*** On 1 March 2024, UBS Asset Management (Americas) Inc., the Investment Manager for UBS (Irl) Select Money Market Fund—USD and UBS (Irl) Select Money Market Fund—US Treasury, effected a statutory conversion under Delaware law that has resulted in the entity becoming a limited liability company instead of a corporation and renamed to UBS Asset Management (Americas) LLC.

The names of the Funds of the Company changed, as noted below, during the financial year ended 31 August 2024. The name changes became effective 15 December 2023, the date the Prospectus and Fund supplements of the Company were updated to reflect the new names of the Funds. For the purposes of these financial statements, the Funds shall be referred to by the new names.

Old Fund Name	New Fund Name
UBS (Irl) Select Money Market Fund—USD Sustainable	UBS (Irl) Select Money Market Fund—USD
UBS (Irl) Select Money Market Fund—EUR Sustainable	UBS (Irl) Select Money Market Fund—EUR
UBS (Irl) Select Money Market Fund—GBP Sustainable	UBS (Irl) Select Money Market Fund—GBP

The name of UBS (Irl) Select Money Market Fund—US Treasury was not amended and remained unchanged.

Shareholders may obtain the prospectus, the Key Investor Information Documents (KIIDs), the Packaged Retail and Insurance-based Investment Products (PRIIP), the latest annual and semi-annual reports, the changes in the composition of the securities portfolio during the reporting period and copies of the Memorandum and Articles of Association free of charge from the registered office of the Manager, the administrator, or the local representatives in the countries where the Company is registered and in Switzerland at UBS Switzerland AG, Bahnhofstrasse 45, 8098 Zurich, Switzerland.

Report of the directors

The directors of UBS (Irl) Fund plc (the “Company”) submit their report together with the audited financial statements for the financial year ended 31 August 2024.

Principal activities

The Company is incorporated as an investment company with variable capital under the laws of Ireland as a public limited company pursuant to the Companies Act 2014 (as amended) (the “Act”) and the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011 (as amended) (the “UCITS Regulations”) and the Central Bank (Supervision and Enforcement) Act 2013 (Section 48(1)) (Undertakings for Collective Investment in Transferable Securities) Regulations 2019 (the Central Bank UCITS Regulations’).

The Company is organised in the form of an umbrella fund with segregated liability between sub-funds. During the financial year 31 August 2024 the Company had four constituent funds (each a “Fund” or collectively the “Funds”):

- UBS (Irl) Select Money Market Fund—USD (“Select Money Market Fund—USD ”)
- UBS (Irl) Select Money Market Fund—EUR (“Select Money Market Fund—EUR ”)
- UBS (Irl) Select Money Market Fund—GBP (“Select Money Market Fund—GBP ”).
- UBS (Irl) Select Money Market Fund—US Treasury (“Select Money Market Fund—US Treasury”).

Select Money Market Fund—USD , Select Money Market Fund—EUR, Select Money Market Fund—GBP and Select Money Market Fund—US Treasury commenced operations on 17 September 2002, 7 May 2015, 11 September 2015 and 14 November 2018, respectively.

The Company is subject to the EU Money Market Fund Reform Regulation effective from 21 January 2019. Effective from 4 March 2019 the following Funds fully transitioned to a Low Volatility Net Asset Value Money Market Fund (“LVNAV MMF”): Select Money Market Fund—USD, Select Money Market Fund—EUR and Select Money Market Fund—GBP. Select Money Market Fund—US Treasury transitioned to a Public Debt Constant Net Asset Value Money Market Fund (“CNAV MMF”).

The investment objective of Select Money Market Fund—USD is to earn maximum current income in US Dollar terms consistent with liquidity and the preservation of capital.

The investment objective of Select Money Market Fund—EUR is to earn maximum current income in Euro terms consistent with liquidity and the preservation of capital.

The investment objective of Select Money Market Fund—GBP is to earn maximum current income in Sterling terms consistent with liquidity and the preservation of capital.

The investment objective of Select Money Market Fund—US Treasury is to earn maximum current income in US Dollar terms consistent with liquidity and the preservation of capital.

Corporate governance statement

The directors have voluntarily adopted the Corporate Governance Code for Collective Investment Schemes and Management Companies as published by Irish Funds (the “Code”), as the Company’s corporate governance code. The directors have assessed the measures included in the Code as being consistent with the Company’s corporate governance practices and procedures for the financial year. The Code is available for inspection at the request of any shareholder from the administrator free of charge.

Financial reporting process—description of main features

The directors are responsible for establishing and maintaining adequate internal control and risk management systems of the Company in relation to the financial reporting process. Such systems are designed to manage rather than eliminate the risk of error or fraud in achieving the Company’s financial reporting objectives and can only provide reasonable and not absolute assurance against material misstatement or loss.

The directors have procedures in place to ensure that all adequate accounting records are maintained and are readily available, including production of annual and half-yearly financial statements. The annual and half-yearly financial statements of the Company are required to be approved by the board of directors (the “Board”) of the Company and be filed with the Central Bank of Ireland (the “Central Bank”). The statutory financial statements are required to be audited by independent auditors who report annually to the board on their findings. The board evaluates and discusses significant accounting and reporting issues as the need arises.

State Street Fund Services (Ireland) Limited (the “Administrator”), an independent administrator, has been appointed by the Company to maintain the books and records of the Company. The Administrator is authorised and regulated by the Central Bank and must comply with the rules imposed by the Central Bank. The directors evaluate and discuss significant accounting and reporting issues as the need arises. From time to time the directors or their delegates also examine and evaluate the Administrator’s financial accounting and reporting routines and monitor and evaluate the external auditors’ performance, qualifications and independence. The Administrator has operating responsibility in respect of its internal controls in relation to the financial reporting.

Risk assessment

The directors are responsible for assessing the risk of irregularities whether caused by fraud or error in financial reporting and for ensuring that processes are in place for the timely identification of internal and external matters with a potential effect on financial reporting. The directors have also

put in place processes to identify changes in accounting rules and recommendations and to ensure that these changes are accurately reflected in the Company's financial statements.

Control activities

The Administrator maintains control systems and procedures to manage the risks within financial reporting. These control structures include appropriate division of responsibilities and specific control activities aimed at detecting or preventing the risk of significant deficiencies in financial reporting for every significant account in the financial statements and the related notes in the annual report of the Company. Examples of control activities exercised by the Administrator include analytical review procedures, reconciliations and automatic controls in information technology systems.

Information and communication

The Company's policies and the directors' instructions with relevance for financial reporting are updated and communicated via appropriate channels, such as e-mail, correspondence and meetings, to ensure that all financial reporting information requirements are met in a complete and accurate manner.

Monitoring

The directors receive regular presentations and review reports from the depositary, the Investment Manager and the Administrator. The directors also have an annual process to ensure that appropriate measures are taken to consider and address the shortcomings identified and measures recommended by the independent auditors.

Capital structure

No person has a significant direct or indirect holding of securities in the Company. No person has any special rights of control over the Company's share capital. There are no restrictions on voting rights. With regard to the appointment and replacement of directors, the Company is governed by its articles of association (the "Articles of Association"), the Companies Act 2014 (as amended), the UCITS Regulations and the Central Bank UCITS Regulations. The Articles of Association may be amended by special resolution of the shareholders.

Powers of the directors

The directors are responsible for managing the business of the Company in accordance with the Articles of Association. The directors may delegate certain functions to the Administrator and other parties, subject to the supervision and direction by the directors. The directors have delegated the day-to-day administration of the Company to the Administrator and the investment management function to UBS Asset Management (Americas) LLC and UBS Asset Management Switzerland AG (the "Investment Managers"). The Articles of Association provide that the directors may exercise all the powers of the Company to borrow money, to mortgage or charge its undertaking, property or any part thereof and may delegate

these powers to the Investment Managers. However, the amount and circumstances in which the Company may borrow are limited by the UCITS Regulations.

The directors at any time and from time to time may temporarily suspend the calculation of the Net Asset Value ("NAV") of a particular fund and issue, repurchase and conversion of shares in certain instances more particularly described in the prospectus. Shares may be transferred by instrument in writing in a form approved by the directors subject to the requirements of the Articles of Association.

Shareholder meetings

All general meetings of the Company shall be held in Ireland. In each financial year the Company shall hold a general meeting of the Company as its annual general meeting. Twenty-one days' notice (excluding the day of mailing and the day of the meeting) shall be given in respect of each general meeting of the Company. The notice shall specify the venue and time of the meeting, the business to be transacted at the meeting and that a proxy may attend and vote on behalf of any shareholder. The requirements for quorum and majorities at all general meetings are set out in the Articles of Association.

An ordinary resolution is a resolution passed by a simple majority of the votes cast and a special resolution is a resolution passed by a majority of 75% or more of the votes cast, the Articles of Association provide that matters may be determined at a meeting of shareholders on a show of hands unless a poll is requested by shareholders holding 10% or more of the shares in number or by value or unless the chairman of the meeting requests a poll. Each share gives the holder one vote in relation to any matters relating to the Company which are submitted to shareholders for a vote by poll. Each shareholder present at a meeting has one vote in relation to any matters relating to the Company which are submitted to shareholders for a vote by show of hands. All shares of each class have equal voting rights, except that in matters affecting only a particular class, only shares of that class shall be entitled to vote.

Composition and operation of the board of directors and committees

Unless otherwise determined by the Company by ordinary resolution, the number of the directors shall not be less than two or more than twelve. Currently the Board is comprised of five non-executive Directors of which, one is an independent non-executive Director. Details of the current Directors are set out above, under the heading "Board of Directors".

The business of the Company is managed by the directors, who exercise all such powers of the Company as are not by the Act, the UCITS Regulations or the Articles of Association required to be exercised by the Company in general meeting. The directors may meet together for the dispatch of business, adjourn and otherwise regulate their meetings as they think fit. Questions arising at any meeting shall be determined by a majority of votes. In case of an equality of votes, the chairman

shall have a second or casting vote. A director may, and the company secretary on the requisition of a director shall, at any time summon a meeting of the directors. The quorum necessary for the transaction of business of the directors may be fixed by the directors, and unless so fixed at any other number shall be two.

The directors have decided not to establish an audit committee pursuant to section 167(2) of the Act based on (a) the nature, scale and complexity of the Company's business and the range of services and activities undertaken in the course of that business; (b) the resources available to the Company and the resources and expertise of the various third parties engaged to support the Company and carry out certain functions on its behalf; and (c) the procedures in place for the review, approval and circulation of the audited financial accounts and statements which are appropriate for an investment company pursuant to the UCITS Regulations.

Each director has entered into an engagement letter with the Company which constitutes a contract for services but not a contract of employment. The Articles of Association do not provide for retirement of directors by rotation. However, the directors may be removed by the shareholders by ordinary resolution in accordance with the procedures established under the Act.

Transactions with connected parties

Regulation 43(1) of the Central Bank UCITS Regulations states that "a responsible person shall ensure that any transaction between a UCITS and a connected person is conducted a) at arm's length; and b) in the best interest of the unitholders of the UCITS".

As required under Regulation 81(4) of the Central Bank UCITS Regulations the Manager, as a responsible person, are satisfied that there are in place arrangements, evidenced by written procedures, to ensure that the obligations that are prescribed by Regulation 43(1) of the Central Bank UCITS Regulations are applied to all transactions with a connected party; and all transactions with a connected parties that were entered into during the financial year ended 31 August 2024 complied with the obligations that are prescribed by Regulation 43(1) of the Central Bank UCITS Regulations.

Relevant audit information

So far as the directors are aware, there is no relevant audit information of which the Company's auditors are unaware and the directors have taken all the steps that should have been taken as directors in order to make themselves aware of any relevant audit information and to establish that the Company's auditors are aware of that information.

Directors fees

The charge for directors' remuneration, which relate solely to qualifying services, during the financial year ended 31 August 2024 amounted to US\$48,667 (31 August 2023: US\$75,910), of which US\$6,927 (31 August 2023: US\$37,985) was payable at the financial year end.

Review of the business

The business of the Company is reviewed in detail in the Investment Managers' reports.

Risk management objectives and policies

A review of the principle risks and main management is included in Note 8 of the financial statements along with details of the exposure of the Company to identified risks.

Results

The results for the financial year are stated on page 32 of the financial statements. Particulars relating to the issue and redemption of shares are set out in Note 12 of the financial statements.

Significant events during the financial year

The significant events affecting the Company which occurred during the financial year are set out in Note 15 of the financial statements.

Significant events since the financial year end

The significant events affecting the Company which have occurred since the statement of financial position date are set out in Note 16 of the financial statements.

Going concern

The financial statements have been prepared on a going concern basis as the Directors are of the view that the Company can continue in operational existence for twelve months from the date of approval of these financial statements (the period of assessment). The Directors anticipate the financial assets will continue to generate enough cash flows on an ongoing basis to meet the Company's liabilities as they fall due. In making this assessment, the Directors considered the potential impact of the geopolitical risk on the Company's business over the period of assessment.

Dividends

The dividend policy for the Company is detailed in Note 2(e) of the financial statements. The amount of dividends paid to holders of redeemable participating shares is recognised in the statement of comprehensive income as a finance cost.

Directors

The following Directors held office on 31 August 2024 and throughout the financial year then ended.

Ms. Naomi Daly (Ireland) (Chairperson)*
 Ms. Marie Antoinette Petrini (Spain)**
 Mr. Alan White (Ireland)**
 Ms. Audrey Collins (Ireland)*,***

Date: 20 November 2024

Directors' interests

None of the directors nor the company secretary, at the date of this report, hold or held, since the date of his/her appointment or at 31 August 2024, any interest in the shares of the Company.

Accounting records

The directors ensure compliance with the Company's obligation to maintain adequate accounting records by appointing competent persons to be responsible for them. The accounting records are kept by the Administrator at 78 Sir John Rogerson's Quay, Dublin D02 HD32, Ireland.

Independent auditors

The independent auditors, Ernst & Young, have indicated their willingness to remain in office in accordance with Section 383 (2) of the Companies Act 2014 (as amended).

Political donations

There were no political donations made during the financial year ended 31 August 2024 or 31 August 2023.

Directors compliance statement

It is the policy of the Company to comply with its relevant obligations (as defined in the Act). As required by Section 225(2) of the Act, the directors acknowledge that they are responsible for securing the Company's compliance with the relevant obligations. The directors have drawn up a compliance policy statement as defined in Section 225(3)(a) of the Act and a compliance policy which refers to the arrangements and structures that are in place and which are, in the directors' opinion, designed to secure material compliance with the Company's relevant obligations. These arrangements and structures were reviewed by the Company during the financial year ended 31 August 2024. In discharging their responsibilities under Section 225 of the Act, the directors relied upon, among other things, the services provided, advice and/or representations from third parties whom the directors believe have the requisite knowledge and experience in order to secure material compliance with the Company's relevant obligations.

