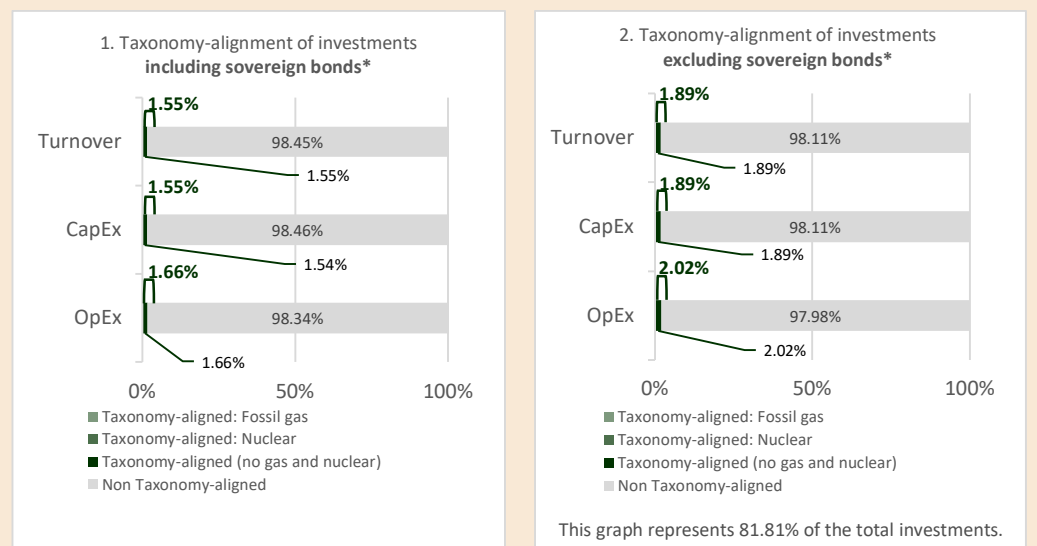

● **Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy²?**

Yes:

In fossil gas In nuclear energy

No

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

² Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do no significant harm to any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

● **What was the share of investments made in transitional and enabling activities?**

0.02% of the investments made by the Fund are in transitional activities as defined by the EU Taxonomy Regulation.

1.03% of the investments made by the Fund are in enabling activities as defined by the EU Taxonomy Regulation.

● **How did the percentage of investments aligned with the EU Taxonomy compare with previous reference periods?**

	2024	2023	2022
EU Taxonomy Alignment	1.55 %	1.92%	0.00%

 are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under the EU Taxonomy.

What was the share of sustainable investments with an environmental objective that were not aligned with the EU Taxonomy?

45.31% of the sustainable investments had an environmental objective not aligned with the EU Taxonomy.

What was the share of socially sustainable investments?

49.58% of the sustainable investments had a social objective.

What investments were included under “not sustainable”, what was their purpose and were there any minimum environmental or social safeguards.?

Holdings classified as not sustainable refer to cash, derivatives and currency positions only. These are held for the purposes of liquidity and hedging. This comprised 3.56% of the Fund. When investing in cash and derivatives, the Investment Manager considers ESG factors as part of counterparty selection.

What actions have been taken to attain the sustainable investment objective during the reference period?

During the year there were 122 ESG specific engagements with companies held in the Fund. These covered 78 companies in 14 countries across a range of themes.

Engagements are structured in line with the Investment Manager’s engagement themes, which align with the PAIs. Below is a breakdown of the engagements undertaken and the PAI categories that they address. It is noted that an engagement may correlate with a number of PAI indicators.

Engagements theme	Alignment with PAIs	Proportion of engagements
Climate Change	GHG Emissions and Energy Performance	24.38%
Environmental Stewardship	Biodiversity, Water, Waste	10.74%
Business Conduct	Social and Employee Matters	6.61%
Human Rights		4.96%
Labour Standards		19.01%
Public Health		4.55%
Corporate Governance		29.75%

How did this financial product perform compared to the reference sustainable benchmark?

The Investment Manager does not use a reference benchmark to measure the attainment of the sustainable investment objective applied by the Fund.

Reference benchmarks are indexes to measure whether the financial product attains the sustainable objective.

- ***How did the reference benchmark differ from a broad market index?***
Not applicable.
- ***How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the sustainable investment objective?***
Not applicable.
- ***How did this financial product perform compared with the reference benchmark?***
Not applicable.
- ***How did this financial product perform compared with the broad market index?***
Not applicable.

