### Directors' Report

### **Report of the Directors**

The Directors present herewith their report and audited financial statements for UBS (Irl) Investor Selection PLC (the "Company") for the year ended 30 September 2022.

### **Principal Activities**

The Company is an open-ended investment company with segregated liability between its sub-funds and variable capital organised under the laws of Ireland.

The Directors have directed the affairs of the Company in accordance with the Companies Act 2014 (the "Act").

The Company comprises the following sub-funds:

UBS (Irl) Investor Selection - Currency Allocation Return Strategy

The investment objective of the sub-fund is to seek to achieve a return in excess of the reference index. The reference index is the sterling component of the Citigroup World Money Market Index Series - GBP 1 Month Euro Deposit.

UBS (Irl) Investor Selection - Equity Opportunity Long Short Fund

The investment objective of the sub-fund is to seek to achieve risk-adjusted capital appreciation over a three year timeframe.

UBS (Irl) Investor Selection - Global Equity Long Short Fund

The investment objective of the sub-fund is to seek to deliver a positive return, over a three year timeframe, by exploiting mispriced stocks in equity markets around the world, including emerging markets. This sub-fund aims to demonstrate low correlation with, and less volatility than, equity markets.

UBS Global Emerging Markets Opportunity Fund

The investment objective of the sub-fund is to seek to achieve capital appreciation on a risk adjusted basis over the medium to long term.

A&Q Fundamental US Equity Long Short UCITS\*

The investment objective of the sub-fund was to seek a positive relative return versus traditional US Equity Long Short strategy benchmarks, over a three to five year timeframe.

UBS (Irl) Investor Selection PLC - O'Connor China Long/Short Alpha Strategies UCITS

The investment objective of the sub-fund is to seek to achieve capital growth by investing in an equity portfolio focused on the alpha opportunities in the Chinese equity markets.

There can be no guarantee that the sub-funds will be able to achieve their investment objectives or be profitable.

### **Business Review, Results, Activities and Future Developments**

The results of operations are set out on page 14. A review of activities is contained in the Investment Manager's Reports for each sub-fund of the Company. Key Performance Indicators ("KPIs") monitored by the Directors are included in the Investment Manager's Reports for each of the sub-funds.

### Structure

The Company is structured as an umbrella fund consisting of different sub-funds each comprising one or more share classes. Shares issued in each sub-fund will rank pari passu with each other in all respects except to the extent that they may differ in respect of certain matters including currency of denomination, hedging strategies, if any, applied to the currency of a particular class, dividend policy, voting rights, modifications on return of capital, the level of fees and expenses to be charged or the minimum subscription and minimum holding, if applicable. The assets of each sub-fund will be invested separately on behalf of each sub-fund in accordance with the investment objective and policies of each sub-fund. A separate portfolio of assets is not maintained for each class of share within a sub-fund.

<sup>\*</sup> A&Q Fundamental US Equity Long Short UCITS terminated on 28 February 2022.

### **Structure (continued)**

As at 30 September 2022, the Company has established the sub-funds and classes which are set out in the supplements and the prospectus. Additional sub-funds in respect of which a supplement or supplements will be issued may be established by the Directors with the prior approval of the Central Bank of Ireland (the "Central Bank"). Additional classes in respect of which a supplement or supplements will be issued may be established by the Directors upon notification to, and clearance in advance by the Central Bank.

### **Directors and Company Secretary**

Claire Cawley\*
Naomi Daly\* (Chairperson)
Thomas Stokes
Gavin Byrnes (Resigned on 25 August 2022)
Ian Fitzpatrick (Appointed on 25 August 2022)

\* Non-executive Director independent of the Investment Manager. All Directors are non-executive.

Company Secretary details are disclosed on page 2.

In accordance with the Articles of Association, the Directors are not required to retire by rotation.

### **Directors' and Secretary's Interests**

The Directors and Company Secretary who held office at 30 September 2022 had no interests in the shares or debentures of the Company during the year (2021: no interests in the Company).

#### **Political Donations**

The Company made no political donations during the financial year ended 30 September 2022 (2021: Nil).

### **Dividend Policy**

The Directors will have absolute discretion as to the payment of dividends. No dividends were paid or payable for the years ended 30 September 2022 and 30 September 2021.

#### **Concentration of Investments**

A sub-fund may at any one time be invested in a single industry or country and few issuers provided that such concentration complies with the UCITS Regulations. To the extent that a sub-fund's investments are concentrated in these ways, the overall adverse impact on a sub-fund could be considerably greater than if a sub-fund's investments were not concentrated to such an extent.

#### **Accounting Records**

The measures taken by the Directors to ensure compliance with the requirements of Section 281 to 285 of the Act, regarding adequate accounting records are through the appointment of the administrator, the implementation of necessary policies and procedures for recording transactions, the employment of appropriately qualified accounting personnel and the provision of adequate resources, including appropriate computerised accounting systems, to the financial function.

The accounting records of the Company are maintained at Second Floor, 5 Earlsfort Terrace, Dublin 2, D02 CK83, Ireland.

### Risk Management

The role of the Board of Directors is to identify, monitor and manage risk on behalf of the Company. The Company has adopted procedures to ensure that material risks relating to the Company and its sub-funds have been identified and are managed.

The Directors of the Company have agreed that this process is suitable for adoption as the risk management process of the Company. UBS Fund Management (Luxembourg) S.A. (the "Manager") is the Manager and is responsible for the risk management process.

The Directors of the Company have appointed the depositary who provides the safe keeping of all the assets of the Company and is subject to regulations of the Central Bank.

### **Going Concern**

After making enquiries and considering relevant financial and other factors, the Directors have a reasonable expectation that the Company and its sub-funds have adequate resources to continue in operational existence for the foreseeable future. Furthermore, the management is not aware of any material uncertainties that may cast doubt upon the Company's and the sub-fund's ability to continue as a going concern. Therefore, the financial statements continue to be prepared on a going concern basis

### **Risk and Uncertainties**

The Company is exposed to principal risks including market, credit and liquidity risk. The manner in which these risks have been dealt with is disclosed in Note 9 of the financial statements.

The war in Ukraine had and still has a material impact on financial markets, first and foremost on Russian and Ukrainian securities but also on the wider markets globally. The situation remains very volatile and is closely monitored by the Management of the Fund in order to quickly take appropriate action to protect the investor interest. The necessary measures were put in place to at all times comply with applicable laws and regulations, in particular but not limited to the most recently enacted sanction regimes in the EU, Switzerland, UK, US and United Nations (UN). As serious trading limitations beyond sanctioned Russian securities have been experienced, fair value pricing is applied for all relevant securities where price quotes (if available) are not considered reflective of their current market value. The sub-fund UBS Global Emerging Markets Opportunity Fund was impacted by the fair value decision taken. Also, further to the assessment made by the Management of the Company, neither the Company's and any of its sub-funds' going concern nor operations, at the date of this report, have been significantly impacted by the above.

### **Corporate Governance Code**

The Board of Directors voluntarily adopted the Corporate Governance Code (the "IF Code") for Irish Domiciled Collective Investment Schemes as published by Irish Funds ("IF"), as the Company's corporate governance code. The Board of Directors has assessed the measures included in the IF Code as being consistent with its corporate governance practices and processes for the financial year.

### **General Principles**

The Company is subject to comply with the requirements of the Act, the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations, 2019 (as amended) (the "UCITS Regulations") and the Central Bank UCITS Regulations 2019 (the "Central Bank UCITS Regulations"), and with effect from 1 November 2015, the Central Bank (Supervision and Enforcement) Act 2013 as applicable. The European Communities (Directive 2006/46/EC) Regulations (S.I. 450 of 2009 and S.I. 83 of 2010) (the "Regulations") requires the inclusion of a corporate governance statement in the Directors' Report. The Company is also subject to corporate governance practices imposed by:

- 1. The Act, which is available for inspection at the registered office of the Company; and may also be obtained at: <a href="http://www.irishstatutebook.ie/home.html">http://www.irishstatutebook.ie/home.html</a>;
- 2. The Articles of Association of the Company which are available for inspection at the registered office of the Company at Second Floor, 5 Earlsfort Terrace, Dublin 2, D02 CK83, Ireland and at the Companies Registration Office in Ireland; and
- The Central Bank in their UCITS Regulations which can be obtained from the Central Bank's website at: <a href="http://www.centralbank.ic/regulation/industrysectors/funds/Pages/default.aspx">http://www.centralbank.ic/regulation/industrysectors/funds/Pages/default.aspx</a> and are available for inspection at the registered office of the Company.

### Internal Control and Risk Management Systems in Relation to Financial Reporting

The Directors are responsible for establishing and maintaining adequate internal control and risk management systems of the Company in relation to the financial reporting process. Such systems are designed to manage rather than eliminate the risk of error or fraud in achieving the Company's financial reporting objectives and can only provide reasonable, and not absolute, assurance against material misstatement or loss. The Directors have procedures in place to ensure that all relevant accounting records are properly maintained and are readily available including production of annual and half yearly financial statements.

### Internal Control and Risk Management Systems in Relation to Financial Reporting (continued)

The Directors have appointed the Administrator to maintain the books and records of the Company. The Administrator is authorised and regulated by the Central Bank and must comply with the rules imposed by the Central Bank. From time to time, the Directors examine and evaluate the Administrator's financial accounting and reporting routines. The annual financial statements of the Company are produced by the Administrator and reviewed by the Investment Manager. They are required to be approved by the Directors and the annual and half yearly financial statements of the Company are required to be filed with the Central Bank. During the period of these financial statements, the Directors were responsible for the review and approval of the annual financial statements as set out in the Statement of Directors' Responsibilities. The statutory financial statements are required to be audited by independent auditors who report annually to the Directors on their findings.

The Directors monitor and evaluate the independent auditor's performance, qualifications, and independence. As part of its review procedures, the Directors receive presentations from relevant parties including consideration of applicable accounting standards and their impact on the annual financial statements, and presentations and reports on the audit process. The Directors evaluate and discuss significant accounting and reporting issues as the need arises.

### **Derivative Instruments and Effective Portfolio Management Techniques**

The Investment Manager's Reports contained in the Annual Report provide a general description of the use of derivative financial instruments and effective portfolio management techniques during the reporting period and the resulting amount of commitments. The notes to the financial statements also detail the purposes behind the use of various instruments together with the attendant risks.

The Value-at-Risk (the "VaR") tables report the exposure obtained through effective portfolio management techniques and derivative financial instruments.

The identity of the counterparties relating to these effective portfolio management techniques and derivative financial instruments, the type and amount of collateral received by the Company to reduce counterparty exposure are noted in the market risk tables for each sub-fund (Note 9 to the financial statements).

Income and expenditure related to all effective portfolio management techniques and derivative financial instruments are reflected in the Statement of Comprehensive Income of each sub-fund.

### **Restrictions on Transactions with Connected Persons**

The Central Bank UCITS Regulations, paragraph 43(1) – 'Dealings by promoter, manager, trustee, investment adviser and group companies' states in paragraph one that any transaction carried out with a UCITS by a promoter, manager, trustee, investment adviser and/or associated or group companies of these ("connected parties") must be carried out as if negotiated at arm's length. Transactions must be in the best interests of the unit-holders of the UCITS.

The Board of Directors is satisfied that there are arrangements (evidenced by written procedures) in place, to ensure that the obligations set out in paragraph 43(1) are applied to all transactions with connected parties; and the Board is satisfied that transactions with connected parties entered into during the period complied with the obligations set out in this paragraph.

#### Significant Events during the Reporting Period

The following class was closed in UBS (Irl) Investor Selection - Equity Opportunity Long Short Fund: Class (AUD hedged) P-PF-acc was closed on 15 March 2022.

A&Q Fundamental US Equity Long Short UCITS terminated as at 28 February 2022.

There were no other events after the year-end that require adjustment to or disclosure in the financial statements.

#### **Events After the Reporting Period**

A new sub-fund, UBS Global Emerging Markets Opportunity Reduced Carbon Fund was authorised by the Central Bank Of Ireland on the 25 April 2022 and launched in October 2022.

On 28 November 2022 UBS Fund Management (Ireland) Limited replaced UBS Fund Management (Luxembourg) S.A. as the manager of the Company.

There were no other events after the year-end that require adjustment to or disclosure in the financial statements.

### **Directors' Compliance Statement**

The Directors, in accordance with Section 225(2) of the Companies Act 2014, acknowledge that they are responsible for securing the Company's compliance with certain obligations specified in that section arising from the Companies Act 2014 and Tax laws ("relevant obligations"). The Directors confirm that:

- A Compliance Policy Statement has been drawn up by the Directors which sets out the Company's policies for compliance with its relevant obligations under the Irish Companies Act;
- Appropriate procedures have been put in place, which have been designed to secure material compliance with the Company's relevant obligations; and
- A review process has been put in place, the purpose of which to ensure that the aforementioned assurance measures regarding the Company's Compliance Policies are appropriate and operating effectively during each financial period.

#### **Statement of Relevant Audit Information**

- So far as each Director is aware, there is no relevant audit information of which the Company's statutory auditors are unaware;
- Each Director has taken all steps (being that he/she has made such inquiries of his fellow Directors and of the Company's statutory auditors) that he/she ought to have taken as a Director in order to make himself/herself aware of any relevant audit information and to establish that the Company's statutory auditors are aware of that information.
- Section 167 (2) of the Companies Act 2014 requires the board of directors of a large company to establish an audit committee.
  The Directors have decided not to form an audit committee as the Board is formed of two non-executive Directors with two independent non-executive Director and the Company complies with the provisions of the Corporate Governance Code. The Company did not establish an audit committee due to the size, nature and complexity of the Company and the Directors do not believe it is required.

### Statement of Establishment or otherwise of an Audit Committee

The Directors have decided not to establish an audit committee pursuant to section 167(2) of the Act based on (a) the nature, scale and complexity of the Company's business and the range of services and activities undertaken in the course of that business; (b) the resources available to the Company and the resources and expertise of the various third parties engaged to support the Company and carry out certain functions on its behalf; and (c) the procedures in place for the review, approval and circulation of the audited financial accounts and statements which are appropriate for an investment company pursuant to the UCITS Regulations.

### **Independent Auditor**

Ernst & Young have expressed their willingness to act as Auditor for the Company in accordance with Section 383 (2) of the Act.

On behalf of the Board DocuSigned by:

Director Naomi Daly

Date: 23 January 2023

DocuSigned by:

Director Claire Cawley

Date: 23 January 2023

### Statement of Directors' Responsibilities in respect of the Directors' Report and the financial statements

The Directors are responsible for preparing the Directors' Report and the financial statements in accordance with applicable law and regulations.

Company law requires the Directors to prepare financial statements for each financial year. Under that law they have elected to prepare the financial statements in accordance with International Financial Reporting Standards ("IFRS") as adopted by the European Union and applicable law.

Under company law the directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the assets, liabilities and financial position of the Company and of its change in net assets attributable to holders of redeemable participating shares for that year. In preparing the financial statements, the directors are required to:

- select suitable accounting policies and then apply them consistently;
- make judgments and estimates that are reasonable and prudent;
- state whether applicable Accounting Standards have been followed, subject to any material departures disclosed and explained in the financial statements;
- assess the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern;
   and
- use the going concern basis of accounting unless they either intend to liquidate the Company or to cease operations, or have no realistic alternative but to do so.

The Directors are responsible for keeping adequate accounting records which disclose with reasonable accuracy at any time the assets, liabilities, financial position and profit or loss of the Company and enable them to ensure that its financial statements comply with the Companies Act 2014, the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011 and the Central Bank (Supervision and Enforcement) Act 2013 (Section 48(1)) (Undertakings for Collective Investment in Transferable Securities) Regulations 2019. They have general responsibility for taking such steps as are reasonably open to them to safeguard the assets of the Company. In this regard they have entrusted the assets of the Company to a trustee for safe-keeping. They are responsible for such internal controls as they determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error, and to prevent and detect fraud and other irregularities. The Directors are also responsible for preparing a Directors' Report that complies with the requirements of the Companies Act 2014.