Statement of directors' responsibilities

The directors are responsible for preparing the report of the directors and the financial statements in accordance with applicable Irish law and regulations.

The directors are responsible for preparing the Annual Report and the financial statements in accordance with Financial Reporting Standard ("FRS") 102, the Financial Reporting Standard applicable in the UK and the Republic of Ireland and applicable Irish Law. The Company previously applied Generally Accepted Accounting Practice in Ireland including the accounting standards issued by the Financial Reporting Council and published by the Institute of Chartered Accountants in Ireland.

Under the Act, the directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the assets, liabilities and financial position of the Company as at the financial year end date, the profit or loss and its changes in net assets attributable to holders of redeemable participating shares for that financial year and otherwise comply with the Act.

In preparing these financial statements, the directors are required to:

- select suitable accounting policies and then apply them consistently;
- make judgements and estimates that are reasonable and prudent;
- state whether the financial statements have been prepared in accordance with applicable accounting standards and identify the standards in question, subject to any material departures from those standards being disclosed and explained in the notes to the financial statements; and
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the Company will continue in business.

The directors are responsible for ensuring that the Company keeps adequate accounting records that are sufficient to:

- correctly record and explain the transactions of the Company;
- enable, at any time, the assets, liabilities, financial position and profit or loss of the Company to be determined with reasonable accuracy; and
- enable the directors to ensure that the financial statements comply with the Act and the UCITS Regulations and enable the financial statements to be audited.

The directors believe that they have complied with the requirement to maintain adequate accounting records by employing an experienced Administrator for the purpose of maintaining adequate accounting records.

The financial statements have been prepared on a going concern basis as the Directors are of the view that the Company can continue in operational existence for twelve

months from the date of approval of these financial statements (the period of assessment). The Directors anticipate the financial assets will continue to generate enough cash flows on an ongoing basis to meet the Company's liabilities as they fall due. In making this assessment, the Directors considered the potential impact of the Russia/Ukraine conflict on the Company's business over the period of assessment.

The directors are responsible for safeguarding the assets of the Company. In this regard they have entrusted the assets of the Company to State Street Custodial Services (Ireland) Limited (the "Depository"), who has been appointed as depository to the Company pursuant to the terms of a depository agreement. The directors are also responsible for taking reasonable steps for the prevention and detection of fraud and of other irregularities.

As at the date this Directors' Report was approved and signed (set out below), each director is satisfied that:

- (a) there is no relevant audit information of which the Company's statutory auditors are unaware; and
- (b) s/he has taken all the steps that he or she ought to have taken as a director in order to make herself or himself aware of any relevant audit information and to establish that the Company's statutory auditors are aware of that information; where "relevant audit information" means information needed by the Company's statutory auditors in connection with preparing their report.

Report of the Investment Manager

7 October 2024

UBS (Irl) Select Money Market Fund — USD

Investment Goal:

Maximum current income in US dollar terms consistent with liquidity and preservation of capital

Portfolio Manager:

Robert Sabatino
UBS Asset Management
(Americas) LLC

Dear Shareholder,

We present you with the annual report for UBS (Irl) Select Money Market Fund—USD (the “Fund”) for the 12 months ended 31 August 2024 (the “reporting period”).

Performance

The seven-day current yield for the Fund’s Institutional (Dist.) share class was 5.28% on 31 August 2024, versus 5.34% on 31 August 2023 (after fee waivers).

While inflation made progress towards their target, the US Federal Reserve Board (the “Fed”) maintained the federal funds rate at a range between 5.25% and 5.50% during the reporting period. As a result, yields on a wide range of short-term investments remained elevated during the reporting period, but did decline going out on the yield curve as the market began to price in the likelihood of the Fed starting to move policy rates lower.

An interview with Portfolio Manager Robert Sabatino

Q. How would you describe the economic environment during the reporting period?

A. Looking back, third and fourth quarter 2023 US annualized gross domestic product (“GDP”) growth was 4.9% and 3.4%, respectively. First quarter 2024 annualized GDP was 1.4%, while the second estimate of second quarter 2024 GDP was 3.0%.

Q. How did the Fed react to the economic environment?

A. The Federal Reserve kept interest rates at the 5.25-5.50% target range for the entire reporting period.

Q. How did you position the Fund over the reporting period?

A. We tactically adjusted the Fund’s weighted average maturity (WAM) throughout the 12-month review period. When the reporting period began, the Fund had a WAM of 18 days. The Fund’s WAM ended the period at 36 days.

Q. What level of portfolio diversification did you maintain during the reporting period?

A. At the issuer level, we continued to maintain a high level of diversification, investing in smaller positions with the goal of reducing risk and keeping the Fund highly liquid. To that end, we typically purchased up to 5% in single nongovernment issuers throughout the reporting period.

Q. What types of securities did you emphasise over the period?

A. Several adjustments were made to the Fund’s sector positioning during the 12-month period. We increased the Fund’s allocations to reverse repurchase agreements and certificates of deposit. Conversely, we reduced the Fund’s allocation to time deposits and commercial paper.

Q. What factors do you believe will affect the Fund over the coming months?

A. We continue to monitor a number of factors, including progress by the Fed in achieving their dual mandate of price stability and maximum employment and the degree of policy adjustments the Federal Reserve undertakes to meet their goals.

As always, we thank you for your continued support and welcome any comments or questions you may have.

Robert Sabatino

Report of the Investment Manager

7 October 2024

UBS (Irl) Select Money Market Fund— EUR

Investment Goal:

Maximum current income in Euro terms consistent with liquidity and preservation of capital

Portfolio Manager:

Robbie Taylor
UBS Asset Management
Switzerland AG

Dear Shareholder,

We present you with the annual report for UBS (Irl) Select Money Market Fund—EUR (the “Fund”) for the 12 months ended 31 August 2024.

Performance

The seven-day current yield for the Fund’s Premier share class was 3.66% on 31 August 2024, versus 3.64% on 31 August 2023 (after fee waivers).

With inflation continuing to move lower towards target, the European Central Bank (the “ECB”) started removing some of its restrictive monetary policy during the reporting period via rate cuts. As a result, the yields on a wide range of short-term investments also dropped, although still remain at a relatively high level.

An interview with Portfolio Manager Robbie Taylor

Q. How would you describe the economic environment during the reporting period?

A. The Euro-area economy saw a steady fall in growth, as gross domestic product (GDP) growth fell from 4.3% in the third quarter of 2023 to 2.9% in the fourth quarter. Since then, growth has oscillated between 2.2% and 2.8% during 2025. During the same period, headline inflation continued to fall towards the 2% target, moving gradually lower from around 4.3% in September 2023 to 2.2% in August 2024.

Q. How did the European Central Bank (“ECB”) react to the economic environment?

A. The ECB left their main Deposit Rate at 4% for the vast majority of the reporting period, due to the ongoing high inflationary environment. At their meeting in June 2024, they cut rates by 25bp, to take the Deposit Rate to 3.75%, noting that they saw it appropriate to begin moderating the degree of restriction, saying that they still see the current monetary policy stance as helping to keep financing conditions restrictive.

Q. How did you position the Fund over the reporting period?

A. We tactically adjusted the Fund’s weighted average maturity (WAM) throughout the 12-month review period. When the reporting period began, the Fund had a WAM of 36 days. The Fund’s WAM ended the period at 25 days.

Q. What level of portfolio diversification did you maintain during the reporting period?

A. At the issuer level, we continued to maintain a high level of diversification, investing in smaller positions with the goal of reducing risk and keeping the Fund highly liquid. To that end, we typically purchased up to 5% in single nongovernment issuers throughout the reporting period.

Q. What types of securities did you emphasise over the period?

A. We focused on investing in high quality, liquid Money Market instruments, including daily overnight deposits, European Commercial Paper and Certificates of Deposits; as well as fixed rate and floating-rate instruments.

Q. What factors do you believe will affect the Fund over the coming months?

A. We continue to monitor a number of factors, including progress by the European Central Bank in achieving their goal of achieving stable prices, thereby supporting economic growth and job creation. This will ultimately influence the stance of their Monetary Policy setting, and the outright level of interest rates.

As always, we thank you for your continued support and welcome any comments or questions you may have.

Switzerland AG

Dear Shareholder,

We present you with the annual report for UBS (Irl) Select Money Market Fund—GBP (the “Fund”) for the for the 12 months ended 31 August 2024.

Performance

The seven-day current yield for the Fund’s Institutional (Dist.) share class was 4.94% (after fee waivers) on 31 August 2024, versus 5.05% on 31 August 2023.

With inflation continuing to move lower towards target, the Bank of England (the “BoE”) started removing some of its restrictive monetary policy during the reporting period via rate cuts. As a result, the yields on a wide range of short-term investments also dropped, although still remain at a relatively high level.

An interview with Portfolio Manager Robbie Taylor

Q. How would you describe the economic environment during the reporting period?

A. The UK economy suffered a fall in growth, as gross domestic product (GDP) growth fell from 0.3% in the third quarter of 2023 to -0.3% in the fourth quarter. Since then, growth has rebounded to post 0.3% in the first quarter of 2024, and 0.7% in the 2nd quarter. During the same period, headline inflation continued to fall towards the 2% target, moving from around 6.7% in September 2023 to 2.2% in August 2024.

Q. How did the Bank of England (“BoE”) react to the economic environment?

A. The BoE left rates at 5.25% for the vast majority of the reporting period, due to the ongoing high inflationary environment. At their meeting on the 1st August, they cut rates by 25bp, to take the Base Rate to 5%, with the rationale based on the assessment that inflation pressure had eased enough to warrant an easing of restrictiveness.

Q. How did you position the Fund over the reporting period year?

A. We tactically adjusted the Fund’s weighted average maturity (WAM) throughout the 12-month review period. When the reporting period began, the Fund had a WAM of 40 days. The Fund’s WAM ended the period at 35 days.

Q. What level of portfolio diversification did you maintain during the reporting period?

A. At the issuer level, we continued to maintain a high level of diversification, investing in smaller positions with the goal of reducing risk and keeping the Fund highly liquid. To that end, we typically purchased up to 5% in single nongovernment issuers throughout the reporting period.

Q. What types of securities did you emphasise over the period?

A. We focused on investing in high quality, liquid Money Market instruments, including daily overnight deposits, European Commercial Paper and Certificates of Deposits; as well as fixed rate and floating-rate instruments.

Q. What factors do you believe will affect the Fund over the coming months?

A. We continue to monitor a number of factors, including progress by the Bank of England in achieving their goal of achieving low and stable inflation. This will ultimately influence the stance of their Monetary Policy setting, and the outright level of interest rates.

As always, we thank you for your continued support and welcome any comments or questions you may have.

Robbie Taylor

Report of the Investment Manager

7 October 2024

UBS (Irl) Select Money Market Fund—US Treasury

Investment Goal:

Maximum current income in US dollar terms consistent with liquidity and preservation of capital

Portfolio Manager:

Robert Sabatino
UBS Asset Management
(Americas) LLC

Dear Shareholder,

We present you with the annual report for UBS (Irl) Select Money Market Fund—US Treasury (the “Fund”) for the 12 months ended 31 August 2024 (the “reporting period”).

Performance

The seven-day current yield for the Preferred (Dist.) share class was 5.26% on 31 August 2024, versus 5.30% on 31 August 2023 (after fee waivers).

While inflation made progress towards their target, the US Federal Reserve Board (the “Fed”) maintained the federal funds rate at a range between 5.25% and 5.50% during the reporting period. As a result, yields on a wide range of short-term investments remained elevated during the reporting period, but did decline going out on the yield curve as the market began to price in the likelihood of the Fed starting to move policy rates lower.

An interview with Portfolio Manager Robert Sabatino

Q. How would you describe the economic environment during the reporting period?

A. Looking back, third and fourth quarter 2023 US annualized gross domestic product (“GDP”) growth was 4.9% and 3.4%, respectively. First quarter 2024 annualized GDP was 1.4%, while the second estimate of second quarter 2024 GDP was 3.0%.

Q. How did the Fed react to the economic environment?

A. The Federal Reserve kept interest rates at the 5.25-5.50% target range for the entire reporting period.

Q. How did you position the Fund over the reporting period?

A. We tactically adjusted the Fund’s weighted average maturity (WAM) throughout the 12-month review period. When the reporting period began, the Fund had a WAM of 8 days. The Fund’s WAM ended the period at 34 days.

Q. What level of portfolio diversification did you maintain during the reporting period?

A. At the issuer level, we continued to maintain a high level of diversification, investing in smaller positions with the goal of reducing risk and keeping the Fund highly liquid. To that end, we typically purchased up to 5% in single nongovernment issuers throughout the reporting period.

Q. What types of securities did you emphasise over the period?

A. Some adjustments were made to the Fund’s sector positioning during the 12-month period. We increased the Fund’s allocations to US Treasuries. Conversely, we reduced the Fund’s allocation to reverse repurchase agreements.

Q. What factors do you believe will affect the Fund over the coming months?

A. We continue to monitor a number of factors, including progress by the Fed in achieving their dual mandate of price stability and maximum employment and the degree of policy adjustments the Federal Reserve undertakes to meet their goals.

As always, we thank you for your continued support and welcome any comments or questions you may have.

INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF UBS (IRL) FUND PLC

Report on the audit of the financial statements

Opinion

We have audited the financial statements of UBS (Irl) Fund plc ('the Company') for the year ended 31 August 2024, which comprise the Statement of Financial Position, Statement of Comprehensive Income, Statement of Changes in Net Assets Attributable to Holders of Redeemable Participating Shares and notes to the financial statements, including the summary of significant accounting policies set out in note 2. The financial reporting framework that has been applied in their preparation is Irish Law and FRS 102 The Financial Reporting Standard applicable in the UK and Republic of Ireland issued in the United Kingdom by the Financial Reporting Council.

In our opinion the financial statements:

- give a true and fair view of the assets, liabilities and financial position of the Company as at 31 August 2024 and of its profit for the year then ended;
- have been properly prepared in accordance with FRS 102 The Financial Reporting Standard applicable in the UK and Republic of Ireland; and
- have been properly prepared in accordance with the requirements of the Companies Act 2014, the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations, 2011, and the Central Bank (Supervision and Enforcement) Act 2013 (Section 48(1)) (Undertakings for Collective Investment in Transferable Securities) Regulations 2019.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (Ireland) (ISAs (Ireland)) and applicable law. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with ethical requirements that are relevant to our audit of financial statements in Ireland, including the Ethical Standard issued by the Irish Auditing and Accounting Supervisory Authority (IAASA), and we have fulfilled our other ethical responsibilities in accordance with these requirements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Conclusions relating to going concern

In auditing the financial statements, we have concluded that the directors' use of the going concern basis of accounting in the preparation of the financial statements is appropriate.

