1. Organisation

The Company is a public limited company (société anonyme) established under the laws of the Grand Duchy of Luxembourg as an open ended variable capital investment company (société d'investissement à capital variable). The Company has been authorised by the Commission de Surveillance du Secteur Financier (the "CSSF") as an undertaking for collective investments in transferable securities ("UCITS") pursuant to the provisions of Part I of the law of 17 December 2010 as amended from time to time and is regulated pursuant to such law.

The Company is an umbrella structure comprising separate compartments with segregated liability. Each compartment shall have segregated liability from the other compartments and the Company shall not be liable as a whole to third parties for the liabilities of each compartment. Each compartment shall be made up of a separate Portfolio of Investments maintained and invested in accordance with the investment objectives applicable to such compartment.

As at 31 August 2024, the Company offered shares in 108 sub-funds (each a 'Fund'), together the 'Funds'. Each Fund is a separate pool of assets and is represented by separate shares of each Fund which are divided into share classes as detailed in Appendix I.

The Share Classes have equivalent rights in the Company but carry different features and charging structures, which are described in more detail in the Company's Prospectus.

Significant events

On 1 March 2022, due to the significant investment exposure of the Emerging Europe Fund (for the purposes of the remainder of this paragraph, the ″Fund″) to Russia, the Board of Directors considered that, in the interests of the Fund and its investors, subscriptions, redemptions and conversions of all share classes of the Fund and the determination of net asset values should be temporarily suspended, until further notice, pursuant to the Fund's discretion under the prospectus. On 3 March 2022, the Board of Directors took the decision to further significantly write down the value of the Russian securities held by the Fund. On 9 March 2022, the Board of Directors of the Management Company took the additional exceptional decision to waive its management fees and the Annual Service Charge related to the Fund (effective 1 March 2022) while valuation, subscriptions and redemptions in the Fund are suspended until further notice via the BlackRock website. Since January 2023, month-end indicative Net Asset Values are being published on the BlackRock website. The Net Asset Value disclosed within the annual report is the indicative Net Asset Value of the Fund as at 31 August 2024. Effective 18 March 2024, the directors notified the shareholders of the Emerging Europe Fund of their decision to transfer the liquid and tradeable portion of assets of the Fund to a newly created sub-fund within the Company. The Fund will remain suspended and will be put into liquidation as soon as practicable. Effective 13 May 2024, the Emerging Europe II Fund was launched. On the same date, the liquid and tradeable portion of assets of the Emerging Europe Fund transferred to the Emerging Europe II Fund. The shareholders received the same number of shares in the equivalent share class in the newly created Fund.

Effective 28 September 2023, the Swiss Small & MidCap Opportunities Fund was re-opened to subscriptions.

Effective 26 October 2023, an updated Prospectus of the Company was issued.

Effective 26 October 2023, the Natural Resources Growth & Income Fund changed its name to the Natural Resources Fund.

Effective 7 November 2023, the China Flexible Equity Fund terminated.

Effective 6 February 2024, the Global Listed Infrastructure Fund, denominated in USD, was launched.

Effective 23 February 2024, the ESG Systematic Multi Allocation Credit Fund changed its name to the Systematic ESG Multi Allocation Credit Fund and the Global Dynamic Equity Fund changed its name to the Sustainable Global Dynamic Equity Fund.

Effective 23 February 2024, an updated Prospectus of the Company was issued.

Effective 7 March 2024, the Global Unconstrained Equity Fund, denominated in USD, was launched.

Effective 23 March 2024, an addendum to the Prospectus was issued.

Effective 31 March 2024, Paul Freeman resigned from the Board of Directors of the Company.

Effective 4 April 2024, the Euro Investment Grade Fixed Maturity Bond Fund 2027 (1), denominated in EUR, was launched.

Effective 17 June 2024, the Emerging Europe II Fund changed its investment objective, policy and name to the Emerging Markets Ex-China Fund, denominated in USD.

Effective 19 June 2024, Benjamin Gregson was appointed to the Board of Directors of the Company.