The Directors are responsible for the maintenance and integrity of the corporate and financial information included on the Company's website. Legislation in the Republic of Ireland governing the preparation and dissemination of financial statements may differ from legislation in other jurisdictions.

### Depositary's Report

### Report of the Depositary to the Shareholders

We have enquired into the conduct of UBS (Irl) Investor Selection PLC (the "Company") for the period 1 October 2021 to 30 September 2022 in our capacity as Depositary to the Company.

This report including the opinion has been prepared for and solely for the Shareholders in the Company as a body, in accordance with the European Communities (Undertakings for Collective Investment in Transferable Securities) UCITS Regulations, 2011, as amended (the "UCITS Regulations") and the Central Bank (Supervision and Enforcement) Act 2013 (Section 48(1)) (Undertakings for Collective Investment in Transferable Securities) Regulations 2019 (the "Central Bank UCITS Regulations") and for no other purpose. We do not, in giving this opinion, accept or assume responsibility for any other purpose or to any other person to whom this report is shown.

#### Responsibilities of the Depositary

Our duties and responsibilities are outlined in the UCITS Regulations. One of those duties is to enquire into the conduct of the Company in each annual accounting period and report thereon to the shareholders.

Our report shall state whether, in our opinion the Company has been managed in that period, in accordance with the provisions of the Company's Memorandum and Articles of Association, the UCITS Regulations and the Central Bank UCITS Regulations. It is the overall responsibility of the Company to comply with these provisions. If the Company has not complied we, as Depositary must state why this is the case and outline the steps which we have taken to ensure the situation is rectified.

### **Basis of Depositary Opinion**

The Depositary conducts such reviews as it, in its reasonable opinion, considers necessary in order to comply with its duties as outlined in the UCITS Regulations and to ensure that, in all material respects, the Company has been managed;

- (i) in accordance with the limitations imposed on the investment and borrowing powers of the Company by the provisions of its Memorandum and Articles of Association, the UCITS Regulations, the Central Bank UCITS Regulations; and
- (ii) otherwise in accordance with the provisions of the Company's Memorandum and Articles of Association, the UCITS Regulations and the Central Bank UCITS Regulations.

### **Opinion**

In our opinion, the Company has been managed during the year, in all material respects:

· Spega Muy

- (i) in accordance with the limitations imposed on the investment and borrowing powers of the Company by the Memorandum and Articles of Association, the UCITS Regulations, the Central Bank UCITS Regulations; and
- (ii) otherwise in accordance with the provisions of the Memorandum and Articles of Association, the UCITS Regulations and the Central Bank UCITS Regulations.

### INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF UBS (IRL) INVESTOR SELECTION PLC

### Report on the audit of the financial statements

### Opinion

We have audited the financial statements of UBS (Irl) Investor Selection PLC ('the Company') for the year ended 30 September 2022, which comprise the Statement of Financial Position, Statement of Comprehensive Income, Statement of Changes in Net Assets Attributable to Holders of Redeemable Participating Shares, Statement of Cash Flows and notes to the financial statements, including the summary of significant accounting policies set out in note 2. The financial reporting framework that has been applied in their preparation is Irish Law and International Financial Reporting Standards ('IFRS') as adopted by the European Union as applied in accordance with the provisions of the Companies Act 2014.

In our opinion the financial statements:

- give a true and fair view of the assets, liabilities and financial position of the Company as at 30 September 2022 and of its loss for the year then ended;
- have been properly prepared in accordance with IFRS as adopted by the European Union; and
- have been properly prepared in accordance with the requirements of the Companies Act 2014, the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations, 2011, and the Central Bank (Supervision and Enforcement) Act 2013 (Section 48(1)) (Undertakings for Collective Investment in Transferable Securities) Regulations 2019.

### **Basis for opinion**

We conducted our audit in accordance with International Standards on Auditing (Ireland) (ISAs (Ireland)) and applicable law. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with ethical requirements that are relevant to our audit of financial statements in Ireland, including the Ethical Standard issued by the Irish Auditing and Accounting Supervisory Authority (IAASA), and we have fulfilled our other ethical responsibilities in accordance with these requirements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

### Conclusions relating to going concern

In auditing the financial statements, we have concluded that the directors' use of the going concern basis of accounting in the preparation of the financial statements is appropriate.

Based on the work we have performed, we have not identified any material uncertainties relating to events or conditions that, individually or collectively, may cast significant doubt on the Company's ability to continue as a going concern for a period of at least twelve months from the date when the financial statements are authorised for issue.

Our responsibilities and the responsibilities of the directors with respect to going concern are described in the relevant sections of this report. However, because not all future events or conditions can be predicted, this statement is not a guarantee as to the Company's ability to continue as a going concern.

### INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF UBS (IRL) INVESTOR SELECTION PLC (CONTINUED)

### Other information

The directors are responsible for the other information. The other information comprises the information included in the annual report other than the financial statements and our auditor's report thereon. Our opinion on the financial statements does not cover the other information and, except to the extent otherwise explicitly stated in our report, we do not express any form of assurance conclusion thereon.

Our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If we identify such material inconsistencies or apparent material misstatements, we are required to determine whether there is a material misstatement in the financial statements or a material misstatement of the other information. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact.

We have nothing to report in this regard.

### Opinions on other matters prescribed by the Companies Act 2014

In our opinion, based solely on the work undertaken in the course of the audit, we report that:

- the information given in the directors' report for the financial year ended for which the financial statements are prepared is consistent with the financial statements; and
- the directors' report has been prepared in accordance with applicable legal requirements.

We have obtained all the information and explanations which, to the best of our knowledge and belief, are necessary for the purposes of our audit.

In our opinion the accounting records of the Company were sufficient to permit the financial statements to be readily and properly audited and the financial statements are in agreement with the accounting records.

### Matters on which we are required to report by exception

Based on the knowledge and understanding of the company and its environment obtained in the course of the audit, we have not identified material misstatements in the directors' report.

The Companies Act 2014 requires us to report to you if, in our opinion, the disclosures required by sections 305 to 312 of the Act, which relate to disclosures of directors' remuneration and transactions are not complied with by the Company. We have nothing to report in this regard.

### INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF UBS (IRL) INVESTOR SELECTION PLC (CONTINUED)

### Respective responsibilities

### Responsibilities of directors for the financial statements

As explained more fully in the directors' responsibilities statement set out on page 8, the directors are responsible for the preparation of the financial statements in accordance with the applicable financial reporting framework that give a true and fair view, and for such internal control as they determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

### Auditor's responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (Ireland) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

A further description of our responsibilities for the audit of the financial statements is located on the IAASA's website at: <a href="http://www.iaasa.ie/getmedia/b2389013-1cf6-458b-9b8f-a98202dc9c3a/Description\_of\_auditors\_responsibilities\_for\_audit.pdf">http://www.iaasa.ie/getmedia/b2389013-1cf6-458b-9b8f-a98202dc9c3a/Description\_of\_auditors\_responsibilities\_for\_audit.pdf</a>.

This description forms part of our auditor's report.

### The purpose of our audit work and to whom we owe our responsibilities

Our report is made solely to the Company's members, as a body, in accordance with section 391 of the Companies Act 2014. Our audit work has been undertaken so that we might state to the Company's members those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the Company and the Company's members, as a body, for our audit work, for this report, or for the opinions we have formed.

### **Investment Manager's Report - Unaudited**

1st October 2021 to 30th September 2022

#### Market environment

The reporting period saw notable drawdowns across traditional asset classes, with cross market selling seen amid uncertainty over the war in Ukraine, increasingly hawkish central bank policy, and concerns about the economic growth outlook in light of elevated inflation. While concerns over COVID-19 remained front and centre at the start of the period, most major economies reopened in 2022 as the Omicron variant of the virus proved to be less virulent that first feared. Instead, concerns shifted even further to stubbornly high inflation pressures, with spiking commodity prices in the wake the Russia-Ukraine war further cause for consumers. As a result, central banks globally shifted to a more hawkish policy stance which harmed sentiment in equities and led to declines across global sovereign bond markets. The Federal Reserve ("Fed") remained in the spotlight throughout and market hope for signs of a "Fed Pivot" failed to come to fruition, as US monetary policymakers instead revised up rate expectations amid persistently high inflation readings and a tight labour market. While concerns over the cost of living rose globally, energy supply concerns were most acute in Europe and the UK due to war-related Russian supply cuts. Overall, the likelihood of a global recessionary environment rose steadily into September 2022, with very little respite stemming from Chinese growth as property sector concerns and COVID-related mobility disruptions continued to weigh on the region. As a result, declines in both bond and equity markets accelerated in the second half of the period, with the MSCI All Country World Index down over 17% from April 2022 to September 2022 while similar price action was seen in global bond indices. This risk averse trading over the period alongside rate and growth differentials supported the US dollar (USD) over the period, with the U.S. dollar index rallying approximately 19%. The Japanese yen (JPY) was a notable laggard versus the USD, while sterling (GBP) reached its lowest levels since the 1980s. Latin American currencies held up a lot stronger over the period, supported by aggressive central bank policy and some easing of perceived political risks.

### **Performance**

The Fund delivered a negative return of -10.73% gross over the twelve-month period to end September 2022.

The largest detractor from performance was short positioning in the USD, which rallied through the period on global growth concerns and quicker normalisation in Fed policy. Long JPY positioning also detracted as nominal rate divergences widened between Japan and other developed markets. Short exposure to the Canadian dollar (CAD) and Swiss franc (CHF) were also negative contributors, with the latter rallying sharply following a surprise rate hike from the Swiss National Bank in June 2022.

On the upside, the largest positive contributions stemmed from long positioning in Latin American currencies, which performed well over the period amid relatively aggressive central bank tightening. Notably, the Brazilian real (BRL) was the top contributor, rallying sharply in the first half of the period as Brazilian political concerns eased ahead of the 2022 election. Elsewhere, short positions in the New Zealand dollar (NZD) and euro (EUR) also contributed positively.

### Outlook

Going into Q4 2022, we continue to appraise the opportunity set with a focus on valuation, however we remain cognisant of the recent uncertainty which has been influencing FX markets. From a fundamental perspective, it is not clear that macroeconomic factors are supportive for the USD. Many US fundamentals are quite weak and current nominal rates are below trailing inflation. The current account balance has deteriorated, the US net international investment position as a percentage of GDP is estimated at around -70%, which is large by normal standards, and certainly larger than the equivalent measures for the Latin American economies whose currencies we favour. That said, we are mindful that global growth continues to soften and sentiment remains relatively weak. Recent price action resembles a classic USD overshooting phase where the dollar continues to have momentum support in the short-term. As such, we have moderated our short USD exposure to reflect shorter-term drivers. We remain constructive on JPY - this long 'safe haven' exposure is largely offset by short USD exposure. The year-todate decline in JPY appears to have been driven by broadening rate differentials. Sentiment associated with the yen remains weak with surveys of speculative positioning suggest investors are materially short the currency, suggesting scope for appreciation should this extremely stretched positioning change. While Japan's terms of trade have deteriorated following the rise in commodities prices, the JPY is now trading at its cheapest level in real terms for several decades. In Europe, we expect the EUR to remain vulnerable to escalation given proximity to the Russia-Ukraine crisis and the greater economic implications in Eurozone compared to most other countries / regions. We see signs of a classical hiking cycle among many LatAms in response to robust inflation and growth dynamics. We remain constructive on Latin American currencies, having rebalanced towards those where we see the greatest prospective upside. Elsewhere, we retain short positions in the Chinese renminbi, while we continue to fund positions out of select developed market commodity currencies. Overall, portfolio positioning will continue to be driven by valuation signals, incorporating assessments of fundamental macro-drivers and the influence of shifts in risk perception.

Historical performance is no indicator of current or future performance.

### **Investment Manager's Report - Unaudited**

1st October 2021 to 30th September 2022

#### Market environment

The period between 1 October 2021 to 30 September 2022 posed an unusually top-down driven backdrop for markets due to factors such as bond yields, inflation and geopolitics. Global equities initially had a robust start thanks to solid company earnings and entered 2022 close to record highs. However, they soon came under pressure at the beginning of 2022. The pullback was driven primarily by the Federal Reserve's pivot to a more hawkish policy stance. The rise in US bond yields weighed on growth stocks in particular. Global equities fell further following war in Ukraine, which added to worries about the outlook for growth, inflation and central bank policy. Markets experienced heightened volatility over potential disruptions to the flow of commodities and the ramping up of global sanctions on Russia. Additionally, oil prices surged to a seven-year high on the back of supply crunch fears. Global equities had another difficult quarter in Q2, as geopolitical and economic uncertainties from Russia's continued invasion of Ukraine lingered. This resulted in concerns over the impact of a reduction in gas supplies from Russia and the potential for more severe disruptions of food supplies, while commodity prices and bond yields rose further. Sentiment did not improve over the quarter as worries over the pace of central bank tightening intensified. The third quarter was characterized by volatility, with hopes and fears about inflation and Federal Reserve policy, the energy crisis in Europe, and China's twin COVID and real estate challenges the most prominent market drivers. After a promising start, weak performance for August and September outweighed positive returns to bring down returns for global equities into negative territory. Aggressive monetary policy tightening in the US and Europe sparked slowdown fears, driving up yields and weighing on cyclical commodities.

#### **Performance**

The Equity Opportunity Long Short fund posted an absolute return of +5.2% (Q-PF share class, net of fee in EUR) from 1 October 2021 to 30 September 2022. The interest rate panic in the market resulted in the biggest dispersion in returns between value and growth since 1995. As a result of this and despite the absence of stock specific drivers, higher quality names were hit. The largest positive contributor to performance was our net short to the consumer discretionary sector. Notably our short position to an exercise equipment company added the most value within the sector. Our short in a online fashion apparel company also contributed positively. The energy sector was a positive contributor as our holding in Tourmaline Oil rallied on the back of the higher natural gas price. Within the sector, we also benefitted from a short position in a US oil and gas company. Consumer staples contributed positively over the year, where our short position in a US food company added the most value within the sector. Conversely, IT was the largest detracting sector, where a number of our holdings were impacted by the growth sell-off. Our long position in a European cloud-based fintech company detracted, while our short position in a US electronics company also weighed on performance. Elsewhere, the industrials and health care sectors detracted over the year to 30 September 2022.

### Outlook

2021 and 2022 YTD have proved very challenging for active managers in general as top-down events have influenced equity markets strongly. Much of the damage to our performance happened in the first few weeks of January. We remain disciplined and have positioned ourselves in profitable names that have temporarily suffered from the yield overhang.

Quantitative Easing historically drives commodity prices higher. This support is now reversing with the start of Quantitative Tightening and consequently we expect prices and inflation to moderate. This is reflected by the US 10Y breakeven inflation remaining under control. We believe that the normalisation of inflation expectations and bond yields will give us the opportunity to recover our losses and generate alpha again.

We continue to favour companies with strong free cash flow generation abilities and earnings growth, which we deem more important than bond dislocations in the long run. We think fundamentals will reassert themselves in the medium term and, therefore, companies with attractive risk-reward should perform well.

Historical performance is no indicator of current or future performance.

The performance data does not take account of any commissions and costs charged when subscribing and redeeming shares.

### UBS (Irl) Investor SelectionGlobal Equity Long Short Fund

### **Investment Manager's Report - Unaudited**

1st October 2021 to 30th September 2022

#### Market environment

The time period from 1 October 2021 to 30 September 2022 posed an unusually top down driven backdrop for markets due to concerns around rising interest rates, inflation and geopolitics. Equities came under pressure at the start of 2022 as the conflict between Russia and Ukraine emerged, in addition to the Federal Reserve's pivot to a more hawkish policy stance, which looks set to remain as it aims to cool inflation. The rise in US bond yields weighed on growth stocks, in particular. Markets experienced heightened volatility over potential disruptions to the flow of commodities and the ramping up of global sanctions on Russia. The conflict in Ukraine added to worries about the outlook for growth, inflation and central bank policy, and Europe has faced elevated recession risks due to rising energy prices and inflationary pressures.