Based on the work we have performed, we have not identified any material uncertainties relating to events or conditions that, individually or collectively, may cast significant doubt on the Company's ability to continue as a going concern for a period of at least twelve months from the date when the financial statements are authorised for issue.

Our responsibilities and the responsibilities of the directors with respect to going concern are described in the relevant sections of this report. However, because not all future events or conditions can be predicted, this statement is not a guarantee as to the Company's ability to continue as a going concern.

INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF UBS (IRL) FUND PLC (CONTINUED)

Other information

The directors are responsible for the other information. The other information comprises the information included in the annual report other than the financial statements and our auditor's report thereon. Our opinion on the financial statements does not cover the other information and, except to the extent otherwise explicitly stated in our report, we do not express any form of assurance conclusion thereon.

Our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If we identify such material inconsistencies or apparent material misstatements, we are required to determine whether there is a material misstatement in the financial statements or a material misstatement of the other information. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact.

We have nothing to report in this regard.

Opinions on other matters prescribed by the Companies Act 2014

In our opinion, based solely on the work undertaken in the course of the audit, we report that:

- the information given in the directors' report for the financial year ended for which the financial statements are prepared is consistent with the financial statements; and
- the directors' report has been prepared in accordance with applicable legal requirements.

We have obtained all the information and explanations which, to the best of our knowledge and belief, are necessary for the purposes of our audit.

In our opinion the accounting records of the Company were sufficient to permit the financial statements to be readily and properly audited and the financial statements are in agreement with the accounting records.

Matters on which we are required to report by exception

Based on the knowledge and understanding of the Company and its environment obtained in the course of the audit, we have not identified material misstatements in the directors' report.

The Companies Act 2014 requires us to report to you if, in our opinion, the disclosures required by sections 305 to 312 of the Act, which relate to disclosures of directors' remuneration and transactions are not complied with by the Company. We have nothing to report in this regard.

INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF UBS (IRL) FUND PLC (CONTINUED)

Respective responsibilities

Responsibilities of directors for the financial statements

As explained more fully in the directors' responsibilities statement set out on page 8, the directors are responsible for the preparation of the financial statements in accordance with the applicable financial reporting framework that give a true and fair view, and for such internal control as they determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Auditor's responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (Ireland) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

A further description of our responsibilities for the audit of the financial statements is located on the IAASA's website at: https://iaasa.ie/wp-content/uploads/docs/media/IAASA/Documents/audit-standards/Description_of_auditors_responsibilities_for_audit.pdf. This description forms part of our auditor's report.

The purpose of our audit work and to whom we owe our responsibilities

Our report is made solely to the Company's members, as a body, in accordance with section 391 of the Companies Act 2014. Our audit work has been undertaken so that we might state to the Company's members those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the Company and the Company's members, as a body, for our audit work, for this report, or for the opinions we have formed.

Kieran Daly

for and on behalf of
Ernst & Young Chartered Accountants and Statutory Audit Firm
Dublin, 26 November 2024

Report of the Depositary to the shareholders

We have enquired into the conduct of UBS (Irl) Fund plc, (the "Company") for the financial year ended 31 August 2024, in our capacity as Depositary to the Company.

This report including the opinion has been prepared for and solely for the shareholders in the Company, in accordance with Regulation 34, (1), (3) and (4) in Part 5 of the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011, as amended, (the "UCITS Regulations"), and for no other purpose. We do not, in giving this opinion, accept or assume responsibility for any other purpose or to any other person to whom this report is shown.

Responsibilities of the Depositary

Our duties and responsibilities are outlined in Regulation 34, (1), (3) and (4) in Part 5 of the UCITS Regulations. One of those duties is to enquire into the conduct of the Company in each annual accounting period and report thereon to the shareholders.

Our report shall state whether, in our opinion, the Company has been managed in that period in accordance with the provisions of the Company's Memorandum and Articles of Association and the UCITS Regulations. It is the overall responsibility of the Company to comply with these provisions. If the Company has not so complied, we as Depositary must state why this is the case and outline the steps which we have taken to rectify the situation.

Basis of Depositary opinion

The Depositary conducts such reviews as it, in its reasonable opinion, considers necessary in order to comply with its duties as outlined in Regulation 34, (1), (3) and (4) in Part 5 of the UCITS Regulations and to ensure that, in all material respects, the Company has been managed (i) in accordance with the limitations imposed on its investment and borrowing powers by the provisions of the Company's Memorandum and Articles of Association and the UCITS Regulations and (ii) otherwise in accordance with the Company's constitutional documentation and the appropriate regulations.

Opinion

In our opinion, the Company has been managed during the financial year, in all material respects:

- (i) in accordance with the limitations imposed on the investment and borrowing powers of the Company by the Memorandum and Articles of Association, the UCITS Regulations and the Central Bank (Supervision and Enforcement) Act 2013 (Section 48(1)) (Undertakings for Collective Investment in Transferable Securities) Regulations 2019 (the "Central Bank UCITS Regulations"); and

- (ii) otherwise in accordance with the provisions of the Memorandum & Articles of Association, the UCITS Regulations and the Central Bank UCITS Regulations.

Notes to the financial statements for the financial year ended 31 August 2024

1. Organisation

UBS (Irl) Fund plc (the "Company") is organised as an investment company with variable capital under the laws of Ireland as a public limited company pursuant to the Companies Act 2014 (as amended) (the "Act"). It has been authorised by the Central Bank of Ireland (the "Central Bank") as an Undertaking for Collective Investment in transferable Securities ("UCITS") pursuant to the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations, 2011 (as amended) (the "UCITS Regulations") and the Central Bank (Supervision and Enforcement) Act 2013 (Section 48(1)) (Undertakings for Collective Investment in Transferable Securities) Regulations 2019 ('the Central Bank UCITS Regulations').

The Company was incorporated on 30 October 1992 under registration number 195061 and authorised by the Central Bank on 9 November 1992. The registered office of the Company is Second Floor, 5 Earlsfort Terrace, Dublin, D02 CK83, Ireland.

The Company is organised in the form of an umbrella fund with segregated liability between sub-funds and at 31 August 2024 the Company comprised of four active sub-funds: Select Money Market Fund—USD, Select Money Market Fund—EUR, Select Money Market Fund—GBP and Select Money Market Fund—US Treasury (each a "Fund" or collectively the "Funds").

Select Money Market Fund—USD, Select Money Market Fund—EUR, Select Money Market Fund—GBP and Select Money Market Fund—US Treasury commenced operations on 17 September 2002, 7 May 2015, 11 September 2015 and 14 November 2018, respectively.

Select Money Market Fund—USD, Select Money Market Fund—EUR, Select Money Market Fund—GBP and Select Money Market Fund—US Treasury have in issue, as at 31 August 2024, nineteen, sixteen, sixteen and nine classes of shares, respectively. Details of new share classes issued, share classes reissued or share classes closed during the financial year ended 31 August 2024 can be seen in Note 12 analysis of changes in financial situation.

The investment objective of Select Money Market Fund—USD is to earn maximum current income in US Dollar terms consistent with liquidity and the preservation of capital.

The investment objective of Select Money Market Fund—EUR is to earn maximum current income in Euro terms consistent with liquidity and the preservation of capital.

The investment objective of Select Money Market Fund—GBP is to earn maximum current income in Sterling terms consistent with liquidity and the preservation of capital.

The investment objective of Select Money Market Fund—US Treasury is to earn maximum current income in US Dollar terms consistent with liquidity and the preservation of capital.

All of the Funds are short-term money market funds. The Company appointed UBS Fund Management (Ireland) Limited (the "Manager") as manager of the Company pursuant to the management company agreement. The Manager was incorporated as a public limited company in Ireland and has obtained the necessary passport and permissions to act as a UCITS management company of the Company.

2. Significant accounting policies

These annual audited financial statements have been prepared for the financial year ended 31 August 2024. The principal accounting policies applied in the preparation of these financial statements are set out below. The policies have been consistently applied in the financial year and comparative financial year presented, unless otherwise stated.

The financial statements are prepared under the historical cost convention modified by the revaluation of financial assets and financial liabilities held at fair value through profit or loss. These financial statements for the financial year ended 31 August 2023 have been prepared in accordance with the Financial Reporting Standard 102 ("FRS 102"), the Companies Act, 2014 (as amended) and the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations, 2011 (as amended) (the "UCITS Regulations"); and under the Central Bank (Supervision and Enforcement) Act 2013 (Section 48(1)) Undertakings for Collective Investment in Transferable Securities) Regulations 2019 (the "UCITS Regulations"). References to statutes, regulations and laws shall include any amendments thereto.

The Company has availed of the exemption available to open-ended investment funds under FRS 102 and is not presenting a cash flow statement.

The format and wording of certain line items on the primary statements contains departures from the guidelines set out in the Act to reflect the Company's structure as an investment fund.

All references to net assets throughout the documents refers to net assets attributable to holders of Redeemable Participating Shares unless otherwise stated.

a) Valuation of investments**Financial assets and financial liabilities at fair value through profit or loss**

This category has two sub-categories: financial assets and liabilities held for trading and those designated by the directors at fair value through profit and loss at inception. All instruments in the portfolios of investments are classified as held for trading.

For the four Funds, commercial paper, certificates of deposit, fixed and floating rate notes, time deposits, corporate bonds and treasury bills are held in the financial statements at fair value.

For purposes of determining the redemption value of the redeemable participating shares in Select Money Market Fund—US Treasury, a Public Debt Constant Net Asset Value Money Market Fund (“CNAV MMF”), the financial assets held are valued using amortised cost which approximates fair value. Effective 4 March 2019, investments of the Low Volatility Net Asset Value Money Market Funds (“LVNAV MMF”): Select Money Market Fund—USD, Select Money Market Fund—EUR and Select Money Market Fund—GBP, that have a residual maturity of more than 75 days or whose mark-to-market value is not within 10 basis points of the amortised cost value are valued by using bid prices. Under FRS 102, in accounting for all of its financial instruments, an entity is required to apply one of the following:

- a) the full provisions of section 11 “Basis Financial Instruments” and section 12 “Other Financial Instruments” of FRS 102; or
- b) the recognition and measurement provisions of IAS 39 Financial Instruments: Recognition and Measurement and only the disclosure requirements of Sections 11 and 12 of FRS 102; or
- c) the recognition and measurement provisions of International Financial Reporting Standards (“IFRS”) 9 “Financial Instruments” (“IFRS 9”) and the disclosure requirements of Sections 11 and 12 of FRS 102.

The Company has chosen to implement the recognition and measurement provisions of IAS 39 and only the disclosure requirements of Sections 11 and 12 of FRS 102.

Where market quotations are readily available, portfolio securities are valued in the financial statements based upon market quotations, provided such quotations adequately reflect, in the judgement of the relevant Investment Manager’s, the fair value of securities. Where market quotations are not readily available, securities are valued based upon appraisals received from a pricing service which utilises a computerised matrix pricing system or based upon appraisals derived from information concerning those

securities or similar securities received from recognised dealers in those securities. There were no such valuations at 31 August 2024 or 31 August 2023.

All other assets are valued in the financial statements at fair value as determined in good faith by or under the direction of the Company’s board of directors. Discounted debt obligations are valued at fair value, with the discount on purchases being amortised to income over the financial year from purchase date to maturity date.

Subsequent to the initial recognition, all instruments classified at fair value through profit or loss are measured at fair value with changes in their fair value recognised in the statement of comprehensive income.

Amortised cost

The Fund measures financial assets at amortised cost if both of the following conditions are met:

- It is held within a business model whose objective is to hold financial assets in order to collect contractual cash flows; and
- Its contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

The Fund includes in this category reverse repurchase agreements.

b) Investment transactions and investment income

Investment transactions are recorded on the trade date. Realised gains and losses from investment transactions are calculated using the “first-in first-out” (FIFO) method. Realised gains and losses are recognised within Net gains/(losses) on financial assets at fair value through profit or loss in the statement of comprehensive income.

Interest income is recognised for all debt instruments using the effective interest method. The effective interest method is a method of calculating the amortised cost of a financial asset or financial liability and of allocating the interest income or interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash payments or receipts throughout the expected life of the financial instrument, or a shorter period where appropriate, to the net carrying amount of the financial asset or financial liability. When calculating the effective interest rate, the Company estimates cash flows considering all contractual terms of the financial instruments but does not consider future credit losses. The calculation includes all fees paid or received between parties to the contract that are an integral part of the effective interest rate, transaction costs and all other premiums or discounts.

c) Expenses

Expenses are accounted for on an accrual basis.

d) Share class allocations

Income, expenses (excluding class specific expenses) and realised/unrealised gains/losses pertaining to the Funds are allocated proportionately to each class of shares based upon the relative Net Asset Value ("NAV") of outstanding shares of each class at the beginning of the day (after adjusting for subscriptions, repurchases and distributions affecting the respective classes). Class-specific expenses are charged directly to the applicable class of shares.

e) Distributions payable to holders of redeemable participating shares

With respect to each Fund, dividends may be declared out of the following sources:

(i) net investment income which includes accrued interest and accretion of discount, less amortisation of market premium and accrued expenses and dividends; and (ii) realised profits on the disposal of investments less realised and unrealised losses (including fees and expenses) at the frequency indicated in the relevant Fund Supplement.

Accumulating Shares are dividend roll-up Classes. As such, income and gains attributable to Accumulating Shares of a Fund will not be paid out but rather will be retained and reflected in the respective share prices of the Accumulating Shares.

In the case of the Distributing Shares, a Fund's dividends are paid in additional Shares of the same Class of such Fund unless the Shareholder has requested cash payments.