'ANNEX V

Periodic disclosure for the financial products referred to in Article 9, paragraphs 1 to 4a, of Regulation (EU) 2019/2088 and Article 5, first paragraph, of Regulation (EU) 2020/852

Product name: CT (Lux) Sustainable Opportunities European Equity

Legal entity identifier: 21380012XH3WOKJOYQ92

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852 establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Sustainable investment objective

Did this financial product have a sustainable investment objective?	
<input checked="" type="radio"/> <input checked="" type="radio"/> <input checked="" type="checkbox"/> Yes	<input checked="" type="radio"/> <input type="radio"/> <input type="checkbox"/> No
<input checked="" type="checkbox"/> It made sustainable investments with an environmental objective : <u>20.79%</u>	<input type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of ___ of sustainable investments
<input checked="" type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy	<input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy
<input checked="" type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy	<input type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy
<input checked="" type="checkbox"/> It made sustainable investments with a social objective : <u>75.10%</u>	<input type="checkbox"/> with a social objective
	<input type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments

To what extent was the sustainable investment objective of this financial product met?

The Fund invests in European equities across seven key themes that the Investment Manager believes are integral to greater sustainability, such as health & well-being, energy transition, or sustainable cities. The Investment Manager links these themes to the UN Sustainable Development Goals (“SDGs”) and every investment is expected to contribute positively to the SDGs.

The Fund aims for a minimum of 90% of its investments to be classified as sustainable investments. As at 30/09/2024, it held 95.90% in sustainable investments.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

● **How did the sustainability indicators perform?**

The Fund exclusively invests in sustainable investments using the Investment Manager’s ‘Avoid, Invest, Improve’ framework. It adheres to a set of exclusions, targets investment that are considered to be sustainable investments, and undertakes impact-focused, active engagement with companies, using the SDGs.

The Fund utilises several indicators to assess performance against this framework. During the period under review the Fund:

1. Did not invest in companies which breached the exclusion criteria and/or global norms.
2. Invested 95.90% of the Fund holdings in companies with a net positive revenue alignment >50% to the targets of the SDGs.*
3. Had 27 investee company environmental- and social-linked engagements during the year, representing:
 - 16 companies engaged across 7 countries.
 - 4 milestones achieved, meaning the company made a tangible improvement in their policies and practices in alignment with the Investment Manager’s engagement objective.
4. Invested against the Fund’s key sustainability investment themes:

Connect & Protect	5.94
Digital Empowerment	17.63
Energy Transition	10.18
Health & Well-being	21.98
Resource Efficiency	4.84
Sustainable Cities	14.19
Sustainable Finance	20.40

* Note that additional investments classed as sustainable investments may be on a trajectory to grow revenue to be greater than 50%, or demonstrate an economic contribution to a sustainable objective not based on SDG revenue alignment.

● *...and compared to previous periods?*

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

Sustainability Indicator	2024	2023	2022
Exclusions Breached	0	0	0
Sustainable Investments (excluding cash, derivatives and liquidity instruments)	100%	100%	100%

Engagement Milestones	4	8	4

● *How did the sustainable investments not cause significant harm to any sustainable investment objective?*

The Fund's investment approach assesses that the sustainable investments held in the portfolio do not significantly harm other sustainable investment objectives in several ways.

The Fund screens out investments that are contrary to the goals of making positive contributions to the environment and/or society. The criteria is product- and conduct-based, covering topics such as fossil fuels, weapons, and global norms breaches.

Through the Investment Manager's investment research, ESG factors are considered throughout the investment cycle, which serves to mitigate the risks of significant harm.

Companies are also identified which the Investment Manager thinks could benefit from active engagement to address material ESG issues, before they are considered to be significantly harmful.

— — — *How were the indicators for adverse impacts on sustainability factors taken into account?*

Investments which are reported as sustainable investments have been assessed to ensure they do not significantly harm (DNSH) sustainability objectives using an in-house data driven model and investment due diligence.

The Investment Manager identifies harm when assessing a sustainable investment by using quantitative thresholds against a selection of principal adverse impact indicators, including mandatory indicators from Table 1 and certain indicators from Tables 2 and 3 of Annex I of the Regulatory Technical Standards. Issuers which fall below these thresholds are flagged as potentially harmful and a review is then undertaken to determine whether significant harm is being caused by the issuer. Where quantitative data is not available, the Investment Manager endeavours to satisfy that no significant harm has taken place through desk-based qualitative research.

Depending on the type and materiality of the principal adverse impact indicator, the Investment Manager will either engage with the issuer to address the harmful practices by taking appropriate action, or limit exposure to such issuers in the portfolio.

During the review period, the Investment Manager reviewed all portfolio holdings and concluded that there were no significant adverse impacts relating to them.