#### **Performance**

The Global Equity Long Short fund was up +9.45% (I-B share class, net of fee in EUR) over the time period. Our long sleeve in Energy and short sleeve in Communication Services contributed positively, while our short book in Energy and long book in Industrials detracted the most. On the long end, Oil & Gas E&Ps performed well for the fund, while this industry also detracted on the short end; overall, rising commodity prices has led to strong outperformance for the Energy sector broadly. Some of our short names in telecom also contributed positively. Lastly, some of our long Industrials holdings that are particularly levered to global GDP were dampened by the softer economic outlook. Broadly speaking, the fund maintains low market exposure and low beta, which has enabled the fund to deliver positive returns in a challenging market environment globally where risk assets have faced pressure.

### Outlook

We expect further volatility in the markets, driven by dual headwinds: central bank tightening and continued geopolitical risks around the war in Ukraine which remains uncertain and highly fluid. Against this market backdrop, we continue to search for fundamentally mispriced securities, and remain ready to take advantage of any opportunities presented by price/value dislocations caused by short term sentiment. We believe the fund is well positioned to face any market environment, as risk remains dominated by a large number of diversified, idiosyncratic, stock-specific sources, driven by our fundamental analysts.

#### **Investment Manager's Report - Unaudited**

1st October 2021 to 30th September 2022

#### Market environment

Emerging markets (MSCI EM) equities returned (~-28.1%) in USD terms over the 12 month-period ending September 30, 2022. Markets corrected on the back of Russia's invasion of Ukraine and on the back of growing recession concern due to elevated inflation and subsequent rate hikes from Fed.

#### **Performance**

The strategy returned ~-31.6%, underperforming the benchmark, the MSCI Emerging Marketing Index (r), by ~3.5% over the 12 month period ending September 30, 2022, gross of fees. Stock selection within Energy contributed most, driven by Petrobras. Petrobras has done well thanks to the elevated oil price. Outside of Energy, our holdings in Eicher Motors, Bank Mandiri and Bank Central Asia contributed positively to performance. Eicher Motors outperformed on expectations that its supply bottlenecks are moderating as it diversified its suppliers. In addition, expectations of new model launches and continued momentum of its exports strategy added to optimism. Both Bank Central Asia and Bank Mandiri outperformed as investors looked toward Indonesia's reopening. Catalysts for the sector include consistent low cost of funds, NPLs/provision staying within range of guidance, a small but promising pick-up in credit demand, and limited impact of Fed taper on system liquidity. In contrast, our holdings in Yandex and Sberbank detracted. Both names were written to zero following Russia's invasion of Ukraine. Last, our holdings in Country Garden Services detracted too. The stock fell with weak sentiments about the real estate industry and CGS' recent capital raising. CGS has been acquiring other property management companies and assets and investors are concerned if these can be successfully integrated. There are also concerns whether CGS' affiliate, Country Garden Holdings, might face debt distress.

#### Outlook

China's sharp U-turn on its zero-covid policy has taken markets by surprise, moving quickly from easing of covid restrictions domestically to international travel, both inbound and outbound. On the ground in China, news reports have indicated chaos abounds, not much unlike other countries that adopted herd immunity as a covid strategy. Activity indicators are improving in some cities but we expect the covid infection peaks to remain uneven in the immediate term, suggesting a bumpy recovery. Meanwhile the tone from the Central Economic Work Conference was pro-growth with a focus on economic stability. The PCAOB audit inspection for Chinese ADRs ended with a positive assessment, with improving sentiments reflected by US institutional investors turning net buyers of Chinese ADRs in December, the first time since July 2021. Overall these spell a significant improvement in sentiment for Chinese equities in the short term. In the longer term, we bear in mind certain risks including geopolitics and investor worries that the new top leadership's objectives may imply more redistributive policies, curtailment of free private enterprise, and thus weigh on longer term economic growth. We believe it is too early to draw definitive conclusions and, now that the top leadership team for President Xi's third term is in place, we will monitor the Chinese government's actions, as well as its stance towards the private sector and entrepreneurs.

2022 ended with China being the third worst performing market, after tech-heavy Taiwan and Korea. The economically sensitive tech sector continues to be under pressure from concerns about a global slowdown. We pay very close attention to this sector and remain overweight. Our tech analyst was in Taiwan in end December and his research showed the industry dynamics for semiconductors remains positive, and has even improved during this period of depressed sentiments. Demand is weak but inventories are being digested quickly. We believe we need to ride through the economic downcycle for the sector to resume its long term positive trajectory.

Outside of China, other Asian economies are already on the path of post-covid recovery and will also benefit from the tailwinds of China's reopening and resumption of Chinese tourists. The ASEAN region is likely most to benefit from a recovery in Chinese tourism. Asia is also expected to benefit from the outsourcing story brought about by the China-plus-one and to an extent, also as European industry and manufacturing get impacted by energy shortages. Supply chain shifts are typically gradual but we are already seeing the emerging effects of this in Southeast Asia and India.

The Indian market on particular had been quite resilient most of the year but began to falter in the last two months, as valuations started to look relatively more expensive despite fundamentals still being strong. Its equity market has been supported by domestic investors and we expect this to continue. The government has also put in place certain initiatives such as production-linked incentive scheme and corporate tax cuts to capture some of the manufacturing diversification out of China, which should drive economic growth.

#### **Investment Manager's Report – Unaudited (continued)**

#### **Outlook** (continued)

Indonesia benefitted from higher energy and commodity prices, with Indonesia and Malaysia being the only two net commodity exporters in the region. Looking towards more structural growth, it has also put in place reforms to position it to benefit from supply chain diversification. There have also been initiatives to build out the EV supply chain given Indonesia's nickel ore supply. Meanwhile we are monitoring the lead up to Indonesian elections in April 2024 as President Jokowi is constitutionally barred from a third term.

Outside of Asia, valuation remains depressed in Eastern Europe. The economies in the region are doing better than expected despite the circumstances, not last due to help from increasing funds from the EU, worth up to 3% of GDP in the coming years. The Middle East should be benefiting from higher for longer with respect to energy prices, as well as structural reforms. However, given the valuation, active stock selection continues to be the key in this region. With respect to Latam, uncertainty around Brazil has increased since the election of Lula. On the one hand, Brazil was very quick to tighten the monetary policy, so as a result the inflation has been already falling during 2022. Brazil might be among the first countries to cut rates in 2023 – this could help to maintain the economic momentum during 2023. On the other hand, there has been mixed signal from the new president in terms of fiscal discipline and degree of state intervention into the markets. Rates might stay higher for longer and both FX and growth might become weaker than expected. Hence, we continue to monitor the risk coming from the latest election. It still remains to be seen as to how much check and balance the conservative congress and senate can exercise on the executive branch.

In terms of positioning, we continue to overweight Financials and Consumers as a result of our bottom-up stock picking. Elsewhere, we continue to be overweight in Indonesia and roughly neutral in Brazil for reasons described earlier.

Historical performance is no indicator of current or future performance.

The performance data does not take account of any commissions and costs charged when subscribing and redeeming shares.

### **Investment Manager's Report - Unaudited**

1st October 2021 to 30th September 2022

#### **Market environment**

The fourth quarter of 2021 saw rallying equity markets, despite a slump in November as investors digested the ramifications of the omicron variant and the prospect of imminent interest rate hikes to combat rising inflation. However, Asian markets fared less well with volatility in China spilling over into Japan. The first quarter of 2022 was more challenging for markets, with Russia's invasion of Ukraine taking centre stage globally. Concerns abounded over the impact on the commodity supply chain, leading to soaring energy prices and increasing inflationary pressure. Asian markets and particularly China, also contended with a resurgence of Covid-19 and another round of shutdowns, which further dented investor sentiment.

#### **Performance**

The fund returned approximately -6.87% net for the period from October 1, 2021 to February 28, 2022 (Class (USD) I-B-Acc) (when the portfolio was liquidated). The Russell 3000 Index returned +2.82%, while the HFRX Equity Hedge Index returned +2.34% for the same period.

Negative performance was driven primarily by market beta and exposure to the tech, consumer discretionary and healthcare sectors. On the positive side, exposure to the utilities and consumer staples sectors tended to add slightly to performance. Stylistically, performance was impacted from being positioned long growth-oriented stocks and slightly short more quality/larger market cap companies. Exposures were generally trending lower over the period with gross and net finish the period at approximately 130% and 30% respectively

### **Statement of Financial Position**

A&Q Fundamental US Equity Long Short UCITS Annual Report as of 30 September 2022

### **Investment Manager's Report - Unaudited**

1st October 2021 to 30th September 2022

#### Market environment

The cooling measures imposed by the Chinese regulators on private online education companies back in Summer of 2021 was exacerbated by the Evergrande credit crisis in September 2021. The market weakness and volatility persisted for the rest of 2021 and into 2022 as concerns around inflation, soaring commodities and energy prices, rising interest rates and even possibly a recession remained on the forefront. In China, the market relief witnessed back in May and June 2022 where the market rallied on the back of supportive tone by the policymakers in supporting economic growth was short-lived and saw the market corrected again thereafter as uncertainties around the beleaguered property sectors and absence of clear direction on policies contributed to the loss of investors' confidence. Coming into August 2022, we also started to witness some mean reversion by small cap names and quite significant risk off sentiment as evidenced by lower average daily turnover going into the quarter. The China equity markets remain deep in the red averaging double digit losses.

#### **Performance**

Despite the challenging market environment since the launch of the Fund, it generated positive returns in 2021 (period 10.09.2021-31.12.2021) and also both on a 2022 YTD and inception-to-date basis mainly contributed by a strong performance in Q3 2022. On the back of a more conservative view of the market, we positioned the portfolio more defensively through low gross and neutral to slightly net short (beta-adjusted) which the team maintained, proactive portfolio hedging strategies along with increasing the resilience of our short portfolio through structural, alpha shorts not only protected performance but also generated alpha over the period. Since inception of the Fund, the average net exposure was mainly neutral to small net short (beta adjusted 0% to -8% net) while our gross exposure averaged around 140%, both at a much lower end of our target range. We increased our structural shorts exposure from Q2 2022 as we look to make our portfolio more resilient which played out well in Q3 2022. In terms of attribution since inception of the Fund, our short book significantly outperformed our long book. At sector level, notable contributors were Consumer Staples, Healthcare, Technology particularly semiconductor, auto and Industrials while the biggest detractor was our long exposure in utilities which was negatively impacted by the significant correction in the green power space. Our relative value positioning in the Real Estate sector through being long state-owned enterprises (SOEs) and short privately-owned enterprises (POEs), specifically in the property management and property development space, started to play out in Q3 2022 after bearing the losses in Q2 2022. The short exposure we hold in these POEs were established based on our diligent fundamental analysis which points to an expectation of notable probability for these companies to restructure their debts or even potentially face bankruptcy in the next 6-18 month – and we will continue to keep these positions. We continue to proactively manage our tail risks through index hedges both at sector and portfolio levels as well as single stock options which has helped to limit the downside risks.

#### Outlook

Although we have been positioning ourselves more conservatively this year, we still hold a constructive view of China in the long-term and believe that the Party could still be flexible in making adjustments to balance pursuits of economic growth, national security and common prosperity. That said, this would not be without some short-term volatility. Taking into consideration the valuation level and investors' positionings recently, we do believe that the skew is more favorable to the upside going into the NPC. Hence we feel comfortable to take some of the hedges off preceding to the NPC to increase the net and add convexity to the portfolio while also maintaining a low gross to manage downside risks. We will continue to be balanced and objective in assessing these macro factors as they develop while staying disciplined in our investment process and risk management.

#### 1. Organisation

The Company was incorporated on 1 December 2009 as an open-ended investment company with variable capital organised under the laws of Ireland (registration number 478169) and has been authorised in Ireland by the Central Bank pursuant to the provisions of the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations, 2011 as amended, the Central Bank UCITS Regulations, and the Central Bank (Supervision and Enforcement) Act 2013 (Section 48(1)) (Undertakings for Collective Investment in Transferable Securities) Regulations 2019 (the "Central Bank UCITS Regulations"). The Company is structured as an umbrella fund consisting of different sub-funds, each comprising one or more share classes.

The Company has an appointed management company. As at 30 September 2022, the Company had no employees. The investment activities of UBS (Irl) Investor Selection - Currency Allocation Return Strategy are managed by UBS Asset Management Switzerland AG, UBS (Irl) Investor Selection - Equity Opportunity Long Short Fund and UBS (Irl) Investor Selection - Global Equity Long Short Fund are managed by UBS Asset Management (UK) Ltd., UBS Global Emerging Markets Opportunity Fund are managed by UBS Asset Management (Singapore) Ltd., A&Q Fundamental US Equity Long Short UCITS are managed by UBS Hedge Fund Solutions LLC and UBS (Irl) Investor Selection PLC - O'Connor China Long/Short Alpha Strategies UCITS are managed by UBS O'Connor LLC (the "Investment Manager"). The registered office of the Company is situated at Second Floor, 5 Earlsfort Terrace, Dublin 2, D02 CK83, Ireland.

A&Q Fundamental US Equity Long Short UCITS terminated on 28 February 2022. The sub-funds which were active at 30 September 2022 and approved by the Central Bank are as follows:

		Commencement of
Sub-fund Sub-fund	Launched on	operations
UBS (Irl) Investor Selection - Currency Allocation Return Strategy	30 June 2014	30 June 2014
UBS (Irl) Investor Selection - Equity Opportunity Long Short Fund	29 October 2010	29 October 2010
UBS (Irl) Investor Selection - Global Equity Long Short Fund	28 August 2012	28 August 2012
UBS Global Emerging Markets Opportunity Fund	1 January 2010	1 January 2010
UBS (Irl) Investor Selection PLC - O'Connor China Long/Short Alpha Strategies UCITS	10 September 2021	10 September 2021

#### 2. Significant accounting policies

#### (a) Statement of compliance

The financial statements are prepared in accordance with International Financial Reporting Standards ("IFRS") as adopted by the European Union ("EU"), interpretations adopted by the International Accounting Standards Board ("IASB") and Irish Statute comprising the UCITS Regulations, Central Bank UCITS Regulations and Companies Act 2014. Changes to significant accounting policies are described in Note 2 (d). The financial statements were authorised for issue on 23 January 2023.

#### (b) Basis of preparation

The financial statements of the Company are presented in United States Dollars ("USD") and rounded to the nearest USD. They are prepared on a fair value basis for financial assets and financial liabilities at fair value through profit or loss and derivative financial instruments. Other financial assets and financial liabilities are stated at amortised cost of redemption amount (redeemable participating shares).

#### Going concern

After making enquiries and considering relevant financial and other factors, including the termination of A&Q Fundamental US Equity Long Short UCITS, the Directors have a reasonable expectation that the Company and its active sub-funds have adequate resources to continue in operational existence for the foreseeable future. Furthermore, the management is not aware of any material uncertainties that may cast doubt upon the Company's and the active sub-fund's ability to continue as a going concern. Therefore, the financial statements continue to be prepared on a going concern basis.

#### Use of judgments and estimates

The preparation of financial statements, in conformity with IFRS as adopted by the EU, requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of income, expenses, assets and liabilities. The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances, the results of which form the basis of making the judgements about the carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates.

#### 2. Significant accounting policies (continued)

#### (b) Basis of preparation (continued)

*Use of judgments and estimates (continued)* 

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period or in the period and future periods if the revision affects both current and future periods. Information about assumptions and estimation uncertainties that have a significant risk of resulting in a material adjustment within the next financial year, as well as critical judgements in applying accounting policies that have the most significant effect on the amounts recognised in the financial statements are included in Notes 6 and 9.

#### (c) Foreign currency translation

Functional currency is the currency of the primary economic environment in which the Company operates. If indicators of the primary economic environment are mixed, then management uses its judgement to determine the functional currency that most faithfully represents the economic effect of the underlying transactions, events and conditions. The majority of the Company's investments and transactions are denominated in USD. Investor subscriptions and redemptions are determined based on net asset value ("NAV"), and received and paid in the currency of the sub-fund. The expenses (including management fees, depositary fees and administration fees) are denominated and paid in USD. Accordingly, management has determined that the functional currency of the Company is USD.