2. Summary of Significant Accounting Policies

The financial statements for the Company have been prepared on a going concern basis, with the exception of the China Flexible Equity Fund, Emerging Europe Fund, Future Consumer Fund and China Impact Fund, which have been prepared on a non-going concern basis, following the directors' decision to terminate the Funds referred to in note 1 and 19. For these Funds, the significant accounting policies set out below have been applied consistently with the exception that the carrying values of the remaining assets as at 31 August 2024 are presented at their estimated net realisable values and all liabilities are presented at their estimated settlement amounts. The financial statements have been prepared in accordance with the legal and regulatory requirements relating to the preparation of the financial statements as prescribed by the Luxembourg authorities for Luxembourg investment companies and include the following significant accounting policies:

(a) Valuation of Investments and Other Assets

The Company's investments and other assets are valued as follows:

- transferable securities which are admitted to an official exchange listing or dealt in on another regulated market, are valued on the basis of the latest available price prevailing on the valuation date. For securities traded on markets closing after the time of the valuation, last known prices as of this time or such other time may be used. Where such securities or other assets are quoted or dealt in, on or by more than one stock exchange or regulated market the Board may in its discretion select one of such stock exchanges or regulated markets for such purposes. Discrepancies in the value of securities may result, for example, where the underlying markets are closed for business at the time of calculating the net asset value of certain funds or where governments chose to impose fiscal or transaction charges on foreign investment. As a result, the Directors have implemented fair value techniques in order to estimate the fair value of these investments. Such securities and derivatives shall be valued at their probable realisation value as determined by the competent persons (the Directors). Because of the inherent uncertainty in the fair value process, these estimated values may significantly differ from the values that would have been used had a ready market for the securities existed, and from the values that may be ultimately recovered. The Board of Directors of the Company delegate the valuation of investments to the senior management of the Management Company;
- for non-quoted securities or securities not traded or dealt in on any stock exchange or other regulated market (including securities of closed-ended investment funds), as well as quoted or non quoted securities on such other markets for which no valuation price is available, or securities for which the quoted prices are, in the opinion of the Directors, not representative of the fair market value, the value thereof shall be determined prudently and in good faith by the Directors on the basis of their expected disposal or acquisition prices;
- fixed income securities that are not listed on stock exchanges or traded on other regulated markets are valued at the last available mid price or yield equivalents obtained from one or more dealers or pricing services. Securities traded in the OTC market are valued at the last available bid price. In cases where securities are traded on more than one exchange, the securities are valued on the exchange designated by or under the direction of the Board of Directors of the Management Company as the primary market. Portfolio securities that are traded both in the OTC market and on a stock exchange are valued according to the broadest and most representative market;
- securities lending: securities are delivered to a third party broker in accordance with lending agent instructions and continue to be valued as part of the portfolio of the Fund;
- money market instruments may be valued at nominal values plus any accrued interest or on an amortised cost basis, which approximates their fair market value;
- money market instruments held on the Euro Reserve Fund and the US Dollar Reserve Fund are valued on a mark-to-market basis. Where this is not possible, the assets are valued conservatively by using the mark-to model basis;
- time deposits are valued at amortised cost which approximates their fair market value;
- cash, deposits, bills payable on demand and other debts and prepaid expenses are valued at their nominal amount, unless it appears unlikely that such nominal amount is obtainable;
- assets which include, in particular, interest and dividends receivable, receivable for investments sold and receivable for fund shares subscribed, are valued at nominal value unless it appears unlikely that such nominal amount is obtainable;
- liabilities, which include, in particular, expenses payable, income distribution payable, payable for investments purchased and payable for fund shares redeemed are valued at their nominal value.

Realised gains and losses on the disposal of investments are calculated using the average cost method and are reflected in the Statement of Operations and Changes in Net Assets.

(b) Income/Expense from Investments

The Company takes account for income from its investments on the following basis:

- interest income is accrued daily and includes the amortisation on a straight line basis of premiums and accretion of discounts;
- Interest on cash and cash equivalents, fixed deposits, collective investment scheme income and money market deposit income are recognised on an accruals basis;
- dividend income is accrued on the ex-dividend date and is shown net of withholding tax;
- securities lending income is recognised on an accruals basis;
- when a bond has been identified as being in default, the interest accrual on the defaulted security is stopped. On confirmation of default from the relevant parties, the amount receivable is written off;
- withholding tax reclaims are accounted for on an accruals basis;
- the date included in the description of any perpetual bonds in the Portfolio of Investments is the next callable date of the bonds and the interest rate disclosed under the description in the Portfolio of Investments is the interest rate applicable at the year end and is for information only as these bonds are bearing variable interest rates.

Negative yield expense relating to interest from a negative effective interest rate on assets held is accreted daily and is recognised in the Statement of Operations and Changes in Net Assets over the life of the underlying instrument.

(c) Financial Derivative Instruments

During the year, the Funds have entered into a number of forward foreign exchange and futures contracts. Open forward foreign exchange and futures contracts are valued at the cost to close the contracts on the valuation date. Gains/losses arising from these unsettled contracts are taken to unrealised appreciation/(depreciation) and are included under assets or liabilities (as appropriate) in the Statement of Net Assets.
