<sup>1</sup> Fund performance is based on official published net asset values, which are based on the stock market closing prices at the end of the relevant month.

Historical performance is not an indicator of current or future performance. Performance data exclude commissions and expenses charged on the issue and redemption of units.

The tracking difference between the Fund's performance and the performance of the replicated index is primarily due to the following factors: Fees charged in connection with management of the Fund, the use of optimised sampling, income arising from securities lending, currency hedging costs, non-recoverable foreign withholding tax and transaction costs.

**Note 7: Direct and indirect operational costs and fees from securities lending**

Principle borrower setup with Credit Suisse (Switzerland) Ltd. as borrower and Credit Suisse Funds AG – acting on behalf of the sub-funds that generate income from securities lending – as lender. 60% of the income generated from securities lending until 30 April 2023 has been credited to the fund. At least 80% of the income generated from securities lending from 1 May 2023 has been credited to the fund.

**Note 8: Portfolio composition**

The composition of the portfolio shows portfolio changes without fractions. This may lead to rounding differences in the calculation of the total.

**Note 9: Off-balance sheet transactions (commitment approach I)**

For currency derivatives, only the net sale requires covering, therefore only the sell side (net) is shown in off-balance sheet transactions as exposure reducing derivatives.

**Note 10: Sub-funds or unit classes launched during the year – presentation of comparatives**

Information on the statement of assets and income of sub-funds or unit classes launched during the current reporting period is shown with zero values in the previous period.

The following unit classes were activated, or deactivated due to redemptions of the entire current portfolio.

**Note 11: Valuation of the fund assets and units**

1. The net asset value of each sub-fund and the share of each class (quotas) is calculated at fair value at the end of the accounting year and in the unit of account of the corresponding sub-fund for each day on which units are issued or redeemed. For days on which the stock exchanges or markets of the main investment countries of a sub-fund are closed (e.g. bank and stock exchange holidays), no calculation of the assets of the corresponding sub-fund takes place.
2. Investments traded on a stock exchange or other regulated market open to the public shall be valued at the current prices paid on the principal market. Other investments or investments for which current prices are not available shall be valued at the price that would probably be obtained by diligent sale at the time of the estimate. In this case, the fund management company applies appropriate valuation models and principles recognised in practice to determine the market value.
3. Open-ended collective investment schemes are valued at their redemption price or net asset value. If they are regularly traded on a stock exchange or on another regulated market open to the public, the fund management company may value them in accordance with Article 2.
4. The value of money market instruments that are not traded on a stock exchange or another regulated market open to the public is determined as follows – the valuation price of such investments, starting from the net acquisition price, is successively adjusted to the redemption price while the investment return calculated therefrom remains constant. In the event of significant changes in market conditions, the valuation basis of the individual investments is adjusted to the new market return. In the absence of a current market price, the valuation is generally based on money market instruments with the same characteristics (quality and domicile of the issuer, issue currency, maturity).
5. Bank balances are measured at their receivable amount plus accrued interest. In the event of significant changes in market conditions or creditworthiness, the valuation basis for bank balances is adjusted to the new circumstances.
6. The net asset value of a unit of a class of a sub-fund is calculated by dividing the quota attributable to the unit class in question in the market value of the assets of this sub-fund less any liabilities of this sub-fund allocated to the unit class in question by the number of units of the corresponding class in circulation. In each case it is rounded to the next smallest unit of account of the reference currency.
7. The share of the fair value of the net assets of a sub-fund (assets of a sub-fund less liabilities) attributable to the relevant unit classes shall be determined initially upon the first issue of several unit classes (if such issue takes place simultaneously) or that of a further unit class on the basis of the amounts accruing to the relevant sub-fund for each unit class. The share is then recalculated for each of the following events:
  - a) issue and redemption of units;
  - b) the record date for distributions insofar as (i) such distributions only arise on individual unit classes (distribution classes) or (ii) the distributions of the various unit classes differ as a percentage of their relevant net asset value or (iii) different commission or cost charges arise regarding the distributions of the various unit classes as a percentage of the distribution;
  - c) the net asset value calculation as part of the allocation of liabilities (including costs and commissions due or accrued) to the various unit classes if the liabilities of the different unit classes differ as a percentage of their respective net asset values, namely where (i) different commission rates are applied to the different unit classes or where (ii) class-specific cost charges are made;
  - d) the net asset value calculation as part of the allocation of income or capital gains to the various unit classes, provided that the income or capital gains arise from transactions occurring only in the interest of one unit class or in the interest of several unit classes but not in proportion to their share of net assets of a sub-fund.

**Note 12: Extraordinary events**

The war in Ukraine had and still has a material impact on financial markets, first and foremost on Russian and Ukrainian securities but also on the wider markets globally. The situation remains very volatile and the Fund Management Company is closely monitoring the situation in order to quickly take appropriate action to protect the interest of investors in our funds. It has put in place the necessary measures to at all times comply with applicable laws and regulations, in particular but not limited to the enacted sanctions regimes in the EU, Switzerland, the UK and the US. As we are experiencing serious trading limitations beyond sanctioned Russian securities, we are applying fair value pricing for all relevant securities where price quotes (if available) are not considered reflective of their current market value.