Transactions in foreign currencies are translated into the reporting currency at exchange rates at the dates of the transactions. For practical reasons, a rate that approximates the actual rate at the date of the transaction is often used, for example, an average rate might be used for all transactions in each foreign currency occurring during the year. However, if exchange rates fluctuate significantly, the use of the average rate for the year will be inappropriate. Monetary assets and liabilities denominated in foreign currencies at the reporting date are retranslated to the functional currency at the exchange rate at that date. Foreign currency exchange differences arising on translation and realised gains and losses on disposals or settlements of monetary assets and liabilities are recognised in the Statement of Comprehensive Income. Non-monetary assets and liabilities denominated in foreign currencies that are measured at fair value are translated to USD at the exchange rate at the date that the fair value was determined. For income and expenses that are recognised in the Statement of Comprehensive Income, the use of average exchange rate is permitted under IFRS if they are a reasonable approximation of the actual exchange rates. Foreign currency exchange differences relating to investments at fair value through profit and loss and derivative financial instruments are included in the net loss on foreign exchange.

The Company operates a number of sub-funds, each with its separately determined functional currency as stated below

	Functional Currency	Reporting Currency
UBS (Irl) Investor Selection PLC	USD	USD
UBS (Irl) Investor Selection - Currency Allocation Return Strategy	GBP	GBP
UBS (Irl) Investor Selection - Equity Opportunity Long Short Fund	EUR	EUR
UBS (Irl) Investor Selection - Global Equity Long Short Fund	EUR	EUR
UBS Global Emerging Markets Opportunity Fund	USD	USD
A&Q Fundamental US Equity Long Short UCITS	USD	USD
UBS (Irl) Investor Selection PLC - O'Connor China Long/Short Alpha Strategies UCITS	USD	USD

The financial statements of each sub-fund are presented in the currency that it is primarily exposed to with the Company financial statements being presented in USD. The difference arising from translation of the primary statements at different exchange rates, for the purpose of producing the financial statements of the Company, is included as a foreign currency translation adjustment in total other comprehensive gain in the Statement of Changes in Net Assets Attributable to Holders of Redeemable Participating Shares.

The following exchange rates were used for the conversion of the consolidated financial statements into USD as at 30 September 2022 and 30 September 2021:

	Closing	Rates	Average Rates		
	30 September 2022	30 September 2021	30 September 2022	30 September 2021	
GBP	1.1163	1.3484	1.2801	1.3690	
FUR	0.9797	1 1590	1 0841	1 1952	

#### 2. Significant accounting policies (continued)

#### (d) New Standards, amendments and interpretations

There are no new standards, interpretations or amendments to existing standards that are effective for the period beginning on or after 30 September 2022, that would have had a material impact on these financial statements.

The following new standards, amendments to standards and interpretations that are issued, but not yet effective, up to the date of issuance of the Company's financial statements are disclosed below:

StandardsNarrativeEffective date\*Amendments to IAS 1Classification1 January 2024Amendments to IAS 8Definition of Accounting Estimates1 January 2024

These amendments are not expected to have a material impact on the Company's financial statements.

There are no other standards, interpretations or amendments to existing standards that are not yet effective that would be expected to have a significant impact on the Company.

#### (e) Financial instruments

#### (i) Classification

On initial recognition, the Company classifies financial assets as measured at amortised cost or fair value through profit or loss ("FVTPL"). A financial asset is measured at amortised cost if it meets both of the following conditions and is not designated as at FVTPL:

- it is held within a business model whose objective is to hold assets to collect contractual cash flows; and
- its contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest ("SPPI").

All other financial assets and financial liabilities of the Company are measured at FVTPL including transferable securities, derivative financial assets and derivative liabilities.

#### Business model assessment

In making an assessment of the objective of the business model in which a financial asset is held, the Company considers all of the relevant information about how the business is managed, including:

- The documented investment strategy and the execution of this strategy in practice. This includes whether the
  investment strategy focuses on earning contractual interest income, maintaining a particular interest rate profile,
  matching the duration of the financial assets to the duration of any related liabilities or expected cash outflows
  or realising cash flows through the sale of the assets;
- How the performance of the portfolio is evaluated and reported to the Company's management;
- The risks that affect the performance of the business model (and the financial assets held within that business model) and how those risks are managed;
- How the Investment Manager is compensated: e.g. whether compensation is based on the fair value of the assets managed or the contractual cash flows collected; and
- The frequency, volume and timing of sales of financial assets in prior periods, the reasons for such sales and expectations about future sales activity.

<sup>\*</sup>Annual periods beginning on or after.

#### 2. Significant accounting policies (continued)

- (e) Financial instruments (continued)
  - (i) Classification (continued)

Business model assessment (continued)

The Company has determined that it has two business models.

- Held-to-collect business model: this includes interest and dividend receivables, due from brokers, deposits with credit institutions and other receivables. These financial assets are held to collect contractual cash flows.
- Other business model: this includes transferable securities and derivatives. These financial assets are managed and their performance is evaluated, on a fair value basis, with frequent sales taking place.

Assessment whether contractual cash flows are SPPI

For the purpose of this assessment, 'principal' is defined as the fair value of the financial asset on initial recognition.

'Interest' is defined as consideration for the time value of money and for the credit risk associated with the principal amount outstanding during a particular period of time and for other basic lending risks and costs (e.g. liquidity risk and administrative costs), as well as a profit margin.

In assessing whether the contractual cash flows are SPPI, the Company considers the contractual terms of the instrument. This includes assessing whether the financial asset contains a contractual term that could change the timing or amount of contractual cash flows such that it would not meet this condition. In making this assessment, the Company considers:

- Contingent events that would change the amount or timing of cash flows;
- Leverage features;
- Prepayment and extension features;
- Terms that limit the Company's claim to cash flows from specified assets (e.g. non-recourse features); and
- Features that modify consideration of the time value of money (e.g. periodical reset of interest rates).

The Company has determined that the only financial assets classified at amortised cost are cash and cash equivalents due to the related contractual cashflows being solely payments of principal and interest.

#### Reclassifications

Financial assets are not reclassified subsequent to their initial recognition unless the Company were to change its business model for managing financial assets, in which case all affected financial assets would be reclassified on the first day of the first reporting period following the change in the business model.

The Company is primarily focused on fair value information and uses that information to assess the assets' performance and to make decisions. The contractual cash flows of the Company's debt securities are solely principle and interest, however, these securities are neither held for the purpose of collecting contractual cash flows nor held both for collecting contractual cash flows and for sale. Consequently, all investments are measured at fair value through profit or loss.

Derivative contracts that have a negative fair value are presented as liabilities at fair value through profit or loss.

The Company's policy requires the Investment Manager and the Board of Directors to evaluate the information about these financial assets and financial liabilities on a fair value basis with other related financial information.

#### (ii) Recognition

The Company recognised financial assets and financial liabilities on the date it becomes a party to the contractual provisions of the instruments. Transactions are recognised using trade date accounting. From this date any gains and losses arising from changes in fair value of the financial assets or liabilities are recorded.

#### 2. Significant accounting policies (continued)

#### (e) Financial instruments (continued)

#### (iii) Measurement

Financial instruments are measured initially at fair value (transaction price). Transaction costs on financial assets and financial liabilities at fair value through profit and loss are expensed immediately to the Statement of Comprehensive Income.

Subsequent to initial recognition, all instruments classified at fair value through profit or loss are measured at fair value with changes in their fair value recognised in the Statement of Comprehensive Income. Financial assets classified as receivables are carried at amortised cost using the effective interest rate method, less impairment losses, if any. Financial liabilities, other than those at fair value through profit or loss, are measured at amortised cost using the effective interest rate method. Financial liabilities arising from the redeemable participating shares issued by the Company are carried at the redemption amount representing the investors' right to a residual interest in the Company's assets.

The fair value of financial assets and financial liabilities that are not traded in an active market is determined by using valuation techniques. The Company uses a variety of methods and makes assumptions that are based on market conditions existing at each reporting date.

Valuation techniques used for non-standardised financial instruments such as OTC options and forwards, include the use of comparable recent arm's length transactions, reference to other instruments that are substantially the same, discounted cash flow analysis, option pricing models and other valuation techniques commonly used by market participants making the maximum use of market inputs and relying as little as possible on entity-specific inputs.

#### (iv) Fair value measurement principles

The fair value of financial instruments is based on their quoted market prices at the reporting date without any deduction for estimated future selling costs. Financial assets and liabilities are priced at current mid-price.

Unlisted financial assets and financial liabilities (or traded on any stock exchange or over-the-counter market) are valued at their fair value estimated with care and in good faith by a stockbroker or other competent person, such as the Administrator, appointed by the Investment Manager and approved by the Depositary.

For certain other financial instruments, including amounts due from/to brokers, accounts payable and accrued expenses, the carrying amounts approximate fair value due to the immediate or short-term nature of these financial instruments.

The carrying amounts of the financial assets and financial liabilities not classified as FVTPL at the reporting date approximated their fair values.

#### (v) Derecognition

The Company derecognises a financial asset when the contractual rights to the cash flows from the financial asset expire or are extinguished or it transfers the financial asset and the transfer qualifies for derecognition in accordance with IFRS 9, *Financial Instruments* ("IFRS 9").

The Company uses the first in first out (the "FIFO") method to determine realised gains and losses on derecognition.

A financial liability is derecognised when the Company's obligation specified in the contract is discharged, cancelled or the obligation expires.

#### 2. Significant accounting policies (continued)

- (e) Financial instruments (continued)
  - (vi) Specific instruments

#### **Forwards**

Forwards are commitments either to purchase or sell a designated financial instrument or currency amount at a specified future date for a specified price. Forwards may be settled in cash or in another financial asset. Forwards are individually traded over-the-counter contracts. Forwards result in credit exposure to the counterparty to the extent that the counterparty does not meet its obligations under the contract.

Forwards result in exposure to market risk based on changes in market prices relative to contracted amounts. Market risks arise due to the possible movement in foreign currency exchange rates and securities' values underlying these instruments. In addition, due to the low margin deposits normally required in relation to nominal contract sizes, a high degree of leverage may be typical of a forward trading account. As a result, a relatively small price/rate movement in the underlying security/currency of a forward may result in substantial losses to the Company.

Nominal amounts are the underlying reference amounts to foreign currencies upon which the fair value of the forward contracts traded by the Company are based. While nominal amounts do not represent the current fair value and are not necessarily indicative of the future cash flows of the forwards, the underlying price changes in relation to the variables specified by the nominal amounts affect the fair value of these derivative financial instruments.

#### Equity swaps

Equity swaps allow a direct exposure to the market, to a sector or to an individual security. Swaps have a fixed maturity and naturally expire once the maturity reaches. However, the parties involved in a swap transaction may also terminate the contract before its expiry. Equity swaps are used to gain exposure to share price movements without buying the shares themselves. An equity swap on a company's shares will specify the price of the shares when the contract commences. The swap contract is an agreement to pay out cash on the difference between the starting share price and when the swap contract is closed.

Daily fluctuations in the value of a swap contract are recorded for financial reporting purposes as unrealised gains or losses and are recorded as a realised gain or loss when the position is closed.

#### Options

Premiums received on written call and put options are recorded as a liability and the premiums paid on the purchase of call and put options are recorded as an asset at inception. The fair values of unexpired option contracts are based upon the quoted market value of the option. Realised, and the change in unrealised, gains and losses are included in the Statement of Comprehensive Income. Premiums received from writing options and premiums paid on purchased options that expire unexercised are recognised as realised gains and realised losses, respectively within financial assets and liabilities at fair value through profit or loss.

#### **Futures**

Futures are commitments either to purchase or to sell a designated financial instrument or currency at a specified future date for a specified price and may be settled in cash or another financial asset. Futures are standardised exchange-traded contracts. Initial margin requirements for futures are met in cash or other instruments, and changes in the futures contract values are settled daily. Futures contracts have little credit risk as counterparties are futures exchanges.

Futures result in exposure to market risk based on market prices relative to contracted amounts. In addition, due to the low margin deposits normally required in relation to nominal contract sizes, a high degree of leverage may be typical of a futures trading account. As a result, a relatively small price movement in the underlying security of a futures contract may result in substantial losses to the Company. Certain futures exchanges do not permit trading in particular futures contracts at prices that represent a fluctuation in price during a single day's trading beyond certain set limits. If prices fluctuate during a single day's trading beyond those limits, the Company could be prevented from promptly liquidating unfavourable positions and thus could be subject to substantial losses.

The changes in value of open future contracts are recognised as unrealised gains or losses by marking-to-market the value of the contract at the reporting date. When the contract is closed, the difference between the proceeds from (or cost of) the closing transactions and the original transaction is recorded in the Statement of Comprehensive Income.

#### 2. Significant accounting policies (continued)

- (e) Financial instruments (continued)
  - (vi) Specific instruments (continued)

#### **Swaps**

Credit default swaps are contracts in which the Company pays or receives premium flows in return for the counterparty accepting or selling all or part of the risk of default or failure to pay off a reference entity for which the swap is written, where the Company has bought protection the maximum potential loss is the value of the premium flows the Company is contracted to pay until maturity of the contract.

Where the Company has sold protection the maximum potential loss is the nominal value of the protection sold.

Interest rate swaps are contracts in which the Company exchanges interest rate cash flows for cash flows based on the return of a fixed income instrument, a securities index or another stream of cash flows.

These contracts allow the Company to manage its interest rate exposures. Interest rate swap returns are based on the movement of interest rates relative to a specified alternative as per the contract.

All swap contracts are stated at market value. The net income or expense in the swap agreements entered into by the Company is reflected in the Statement of Comprehensive Income. The unrealised gain or loss is reported as an asset or liability and changes in the market value are reflected in the Statement of Comprehensive Income in the year in which they occur.

#### Contracts for difference

Contracts for difference allow a direct exposure to the market, a sector or an individual security. Unlike a forward contract, there is no final maturity, the position being closed out at the discretion of the position taker. Contracts for difference are used to gain exposure to share price movements without buying the shares themselves. A contract for difference on a company's shares will specify the price of the shares when the contract was started. The contract is an agreement to pay out cash on the difference between the starting share price and when the contract is closed. Daily fluctuations in the value of a swap contract are recorded for financial reporting purposes as unrealised gains or losses and are recorded as a realised gain or loss when the position is closed.

#### Warrants

Warrants are options to purchase additional securities from the issuer at a specified price during a specified period. Warrants are sometimes used to gain exposure to emerging market equities where custody, liquidity, or other issues make ownership of local shares sub-optimal. Risks associated with the use of warrants are generally similar to risks associated with the use of purchased options. However, warrants do not have standardised terms, and may have longer maturities and may be less liquid than exchange-traded options. In addition, the terms of warrants may limit the Company's ability to exercise the warrants at such times and in such quantities as the Company would otherwise wish. Warrants are measured at fair value through profit or loss and are designated as financial assets or financial liabilities at fair value through profit or loss.

#### (f) Interest income and expense

Interest income and expense on financial instruments at amortised cost is calculated using the effective interest rate method. The effective interest rate is the rate that exactly discounts the estimated future cash payments and receipts through the expected life of the financial asset or financial liability (or, where appropriate, a shorter year) to the carrying amount of the financial asset or financial liability. When calculating the effective interest rate, the Company estimates future cash flows considering all contractual terms of the financial asset, future credit losses are not considered.

The calculation of the effective interest rate includes all fees and points paid or received that are an integral part of the effective interest rate. Transaction costs include incremental costs that are directly attributable to the acquisition or issue of a financial asset or financial liability.

Interest income and expense includes interest on cash and cash equivalents and on financial assets and financial liabilities.

#### 2. Significant accounting policies (continued)

(g) Gains and losses on financial assets and financial liabilities at fair value through profit or loss

Gains and losses on financial instruments at fair value through profit or loss include all realised gains/(losses) on transferable securities and derivative financial instruments, and unrealised gains/(losses) from fair value changes and foreign exchange differences. Realised gains and losses are based on the FIFO method.

#### (h) Transaction costs

Transaction costs are incremental costs that are directly attributable to the acquisition, issue or disposal of a financial asset or a financial liability.

An incremental cost is one that would not have been incurred if the entity had not acquired, issued or disposed of the financial instrument. When a financial asset or financial liability is recognised initially, the Company shall measure the instrument at its fair value through profit or loss plus transaction costs that are directly attributable to the acquisition or issue of the financial asset or financial liability.

