## 1. Information for Prospective Investors

This prospectus (the “**Prospectus**”) is valid only if accompanied by the latest Key Investor Information Document, the latest annual report, and also the latest semi-annual report if this was published after the latest annual report. These documents shall be deemed to form part of this Prospectus. Prospective investors shall be provided with the latest version of the Key Investor Information Document in good time before their proposed subscription of shares (the “**Shares**”) in responsAbility Impact UCITS (Lux) (the “**Company**”). This Prospectus does not constitute an offer or solicitation to subscribe Shares in the Company by anyone in any jurisdiction in which such offer or solicitation is not lawful or in which the person making such offer or solicitation is not qualified to do so or to anyone to whom it is unlawful to make such offer or solicitation.

Information which is not contained in this Prospectus, or in the documents mentioned herein which are available for inspection by the public, shall be deemed unauthorized and cannot be relied upon.

Prospective investors should inform themselves as to the possible tax consequences, the legal requirements and any foreign exchange restrictions or exchange control requirements which they might encounter under the laws of the countries of their citizenship, residence or domicile and which might be relevant to the subscription, holding, conversion, redemption or disposal of Shares. Further tax considerations are set out in Chapter 8, “Expenses and Taxes”.

Information about distribution in various countries is set out in Chapter 21, “Distribution of Shares”.

Prospective investors who are in any doubt about the contents of this Prospectus should consult their bank, broker, solicitor, accountant or other independent financial adviser.

This Prospectus may be translated into other languages. To the extent that there is any inconsistency between the English-language Prospectus and a version in another language, the English-language Prospectus shall prevail, unless stipulated otherwise by the laws of any jurisdiction in which the Shares are sold.

Investors should read and consider the risk description in Chapter 6, “Risk Factors”, before investing in the Company.

Some of the Shares may be listed on the Luxembourg Stock Exchange.

The Management Company will not disclose any confidential information about investors unless it is required to do so by the applicable laws or regulations.

The Shares being offered hereby have not been and will not be registered under the U.S. Securities Act of 1933, as amended, (the “**1933 Act**”), any of the securities laws of any of the states of the United States. The Company has not been and will not be registered under the United States Investment Company Act of 1940, as amended, nor under any other US federal laws. Therefore, the Shares may not be offered or sold directly or indirectly in the United States of America, except pursuant to an exemption from the registration requirements of the 1933 Act.

Further, the board of directors of the Company (the “**Board of Directors**”) has decided that the Shares shall not be offered or sold, directly or indirectly, to any ultimate beneficial owner that constitutes a U.S. Person. As such, the Shares may not be directly or indirectly offered or sold to or for the benefit of a “U.S. Person”, which shall be defined as and include (i) a “United States Person” as described in section 7701(a)(30) of the U.S. Internal Revenue Code of 1986, as amended (the “**Code**”), (ii) a “U.S. person” as such term is defined in Regulation S of the 1933 Act, (iii) a person that is “in the United States” as defined in Rule 202(a)(30)-1 under the U.S. Investment Advisers Act of 1940, as amended, or (iv) a person that does not qualify as a “Non-United States Person” as such term is defined in U.S. Commodities Futures Trading Commission Rule 4.7.

The Board of Directors has the right to refuse any transfer, assignment or sale of Shares in its sole discretion if the Board of Directors reasonably determines

that it would result in a Prohibited Person holding Shares, either as an immediate consequence or in the future.

Any transfer of Shares may be rejected by the Central Administration and the transfer shall not become effective until the transferee has provided the required information under the applicable know your customer and anti-money laundering rules.

The term “Prohibited Person” means any person, corporation, limited liability company, trust, partnership, estate or other corporate body, if in the sole opinion of the Management Company, the holding of Shares of the relevant Subfund may be detrimental to the interests of the existing Shareholders or of the relevant Subfund, if it may result in a breach of any law or regulation, whether Luxembourg or otherwise, or if as a result thereof the relevant Subfund or any subsidiary or investment structure (if any) may become exposed to tax or other legal, regulatory or administrative disadvantages, fines or penalties that it would not have otherwise incurred or, if as a result thereof the relevant Subfund or any subsidiary or investment structure (if any), the Management Company and/or the Company, may become required to comply with any registration or filing requirements in any jurisdiction with which it would not otherwise be required to comply. The term “Prohibited Person” includes (i) any investor which does not meet the definition of Eligible Investors as defined for the respective Subfund in Chapter 22., “Subfunds”, (if any), (ii) any U.S. Person or (iii) any person who has failed to provide any information or declaration required by the Management Company or the Company within one calendar month of being requested to do so. The term “Prohibited Person” moreover includes natural persons or entities acting, directly or indirectly, in contravention of any applicable AML/CTF Rules or who are the subject of sanctions, including those persons or entities that are included on any relevant lists maintained by the United Nations, the North Atlantic Treaty Organisation, the Organisation for Economic Cooperation and Development, the Financial Action Task Force, the U.S. Central Intelligence Agency, and the U.S. Internal Revenue Service, all as may be amended from time to time.

The Company will not accept investments by or on behalf of Prohibited Persons. No subscription for Shares may be made on behalf of Prohibited Person whether on the subscriber's own behalf or, if applicable, as an agent, trustee, representative, intermediary, nominee, or in a similar capacity on behalf of any other beneficial owner). Any subscriber must promptly notify the Company of any change in its status or the status of any underlying beneficial owner(s) with respect to its representations and warranties regarding Prohibited Person.

**No application has been submitted or will be submitted, nor any registration has been or will be sought, by the Company to or from any of the Indian governmental or regulatory authorities in connection with the advertising, offer, distribution or sale of the Shares in or from India and the Company does not intend to or will not, directly or indirectly, advertise, offer, distribute or sell the Shares to persons resident in India. Subject to certain limited exceptions, the Shares may not be purchased by persons resident in India and purchase of the Shares by such persons are subject to legal and regulatory restrictions. Persons into whose possession this Prospectus or any Shares may come must inform themselves about, and observe, any such restrictions.**

**The Company shall not divulge any confidential information concerning investors unless required to do so by applicable laws or regulations to the Company.**

## 2. Company

The Company is an undertaking for collective investment in transferable securities in the legal form of an investment company with variable capital (*société d'investissement à capital variable, SICAV*) subject to Part I of the Law of 17 December 2010 on undertakings for collective investment (the “**Law of 17 December 2010**”) transposing Directive 2009/65/EC of the European Parliament and the Council of 13 July 2009 on the coordination of laws, regulations and administrative provisions relating to undertakings for

collective investment in transferable securities. The Company is managed by MultiConcept Fund Management S.A. (the “**Management Company**”) in accordance with the articles of incorporation of the Company (the “**Articles of Incorporation**”). The Company was established on 27 April 2022.

In this capacity, the Management Company acts as investment manager and central administration, and as the distributor of the Company’s Shares. The Management Company has delegated the above-mentioned tasks as follows:

Tasks relating to investment management are performed by the investment managers (“**Investment Managers**”) described in Chapter 22, “Subfunds”, and administrative tasks are performed by Credit Suisse Fund Services (Luxembourg) S.A. as central administration (the “**Central Administration**”). The distributors (“**Distributors**”) described in Chapter 22, “Subfunds” are responsible for the distribution of the Company’s Shares.

The Company is registered with the Trade and Companies Register of Luxembourg (*Registre de commerce et des sociétés*) under number B267404. Its Articles of Incorporation were first published in the “*Recueil Electronique des Sociétés et Associations*” (“**RESA**”) on 11 May 2022. The Articles of Incorporation are filed in their consolidated, legally binding form for public reference with the Trade and Companies Register of Luxembourg. All amendments of the Articles of Incorporation will be announced in accordance with Chapter 13 “Information for Shareholders” and become legally binding for all shareholders of the Company (the “**Shareholders**”) subsequent to their approval by the general meeting (the “**General Meeting**”) of Shareholders. The initial capital of the Company amounted to EUR 30,000 and thereafter will correspond to the total net asset value of the Company. The minimum capital of the Company amounts to EUR 1,250,000.

The Company has an umbrella structure and therefore consists of at least one subfund (“**Subfund**”). Each Subfund represents a portfolio containing different assets and liabilities and is considered to be a separate entity in relation to the Shareholders and third parties. The rights of Shareholders and creditors concerning a Subfund or which have arisen in relation to the establishment, operation or liquidation of a Subfund are limited to the assets of that Subfund. No Subfund will be liable with its assets for the liabilities of another Subfund.

The Board of Directors may at any time establish new Subfunds with Shares having similar characteristics to the Shares in the existing Subfunds. The Board of Directors may at any time create and issue new classes (“**Share Classes**”) or types of Shares within any Subfund. If the Board of Directors establishes a new Subfund and/or creates a fee or type of Shares, the corresponding details shall be set out in this Prospectus. A new Share Class or type of Shares may have different features than the currently existing Share Classes. The terms of any offering of new Shares shall be set out in Chapter 22, “Subfunds”.

The characteristics of each possible Share Class are further described in this Prospectus and in particular in Chapter 4, “Investment in the Company”, and in Chapter 22, “Subfunds”.

The individual Subfunds shall be denominated as indicated in Chapter 22, “Subfunds”. The reference currency (the “**Reference Currency**”), as well as the currency in which the net asset value (the “**Net Asset Value**”) of the corresponding Shares of a Subfund is expressed is also provided for in Chapter 22, “Subfunds”.

Information about the performance of the individual Subfunds and Share Classes of the Subfunds is contained in the Key Investor Information Document.

### 3. Investment Policy

The primary objective of the Company is to provide investors with an opportunity to invest in professionally managed portfolios. The assets of the Subfunds shall be invested, in accordance with the principle of risk diversification, in transferable securities and other assets as specified in Article 41 of the Law of 17 December 2010 and set out in this Prospectus in Chapter 5, “Investment Restrictions”.

The investment objective and policy of the individual Subfunds are described in Chapter 22, “Subfunds”. The assets of the individual Subfunds will be invested in accordance with the investment restrictions as stipulated by the Law of 17 December 2010 and set out in this Prospectus in Chapter 6, “Investment Restrictions”.

**The investment objective for each Subfund is to maximize the appreciation of the assets invested. In order to achieve this, the Company shall assume a fair and reasonable degree of risk. However, in consideration of market fluctuations and other risks (see Chapter 6, “Risk Factors”) there can be no guarantee that the investment objective of the relevant Subfunds will be achieved. The value of investments may go down as well as up and investors may not recover the value of their initial investment.**

The Management Company delegates the portfolio management function of the Company and as such does not currently have access to sufficient ESG information for determining and weighting with adequate accuracy the negative sustainability effects across all its delegated portfolio managers. Therefore the Management Company has decided not to consider directly and at its level the adverse impacts of investment decisions on sustainability factors (PASI) according to Art. 4 of Regulation (EU) 2019/2088 of the European Parliament and of the Council of 27 November 2019 on sustainability-related disclosures in the financial services sector (the “**SFDR**”).

#### Reference Currency

The Reference Currency is the currency in which the performance and the Net Asset Value of the Subfunds are calculated. The Reference Currencies of the relevant Subfunds are specified in Chapter 22, “Subfunds”.

#### Liquid Assets

The Subfunds may hold ancillary liquid assets in the form of sight and time deposits with first-class financial institutions and money market instruments which do not qualify as transferable securities and have a term to maturity not exceeding 12 months, in any convertible currency.

Moreover, each Subfund may, on an ancillary basis, hold units/shares in undertakings for collective investment in transferable securities which are subject to Directive 2009/65/EC and which in turn invest in short-term time deposits and money market instruments and whose returns are comparable with those for direct investments in time deposits and money market instruments. These investments, together with any investments in other undertakings for collective investment in transferable securities and/or other undertakings for collective investment, must not exceed 10% of the total net assets of a Subfund.

#### Securities Financing Transactions and Total Return Swaps

The Company does neither use securities financing transactions as described in article 3 (11) of Regulation (EU) 2015/2365 on transparency on securities financing transactions and of reuse and amending Regulation (EU) No 648/2012 (the “**SFTR**”) (i.e. repurchase transactions, securities lending or borrowing, buy-sell back transactions or sell-buy back transactions, margin lending transactions) nor total return swaps. If at a future point in time the Company decides to make use of such securities financing transactions, this Prospectus will be updated accordingly.

#### Use of Derivatives

In addition to direct investments, all Subfunds may acquire financial derivative instruments (such as, without being limited to, futures, forward or options) as well as swap transactions (such as, without being limited to, interest-rate swaps, but excluding total return swaps) for the purpose of hedging, the efficient management of the portfolio and implementing its investment strategy, provided due account is taken of the investment restrictions set out in the Prospectus.

Furthermore, the Subfunds may actively manage their currency exposure through the use of currency futures, currency, forwards, currency options and swap transactions (excluding total return swaps).

The risk exposure to a counterparty generated through OTC financial derivatives must be combined when calculating counterparty risk limits referred to under Chapter 5, "Investment Restrictions".

## Management of Collateral and Collateral Policy

### General

In the context of OTC financial derivative transactions, the Company may receive collateral with a view to reduce its counterparty risk. This section sets out the collateral policy applied by the Company in such case. All assets received by the Company in the context of OTC financial derivative transactions shall be considered as collateral for the purpose of this section.

### Eligible Collateral

Collateral received by the Company may be used to reduce its counterparty risk exposure if it complies with the criteria set out in applicable laws, regulations and CSSF Circulars issued from time to time notably in terms of liquidity, valuation, issuer credit quality, correlation, risks linked to the management of collateral and enforceability. In particular, collateral should comply with the following conditions:

- (i) Any collateral received other than cash should be of high quality, highly liquid and traded on a regulated market or multilateral trading facility with transparent pricing in order that it can be sold quickly at a price that is close to pre-sale valuation;
- (ii) It should be valued on at least a daily basis and assets that exhibit high price volatility should not be accepted as collateral unless suitably conservative haircuts are in place;
- (iii) It should be issued by an entity that is independent from the counterparty and is expected not to display a high correlation with the performance of the counterparty;
- (iv) It should be sufficiently diversified in terms of country, markets and issuers with a maximum exposure of 20% of the respective Subfund's net asset value to any single issuer on an aggregate basis, taking into account all collateral received; deviating from the aforementioned diversification requirement, a Subfund may be fully collateralised in different transferable securities and money market instruments issued or guaranteed by a Member State of the EU, one or more of its local authorities, by any other state which is a member of the Organisation for Economic Co-operation and Development ("OECD"), by Brazil or Singapore or a public international body to which one or more Member States of the EU belong. Such Subfund should receive securities from at least six different issues, but securities from any single issue should not account for more than 30% of the Subfund's Net Asset Value. A Subfund may accept as collateral for more than 20% of its Net Asset Value securities which are issued or guaranteed by a Member State of the EU, one or more of its local authorities, by any other state which is a member of the OECD, by Brazil or Singapore or a public international body to which one or more Member States of the EU belong;
- (v) Risks linked to the management of collateral, such as operational and legal risks, should be identified, managed and mitigated by the risk management process;
- (vi) Where there is a title transfer, the collateral received should be held by the Depositary. For other types of collateral arrangement, the collateral can be held by a third party custodian which is subject to prudential supervision, and which is unrelated to the provider of the collateral;
- (vii) It should be capable of being fully enforced by the Company at any time without reference to or approval from the counterparty.

### Reinvestment of Collateral

Non-cash collateral received by the Company may not be sold, re-invested or pledged.

Cash collateral received by the Company can only be:

- (i) placed on deposit with credit institutions which have their registered office in an EU Member State or, if their registered office is located in a third-country, are subject to prudential rules considered by the CSSF as equivalent to those laid down in EU law;
- (ii) invested in high-quality government bonds; and/or
- (iii) invested in short-term money market funds as defined in the ESMA-Guidelines 2010/049 on a Common Definition of European Money Market Funds (in accordance with the opinion issued by ESMA in relation thereto on 22 August 2014 (ESMA/2014/1103).

Re-invested cash collateral should be diversified in accordance with the diversification requirements applicable to non-cash collateral as set out above.

The Subfund concerned may incur a loss in reinvesting the cash collateral it receives. Such a loss may arise due to a decline in the value of the investment made with cash collateral received. A decline in the value of such investment of the cash collateral would reduce the amount of collateral available to be returned by the Company on behalf of such Subfund to the counterparty at the conclusion of the transaction. The Subfund would be required to cover the difference in value between the collateral originally received and the amount available to be returned to the counterparty, thereby resulting in a loss to the Subfund.

Subject to the abovementioned conditions, collateral received by the Company may consist of:

- (i) Cash and cash equivalents, including short-term bank certificates and money market instruments;
- (ii) Bonds issued or guaranteed by a Member State of the OECD or by their local public authorities or by supranational institutions and undertakings with EU, regional or worldwide scope, each with a minimum rating of A+ (S&P) or A1 (Moody's);
- (iii) Bonds issued or guaranteed by issuers rated at least A- (S&P) or equivalent and offering adequate liquidity;
- (iv) Shares admitted to or dealt in on a regulated market of a Member State of the EU or on a stock exchange of a Member State of the OECD.