— — — *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details.:*

The sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights, including the principles and rights set out in the eight fundamental conventions identified in the Declaration of the International Labour Organisation on Fundamental Principles and Rights at Work and the International Bill of Human Rights.

The Fund excluded companies that breached UN Global Compact (UNGC)

principles and further considered good conduct when making investments. In addition, the DNSH checks also assessed issuers for explicit harm against the underlying principles of the UNGC and OECD Guidelines.

How did this financial product consider principal adverse impacts on sustainability factors?

The Fund proactively considered the principal adverse impacts (“PAIs”) of its investment decisions that may negatively harm sustainability factors through a combination of exclusions, engaging with investee companies and investment research.

As part of portfolio construction and stock selection, the Fund has in place exclusions that correspond to sustainability factors. The exclusions applied by the Fund relate to fossil fuel exposure, non-renewable energy consumption, global norms, and controversial weapons. The Fund adhered to its exclusion policy during the period under review.

In addition, the Fund considered PAIs as part of its stewardship activities. Details of PAI engagement are outlined later in this report. PAIs were also considered as part of investment research during the period under review.

What were the top investments of this financial product?

The list includes the investments constituting the **greatest proportion of investments** of the financial product during the reference period which is: 01/10/2023 to 30/09/2024

Largest investments*	Sector	% Assets	Country
Novo Nordisk A/S	Health Care	6.33%	Denmark
ASML Holding NV	Information Technology	5.25%	Netherlands
SAP SE	Information Technology	4.76%	Germany
Schneider Electric SE	Industrials	4.43%	France
AstraZeneca	Health Care	4.28%	United Kingdom
L'Air Liquide S.A.	Materials	3.80%	France
Compagnie de Saint-Gobain	Industrials	3.52%	France
Intesa Sanpaolo S.p.A.	Financials	3.41%	Italy
Deutsche Borse AG	Financials	3.31%	Germany
Roche Holding AG	Health Care	3.26%	Switzerland
SSE plc	Utilities	3.18%	United Kingdom
RELX PLC	Industrials	3.16%	United Kingdom

Smurfit WestRock plc	Materials	3.04%	United States
UBS Group AG	Financials	2.93%	Switzerland
Kerry Group plc	Consumer Staples	2.90%	Ireland

* The top investments held by the Fund during the current reference period have been calculated at representative intervals commencing from 01/01/2024.

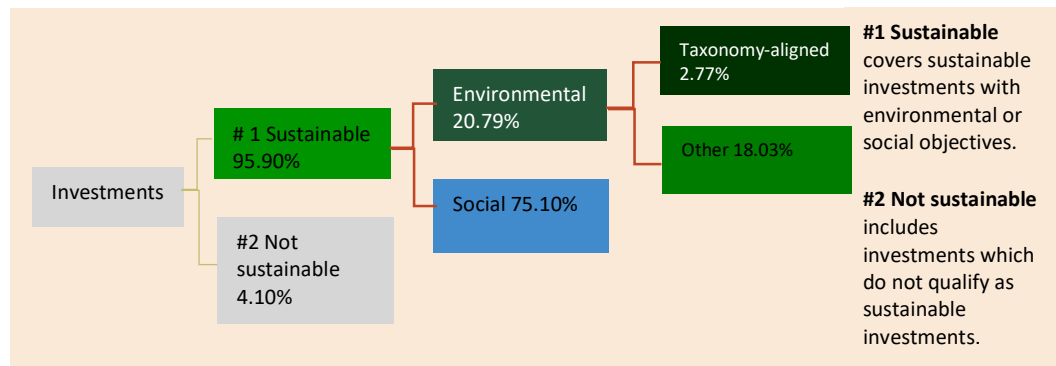

What was the proportion of sustainability-related investments?

As at 30/09/2024 the Fund held 95.90% in investments which are deemed to be sustainable investments.

Asset allocation describes the share of investments in specific assets.

● What was the asset allocation?

Note: an investment may contribute to one or more environmental or social objectives. Investments have been split based on a quantitative review of revenue exposure. Due to rounding, reported figures may not sum to 100%.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective

Transitional activities are economic activities for which low-carbon alternatives are not yet available and that have greenhouse gas emission levels corresponding to the best performance.