Transaction costs on the purchase and sale of bonds, forwards and swaps are included in the purchase and sale price of the investment. Transaction costs cannot be practically or reliably estimated as they are embedded in the price of the investment and cannot be separately verified or disclosed.

Transaction costs on purchases and sales of equities, options and futures are included in net gain on financial assets and financial liabilities at fair value through profit or loss in the Statement of Comprehensive Income.

Custody transaction costs are separately identifiable transaction costs. The amounts incurred by each sub-fund during the year are disclosed in Note 15.

#### (i) Expenses

All expenses, including management fees, depositary fees, interest expense, bank charges, tax expenses and general and operating expenses are recognised in the Statement of Comprehensive Income on an accrual basis. Other fees include general and operating expenses, bank charges, miscellaneous expenses, commission expenses, depositary fees and tax expenses.

#### (j) NAV per share

NAV per share at year-end is calculated by dividing the NAV of the relevant class in each sub-fund at year-end by the number of redeemable participating shares of the relevant class in issue as at the year-end.

#### (k) Cash and cash equivalents

Cash comprises current deposits with banks. Cash equivalents are short-term highly liquid investments that are readily convertible to known amounts of cash, are subject to an insignificant risk of changes in value, and are held for the purpose of meeting short-term cash commitments rather than for investment or other purposes.

#### (l) Balance due from/(to) brokers

In accordance with the Company's policy of trade date accounting for regular way sale and purchase transactions, sales/purchases awaiting settlement represent amounts receivable/payable for securities sold/purchased but not yet settled as at the Statement of Financial Position date. Due from/(to) broker accounts include the settlement amounts and all of the collateral amounts.

#### 2. Significant accounting policies (continued)

#### (m) Foreign exchange gains and losses

Foreign exchange gains and losses on financial assets and financial liabilities at fair value through profit or loss are recognised together with other changes in the fair value in the Statement of Comprehensive Income. Included in the net loss on foreign exchange in the Statement of Comprehensive Income are net foreign exchange gains and losses on monetary financial assets and financial liabilities other than those classified at fair value through profit or loss. Foreign exchange differences arising on translation of the sub-funds' financial statements for the purpose of preparing the Company's financial statements are recognised in Other Comprehensive Income.

#### (n) Dividend income and expense

Dividend income and dividend expense are recorded on the ex-dividend date. Dividend income is recognised on a gross basis, before withholding tax.

#### (o) Distribution policy

Shares of a sub-fund may be issued as accumulating shares or distributing shares. The dividend policy and information on the declaration and payment of dividends for each sub-fund will be specified in the relevant supplement. The Constitution of the Company gives the Directors the right to declare dividends in respect of any Shares in the Company out of the net income of the relevant sub-fund (whether in the form of dividends, interests or otherwise) and/or net realised gains (i.e. realised gains net of realised and unrealised losses) or net realised and unrealised gains (i.e. realised and unrealised losses) subject to certain adjustments.

#### (p) Redeemable participating shares

All redeemable participating shares issued by the Company provide the investors with the right to require redemption for cash at the value proportionate to the investor's share in the Company's net assets at the redemption date. In accordance with IAS 32, *Financial Instruments: Presentation* ("IAS 32") such instruments give rise to a financial liability for the present value of the redemption amount.

Applications for Shares may be made through the Administrator on behalf of the Company. Applications received and accepted by the Administrator prior to the subscription deadline for the relevant subscription day will be processed on that subscription day. Shareholders may redeem their shares on and with effect from any Redemption Day at the NAV per share calculated on or with respect to the relevant Redemption Day as described in the Prospectus. Subject to certain exceptions in relation to certain switches of shares from one class to another class in the same sub-fund, switching will generally amount to a disposal of the original shares for tax purposes and accordingly, a chargeable gain or an allowable loss may be realised.

#### (q) Offsetting

Financial assets and financial liabilities are offset and the net amount presented in the Statement of Financial Position when and only when, the Company has legal right to offset the amounts and it intends either to settle on a net basis or to realise the asset and settle the liability simultaneously.

Income and expenses are presented on a net basis only when permitted under IFRS as adopted by the EU, e.g. for gains and losses arising from a group of similar transactions, such as gains and losses from financial instruments at fair value through profit or loss.

#### (r) Anti-dilution measures

The Company may use "swing pricing" as the method to adjust the price of shares to minimise the impact of "dilution" on Shareholders' interests. Dilution occurs when the cost of purchasing or selling the assets of the Company is greater than the value of these assets due to taxes, dealing charges or any spread between the buying and selling prices of these assets. If the aggregate subscriptions and redemptions exceed a threshold then the NAV used to process all deals in the Company (or a sub-fund) is adjusted to reflect by a swing factor. The swing factor, which shall not exceed 2%, and the threshold are set by the Directors and/or the Investment Manager.

#### 2. Significant accounting policies (continued)

#### (r) Anti-dilution measures (continued)

For the purpose of calculating any expenses of the Company (or a sub-fund) which are based on the NAV of the Company (or a relevant sub-fund), the Administrator will continue to use the un-swung NAV.

The anti-dilution levy ("ADL") is booked onto each sub-fund every time there are net flows which exceed the threshold. All capital activity is booked onto each sub-fund using un-swung NAV and all capital is booked on the transfer agent's system with swung information. The ADL is booked onto each sub-fund to make up the difference in the cash settlement of the capital trade and is booked as positive income to each sub-fund depending on net flows. The ADL is booked into each sub-fund the same time the capital trades are booked.

#### (s) Taxation

The Company is an investment undertaking as defined in section 739B of the Taxes Consolidation Act, 1997. Therefore, the Company is not liable to tax in respect of its income and gains, other than on the occurrence of a chargeable event.

Generally, a chargeable event arises on redemption, repurchase, cancellation, transfer of shares or on the ending of a 'Relevant Period'. A 'Relevant Period' is an eight year period beginning with the acquisition of the shares by the Shareholder and each subsequent period of eight years beginning immediately after the preceding Relevant Period.

A gain on a chargeable event does not arise in respect of:

- An exchange by a shareholder, effected by way of an arm's length bargain where no payment is made to the shareholder, of shares in the Company for other shares in the Company;
- Any transactions (which might otherwise be considered a chargeable event) in relation to shares held in a recognised clearing system as designated by order of the Irish Revenue Commissioners;
- A transfer by a shareholder of the entitlement to shares where the transfer is between spouses and former spouses, subject to certain conditions; or
- An exchange of shares arising on a qualifying amalgamation or reconstruction (within the meaning of Section 739H of the Taxes Act) of the Company with another investment undertaking.

In the absence of an appropriate declaration, the Company will be liable to Irish tax on the occurrence of a chargeable event. Capital gains, dividends and interest received may be subject to withholding taxes imposed by the country of origin and such taxes may not be recoverable by the Company or its shareholders.

#### (t) Hedge classes

For the benefit of holders of classes of shares that are denominated in a currency other than the base currency, the Investment Manager may, but is not obliged to, seek, through the use of forwards and/or futures, to hedge the foreign exchange exposure arising as a result of fluctuations between the denominated currency of the class and the base currency. Hedged positions will be kept under review to ensure that over hedged positions do not exceed 105% of the NAV of the class. This review will also incorporate a procedure to ensure that positions in excess of 100% will not be carried forward from month to month.

Any financial instruments used to implement such strategies with respect to one or more classes shall be assets/liabilities of a sub-fund as a whole but will be attributable to the relevant class(es) and the gains/(losses) on the relevant financial instrument and the costs of the relevant financial instruments will accrue solely to the relevant class. Where a class of shares is to be hedged this will be disclosed in the supplement for the sub-fund in which such class is issued. Any currency exposure of a class may not be combined with or offset against that of any other class of a sub-fund. The currency exposure of the assets attributable to a class may not be allocated to other classes. Hedge classes are currently operational in the UBS (Irl) Investor Selection - Currency Allocation Return Strategy and UBS (Irl) Investor Selection - Equity Opportunity Long Short Fund sub-funds.

Investors should also note that, to the extent that hedging is successful, the performance of the class is likely to move in line with the performance of the underlying assets and that investors in a hedged class will not benefit if the class currency falls against the base currency and/or the currency in which the assets of the Company are denominated and that this hedging strategy may substantially limit holders of these shares from benefiting if the base currency falls against the denominated currency of the class. Each sub-fund's currency hedging policy is set out in the relevant supplement of the Prospectus.

#### 3. Interest income and expense

#### 6. Fair value estimation

The following tables provide an analysis of financial instruments measured at fair value at the reporting date by the level in the fair value hierarchy into which each financial instruments' fair value measurement is categorised. The amounts are based on the values recognised in the Statement of Financial Position. All fair value measurements noted are recurring.

The fair value hierarchy is as follows:

- Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities;
- Level 2: inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (i.e., as prices) or indirectly (i.e., derived from prices);
- Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

The level in the fair value hierarchy within which the fair value measurement of an instrument is categorised in its entirety is determined on the basis of the lowest level input, 1 being the highest level that is significant to the fair value measurement of that instrument in its entirety. For this purpose, the significance of an input is assessed against the fair value measurement in its entirety. If a fair value measurement uses observable inputs that require significant adjustment based on unobservable inputs, that measurement is a level 3 measurement. Assessing the significance of a particular input to the fair value measurement in its entirety requires judgement, considering factors specific to the asset or liability.

The determination of what constitutes 'observable' requires significant judgement by the Company. The Company considers observable data to be that market data that is readily available, regularly distributed or updated, reliable and verifiable, not proprietary, and provided by independent sources that are actively involved in the relevant market.

Investments, whose values are based on quoted market prices in active markets, and therefore classified within level 1, include active listed equities, exchange traded derivatives, warrants, US government treasury bills and certain non-US sovereign obligations. Quoted market prices are primarily sourced from market leading financial data vendors. The Company does not adjust the quoted price for these instruments.

Financial instruments that trade in markets that are not considered to be active but are valued based on quoted market prices, dealer quotations or alternative pricing sources supported by observable inputs are classified within level 2. These include fund of funds investments, collective investment schemes, investment-grade convertible bonds and certain non-US sovereign obligations, and over-the-counter derivatives. As level 2 investments include positions that are not traded in active markets and/or are subject to transfer restrictions, valuations may be adjusted to reflect illiquidity and/or non-transferability, which are generally based on available market information.

The Company's level 2 investments primarily include forwards and equity swaps which are easily valued based on observable market data.

The following table presents the movement in the Company's level 3 instruments for the year ended 30 September 2022.

	Fair value measurement using Level 3 Inputs
	2022
	USD
Opening balance at the beginning of the year	-
Net transfer in	196,121,594
Change in unrealised depreciation	(196,121,594)
Closing balance at the end of the year	-

#### 6. Fair value estimation (continued)

During the year ended 30 September 2022 there were USD196,121,594 transfers in to level 3 investments. Transfers in to level 3 investments are related to the conflict in Ukraine. The Investment Manager took the decision to write down the positions transferred into level 3 to USD Nil in March 20222 due to the conflict and the essential shutting down of the Russian market.

As at 30 September 2021, the Company did not hold financial assets and financial liabilities classified as level 3 investments.

#### 7. Share capital

The authorised share capital of the Company is 500,000,000,000 shares of no par value and 300,000 redeemable non-participating shares of no par value. The minimum issued share capital of the Company is 2 redeemable non-participating shares of no par value. The 2 redeemable non-participating shares of no par value each are held by the Investment Manager. Non-participating shares do not entitle the holders to any dividends and on a winding up entitle the holders to receive the amount paid up thereon but do not otherwise entitle them to participate in the net assets of the Company.

The Company is a daily dealing fund therefore an investor can subscribe and/or redeem as they wish. Both the Company and the investor have an option to redeem shares. No premium is payable on the redemption of shares.

The Directors reserve the right to impose "an anti-dilution levy" representing a provision for market spreads (the difference between the prices at which assets are valued and/or bought or sold) and other dealing costs relating to the acquisition or disposal of assets and top reserve the value of the underlying assets of the sub-fund.

<sup>\*</sup>Investors with existing investment management mandates with a UBS group company or proprietary capital to a UBS AG group company.

There were new classes launched in UBS (Irl) Investor Selection - Equity Opportunity Long Short Fund and UBS (Irl) Investor Selection PLC - O'Connor China Long/Short Alpha Strategies UCITS during the year. UBS (Irl) Investor Selection - Equity Opportunity Long Short Fund and UBS Global Emerging Markets Opportunity Fund had classes which closed during the year.

The rights attaching to the redeemable participating shares issued in the Company or any class may, whether or not the Company is being wound up, be varied or abrogated with the consent in writing of the shareholders of three-quarters of the issued shares of the Company or the relevant class, or with the sanction of an ordinary resolution passed at a general meeting of the Shareholders of the Company or the relevant class.

The rights attaching to the shares shall not be deemed to be varied by the creation, allotment or issue of any further shares ranking pari passu with shares already in issue.

Redeemable participating shares may be redeemed on redemption days as set out in the Prospectus and will be redeemed at the NAV per share quoted on that day, calculated in accordance with the Prospectus.

## 8. Cash and cash equivalents and balances due from/to brokers

Balances due from/to brokers as at 30 September 2022 are held with JP Morgan, Bank of America Merrill Lynch, Goldman Sachs International and Morgan Stanley (2021: JP Morgan, Bank of America Merrill Lynch, Goldman Sachs International and Morgan Stanley) (excluding negligible balances), the balances also relate to security transactions that have not yet settled as at the reporting date.

<sup>\*\*</sup>The fee of the Investment Manager, the Manager, the Depositary and the Administrator together with all custody and transaction costs, auditors' fees, legal fees, registration fees and Directors' fees.

## 8. Cash and cash equivalents and balances due from/to brokers (continued)

The credit ratings of the banks as classified by Moody's are as follows: J.P. Morgan (Aa1) (2021: Aa1), UBS AG (Aa2) (2021: Aa2), Morgan Stanley (A1) (2021: A1), Bank of America Merrill Lynch (A2) (2021: A2), Goldman Sachs International (A1) (2021: A2) and Bank of New York Mellon (Aa1) (2021: Aa2). There are no restrictions on the cash and cash equivalents amounts held with these brokers.

#### 9. Financial instruments and associated risks

The Company maintains positions in a variety of derivative and non-derivative financial instruments as dictated by its investment management strategy.

The Company's investing activities expose it to various types of risk that are associated with the financial instruments and markets in which it invests. The most significant types of financial risk to which the Company is exposed are market risk, credit risk, liquidity risk and operational risk.

The Company employs derivative financial techniques and instruments for the purposes of investment and/or efficient portfolio management subject to the limits laid down by the Central Bank and subject to the terms of the supplement for the relevant sub-fund. These derivative financial techniques and instruments may include, but are not limited to, warrants, exchange traded futures and options, forwards and swap agreements.

The Manager uses a risk management process to measure, monitor and manage risks attached to the derivative financial positions and details of this process have been provided to the Central Bank.

The Manager employs a risk management process which enables it to measure, monitor and manage the risks within the sub-funds. The Company must calculate its global exposure on at least a daily basis. Global exposure is calculated using VaR for UBS (Irl) Investor Selection - Currency Allocation Return Strategy, UBS (Irl) Investor Selection - Equity Opportunity Long Short Fund, UBS (Irl) Investor Selection - Global Equity Long Short Fund, A&Q Fundamental US Equity Long Short UCITS and UBS (Irl) Investor Selection PLC - O'Connor China Long/Short Alpha Strategies UCITS. Global exposure is calculated using the commitment approach for the UBS Global Emerging Markets Opportunity Fund. Any techniques or instruments including repurchase agreements which are used by the sub-funds to generate additional leverage or exposure to market risk are taken into account when calculating the global exposure of the sub-fund. Leverage is calculated using the sum of the notionals of the derivatives used by the sub-fund. Through regular monitoring and review of risks related to the specific sub-funds, the Manager aims to quantify and analyse the current risk against the expected risk profile of the portfolio and performance targets of the sub-funds. Methods of measuring risk include, but are not limited to, VaR analysis, stress testing, sensitivity measures, leverage and relative risk. An ex-ante tracking error model is also used by the Manager to control risk. All sub-funds remain within the allotted parameters.