### Level of Collateral

The Company will determine the required level of collateral for OTC financial derivatives transactions by reference to the applicable counterparty risk limits set out in this Prospectus and taking into account the nature and characteristics of transactions, the creditworthiness and identity of counterparties and prevailing market conditions. At least the following level of collateral will be required by the Company for the different types of transactions:

Type of Transaction	Level of collateral (in relation to volume of transaction concerned)
OTC financial derivative transactions	100%

### Haircut Policy

Collateral will be valued, on a daily basis, using available market prices and taking into account appropriate discounts which will be determined by the Company for each asset class based on its haircut policy. The policy takes into account a variety of factors, depending on the nature of the collateral received, such as the issuer's credit standing, the maturity, currency, price volatility of the assets and, where applicable, the outcome of liquidity stress

tests carried out by the Company under normal and exceptional liquidity conditions.

According to the Company's haircut policy the following discounts will be made:

Type of Collateral	Discount
Cash and cash equivalents (only in currencies of G10 member states), including short-term bank certificates and money market instruments; a discount may be made if the currency of the collateral is different from the currency of the OTC derivative to which the collateral relates to	0% - 1%
Bonds issued or guaranteed by a Member State of the OECD or by their local public authorities or by supranational institutions and undertakings with EU, regional or worldwide scope, each with a minimum rating of A+ (S&P) or A1 (Moody's)	0,5% - 5%
Bonds issued or guaranteed by issuers rated at least A- (S&P) or equivalent offering adequate liquidity	1% - 8%
Shares admitted to or dealt in on a regulated market of a Member State of the EU or on a stock exchange of a Member State of the OECD	5% - 15%

#### Techniques and Instruments for Managing Credit Risk

Subject to the investment restrictions set out below, the Company may use securities (credit linked notes) as well as techniques and instruments (credit default swaps) for the purpose of managing the credit risk of each Subfund.

**Since the assets of each Subfund are subject to normal price fluctuations, no guarantee can be given that all Subfunds will achieve their investment objective.**

#### 4. Investment in the Company

##### i. General Information on the Shares

Within each Subfund one or more Share Classes may be offered which may differ in various respects, e.g. management fee, subscription fee, commissions, appropriation of income, currency or regarding the intended circle of investors.

The Share Classes which are issued within each Subfund, in addition with the related fees and subscription fees as well as the Reference Currency and/or Share Classes, are stated in Chapter 22, "Subfunds". A redemption fee will not be charged.

In addition, certain other fees, charges and expenses shall be paid out of the assets of the relevant Subfunds. For further information, see Chapter 8, "Expenses and Taxes".

All Shares are only available in uncertificated form and will exist exclusively as book entries.

The Shares which make up each such Class of Shares will either be capital-growth Shares or distribution Shares.

The initial issue price and initial offering date of Shares which are being issued for the first time are stated in Chapter 22, "Subfunds".

Investors may, at the discretion of the Central Administration, pay the subscription monies for Shares in a convertible currency other than the currency in which the relevant Share Class is denominated. As soon as the

receipt is determined by the Depository (the "Depository"), such subscription monies shall be automatically converted by the Depository into the currency in which the relevant Shares are denominated. Further details are set out below in Chapter 4, "Investment in the Company", Section ii, "Subscription of Shares".

The Company may at any time issue, within a Subfund, one or more Share Classes denominated in a currency other than the Subfund's Reference Currency ("Alternate Currency Share Class"). The issue of each further or Alternate Currency Share Class is specified in Chapter 22, "Subfunds".

Where explicitly mentioned in the Subfund related part of Chapter 22, "Subfunds", of this Prospectus, the Company enters into certain currency related transactions in order to hedge the exchange rate risk between the Reference Currency of such Subfund and the currency in which Shares of such Class are designated. Any financial instruments used to implement such strategies with respect to one or more Share Class(es) shall be assets and liabilities of a Subfund as a whole but will be attributable to the relevant Share Class and the gains and losses on and the costs of the relevant financial instrument will accrue solely to the relevant Share Class.

Transactions will be clearly attributable to a specific Share Class, therefore any currency exposure of a Share Class may not be combined with, or offset against, that of any other Share Class of a Subfund. The currency exposure of the assets attributable to a Share Class may not be allocated to other Share Classes.

Where there is more than one hedged Share Class in a Subfund denominated in the same currency and it is intended to hedge the foreign currency exposure of such Share Classes into another currency, the Subfund may aggregate the foreign exchange transactions entered into on behalf of such hedged Share Classes and apportion the gains/losses on and the costs of the relevant financial instruments pro rata to each such hedged Share Class in the relevant Subfund.

Where the Company seeks to hedge against currency fluctuations at Share Class level, while not intended, this could result in over-hedged or under-hedged positions due to external factors outside the control of the Company. However, over-hedged positions will not exceed 105% of the Net Asset Value of the Share Class and under-hedged positions shall not fall short of 95% of the portion of the Net Asset Value of the Share Class which is to be hedged against currency risk. Hedged positions will be reviewed daily to ensure that over-hedged or under-hedged positions do not fall short of or exceed the permitted levels outlined above and will be rebalanced on a regular basis.

To the extent that hedging is successful for a particular Share Class, the performance of the Share Class is likely to move directionally with the performance of the underlying assets with the result that investors in that Share Class will not gain if the Share Class currency falls against the currency in which the assets of the particular Subfund are denominated.

The Net Asset Value of the Shares of the Alternate Currency Share Classes may not develop in the same way as that of the Share Classes issued in the Reference Currency.

Investors' attention is drawn to the risk factor entitled "Share Currency Designation Risk" in Chapter 6, "Risk Factors".

However, no assurance can be given that the hedging objective will be achieved.

Shares may be held through collective depositories. In such cases, Shareholders shall receive a confirmation in relation to their Shares from the depository of their choice (for example, their bank or broker), or Shares may be held by Shareholders directly in registered account kept for the Company and its Shareholders by the Company's Central Administration. These Shareholders will be registered by the Central Administration. Shares held by a depository may be transferred to an account of the Shareholder with the Central Administration, or to an account with other depositories approved by the Company or – with other depositories participating in the Euroclear or Clearstream Banking System S.A. clearing systems. Conversely, Shares held in

a Shareholder's account kept by the Central Administration may at any time be transferred to an account with a depository.

The Board of Directors may divide or merge the Shares in the interest of the Shareholders.

## ii. Subscription of Shares

Unless stated otherwise in Chapter 22, "Subfunds", Shares may be subscribed on any day on which banks are normally open for business in Luxembourg ("Banking Day") at the Net Asset Value per Share of the relevant Share Class of the Subfund, which is calculated on the next Valuation Day (as defined in Chapter 7, "Net Asset Value") following such Banking Day according to the method described in Chapter 7, "Net Asset Value", plus the applicable initial subscription fees and any taxes. The applicable maximum subscription fee levied in connection with the Company's Shares is indicated in Chapter 22, "Subfunds".

Unless otherwise specified in Chapter 22, "Subfunds", subscription applications must be submitted in written form to the Central Administration or a Distributor, and subscription applications must be received by the Central Administration before 3 p.m. (Central European Time) on a Banking Day (cut-off time). Earlier cut-off times may apply for applications submitted to Distributors. Investors are advised to contact their Distributor to find out which cut-off time is applicable to them.

Unless otherwise specified in Chapter 22, "Subfunds", subscription applications shall be settled before 3 p.m. (Central European Time) on the Valuation Day following the Banking Day on which receipt of the subscription application is determined by the Central Administration.

Subscription applications received by the Central Administration after 3 p.m. (Central European Time) on a Banking Day shall be deemed to have been received prior to 3 p.m. (Central European Time) on the following Banking Day.

Unless otherwise specified in Chapter 22, "Subfunds", payment must be received within two Banking Days after the Valuation Day on which the issue price of such Shares was determined.

Charges to be paid due to the subscription of Shares shall accrue to the banks and other financial institutions engaged in the distribution of the Shares. Any taxes incurred on the issue of Shares shall also be charged to the investor. Subscription amounts shall be paid in the currency in which the relevant Shares are denominated or, if requested by the investor and at the sole discretion of the Central Administration, in another convertible currency. Payment shall be effected by bank transfer to the Company's bank accounts. Further details are set out in the subscription application form.

The Company may in the interest of the Shareholders accept transferable securities and other assets permitted by Part I of the Law of 17 December 2010 as payment for subscription ("contribution in kind"), provided, the offered transferable securities and assets correspond to the investment policy and restrictions of the relevant Subfund. Each payment of Shares in return for a contribution in kind is part of a valuation report issued by the auditor of the Company. The Board of Directors may at its sole discretion, reject all or several offered transferable securities and assets without giving reasons. All costs caused by such contribution in kind (including the costs for the valuation report, broker fees, expenses, commissions, etc.) shall be borne by the contributing investor.

The Shares shall be issued upon the receipt of the issue price with the correct value date by the Depository. Notwithstanding the above, the Company may, at its own discretion, decide that the subscription application will only be accepted once these monies are received by the Depository.

If the payment is made in a currency other than the one in which the relevant Shares are denominated, the proceeds of conversion from the currency of payment to the currency of denomination less fees and exchange commission shall be allocated to the purchase of Shares.

The minimum value or number of Shares which must be held by a Shareholder in a particular Share Class, if any, is set out in Chapter 22, "Subfunds", if applicable. Such minimum initial investment and holding requirement may be waived in any particular case at the sole discretion of the Company.

Subscriptions of fractions of Shares shall be permitted up to three decimal places. Fractional Shares shall not be entitled to voting rights. A holding of fractional Shares shall entitle the Shareholder to proportional rights in relation to such Shares. It might occur that clearing institutions will be unable to process holdings of fractional Shares. Investors should verify whether this is the case.

The Company is entitled to refuse at its own discretion subscription applications and temporarily or permanently suspend or limit the sale of Shares. In particular, the Company, Management Company and the Central Administration are entitled to refuse any subscription application in whole or in part for any reason, and may in particular prohibit or limit the sale of Shares to individuals or corporate bodies in certain countries or regions if such sales might be detrimental to the Company or if a subscription in the country concerned is in contravention of applicable laws.

Further, the Central Administration is entitled to refuse any subscription, transfer or conversion application in whole or in part for any reason, and may in particular prohibit or limit the sale, transfer or conversion of Shares to individuals or corporate bodies in certain countries if such transaction might be detrimental to the Company or result in the Shares being held directly or indirectly by a Prohibited Person (included but not limited to any U.S. Person) or if such subscription, transfer or conversion in the relevant country is in contravention of the local applicable laws. The subscription, transfer or conversion for Shares and any future transactions shall not be processed until the information required by the Central Administration, included but not limited to know your customer and anti-money laundering checks, is received.

## iii. Redemption of Shares

Unless otherwise specified in Chapter 22, "Subfunds", the Company shall in principle redeem Shares on any Banking Day at the Net Asset Value per Share of the relevant Share Class of the Subfund (based on the calculation method as described in Chapter 7, "Net Asset Value"), calculated on the Valuation Day following such Banking Day, less any redemption charge, if applicable.

Redemption applications must be submitted to the Central Administration or a Distributor. Redemption applications for Shares held through a depository must be submitted to the depository concerned. Unless otherwise specified in Chapter 22, "Subfunds", redemption applications must be received by the Central Administration before 3 p.m. (Central European Time) on a Banking Day (cut-off time). Earlier cut-off times may apply for applications submitted to Distributors. Investors are advised to contact their Distributor to find out which cut-off time is applicable to them.

Redemption applications received by the Central Administration after 3 p.m. (Central European Time) on a Banking Day shall be dealt with on the following Banking Day.

If the execution of a redemption application would result in the relevant Shareholder's holding in a particular Share Class falling below the minimum holding requirement (if any) for that Share Class as set out in Chapter 22, "Subfunds", the Company may, without further notice to the Shareholder, treat such redemption application as though it were an application for the redemption of all Shares of that Class held by the Shareholder.

Unless stated otherwise in the relevant special section, Shares shall be redeemed at the relevant Net Asset Value per Share calculated on the Valuation Day immediately following such Banking Day. Whether and to what extent the redemption price is lower or higher than the purchase price paid depends on the development of the Net Asset Value of each Share Class.

Redemptions of fractions of Shares shall be permitted up to three decimal places.

Payment of the redemption price of the Shares shall be made within two Banking Days following calculation of the redemption price, unless stated otherwise in Chapter 22, "Subfunds". This does not apply where specific statutory provisions, such as foreign exchange or other transfer restrictions or other circumstances beyond the Depositary's control, make it impossible to transfer the redemption amount.

In the case of large redemption applications, the Company may decide to settle redemption applications once it has sold corresponding assets without undue delay. Where such a measure is necessary, and if not otherwise specified in Chapter 22, "Subfunds", all redemption applications received on the same day shall be settled at the same price.

Payment shall be made by means of remittance to a bank account or, if possible, by cash in the currency that is legal tender in the country where payment is to be made, after conversion of the amounts in question. If payment is to be made in a currency other than that the one in which the relevant Shares are denominated, the amount to be paid shall be the proceeds of conversion from the currency of denomination to the currency of payment less all fees and exchange commission.

Upon payment of the redemption price, the corresponding Share shall cease to be valid.

If the Board of Directors discovers at any time that any beneficial owner of Shares is a Prohibited Person either alone or in conjunction with any other person, whether directly or indirectly, the Board of Directors may at its discretion and without liability, compulsorily redeem the Shares in accordance with the rules set out in the Articles of Incorporation, and upon redemption, the Prohibited Person will cease to be the owner of those Shares. The Board of Directors may require any Shareholder to provide it with any information that it may consider necessary for the purpose of determining whether or not such owner of Shares is or will be a Prohibited Person. Further, Shareholders shall have the obligation to immediately inform the Company to the extent the ultimate beneficial owner of the Shares held by such Shareholder becomes or will become a Prohibited Person.

#### iv. Conversion of Shares

Unless otherwise specified in Chapter 22, "Subfunds", Shareholders in a particular Share Class of a Subfund may at any time convert all or part of their Shares into Shares of another Share Class of the same Subfund provided that the requirements for the Share Class into which such Shares are converted are complied with. The fee charged for such conversions shall not exceed half the initial sales charge of the Share Class into which the Shares are converted. Unless otherwise specified in Chapter 22, "Subfunds", conversion applications must be completed and submitted to the Central Administration or a Distributor. Unless otherwise specified in Chapter 22, "Subfunds", conversion applications must be received by the Central Administration before 3 p.m. (Central European Time) on a Banking Day (cut-off time). Earlier cut-off times may apply for applications submitted to Distributors. Investors are advised to contact their Distributor to find out which cut-off time is applicable to them. Conversion applications received after 3 p.m. shall be dealt with on the following Banking Day. Conversion shall take place on the basis of the applicable Net Asset Value per Share calculated on the Valuation Day following the Banking Day on which receipt of the conversion application is determined by the Central Administration before 3 p.m. (Central European Time). Conversions of Shares will only be made on a Valuation Day, if the Net Asset Value in both relevant Share Classes is calculated.

Where processing an application for the conversion of Shares would result in the relevant Shareholder's holding in a particular Share Class falling below the minimum holding requirement (if any) for that Share Class set out in Chapter 22, "Subfunds", the Company may, without further notice to the Shareholder, treat such conversion application as though it were an application for the conversion of all Shares held by the Shareholder in that Share Class.

Where Shares denominated in one currency are converted into Shares denominated in another currency, the foreign exchange and conversion fees incurred will be taken into consideration and deducted.

#### v. Suspension of the Subscription, Redemption and Conversion of Shares and/or the Calculation of the Net Asset Value

The Company may suspend the calculation of the Net Asset Value and/or the issue, redemption and conversion of Shares of a Subfund where a substantial proportion of the assets of the Subfund:

- a) cannot be valued because a stock exchange or market is closed on a day other than a usual public holiday, or when trading on such stock exchange or market is restricted or suspended; or
- b) is not freely disposable because a political, economic, military, monetary or any other event beyond the control of the Company does not permit the disposal of the Subfund's assets, or such disposal would be detrimental to the interests of Shareholders; or
- c) cannot be valued because of disruption to the communications network or any other reason makes a valuation impossible; or
- d) is not available for transactions because restrictions on foreign exchange or other types of restrictions make asset transfers impracticable or it can be objectively demonstrated that transactions cannot be effected at normal foreign exchange rates; or
- e) following or anticipating a decision to liquidate or dissolve one or several Share Class(es) or a Subfund.

Investors applying for, or who have already applied for, the subscription or redemption or conversion of Shares in the relevant Subfund shall be notified of the suspension without delay so that they are given the opportunity to withdraw their application. Notice of the suspension shall be published as described in Chapter 13, "Information for Shareholders", and in the publications listed in Chapter 22, "Subfunds" if, in the opinion of the Board of Directors, the suspension is likely to last for longer than one week.

Suspension of the calculation of the Net Asset Value of one Subfund shall not affect the calculation of the Net Asset Value of the other Subfunds if none of the above conditions apply to such other Subfunds.