Dividends to the holders of Distributing Shares are recorded on the ex-dividend date. The dividends are recognised in the statement of comprehensive income as a finance cost. The portion of such dividends paid in additional Shares in the Fund is recognised as Reinvested dividends paid to redeemable participating shareholders in the statement of changes in net assets attributable to holders of redeemable share.

f) Functional and presentation currency

Items included in the Company's financial statements are measured using the currency of the primary economic environment in which it operates ("the functional currency"). The functional currency of Select Money Market Fund—USD and Select Money Market Fund—US Treasury is the US Dollar, denoted by the symbol \$ or US\$. The functional currency of Select Money Market Fund—EUR is the Euro, denoted by the symbol € or EUR. The functional currency of Select Money Market Fund—GBP is the British Pound Sterling, denoted by the symbol £ or GBP. For aggregation purposes, all assets and liabilities, together with income and expenses for all classes of shares, are translated into US Dollars, being the presentation currency of the Company, at the respective financial year-end exchange rate for the statement of financial position and at the average rate for the respective financial

year for the statement of comprehensive income and for the statement of changes in net assets attributable to holders of redeemable participating shares. The difference arising from translation of the primary financial statements at different exchange rates, for the purpose of producing the financial statements of the Company, is included as a foreign currency translation adjustment in the statement of changes in net assets attributable to holders of redeemable participating shares. This adjustment is not attributable to any particular Fund.

g) Subscriber shares

There are seven subscriber shares of no par value, three held on trust by Attleborough Limited and four held on trust by Fand Limited, in each case for the benefit of UBS Asset Management (Americas) LLC as at 31 August 2024 and 31 August 2023. The shares do not form part of the NAV of the Funds and are thus disclosed in the financial statements by way of this note only. The subscriber shares entitle the holders to attend and vote at all meetings of the Company and of the relevant Fund represented by those Shares or Class of Shares.

h) Redeemable shares

The Company issues redeemable participating shares, which are redeemable at the holder's option. Redeemable participating shares can be redeemed at any time subject to the Articles of Association for cash equal to a proportionate share of the relevant Class's NAV. The redeemable participating shares are carried at the redemption amount that is payable at the statement of financial position date if the holder exercises the right to redeem their shares. Redeemable participating shares are issued and redeemed at the holder's option at prices based on the relevant NAV per share at the time of issue or redemption. The NAV of each Class shall be determined by calculating the amount of the NAV attributable to each Class, less its liabilities by the number of Shares in issue in that Class. The amount of the NAV of a Fund attributable to a Class shall be determined by establishing the proportion of the assets of the Class as at the most recent NAV calculation or the close of the Initial Offer Period in the case of an initial offer of a Class, adjusted to take account of any subscription orders (after deduction of any redemption orders) and by allocating relevant expenses and fees to the Class and making appropriate adjustments to take account of distributions paid, if applicable, and apportioning the NAV accordingly.

i) Critical accounting estimates and judgements

The preparation of financial statements in conformity with FRS 102 requires the use of certain critical accounting estimates. It also requires the Board of Directors to exercise its judgement in applying the Company's accounting policies. The resulting accounting estimates will, by definition, seldom equal the actual results. The financial statements are thus prepared on a going concern basis.

Going concern

The Company's management has made an assessment of the Company's ability to continue as a going concern and is satisfied that the Company has the resources to continue in business for the foreseeable future, being at least the next twelve months subsequent to the approval of the financial statements. Furthermore, the management is not aware of any material uncertainties that may cast significant doubt upon the Company's ability to continue as a going concern.

Fair value of financial assets

When the fair value of financial assets recorded in the Statement of Financial Position cannot be derived from active markets, they are determined using a variety of valuation techniques that include the use of mathematical models. The inputs to these models are taken from observable markets where possible, but where this is not feasible, a degree of judgment is required in establishing fair values. At 31 August 2024 and 31 August 2023 no positions were fair valued using mathematical models.

j) Cash and cash equivalents

Cash and cash equivalents are comprised of cash balances held with the Depositary at the financial year end. Cash and cash equivalents are carried at amortised cost which approximates its fair value.

k) Reverse repurchase agreements

Reverse repurchase agreements are transactions in which a Fund purchases securities from a bank or recognised securities dealer and simultaneously commits to resell the securities to the bank or dealer at an agreed-upon date and price or upon demand reflecting a market rate of interest unrelated to the coupon rate or maturity of the purchased securities. Although reverse repurchase agreements carry certain risks not associated with direct investments in securities, a Fund which intends to enter into a reverse repurchase agreement will do so only with banks and dealers in transactions believed by the Manager or the relevant Investment Manager to present minimal credit risks. The relevant Fund will bear a risk of loss in the event that the other party to the transaction defaults on its obligation and the relevant Fund is delayed or prevented from exercising its rights to dispose of the underlying securities. The Fund will, in particular, be subject to the risk of a possible decline in the value of the underlying securities during the period in which the Fund seeks to assert its right to them, the risk of incurring expenses associated with asserting those rights and the risk of losing all or a part of the income from the agreement. As at 31 August 2024, Select Money Market Fund—USD and Select Money Market Fund—US Treasury held reverse repurchase agreements (31 August 2023: Select Money Market Fund—USD and Select Money Market Fund—US Treasury).

l) Securities collateral received for repurchase agreements

Collateral received is in the form of securities and is held with the Depositary. Collateral is held subject to the terms of the bilateral agreement with the counterparty. The re-use of stock collateral, whether selling, pledging, investing or otherwise, is not permitted. The collateral is marked-to-market daily to ensure that the market value of the underlying assets remains sufficient to protect the Fund in the event of default by the seller. If the seller defaults or enters into insolvency proceedings and the value of the collateral declines, recovery of cash by the Fund may be delayed or limited. Further details on securities collateral is disclosed within the Schedule of Collateral on page 92.

m) Receivables and Payables

Receivables and payables as recognised in the statement of financial position represent amounts receivable and payable respectively, for transactions contracted for but not yet delivered and/or settled at the end of the financial year.

n) Interest expense

Interest expense on reverse repurchase agreements and bank overdrafts is recognised in the Finance cost section of the statement of comprehensive income.

o) Income Equalisation

Income equalisation arrangements are applied in the case of subscriptions to and redemptions from certain Funds. The NAV per redeemable participating share as calculated on each Dealing Day has an income element and a capital element. In relation to any subscription or redemption, the monies received or paid are allocated proportionately to or from income and capital in a Fund. These arrangements are intended to ensure that the income per redeemable participating share, which is distributed in respect of any distribution year for which a distribution is made, is not affected by changes in the number of redeemable participating shares in issue during that financial year and to ensure dividend distributions are paid to shareholders at the same rate. The calculation of equalisation is based on net income. Income equalisation is included in the Capital share transactions section of the statement of changes in net assets attributable to holders of redeemable participating shares, for all Funds.

p) Segment reporting

Operating segments are reported in a manner consistent with the internal reporting used by the chief operating decision makers. The chief operating decision makers, who are responsible for allocating resources and assessing performance of the operating segments, has been identified as the Investment Managers.

3. Fees and expenses

Each Fund pays all of its expenses and such proportion of the Company's expenses as is allocated to that Fund, other than those expressly absorbed by the Manager. The directors or their delegate shall allocate expenses among the Funds and their classes as they deem equitable.

Directors' fee

The directors are entitled to a fee in remuneration for their services at a rate to be determined from time to time by the directors. It is intended that none of the directors who are affiliated with the Investment Manager or its affiliates will receive a director's fee. It is expected that the fees payable by the Company per director will not exceed €35,000 each financial year. In addition, the Company shall pay all costs incurred in organising directors' meetings, including the directors' travel expenses.

Directors' fees, which relate solely to qualifying services, charged to the Company for the financial year ended 31 August 2024 were US\$48,667 (31 August 2023: US\$75,910). Amounts outstanding at financial year end were US\$6,927 (31 August 2023: US\$37,985).

Transaction costs

Transaction costs are defined as the incremental costs that are directly attributable to the acquisition, issue or disposal of a financial asset or financial liability. An incremental cost is one that would not have been incurred if the entity had not acquired, issued or disposed of the financial instrument. There were no transaction costs for the financial year ended 31 August 2024 (financial year ended 31 August 2023: Nil).

Voluntary cap on annual expenses

The Investment Manager has undertaken to limit the Annual Expenses (as defined in the prospectus) attributable to each class of share as set out below, for each Fund and for each share class that has launched. Each figure is expressed as a percentage per annum of the average daily net assets of the particular share class. The Annual Expenses will accrue daily and will generally be paid monthly in arrears. To achieve this, the Investment Manager will absorb, either directly by waiving a portion of its investment management fee or by reimbursement to the account of the relevant class of the Fund, any Annual Expenses over the applicable Voluntary Cap (as defined in the prospectus) that may arise. As each Voluntary Cap has been agreed to by the Investment Manager on a voluntary basis, the Investment Manager may from time to time increase or decrease the Voluntary Cap in respect of any particular class of the Fund, subject to a maximum of 1.00% per annum in each class of the Fund, by notice in writing to the Company in which case the Company will notify the shareholders of the relevant class in the financial statements and, in the case of an increase, will also notify

them in writing prior to implementation. The 1.00% per annum maximum charge may be increased only with the prior approval of shareholders by ordinary resolution of the relevant class.

The Voluntary Cap on Annual Expenses for each class in each Fund is as follows:

Select Money Market Fund—USD

	Annual expense (voluntary cap)
Institutional Shares (Dist.)	0.18%

Total amounts due from the Investment Manager amounted to US\$Nil at year ended 31 August 2024 (31 August 2023:Nil)

Manager fees

The Manager is entitled to receive from each Fund or Class such fee. The Manager may differentiate between the Shareholders by waiving or reducing the annual management fees charged to certain Shareholders. The Manager shall also be entitled to reimbursement by the relevant Fund of all reasonable out-of-pocket expenses incurred by it in the performance of their respective obligations. The relevant Fund shall bear the cost of any value added tax applicable to any fees or other amounts payable to or by the Manager in the performance of its duties.

Investment management fees

The Investment Managers receive an annual fee (the "Investment Management Fee") in respect of each Fund for investment management services, subject to the Voluntary Cap as set out above for each Fund. All Investment management fees are calculated daily and paid monthly in arrears. Notwithstanding the foregoing, the Investment Managers, in their discretion, may waive payment or reduce its portion of the Investment Management Fee at any time. In addition, the Investment Managers may rebate a portion of its Investment Management Fee to certain sales intermediaries who may be affiliates of the Investment Managers who assist in the placement of the shares. The Investment Managers shall discharge, out of the Investment Management Fee, the fees and expenses of the sub-investment managers.

Total Investment management fee waivers for the financial year ended 31 August 2024 were US\$Nil, of this amount US\$Nil related to Select Money Market Fund—USD, €Nil related to Select Money Market Fund—EUR and £Nil related to Select Money Market Fund—GBP and US\$Nil related to Select Money Market Fund—US Treasury (31 August 2023: US\$20,806, of this amount US\$Nil related to Select Money Market Fund—USD, €19,599 related to Select Money Market Fund—EUR and £Nil related to Select Money Market Fund—GBP and US\$Nil related to Select Money Market Fund—US Treasury).

Administration fees

Administration fees include trustee, depository, transfer agency, accounting and administration fees.

Transfer agency fees which include account set up costs, transaction charges and cash/wire payments are all charged at normal commercial rates.

Expenses relating to each class of shares

The primary differences between the classes of shares in each Fund lies in their Annual Expenses, investor eligibility requirements, distribution policy and the required minimum initial investment. Each class has distinct advantages and disadvantages for different investors, and investors may choose the class which best suits their circumstances and objectives.

Sales intermediary fees

The distributors may pay sales intermediaries for nominee and other distribution services from their own assets and such sales intermediaries may receive different levels of compensation in respect of such services. Any fees payable by the Company to distributors shall be at normal commercial rates. Certain distributors or sales intermediaries may charge a fee or sales charge directly to investors in the Funds. Investors should consult their distributor or sales intermediary for further information in this regard.

Other fees and interest expense

Other fees relate principally to fees comprising professional and taxation advisory fees. Included in other fees is an amount of €Nil (31 August 2023: €10,381), which represents an expense due to negative yields on time deposits, held by Select Money Market Fund—EUR. These negative coupon rates that are charged by certain institutions are driven by the current market. This amount is excluded from the total expense ratio calculation.

4. Taxation

Under current Irish law and practice the Company qualifies as an investment undertaking as defined in Section 739B of the Taxes Consolidation Act, 1997 (as amended). On that basis, it is not chargeable to Irish tax on its income and gains.

However, Irish tax may arise on the happening of a “chargeable event”. A chargeable event includes any distribution payments to shareholders or any encashment, redemption, cancellation or transfer of shares. No Irish tax will arise on the Company in respect of chargeable events in respect of:

- (i) a shareholder who is neither Irish resident nor ordinarily resident in Ireland for tax purposes at the time of the chargeable event, provided an appropriate valid declaration in accordance with the provisions of the Taxes Consolidation Act, 1997 (as amended), is held by the Company;
- (ii) certain exempted Irish tax resident shareholders who have provided the Company with the necessary signed statutory declarations.

Capital gains, dividends, and interest received on investments made by the Company may be subject to withholding taxes imposed by the country from which the investment income/gains are received and such taxes may not be recoverable by the Company or its shareholders.

5. Soft commission

There were no soft commission arrangements during the current financial year or during the prior financial year.

6. Directed brokerage

There were no directed brokerage services utilised for the financial year ended 31 August 2024 (2023: Nil).

7. Exchange rates

The accounts of the Company have been prepared in US Dollars. The principal exchange rates to the US Dollar used in the preparation of the financial statements at 31 August 2024 and 31 August 2023 were as follows:

31 August 2024 currency	Year end rate	Average rate	31 August 2023 currency	Year end rate	Average rate
Euro	0.9022	0.9246	Euro	0.9168	0.9420
Pound Sterling	0.7588	0.7913	Pound Sterling	0.7871	0.8200

8. Financial risk management

i) Strategy in using financial instruments

The investment objectives of the Funds are listed in Note 1. There can be no assurance that the Funds will achieve their objectives. The Funds are managed by the Investment Managers.

Select Money Market Fund—USD invests in high quality, short-term, US Dollar denominated debt securities of US and non-US governmental and other issuers.

Select Money Market Fund—EUR invests in high quality, short-term, Euro-denominated debt securities of EU and non-EU governmental and other issuers.

Select Money Market Fund—GBP invests in high quality, short-term, Sterling-denominated debt securities of U.K. and non-U.K. governmental and other issuers.

Select Money Market Fund—US Treasury invests in high quality, short-term, US Dollar denominated debt securities of US and non-US governmental and other issuers.

In pursuit of its investment objective, each Fund will invest in variable and floating rate securities, instruments and obligations that have, or are deemed to have, remaining maturities of 397 days or less. Each Fund will maintain:

- (i) a weighted average maturity of no more than 60 days and
- (ii) a weighted average life of no more than 120 days.

ii) Market price risk

Select Money Market Fund—USD may purchase only those obligations that the relevant Investment Manager determines present minimal credit risks and are “First Tier Securities”. First Tier Securities include US government securities, securities of similarly managed investment companies that are short-term money market funds and securities that are (1) rated in one of the two highest short-term rating categories by each Rating Agency that has rated the instrument; (2) rated in one of the two highest short-term rating categories by a single Rating Agency if only that Rating Agency has assigned the obligation a short-term rating; (3) unrated, but issued by an issuer that has received such a short-term rating with respect to a security that is comparable in priority and security; (4) unrated, but subject to a guarantee rated in one of the two highest short-term rating categories or issued by a guarantor that has received one of the two highest short-term rating categories for a comparable debt obligation; or (5) unrated, but determined by the relevant Investment Manager to be of comparable quality.

