## Unaudited sustainability reporting

The sub-fund's ESG characteristics are fulfilled through the application of the Sustainable Investing Policy, as described in the sub-fund's prospectus.

Approach	Description
<input checked="" type="checkbox"/> Exclusions	<p>Companies that violate defined standards or values are excluded; in the case of direct investments, the current list of "exclusion recommendations" drawn up by the independent Swiss Association for Responsible Investment <b>SVVK-ASIR</b> (<a href="http://www.svkk-asir.ch">www.svkk-asir.ch</a>) is followed insofar as the exclusions apply to the respective investment universe. Based on this list, the SVVK-ASIR recommends that its members exclude companies whose business activities violate the normative criteria of the SVVK-ASIR on account of their products (e.g. controversial weapons) or business practices, and where dialogue aimed at resolving ESG issues was unsuccessful. Taking into account the risk of a deviation in the performance of the sub-fund versus the benchmark index (tracking error), the asset manager in the case of direct investments of the ESG sub-funds concerned applies <b>standards-based exclusions</b> in accordance with the Sustainable Investing Policy and excludes companies that generate more than 20% of their sales from business activities involving <b>thermal coal</b> (production of thermal coal and/or coal-fired power plants), even if there is no provision for exclusion in the methodology of the benchmark index. Additional exclusions are based on the investment universe of the relevant benchmark index.</p>
<input checked="" type="checkbox"/> Best-in-class / positive screening approach	<p>The details depend on the benchmark index; information is listed for each fund under the ESG results.</p>
<input checked="" type="checkbox"/> ESG integration	<p>In line with their investment policy, ESG sub-funds replicate a benchmark index whose methodology is subject to an assessment with respect to the integration of ESG criteria when selecting the index and which must meet the minimum requirements specified in the Sustainable Investing Policy. The methodology of the relevant benchmark index defines the ESG criteria required for the relevant ESG sub-fund also to qualify as having ESG characteristics. In principle, sustainability risks are also assumed by the provider of the benchmark index concerned. Based in particular on an assessment of the sustainability of the index components, the provider of the benchmark index defines the index universe using its own measurement systems and criteria for ESG factors; this ranking is created by the provider itself or by an ESG rating agency based on an analysis of publicly available information for the companies included ("<b>ESG rating</b>"). Taking into account the risk of deviation versus the parent index, the universe of the benchmark index can be determined not only by excluding companies with an inadequate ESG rating but also by including only those companies that show the best ESG rating within their industry or sector ("<b>best-in-class approach</b>") (see additional information on the sustainability approach of the relevant providers of the benchmark indices below and in the investment objective of the ESG sub-funds). In each case, additional ESG criteria can only be considered for those ESG sub-funds that only partially replicate the benchmark index or are permitted to deviate from it. ESG factors, which are determined exclusively by the benchmark index provider when defining the index methodology, may partly deviate from the understanding of ESG according to the Sustainable Investing Policy.</p>
<input type="checkbox"/> Thematic investment	
<input type="checkbox"/> Impact investing	
<input checked="" type="checkbox"/> Stewardship (active ownership)	<p><b>Engagement:</b> Monitoring of investee companies with reference to the scope for proactively establishing and pursuing constructive dialogue with them concerning ESG problems.  <b>Voting:</b> Representation at shareholder meetings and proxy voting to assert own views on ESG.</p>
<input type="checkbox"/> Climate focus	
<input type="checkbox"/> Other issues	

Credit Suisse Asset Management (Switzerland) Ltd., Zurich, as Asset Manager, has produced a **Sustainable Investing Policy** setting out its approach and the action it takes in relation to sustainable investing. This Sustainable Investing Policy is also applied to the management of the sub-funds with an explicit ESG investment strategy ("ESG sub-funds").

The Sustainable Investing Policy aims to incorporate ESG criteria into various stages of the investment process through the inclusion of guidelines for identifying sustainability-related opportunities and reducing specific sustainability risks. Further information on the Sustainable Investing Policy and ESG integration for ESG sub-funds is available online at <https://www.credit-suisse.com/esg>.