#### vi. Measures to Combat Money Laundering

Pursuant to the applicable provisions of Luxembourg laws and regulations in relation to the fight against money laundering and terrorist financing ("AML/CFT"), obligations have been imposed on the Company as well as on other professionals of the financial sector to prevent the use of funds for money laundering and financing of terrorism purposes.

The Company and the Management Company will ensure their compliance with the applicable provisions of the relevant Luxembourg laws and regulations, including but not limited to the Luxembourg law of 12 November 2004 on the fight against money laundering and terrorist financing (the "2004 AML/CFT Law"), the Grand-Ducal Regulation of 1 February 2010 providing detail on certain provisions of the 2004 AML/CFT Law (the "2010 AML/CFT Regulation"), CSSF Regulation N°12-02 of 14 December 2012 on the fight against money laundering and terrorist financing (the "CSSF Regulation 12-02") and relevant CSSF Circulars in the field of AML/CFT, including but not limited to CSSF Circular 18/698 on the authorization and organization of investment fund managers incorporated under Luxembourg law (the "CSSF Circular 18/698", and the above collectively referred to as the "AML/CTF Rules").

In accordance with the AML/CTF Rules, the Company and the Management Company are required to apply due diligence measures on the investors (including on their ultimate beneficial owner(s)), their delegates and the assets of the Company in accordance with their respective policies and procedures put in place from time to time.

Among others, the AML/CTF Rules require a detailed verification of a prospective investor's identity. In this context, the Company and the Management Company, or the Central Administration or any Distributor, nominee or any other type of intermediary (as the case may be), acting under the responsibility and supervision of the Company and the Management Company will require prospective investors to provide them with any information, confirmation and documentation deemed necessary in their reasonable judgment, applying a risk-based approach, to proceed such identification.

The Company and the Management Company reserve the right to request such information as is necessary to verify the identity of a prospective or current investor. In the event of delay or failure by a prospective investor to produce any information required for verification purposes, the Company and the Management Company are entitled to refuse the application and will not be liable for any interest, costs or compensation. Similarly, when Shares are issued, they cannot be redeemed or converted until full details of registration and anti-money laundering documents have been completed.

The Company and the Management Company moreover reserve the right to reject an application, for any reason, in whole or in part in which event the application monies (if any) or any balance thereof will, to the extent permissible, be returned without unnecessary delay to the prospective investor by transfer to the prospective investor's designated account or by post at the prospective investor's risk, provided the identity of the prospective investor can be properly verified pursuant to the AML/CTF Rules. In such event, the Company and the Management Company will not be liable for any interest, costs or compensation.

In addition, the Company and the Management Company, or the Central Administration or any Distributor, nominee or any other type of intermediary (as the case may be), acting under the responsibility and supervision of the Company and the Management Company, may request investors to provide additional or updated identification documents from time to time pursuant to on-going client due diligence requirements under the AML/CTF Rules, and investors shall be required and accept to comply with such requests.

In case of purchase of the Shares indirectly via a so-called nominee, the Management Company is required to perform an enhanced due diligence on this nominee in accordance with CSSF Regulation 12-02 and CSSF Circular 18/698.

Failure to provide proper information, confirmation or documentation may, among others, result in (i) the rejection of subscriptions, (ii) the withholding of redemption proceeds by the Company or (iii) the withholding of outstanding dividend payments. Moreover, prospective or current investors who fail to comply with the above requirements may be subject to additional administrative or criminal sanctions under applicable laws, including but not limited to the laws of the Grand Duchy of Luxembourg. None of the Company the Management Company, the Central Administration or any Distributor, nominee or any other type of intermediary (as the case may be) has any liability to an investor for delays or failure to process subscriptions, redemptions or dividend payments as a result of the investor providing no or only incomplete documentation. The Company and the Management Company moreover reserve all rights and remedies available under applicable law to ensure their compliance with the AML/CTF Rules.

Pursuant to the Luxembourg law of 13 January 2019 on the register of beneficial owners (the "RBO Law"), the Company is required to collect and make available certain information on its beneficial owner(s) (as defined in the AML/CTF Rules). Such information includes, among others, first and last name, nationality, country of residence, personal or professional address, national identification number and information on the nature and the scope of the beneficial ownership interest held by each beneficial owner in the Company. The Company is further required, among others, (i) to make such information available upon request to certain Luxembourg national authorities (including the Commission de Surveillance du Secteur Financier, the Commissariat aux Assurances, the Cellule de Renseignement Financier, Luxembourg tax and other national authorities as defined in the RBO Law) and upon motivated

request of other professionals of the financial sector subject to the AML/CTF Rules, and (ii) to register such information in a publicly available central register of beneficial owners (the "RBO").

That being said, the Company or a beneficial owner may however, on a case by case basis and in accordance with the provisions of the RBO Law, formulate a motivated request with the administrator of the RBO to limit the access to the information relating to them, e.g. in cases where such access could cause a disproportionate risk to the beneficial owner, a risk of fraud, kidnapping, blackmail, extortion, harassment or intimidation towards the beneficial owner, or where the beneficial owner is a minor or otherwise incapacitated. The decision to restrict access to the RBO does, however, not apply to the Luxembourg national authorities, nor to credit instructions, financial institutions, bailiffs and notaries acting in their capacity as public officers, which can thus always consult the RBO.

In light of the above RBO Law requirements, any persons willing to invest in the Company and any beneficial owner(s) of such persons (i) are required to provide, and agree to provide, the Company and the case being the Management Company the Central Administration or their Distributor, nominee or any other type of intermediary (as the case may be), with the necessary information in order to allow the Company to comply with its obligations in terms of beneficial owner identification, registration and publication under the RBO Law (regardless of applicable rules regarding professional secrecy, banking secrecy, confidentiality or other similar rules or arrangements), and (ii) accept that such information will be made available among others to Luxembourg national authorities and other professionals of the financial sector as well as to the public, with certain limitations, through the RBO.

Under the RBO Law, criminal sanctions may be imposed on the Company in case of its failure to comply with the obligations to collect and make available the required information, but also on any beneficial owner(s) that fail to make all relevant necessary information available to the Company.

#### vii. Market Timing

The Company does not permit practices related to "Market Timing" (i.e. a method through which an investor systematically subscribes and redeems or converts Shares of Classes within a short time period, by taking advantage of time differences and/or imperfections or deficiencies in the method of determination of the Net Asset Value). It therefore reserves the right to reject subscription and conversion applications from an investor who the Company suspects of using such practices and to take, if appropriate, the necessary measures to protect the other investors of the Company.

#### 5. Investment Restrictions

For the purpose of this Chapter, each Subfund shall be regarded as a separate UCITS within the meaning of Article 40 of the Law of 17 December 2010.

The following provisions shall apply to the investments made by each Subfund:

- 1) The Subfunds' investments may comprise only one or more of the following:
  - a) transferable securities and money market instruments admitted to or dealt in on a regulated market; for these purposes, a regulated market is any market for financial instruments within the meaning of Directive 2004/39/EC of the European Parliament and of the Council of 21 April 2004 on markets in financial instruments as amended;
  - b) transferable securities and money market instruments dealt in on another market in a Member State which is regulated, operates regularly and is recognized and open to the public; for the purpose of this Chapter "Member State" means a Member State of the European Union (the "EU") or the States of the European Economic Area (the "EEA") other than the Member States of the EU;
  - c) transferable securities and money market instruments admitted to official listing on a stock exchange in a non-Member State of the

European Union or dealt in on another market in a non-Member State of the European Union which is regulated, operates regularly and is recognized and open to the public, and is established in a country in Europe, America, Asia, Africa or Oceania;

- d) recently issued transferable securities and money market instruments, provided that the terms of issue include an undertaking that application will be made for admission to official listing on stock exchanges or markets as per paragraphs a), b) or c) above and provided such admission takes place within one year of issue;
- e) units or Shares of undertakings for collective investment in transferable securities authorized according to Directive 2009/65/EC (“UCITS”) and/or other undertakings for collective investment within the meaning of Article 1, paragraph 2, points a) and b) of Directive 2009/65/EC (“UCI”), whether or not established in a Member State, provided that:
  - these other UCIs are authorised under laws which provide that they are subject to supervision considered by the supervisory authority responsible for the Company, to be equivalent to that required by EU Community law and that cooperation between the supervisory authorities is sufficiently ensured,
  - the level of protection for share-/unitholders of the other UCIs is equivalent to that provided for share-/unitholders in a UCITS, and in particular that the rules on asset segregation, borrowing, lending and uncovered sales of transferable securities and money market instruments are equivalent to the requirements of Directive 2009/65/EC,
  - the business activities of the other UCIs are reported in semi-annual and annual reports to enable an assessment of the assets and liabilities, income and operations over the reporting period,
  - the UCITS or other UCIs whose units/shares are to be acquired, may not, pursuant to their management regulations or instruments of incorporation, invest more than 10% of their total net assets in units/shares of other UCITS or other UCIs;
- f) deposits with a credit institution which are repayable on demand or have the right to be withdrawn, and maturing in no more than 12 months, provided that the credit institution has its registered office in a Member State or, if the registered office of the credit institution is situated in a third country, provided that it is subject to prudential rules considered by the supervisory authority responsible for the Company, as equivalent to those laid down in EU Community law;
- g) financial derivative instruments, including equivalent cash-settled instruments which are dealt in on a regulated market referred to under paragraphs a), b) and c) above and/or financial derivative instruments which are dealt in over-the-counter (“OTC derivatives”), provided that:
  - the underlying consists of instruments within the meaning of Article 41, paragraph (1) of the Law of 17 December 2010, financial indices, interest rates, foreign exchange rates or currencies, in which the Company may invest according to its investment objectives,
  - the counterparties to OTC derivative transactions are institutions subject to prudential supervision, and belonging to the categories approved by the supervisory authority responsible for the Company, and
  - the OTC derivatives are subject to reliable and verifiable valuation on a daily basis and can be sold, liquidated or closed by an offsetting transaction at any time at their fair value at the Company’s initiative;
- h) money market instruments other than those dealt in on a regulated market and which are normally traded on the money market and are liquid, and whose value can be precisely determined at any time, provided the issuer of such instruments is itself regulated for

the purpose of protecting investors and savings, and provided that these investments are:

- issued or guaranteed by a central, regional or local authority or by a central bank of a Member State, the European Central Bank, the European Union or the European Investment Bank, a non-Member State or, in case of a federal State, by one of the members making up the federation, or by a public international body to which one or more Member States belong, or
  - issued by an undertaking any securities of which are dealt in on regulated markets referred to in paragraphs a), b) or c) above, or
  - issued or guaranteed by an establishment subject to prudential supervision, in accordance with criteria defined by EU Community law, or issued or guaranteed by an establishment that is subject to and complies with supervisory rules considered by the supervisory authority responsible for the Company, to be at least as stringent as those required by EU Community law, or
  - issued by other bodies belonging to the categories approved by the supervisory authority responsible for the Company, provided that investments in such instruments are subject to investor protection equivalent to that laid down in the first, the second or the third indent of this paragraph h) and provided that the issuer is a company whose capital and reserves amount to at least ten million euro (EUR 10,000,000) and which presents and publishes its annual financial statements in accordance with the fourth Directive 78/660/EEC or is an entity, which within a group of companies comprising one or several listed companies, is dedicated to the financing of the group, or is an entity which is dedicated to the financing of securitisation vehicles which benefit from a banking liquidity line.
- 2) The Subfunds shall not, however, invest more than 10% of their total net assets in transferable securities or money market instruments other than those referred to in section 1).  
The Subfunds may hold ancillary liquid assets in different currencies.
- 3) The Management Company applies a risk management process which enables it to monitor and measure at any time the risk of the investment positions and their contribution to the overall risk profile of the portfolio and a process for accurate and independent assessment of the value of OTC derivatives.  
Each Subfund may, for the purpose of (i) hedging, (ii) efficient portfolio management and/or (iii) implementing its investment strategy, use all financial derivative instruments within the limits laid down by Part I of the Law of 17 December 2010, with the exception of securities financing transactions in the meaning of the SFTR and total return swaps.  
The global exposure is calculated taking into account the current value of the underlying assets, the counterparty risk, future market movements and the time available to liquidate the positions. This shall also apply to the following subparagraphs.  
As part of its investment policy and within the limits laid down in section 4) paragraph e), each Subfund may invest in financial derivative instruments, provided that the exposure to the underlying assets does not exceed in aggregate the investment limits laid down in section 4). If a Subfund invests in index-based financial derivative instruments, these investments do not have to be combined to the limits laid down in section 4). When a transferable security or a money market instrument embeds a derivative instrument, the derivative instrument shall be taken into account when complying with the requirements of this section.  
The global exposure may be calculated through the commitment approach or the Value-at-Risk (VaR) methodology as specified for each Subfund in Chapter 22, “Subfunds”.

The standard commitment approach calculation converts the financial derivative position into the market value of an equivalent position in the underlying asset of that derivative. When calculating global exposure using the commitment approach, the Company may benefit from the effects of netting and hedging arrangements.

VaR provides a measure of the potential loss that could arise over a given time interval under normal market conditions, and at a given confidence level. The Law of 17 December 2010 provides for a confidence level of 99% with a time horizon of one month.

Unless otherwise specified in Chapter 22, each Subfund shall ensure that its global exposure to financial derivative instruments computed on a commitment basis does not exceed 100% of its total net assets or that the global exposure computed based on a VaR method does not exceed either (i) 200% of the reference portfolio (benchmark) or (ii) 20% of the total net assets.

The risk management of the Management Company supervises the compliance of these provision in accordance with the requirements of applicable circulars or regulation issued by the Luxembourg supervisory authority (*Commission de Surveillance du Secteur Financier, CSSF*) or any other European authority authorized to issue related regulation or technical standards.

- 4) a) No more than 10% of the total net assets of each Subfund may be invested in transferable securities or money market instruments issued by the same issuer. In addition, the total value of transferable securities and money market instruments issued by those issuers in which the Subfund invests more than 5% of its total net assets, shall not exceed 40% of the value of its total net asset. No Subfund may invest more than 20% of its total net assets in deposits made with the same body. The risk exposure to a counterparty of a Subfund in an OTC derivative transaction may not exceed the following percentages:
- 10% of total net assets if the counterparty is a credit institution referred to in Chapter 5, “Investment Restrictions”, section 1) paragraph f), or
  - 5% of total net assets in other cases.
- b) The 40% limit specified in section 4) paragraph a) is not applicable to deposits and OTC derivative transactions made with financial institutions subject to prudential supervision. Irrespective of the limits specified in section 4) paragraph a), each Subfund shall not combine, where this would lead to investing more than 20% of its total net assets in a single body, any of the following:
- investments in transferable securities or money market instruments issued by that body, or
  - deposits made with that body, or
  - exposures arising from OTC derivatives transactions undertaken with that body.
- c) The limit of 10% stipulated in section 4) paragraph a) is raised to a maximum of 35% if the transferable securities or money market instruments are issued or guaranteed by a Member State, by its public local authorities, by a non-Member State or by public international bodies to which one or more Member States belong.
- d) The 10% limit stipulated in section 4) paragraph a) is raised to 25% for bonds issued by a credit institution which has its registered office in a Member State and is subject by law to special public supervision designed to protect bondholders. In particular, sums deriving from the issue of those bonds must be invested in accordance with the legal requirements in assets which, during the whole period of validity of the bonds, are capable of covering claims attaching to the bonds and which, in case of bankruptcy of the issuer, would be used on a priority basis for the reimbursement of the principal and payment of the accrued interest. If a Subfund invests more than 5% of its total net assets in bonds referred to in this paragraph which are issued by a single issuer, the total value of

these investments may not exceed 80% of the Subfund’s total net assets.

- e) The transferable securities and money market instruments referred to in paragraphs c) and d) of this section 4) shall not be taken into account for the purpose of applying the limit of 40% referred to under paragraph a) of this section. The limits specified under paragraphs a), b), c) and d) shall not be combined; thus investments in transferable securities or money market instruments issued by the same issuer or in deposits or derivative instruments made with this body carried out in accordance with paragraphs a), b), c) and d) shall not exceed in total 35% of a Subfund’s total net assets. Companies which belong to the same group for the purposes of the preparation of consolidated financial statements in accordance with Directive 83/349/EEC as amended or restated or in accordance with internationally recognized accounting rules, shall be regarded as a single issuer for the purpose of calculating the investment limits specified in the present section 4). A Subfund may cumulatively invest up to a limit of 20% of its total net assets in transferable securities and money market instruments within the same group.
- f) **The limit of 10% stipulated in section 4) paragraph a) is raised to 100% if the transferable securities and money market instruments involved are issued or guaranteed by a Member State, one or more of its local authorities, by any other state which is a member of the Organisation for Economic Cooperation and Development (“OECD”), by Brazil or Singapore or by a public international body to which one or more Member States of the European Union belong. In such case, the Subfund concerned must hold securities or money market instruments from at least six different issues, and the securities or money market instruments of any single issue shall not exceed 30% of the Subfund’s total assets.**
- g) Without prejudice to the limits laid down in section 6), the limits laid down in the present section 4) are raised to a maximum of 20% for investments in Shares and/or debt securities issued by the same body, when the aim of the Subfund’s investment policy is to replicate the composition of a certain stock or debt securities index which is recognized by the supervisory authority responsible for the Company, on the following basis:
- the composition of the index is sufficiently diversified,
  - the index represents an adequate benchmark for the market to which it relates,
  - it is published in an appropriate manner.