**Note 13: Changes to the Fund Contract with effect from 16 February 2024**

In its decision of 14 February 2024, the Swiss Financial Market Supervisory Authority FINMA approved the changes to the Fund Contract requested by the Fund Management Company and the Custodian Bank. **Pursuant to Section 6 Point 6 of the Fund Contract, the Fund Management Company and the Custodian Bank are obliged to request investors who no longer meet the requirements for holding a unit class to redeem their units within 30 calendar days in accordance with Section 17 or to exchange them for units of another class whose conditions they do meet. If the investor fails to comply with this request, the Fund Management Company, in cooperation with the Custodian Bank, shall either effect a compulsory switch into a different unit class of the corresponding sub-fund or, if this is not possible, a compulsory redemption of the units within the meaning of Section 5 Point 8(b).**

This may result in an over- or under-hedge of the currency hedge between the dates of the hedge adjustments in accordance with the rules of the benchmark index. For subscriptions, the subscription amount is hedged according to the current hedge level of the unit class, so that the over- or under-hedging of the currency hedge of the entire unit class remains the same. comprising the balance sheet as at 29 February 2024, the income statement for the year ended, information concerning the allocation of income and the disclosure of costs as well as other information provided for under Article 89(1)(b)–(h) of the Swiss Collective Investment Schemes Act (Kollektivanlagengesetz, KAG).

In our opinion, the enclosed financial statements (pages 3 and 12 to 1739, excluding PTR key figures on pages 1717 to 1720) comply with the Swiss Collective Investment Schemes Act, the related ordinances, the Fund Contract and the Prospectus.

#### **Basis for the audit opinion**

We have conducted our audit according to Swiss law and the Swiss Auditing Standards (SA-CH). Our responsibilities under these provisions and standards are described in detail in the section of our report entitled “Responsibilities of the auditing company according to the Swiss Collective Investment Schemes Act for auditing the financial statements”. We are independent of the investment fund and the Fund Management Company in accordance with Swiss statutory provisions and the requirements of professional ethics, and we have complied with our other professional rules of conduct in accordance with these requirements.

We take the view that the audit documentation obtained by us is sufficient and suitable to act as a basis for our audit opinion.

#### **Other information**

The Board of Directors of the Fund Management Company is responsible for other information. Other information is made up of information contained in the annual report, although not the financial statements and our related report.

Our audit opinion concerning the financial statements does not apply to other information, and we do not express any audit conclusions in any form whatsoever concerning it.

Within the ambit of our audit, we are responsible for reading the other information and assessing whether the other information features any material discrepancies with the financial statements or the information obtained by us during the course of the audit, or otherwise appears to contain significant misstatements.

If we reach the conclusion, based on the work carried out by us, that this other information contains materially incorrect indications, we are obliged to report on this fact. We have nothing to report in this regard.

### **Responsibilities of the Board of Directors of the Fund Management Company for the financial statements**

The Board of Directors of the Fund Management Company is responsible for drawing up financial statements in accordance with the Swiss Collective Investment Schemes Act, the related ordinances, the Fund Contract and the Prospectus as well as for any internal controls that the Board of Directors considers to be necessary in order to enable the preparation of financial statements that are free from material misstatement due to fraud or error.

### **Responsibilities of the auditing company according to the Swiss Collective Investment Schemes Act for the auditing of the financial statements**

We aim to establish with sufficient certainty whether the financial statements as a whole are free from material misstatement due to fraud or error and to issue a report containing our audit opinion. Sufficient certainty means a high level of certainty but not a guarantee that an audit carried out according to Swiss law and the SA-CH will always discover any material misstatement, should any be present. Misstatements may result from fraud or error and are deemed to be material if, considered individually or as a whole, they could reasonably be expected to influence any financial decisions made by users on the basis of these financial statements.

As part of an audit carried out according to Swiss law and the SA-CH, we exercise all due discretion throughout the entire audit and maintain a critical stance. In addition:

- we identify and assess the risks of material misstatement within the financial statements due to fraud or error, we plan and carry out audit activities in response to these risks and we obtain audit documentation that is sufficient and suitable to act as a basis for our audit opinion. The risk that material misstatements due to fraud may not be discovered is higher than it is for material misstatements due to error as fraudulent acts may include collusion, forgery, intentional incompleteness, misleading statements or the deactivation of internal controls.
- we gain an understanding of the internal control system relevant for the audit in order to plan audit activities that are appropriate under the specific circumstances, although not with the aim of issuing an audit opinion on the efficacy of the investment fund's internal control system.
- we assess the appropriateness of the accounting methods applied as well as the plausibility of any estimated figures reported within the accounts as well as related information.

We liaise with the Board of Directors of the Fund Management Company or its competent committee, amongst other things concerning the planned extent and the scheduling of the audit as well as concerning significant audit findings, including any significant defects within the internal control system identified by us during the course of our audit.