The Board of Directors issues a risk management statement (Derivative Financial Instrument Report) to the Central Bank on an annual basis.

Asset allocation is determined by the Company's Investment Manager who manages the distribution of the assets to achieve the investment objectives. Divergence from target asset allocations and the composition of the portfolio is monitored by the Company's Investment Manager. The nature and extent of the financial instruments outstanding at the reporting date and the risk management policies employed by the Company are discussed below. However these are not all the risks involved. Investors should refer to the Prospectus to see the full list of risks.

### 9. Financial instruments and associated risks (continued)

#### (a) Market risk

Market risk is the risk that changes in currency risk, price risk and interest rates risk will affect the positions held by the Company.

The Company is exposed to market risk on investments in that the Company may not be able to readily dispose of its holdings when it chooses and also that the price obtained on disposal is below that at which the investment is included in the Company's financial statements. All trading financial instruments are recognised at fair value through profit or loss and all changes in market conditions directly affect net income.

The Investment Manager uses derivative financial instruments which may give rise to leverage within the portfolio, subject to the limits set out in the Prospectus, to increase the potential overall return on capital. Leverage may be created through the use of derivative financial instruments, subject to UCITS Regulations. The leverage created through the use of derivative financial instruments will be measured using either the commitment approach or VaR depending on the risk profile of the strategies pursued by each sub-fund.

The commitment approach calculates leverage by measuring the market value of the underlying exposures of derivative financial instruments. An overall risk monitoring structure is in place which sets risk and leverage limits for the Company, and prescribes action to be taken upon these limits being breached.

In pursuing each sub-fund's investment objectives, the Investment Manager seeks to allocate risk capital in the most appropriate way, given prevailing market opportunities, in order to achieve the desired compensation for the risk capital being expended.

Risk management is therefore at the forefront in setting investment strategy. Before entering into an investment, the Investment Manager will always take note of the investment's market price. Price is a required data point in assessing attractiveness. Similarly, the attractiveness of an investment cannot be estimated without a thorough analysis of the investment's potential risk.

Efficient risk capital allocation involves expending appropriate amounts of a Company's risk budget when it is desirable to do so in response to conditions in the market environment. It also involves separating and diversifying the decision dimensions available to the Investment Manager. The output of the Company's risk capital allocation system parallels investment decision-making by embodying and visually representing these characteristics.

The Investment Manager is able to use the risk capital allocation system to test and evaluate potential changes to investment strategy.

#### Currency risk

The Company may invest in financial instruments and enter into transactions denominated in currencies other than its functional currency. Consequently, the Company is exposed to risks that the exchange rate of its currency relative to other foreign currencies may change in a manner that has an adverse effect on the value of that portion of the Company's assets or liabilities denominated in currencies other than the functional currency.

The Company's foreign currency exchange rate risk is managed on a daily basis by the Investment Manager.

The Company may employ strategies aimed at hedging against currency risk at the class level. When the Company enters into such currency transactions as part of the sub-fund's investment policy, the hedging transactions at the share class level will be considered distinct from the tactical currency transactions of the relevant sub-fund.

## 9. Financial instruments and associated risks (continued)

#### (a) Market risk (continued)

### **Currency** risk (continued)

The Investment Manager may utilise hedging strategies in order to hedge the exposure of classes that are denominated in currencies other than the base currency of the relevant sub-fund. The hedging will typically be undertaken by means of forwards but may also include currency options.

The following tables set out the Company's total exposure to foreign currency risk and the net exposure to foreign currencies of monetary assets and monetary liabilities. Amounts in the above table are based on the carrying value of monetary assets and monetary liabilities.

## Sensitivity analysis

As at 30 September 2022, had the base currency strengthened by 5% in relation to all currencies, with all other variables held constant, net assets attributable to holders of redeemable participating shares and the change in net assets attributable to holders of redeemable participating shares per the Statement of Comprehensive Income would have decreased by the amounts shown overleaf. Had the base currency weakened by 5% in relation to all other currencies it would have resulted in an equal but opposite effect. The analysis is performed on the same basis for 2021.

#### (a) Market risk (continued)

### Global Exposure

#### Risk management

Global exposure in accordance with the applicable laws and regulatory provisions, is calculated using either the commitment approach or the VaR approach. The VaR of each sub-fund's portfolio is the estimated loss that may arise on the portfolio over a specified period of time (holding period) from an adverse market movement within a specified probability (confidence level).

#### Leverage

Leverage is defined pursuant to the applicable ESMA directives as the total of the notional values of the derivatives used by the respective sub-fund. According to this definition, leverage may result in artificially increased leverage amounts, as some derivatives that can be used for hedging purposes may be included in the calculation. Consequently, this information does not necessarily reflect the precise actual leverage risk that the investor is exposed to.

### 9. Financial instruments and associated risks (continued)

(a) Market risk (continued)

**Global Exposure** (continued)

VaR models

When global exposure is monitored using a VaR model, the following inputs are used for the models:

VaR model	Confidence level	Time horizon	Length of data history
Monte Carlo VaR	99%	20 days	2 years
Historical VaR	99%	20 days	2 years

Although VaR is an important tool for measuring market risk, the assumptions on which the model is based give rise to some limitations, including the following:

- A 20-day holding period assumes that it is possible to hedge or dispose of positions within that period. This may not be the case for certain highly illiquid assets or in situations in which there is severe general market illiquidity.
- A 99% confidence level does not reflect losses that may occur beyond this level, meaning that within the model used there is a 1% probability that losses could exceed the VaR.
- VaR is calculated on an end-of-day basis and does not reflect exposures that may arise on positions during the trading day.
- The use of historical data as a basis for determining the possible range of future outcomes may not always cover all possible scenarios, especially those of an exceptional nature.
- The VaR measure is dependent on the sub-fund's position and the volatility of market prices.
- The VaR of an unchanged position reduces if market price volatility declines, and vice versa.

The overall structure of VaR limits is subject to review and approval by the board of directors. VaR is measured daily.

#### Price risk

Price risk is the risk that value of an instrument will fluctuate as a result of changes in market prices, whether caused by factors specific to an individual investment, its issuer or all factors affecting all instruments traded in the market.

Price risk is mitigated by the Company's Investment Manager by constructing a diversified portfolio of instruments traded on various markets. Details of price risk exposure and concentrations by geographical area contained in the Schedule of Investments.

The following tables detail the breakdown of the investment assets and liabilities held as a percentage of the NAV of the sub-funds.

Total net investments	85.95%	86.07%	85.59%	98.72%	86.03%	59.55%	93.52%

### Sensitivity analysis

A 5% increase in prices of the financial assets and financial liabilities at fair value through profit or loss as at 30 September 2022 and 30 September 2021 would have increased the net assets attributable to holders of redeemable participating shares and the change in net assets attributable to holders of redeemable participating shares in the following funds by:

30 September 2022	30 September 2021
GBP 38,527,883	GBP33,222,662
EUR 4,243,411	EUR5,822,627
EUR 2,224,449	EUR3,317,989
USD 86,005,872	USD142,890,044
USD Nil	USD1,767,284
USD 10,649,920	USD4,372,774
USD 146,000,706	USD204,419,395
	GBP 38,527,883 EUR 4,243,411 EUR 2,224,449 USD 86,005,872 USD Nil USD 10,649,920

An equal change in the opposite direction would have decreased the net assets attributable to holders of redeemable participating shares and the change in net assets attributable to holders of redeemable participating shares by an equal but opposite amount.

## Interest rate risk

Interest rate risk is the risk that the value of a financial instrument will fluctuate due to changes in market interest rates. The Company holds cash and cash equivalents and financial instruments that are interest earning and as a result the Company is subject to risk due to fluctuations in the prevailing levels of market interest rates in relation to this financial instrument.

The Company's hedging transactions using derivative instruments also involve the risk that unanticipated and significant changes in interest rates will cause a significant loss of basis in the contract. The counterparties to the Company's derivatives are financial institutions carefully selected by the Investment Manager.

The Company's interest rate risk is managed on a daily basis by the Investment Manager.

# 9. Financial instruments and associated risks (continued)

### (a) Market risk (continued)

## Interest rate risk (continued)

The following tables detail the Company's exposure to interest rate risks. This includes the Company's assets and trading liabilities at fair values, categorised by the earlier of contractual re-pricing or maturity date measured by the carrying value of the assets and liabilities:

## Sensitivity analysis

An increase of 100 basis points in interest rates as at the reporting date would have increased the net assets attributable to holders of redeemable participating shares and changes in net assets attributable to holders of redeemable participating shares by UBS (Irl) Investor Selection - Currency Allocation Return Strategy GBP8,278,996 (2021: GBP7,794,927), UBS (Irl) Investor Selection - Equity Opportunity Long Short Fund EUR254,718 (2021: EUR247,052), UBS (Irl) Investor Selection - Global Equity Long Short Fund EUR212,695 (2021: EUR106,895), UBS Global Emerging Markets Opportunity Fund USD975,871 (2021: USD532,220), A&Q Fundamental US Equity Long Short UCITS by USD75 (2021: USD410,743), UBS (Irl) Investor Selection PLC - O'Connor China Long/Short Alpha Strategies UCITS USD2,967,043 and UBS (Irl) Investor Selection PLC USD13,642,733 (2021: USD13,336,665). A decrease of 100 basis points would have had an equal but opposite effect.

(a) Market risk (continued)

Interest rate risk (continued)

Sensitivity analysis (continued)

Credit risk is the risk that the counterparty to a financial instrument will fail to discharge an obligation or commitment that it has entered into with the Company. Credit risk associated with trading and investing activities is managed through the Company's market risk management process discussed above.

The amount of credit exposure is represented by the carrying amounts of the assets in the Statement of Financial Position. Substantially all financial instruments are cleared through and/or held in custody by J.P. Morgan Bank (Ireland) plc, the Depositary. The Company is therefore subject to credit risk to the extent that the Depositary may be unable to fulfil its obligations either to return the Company's securities or repay amounts owed. Details of credit risk exposure and concentration are contained in the Schedule of Investments.

At the reporting date, the Company's financial assets exposed to credit risk amounted to the following:

Cash and cash equivalents Financial assets at fair value through profit or loss: Due from broker Subscriptions	UBS (Irl) Investor Selection - Currency Allocation Return Strategy GBP 47,205,818 844,915,102	UBS (Irl) Investor Selection - Equity Opportunity Long Short Fund EUR 24,688,142 85,094,911 46,951	UBS (Irl) Investor Selection Global Equity Long Short Fund EUR 21,966,254 45,111,715 1,166,159	30 September 2022  UBS Global Emerging Markets Opportunity Fund USD 99,073,090  1,720,117,430 10,778,744	A&Q Fundamental US Equity Long Short UCITS USD 77,656	UBS (Irl) Investor Selection PLC - O'Connor China Long/Short Alpha Strategies UCITS USD 90,553,706 219,961,838 734,432	UBS (Irl) Investor Selection PLC USD 288,105,286 3,010,814,918 12,701,600

Transferable securities in the above tables contain equities which are not directly subject to credit risk, which include UBS (Irl) Investor Selection - Equity Opportunity Long Short Fund EUR80,980,770 (2021: EUR112,581,579), UBS (Irl) Investor Selection - Global Equity Long Short Fund EUR44,530,362 (2021: EUR66,656,764), UBS Global Emerging Markets Opportunity Fund USD1,720,117,430 (2021: USD2,857,800,872) and A&Q Fundamental US Equity Long Short UCITS USDNIL (2021: USD9,193).

Substantially all of the assets held by the Company are held by J.P. Morgan Bank (Ireland) plc, the Depositary (the parent company J.P. Morgan Chase Bank N.A has a Credit rating of Aa1 at Moody's) (2021: Aa1). Bankruptcy or insolvency by J.P. Morgan Bank (Ireland) plc may cause the Company's rights with respect to the assets held by J.P. Morgan Bank (Ireland) plc to be delayed or limited. The Company monitors its risk by monitoring the credit ratings of J.P. Morgan Chase Bank N.A on a monthly basis, as reported by Standard and Poor's, Moody's or Fitch.

### 9. Financial instruments and associated risks (continued)

#### (b) Credit risk

The Company will be exposed to the credit risk of the Depositary or any depository used by the Depositary regarding the cash balances held in unsegregated accounts with same. In the event of insolvency or bankruptcy of the Depositary or any depository used by the Depositary, the Company will be treated as a general creditor.

The risk that counterparties to both derivative and other instruments might default on their obligations is monitored on an ongoing basis. To manage the level of credit risk, the Company deals with counterparties of good credit standing as per credit rating agencies such as Moody's.

The below table states the counterparties used by the Company and also states the collateral and collateral type held by counterparty for the sub-funds in relation to out of the money positions.

30 September 2022

Total Collateral			30,150,650

Offsetting and amounts subject to master netting agreements.

None of the financial assets and financial liabilities are offset in the Statement of Financial Position. The disclosures set out in the table below include the financial assets and financial liabilities that are subject to master netting arrangements.

The ISDA does not meet the criteria for offsetting in the Statement of Financial Position. This is because the Company and its counterparties do not intend to settle on a net basis or to realise the assets and settle the liabilities simultaneously.

The financial assets and financial liabilities in the below table are subject to offsetting, enforceable master netting arrangements and similar agreements:

30 September 2022		A Gross amounts of recognised financial assets/(liabilities)	B Gross amounts of recognised financial (liabilities)/ assets set-off in the statement of financial position	C = A-B  Net amounts of financial assets /(liabilities) presented in the statement of financial Position	Related amount the statement posit D (i) Financial Instruments	s not set-off in	E = C+D  Net amount

### (c) Liquidity risk

The Company's liquidity and cash flows are related to its market risks. Liquidity and cash flow risk may result from a significant decline in the market value of investments. The performance of the Company will therefore depend in part on the ability of the Investment Manager to anticipate and respond to such fluctuations in market interest rates and to utilise appropriate strategies to maximise returns while attempting to minimise the associated risks. The Company's Constitution provides for daily creation and cancellation of shares and it is therefore exposed to the liquidity risk associated with meeting shareholder redemptions at any time.

The Company invests in futures, options, and in a number of derivative financial instruments including but not limited to: credit default swaps, interest rate swaps, swaptions, currency swaps, total return swaps, forwards and warrants which are not exchange traded.

Financial liabilities of the Company comprise of investments in derivative financial instruments, redemptions payable, amounts due to broker, accounts payable and accrued expenses and net assets attributable to holders of redeemable participating shares. Investments in derivative financial instruments, redemptions payable, amounts due to broker, accounts payable and accrued expenses are typically settled within 30 days to 1 year from the transaction date.

The total NAV of the Company is considered to be a liability of the Company as investors may choose to redeem part or all of their outstanding shares at any time.

The total NAV of the Company is considered to be a liability of the Company as investors may choose to redeem part or all of their outstanding shares at any time.

The carrying value of liabilities is the same as the contractual cash flow being short term in nature (except for the liabilities at FVTPL).

### 9. Financial instruments and associated risks (continued)

#### (d) Operational risk (continued)

The primary responsibility for the development and implementation of controls over operational risk rests with the Board of Directors. This responsibility is supported by the development of overall standards for the management of operational risk, which encompasses the controls and processes at the service providers and the establishment of service levels with the service providers, in the following areas:

- requirements for appropriate segregation of duties between various functions, roles and responsibilities;
- requirements for the reconciliation and monitoring of transactions;
- compliance with regulatory and other legal requirements;
- documentation of controls and procedures;
- requirements for the periodic assessment of operational risk faced, and the adequacy of controls and procedures to address the risks identified;
- contingency plans;
- ethical and business standards; and
- risk mitigation, including insurance if this is effective.

The Directors' assessment over the adequacy of the controls and processes in place at the service providers with respect to operational risk is carried out via regular discussions with the service providers and a review of the service providers' SOC 1/ISAE 3402 reports on the internal controls, if available.

Substantially all of the assets of the Company are held by the Depositary. Bankruptcy or insolvency of the Company's Depositary may cause the Company's rights with respect to the securities held by the Depositary to be delayed or limited.