The aforementioned limit of 20% may be raised to a maximum of 35% where that proves to be justified by exceptional market conditions in particular in regulated markets where certain transferable securities or money market instruments are highly dominant. The investment up to this limit is only permitted for a single issuer.

- 5) The Company will not invest more than 10% of the total net assets of any Subfund in units/shares of other UCITS and/or in other UCIs (“**Target Funds**”) pursuant to section 1) paragraph e), unless otherwise specified in the investment policy applicable to a Subfund as described in Chapter 22, “Subfunds”.

Where a higher limit as 10% is specified in Chapter 22, “Subfunds”, the following restrictions shall apply:

- No more than 20% of a Subfund’s total net assets may be invested in units/shares of a single UCITS or other UCI. For the purpose of application of this investment limit, each compartment of a UCITS or other UCI with multiple compartments is to be considered as a separate issuer provided that the principle of segregation of the obligations of the various compartments vis-à-vis third parties is ensured.
- Investments made in units/shares of UCI other than UCITS may not in aggregate exceed 30% of the total net assets of the Subfund.

Where a Subfund invests in units/shares of other UCITS and/or other UCI that are managed, directly or by delegation, by the same management company or by any other company with which the Company is linked by common management or control, or by a direct or indirect holding of more than 10% of the capital or votes (“**Affiliated Funds**”), the Company or the other company may not charge subscription or redemption fees on account of the Subfund’s investment in the units/shares of such Affiliated Funds.

- 6) a) The Company’s assets may not be invested in securities carrying voting rights which enable the Company to exercise significant influence over the management of an issuer.
- b) Moreover, the Company and each Subfund may acquire no more than
  - 10% of the non-voting Shares of the same issuer;
  - 10% of the debt securities of the same issuer;
  - 25% of the Units/Shares of the same UCITS or other UCI;
  - 10% of the money market instruments of any single issuer.

In the last three cases, the restriction shall not apply if the gross amount of bonds or money market instruments, or the net amount of the instruments in issue cannot be calculated at the time of acquisition.

- c) The restrictions set out under paragraphs a) and b) shall not apply to:
  - transferable securities and money market instruments issued or guaranteed by a Member State or its local authorities,
  - transferable securities and money market instruments issued or guaranteed by a non-Member State of the European Union,
  - transferable securities and money market instruments issued by public international bodies to which one or more Member States of the European Union belong,
  - Shares held by the Company in the capital of a company which is incorporated in a non-Member State of the European Union and which invests its assets mainly in securities of issuing bodies having their registered office in that State, where under the legislation of that State, such a holding represents the only way in which the Company can invest in the securities of issuing bodies of that State. This derogation, however, shall apply only if in its investment policy the company from the non-Member State of the European Union complies with the limits stipulated in section 4, paragraphs a) to e), section 5, and section 6 paragraphs a) and b).
- 7) The Company may not borrow any money for any Subfund except for:
  - a) the purchase of foreign currency using a back-to-back loan,
  - b) an amount equivalent to not more than 10% of the Subfund’s total net assets and borrowed on a temporary basis.
- 8) The Company may not grant loans or act as guarantor for third parties.
- 9) The Company may not invest its assets directly in real estate, precious metals or certificates representing precious metals and goods.
- 10) The Company may not carry out uncovered sales of transferable securities and money market instruments or other financial instruments referred to in section 1) paragraph e), g) and h).
- 11) In relation to borrowing conducted within the limitations set out in the Prospectus, the Company may pledge or assign the assets of the Subfund concerned as collateral. Furthermore, the Company may pledge or assign the assets of the Subfund concerned as collateral to counterparties of transactions involving OTC derivatives or financial derivative instruments which are dealt in on a regulated market referred to under paragraphs a), b) and c) of number 1) above in order to secure the payment and performance by such Subfund of its obligations to the relevant counterparty. To the extent counterparties require the provision of collateral exceeding the value of the risk to be covered by collateral or the overcollateralization is caused by other circumstances (e.g. performance

of the assets posted as collateral or provisions of customary framework documentation), such (excess) collateral may – also in respect of non-cash collateral – be exposed to the counterparty risk of such counterparty and may only have a mere unsecured claim in respect of such assets.

The restrictions set out above shall not apply to the exercise of subscription rights.

During the first six months following official authorization of a Subfund in Luxembourg, the restrictions set out in sections 4) and 5) above need not be complied with, provided that the principle of risk diversification is observed.

If the limits referred to above are exceeded for reasons beyond the control of the Company or as a result of the exercise of subscription rights, the Company shall as a matter of priority remedy that situation, taking due account of the interests of the Shareholders.

The Company is entitled to issue, at any time, further investment restrictions, in the interests of the Shareholders, if such restrictions are necessary to comply with the legislation and regulations in those countries in which Shares are or will be offered for sale.

## 6. Risk Factors

**Prospective investors should consider the following risk factors before investing in the Company. However, the risk factors set out below do not purport to be an exhaustive list of risks related to investments in the Company. Prospective investors should read the entire Prospectus, and where appropriate consult with their legal, tax and Investment Managers, in particular regarding the tax consequences of subscribing, holding, converting, redeeming or otherwise disposing of Shares under the law of their country of citizenship, residence or domicile (further details are set out in Chapter 8, “Expenses and Taxes”). Investors should be aware that the investments of the Company are subject to market fluctuations and other risks associated with investments in transferable securities and other financial instruments. The value of the investments and the resulting income may go up or down and it is possible that investors will not recoup the amount originally invested in the Company, including the risk of loss of the entire amount invested. There is no assurance that the investment objective of a particular Subfund will be achieved or that any increase in the value of the assets will occur. Past performance is not a reliable indicator of future results.**

The Net Asset Value of a Subfund may vary as a result of fluctuations in the value of the underlying assets and the resulting income. Investors are reminded that in certain circumstances their right to redeem Shares may be suspended.

Depending on the currency of the investor’s domicile, exchange-rate fluctuations may adversely affect the value of an investment in one or more of the Subfunds. Moreover, in the case of an Alternate Currency Share Class in which the currency risk is not hedged, the result of the associated foreign exchange transactions may have a negative influence on the performance of the corresponding Share Class.

### Sanctions Risk

Certain countries or designated persons or entities may, from time to time, be subject to sanctions and other restrictive measures imposed by states or supranational authorities (for example, but not limited to, the European Union or the United Nations), or their agencies (collectively, “**Sanctions**”).

Sanctions may be imposed among others on foreign governments, state-owned enterprises, sovereign wealth funds, specified companies or economic sectors, as well as non-state actors or designated persons associated with any of the foregoing. Sanctions may take different forms, including but not limited to trade embargoes, prohibitions or restrictions to conduct trade or provide services to targeted countries or entities, as well as seizures, asset freezes

and/or the prohibition to provide or receive funds, goods or services to or from designated persons.

Sanctions may adversely affect companies or economic sectors in which the Company, or any of its Subfunds, may from time to time invest. The Company could experience, among others, a decrease in value of securities of any issuer due to the imposition of Sanctions, whether directed towards such issuer, an economic sector in which such issuer is active, other companies or entities with which such issuer conducts business, or towards the financial system of a certain country. Because of Sanctions, the Company may be forced to sell certain securities at unattractive prices, at inopportune moments and/or in unfavourable circumstances where it may not have done so in the absence of Sanctions. Even though the Company will make reasonable efforts, acting in the best interest of the investors, to sell such securities under optimal conditions, such forced sales could potentially result in losses for the Subfunds concerned. Depending on the circumstances, such losses could be considerable. The Company may also experience adverse consequences due to an asset freeze or other restrictive measures directed at other companies, including but not limited to any entity that serves as a counterparty to derivatives, or as a sub-custodian, paying agent or other service provider to the Company or any of its Subfunds. The imposition of Sanctions may require the Company to sell securities, terminate ongoing agreements, lose access to certain markets or essential market infrastructure, cause some or all of a Subfund's assets to become unavailable, freeze cash or other assets belonging to the Company and/or adversely affect the cash flows associated with any investment or transaction.

The Company, the Management Company, the Depositary, the Investment Manager and any other members from the Credit Suisse Group (collectively, the “**Fund Parties**”) are required to comply with all applicable sanctions laws and regulations in the countries in which the Fund Parties conduct business (recognizing that certain of the sanctions regimes have implications for cross-border or foreign activities) and will implement the necessary policies and procedures to this effect (collectively, “**Sanctions Policies**”). The Shareholders should note these Sanctions Policies will be developed by the Fund Parties in their discretion and best judgment and may involve protective or preventive measures that go beyond the strict requirements of applicable laws and regulations imposing any Sanctions, which may further negatively impact the investment of the Fund.

#### **Market Risk**

Market risk is a general risk which may affect all investments to the effect that the value of a particular investment could change in a way that is detrimental to the Company's interests. In particular, the value of investments may be affected by uncertainties such as international, political and economic developments or changes in government policies.

#### **Interest Rate Risk**

Subfunds investing in fixed income securities may fall in value due to fluctuations in interest rates. Generally, the value of fixed income securities rises when interest rates fall. Conversely, when interest rates rise, the value of fixed income securities can generally be expected to decrease. Long term fixed income securities will normally have more price volatility than short term fixed income securities.

#### **Foreign Exchange Risk**

The Subfunds' investments may be made in other currencies than the relevant Reference Currency and therefore be subject to currency fluctuations, which may affect the Net Asset Value of the relevant Subfunds favorably or unfavorably.

Currencies of certain countries may be volatile and therefore may affect the value of securities denominated in such currencies. If the currency in which an investment is denominated appreciates against the Reference Currency of the relevant Subfund, the value of the investment will increase. Conversely, a

decline in the exchange rate of the currency would adversely affect the value of the investment.

The Subfunds may enter into hedging transactions on currencies to protect against a decline in the value of investments denominated in currencies other than the Reference Currency, and against any increase in the cost of investments denominated in currencies other than the Reference Currency. However, there is no guarantee that the hedging will be successfully achieved. Although it is the policy of the Company to hedge the currency exposure of Subfunds against their respective Reference Currencies, hedging transactions may not always be possible and currency risks cannot therefore be excluded.

#### **Share Currency Designation Risk**

A Share Class of a Subfund may be designated in a currency other than the Reference Currency of the Subfund and/or the designated currencies in which the Subfund's assets are denominated. Redemption proceeds and any distributions to Shareholders will normally be made in the currency of denomination of the relevant Share Class. Changes in the exchange rate between the Reference Currency and such designated currency or changes in the exchange rate between the designated currencies in which the Subfund's assets are denominated and the designated currency of a Share Class may lead to a depreciation of the value of such Shares as expressed in the designated currency. If specifically mentioned in the Subfund related part of Chapter 22, “Subfunds”, the Company will try to hedge this risk. Investors should be aware that this strategy may substantially limit Shareholders of the relevant Share Class from benefiting if the designated currency falls against the Reference Currency of the Subfund and/or the currency/currencies in which the assets of the respective Subfund are denominated. In such circumstances, Shareholders of the relevant Share Class may be exposed to fluctuations in the Net Asset Value per Share reflecting the gains/losses on and the costs of the relevant assets. Assets used to implement such strategies shall be assets/liabilities of the Subfund as a whole. However, the gains/losses on, and the costs of, the relevant assets will accrue solely to the relevant Share Class.

#### **Credit Risk**

Subfunds investing in fixed income securities are subject to the risk that issuers may not make payments on such securities. An issuer suffering an adverse change in its financial condition could lower the credit quality of a security, leading to greater price volatility of the security. A lowering of the credit rating of a security may also offset the security's liquidity. Subfunds investing in lower quality debt securities are more susceptible to these problems and their value may be more volatile.

#### **Counterparty Risk**

In accordance with its investment objective and policy, a Subfund may trade ‘over-the-counter’ (OTC) financial derivative instruments such as non-exchange traded futures and options, forwards, swaps or contracts for difference. OTC derivatives are instruments specifically tailored to the needs of an individual investor that enable the user to structure precisely its exposure to a given position. Such instruments are not afforded the same protections as may be available to investors trading futures or options on organised exchanges, such as the performance guarantee of an exchange clearing house. The counterparty to a particular OTC derivative transaction will generally be the specific entity involved in the transaction rather than a recognised exchange clearing house. In these circumstances the Subfund will be exposed to the risk that the counterparty will not settle the transaction in accordance with its terms and conditions because of a dispute over the terms of the contract (whether or not bona fide) or because of the insolvency, bankruptcy or other credit or liquidity problems of the counterparty. This could result in substantial losses to the Subfund.

Participants in OTC markets are typically not subject to the credit evaluation and regulatory oversight to which members of ‘exchange-based’ markets are subject. Unless otherwise indicated in the Prospectus for a specific Subfund, the Company will not be restricted from dealing with any particular counterparties. The Company's evaluation of the creditworthiness of its

counterparties may not prove sufficient. The lack of a complete and foolproof evaluation of the financial capabilities of the counterparties and the absence of a regulated market to facilitate settlement may increase the potential for losses.

The Company may select counterparties located in various jurisdictions. Such local counterparties are subject to various laws and regulations in various jurisdictions that are designed to protect their customers in the event of their insolvency. However, the practical effect of these laws and their application to the Subfund and its assets are subject to substantial limitations and uncertainties. Because of the large number of entities and jurisdictions involved and the range of possible factual scenarios involving the insolvency of a counterparty, it is impossible to generalize the effect of their insolvency on the Subfund and its assets. Shareholders should assume that the insolvency of any counterparty would generally result in a loss to the Subfund, which could be material.

If there is a default by the counterparty to a transaction, the Company will under most normal circumstances have contractual remedies and in some cases collateral pursuant to the agreements related to the transaction. However, exercising such contractual rights may involve delays and costs. If one or more OTC counterparties were to become insolvent or the subject of liquidation proceedings, the recovery of securities and other assets under OTC derivatives may be delayed and the securities and other assets recovered by the Company may have declined in value.

Regardless of the measures that the Company may implement to reduce counterparty credit risk there can be no assurance that a counterparty will not default or that the Subfund will not sustain losses on the transactions as a result. Such counterparty risk is accentuated for contracts with longer maturities or where the Subfund has concentrated its transactions with a single or small group of counterparties.

#### **EU Bank Recovery and Resolution Directive**

Directive 2014/59/EU establishing a framework for the recovery and resolution of credit institutions and investment firms (the “**BRRD**”) was published in the Official Journal of the European Union on June 12, 2014 and entered into force on July 2, 2014. The stated aim of the BRRD is to provide resolution authorities, including the relevant Luxembourg resolution authority, with common tools and powers to address banking crises pre-emptively in order to safeguard financial stability and minimize taxpayers’ exposure to losses.

In accordance with the BRRD and relevant implementing laws, national prudential supervisory authorities can assert certain powers over credit institutions and certain investment firms which are failing or are likely to fail and where normal insolvency would cause financial instability. These powers comprise write-down, conversion, transfer, modification, or suspension powers existing from time to time under, and exercised in compliance with any laws, regulations, rules or requirements in effect in the relevant EU Member State relating to the implementation of BRRD (the “**Bank Resolution Tools**”).

The use of any such Bank Resolution Tools may affect or restrain the ability of counterparties subject to BRRD to honour their obligations towards the Subfunds, thereby exposing the Subfunds to potential losses.

The exercise of Bank Resolution Tools against investors of a Subfund may also lead to the mandatory sale of part of the assets of these investors, including their Shares in that Subfund. Accordingly, there is a risk that a Subfund may experience reduced or even insufficient liquidity because of such an unusually high volume of redemption requests. In such case the Company may not be able to pay redemption proceeds within the time period stated in this Prospectus.

Furthermore, exercising certain Bank Resolution Tools in respect of a particular type of securities may, under certain circumstances, trigger a drying-up of liquidity in specific securities markets, thereby causing potential liquidity problems for the Subfunds.

#### **Liquidity Risk**

There is a risk that the Company will suffer liquidity issues because of unusual market conditions, an unusually high volume of redemption requests or other reasons. In such case the Company may not be able to pay redemption proceeds within the time period stated in this Prospectus.

#### **Management Risk**

The Company is actively managed and therefore the Subfunds may be subject to management risks. The Company will apply its investment strategy (including investment techniques and risk analysis) when making investment decisions for the Subfunds, however no assurance can be given that the investment decision will achieve the desired results. The Company may in certain cases decide not to use investment techniques, such as derivative instruments, or, they may not be available, even under market conditions where their use could be beneficial for the relevant Subfund.

#### **Investment Risk**

##### ***Investments in Equities***

The risks associated with investments in equity (and equity-type) securities include in particular significant fluctuations in market prices, adverse issuer or market information and the subordinate status of equity compared to debt securities issued by the same company.

Investors should also consider the risk attached to fluctuations in exchange rates, possible imposition of exchange controls and other restrictions.