### Providers of benchmark indices for ESG sub-funds

- MSCI Inc.  
Through in-house analysis, MSCI Inc. and its subsidiaries have developed an objective, quantitative rating model that reflects as precisely as possible the sustainability profile of companies and countries based on a detailed analysis of publicly accessible information. The MSCI ESG rating measures a company's resilience to long-term ESG risks affecting the sector and determines how well these risks are controlled and managed versus its peers. The MSCI ESG Government ratings provide an assessment of the sustainability of a country's economy based on identification of the ESG risks of a country and the way in which it addresses these risks.  
MSCI ESG Leaders indices are constructed on the basis of this data as well as the MSCI ESG rating, while excluding companies with significant income from controversial business activities and employing a best-in-class approach that leaves sector weightings unchanged. By contrast, MSCI ESG Screened indices are constructed solely on the basis of excluding companies with significant income from controversial business activities. Due to the limited inclusion of ESG factors in the methodology of the MSCI ESG Screened Indices determined by the provider, the investment result may in some cases differ from the ESG concept specified in the asset manager's Sustainable Investing Policy.  
<https://www.msci.com/msci-esg-leaders-indices>
- Bloomberg  
Bloomberg MSCI ESG Fixed Income Indices are constructed based on the MSCI ESG and MSCI ESG Government ratings produced using in-house data analysis and exclude borrowers with significant income from controversial business activities.  
<https://www.msci.com/our-solutions/indices/bloomberg-msci-esg-fixed-income-indices>
- SIX Swiss Exchange AG  
ESG indices are compiled on the basis of an ESG rating produced by an independent Swiss sustainability rating agency (Inrate AG) based on publicly available data as well as sales data obtained for critical sectors, with the SBI serving as selection universe in the case of bond indices and the SPI in the case of equity indices. The same selection criteria are applied for inclusion in equity as well as bond indices (specifically minimum ESG rating, exclusions based on sales in critical sectors and in accordance with the "exclusion recommendations" list produced by the SVKK-ASIR).  
<https://www.six-group.com/de/products-services/the-swiss-stock-exchange/market-data/indices/esg-indices.html>
- JPMorgan Chase & Co.  
To construct ESG indices, JPMorgan Chase & Co. and its subsidiaries apply an in-house ESG scoring and screening methodology that is partly based on raw ESG data from specialised external research providers (specifically Sustainalytics and RepRisk AG).

### ESG results (quantitative and qualitative descriptions)

- **Exclusions** are complied with by refraining from investing in any securities that have breached the exclusionary criteria or revenue thresholds indicated in the Prospectus and in the benchmark index.
- The following breakdown of ESG characteristics provides a snapshot of the investments contained in the sub-fund's portfolio as at 29 February 2024. The charts show the result of the sustainable investment approach and compare the portfolio with the parent index, which is part of the benchmark index. It is not an average for the reporting period and is not representative of the portfolio's rating for any other day of the financial year.  
For licensing reasons, the MSCI figures are also shown for benchmark indices that do not use MSCI.

## CSIF (CH) Bond Government Emerging Markets USD ESG Blue

Benchmark index: J.P. Morgan ESG EMBI Global Diversified Index

All borrowers with sales from controversial business sectors (specifically weapons, tobacco and thermal coal power) and/or violate the principles of the United Nations Global Compact (UNGC), and/or that fail to achieve a minimum ESG score of 20 (level 5) according to an ESG rating produced by JPM on a scale of 0-100, subdivided into five levels, are systematically excluded. Debt instruments and rights that qualify as green bonds based on the Climate Bond Initiative taxonomy are rated one level higher on this scale. Of the remaining borrowers, those with a higher ESG score based on the provider's proprietary weighting methodology are overweighted while those with a lower ESG score are underweighted; to avoid cluster risks, the weightings of the individual countries are subject to a ceiling.

- Voting** rights are exercised for all eligible funds managed by the asset manager according to a proxy voting policy. A summary in the form of active ownership reports is available online (see link below).

**Engagement** is conducted holistically for all eligible funds managed by the asset manager. Companies in which engagement can generate a positive change are selected on the basis of analysis carried out by the asset manager. Specific funds do not have any direct impact effect, as companies are not selected at portfolio level. Engagement activities are presented in an annual report available online.

## ESG explanatory notes

The figures included in this section have not been reviewed. For information, statements and valuations relating to environmental, social and governance (ESG) in this report, Credit Suisse may rely in part or in full on publicly available information, internally developed data and/or external sources

that it believes to be reliable. Credit Suisse's ability to verify such targets may be limited by the reliability of available data on the underlying assets and the status of regulations regarding the tracking and provision of such data. Credit Suisse has not independently verified the information obtained from these publicly available sources or from third parties and cannot make any representations or warranties as to its accuracy, completeness or reliability. There is a possibility that data from ESG data providers may not be accurate, available or fully up-to-date. This is particularly true when Credit Suisse has limited access to data from external parties regarding underlying investments, for example, due to the lack of look-through data. Such a lack of data could lead to an incorrect assessment of a sustainability practice and/or associated sustainability risks and opportunities. Credit Suisse cannot provide any guarantees as to the content or completeness of such ESG disclosures, which are subject to change and cannot be relied upon as a reliable source. In particular, Credit Suisse shall not be liable for any errors or omissions in connection with any ESG data contained herein or for any direct, indirect, consequential, special, punitive or other damages (including loss of profit).

Sustainability-related practices also vary by region, industry, and ESG issues, and are constantly evolving. Consequently, sustainability-related practices may change over time. Similarly, new local sustainability requirements may result in additional compliance costs, disclosure requirements or other restrictions on the sub-fund. The CS assessment of the appropriate classification may also change over time, including in response to regulatory guidance or changes in the industry-specific approach to classification. A change to the governing classification may require further action, such as additional disclosures or new processes for collecting data, which may result in additional costs.

None of the ESG Parties shall be liable in any way for any errors or omissions in connection with any data contained herein or for any direct, indirect, consequential, special, punitive or other damages (including loss of profit), even if advised of the possibility of such damages.
