Warning

You are about to purchase a product that is not simple and can be difficult to understand.

What is this product ?

Legal form and applicable law

This product is a sub-fund of the contractual umbrella fund EG EQUITIES & BONDS of the type "Other fund for traditional investments" for qualified investors within the meaning of Art. 25 et seq. in conjunction with Art. 68 et seq. and 92 et seq. of the Swiss Federal Act on Collective Investment Schemes of June 23, 2006 (CISA), which is divided into the following sub-funds: EG Swiss Equities (CHF), EG European Equities (EUR), EG Global Equities (EUR), EG CHF Bond Fund (CHF). The circle of investors is limited to qualified investors within the meaning of § 5 number 1 of the fund contract.

Investment objective and strategy

The investment objective of the sub-fund EG CHF Bond Fund (CHF) is mainly to achieve long-term capital growth by investing in a diversified bond portfolio. The sub-fund EG CHF Bond Fund (CHF) pursues an active, conservative and long-term investment policy of 5 to 10 years and invests in CHF-denominated bonds, notes and other fixed- or variable-interest debt securities and rights. No transactions involving derivatives are conducted. The income of the sub-fund is added to the fund assets for reinvestment.

Duration and target customer

The product is designed for professional investors who can cope with financial losses. The product is aimed at capital growth and under normal conditions grants daily redemption opportunities. Long-term investment needs are covered with the investment. The umbrella fund and the sub-fund have an indefinite term. However, the producer may terminate the product at any time. In such a case, there is a risk that you will receive a smaller amount than you have invested.

What are the risks and what could I get in return ?

Risk Indicator

The risk indicator helps you assess the risk associated with this product compared to other products. It shows how likely you are to lose money on this product because the markets develop in a certain way or because we are unable to pay you out.

We have placed this product in risk class 3 on a scale of 1 to 7, where 4 corresponds to a medium risk class.

You may incur a loss if market developments are unfavorable. Be aware of currency risk if your reference currency is different from the currency of the product. You may receive payments in a different currency, so your final return will depend on the exchange rate between the two currencies. This risk is not taken into account by the risk indicator.

Investors are advised that the product may be exposed to other risks, such as operational, counterparty, political and legal risks, which the risk indicator also does not take into account. This product does not include protection against future market developments, so you may lose all or part of the invested capital.

Performance-Scenarios

Investment CHF 10'000		Scenarios		1 year	3 years	7 years recommended holding period	
Unfavourable Scenario	What you might get back after costs	CHF	9'243	CHF	8'221	CHF	6'505
	Average return each year		-7.57%		-6.32%		-5.96%
Moderate Scenario	What you might get back after costs	CHF	9'924	CHF	10'176	CHF	10'700
	Average return each year		-0.76%		0.58%		0.97%
Optimistic Scenario	What you might get back after costs	CHF	10'216	CHF	11'101	CHF	13'107
	Average return each year		2.16%		3.54%		3.94%

This table shows the money you might could get back over the next 7 years, under different scenarios, assuming that you invest CHF 10'000.

The scenarios shown illustrate how your investment could perform. You can compare them with the scenarios of other products. The scenarios presented are an estimate of future performance based on evidence from the past on how the value of this investment varies, and are not an exact indicator. What you get will vary depending on how the market performs and how long you keep the product. The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

What happens if Gutzwiller Fonds Management AG is unable to pay out?

The assets of the product are held in custody by the custodian bank separately from the assets of Gutzwiller Fonds Management AG. The insolvency of the fund management company will therefore not affect the value of the product.

What are the costs?

Costs over time

Reduction in Yield (RIY) shows how the total costs you pay affect the investment return you might receive. Total costs include one-time, ongoing, and incremental costs. The amounts shown here represent the cumulative costs of the product for three different holding periods.

Amounts include potential fees incurred upon early exit. The figures shown assume that you invest CHF 10,000.

The figures are estimates and may be different in the future. The person who sells you this product or advises you on it may charge you other costs. If this is the case, the person will inform you of these costs and show you how all costs may affect your investment over time.

Investment CHF 10'000.00 Scenarios	If you cash in after 1 year	If you cash in after 3 years	If you cash in after 7 years (recommended holding period)
Total costs	CHF 272	CHF 415	CHF 695
Impact on return (RIY) per year	2.72%	1.40%	1.02%

The table below shows:

- how the different types of costs each year affect the investment return you may receive at the end of the recommended holding period
- the meaning of the different cost categories

This table shows the impact on return per year

One-off costs	Entry costs (maximum)	2.0%	Impact of the costs you pay when entering your investment.
	Exit costs	0.0%	Impact of the costs incurred when you exit your investment on maturity.
Ongoing costs	Portfolio transaction costs	0.10%	The impact of the costs of buying and selling underlying investments for the product.
	Other ongoing costs	0.63%	The impact of the costs that we take annually for managing your investments.
Incidental costs	Performance fee	n/a	Performance fees are not applicable for this product.
	Carried Interest	n/a	Carried interests are not applicable for this product.

How long should I hold it and can I take money out early?

The Recommended Holding Period (RHP) for this product is 7 years. This period reflects an investment cycle for this product and it is likely that you will get back your initial investment within this period. Please note that this is in no way a guarantee. The more your actual holding period differs from the recommended holding period, the higher the actual risk of losing money will be. However, you are free to return the product before the end of the recommended holding period at the respective net asset value on every bank business day. No redemption fees or penalties will be charged at the level of the product.

How can I complain?

Any complaint regarding the person advising on, or selling the product can be submitted directly to that person or bank. Any complaint regarding the product or this document can be submitted to the distributor under the following address: Gutzwiller Fonds Management AG, Kaufhausgasse 5, CH-4051 Basel. Investors shall note that a complaint can be also addressed by e-mail to: info@gutzwiller-funds.com