##### ***Investments in Fixed Income Securities***

Investments in securities of issuers from different countries and denominated in different currencies offer potential benefits not available from investments solely in securities of issuers from a single country, but also involve certain significant risks that are not typically associated with investing in the securities of issuers located in a single country. Among the risks involved are fluctuations in interest rates as well as fluctuations in currency exchange rates (as further described above under section “Interest Rate Risk” and “Foreign Exchange Risk”) and the possible imposition of exchange control regulations or other laws or restrictions applicable to such investments. A decline in the value of a particular currency in comparison with the Reference Currency of the Subfund would reduce the value of certain portfolio securities that are denominated in such a currency.

An issuer of securities may be domiciled in a country other than the country in whose currency the instrument is denominated. The values and relative yields of investments in the securities markets of different countries, and their associated risks, may fluctuate independently of each other.

As the Net Asset Value of a Subfund is calculated in its Reference Currency, the performance of investments denominated in a currency other than the Reference Currency will depend on the strength of such currency against the Reference Currency and on the interest rate environment in the country issuing the currency. In the absence of other events that could otherwise affect the value of non-Reference Currency investments (such as a change in the political climate or an issuer’s credit quality), an increase in the value of the non-Reference Currency can generally be expected to increase the value of a Subfund’s non-Reference Currency investments in terms of the Reference Currency.

The Subfunds may invest in investment grade debt securities. Investment grade debt securities are assigned ratings within the top rating categories by rating agencies on the basis of the creditworthiness or risk of default. Rating agencies review, from time to time, such assigned ratings and debt securities

may therefore be downgraded in rating if economic circumstances impact the relevant debt securities issue. Moreover, the Subfunds may invest in debt instruments in the non investment grade sector (high yield debt securities). Compared to investment grade debt securities, high yield debt securities are generally lower-rated securities and will usually offer higher yields to compensate for the reduced creditworthiness or increased risk of default attached to these debt instruments.

#### ***Investments in Warrants***

The leveraged effect of investments in warrants and the volatility of warrant prices make the risks attached to investments in warrants higher than in the case of investment in equities. Because of the volatility of warrants, the volatility of the share price of any Subfund investing in warrants may potentially increase.

#### ***Investments in Target Funds***

Investors should note that investments in Target Funds may incur the same costs both at the Subfund level and at the level of the Target Funds. Furthermore, the value of the units or shares in the Target Funds may be affected by currency fluctuations, currency exchange transactions, tax regulations (including the levying of withholding tax) and any other economic or political factors or changes in the countries in which the Target Fund is invested, along with the risks associated with exposure to the emerging markets.

The investment of the Subfunds' assets in units or shares of Target Funds entails a risk that the redemption of the units or shares may be subject to restrictions, with the consequence that such investments may be less liquid than other types of investment.

#### ***Use of Derivatives***

While the use of financial derivative instruments can be beneficial, financial derivative instruments also involve risks different from, and, in certain cases, greater than, the risks presented by more traditional investments.

Derivatives are highly specialized financial instruments. The use of a derivative requires an understanding not only of the underlying instrument but also of the derivative itself, without there being any opportunity to observe the performance of the derivative under all possible market conditions.

If a derivative transaction is particularly large or if the relevant market is illiquid, it may not be possible to initiate a transaction or liquidate a position at an advantageous price.

Since many derivatives have a leverage component, adverse changes in the value or level of the underlying asset, rate or index may result in a loss substantially greater than the amount invested in the derivative itself.

The other risks associated with the use of derivatives include the risk of mispricing or improper valuation of derivatives and the inability of derivatives to correlate perfectly with underlying assets, rates and indices. Many derivatives are complex and are often valued subjectively. Improper valuations can result in increased cash payment requirements to counterparties or a loss of value to the Company. Consequently, the Company's use of derivatives may not always be an effective means of, and sometimes could be counterproductive to, furthering the Company's investment objectives.

Derivative instruments also carry the risk that a loss may be sustained by the Company as a result of the failure of the counterparty to a derivative to comply with the terms of the contract (as further described under "Counterparty Risk" above). The default risk for exchange-traded derivatives is generally less than for privately negotiated derivatives, since the clearing house, which is the issuer or counterparty to each exchange-traded derivative, provides a guarantee of performance. In addition, the use of credit derivatives (credit default swaps, credit linked notes) carries the risk of a loss arising for the Company if one of the entities underlying the credit derivative defaults.

Moreover, OTC derivatives may bear liquidity risks. The counterparties with which the Company effects transactions might cease making markets or quoting prices in certain of the instruments. In such cases, the Company might not be in a position to enter into a desired transaction in currencies, credit default swaps or to enter into an offsetting transaction with respect to an open

position which might adversely affect its performance. Unlike exchange-traded derivatives, forward, spot and option contracts on currencies do not provide the Management Company with the possibility to offset the Company's obligations through an equal and opposite transaction. Therefore, through entering into forward, spot or options contracts, the Company may be required, and must be able, to perform its obligations under these contracts.

The use of derivative instruments may or may not achieve its intended objective.

#### ***Investments in Hedge Fund Indices***

In addition to the risks entailed in traditional investments (such as market, credit and liquidity risks), investments in hedge fund indices entail a number of specific risks that are set out below.

The hedge funds underlying the respective index, as well as their strategies, are distinguished from traditional investments primarily by the fact that their investment strategy may involve the short sale of securities and, on the other hand, by using borrowings and derivatives, a leverage effect may be achieved. The leverage effect entails that the value of a fund's assets increases faster if capital gains arising from investments financed by borrowing exceed the related costs, notably the interest on borrowed monies and premiums payable on derivative instruments. A fall in prices, however, causes a faster decrease in the value of the Company's assets. The use of derivative instruments, and in particular of short selling, can in extreme cases lead to a total loss in value. Most of the hedge funds underlying the respective index were established in countries in which the legal framework, and in particular the supervision by the authorities, either does not exist or does not correspond to the standards applied in western Europe or other comparable countries. The success of hedge funds depends in particular on the competence of the fund managers and the suitability of the infrastructure available to them.

#### ***Investments in Commodity and Real Estate Indices***

Investments in products and/or techniques providing an exposure to commodity, hedge fund and real estate indices differ from traditional investments and entail additional risk potential (e.g. they are subject to greater price fluctuations). When included in a broadly diversified portfolio, however, investments in products and/or techniques providing an exposure to commodity and real estate indices generally show only a low correlation to traditional investments.

#### ***Investments in Illiquid Assets***

The Company may invest up to 10% of the total net assets of each Subfund in transferable securities or money market instruments which are not traded on stock exchanges or regulated markets. It may therefore be the case that the Company cannot readily sell such securities. Moreover, there may be contractual restrictions on the resale of such securities. In addition, the Company may under certain circumstances trade futures contracts or options thereon. Such instruments may also be subject to illiquidity in certain situations when, for example, market activity decreases, or when a daily fluctuation limit has been reached. Most futures exchanges restrict the fluctuations in future contract prices during a single day by regulations referred to as "daily limits". During a single trading day no trades may be executed at prices above or below these daily limits. When the price of a futures contract has increased or decreased to the limit, positions can neither be purchased nor compensated. Futures prices have occasionally moved outside the daily limit for several consecutive days with little or no trading. Similar occurrences may prevent the Company from promptly liquidating unfavourable positions and therefore result in losses.

For the purpose of calculating the Net Asset Value, certain instruments, which are not listed on an exchange, for which there is limited liquidity, will be valued based upon the average price taken from at least two major primary dealers. These prices may affect the price at which Shares are redeemed or purchased.

There is no guarantee that in the event of a sale of such instruments the price thus calculated can be achieved.

#### **Investments in Asset Backed Securities and Mortgage Backed Securities**

The Subfunds may have exposure to asset backed securities (“ABS”) and mortgage backed securities (“MBS”). ABS and MBS are debt securities issued by a special purpose vehicle (SPV) with the aim to pass through of liabilities of third parties other than the parent company of the issuer. Such securities are secured by an asset pool (mortgages in the case of MBS and various types of assets in the case of ABS). Compared to other traditional fixed income securities such as corporate or government issued bonds, the obligations associated with these securities may be subject to greater counterparty, liquidity and interest rate risks as well as other types of risks, such as reinvestment risk (arising from included termination rights, prepayment options), credit risks on the underlying assets and advance repayments of principal resulting in a lower total return (especially, if repayment of the debt is not concurrent with redemption of the assets underlying the claims). ABS and MBS assets may be highly illiquid and therefore prone to substantial price volatility.

#### **Small to medium-sized Companies**

A number of Subfunds may invest primarily in small and mid-cap companies. Investing in the securities of smaller, lesser-known companies involves greater risk and the possibility of greater price volatility due to the less certain growth prospects of smaller firms, the lower degree of liquidity of the markets for such stocks and the greater sensitivity of smaller companies to changing market conditions.

#### **Hedged Share Class Risk**

The hedging strategy applied to hedged Share Classes may vary from one Subfund to another. Each Subfund will apply a hedging strategy which aims to reduce currency risk between the Reference Currency of the respective Subfund and the nominal currency of the hedged Share Class while taking various practical considerations into account. The hedging strategy aims to reduce, however may not totally eliminate, currency exposure.

Investors should note that there is no segregation of liabilities between the individual Share Classes within a Subfund. Hence, there is a risk that under certain circumstances, hedging transactions in relation to a hedged Share Class could result in liabilities affecting the Net Asset Value of the other Share Classes of the same Subfund. In such case assets of other Share Classes of such Subfund may be used to cover the liabilities incurred by the hedged Share Class.

#### **Clearing and Settlement Procedures**

Different markets also have different clearing and settlement procedures. Delays in settlement may result in a portion of the assets of a Subfund remaining temporarily uninvested and no return is earned thereon. The inability of the Company to make intended security purchases due to settlement problems could cause a Subfund to miss attractive investment opportunities. The inability to dispose of portfolio securities due to settlement problems could result either in losses to a Subfund due to subsequent declines in value of the portfolio security or, if a Subfund has entered into a contract to sell the security, could result in possible liability to the purchaser.

#### **Investment Countries**

The issuers of fixed income securities and the companies, the Shares of which are purchased, are generally subject to different accounting, auditing and financial reporting standards in the different countries of the world. The volume of trading, volatility of prices and liquidity of issuers may vary from one market or country to another. In addition, the level of government supervision and regulation of securities exchanges, securities dealers and listed and unlisted companies is different throughout the world. The laws and regulations of some countries may restrict the Company’s ability to invest in securities of certain issuers located in those countries.

#### **Concentration on certain Countries/Regions**

Where a Subfund restricts itself to investing in securities of issuers located in a particular country or countries, such concentration will expose the Subfund to the risk of adverse social, political or economic events which may occur in that country or countries.

The risk increases if the country in question is an emerging market. Investments in these Subfunds are exposed to the risks which have been described; these may be exacerbated by the special factors pertaining to this emerging market.

#### **Investments in Emerging Market Countries**

Investors should note that certain Subfunds may invest in less developed or emerging markets. Investing in emerging markets may carry a higher risk than investing in developed markets.

The securities markets of less developed or emerging markets are generally smaller, less developed, less liquid and more volatile than the securities markets of developed markets. In addition, there may be a higher than usual risk of political, economic, social and religious instability and adverse changes in government regulations and laws in less developed or emerging markets, which could affect the investments in those countries. The assets of Subfunds investing in such markets, as well as the income derived from the Subfund, may also be effected unfavourably by fluctuations in currency rates and exchange control and tax regulations and consequently the Net Asset Value of Shares of these Subfunds may be subject to significant volatility. Also, there might be restrictions on the repatriation of the capital invested.

Some of these markets may not be subject to accounting, auditing and financial reporting standards and practices comparable to those of more developed countries and the securities markets of such markets may be subject to unexpected closure. In addition, there may be less government supervision, legal regulation and less well defined tax laws and procedures than in countries with more developed securities markets.

Moreover, settlement systems in emerging markets may be less well organised than in developed markets. Thus, there may be a risk that settlement may be delayed and that cash or securities of the concerned Subfunds may be in jeopardy because of failures or of defects in the systems. In particular, market practice may require that payment shall be made prior to receipt of the security which is being purchased or that delivery of a security must be made before payment is received. In such cases, default by a broker or bank through whom the relevant transaction is effected might result in a loss being suffered by the Subfunds investing in emerging market securities.

It must also be borne in mind that companies are selected regardless of their market capitalization (micro, small, mid, large caps), sector or geographical location. This may lead to a concentration in geographical or sector terms.

Subscriptions in the relevant Subfunds are thus only suitable for investors who are fully aware of, and able to bear, the risks related to this type of investment.

#### **Industry/Sector Risk**

The Subfunds may invest in specific industries or sectors or a group of related industries. These industries or sectors may, however, be affected by market or economic factors, which could have a major effect on the value of the Subfunds’ investments.

#### **Taxation**

The proceeds from the sale of securities in some markets or the receipt of any dividends and other income may be or may become subject to tax, levies, duties or other fees or charges imposed by the authorities in that market, including taxation levied by withholding at source.

It is possible that the tax law (and/or the current interpretation of the law) as well as the practice in countries, into which the Subfunds invest or may invest in the future, might change. As a result, the Company could become subject to additional taxation in such countries that is not anticipated either at the date of this Prospectus or when investments are made, valued or disposed of.

#### **FATCA**

Capitalized terms used in this section have the meaning as set forth in the Luxembourg amended law dated 24 July 2015 (the "**FATCA Law**") unless provided otherwise herein.

The Company may be subject to regulations imposed by foreign regulators, in particular FATCA. FATCA provisions generally impose a reporting to the U.S. Internal Revenue Service of non-U.S. financial institutions that do not comply with FATCA and U.S. persons' (within the meaning of FATCA) direct and indirect ownership of non-U.S. accounts and non-U.S. entities. Failure to provide the requested information will lead to a 30% withholding tax applying to certain U.S. source income (including dividends and interest) and gross proceeds from the sale or other disposal of property that can produce U.S. source interest or dividends.

Under the terms of FATCA, the Company will be treated as a Foreign Financial Institution (within the meaning of FATCA). As such, the Company may require all investors to provide documentary evidence of their tax residence and all other information deemed necessary to comply with the above mentioned regulations.

Should the Company become subject to a withholding tax as a result of FATCA, the value of the Shares held by all Shareholders may be materially affected.

The Company and/or its Shareholders may also be indirectly affected by the fact that a non U.S. financial entity does not comply with FATCA regulations even if the Company satisfies with its own FATCA obligations.

Despite anything else herein contained, the Company shall have the right to:

- withhold any taxes or similar charges that it is legally required to withhold by applicable laws and regulations in respect of any shareholding in the Company;
- require any Shareholder or beneficial owner of the Shares to promptly furnish such personal data as may be required by the Company in order to comply with applicable laws and regulations and/or to promptly determine the amount of withholding to be retained;
- divulge any such personal information to the Luxembourg tax authority, as may be required by applicable laws or regulations or requested by such authority; and
- delay payments of any dividend or redemption proceeds to a Shareholder until the Company holds sufficient information to comply with applicable laws and regulations or determine the correct amount to be withheld.

#### **Common Reporting Standard**

The Company may be subject to the Standard for Automatic Exchange of Financial Account Information in Tax matters (the "**Standard**") and its Common Reporting Standard (the "**CRS**") as set out in the Luxembourg law dated 18 December 2015 implementing Council Directive 2014/107/EU of 9 December 2014 as regards mandatory automatic exchange of information in the field of taxation (the "**CRS-Law**").

Capitalized terms used in this section have the meaning as set forth in the CRS Law, unless provided otherwise herein.

Under the terms of the CRS-Law, the Company is treated as a Luxembourg Reporting Financial Institution. As such, as of 30 June 2017 and without prejudice to other applicable data protection provisions, the Company is required to annually report to the Luxembourg tax authority personal and financial information related, inter alia, to the identification of, holdings by and payments made to (i) certain shareholders as per the CRS-Law (the "**Reportable Persons**") and (ii) Controlling Persons of certain non-financial

entities ("**NFEs**") which are themselves Reportable Persons. This information, as exhaustively set out in Annex I of the CRS-Law (the "**Information**"), will include personal data related to the Reportable Persons.

The Company's ability to satisfy its reporting obligations under the CRS-Law will depend on each Shareholder providing the Company with the Information, along with the required supporting documentary evidence. In this context, the Shareholders are hereby informed that, as data controller, the Company will process the Information for the purposes as set out in the CRS-Law. The Shareholders undertake to inform their Controlling Persons, if applicable, of the processing of their Information by the Company.

The term "Controlling Person" means in the present context any natural persons who exercise control over an entity. In the case of a trust it means the settlor(s), the trustee(s), the protector(s) (if any), the beneficiary(ies) or class(es) of beneficiaries, and any other natural person(s) exercising ultimate effective control over the trust, and in the case of a legal arrangement other than a trust, persons in equivalent or similar positions. The term "Controlling Persons" must be interpreted in a manner consistent with the Financial Action Task Force Recommendations.