Select Money Market Fund—EUR may purchase only those obligations that the relevant Investment Manager determines present minimal credit risks and are “First Tier Securities”. First Tier Securities include EU government securities, securities of similarly managed investment companies that are short-term money market funds and securities that are: (1) rated in one of the two highest short-term rating categories by each Rating Agency that has rated the instrument; (2) rated in one of the two highest short-term rating categories by a single Rating Agency if only that Rating Agency has assigned the obligation a short-term rating; (3) unrated, but issued by an issuer that has received such a short-term rating with respect to a security that is comparable in priority and security; (4) unrated, but subject to a guarantee rated in one of the two highest short-term rating categories or issued by a guarantor that has received one of the two highest short-term rating categories for a comparable debt obligation; or (5) unrated, but determined by the relevant Investment Manager to be of comparable quality.

Select Money Market Fund—GBP may purchase only those obligations that the relevant Investment Manager determines present minimal credit risks and are “First Tier Securities”. First Tier Securities include U.K. government securities, securities of similarly managed investment companies that are short-term money market funds and securities that are: (1) rated in one of the two highest short-term rating categories by each Rating Agency that has rated the instrument; (2) rated in one of the two highest short-term rating categories by a single Rating Agency if only that Rating Agency has assigned the obligation a short-term rating; (3) unrated, but issued by an issuer that has received such a short-term rating with respect to a security that is comparable in priority and security; (4) unrated, but subject to a guarantee rated in one of the two highest short-term rating categories or issued by a guarantor that has received one of the two highest short-term rating categories for a comparable debt obligation; or (5) unrated, but determined by the relevant sub-investment manager to be of comparable quality.

Select Money Market Fund—US Treasury may purchase only those obligations that the relevant Investment Manager determines present minimal credit risks, and where required by the Money Market Fund Regulation receive a favourable credit assessment. The relevant Investment Manager shall perform its own documented assessment of the credit quality of a security in order to determine that it presents minimal credit risks and will monitor credit quality on an ongoing basis. Where a security is downgraded below the two highest short-term credit ratings by such an agency, this shall result in a new credit assessment being conducted of the instrument by the relevant Investment Manager without delay. With the exception of permitted investments in unlisted securities, investment will be restricted to the securities traded on the Regulated Markets as set out in the Prospectus.

For efficient portfolio management purposes and investment purposes, the Company may employ investment techniques such as reverse repurchase agreements and financial derivative instruments, such as trading in options, futures contracts, and other derivative instruments, subject to the conditions and within the limits from time to time laid down by the Central Bank. During the financial year, the Company employed reverse repurchase agreements on Select Money Market Fund—USD and Select Money Market Fund—US Treasury as techniques or instruments for efficient portfolio management purposes. See Schedule of Collateral on page 92 for the collateral disclosure on the reverse repurchase agreements held on the Funds.

All securities investments present a risk of loss of capital. The relevant Investment Manager seeks to moderate this risk through a careful selection of securities and other financial instruments within mandated limits except for forward currency contracts. The maximum risk resulting from financial instruments is determined by the fair value of the financial instruments at the date of purchase. The Funds’ overall market positions are monitored on a daily basis by the relevant Investment Manager.

The Funds’ positions are susceptible to market price risk arising from uncertainties about future prices of the instruments. The Funds’ market price risk is managed through diversification of the investment portfolio’s exposures. At 31 August 2024 and 31 August 2023, the overall market exposures were as follows:

31 August 2024

	Select Money Market Fund—USD		Select Money Market Fund—EUR		Select Money Market Fund—GBP		Select Money Market Fund—US Treasury	
	Fair Value	% of net assets	Fair Value	% of net assets	Fair Value	% of net assets	Fair Value	% of net assets
Financial assets at fair value through profit or loss-trading	\$5,960,442,418	77.58%	€1,485,766,060	100.02%	£655,033,920	100.04%	\$997,168,308	49.04%

31 August 2023

	Select Money Market Fund—USD		Select Money Market Fund—EUR		Select Money Market Fund—GBP		Select Money Market Fund—US Treasury	
	Fair Value	% of net assets	Fair Value	% of net assets	Fair Value	% of net assets	Fair Value	% of net assets
Financial assets at fair value through profit or loss-trading	\$4,359,367,478	86.45%	€1,090,724,416	102.00%	£960,887,774	109.74%	\$927,744,441	57.46%

As at 31 August 2024, the Funds’ market risk is affected by three main components: changes in actual market prices, interest rates and foreign currency movements. Interest rate movements are covered below with foreign currency movement included on page 55.

The maximum exposure to price risk at 31 August 2024 and 31 August 2023 is the amount of financial assets at fair value through profit or loss disclosed in the relevant portfolio of investments.

The Funds are absolute return biased and do not track a particular index. Although the Funds are susceptible to market price risk, the directors believe that disclosure of market price risk sensitivity is not material, as interest rates will have the most impact on the NAV of the Funds. Interest rate sensitivity is discussed below and shown in the table below the interest rate risk tables.

iii) Interest rate risk

The Funds’ interest-bearing financial assets and liabilities expose them to risks associated with the effects of fluctuations in the prevailing levels of market interest rates on its financial position and cash flows. Any excess cash and cash equivalent are invested at short-term market interest rates.

The table below summarises the Funds’ exposure to interest rate risks. It includes the Funds’ assets and trading liabilities at fair values, categorised by interest bearing and non-interest bearing.

For the purposes of compliance with FRS 102, assuming that the securities held in the Funds as at 31 August 2024 remain unchanged, an increase or decrease in interest rates by 100 basis points, with all other variables remaining constant, the net assets attributable to holders of redeemable shares for the financial year would have changed by the following:

	31 August 2024	31 August 2023
Select Money Market Fund—USD	\$9,032,890	\$5,264,625
Select Money Market Fund—EUR	€1,241,904	€1,048,394
Select Money Market Fund—GBP	£709,300	£906,333
Select Money Market Fund—US Treasury	\$1,937,172	\$414,050

The sensitivity analysis above is calculated on the basis of fixed interest rate and floating interest rate.

The relevant Investment Manager monitors their overall exposure and interest rate sensitivity on a daily basis.

iv) Credit risk

The Funds take on exposure to credit risk, which is the risk that a counterparty will be unable to pay amounts in full when due.

Impairment provisions are provided for losses that have been incurred by the statement of financial position date, if any.

Given the Funds' investment objectives, substantially all of their investments are categorised as investment grade as follows by Standard & Poor's rating agency (S&P):

31 August 2024

	Select Money Market Fund—USD % of fair value	Select Money Market Fund—EUR % of fair value	Select Money Market Fund—GBP % of fair value	Select Money Market Fund—US Treasury % of fair value

A-1	66.44%	54.45%	62.46%	—
NR	—	3.20%	11.86%	—

With the exception of time deposits, substantially all of the cash and investments of the Funds are held by the Depository at the financial year end and prior financial year end. The Funds are exposed to credit risk through the use of the Depository to custody the Funds' cash and investments. Bankruptcy or insolvency of the Depository may cause the Company's rights with respect to its cash and investments held by the Depository to be delayed or limited. The maximum exposure to this risk at 31 August 2024 and 31 August 2023 is the amount of cash and investments disclosed in the statement of financial position.

Time deposit counterparties are monitored such as any other issuer. Usually, time deposits are only held with deposit counterparties with whom the Company also holds bonds or are allowed to buy bonds. Hence, time deposit counterparties, although held outside of the Depository network, are included in the Company's usual credit research and monitoring process.

To mitigate the risks the Funds are exposed to in relation to the Depository, the relevant Investment Manager employs appropriate procedures to ensure that the counterparties are reputable institutions and that the credit risk is acceptable to the Funds. The Funds only transact with counterparties that are regulated entities subject to prudential supervision, or with high credit-ratings assigned by international credit-rating agencies. In addition, the Funds' securities are required under relevant agreement to be maintained by the Depository in segregated accounts.

The relevant Investment Manager places all securities trades with a small selection of reputable counterparties approved by its relevant compliance committee. The risk of default is considered as mitigated as the vast majority of securities are

dematerialised and thus the book entry is made for cash settlement at the same time as the book entry for the transfer of the security. A trade will fail if either party fails to meet its obligation.

The relevant Investment Manager monitors the Funds' credit position on a daily basis.

The relevant Investment Manager manages credit risk for transactions with counterparties by only using approved counterparties that belong to internationally recognised financial services firms or alternatively command a high market segment as determined by UBS Group (the "Group"). The Group's intention is to net its liabilities due to any counterparty against any asset due from the same counterparty. The following tables disclose the breakdown of securities and cash held with the Depository and other Counterparties at the financial year end.

31 August 2024

v) Liquidity risk

The Funds are exposed to daily cash redemptions of redeemable shares. They therefore invest the majority of their assets in investments that are traded in an active market and can be readily disposed of.

The Funds' listed securities are considered readily realisable as they are listed on recognised exchanges. The Funds have the ability to borrow in the short term to ensure settlement. No such borrowings have arisen during the financial year.

The Funds may invest in securities traded over the counter which are not traded in an organised market and may be illiquid. As a result, any Funds holding such investments may not be able to liquidate quickly their investments in these instruments at an amount close to their fair value to meet their liquidity requirements or to respond to specific events such as deterioration in the creditworthiness of any particular issuer. No such investments were held by the Funds during the

financial year.

The relevant Investment Manager monitors the Funds' liquidity on a daily basis.

The tables below analyse the Funds' financial liabilities into relevant maturity groupings based on the statement of financial position date to the contractual maturity date.

vi) Currency risk

The Funds may hold assets denominated in currencies other than their functional currency. They can therefore be exposed to currency risk, as the value of the securities denominated in other currencies will fluctuate due to changes in exchange rates.

For the financial year ended 31 August 2024 and 31 August 2023 Select Money Market Fund—USD, Select Money Market Fund—EUR, Select Money Market Fund—GBP and Select Money Market Fund—US Treasury each had no exposure to foreign currencies.

9. Fair value

The Company is required to classify fair value measurements using a fair value hierarchy that reflects the significance of the inputs used in making the measurements.

The fair value hierarchy has the following levels:

- quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date (Level 1);
- inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices) (Level 2); and
- inputs for the asset or liability that are not based on observable market data (that is, unobservable inputs) (Level 3).

The level in the fair value hierarchy within which the fair value measurement is categorised in its entirety is determined on the basis of the lowest level input that is significant to the fair value measurement in its entirety. For this purpose, the significance of an input is assessed against the fair value

measurement in its entirety. If a fair value measurement uses observable inputs that require significant adjustment based on unobservable inputs, that measurement is a Level 3 measurement. Assessing the significance of a particular input to the fair value measurement in its entirety requires judgement, considering factors specific to the asset or liability.

The determination of what constitutes 'observable' requires significant judgement by the Company. The Company

considers observable data to be that market data that is readily available, regularly distributed or updated, reliable and verifiable, not proprietary, and provided by independent sources that are actively involved in the relevant market.

The following tables analyse within the fair value hierarchy the Funds' financial assets and liabilities (by class) measured at fair value at 31 August 2024:

10. Segregated liability

The Company is an umbrella fund with segregated liability between sub-funds and, as such, under Irish law the Company generally will not be liable as a whole to third parties and there generally will not be the potential for cross liability between sub-funds, absent fraud or misrepresentation.

The Company is a single entity which may operate or have assets held on its behalf or be subject to claims in other jurisdictions which may not necessarily recognise such segregation. There is no guarantee that the courts of any jurisdiction outside Ireland will respect the limitations on

liability associated with companies with segregated liability between Funds, nor there is any guarantee that the creditors of one Fund will not seek to enforce such Fund's obligations against another Fund.

11. Contingent liability

In the opinion of the Directors none of the Funds or Company had any contingent liabilities as of 31 August 2024 and 31 August 2023.

12. Analysis of changes in financial situation during the financial year

The share capital of the Company shall at all times equal its NAV. The Directors are empowered to issue up to five hundred billion shares at the NAV per share on such terms and in such Funds as they may think fit. Transactions in redeemable participating shares of the Company for the financial year ended 31 August 2024 were as follows:

	Premier Shares (Acc.)		Preferred Shares (Dist.)

Held by:	Number of shares	% of total shares
Shareholder 1	959,661,385	72.57
Shareholder 6	200,305,517	15.15

The Company did not enter into any other transactions with related parties during the financial year.

14. Auditors' remuneration

Auditors' remuneration	31 August 2024	31 August 2023
Statutory audit (including expenses)	\$70,712	\$56,433
Tax advisory services	\$59,305	\$25,741

The above amounts reflect the audit fee agreed for the current financial statement year, however, amounts disclosed in the statement of comprehensive income are reflective of amounts accrued in the financial year.

There were no other assurance services or tax advisory services carried out by the Auditors in relation to the Company for the financial years ended 31 August 2024 and 31 August 2023. The Auditors performed tax advisory services (relating to investor reporting) for the Company for the financial years ended 31 August 2024 and 31 August 2023.

15. Significant events during the financial year

The names of the Funds of the Company changed, as noted below, during the financial year 31 August 2024. The name changes became effective 15 December 2023, the date the Prospectus and Fund supplements of the Company were updated to reflect the new name of the Funds.

Old Fund Name	New Fund Name
UBS (Irl) Select Money Market Fund—USD Sustainable	UBS (Irl) Select Money Market Fund—USD
UBS (Irl) Select Money Market Fund—EUR Sustainable	UBS (Irl) Select Money Market Fund—EUR

Old Fund Name	New Fund Name
UBS (Irl) Select Money Market Fund—GBP Sustainable	UBS (Irl) Select Money Market Fund—GBP

The name of UBS (Irl) Select Money Market Fund—US Treasury was not amended and remained unchanged.

The war in Ukraine and the ongoing conflict in the middle east have a material impact on financial markets, first and foremost on Russian, Ukrainian and Israeli securities but also on the wider markets globally. The situation remains very volatile and the Investment Manager is closely monitoring in order to quickly take appropriate action to protect the interest of investors in our funds. It has put in place the necessary measures to at all times comply with applicable law and regulations, in particular but not limited to the most recently enacted sanction regimes in the EU, Switzerland, UK and US. As we are experiencing serious trading limitations beyond sanctioned Russian securities, we are applying fair value pricing for all relevant securities where price quotes (if available) are not considered reflective of their current market

value. Depending on the future evolution of financial markets there may be a further impact on investment strategies. It is unclear right now whether this will require the application of liquidity measures in certain funds. These could include all such measures as indicated in the respective fund prospectuses.