The Manager monitors credit ratings and the capital adequacy of its depositary and reviews the findings documented in the SOC 1/ISAE 3402 report on the internal controls annually.

The Company has provided the Depositary a general lien over the financial assets held in custody for the purpose of covering the exposure from providing depositary services. The general lien is part of the standard contractual terms of the custody agreement.

#### (e) Capital management

The Company is required to maintain a minimum capital requirement of EUR300,000, or its foreign currency equivalent. If redemptions or decreases in the value of the Company's investment portfolio cause the value of the share capital to fall below the equivalent of EUR300,000, the Board of Directors will make a decision to seek the termination of the Company, the return of assets to shareholders and the revocation of the Company's authorisation.

The Administrator will notify the Board of Directors if during any particular month, the NAV of the Company falls below this level. As soon as the Board of Directors becomes aware that the capital of the Company is below the required level, the Board of Directors will inform the Depositary and the Central Bank.

## (f) Leverage

The Company may be leveraged. The use of leverage creates special risks and may significantly increase the Company's investment risk. Leverage creates an opportunity for greater yield and total return but, at the same time, will increase the Company's exposure to capital risk and interest costs.

Any investment income and gains earned on investments made through the use of leverage that are in excess of the interest costs associated therewith may cause the NAV of the shares to increase more rapidly than would otherwise be the case. Conversely, where the associated interest costs are greater than such income and gains, the NAV of the shares may decrease more rapidly than would otherwise be the case.

#### 9. Financial instruments and associated risks (continued)

#### (g) Depositary

The Company has appointed J.P. Morgan Bank (Ireland) plc as Depositary of all of its assets pursuant to the custodian agreement.

In accordance with and subject to the depositary agreement, the Depositary provides safe custody for all the assets of the Company under the control of its custodial network. The Depositary will be obliged, inter alia, to ensure that the issue and repurchase of shares in the Company is carried out in accordance with the relevant legislation and the Articles of Association. The Depositary will carry out the instructions of the Company unless they conflict with the UCITS Regulations or the Articles of Association. The Depositary is also obliged to enquire into the conduct of the Company in each financial year and report thereon to the shareholders.

#### (h) Use of derivative instruments

Each sub-fund may invest in derivative instruments. The types and degrees of risk vary depending upon the characteristics of the particular instrument and the assets of a Company as a whole. Use of these instruments may entail investment exposures that are greater than their cost would suggest, meaning that a small investment in derivatives could have a large impact on a Company's performance.

#### (i) Involvement with unconsolidated structured entities

The Company has concluded that listed open-ended investment funds in which it invests, but that it does not consolidate, meet the definition of structured entities because of contractual cash flows being short term in nature. The following funds hold investments in open ended money market funds.

30 September 2022	Strategy	Market Value (EUR)	Total Assets of Holding	% of Total Assets
UBS (Irl) Investor Selection - Equity Opportunity Long Short Fund Investment in UBS Select Money Market Eur-M	Currency focused	9,531,705	(millions) 897	1.06%

#### 10. Taxation

The Company is an investment undertaking as defined in section 739B of the Taxes Consolidation Act, 1997. Therefore, the Company is not liable to tax in respect of its income and gains, other than on the occurrence of a chargeable event.

Generally a chargeable event arises on redemption, repurchase, cancellation, transfer of shares or the ending of a 'Relevant Period'. A 'Relevant Period' is an eight year period beginning with the acquisition of the shares by the Shareholder and each subsequent period of eight years beginning immediately after the preceding Relevant Period.

A gain on a chargeable event does not arise in respect of:

- (i) any transactions in relation to shares held in a recognised clearing system as designated by order of the Revenue Commissioners of Ireland;
- (ii) an exchange of shares arising on a qualifying amalgamation or reconstruction of the Company with another Company;
- (iii) certain exchanges of shares between spouses and former spouses;
- (iv) an exchange of shares representing one sub-fund for another sub-fund of the Company;
- (v) shareholders who are neither Irish resident nor Irish ordinarily resident for tax purposes at the time of the chargeable event and who have provided the Company with a relevant declaration to that effect; or
- (vi) certain exempted Irish tax resident Shareholders who have provided the Company with the necessary signed statutory declarations.

In the absence of an appropriate declaration, the Company will be liable to Irish tax on the occurrence of a chargeable event.

### 10. Taxation (continued)

There were no chargeable events for the year under review.

Capital gains, dividends and interest received may be subject to withholding taxes imposed by the country of origin and such taxes may not be recoverable by the Company or its Shareholders.

#### 11. Segregation of liabilities between sub-funds

As a matter of Irish law, the assets of one sub-fund will not be available to meet the liabilities of another. However, the Company is a single legal entity which may operate or have assets held on behalf of or be subject to claims in other jurisdictions (such as the United Kingdom) which may not necessarily recognise such ring-fencing and, in such circumstances, the assets of one sub-fund may be exposed to the liabilities of another.

Shareholders who choose or are obliged under local regulations to pay or receive subscription or redemption monies or dividends via an intermediate entity rather than directly to or from the Administrator (e.g. a Paying Agent in a local jurisdiction) bear a credit risk against that intermediate entity with respect to (a) subscription monies prior to the transmission of such monies to the Administrator for the account of the Company, and (b) redemption monies payable by such intermediate entity to the relevant Shareholder.

#### 12. Cross investments

There were no cross investments made by the sub-funds during the year (2021: None).

### 13. Fees and expenses

The aggregate fees of the Investment Manager and the Administrative Costs (being, generally, the fees of the Manager, the Depositary and the Administrator together with auditors' fees, legal fees, registration fees and Directors' fees) equal the percentage of the NAV of the sub-fund as set out in the table below:

## Performance fees

The Investment Manager may be entitled to receive a performance fee payable out of the individual sub-fund's assets in respect of individual classes. The Investment Manager is also entitled to a receive a performance fee equal to 20% of the excess gain of the performance (the "Net Outerperformance") of the NAV over the High Water Mark NAV.

The tables below show the sub-funds from which performance fees were earned for during the year. The method of calculation and accrual is also stated.

<sup>\*</sup>The crystallisation point for performance fees for UBS (Irl) Investor Selection - Equity Opportunity Long Short Fund and UBS (Irl) Investor Selection - Global Equity Long Short Fund is 30 September. The crystallisation point for performance fees for UBS Global Emerging Markets Opportunity Fund is 31 December. Therefore, the performance fees payable by UBS Global Emerging Markets Opportunity Fund amount are not yet actually payable as at 30 September.

The performance fees will be calculated and accrued as at each Valuation Point. The performance fees will be calculated in respect of each financial year (a "Calculation Period"). However, the first Calculation Period in respect of any Class of Shares will be the period commencing on the Business Day immediately following the close of the Initial Offer Period for that Class and ending on 30 September in that same year. The first value used in determining the first performance fees shall be the Initial Price.

#### **Administration fees**

The Company and/or the Manager, on behalf of the Company, shall pay to the Administrator out of the assets of the Company an annual fee, accrued at each valuation point and payable quarterly in arrears at a rate which shall not exceed 0.075% per annum of the NAV of each sub-fund (before calculation of the Investment Manager's fees, Manager fees or the Administration fees) subject to an annual fee of EUR60,000 (plus VAT, if any thereon) per sub-fund and to a fee of EUR3,000 plus VAT, if any, in respect of the preparation by the Administrator of each set of financial statements required to be prepared in respect of the Company.

The Administrator shall also be entitled to be repaid out of the assets of the Company all of such government or similar fees (including but not limited to filing fees and annual return fees to the extent payable by the Administrator), charges, taxes, duties and imposts whatsoever levied on or in respect of the Company or business of the Company as it may properly pay.

The fees and charges of the Administrator are subject to variation and renegotiation from time to time provided that any increase in the Administrator's fee is subject to prior notification to Shareholders.

#### Directors' fees

The Constitution authorises the Directors to charge a fee for their services at a rate determined by the Directors. All Directors, are non-executive Directors and do not earn a fee. Gavin Byrnes is an employee of the Investment Manager. Ian Fitzpatrick is an Executive Director of UBS Asset Management, an entity within the UBS Group. He was appointed as a Director of the Company on 25 August 2022. The fees of any Director in any accounting period shall not in any event exceed EUR50,000 (plus VAT, if any) without the approval of the Board. Any increase in Directors' remuneration above that figure will be notified in advance to Shareholders and Shareholders will be given sufficient time to redeem their Shares prior to the implementation of any such increase. All Directors will be entitled to reimbursement by the Company of expenses properly incurred in connection with the business of the Company or the discharge of their duties.

During the year ended 30 September 2022, the Directors charged fees of EUR65,000(2021: EUR65,000) for UBS (Irl) Investor Selection PLC, Gavin Byrnes and Ian Fitzpatrick Directors of the Company did not receive a fee. As at 30 September 2022, EUR16,500 (2021: EUR16,500) was payable. Fee charged by the former Director of the Company, Carne, for provision of Money Laundering Reporting Officer ("MLRO") and Beneficial Ownership Services was EUR4,375 (2021: EUR4,375). As at 30 September 2022, EUR2,188 (2021: EUR2,188) was payable.

## **Auditor fees**

During the year ended 30 September 2022, the auditor's charged statutory audit fees of EUR62,000 (2021: EUR62,000) to the Company. As at 30 September 2022, EUR62,000 (2021: EUR62,000) was payable. During the year ended 30 September 2022, the auditor's charged other non-audit services fees (tax advisory fees related to European investor tax reporting) of EUR53,440 (2021: EUR49,419) to the Company.

<sup>\*</sup>General and operating fee is composed of the Depositary and the Administrator fees together with auditors' fees, legal fees, registration fees and Directors' fees. The Investment Managers have undertaken to limit the general and operating expenses attributable to each class of share, as set out at the beginning of this note, for each subfund and for each share class that has launched. Each figure is expressed as a percentage per annum of the net assets of the particular share class. The general and operating expenses acrue daily and are generally paid monthly in arrears. To achieve this, the relevant Investment Manager absorbs, either directly by waiving a portion of its Investment Management fee or by reimbursement to the account of the relevant class of the sub-fund, any general and operating expenses over the applicable limit that may arise.

#### 14. Accounting estimates and judgments

As indicated in Note 2(e) many of the Company's financial instruments are measured at fair value in the Statement of Financial Position and it is usually possible to determine their fair values within a reasonable range of estimates. For the majority of the Company's financial instruments, quoted market prices are readily available.

Fair value estimates are made at a specific point in time, based on market conditions and information about the financial instrument. These estimates are subjective in nature and involve uncertainties and matters of significant judgement (e.g., interest rates, volatility, estimated cash flows etc.) and therefore, cannot be determined with precision.

#### 15. Transaction Costs

The below table shows the transaction costs incurred by the sub-funds during the year. The equity costs comprise trade commissions and miscellaneous trade fees required at a country level and are charged separately from the trade price. The derivative transaction costs comprise of future and option commissions that are charged separately from the trade price and also swap trade fees that are included in the trade price.

### 16. Portfolio Turnover Rate ("PTR")

The portfolio turnover rate is calculated by adding total purchases and sales, subtracting total subscriptions plus total redemptions and dividing the total by the average of net assets during the period under review.

The portfolio turnover statistics are the following for the period under review:

	30 September	30 September
	2022	2021
UBS (Irl) Investor Selection - Currency Allocation Return Strategy	145.99%	143.71%
UBS (Irl) Investor Selection - Equity Opportunity Long Short Fund	92.66%	233.09%
UBS (Irl) Investor Selection - Global Equity Long Short Fund	68.88%	162.08%
UBS Global Emerging Markets Opportunity Fund	41.46%	46.17%
A&Q Fundamental US Equity Long Short UCITS*	-	84.73%
UBS (Irl) Investor Selection PLC - O'Connor China Long/Short Alpha Strategies UCITS	44.69%	50.10%

<sup>\*</sup> Sub-fund is not subject to PTR as it terminated on 28 February 2022

#### 17. Distributions

No distributions were made during the year ended 30 September 2022 (2021: Nil).

### 18. Stock lending

The Company did not engage in any agreement to lend securities in its portfolio during the year ended 30 September 2022 (2021: Nil).

#### 19. Related parties

- (a) Gavin Byrnes is a Managing Director Head of Alternative Products for UBS Asset Management, an entity within the UBS Group. He was appointed as a Director of the Company. He resigned as Director of the Company on 25 August 2022.
- (b) Ian Fitzpatrick is an Executive Director of UBS Asset Management, an entity within the UBS Group. He was appointed as a Director of the Company on 25 August 2022.
- (c) No present Director has any interests beneficial or non-beneficial interests in the share capital of the Company. Fees paid to the Directors, including Carne's fee for provision of MLRO and Beneficial Ownership Services, are disclosed in Note 13.

### 19. Related parties (continued)

(d) Other parties considered to be related to the Company are the Investment Manager, Manager and Distributor (Note 13) and the following Shareholders who held more than 10% of the shares in issue in the sub-funds and are, as a result, considered to be related parties to the Company:

	30 September 2022	30 September 2021

The fees charged by the Manager and the Investment Managers, who form part of the UBS group of companies, are disclosed in Note 13. The Investment Managers have undertaken to limit the general and operating expenses attributable to each class of share, as set out at the beginning of Note 13, for each sub-fund and for each share class that has launched. Each figure is expressed as a percentage per annum of the NAV of the particular share class. The general and operating expenses accrue daily and are generally paid monthly in arrears. To achieve this, the relevant Investment Manager absorbs, either directly by waiving a portion of its Investment Management fee or by reimbursement to the account of the relevant class of the sub-fund, any general and operating expenses over the applicable limit that may arise.

The fees charged by the Swiss Representative, Swiss Paying Agent and Distributor, who are affiliated to the Investment Manager and form part of the UBS group of companies, are part of general and operating fee amount.

#### 20. Commitments and contingent liabilities

As at 30 September 2022, the Company did not have any significant commitments or contingent liabilities (2021: Nil).

#### 21. NAV reconciliation

IAS 38 "Intangible Assets" ("IAS 38") states that organisational costs should be expensed immediately and not capitalised in the Statement of Financial Position.

There was no impact of IAS 38 on the A&Q Fundamental US Equity Long Short UCITS NAV at 30 September 2022 as the sub-fund is terminated.

The impact of IAS 38 on the A&Q Fundamental US Equity Long Short UCITS NAV at 30 September 2021 is detailed in the following tables which show the reconciliation between the NAV and NAV per redeemable participating share as reported at 30 September 2021 and the NAV and NAV per redeemable participating share determined in accordance with IFRS.

	30 September
	2021

IAS 38 adjustment	(179.78)
Net assets value per Class (USD) U-B-acc share in accordance with IFRS	116,278.43

#### 22. Significant events during the reporting period

A new sub-fund, UBS Global Emerging Markets Opportunity Reduced Carbon Fund launched in October 2022.

The war in Ukraine had and still has a material impact on financial markets, first and foremost on Russian and Ukrainian securities but also on the wider markets globally. The situation remains very volatile and is closely monitored by the Management of the Fund in order to quickly take appropriate action to protect the investor interest. The necessary measures were put in place to at all times comply with applicable laws and regulations, in particular but not limited to the most recently enacted sanction regimes in the EU, Switzerland, UK, US and United Nations (UN). As serious trading limitations beyond sanctioned Russian securities have been experienced, fair value pricing is applied for all relevant securities where price quotes (if available) are not considered reflective of their current market value. The sub-fund UBS Global Emerging Markets Opportunity Fund was impacted by the fair value decision taken. Pricing hair-cuts were applied between 28 February 2022 and 3 March 2022 and a final decision to price all local Russians equities, GDRs, ADRs at 0 was made for NAV date 3 March 2022. Also, further to the assessment made by the Management of the Fund, neither the Fund's and any of its sub-funds' going concern nor operations, at the date of this report, have been significantly impacted by the above.

There were no other events during the year that require adjustment to or disclosure in the financial statements.

#### 23. Subsequent events

A new sub-fund UBS Global Emerging Markets Opportunity Reduced Carbon Fund was authorised by the Central Bank of Ireland on the 25 April 2022 and launched in October 2022.