The Shareholders are further informed that the Information related to Reportable Persons within the meaning of the CRS-Law will be disclosed to the Luxembourg tax authority annually for the purposes set out in the CRS-Law. In particular, Reportable Persons are informed that certain operations performed by them will be reported to them through the issuance of statements, and that part of this information will serve as a basis for the annual disclosure to the Luxembourg tax authority.

Similarly, the Shareholders undertake to inform the Company within thirty (30) days of receipt of these statements should any included personal data be not accurate. The Shareholders further undertake to immediately inform the Company of, and provide the Company with all supporting documentary evidence of any changes related to the Information after occurrence of such changes.

Any Shareholder that fails to comply with the Company's Information or documentation requests may be held liable for penalties imposed on the Company and attributable to such shareholder's failure to provide the Information.

#### **Sustainability Risks**

Pursuant to SFDR, the Management Company is required to disclose the manner in which Sustainability Risks (as defined hereafter) are integrated into its investment decisions and the results of the assessment of the likely impacts of Sustainability Risks on the returns of the Subfunds.

Sustainability risk is an environmental, social or governance event or condition that, if it occurs, could cause an actual or a potential material negative impact on the value of the investments made by the Subfunds (the "**Sustainability Risk**").

Such risk is principally linked to climate-related events resulting from climate change (the so-called physical risks) or to the society's response to climate change (the so-called transition risks), which may result in unanticipated losses that could affect the Subfunds' investments and financial condition. Social events (e.g. inequality, inclusiveness, labour relations, investment in human capital, accident prevention, changing customer behavior, etc.) or governance shortcomings (e.g. recurrent significant breach of international agreements, bribery issues, products quality and safety, selling practices, etc.) may also translate into Sustainability Risks.

Sustainability Risks are integrated in the investment decision making and risk monitoring to the extent that they represent potential or actual material risks and/or opportunities to maximising the long-term risk-adjusted returns.

The impacts following the occurrence of a Sustainability Risk may be numerous and vary depending on the specific risk, region and asset class. In general, where a Sustainability Risk occurs in respect of an asset, there will be a negative impact on, or entire loss of, its value.

Such assessment of the likely impact must therefore be conducted at portfolio level. Further details and specific information is given for each Subfund in Chapter 22, "Subfunds".

## 7. Net Asset Value

Unless stated otherwise specified in Chapter 22, "Subfunds", the Net Asset Value of the Shares of each Subfund shall be calculated under the responsibility of the Company's Board of Directors in Luxembourg on each Banking Day on which banks are normally open all day for business in Luxembourg (each such day being referred to as a "Valuation Day").

In case the Valuation Day is not a full Banking Day in Luxembourg, the Net Asset Value of that Valuation Day will be calculated on the next following Banking Day. If a Valuation Day falls on a day which is a holiday in countries whose stock exchanges or other markets are decisive for valuing the majority of a Subfund's assets, the Company may decide, by way of exception, that the Net Asset Value of the Shares in this Subfund will not be determined on such days.

For determining the Net Asset Value, the assets and liabilities of the Company shall be allocated to the Subfunds (and to the individual Share Classes within each Subfund), the calculation is carried out by dividing the Net Asset Value of the Subfund by the total number of Shares outstanding for the relevant Subfund or the relevant Share Class. If the Subfund in question has more than one Share Class, that portion of the Net Asset Value of the Subfund attributable to the particular Share Class will be divided by the number of issued Shares of that Class.

The Net Asset Value of an Alternate Currency Share Class shall be calculated first in the Reference Currency of the relevant Subfund.

The Net Asset Value of the Alternate Currency Share Class shall be calculated through conversion at the mid-market rate between the Reference Currency and the Alternate Currency of the relevant Share Class.

The Net Asset Value of the Alternate Currency Share Class will in particular reflect the costs and expenses incurred for the currency conversion in connection with the subscription, redemption and conversion of Shares in this Class and for hedging the currency risk.

Unless otherwise specified in Chapter 22, "Subfunds", the assets of each Subfund shall be valued as follows:

- a) Securities which are listed or regularly traded on a stock exchange shall be valued at the last available traded price. If such a price is not available for a particular trading day, but a closing mid-price (the mean of the closing bid and ask prices) or a closing bid price is available, the closing mid-price, or alternatively the closing bid price, may be taken as a basis for the valuation.
- b) If a security is traded on several stock exchanges, the valuation shall be made by reference to the exchange which is the main market for this security.
- c) In the case of securities for which trading on a stock exchange is not significant but which are traded on a secondary market with regulated trading among securities dealers (with the effect that the price reflects market conditions), the valuation may be based on this secondary market.
- d) Securities traded on a regulated market shall be valued in the same way as those listed on a stock exchange.
- e) Securities that are not listed on a stock exchange and are not traded on a regulated market shall be valued at their last available market price. If no such price is available, the Company shall value these securities in accordance with other criteria to be established by the Board of Directors and on the basis of the probable sales price, the value of which shall be estimated with due care and in good faith.
- f) Derivatives shall be treated in accordance with the above. OTC swap transactions will be valued on a consistent basis based on bid, offer or mid prices as determined in good faith pursuant to procedures established by

the Board of Directors. When deciding whether to use the bid, offer or mid prices the Board of Directors will take into consideration the anticipated subscription or redemption flows, among other parameters. If, in the opinion of the Board of Directors, such values do not reflect the fair market value of the relevant OTC swap transactions, the value of such OTC swap transactions will be determined in good faith by the Board of Directors or by such other method as it deems in its discretion appropriate.

- g) The valuation price of a money market instrument which has a maturity or remaining term to maturity of less than 12 months and does not have any specific sensitivity to market parameters, including credit risk, shall, based on the net acquisition price or on the price at the time when the investment's remaining term to maturity falls below 12 months, be progressively adjusted to the repayment price while keeping the resulting investment return constant. In the event of a significant change in market conditions, the basis for the valuation of different investments shall be brought into line with the new market yields.
- h) Units or Shares of UCITs or UCIs shall be valued on the basis of their most recently calculated Net Asset Value, where necessary by taking due account of the redemption fee. Where no Net Asset Value and only buy and sell prices are available for units or Shares of UCITs or other UCIs, the units or Shares of such UCITs or UCIs may be valued at the mean of such buy and sell prices.
- i) The value of credit default swaps is calculated on a regular basis using comprehensible, transparent criteria. The Company and the Statutory Auditor shall monitor the comprehensibility and transparency of the valuation methods and their application.
- j) Fiduciary and fixed-term deposits shall be valued at their respective nominal value plus accrued interest.

The amounts resulting from such valuations shall be converted into the Reference Currency of each Subfund at the prevailing mid-market rate. Foreign exchange transactions conducted for the purpose of hedging currency risks shall be taken into consideration when carrying out this conversion.

If a valuation in accordance with the above rules is rendered impossible or incorrect due to particular or changed circumstances, the Company's Board of Directors shall be entitled to use other generally recognized and auditable valuation principles in order to reach a proper valuation of the Subfund's assets. The Net Asset Value of the Share shall be rounded up or down, as the case may be, to the next smallest unit of the Reference Currency which is currently used unless otherwise specified in Chapter 22, "Subfunds".

The Net Asset Value of one or more Share Classes may also be converted into other currencies at the mid-market rate should the Board of Directors decide to effect the issue and redemption of Shares in one or more other currencies. Should the Board of Directors determine such currencies, the Net Asset Value of the Shares in these currencies shall be rounded up or down to the next smallest unit of currency.

In exceptional circumstances, further valuations may be carried out on the same day; such valuations will be valid for any applications for subscription and/or redemption subsequently received.

The total Net Asset Value of the Company shall be calculated in USD.

### Adjustment of the Net Asset Value (Single Swing Pricing)

In order to protect existing Shareholders and subject to the conditions set out in Chapter 22, "Subfunds", the Net Asset Value per Share Class of a Subfund may be adjusted upwards or downwards by a maximum percentage ("swing factor") indicated in Chapter 22, "Subfunds", in the event of a net surplus of subscription or redemption applications on a particular Valuation Day. In such case the same Net Asset Value applies to all incoming and outgoing investors on that particular Valuation Day. Whilst the adjustment is normally not expected to exceed the threshold set out in Chapter 22, "Subfunds", the Board of Directors may decide to increase the maximum swing factor of the Net Asset Value in exceptional circumstances to protect Shareholders' interests.

The adjustment of the Net Asset Value aims to cover in particular but not exclusively transaction costs, tax charges and bid/offer spreads incurred by the respective Subfund due to subscriptions, redemptions and/or conversions in and out of the Subfund. Existing Shareholders would no longer have to indirectly bear these costs, since they are directly integrated into the calculation of the Net Asset Value and hence, are borne by incoming and outgoing investors.

The Net Asset Value may be adjusted on every Valuation Day on a net deal basis. The Board of Directors can set a threshold (net capital flows that needs to be exceeded) to apply the adjustment to the Net Asset Value. Shareholders should note that the performance calculated on the basis of the adjusted Net Asset Value might not reflect the true portfolio performance as a consequence of the adjustment of the Net Asset Value.

## 8. Expenses and Taxes

### i. Taxes

#### Taxation of the Company

##### Subscription tax

The following summary is based on the laws and practices currently applicable in the Grand Duchy of Luxembourg and is subject to changes thereto.

- a) Unless otherwise specified in Chapter 22, "Subfunds", the Company's assets are subject to a tax ("*taxe d'abonnement*") in the Grand Duchy of Luxembourg of 0.05% p. a., payable quarterly.
- b) This rate is however of 0.01% per annum for:
  - individual Subfunds the exclusive object of which is the collective investment in money market instruments and the placing of deposits with credit institutions;
  - individual Subfunds the exclusive object of which is the collective investment in deposits with credit institutions; and,
  - individual Subfunds as well as for individual Share Classes, provided that the Shares of such Subfund or Share Class are reserved to one or more institutional investors (defined as investors referred to in Article 174, para. 2, lit. c) of the Law of 17 December 2010 and meeting the conditions resulting from the Luxembourg regulator's administrative practice).
- c) This rate is however of 0.04% per annum for the proportion of net assets:
  - Where the proportion of net assets of a UCI or of an individual compartment of a UCI with multiple compartments invested in sustainable economic activities as defined in Article 3 of Regulation (EU) 2020/852 of 79 the European Parliament and of the Council of 18 June 2020 on the establishment of a framework to facilitate sustainable investment, and amending Regulation (EU) 2019/2088 (hereinafter "**Regulation (EU) 2020/852**"), which is disclosed in accordance with that regulation, represents at least 5 per cent of the aggregate net assets of the UCI or of the individual compartment of a UCI with multiple compartments.
- d) This rate is however of 0.03% per annum for the proportion of net assets:
  - Where the proportion of net assets of a UCI or of an individual compartment of a UCI with multiple compartments invested in sustainable economic activities as defined in Article 3 of Regulation (EU) 2020/852, which is disclosed in accordance with that regulation, represents at least 20 per cent of the aggregate net assets of the UCI or of the individual compartment of a UCI with multiple compartments.
- e) This rate is however of 0.02% per annum for the proportion of net assets:
  - Where the proportion of net assets of a UCI or of an individual compartment of a UCI with multiple compartments invested in sustainable economic activities as defined in Article 3 of Regulation (EU) 2020/852, which is disclosed in accordance with that regulation,

represents at least 35 per cent of the aggregate net assets of the UCI or of the individual compartment of a UCI with multiple compartments.

- f) This rate is however of 0.01% per annum for the proportion of net assets:
  - Where the proportion of net assets of a UCI or of an individual compartment of a UCI with multiple compartments invested in sustainable economic activities as defined in Article 3 of Regulation (EU) 2020/852, which is disclosed in accordance with that regulation, represents at least 50 per cent of the aggregate net assets of the UCI or of the individual compartment of a UCI with multiple compartments.

In order to benefit from one of the rates referred to in subparagraphs c) to f), the proportion of net assets invested in sustainable economic activities as defined in Article 3 of Regulation (EU) 2020/852, on the last day of the UCI's financial year, and which is disclosed in accordance with Regulation (EU) 2020/852, shall be audited in accordance with the requirements deriving from Article 154(1) by a *réviseur d'entreprises agréé* (approved statutory auditor), or, where applicable, certified by a *réviseur d'entreprises agréé* (approved statutory auditor) in the context of a reasonable assurance audit according to the international audit standard adopted by the *Institut des Réviseurs d'Entreprises* by virtue of Article 62(b) of the Law of 23 July 2016 concerning the audit profession. This proportion and the percentage corresponding to this proportion relating to the aggregate net assets of the UCI or of the individual compartment of a UCI with multiple compartments shall be included in the annual report or in an assurance report.

A statement certified by the *réviseur d'entreprises agréé* (approved statutory auditor), including the percentage of net assets invested in sustainable economic activities as set out in the annual report or in the assurance report drawn up in accordance with the requirements set out in subparagraph 5, shall be transmitted to the *Administration de l'enregistrement, des domaines et de la TVA* for the first declaration for the subscription tax (*taxe d'abonnement*) which follows the finalisation of the annual report, or, where applicable, the assurance report. Without prejudice to Article 177, the percentage of net assets invested in sustainable economic activities indicated in the statement which has been transmitted shall serve as a basis to fix the tax rate applicable to the proportion of net assets invested in sustainable economic activities as defined in Article 3 of Regulation (EU) 2020/852, disclosed in accordance with Regulation (EU) 2020/852, and valued on the last day of each quarter, for the four quarters following the transmission of the statement to the *Administration de l'enregistrement, des domaines et de la TVA*.

During a transitional period ending on 1 January 2022, the declaring entities intending to benefit from the rates referred to in subparagraphs 1 to 4 shall submit their quarterly declaration at a rate of 0.05 per cent electronically, as well as a rectifying declaration on a form available in paper or electronic form from the *Administration de l'enregistrement, des domaines et de la TVA*.

The Net Asset Value of each Subfund at the end of each quarter is taken as the basis for calculation.

Are further exempt from the subscription tax:

- the value of the assets of a Subfund represented by units or shares held in other UCIs, provided such units or shares have already been subject to the subscription tax;
- individual Subfunds (i) whose securities are reserved for institutional investors, (ii) whose exclusive object is the collective investment in money market instruments and the placing of deposits with credit institutions, (iii) whose weighted residual portfolio maturity must not exceed ninety (90) days, and (iv) which have obtained the highest possible rating from a recognized rating agency; and
- Subfunds whose Shares are reserved for (i) institutions for occupational retirement provision, or similar investment vehicles, created on the initiative of a same group for the benefit of its employees and (ii) undertakings of this same group investing funds they hold, to provide retirement benefits to their employees.

- UCIs as well as individual compartments of UCIs with multiple compartments whose main objective is the investment in microfinance institutions.

- UCIs as well as individual compartments of UCIs with multiple compartments: (i) whose securities are listed or traded on at least one stock exchange or another regulated market operating regularly, recognised and open to the public; and (ii) whose exclusive object is to replicate the performance of one or more indices. If several classes of securities exist within the UCI or the compartment, the exemption only applies to classes fulfilling the condition of sub-point (i).

#### Income Tax

The Company is not subject to Luxembourg income taxes.

#### Withholding tax

Under current Luxembourg tax law, there is no tax on any distribution, redemption or payment made by the Company to its Shareholders. There is no withholding tax on the distribution of liquidation proceeds to the Shareholders. Dividends, interest, income and gains received by the Company on its investments may be subject to non-recoverable withholding tax or other taxes in the countries of origin.

#### VAT

The Company is considered in Luxembourg as a taxable person for value added tax ("VAT") purposes without input VAT deduction right. A VAT exemption applies in Luxembourg for services qualifying as fund management services. Other services supplied to the Company could potentially trigger VAT and require the VAT registration of the Company in Luxembourg as to self-assess the VAT regarded as due in Luxembourg on taxable services (or goods to some extent) purchased from abroad.

No VAT liability in principle arises in Luxembourg in respect of any payments by the Company to its Shareholders to the extent such payments are linked to their subscription to the Shares and do therefore not constitute the consideration received for any taxable services supplied.

### **Taxation of the Shareholders**

#### **Income tax**

A Shareholder will not become resident, nor be deemed to be resident, in Luxembourg by reason only of the holding and/or disposing of the Shares or the execution, performance or enforcement of his/her rights hereunder.

A Shareholder is not liable to any Luxembourg income tax on reimbursement of share capital previously contributed to the Company.

#### Luxembourg resident individuals

Dividends and other payments derived from the Shares by a resident individual Shareholder, who acts in the course of the management of either his/her private wealth or his/her professional/business activity, are subject to income tax at the ordinary progressive rates.

Capital gains realized upon the disposal of the Shares by a resident individual Shareholder, who acts in the course of the management of his/her private wealth, are not subject to income tax, unless said capital gains qualify either as speculative gains or as gains on a substantial participation. Capital gains are deemed to be speculative and are thus subject to income tax at ordinary rates if the Shares are disposed of within six (6) months after their acquisition or if their disposal precedes their acquisition. A participation is deemed to be substantial where a resident individual Shareholder holds or has held, either alone or together with his spouse or partner and/or minor children, directly or indirectly at any time within the five (5) years preceding the disposal, more than ten percent (10%) of the share capital of the Company. A Shareholder is also deemed to alienate a substantial participation if he acquired free of charge, within the five (5) years preceding the transfer, a participation that was constituting a substantial participation in the hands of the alienator (or the alienators in case of successive transfers free of charge within the same five-year period). Capital gains realized on a substantial participation more than six (6) months after the acquisition thereof are taxed according to the

half-global rate method (i.e. the average rate applicable to the total income is calculated according to progressive income tax rates and half of the average rate is applied to the capital gains realized on the substantial participation). A disposal may include a sale, an exchange, a contribution or any other kind of alienation of the participation.