Fund activity update

The Following Share classes launched or terminated during the financial year:

Fund	Class	Launch Date	Termination Date
Select Money Market Fund—USD	QL Shares (Acc.)	25 January 2024	—

18. Approval of financial statements

The financial statements were approved by the Directors of the Company on 20 November 2024.

Portfolio Turnover Rates (PTRs)

The portfolio turnover has been calculated as follows:

$$\frac{((\text{total purchases} + \text{total sales}) - (\text{total subscriptions} + \text{total redemptions})) * 100}{\text{Average of net assets during the period under review}}$$

The portfolio turnover statistics are the following for the financial year under review:

Fund	PTR %
Select Money Market Fund—USD	16,047%
Select Money Market Fund—EUR	13,330%
Select Money Market Fund—GBP	12,597%
Select Money Market Fund—US Treasury	23,013%

Purchases and sales of securities (unaudited)

Select Money Market Fund—USD

The following Schedule of Significant Portfolio Changes reflect the aggregate purchases of a security exceeding 1% of the total value of purchases and aggregate disposals greater than 1% of the total sales in the financial year. At a minimum the largest 20 purchases and sales are required to be disclosed, if applicable.

Appendix 1: Remuneration Policy (unaudited)

Remuneration Policy of the Manager

Background

UBS Fund Management (Ireland) Limited (the "Manager") has been authorised by the Central Bank of Ireland ("CBI") as UCITS Management Company under the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011, as amended (the "Regulations"). The Manager is subject to the relevant articles of the Regulations dealing with remuneration, including the Guidelines on Sound Remuneration Policies under the UCITS Directive (the "Guidelines") published by the European Securities and Markets Authority (ESMA/2016/575).

The Manager is a wholly owned subsidiary of UBS AG and is part of the UBS group. The Manager has a remuneration policy in place which is consistent with the UBS group remuneration policy. The Manager's policy was developed by senior management of the Manager, reviewed by the Human Resources function of UBS and approved by the Manager's board of directors. A summary of the key aspects of the UBS group remuneration practices is described in the following paragraphs.

UBS Compensation Governance and Philosophy

As determined in the Articles of Association and UBS's Organization Regulations, the UBS Group Compensation Committee supports the board of directors of UBS (the "BoD") in its duties to set guidelines on compensation and benefits, to oversee implementation thereof, to approve certain

compensation and to scrutinize executive performance. The Compensation Committee consists of independent BoD members, who are elected annually by UBS shareholders at the Annual General Meeting (the AGM), and is responsible for governance and oversight of the UBS compensation process and practices. This includes the alignment between pay and performance, and ensuring that the compensation framework supports appropriate risk awareness and management, as well as appropriate risk-taking. In 2023, to additionally support the connection between the Compensation Committee and the Risk Committee, the Compensation Committee Chairperson was also a member of the Risk Committee. The Risk Committee, a committee of the BoD, works closely with the Compensation Committee with the goal of ensuring that the compensation framework appropriately reflects risk awareness and management, and supports appropriate risk-taking. It supervises and sets appropriate risk management and risk control principles and is regularly briefed on how risk is factored into the compensation process. It also monitors the involvement of Group Risk Control and Compliance and Operational Risk in compensation and reviews risk-related aspects of the compensation process.

All elements of pay are considered when making UBS compensation decisions. UBS regularly review its principles and compensation framework in order to remain competitive and aligned with stakeholders' interests. In 2023, the UBS

compensation framework remained broadly unchanged. UBS will continue to review our approach to salaries and performance awards, considering market developments, our performance and our commitment to deliver sustainable returns to shareholders.

UBS's compensation approach supports the firm's purpose and strategy, fosters engagement among employees and aligns their long-term interests with those of clients and stakeholders. The compensation structure encourages employees to have a focus on risk management and behave consistently with the firm's risk framework and appetite, thereby anticipating and managing risks effectively to protect UBS's capital and reputation. Compensation is appropriately balanced between fixed and variable elements and delivered over an appropriate period to support UBS's growth ambitions and sustainable performance. Compensation for each employee is based on individual, team, business division and Group performance, within the context of the markets in which UBS operates. At UBS, a holistic Total Reward approach is applied, generally consisting of fixed compensation (base salary and role-based allowances, if applicable), performance awards, pension contributions and benefits. UBS's Total Reward approach is structured to support sustainable results and growth ambitions. The Total Reward Principles apply to all employees globally, but may vary in certain locations due to local legal requirements, regulations and practices.

UBS's compensation philosophy focuses on balancing performance with appropriate risk-taking, retaining talented employees and shareholder returns. Its overall performance award pool funding

percentage reduces as financial performance increases. In years of strong financial performance, this prevents excessive compensation and results in an increased proportion of profit before performance awards being available for distribution to shareholders or growing the Group's capital. In years where performance declines, the performance award pool will generally decrease; however, the funding percentage may increase. UBS's performance award pool funding framework is based on Group and business division performance, including achievements against defined performance measures. For the avoidance of doubt, UBS have excluded the positive and negative financial impacts generated by the acquisition of the Credit Suisse Group (such as the negative goodwill of USD 27.7bn) from consideration in the UBS performance award pool determination process. In assessing performance, UBS consider relative performance versus peers, market competitiveness of its pay position, as well as progress against strategic and integration objectives, including returns, risk-weighted assets and cost efficiency.

The Risk and Compliance functions support UBS's holistic reflection and consideration of the financial and non-financial impact (including reputation) of risk matters. UBS further considers the firm's risk profile and culture, the extent to which operational risks and audit issues have been identified and resolved, and the success of risk reduction initiatives

including accountability for significant events. The funding for Group Functions is linked to overall Group performance and reflects headcount, workforce location and demographics. For each functional area, quantitative and qualitative assessments evaluate service quality, risk management and financial achievements.

UBS's decisions regarding the performance award pool also balance consideration of financial performance with a range of factors, including diversity, equity and inclusion ("DE&I") and other environmental, social and governance ("ESG") metrics, the impact of litigation, regulatory costs, the effect of changes in financial accounting standards, capital returns, and relative total shareholder return.

UBS Material Risk Takers and Key Risk Takers

For relevant EU- or UK-regulated entities, UBS identifies individuals who are deemed to be Material Risk Takers (MRTs) based on sectorial and / or local regulatory requirements, including the respective EU Commission Delegated Regulation, the fifth iteration of the EU Capital Requirements Directive (CRD V) and equivalent UK requirements, as applicable. This group consists of senior management, risk takers, selected staff in control or support functions and certain highly compensated employees. For 2023, UBS identified 1,321 MRTs in relation to its relevant EU or UK entities. The increase in the number of MRTs compared with last year has been driven by the MRT population identified in relation to Credit Suisse legal entities. Subject to individual or legal-entity level proportionality considerations, variable compensation awarded to MRTs is subject to additional deferral and other requirements. For CRD-relevant entities, these include a minimum deferral rate of 40% or 60% (depending on role / variable compensation level) on performance awards and delivery of at least 50% of any upfront performance award in UBS shares that are vested but blocked for 12 months after grant. Deferred awards granted to MRTs under UBS's deferred compensation plans for their performance in 2023 are subject to 6- or 12-month blocking periods post vesting and do not pay out dividends or interest during the deferral period. Additionally, MRTs are subject to a maximum ratio between fixed and variable pay. Across EU locations, the maximum variable to fixed compensation ratio is set to 200%, based on approval through relevant shareholder votes. For UK-regulated MRTs, the maximum ratio was set by UBS taking into account the business activities and prudential and conduct risks of the relevant legal entities. In addition, the maximum ratios were set considering the scenario that the relevant legal entities might exceed their financial objectives. The maximum ratio for all UK-regulated MRTs was approved by the compensation committees of the relevant entities in December 2023. For up to seven years after grant, performance awards granted to MRTs are subject to clawback provisions, which allow UBS to claim repayment of both the upfront and the vested deferred element of any performance award if an individual is found to have contributed substantially to significant financial losses for the UBS Group

or UBS corporate structure in scope, a material downward restatement of disclosed results, or engaged in misconduct and / or failed to take expected actions, thus contributing to significant reputational harm.

Key Risk Takers (KRTs) are defined as those employees that, by the nature of their roles, have been determined to materially set, commit or control significant amounts of the firm's resources and / or exert significant influence over its risk profile. This includes employees working in front-office roles, logistics and control functions. Identifying KRTs globally is part of our risk control framework and an important element in ensuring we incentivize only appropriate risk-taking. For 2023, in addition to the Group Executive Board ("GEB") members, 1,038 employees were classified as KRTs throughout the UBS Group globally, including all employees with a total compensation exceeding USD / CHF 2.5m (Highly Paid Employees), who may not have been identified as KRTs during the performance year. Compared with 2022, the increase in the number of KRTs has been driven by the inclusion of Credit Suisse employees in the identification process. In line with regulatory requirements, the performance of employees identified as KRTs during the performance year is evaluated by the control functions. In addition, KRTs' performance awards are subject to a mandatory deferral rate of at least 50%, regardless of whether the deferral threshold has been met (excluding KRTs with de minimis performance awards below a predetermined threshold where standard deferral rates apply). Consistent with all other employees, the deferred portion of a KRT's compensation is also subject to forfeiture or reduction if the KRT commits harmful acts.

UBS Fixed compensation

Employees' fixed compensation (e.g., base salary) reflects their level of skill, role and experience, as well as local market practice. Base salaries are usually paid monthly or fortnightly, in line with local market practice. UBS offers competitive base salaries that reflect location, function and role. Salary increases generally consider promotions, skill set, performance and overall responsibility. In addition to base salary, and as part of fixed compensation, some employees may receive a role-based allowance. This allowance is a shift in the compensation mix between fixed and variable compensation, not an increase in total compensation. It reflects the market value of a specific role and is fixed, nonforfeitable compensation. Unlike salary, a role-based allowance is paid only if the employee is in a specific role. Similar to previous years, 2023 role-based allowances consisted of a cash portion and, where applicable, a blocked UBS share award.

UBS provides a range of benefit plans, such as retirement benefits and health insurance, aiming to provide financial protection in case of significant life events, and support its employees' well-being and diverse needs. Retirement and other benefits are set in the context of local market practice and regularly reviewed for competitiveness. Pension plan rules

in any one location are generally the same for all employees, including GEB members and other management. There are no enhanced or supplementary pension contributions for the GEB.

UBS Variable compensation

Most of UBS's employees are eligible for an annual performance award. The level of this award, where applicable, generally depends on the firm's overall performance, the employee's business division, team and individual performance, and behaviour, reflecting their overall contribution to the firm's results. These awards are in line with applicable local employment conditions and at the discretion of the firm.

In addition to the firm's Pillars (capital strength, simplification/efficiency and risk management) and Principles (client centricity, connectivity, sustainable impact), Behaviours related to accountability with integrity, collaboration and innovation are part of the performance management approach. Therefore, when assessing performance, UBS considers not only what was achieved but also how it was achieved.

Underlining UBS's emphasis on sustainable performance and risk management, and its focus on achieving its growth ambitions, UBS delivers part of the employees' annual variable compensation through deferred compensation plans. UBS believes that its approach, with a single incentive decision and a mandatory deferral, is transparent and well suited to implementing its compensation philosophy and delivering sustainable performance. This aligns the interests of its employees and shareholders and appropriately links compensation to longer-term sustainable performance.

Deferred compensation is delivered through a combination of equity-based plans and a contingent capital plan. The equity-based plans are (i) the Long-Term Incentive Plan (LTIP) which is for UBS's GEB members, and (ii) the Equity Ownership Plan (EOP), which is for all other employees and which primarily aligns employee interest with those of UBS's shareholders. The Deferred Contingent Capital Plan (DCCP) aligns employees' interests with the interests of debt holders.

The mandatory deferral approach applies to all employees with regulatory-driven deferral requirements or total compensation greater than USD / CHF 300,000. Certain regulated employees, such as Senior Management Functions (SMFs) and Material Risk Takers (MRTs), are subject to additional requirements (e.g., more stringent deferral requirements, additional blocking periods). In addition, SMFs and MRTs receive 50% of their non-deferred portion in the form of immediately vested shares, which are blocked for 12 months after grant.

The deferred amount increases at higher marginal rates in line with the value of the performance award. The effective deferral rate therefore depends on the amount of the

performance award and the amount of total compensation. UBS believes its deferral regime has one of the longest vesting periods in the industry. The weighted average deferral period for non-regulated employees is 4.4 years for GEB members, 3.8 years for MDs receiving Long Term Incentive Plan ("LTIP") and 3.5 years for other employees. Additionally, from time to time, UBS may utilize alternative deferred compensation arrangements to remain competitive in specific business areas. To further promote sustainable performance, all of UBS's deferred compensation plans include employment conditions and malus conditions. These enable the firm to reduce or fully forfeit unvested deferred awards under certain circumstances, pursuant to performance and harmful acts provisions. In addition, forfeiture is triggered in cases where employment has been terminated for cause. UBS's share delivery obligations related to notional share awards are satisfied by delivering treasury shares, which are purchased in the market, to employees at vesting.

The Equity Ownership Plan (the "EOP") is the deferred compensation plan for employees that are subject to deferral requirements but do not receive LTIP awards. For the 2023 performance year, we granted EOP awards to 4,661 employees. Delivering sustainable results is a key objective for UBS. EOP creates a direct link with shareholder returns as a notional equity award and has no upward leverage. This approach promotes growth and sustainable performance. EOP awards generally vest over three years.

The Deferred Contingent Capital Plan ("DCCP") is a key component of UBS's compensation framework and supports alignment of the interests of senior employees with those of UBS's stakeholders. All employees subject to deferral requirements receive DCCP awards. For the 2023 performance year, UBS granted DCCP awards to 5,562 (2022 – 4,326) employees. DCCP is consistent with many of the features of the loss-absorbing bonds that UBS issues to investors and may be paid at vesting in cash or, at the discretion of the firm, a perpetual, marketable additional tier 1 (AT1) capital instrument. Employees can elect to have their DCCP awards denominated in Swiss francs or US dollars. DCCP awards vest in full after five years (longer deferral periods may apply for regulated employees). DCCP awards bear notional interest paid annually (except as limited by regulation for MRTs), subject to review and confirmation by the Compensation Committee. The notional interest rate for grants in 2024 was 4.60% for awards denominated in Swiss francs and 8.30% for awards denominated in US dollars. These interest rates are based on the current market rates for similar AT1 capital instruments issued by UBS Group. Awards are forfeited if a viability event occurs, i.e., if FINMA notifies the firm that the DCCP awards must be written down to mitigate the risk of an insolvency, bankruptcy or failure of UBS or if the firm receives a commitment of extraordinary support from the public sector that is necessary to prevent such an event. DCCP awards are also written down for GEB members if the Group's CET1 capital ratio falls below 10% and for all other employees if it falls below 7%.