On 28 November 2022 UBS Fund Management (Ireland) Limited replaced UBS Fund Management (Luxembourg) S.A. as the manager of the Company.

Subsequent to the year ended 30 September 2022 and until approval of these financial statements by the Board, the Company incurred the following net subscriptions and redemptions:

UBS (Irl) Investor Selection - Currency Allocation Return Strategy
UBS (Irl) Investor Selection - Equity Opportunity Long Short Fund
EUR (6,394,388)
UBS (Irl) Investor Selection - Global Equity Long Short Fund
EUR 11,011,014
UBS Global Emerging Markets Opportunity Fund
USD (196,822,656)
UBS (Irl) Investor Selection PLC - O'Connor China Long/Short Alpha Strategies UCITS
USD28,474,568

There were no other events after the year-end that require adjustment to or disclosure in the financial statements.

#### 24. Approval of financial statements

The accounts were approved by the Board on 23 January 2023.

# **Supplemental Unaudited Information**

### **Soft commissions**

The Investment Manager may make use of arrangements to enable it to obtain execution and research services which are beneficial to the sub-funds, both from counterparties and third parties. All transactions undertaken and the services provided under these arrangements in respect of the sub-funds will be subject to Financial Conduct Authority rules and to the fundamental rule of providing best execution to the sub-funds, being the best price available in the market, exclusive of any charges, but taking into account any exceptional circumstances such as counterparty risk, order size or client instructions.

There were no soft commissions arrangements during the year ended 30 September 2022.

### Foreign exchange rates

The following foreign exchange rates were used to translate assets and liabilities into the reporting currency USD as at 30 September 2022 and 30 September 2021.

	30 September 2022	30 September 2021

### Total expense ratio ("TER")

This ratio was calculated in accordance with the Asset Management Association Switzerland (AMAS)/Swiss Funds and Asset Management Association (SFAMA) "Guidelines on the calculation and disclosure of the TER" in the current version and expresses the sum of all costs and commissions charged on an ongoing basis to the NAV (operating expenses) taken retrospectively as a percentage of the NAV.

The TER for classes of units which were active less than a 12-month period are annualised.

#### **Remuneration Disclosure**

The Board of Directors of UBS Fund Management (Luxembourg) S.A. (the "Management Company" or the "AIFM") has adopted a remuneration policy (the "Policy") whose objectives are:

on one hand; to ensure that the remuneration framework is in line with the applicable laws and regulations, and more specifically with provisions defined under

- (i) the Luxembourg Law of 17 December 2010 on Undertakings for Collective Investment in Transferable Securities as amended from time to time (the "UCITS Law") transposing the UCITS Directive 2009/65/EC (the "UCITS Directive");
- (ii) the Alternative Investment Fund Managers Directive ("AIFMD") 2011/61/EU, transposed into the Luxembourg AIFM Law dated from 12 July 2013, as amended from time to time;
- (iii) the ESMA's guidelines on sound remuneration policies under the UCITS Directive ESMA/2016/575 and ESMA's guidelines on sound remuneration policies under the AIFMD ESMA/2016/579 both published on 14 October 2016;
- (iv) the CSSF Circular 10/437 on Guidelines concerning the remuneration policies in the financial sector issued on 1 February 2010;
- (v) the Directive 2014/65/EU on markets in financial instruments (MiFID II);
- (vi) the Commission Delegated Regulation 2017/565/EC of 25 April 2016 supplementing Directive 2014/65/EU (MiFID II Level 2);
- (vii) the CSSF Circular 14/585, transposing the ESMA Guidelines 2013/606 on remuneration policies and practices (MiFID ESMA Guidelines).

and on the other hand, to comply with the UBS Group AG (the "UBS Group") Total Reward Principles.

The Policy is meant not to encourage excessive risk taking, to contain measures to avoid conflicts of interest, to be consistent with, and promote, sound and effective risk management, including sustainability risk where applicable, and to be consistent with the UBS Group business strategy, objectives and values.

More details about the Policy of the Management Company/the AIFM, which describes, but not limited to, how remuneration and benefits are determined, are available at <a href="https://www.ubs.com/global/en/asset-management/investment-capabilities/white-labelling-solutions/fund-management-company-services/fml-procedures.html">https://www.ubs.com/global/en/asset-management/investment-capabilities/white-labelling-solutions/fund-management-company-services/fml-procedures.html</a>.

The Policy is subject to an annual review by the control functions of the Management Company/the AIFM after review and update by the Human Resources department; and is approved by the Board of Directors of the Management Company/the AIFM. In March 2021, the Policy has been updated to integrate sustainability risks. Last approval by the Board of Directors took place on 4 November 2021. No material changes were made to the Policy.

#### Application of the requirements and remuneration disclosure

In accordance with the Article 151 of the UCITS Law and Article 20 of the AIFM Law, the Management Company/the AIFM is required to disclose at least annually certain information concerning its remuneration policy and the practices for its Identified Staff.

The Management Company/the AIFM complies with the UCITS Directive/AIFMD principles in a way and to the extent that is appropriate to its size, internal organization and the nature, scope and complexity of its activities.

Considering the total size of funds under management, both UCITS and AIFs although a significant portion is not complex or risky investment, the Management Company/the AIFM judges that the proportionality principle may not be applicable at the level of the company but at the level of the Identified Staff.

By application of the proportionality principle for the Identified Staff, the following requirements on pay-out processes for Identified Staff are not applied:

- The payment of variable remuneration in instruments related mainly to the funds in relation to which they perform their activities;
- Deferral requirements;
- Retention periods;
- Incorporation of ex-post risk factors (i.e. malus or clawback arrangements).

#### Application of the requirements and remuneration disclosure (continued)

The deferral requirements remain however applicable when the employee's total annual compensation is exceeding the threshold defined under the UBS Group Compensation Framework; the variable compensation will be treated in line with the plan rules defined under the UBS Group Compensation Framework.

#### Remuneration of Management Company/AIFM staff

The table below provides an overview of the aggregate total remuneration to staff of the Management Company in respect of the financial year 2021 and the number of beneficiaries.

EUR1,000	Fixed remuneration	Variable remuneration	Total remuneration	Number of beneficiaries
All staff	9,262	1,338	10,600	95
- whereof Identified Staff	3,761	752	4,513	24
- thereof Senior Management*	1,465	350	1,815	8
- thereof Other Identified Staff	2,296	402	2,698	16

<sup>\*</sup>Senior Management includes the CEO, the Conducting Officers, the Head of Compliance and the Independent Director.

#### Remuneration of delegates staff

As market or regulatory practice develops UBS AM may consider it appropriate to make changes to the way in which quantitative remuneration disclosures are calculated. Where such changes are made, this may result in disclosures in relation to a fund not being comparable to the disclosures made in the prior year, or in relation to other UBS fund disclosures in that same year.

For the year ending 31 December 2021, the aggregate total remuneration paid by all the Investment Managers (excluding UBS Hedge Fund Solutions LLC and UBS O'Connor LLC) to their Identified Staff in relation to the Fund amounted to EUR211,246 of which EUR174,993 represented the variable remuneration (6 beneficiaries).

Portfolio management activities for A&Q Fundamental US Equity Long Short UCITS and O'Connor China long/Short Alpha Strategies UCITS have been delegated by the Manager to UBS Hedge Fund Solutions LLC ("HFS") and UBS O'Connor LLC ("O'Connor"). HFS and O'Connor are not subject to regulatory requirements on remuneration disclosure for their staff to whom portfolio management activities have been delegated that are equally as effective as those under Article 22(2)(e) of the AIFMD. HFS and O'Connor have confirmed to the Manager that no remuneration for the financial year ended 31 December 2021 was paid by the UCITS (i.e. UBS (Irl) Investor Selection) and/or the Manager (i.e. UBS Fund Management (Luxembourg) S.A.) to the identified staff of HFS and O'Connor which are linked to the delegated portfolios (i.e. A&Q Fundamental US Equity Long Short UCITS and O'Connor China long/Short Alpha Strategies UCITS).

#### Securities financing transactions regulation

Article 13 of Regulation (EU) 2015/2365 on transparency of securities financing transactions (SFTs) and of reuse and amending Regulation (EU) No 648/2012, requires UCITS investment companies to provide the following information on the use made of SFTs.

Securities Financing Transactions Regulation (Regulation (EU) 2015/2365) ("SFTR") came into force on 12 January 2016 and, amongst other requirements, introduces new disclosure requirements in the Company's financial statements published after 13 January 2017 detailing the sub-fund's use of securities financing transactions and total return swaps. As a result, additional disclosures have been included in this appendix.

Below is the market value of assets engaged in securities financing transactions as at 30 September 2022. The assets which are engaged in securities financing transactions at this date are total return swaps, in the form of Contracts for Difference ("CFDs") and Equity Swaps. The sub-funds do not engage in securities lending, or repo transactions.

Below is the market value of assets engaged in securities financing transactions as at 30 September 2022 based on a commitment amount of EUR24,810 in absolute terms.

Fund Name	Amount EUR	% of net assets as at 30 September 2022

### Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088)

### Article 6:

UBS (Irl) Investor Selection – Currency Allocation Return Strategy

UBS (Irl) Investor Selection - Equity Opportunity Long Short Fund

UBS (Irl) Investor Selection - Global Equity Long Short Fund

A&Q Fundamental US Equity Long Short UCITS

UBS (Irl) Investor Selection PLC - O'Connor China Long/Short Alpha Strategies UCITS

The investments underlying this sub-fund do not take into account the EU criteria for environmentally sustainable economic activities.

#### **Article 8(1):**

UBS Global Emerging Markets Opportunity Fund

Consult the next pages for the periodic disclosure of the subfund referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852, and/or (if any) the subfunds referred to in Article 9, paragraphs 1 to 4a, of Regulation (EU) 2019/2088 and Article 5, first paragraph, of Regulation (EU) 2020/852.

### ANNEX IV

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The EU Taxonomy is a classification system laid down in Regulation (EU) 2020/852, establishing a list environmentally sustainable economic activities. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental

# Sustainability indicators

measure how the environmental or social characteristics promoted by the financial product are attained. **Product name:** UBS (Irl) Investor Selection PLC - UBS Global Emerging Markets Opportunity Fund **Legal entity identifier:** SI756XPRIL6XC77R209

## **Environmental and/or social characteristics**

Did this	financial product have a sustai	nable ir	ivest	ment objective?
••	Yes	••	×	No
w	ith an environmental ctive:%  in economic activities that qualify as environmentally sustainable under the EU Taxonomy	i	chara while	bmoted Environmental/Social (E/S) acteristics and it did not have as its objective a sustainable tment, it had a proportion of% of nable investments  with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy
	in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy			with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy  with a social objective
	nade sustainable investments th a social objective:%	-	•	moted E/S characteristics, but <b>did not make</b> ustainable investments

# To what extent were the environmental and/or social characteristics promoted by this financial product met?

The following characteristics were promoted by the financial product by 15 February 2022 onwards (i.e., date at which the characteristics were effective):

- 1) A sustainability profile that is higher than its benchmark's sustainability profile or a minimum of 51 % of assets invested in companies with a sustainability profile in the top half of the benchmark.
- 2) A lower Weighted Average Carbon Intensity (WACI) than the reference benchmark or a low absolute carbon profile.

The extent to which the environmental and/or social characteristics promoted by this financial product is met is stated in the answer to the question "How did the sustainability indicators perform?" of this annex.

The benchmark is a broad market index which does not assess or include constituents according to environmental and/or social characteristics and therefore is not intended to be consistent with the characteristics promoted by the financial product. No ESG reference benchmark has been designated for the purpose of attaining the characteristics promoted by the financial product.

The sustainability profile of the financial product is measured by its benchmark's profile and the corresponding results are calculated at least once a year from the respective monthly profiles.

The sustainability profile of the financial product is measured by its benchmark's profile and the corresponding results are calculated at least once a year from the respective monthly profiles.

### How did the sustainability indicators perform?

From 15 February 2022 onwards, for the characteristic 1:

- The UBS ESG consensus score of the financial product was higher than that of its benchmark.
- UBS consensus score of the financial product: 5.80
- UBS consensus score of the benchmark: 5.33
- 93.17% of assets were invested in issuers with a sustainability profile in the top half of the benchmark.

From 15 February 2022 onwards, for the characteristic 2:

- The Weighted Average Carbon Intensity (WACI) was lower than that of its benchmark.
- Weighted Average Carbon Intensity (WACI) of the financial product: 155.42 tons CO2 per million dollars revenues.
- Weighted Average Carbon Intensity (WACI) of the benchmark: 338.97 tons CO2 per million dollars revenues.
- No low absolute carbon profile, as a low absolute carbon profile is defined as below 100 tons of CO2 emissions per million US dollars of revenues.
- ...and compared to previous periods?

Not applicable. This is the first reference period.

What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?

Not applicable.

How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

Not applicable.

 $- How \ were \ the \ indicators \ for \ adverse \ impacts \ on \ sustainability \ factors \ taken \ into \ account?$ 

Not applicable.

\_\_Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Not applicable.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anticorruption and anti-bribery matters.

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the Union criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the Union criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

### How did this financial product consider principal adverse impacts on sustainability factors?

Not applicable.

The list includes the investments constituting the greatest proportion of investments of the financial product during the reference period which is: 30.09.2022

What was the proportion of sustainability-related investments?

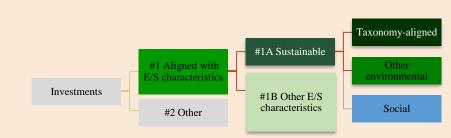

Not applicable.

### What was the asset allocation?

Asset allocation describes the share of investments in specific assets.

Taxonomy-aligned activities are expressed as a share of:

- turnover reflects the "greenness" of investee companies today.
- capital expenditure (CapEx) shows the green investments made by investee companies, relevant for a transition to a green economy.
- operational
  expenditure
  (OpEx) reflects
  the green
  operational
  activities of
  investee
  companies.

**#1 Aligned with E/S characteristics** includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

**#2Other** includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

The category **#1 Aligned with E/S characteristics** covers:

- The sub-category #1A Sustainable covers environmentally and socially sustainable investments.
- The sub-category **#1B Other E/S characteristics** covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

### In which economic sectors were the investments made?

	% of Net
Sub-sectors	Assets
Banks	23.62
Semiconductors	17.40
Internet	15.36
Oil & Gas	11.97
Leisure Time	3.89
Household Products/Wares	3.79
Beverages	3.70
Food	3.21
Insurance	2.85
Mining	2.81
Energy-Alternate Sources	2.57
Home Furnishings	1.89
Real Estate	0.94
Telecommunications	0.74

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

Not applicable.

**Enabling** activities

directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are

activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

sustainable investments

objective that do not take into

account the

**criteria** for environmentally

sustainable

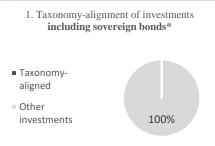

activities under

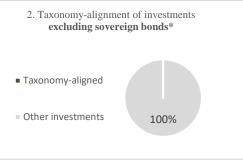

Regulation (EU) 2020/852.

economic

with an environmental

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds\*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

\*For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures

- What was the share of investments made in transitional and enabling activities?
- How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

Not applicable.

Not applicable.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

Not applicable.

What was the share of socially sustainable investments?

Not applicable.

What investments were included under "other", what was their purpose and were there any minimum environmental or social safeguards?

Included in "#2 Other" are cash and unrated instruments for the purpose of liquidity and portfolio risk management. Unrated instruments may also include securities for which data needed for the measurement of attainment of environmental or social characteristics is not available.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

During the reference period, the environmental and/ or social characteristics were met by following the investment strategy and applying exclusion criteria as per the sales prospectus. The investment strategies and/ or exclusion criteria are monitored to ensure adherence.

How did this financial product perform compared to the reference benchmark?

No ESG reference benchmark has been designated for the purpose of determining whether the financial product is aligned with the characteristics that it promotes.

• How does the reference benchmark differ from a broad market index?
Not applicable.

How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?

Not applicable.

- How did this financial product perform compared with the reference benchmark?
  Not applicable.
- How did this financial product perform compared with the broad market index?
  Not applicable.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they

promote.