● **In which economic sectors were the investments made?**

Sector	% of Net Assets
Consumer Discretionary	4.52%
Diversified Consumer Services	2.39%
Household Durables	2.13%
Consumer Staples	4.18%
Food Products	4.18%
Financials	23.94%
Banks	7.81%
Capital Markets	8.63%
Insurance	7.49%
Health Care	15.58%
Pharmaceuticals	15.58%
Industrials	19.45%
Building Products	5.28%
Electrical Equipment	6.67%
Machinery	1.99%
Professional Services	5.51%
Information Technology	13.05%
Semiconductors & Semiconductor Equipment	7.41%
Software	5.64%
Materials	12.02%
Chemicals	8.88%
Containers & Packaging	3.14%
Utilities	3.32%
Electric Utilities	3.32%

* Due to rounding, the percentages for subsectors may not total to the sector percentage

To what extent were sustainable investments with an environmental objective aligned with the EU Taxonomy?

The Fund does not commit to holding a minimum proportion in sustainable investments with an environmental objective aligned with the EU Taxonomy Regulation. It does, however, have a discretion to invest in these type of securities as part of delivering its investment objective.

2.77% of the investments made by the Fund are in economic activities that qualify as environmentally sustainable under the EU Taxonomy Regulation. This taxonomy alignment figure is based on reliable data that has been made available by third-party data providers and is measured by the proportion of turnover associated with economic activities that qualify as environmentally sustainable. Third-party data providers may use actual data reported by companies on taxonomy alignment or estimated data when calculating taxonomy alignment. The methodology upon which any estimates are based are proprietary to the third-party data provider. An economic activity qualifies as environmentally sustainable under the EU Taxonomy Regulation where it substantially contributes to one of six environmental objectives.

The proportion of the Fund’s investments that contributed towards these environmental objectives is broken down as follows:

Climate change mitigation	This figure will be presented when data quality improves
Climate change adaptation	This figure will be presented when data quality improves
Sustainable use and protection of water and marine resources	This figure will be presented when data quality improves
Transition to a circular economy	This figure will be presented when data quality improves
Pollution prevention and control	This figure will be presented when data quality improves
Protection and restoration of biodiversity and ecosystems	This figure will be presented when data quality improves

The mentioned percentage figures have been subject to an assurance review by a third party auditor.

● **Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?**

Yes:

In fossil gas In nuclear energy

No

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change (“climate change mitigation”) and do no significant harm to any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies
- **capital expenditure (CapEx)** showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure (OpEx)** reflecting green operational activities of investee companies.

● **What was the share of investments made in transitional and enabling activities?**

0.00% of the investments made by the Fund are in transitional activities as defined by the EU Taxonomy Regulation.

2.74% of the investments made by the Fund are in enabling activities as defined by the EU Taxonomy Regulation.

● **How did the percentage of investments aligned with the EU Taxonomy compare with previous reference periods?**

	2024	2023	2022
EU Taxonomy Alignment	2.77%	4.07%	0%

 are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under the EU Taxonomy.

What was the share of sustainable investments with an environmental objective that were not aligned with the EU Taxonomy?

18.03% of the sustainable investments had an environmental objective not aligned with the EU Taxonomy.

What was the share of socially sustainable investments?

75.10% of the sustainable investments had a social objective.

What investments were included under “not sustainable”, what was their purpose and were there any minimum environmental or social safeguards?

Holdings classified as not sustainable refer to cash positions only. Cash comprised 4.10% of the Fund as at 30/09/2024.

Minimum environmental or social safeguards are ensured for cash positions by integrating ESG considerations into the counterparty risk assessment.

What actions have been taken to attain the sustainable investment objective during the reference period?

During the year there were 27 ESG specific engagements with companies held in the Fund. These covered 16 companies in 7 countries across a range of themes.

Engagements are structured in line with the firm’s engagement themes, which align with the PAIs. Below is a breakdown of the engagements undertaken and the PAI categories that they address. It is noted that an engagement may correlate with a number of PAI indicators.

Engagements theme	Alignment with PAIs	Proportion of engagements
Climate Change	GHG Emissions and Energy Performance	25.53%
Environmental Stewardship	Biodiversity, Water, Waste	12.77%
Business Conduct	Social and Employee Matters	6.38%
Human Rights		2.13%
Labour Standards		21.28%
Public Health		6.38%
Corporate Governance		25.53%

How did this financial product perform compared to the reference sustainable benchmark?

The Investment Manager does not use a reference benchmark to measure the attainment of the sustainable investment objective applied by the Fund.

Reference benchmarks are indexes to measure whether the financial product attains the sustainable objective.

- ***How did the reference benchmark differ from a broad market index?***
Not applicable.
- ***How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the sustainable investment objective?***
Not applicable.
- ***How did this financial product perform compared with the reference benchmark?***
Not applicable.
- ***How did this financial product perform compared with the broad market index?***
Not applicable.