UBS Control Functions

UBS control functions must be independent in order to monitor risk effectively. Therefore, their compensation is determined separately from the revenue areas that they oversee, supervise or monitor. Their performance award pool is based not on the performance of these businesses, but on the performance of the Group as a whole. UBS also considers other factors, such as how effectively the function has performed, and UBS's market position. Decisions on individual compensation for the senior managers of the control functions are made by the function heads and approved by the Group CEO. Decisions on individual compensation for the members of Group Internal Audit (GIA) are made by the Head GIA and approved by the Chairman. Following a proposal by the Chairman, total compensation for the Head GIA is approved by the Compensation Committee.

Environmental, Social and Governance (ESG)

UBS compensation determination process considers environmental, social and governance ("ESG") objectives in objective setting, performance award pool funding, performance evaluation and individual compensation decisions. ESG-related objectives have been embedded in our Pillars and Principles since they were established in 2011. In 2021, UBS introduced explicit sustainability objectives in the non-financial goal category of the Group CEO and GEB performance scorecards. In 2023, UBS further enhanced the GEB performance scorecard framework by establishing separate Environmental & Sustainability and People & Governance categories. The objectives in these categories are linked to the UBS sustainability priorities, and their progress is measured via robust quantitative metrics and qualitative criteria. Sustainability objectives are assessed for each GEB member on an individual basis, directly impacting their respective performance assessments and compensation decisions. The determination of the Group performance award pool funding also takes into account ESG factors. Aside from financial performance, an assessment of progress is made against objectives linked to the UBS focus areas of Planet, People (including progress made against the UBS diversity aspirations) and Partnerships, alongside other key non-financial considerations. Therefore, ESG is taken into consideration when the Compensation Committee assesses performance and compensation of each GEB member. Additionally, the assessment impacts the overall performance award pool for the Group. Going forward, UBS will continue to review and refine the role of ESG considerations in the UBS performance and compensation framework, to ensure they remain aligned to our strategic priorities and the sustainable growth of shareholder value.

UBS's commitment to pay fairness, diversity, equity and inclusion

Pay equity and equal opportunity are fundamental to achieving UBS's purpose. The diversity of UBS's employees in terms of experiences, perspectives and backgrounds is critical to UBS's success. Factors such as gender, race, ethnicity or part-time status should not impact opportunities available to UBS employees. Fair and consistent pay practices are designed

to ensure that employees are appropriately rewarded for their contribution. UBS pay for performance, and it takes pay equity seriously. UBS have embedded clear commitments in our global compensation policies and practices. UBS regularly conduct internal reviews and independent external audits on pay equity, and its statistical analyses show a differential between men and women in similar roles across our major locations of less than 1%. In 2020, UBS completed an equal pay analysis in Switzerland, as required by the Swiss Federal Act on Gender Equality. The results confirmed that UBS are fully compliant with Swiss equal pay standards. Beginning in 2020, UBS was certified (through 2023) by the EQUAL-SALARY Foundation for our HR practices, including compensation, in Switzerland, the US, UK, the Hong Kong SAR and Singapore, covering more than two-thirds of the UBS global employee population. All of the UBS HR policies are global, and UBS apply the same standards across all locations. Furthermore, UBS reviews our approach and policies annually to support our continuous improvement. In 2023, UBS fully integrated former Credit Suisse Group employees into all of its fair pay practices and continued to monitor and improve its pay equity position in our leading countries. UBS also aim to ensure that all employees are paid at least a living wage. UBS regularly assess employees' salaries against local living wages, using benchmarks defined by the Fair Wage Network. Excluding the UBS US financial advisor staff (as their compensation is primarily based on a formulaic approach), its analysis in 2023 showed that employees' salaries were at or above the respective benchmarks.

Increasing the UBS gender and ethnic diversity is a strategic priority. UBS want to support and enable more women to build long and satisfying careers with UBS, and UBS is committed to increasing the representation of women at senior levels. Equally, investing in attracting, supporting and advancing its ethnically diverse employees is a key focus for UBS. UBS takes a multi-pronged approach, examining the process, culture and organization design elements around hiring, promoting and retaining women and ethnic minority background employees at all levels, and senior management are accountable for driving change.

Further information

Further details on the UBS policy and practices can be found in the 2023 Compensation Report and the 2023 Annual Report of UBS Group AG, both of which are available on www.ubs.com.

Proportionality

Given the small size and non-complex nature of the Manager, it has applied the proportionality provisions of the Guidelines. The below information provides the total remuneration paid by the Manager during the year to 31 December 2023. There is no allocation made by the Manager to each UCITS and as such the disclosure reflects the remuneration paid by the Manager in relation to work performed on all UCITS, as well as the remuneration paid by the Manager in relation to work performed on non-UCITS (e.g. AIF funds).

Of the total remuneration paid of EUR 3,524,231 for the year ended 31 December 2023 to 24 beneficiaries, EUR 2,573,031 (73%) has been paid as fixed remuneration. The remainder (27%) is variable remuneration. Remuneration code staff consists of those whom the Manager has determined undertake professional activities which have a material impact on the risk profiles of the Manager or of the AIFs, namely the board of directors of the Manager, senior management, material risk takers, control function staff, as well as high-earning staff members (i.e. whose total remuneration falls into the remuneration bracket of senior managers and risk takers who are not already in the above categories and who have a material impact on the risk profile of the Company or of the funds it manages). There are 16 individuals who meet this definition and their total remuneration was EUR 2,833,731, split EUR 1,941,730 (69%) as fixed remuneration and the remainder (31%) as variable remuneration.

UBS Asset Management (Americas) LLC and UBS Asset Management Switzerland AG act as the Investment Managers for the Company and are a delegate of the Manager. The Investment Managers are subject to regulatory requirements on remuneration disclosure for its staff to whom investment management activities have been delegated that are equally as effective as those under Article 69(3)(a) of the UCITS Directive – consequently, the information disclosed by the Investment Managers is set out in the paragraphs below.

Umbrella and Sub-Funds

UBS (Irl) Fund PLC (4 sub-funds) - 3 risk takers

Total Remuneration

	Salary	Incentives	Total
Euro	38,016	99,246	137,262

As market or regulatory practice develops UBS AM may consider it appropriate to make changes to the way in which quantitative remuneration disclosures are calculated. Where such changes are made, this may result in disclosures in relation to a fund not being comparable to the disclosures made in the prior year, or in relation to other UBS fund disclosures in that same year.

In accordance with Article 450 of the CRR, UBS Asset Management can report there are 6 UK Asset Management MRTs receiving total remuneration in excess of EUR 1,000,000. UBS Asset Management is unable to make a more detailed disclosure due to the small number of individuals concerned and the risk that individual compensation could be disclosed. There were no guaranteed incentives awarded to new hires and no severance payments made during the year ended 31 December 2022.

The performance data is calculated based on the movement of NAV per share between beginning and end of financial year for each of the relevant share classes, with distributions being included in the calculation for the distributing share classes.

The shareholders are made aware of the fact that historical performance is not an indication for current or future performance and the performance data does not consider fees and costs levied on subscriptions and redemptions.

Appendix 3: Securities Financing Transactions Regulation (unaudited)

Securities Financing Transactions Regulation (unaudited)

Article 13 of Regulation (EU) 2015/2365 on transparency of securities financing transactions (“SFTR”) requires reporting and disclosures for securities financing transactions (“SFTs”) and total return swaps. SFTs are specifically defined as per Article 3(11) of the SFTR as follows:

- a repurchase/reverse repurchase agreement;
- securities or commodities lending/borrowing;
- a buy-sellback or sale-buyback transaction; and
- a margin lending transaction.

During the financial year under review, certain Funds were engaged in trading reverse repurchase agreements. This Appendix contains the relevant SFTR reporting and disclosure requirements in respect of the reverse repurchase agreements, held on Select Money Market Fund - USD and Select Money Market Fund – US Treasury, as of 31 August 2024.

Global Data

Below is the fair value of assets engaged in SFTs as at 31 August 2024. The assets which are engaged in SFTs at this date are reverse repurchase agreements, which are settled bi-laterally.

	Select Money Market Fund—USD	Select Money Market Fund—US Treasury
Fair value of securities engaged in SFT	\$1,550,000,000	\$1,080,000,000
% of Net Assets	20.18%	53.11%

Concentration Data

The following table details the counterparties used for each type of reverse repurchase agreements at 31 August 2024.

	Select Money Market Fund—USD	Select Money Market Fund—US Treasury
Counterparty name	Barclays Bank plc	Barclays Bank plc
Value of outstanding transaction	\$1,090,000,000	\$290,000,000
Country of establishment	United States	United States
Counterparty name	BofA Securities Inc	BofA Securities Inc
Value of outstanding transaction	\$460,000,000	\$191,000,000
Country of establishment	United States	United States
Counterparty name	n/a	State Street
Value of outstanding transaction	\$—	\$299,000,000
Country of establishment	n/a	United States
Counterparty name	n/a	Toronto-Dominion Bank
Value of outstanding transaction	\$—	\$300,000,000

Appendix 4: Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

Article 6:

UBS (Irl) Select Money Market Fund—US Treasury

The investments underlying this sub-fund do not take into account the EU criteria for environmentally sustainable economic activities (Art. 7 Taxonomy).

Consideration of sustainability risks are not integrated due to the investment strategy and the nature of the underlying investments (SFDR Art. 6). Sustainability risks are not currently expected to have a material impact on achieving the return objectives of the sub-fund.

The sub-fund does not consider principal adverse impacts on sustainability factors due to its investment strategy and the nature of the underlying investments (SFDR Art. 7).

ANNEX IV

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: UBS (Irl) Select Money Market Fund - USD

Legal entity identifier: 5493000FGTUT57LQYS90

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

<input checked="" type="radio"/> <input type="radio"/> Yes	<input checked="" type="radio"/> <input type="radio"/> <input checked="" type="checkbox"/> No
<input type="checkbox"/> It made sustainable investments with an environmental objective: ___% <ul style="list-style-type: none"> <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> It made sustainable investments with a social objective: ___%	<input type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of ___% of sustainable investments <ul style="list-style-type: none"> <input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with a social objective <input checked="" type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The following characteristic was promoted by the financial product:

At least 51% of the sub-fund's investments have a UBS ESG consensus score of between 6 and 10.

The extent to which the environmental and/ or social characteristic promoted by this financial product is met is stated in the answer to the question "How did the sustainability indicators perform?" of this annex.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

● **How did the sustainability indicators perform?**

During the reference period, 92.24% of the financial products investments had a UBS ESG consensus score of between 6 and 10.

● **...and compared to previous periods?**

During the previous reference period 2022/23, 86.90% of the financial products investments had a UBS ESG consensus score of between 6 and 10.

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

Not applicable.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

Not applicable.

How were the indicators for adverse impacts on sustainability factors taken into account?

Not applicable.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Not applicable.

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

Not applicable.

What were the top investments of this financial product?

The list includes the investments constituting the **greatest proportion of investments** of the financial product during the reference period which is: 31.08.2024

Largest Investments	Sector	% Net Assets*	Country
Barclays Bank Plc Repo	REPO	14.46%	United States of America
Bofa Securities Inc.	REPO	6.10%	United States of America

*Minor differences with "Statement of Investments in Securities" might occur due to rounding in production system

What was the proportion of sustainability-related investments?

● *What was the asset allocation?*

The proportions of investments of the financial product were calculated as per the end of the reference period, which is: 31.08.2024.

Asset allocation describes the share of investments in specific assets.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

In which economic sectors were the investments made?

Sector	% Net Assets*
REPO	20.56%
Financial Company Commercial Paper	45.09%
Time Deposit	6.46%
Certificate of Deposit	7.55%
Other Note (Floating)	20.34%

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

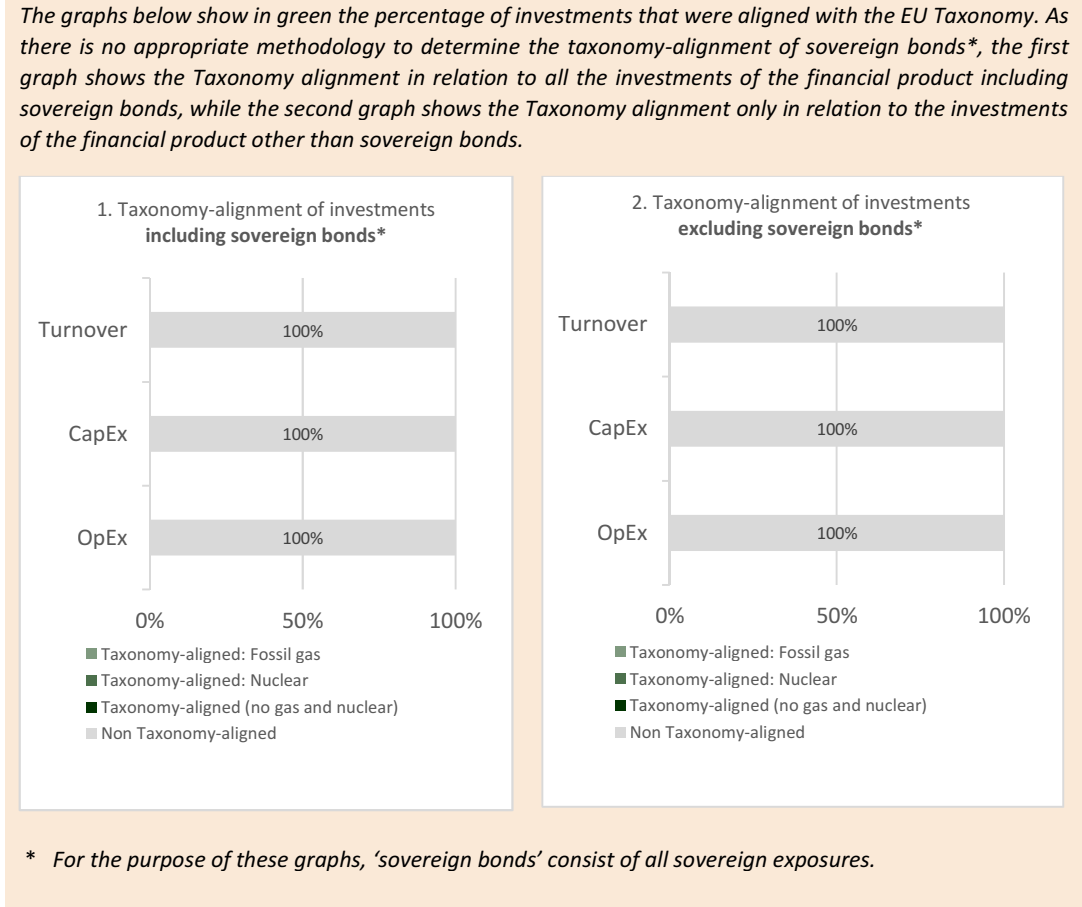

Not applicable.