Capital gains realized on the disposal of the Shares by a resident individual Shareholder, who acts in the course of the management of his/her professional/business activity, are subject to income tax at ordinary rates. Taxable gains are determined as being the difference between the price for which the Shares have been disposed of and the lower of their cost or book value.

#### Luxembourg resident companies

A Luxembourg resident company (société de capitaux) must include any profits derived, as well as any gain realized on the sale, disposal or redemption of Shares, in their taxable profits for Luxembourg income tax assessment purposes.

#### Luxembourg residents benefiting from a special tax regime

Shareholders which are Luxembourg resident companies benefiting from a special tax regime, such as (i) undertakings for collective investment subject to the Law of 17 December 2010, (ii) specialized investment funds subject to the amended Luxembourg law of 13 February 2007 on specialized investment funds and (iii) family wealth management companies governed by the amended Luxembourg law of 11 May 2007, are income tax exempt entities in Luxembourg, and are thus not subject to any Luxembourg income tax.

#### Luxembourg non-resident Shareholders

A non-resident Shareholder, who has neither a permanent establishment nor a permanent representative in Luxembourg to which or whom the Shares are attributable, is generally not liable to any Luxembourg income tax on income received and capital gains realized upon the sale, disposal or redemption of the Shares.

A non-resident company which has a permanent establishment or a permanent representative in Luxembourg to which the Shares are attributable, must include any income received, as well as any gain realized on the sale, disposal or redemption of Shares, in its taxable income for Luxembourg tax assessment purposes. The same inclusion applies to an individual, acting in the course of the management of a professional or business undertaking, who has a permanent establishment or a permanent representative in Luxembourg, to which the Shares are attributable. Taxable gains are determined as being the difference between the sale, repurchase or redemption price and the lower of the cost or book value of the Shares sold or redeemed.

#### Net wealth tax

A Luxembourg resident Shareholder, or a non-resident Shareholder who has a permanent establishment or a permanent representative in Luxembourg to which the Shares are attributable, is subject to Luxembourg net wealth tax on such Shares, except if the Shareholder is (i) a resident or non-resident individual taxpayer, (ii) an undertaking for collective investment subject to the Law of 17 December 2010, (iii) a securitization company governed by the Luxembourg law of 22 March 2004 on securitization, (iv) a company governed by the Luxembourg law of 15 June 2004 on venture capital vehicles, (v) a specialized investment fund governed by the amended Luxembourg Law of 13 February 2007 on specialized investment funds, or (vi) a family wealth management company governed by the amended Luxembourg law of 11 May 2007.

#### Other taxes

Under Luxembourg tax law, where an individual Shareholder is a resident of Luxembourg for tax purposes at the time of his/her death, the Shares are included in his or her taxable basis for inheritance tax purposes. On the contrary, no inheritance tax is levied on the transfer of the Shares upon death of a Shareholder in cases where the deceased was not a resident of Luxembourg for inheritance purposes.

Gift tax may be due on a gift or donation of the Shares, if the gift is recorded in a Luxembourg notary deed or otherwise registered in Luxembourg. The tax consequences will vary for each investor in accordance with the laws and practices currently in force in a Shareholder's country of citizenship, residence or temporary domicile, and in accordance with his or her personal circumstances.

Investors should therefore ensure they are fully informed in this respect and should, if necessary, consult their financial advisers.

#### **Certain U.S. Regulatory and Tax Matters – Foreign Account Tax Compliance**

The Foreign Account Tax Compliance provisions of the Hiring Incentives to Restore Employment Act (commonly known as "FATCA") generally impose a new reporting regime and potentially a 30% withholding tax with respect to (i) certain US source income (including dividends and interest) and gross proceeds from the sale or other disposal of property that can produce US source interest or dividends ("**Withholdable Payments**") and (ii) a portion of certain non-US source payments from non-US entities that have not entered into FFI Agreements (as defined below) to the extent attributable to Withholdable Payments ("**Passthru Payments**"). As a general matter, the new rules are designed to require US Persons' direct and indirect ownership of non-US accounts and non-US entities to be reported to the US Internal Revenue Service (the "**IRS**"). The 30% withholding tax regime applies if there is a failure to provide required information regarding US ownership.

Generally, the new rules will subject all Withholdable Payments and Passthru Payments received by the Company to 30% withholding tax (including the share that is allocable to Non-US Investors) unless the Company enters into an agreement (an "**FFI Agreement**") with the IRS to provide information, representations and waivers of non-US law (including any information notice relating to data protection) as may be required to comply with the provisions of the new rules, including, information regarding its direct and indirect US account holders, or otherwise qualifies for an exemption, including an exemption under an intergovernmental agreement (or "**IGA**") between the United States and a country in which the non-US entity is resident or otherwise has a relevant presence.

The governments of Luxembourg and the United States have entered into an IGA regarding FATCA. Provided the Company adheres to any applicable terms of the IGA, the Company will not be subject to withholding or generally required to withhold amounts on payments it makes under FATCA. Additionally, the Company will not have to enter into an FFI agreement with the IRS and instead will be required to obtain information regarding its Shareholders and to report such information to the Luxembourg government, which, in turn, will report such information to the IRS.

Any tax caused by a Shareholder's failure to comply with FATCA will be borne by such Shareholder.

Each prospective investor and each Shareholder should consult its own tax advisors regarding the requirements under FATCA with respect to its own situation.

Each Shareholder and each transferee of a Shareholder's interest in any Subfund shall furnish (including by way of updates) to the Management Company, or any third party designated by the Management Company (a "**Designated Third Party**"), in such form and at such time as is reasonably requested by the Management Company (including by way of electronic certification) any information, representations, waivers and forms relating to the Shareholder (or the Shareholder's direct or indirect owners or account holders) as shall reasonably be requested by the Management Company or the Designated Third Party to assist it in obtaining any exemption, reduction or refund of any withholding or other taxes imposed by any taxing authority or other governmental agency (including withholding taxes imposed pursuant to the Hiring Incentives to Restore Employment Act of 2010, or any similar or successor legislation or intergovernmental agreement, or any agreement entered into pursuant to any such legislation or intergovernmental agreement) upon the Company, amounts paid to the Company, or amounts

allocable or distributable by the Company to such Shareholder or transferee. In the event that any Shareholder or transferee of a Shareholder's interest fails to furnish such information, representations, waivers or forms to the Management Company or the Designated Third Party, the Management Company or the Designated Third Party shall have full authority to take any and all of the following actions: (i) withhold any taxes required to be withheld pursuant to any applicable legislation, regulations, rules or agreements; (ii) redeem the Shareholder's or transferee's interest in any Subfund, and (iii) form and operate an investment vehicle organized in the United States that is treated as a "domestic partnership" for purposes of section 7701 of the Internal Revenue Code of 1986, as amended and transfer such Shareholder's or transferee's interest in any Subfund or interest in such Subfund assets and liabilities to such investment vehicle. If requested by the Management Company or the Designated Third Party, the Shareholder or transferee shall execute any and all documents, opinions, instruments and certificates as the Management Company or the Designated Third Party shall have reasonably requested or that are otherwise required to effectuate the foregoing. Each Shareholder hereby grants to the Management Company or the Designated Third Party a power of attorney, coupled with an interest, to execute any such documents, opinions, instruments or certificates on behalf of the Shareholder, if the Shareholder fails to do so.

The Management Company or the Designated Third Party may disclose information regarding any Shareholder (including any information provided by the Shareholder pursuant to this Chapter) to any person to whom information is required or requested to be disclosed by any taxing authority or other governmental agency including transfers to jurisdictions which do not have strict data protection or similar laws, to enable the Company to comply with any applicable law or regulation or agreement with a governmental authority.

Each Shareholder hereby waives all rights it may have under applicable bank secrecy, data protection and similar legislation that would otherwise prohibit any such disclosure and warrants that each person whose information it provides (or has provided) to the Management Company or the Designated Third Party has been given such information, and has given such consent, as may be necessary to permit the collection, processing, disclosure, transfer and reporting of their information as set out in this Chapter and this paragraph.

The Management Company or the Designated Third Party may enter into agreements on behalf of the Company with any applicable taxing authority (including any agreement entered into pursuant to the Hiring Incentives to Restore Employment Act of 2010, or any similar or successor legislation or intergovernmental agreement) to the extent it determines such an agreement is in the best interest of the Company or any Shareholder.

#### **Data protection information in the context of FATCA processing**

In accordance with the FATCA Law, Luxembourg Financial Institutions ("**FI**") are required to report to the Luxembourg tax authority (i.e. *Administration des Contributions Directes*, the "**Luxembourg Tax Authority**") information regarding reportable persons such as defined in the FATCA Law.

The Company is the data controller and processes personal data of Shareholders and Controlling Persons as reportable persons for FATCA purposes.

The Company processes personal data concerning Shareholders or their Controlling Persons for the purpose of complying with the Company's legal obligations under the FATCA Law. These personal data include the name, date and place of birth, address, U.S. tax identification number, the country of tax residence and residence address, the phone number, the account number (or functional equivalent), the account balance or value, the total gross amount of interest, the total gross amount of dividends, the total gross amount of other income generated with respect to the assets held in the account, the total gross proceeds from the sale or redemption of property paid or credited to the account, the total gross amount of interest paid or credited to the account, the total gross amount paid or credited to the Shareholder with respect to the account, standing instructions to transfer funds to an account

maintained in the United States, and any other relevant information in relation to the Shareholders or their Controlling Persons for the purposes of the FATCA Law (the “**FATCA Personal Data**”).

The FATCA Personal Data will be reported by the Management Company or the Central Administration, as applicable, to the Luxembourg Tax Authority. The Luxembourg Tax Authority, under its own responsibility, will in turn pass on the FATCA Personal Data to the IRS in application of the FATCA Law.

In particular, Shareholders and Controlling Persons are informed that certain operations performed by them will be reported to them through the issuance of statements, and that part of this information will serve as a basis for the annual disclosure to the Luxembourg Tax Authority.

FATCA Personal Data may also be processed by the Company’s data processors (“**Processors**”) which, in the context of FATCA processing, may include the Management Company and the Central Administration.

The Company’s ability to satisfy its reporting obligations under the FATCA Law will depend on each Shareholder or Controlling Person providing the Company with the FATCA Personal Data, including information regarding direct or indirect owners of each Shareholder, along with the required supporting documentary evidence. Upon request of the Company, each Shareholder or Controlling Person must provide the Company with such information. Failure to do so within the prescribed timeframe may trigger a notification of the account to the Luxembourg Tax Authority.

Although the Company will attempt to satisfy any obligation imposed on it to avoid any taxes or penalties imposed by the FATCA Law, no assurance can be given that the Company will be able to satisfy these obligations. If the Company becomes subject to a tax or penalty as result of the FATCA Law, the value of the Shares may suffer material losses.

Any Shareholder or Controlling Person that fails to comply with the Company’s documentation requests may be charged with any taxes and penalties of the FATCA Law imposed on the Company (inter alia: withholding under section 1471 of the U.S. Internal Revenue Code, a fine of up to 250.000 euros or a fine of up to 0,5 per cent of the amounts that should have been reported and which may not be less than 1.500 euros) attributable to such Shareholder’s or Controlling Person’s failure to provide the information and the Company may, in its sole discretion, redeem the Shares of such Shareholders.

Shareholders and Controlling Persons should consult their own tax advisor or otherwise seek professional advice regarding the impact of the FATCA-Law on their investment.

FATCA Personal Data will be processed in accordance with the provisions of the data protection notice which will be made available in the application form issued by the Company to the investors.

#### **Automatic Exchange of Information – Common Reporting Standard**

Capitalized terms used in this section should have the meaning as set forth in the Luxembourg law dated 18 December 2015 (the “**CRS Law**”), unless provided otherwise herein.

On 9 December 2014, the Council of the European Union adopted the Directive 2014/107/EU amending the Directive 2011/16/EU of 15 February 2011 on administrative cooperation in the field of taxation which now provides for an automatic exchange of financial account information between EU Member States (“**DAC Directive**”). The adoption of the aforementioned directive implements the OECD’s CRS and generalizes the automatic exchange of information within the European Union as of 1 January 2016.

In addition, Luxembourg signed the OECD’s multilateral competent authority agreement (“**Multilateral Agreement**”) to automatically exchange information between financial authorities. Under this Multilateral Agreement, Luxembourg will automatically exchange financial account information with other participating jurisdictions as of 1 January 2016. The CRS Law implements this Multilateral Agreement, jointly with the DAC Directive introducing the CRS in Luxembourg law.

Under the terms of the CRS Law, the Company may be required to annually report to the Luxembourg tax authority the name, address, state(s) of residence, TIN(s), as well as the date and place of birth of i) each Reportable Person that is an account holder, ii) and, in the case of a Passive NFE within the meaning of the CRS Law, of each Controlling Person(s) that is a Reportable Person. Such information may be disclosed by the Luxembourg tax authority to foreign tax authorities.

The Company’s ability to satisfy its reporting obligations under the CRS Law will depend on each Shareholder providing the Company with the Information, including information regarding direct or indirect owners of each Shareholder, along with the required supporting documentary evidence. Upon request of the Company, each Shareholder shall agree to provide the Company such information.

Although the Company will attempt to satisfy any obligation imposed on it to avoid any taxes or penalties imposed by the CRS Law, no assurance can be given that the Company will be able to satisfy these obligations. If the Company becomes subject to a tax or penalty as result of the CRS Law, the value of the Shares may suffer material losses.

Any Shareholder that fails to comply with the Company’s documentation requests may be charged with any taxes and penalties imposed on the Company attributable to such Shareholder’s failure to provide the information and the Company may, in its sole discretion, redeem the Shares of such Shareholder.

Shareholders should consult their own tax advisor or otherwise seek professional advice regarding the impact of the CRS Law on their investment.

#### **Data Protection Information in the Context of CRS Processing**

In accordance with the CRS Law, Luxembourg FI are required to report to the Luxembourg Tax Authority information regarding Reportable Persons such as defined in the CRS Law.

As Luxembourg Reporting FI, the Company is the data controller and processes personal data of Shareholders and Controlling Persons as Reportable Persons for the purposes set out in the CRS Law.

In this context, the Company may be required to report to the Luxembourg Tax Authority the name, residence address, TIN(s), the date and place of birth, the country of tax residence(s), the phone number, the account number (or functional equivalent), standing instructions to transfer funds to an account maintained in a foreign jurisdiction, the account balance or value, the total gross amount of interest, the total gross amount of dividends, the total gross amount of other income generated with respect to the assets held in the account, the total gross proceeds from the sale or redemption of property paid or credited to the account, the total gross amount of interest paid or credited to the account, the total gross amount paid or credited to the Shareholder with respect to the account, as well as any other information required by applicable laws of i) each Reportable Person that is an account holder, ii) and, in the case of a Passive NFE within the meaning of the CRS Law, of each Controlling Person that is a Reportable Person (the “**CRS Personal Data**”).

CRS Personal Data regarding the Shareholders or the Controlling Persons will be reported by the Reporting FI to the Luxembourg Tax Authority. The Luxembourg Tax Authority, under its own responsibility, will in turn pass on the CRS Personal Data to the competent tax authorities of one or more Reportable Jurisdiction(s). The Company processes the CRS Personal Data regarding the Shareholders or the Controlling Persons only for the purpose of complying with the Company’s legal obligations under the CRS Law.

In particular, Shareholders and Controlling Persons are informed that certain operations performed by them will be reported to them through the issuance of statements, and that part of this information will serve as a basis for the annual disclosure to the Luxembourg Tax Authority.

CRS Personal Data may also be processed by the Company’s data processors (“**Processors**”) which, in the context of CRS processing, may include the

Management Company of the Company and the Central Administration of the Company.

The Company's ability to satisfy its reporting obligations under the CRS Law will depend on each Shareholder or Controlling Person providing the Company with the CRS Personal Data, including information regarding direct or indirect owners of each Shareholder, along with the required supporting documentary evidence. Upon request of the Company, each Shareholder or Controlling Person must provide the Company with such information. Failure to do so within the prescribed timeframe may trigger a notification of the account to the Luxembourg Tax Authority.

Although the Company will attempt to satisfy any obligation imposed on it to avoid any taxes or penalties imposed by the CRS Law, no assurance can be given that the Company will be able to satisfy these obligations. If the Company becomes subject to a tax or penalty as result of the CRS Law, the value of the Shares may suffer material losses.