● **Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?**

- Yes:
 - In fossil gas
 - In nuclear energy
- No

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

● **What was the share of investments made in transitional and enabling activities?**

Not applicable.

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

- **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

Not applicable.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

Not applicable.

What was the share of socially sustainable investments?

Not applicable.

What investments were included under "other", what was their purpose and were there any minimum environmental or social safeguards?

Included in "#2 Other" are cash and unrated instruments for the purpose of liquidity and portfolio risk management. Unrated instruments may also include securities for which data needed for the measurement of attainment of environmental or social characteristics is not available.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

During the reference period, the environmental and/ or social characteristics were met by following the investment strategy and applying exclusion criteria as per the sales prospectus. The investment strategies and/ or exclusion criteria are monitored to ensure adherence.

How did this financial product perform compared to the reference benchmark?

No ESG reference benchmark has been designated for the purpose of determining whether the financial product is aligned with the characteristics that it promotes.

- **How does the reference benchmark differ from a broad market index?**

Not applicable.

are sustainable investments with an environmental objective that do not take into account the criteria for environmentally sustainable economic activities under Regulation (EU) 2020/852.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

- ***How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?***

Not applicable.

- ***How did this financial product perform compared with the reference benchmark?***

Not applicable.

- ***How did this financial product perform compared with the broad market index?***

Not applicable.

ANNEX IV

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: UBS (Irl) Select Money Market Fund - EUR

Legal entity identifier: 549300E1LWSUQNIRNT65

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

<input checked="" type="radio"/> <input type="radio"/> Yes	<input checked="" type="radio"/> <input type="radio"/> <input checked="" type="checkbox"/> No
<p><input type="checkbox"/> It made sustainable investments with an environmental objective: ___%</p> <ul style="list-style-type: none"> <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <p><input type="checkbox"/> It made sustainable investments with a social objective: ___%</p>	<p><input type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of % of sustainable investments</p> <ul style="list-style-type: none"> <input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with a social objective <p><input checked="" type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments</p>

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The following characteristic was promoted by the financial product:

At least 51% of the sub-fund’s investments have a UBS ESG consensus score of between 6 and 10.

The extent to which the environmental and/ or social characteristic promoted by this financial product is met is stated in the answer to the question "How did the sustainability indicators perform?" of this annex.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

● **How did the sustainability indicators perform?**

During the reference period, 84.80% of the financial products investments had a UBS ESG consensus score of between 6 and 10.

● **...and compared to previous periods?**

During the previous reference period 2022/23, 88.62% of the financial products investments had a UBS ESG consensus score of between 6 and 10.

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

Not applicable.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

Not applicable.

How were the indicators for adverse impacts on sustainability factors taken into account?

Not applicable.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Not applicable.

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

Not applicable.

*Minor differences with "Statement of Investments in Securities" might occur due to rounding in production system

The list includes the investments constituting the greatest proportion of investments of the financial product during the reference period which is: 31.08.2024

What was the proportion of sustainability-related investments?

● What was the asset allocation?

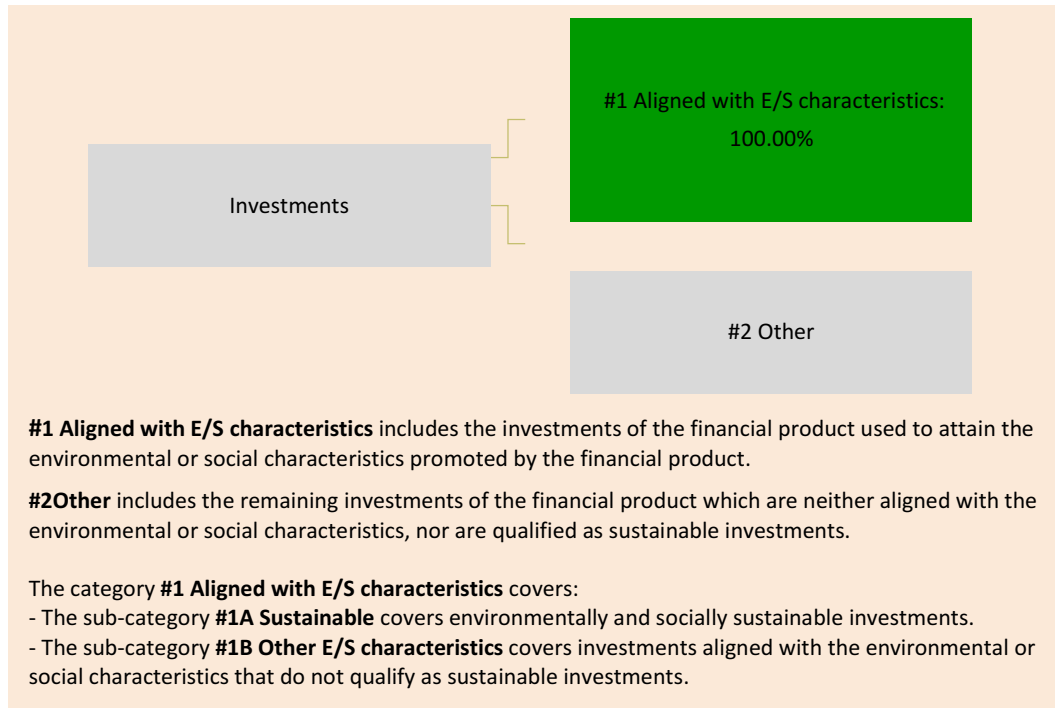

The proportions of investments of the financial product were calculated as per the end of the reference period, which is: 31.08.2024.

Asset allocation describes the share of investments in specific assets.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

● **In which economic sectors were the investments made?**

Sector	% Net Assets*
Time deposit	28.35%
Financial company commercial paper	47.35%
Certificate of deposit	15.79%
Other note (floating)	8.51%

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

Not applicable.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.

- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

● **Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?**

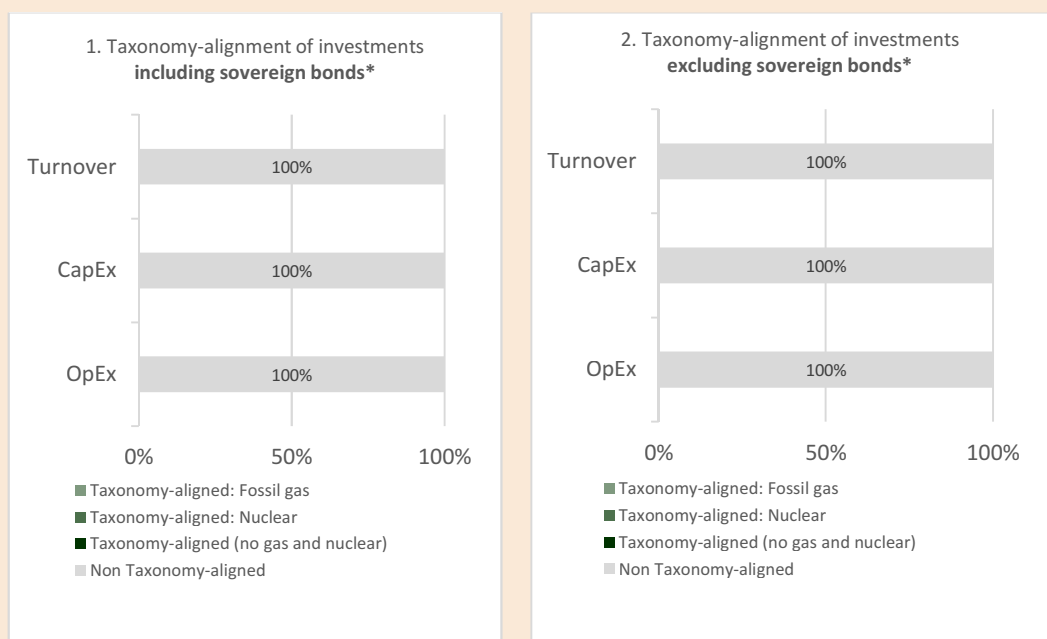

Yes:

In fossil gas

In nuclear energy

No

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

● **What was the share of investments made in transitional and enabling activities?**

Not applicable.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

Not applicable.

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

 are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

Not applicable.

What was the share of socially sustainable investments?

Not applicable.

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

Included in “#2 Other” are cash and unrated instruments for the purpose of liquidity and portfolio risk management. Unrated instruments may also include securities for which data needed for the measurement of attainment of environmental or social characteristics is not available.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

During the reference period, the environmental and/ or social characteristics were met by following the investment strategy and applying exclusion criteria as per the sales prospectus. The investment strategies and/ or exclusion criteria are monitored to ensure adherence.

How did this financial product perform compared to the reference benchmark?

No ESG reference benchmark has been designated for the purpose of determining whether the financial product is aligned with the characteristics that it promotes.

- ***How does the reference benchmark differ from a broad market index?***
Not applicable.
- ***How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?***
Not applicable.
- ***How did this financial product perform compared with the reference benchmark?***
Not applicable.
- ***How did this financial product perform compared with the broad market index?***
Not applicable.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

ANNEX IV

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: UBS (Irl) Select Money Market Fund - GBP

Legal entity identifier: 5493002MF0DP8FTZRH91

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

<input checked="" type="radio"/> <input type="radio"/> Yes	<input checked="" type="radio"/> <input type="radio"/> <input checked="" type="checkbox"/> No
<input type="checkbox"/> It made sustainable investments with an environmental objective: ___% <ul style="list-style-type: none"> <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> It made sustainable investments with a social objective: ___%	<input type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of % of sustainable investments <ul style="list-style-type: none"> <input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with a social objective <input checked="" type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The following characteristic was promoted by the financial product:

At least 51% of the sub-fund's investments have a UBS ESG consensus score of between 6 and 10.

The extent to which the environmental and/ or social characteristic promoted by this financial product is met is stated in the answer to the question "How did the sustainability indicators perform?" of this annex.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

● **How did the sustainability indicators perform?**

During the reference period, 84.17% of the financial products investments had a UBS ESG consensus score of between 6 and 10.

● **...and compared to previous periods?**

During the previous reference period, 89.85% of the financial products investments had a UBS ESG consensus score of between 6 and 10.

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

Not applicable.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

Not applicable.

How were the indicators for adverse impacts on sustainability factors taken into account?

Not applicable.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Not applicable.

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

Not applicable.

What were the top investments of this financial product?

The list includes the investments constituting the **greatest proportion of investments** of the financial product during the reference period which is: 31.08.2024

*Minor differences with "Statement of Investments in Securities" might occur due to rounding in production system

What was the proportion of sustainability-related investments?

● *What was the asset allocation?*

The proportions of investments of the financial product were calculated as per the end of the reference period, which is: 31.08.2024.

Asset allocation describes the share of investments in specific assets.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

In which economic sectors were the investments made?

Sector	% Net Assets*
Time Deposit	28.57%
Financial Company Commercial Paper	40.28%
Certificate of Deposit	20.97%
Other Note (Floating)	10.16%

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

Not applicable.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

Yes:

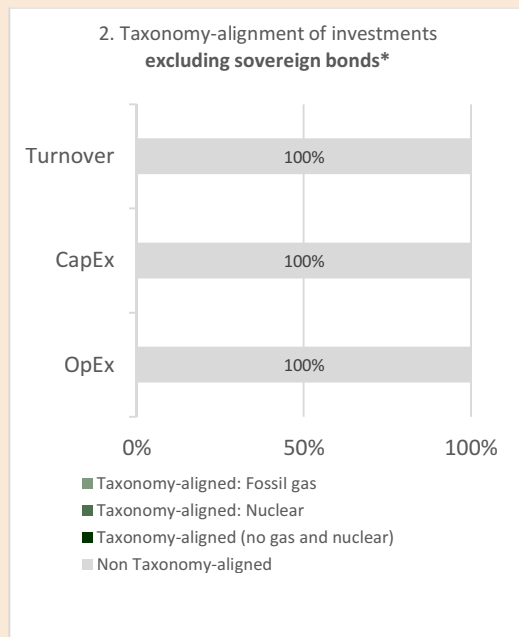

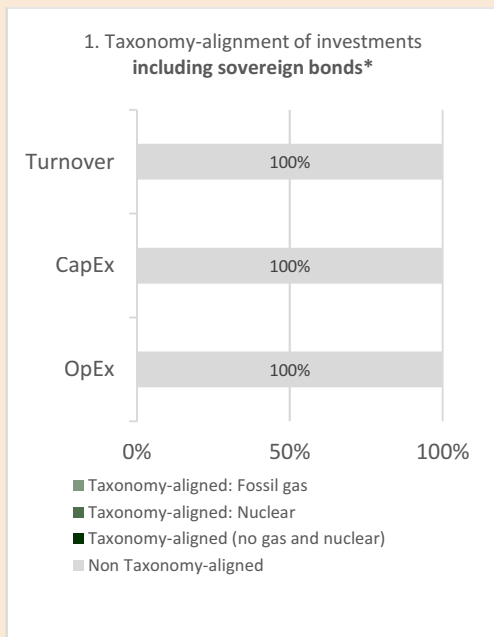

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change (“climate change mitigation”) and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure (CapEx)** showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure (OpEx)** reflecting green operational activities of investee companies.

In fossil gas
 In nuclear energy
✘ No

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

● **What was the share of investments made in transitional and enabling activities?**

Not applicable.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

Not applicable.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

Not applicable.

are sustainable investments with an environmental objective that do not take into account the criteria for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What was the share of socially sustainable investments?

Not applicable.

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

Included in “#2 Other” are cash and unrated instruments for the purpose of liquidity and portfolio risk management. Unrated instruments may also include securities for which data needed for the measurement of attainment of environmental or social characteristics is not available.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

During the reference period, the environmental and/ or social characteristics were met by following the investment strategy and applying exclusion criteria as per the sales prospectus. The investment strategies and/ or exclusion criteria are monitored to ensure adherence.

How did this financial product perform compared to the reference benchmark?

No ESG reference benchmark has been designated for the purpose of determining whether the financial product is aligned with the characteristics that it promotes.

- ***How does the reference benchmark differ from a broad market index?***
Not applicable.
- ***How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?***
Not applicable.
- ***How did this financial product perform compared with the reference benchmark?***
Not applicable.
- ***How did this financial product perform compared with the broad market index?***
Not applicable.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.