Any Shareholder or Controlling Person that fails to comply with the Company's documentation requests may be charged with any taxes and penalties of the CRS Law imposed on the Company (inter alia: a fine of up to 250.000 euros or a fine of up to 0,5 per cent of the amounts that should have been reported and which may not be less than 1.500 euros) attributable to such Shareholder's or Controlling Person's failure to provide the information and the Company may, in its sole discretion, redeem the Shares of such Shareholder.

Shareholders should consult their own tax advisor or otherwise seek professional advice regarding the impact of the CRS Law on their investment.

CRS Personal Data will be processed in accordance with the provisions of the data protection notice which will be made available in the application form issued by the Company to the investors

## ii. Expenses

Apart from the above-mentioned "*taxe d'abonnement*", the Company shall bear the costs specified below, unless otherwise specified in Chapter 22, "Subfunds":

- a) All taxes which may be payable on the assets, income and expenses chargeable to the Company;
- b) Standard brokerage and bank charges incurred by the Company through securities transactions in relation to the portfolio (these charges shall be included in the acquisition cost of such securities and deducted from the sale proceeds);
- c) A monthly management fee for the Management Company, payable at the end of each month, based on the average daily Net Asset Value of the relevant Share Class during that month. The Central Administration, the Investment Manager(s), the Investment Adviser(s), and the Distributors will be paid out of this fee. If the Management Company instructs the Company to pay the Central Administration, the Investment Manager(s), the Investment Adviser(s) and/or the Distributors directly, the management fee will be reduced accordingly. The management fee may be charged at different rates for individual Subfunds and Share Classes within a Subfund or may be waived altogether. Further details of the management fees may be found in Chapter 22, "Subfunds";
- d) Service fees and fund platform fees payable to intermediaries providing certain administrative services in connection with the distribution of Subfunds and Share Classes;
- e) Any fees payable to service providers with respect to the hedging of currency exposure on investments and/or Share Classes;
- f) The possible, additional performance-related fees for the relevant Subfund, which are set out in Chapter 22, "Subfunds";
- g) Fees payable to the Depositary, which are charged at rates agreed from time to time with the Company on the basis of usual market

rates prevailing in Luxembourg, and which are based on the net assets of the respective Subfund and/or the value of transferable securities and other assets held or determined as a fixed sum; the fees payable to the Depositary may not exceed the pre-determined percentage amount although in certain cases the transaction fees and the fees of the Depositary's correspondents may be charged additionally.

- h) Fees payable to the paying agents (in particular, a coupon payment commission), transfer agents and the authorized representatives in the countries of registration;
- i) All other charges incurred for sales activities and other services rendered to the Company but not mentioned in the present section; for certain Share Classes, these fees may be borne in full or in part by the Investment Manager;
- j) Fees incurred for collateral management in relation to derivate transactions;
- k) Expenses, including those for legal advice, which may be incurred by the Company or the Depositary as a result of measures taken on behalf of the Shareholders;
- l) The cost of preparing, depositing and publishing the Articles of Incorporation and other documents in respect of the Company, including notifications for registration, Key Investor Information Documents, prospectuses or memoranda for all government authorities and stock exchanges (including local securities dealers' associations) which are required in connection with the Company or with offering the Shares; the cost of printing and distributing annual and semi-annual reports for the Shareholders in all required languages, together with the cost of printing and distributing all other reports and documents which are required by the relevant legislation or regulations of the above-mentioned authorities and calculating the daily Net Asset Value, the cost of notifications to Shareholders including the publication of prices for the Shareholders, the fees and costs of the Company's auditors and legal advisers, and all other similar administrative expenses, and other expenses directly incurred in connection with the offer and sale of Shares, including the cost of printing copies of the aforementioned documents or reports as are used in marketing the Company's Shares. The cost of advertising may also be charged;
- m) Fees and reasonable and documented travel and out-of-pocket expenses payable to the members of the Board of Directors, including insurance related coverage.

All recurring fees shall first be deducted from investment income, then from the gains from securities transactions and then from the Company's assets. Other non-recurring fees, such as the costs for establishing new Subfunds or Share Classes, may be written off over a period of up to five years.

The costs attributable to the individual Subfunds are allocated directly to them; otherwise the costs shall be divided among the individual Subfunds in proportion to the Net Asset Value of each Subfund.

## 9. Accounting Year

The accounting year of the Company closes on 31 December of each year.

## 10. Appropriation of Net Income and Capital Gains

### Capital growth Shares

At present, no distribution is envisaged for capital-growth Share Classes of the Subfunds (see Chapter 22, "Subfunds") and the income generated shall be used to increase the Net Asset Value of the Shares after deduction of general costs. However, within the scope of statutory provisions the Company may distribute from time to time, in whole or in part, ordinary net income and/or

realized capital gains as well as all non-recurring income, after deduction of realized capital losses.

#### **Distribution Shares**

Annual dividends may be declared in respect of any type of Shares at the annual general meeting.

In respect of distribution Shares, interim dividends may be paid at intervals as determined from time to time by the Board of Directors. Interim dividends must be approved and ratified by the annual general meeting of Shareholders. In that case, the Net Asset Value of the Sub-Fund or Class concerned is reduced by the amount of paid dividends. If the issuing fee was originally paid by direct debit, distributions will be paid to the same account.

Distributions shall generally be effected on an annual basis or at such other intervals as the Board of Directors may decide. The Company intends to effect the annual distributions within three months of the end of the relevant accounting year.

Distributions may on no account cause the Company's capital to fall below the minimum amount prescribed by law.

#### **General Information**

Payment of income distributions shall be made in the manner described in Chapter 4, "Investment in the Company", iii. "Redemption of Shares".

Claims for distributions which are not enforced within five years shall lapse and the assets involved shall revert to the relevant Share Classes.

### **11. Lifetime, Liquidation and Merger**

The Company and the Subfunds have been established for an unlimited period, unless otherwise specified in Chapter 22, "Subfunds". However, an extraordinary General Meeting of Shareholders may dissolve the Company. To be valid, such a resolution shall require the minimum quorum prescribed by law. If the capital of the Company falls below two thirds of the minimum amount, the Board of Directors must submit the question of the Company's dissolution to a General Meeting of Shareholders for which no quorum is prescribed and which may pass a resolution by a simple majority of the Shares represented. If the capital of the Company falls below one quarter of the minimum amount, the Board of Directors must submit the question of the Company's dissolution to a General Meeting of Shareholders for which no quorum shall be prescribed; Shareholders holding one quarter of the Shares at the General Meeting may pass a resolution to dissolve the Company. The minimum capital required under Luxembourg legislation currently stands at EUR 1,250,000. If the Company is liquidated, the liquidation shall be carried out in accordance with Luxembourg Law and the liquidator(s) named by the General Meeting of Shareholders shall dispose of the Company's assets in the best interests of the Shareholders and the net liquidation proceeds of the Subfunds shall be distributed pro rata to the Shareholders of these Subfunds.

If necessary in the interests of investors, a Subfund may be dissolved or the Shares of a Subfund may be subject to compulsory redemption. The relevant resolution is taken on the basis of a resolution by the Board of Directors of the Company.

A Subfund may be liquidated and Shares in the Subfund concerned may be subject to compulsory redemption based on:

- a resolution by the Company's Board of Directors, as the Subfund may no longer be appropriately managed within the interests of the Shareholders; or
- a resolution of the General Meeting of the Subfund in question; the Articles of Incorporation specify that the quorum and majority requirements laid down by Luxembourg legislation in respect of resolutions to amend the Articles of Incorporation shall apply to such General Meetings.

Any resolution passed by the Company's Board of Directors to dissolve a Subfund shall be published in accordance with Chapter 13, "Information for Shareholders". The Net Asset Value of the Shares of the relevant Subfund will be paid out on the date of the mandatory redemption of the Shares. Any redemption proceeds that cannot be distributed to the Shareholders at the close of the liquidation procedure shall be deposited with the "Caisse des Consignations" in Luxembourg until the statutory period of limitation has elapsed.

The Board of Directors of the Company and the General Meeting of Shareholders of a Subfund may decide to merge the relevant Subfund with another existing Subfund or to transfer the Subfund to another UCITS established under Luxembourg law in return for the issuing of units/shares of this UCITS to the Shareholders. Such a resolution shall be published at the initiative of the Company. The publication shall contain information on the Subfund or the relevant UCITS and shall appear thirty days ahead of the merger in order to give the Shareholders concerned the chance to demand redemption without payment of a redemption fee before the transaction takes place. There are no quorum requirements for meetings deciding on mergers of different funds within the Company and the resolutions can be passed by a simple majority of the Shares of the relevant Subfunds represented. Resolutions on the transfer of a Subfund's assets and liabilities to a different UCITS are subject to the quorum and majority requirements prescribed by Luxembourg Law for amendments to the Articles of Incorporation. If a Subfund is merged with another open-ended Luxembourg fund or with a foreign UCI, the resolutions of the General Meeting of these Subfunds are only binding for those Shareholders who voted for this merger.

### **12. General Meetings**

The Annual General Meeting (the "AGM") of Shareholders must be held in Luxembourg, in line with the Articles of Incorporation of the Company, at the registered office of the Company, or at such other place as set out in the convening notice to such AGM, and no later than 6 (six) months following the end of the Company's financial year. As provided by the Articles of Incorporation, the AGM may be held abroad if, in the absolute and final judgment of the Board of Directors, exceptional circumstances so require.

Notices relating to the General Meetings will be published in the newspapers mentioned in Chapter 13, "Information for Shareholders", and/or in Chapter 22, "Subfunds". Meetings of the Shareholders of a particular Subfund may only pass resolutions relating to that Subfund.

### **13. Information for Shareholders**

Information about the launch of new Subfunds may be obtained from the Depository and the Distributors.

The audited annual reports shall be made available to Shareholders free of charge at the registered office of the Management Company, at the paying agents, information agents and Distributors, within four months of the close of each accounting year. Unaudited semi-annual reports shall be made available in the same way within two months after the end of the accounting period to which they refer.

Other information regarding the Company, as well as the issue and redemption prices of the Shares, may be obtained on any Banking Day at the registered office of the Management Company.

All notices to Shareholders, including any information relating to a suspension of the calculation of the Net Asset Value, shall, if required, be published in the "Recueil électronique des sociétés et des associations" (RESA) and/or in "Luxemburger Wort" and in various newspapers in those countries in which the Shares of the Company are admitted for public distribution. The Company may also place announcements in other newspapers and periodicals of its choice.

Investors may obtain the Prospectus, the Key Investor Information Document, the latest annual and semi-annual reports and copies of the Articles of

Incorporation free of charge at the registered offices of the Company, the Management Company, the paying agents, the information agents and the Distributors. The relevant contractual agreements, as well as the Management Company's Articles of Incorporation are available for inspection at the registered offices of the Company during normal business hours.

#### 14. Management Company

The Company has appointed MultiConcept Fund Management S.A. as the Management Company. In this capacity, the Management Company acts as asset manager, administrator and Distributor of the Company's shares. The Management Company has delegated the above-mentioned tasks as follows:

Tasks relating to investment management are performed by the Investment Managers named in the Chapter 22, "Subfunds", of a Subfund and administrative tasks are performed by Credit Suisse Fund Services (Luxembourg) S.A..

The Distributors named in Chapter 20, "Main Parties", are responsible for the distribution of the Company's shares.

The Management Company was incorporated in Luxembourg on 26 January 2004 as a joint-stock company for an indefinite period and is subject to the provisions of Chapter 15 of the Law of 17 December 2010. It has its registered office in Luxembourg, at 5, rue Jean Monnet.

The articles of incorporation of the Management Company were published in the "*Mémorial, Recueil des Sociétés et Associations*" on 14 February 2004 and have since that time been amended several times. The latest amendments were published on 12 March 2014. The articles of incorporation of the Management Company are filed in their consolidated, legally binding form for public reference in the Luxembourg Trade and Companies Register under no. B 98 834.

The equity capital of the Management Company amounts to three million three hundred thirty-six thousand one hundred and twenty-five (3,336,125) Swiss francs.

The board of directors of the Management Company shall have plenary powers on behalf of the Management Company and shall cause and undertake all such actions and provisions which are necessary in pursuit of the Management Company's objective, particularly in relation to the management of the Company's assets, administration and distribution of Shares.

The Board of Directors is currently composed of the members listed in Chapter 20, "Main Parties".

The Management Company shall be supervised by an independent auditor. At present, this function is performed by PricewaterhouseCoopers, société coopérative, Luxembourg.

In addition to the Company, the Management Company also manages other undertakings for collective investment.

#### 15. Investment Manager, Sub- Investment Manager and Investment Adviser

The Company's Board of Directors is responsible for investing the Subfunds' assets. The Board of Directors has appointed the Management Company to implement the Subfunds' investment policy on a day-to-day basis.

In order to implement the policy of each Subfund, the Management Company may delegate, under its permanent supervision and responsibility, the management of the assets of the Subfunds to one or more Investment Managers.

Pursuant to the investment management agreement entered into between the Management Company and the Investment Manager (the "**Investment Management Agreement**"), the Investment Manager has discretion, on a day-to-day basis and subject to the overall control and ultimate responsibility of the Management Company, to purchase and sell securities and otherwise to manage the relevant Subfund's portfolios.

The Investment Manager may appoint in accordance with the Investment Management Agreement one or more sub-investment managers or investment advisers for each Subfund to assist it in the management of the individual portfolios. The Investment Manager and sub-investment managers and investment advisers for the respective Subfunds are indicated in Chapter 22, "Subfunds". The Management Company may at any time appoint an investment manager other than the ones named in Chapter 22, "Subfunds", or may terminate the relation with any of the investment managers.

#### 16. Depositary

Pursuant to a depositary and paying agent services agreement (the "**Depositary Agreement**"), Credit Suisse (Luxembourg) S.A. has been appointed as depositary of the Company (the "**Depositary**"). The Depositary will also provide paying agent services to the Company.

Credit Suisse (Luxembourg) S.A. is a public limited company (société anonyme) under the laws of Luxembourg incorporated for an unlimited duration. Its registered and administrative offices are at 5, rue Jean Monnet, L-2180 Luxembourg, Grand Duchy of Luxembourg. It is licensed to engage in all banking operations under Luxembourg law.

The Depositary has been appointed for the safe-keeping of the assets of the Company in the form of custody of financial instruments, the record keeping and verification of ownership of other assets of the Company as well as for the effective and proper monitoring of the Company's cash flows in accordance with the provisions of the Law of 17 December 2010 and the Depositary Agreement.

In addition, the Depositary shall also ensure that (i) the sale, issue, repurchase, redemption and cancellation of Shares are carried out in accordance with Luxembourg law and the Articles of Incorporation; (ii) the value of the Shares is calculated in accordance with Luxembourg law and the Articles of Incorporation; (iii) the instructions of the Management Company or the Company are carried out, unless they conflict with applicable Luxembourg law and/or the Articles of Incorporation; (iv) in transactions involving the Company's assets any consideration is remitted to the Company within the usual time limits; and (v) the Company's incomes are applied in accordance with Luxembourg law and the Articles of Incorporation.

In compliance with the provisions of the Depositary Agreement and the Law of 17 December 2010, the Depositary may, subject to certain conditions and in order to effectively conduct its duties, delegate part or all of its safe-keeping duties in relation to financial instruments that can be held in custody and that are duly entrusted to the Depositary for custody purposes to one or more sub-custodian(s), and/or in relation to other assets of the Company all or part of its duties regarding the record keeping and verification of ownership to other delegates, as they are appointed by the Depositary from time to time. The Depositary shall exercise all due skill, care and diligence as required by the Law of 17 December 2010 in the selection and the appointment of any sub-custodian and/or other delegate to whom it intends to delegate parts of its tasks and has to continue to exercise all due skill, care and diligence in the periodic review and ongoing monitoring of any sub-custodian and/or other delegate to which it has delegated parts of its tasks as well as of the arrangements of the sub-custodian and/or other delegate in respect of the matters delegated to it. In particular, any delegation of custody tasks may only occur when the sub-custodian, at all times during the performance of the tasks delegated to it, segregates the assets of the Company from the Depositary's own assets and from assets belonging to the sub-custodian in accordance with the Law of 17 December 2010.

As a matter of principle the Depositary does not allow its sub-custodians to make use of delegates for the custody of financial instruments unless further delegation by the sub-custodian has been agreed by the Depositary. To the extent, sub-custodians are accordingly entitled to use further delegates for the purpose of holding financial instruments of the Company or Subfunds that can be held in custody, the Depositary will require the sub-custodians to comply

for the purpose of such sub-delegation with the requirements set forth by applicable laws and regulations, e.g. namely in respect of asset segregation.

Prior to the appointment and/or the use of any sub-custodian for the purposes of holding financial instruments of the Company or Subfunds, the Depositary analyses - based on applicable laws and regulations as well as its conflict of interests policy - potential conflicts of interests that may arise from such delegation of safekeeping functions and has - as of the date of this Prospectus - not identified any potential conflict of interest that could arise out of such delegation.

As per the date of this Prospectus, the Depositary does not use any sub-custodian which is part of the Credit Suisse Group and thereby avoids conflicts of interests which might potentially result thereof.

Should a conflict of interest be identified and in case such conflict of interest cannot be neutralized, such conflict of interest will be disclosed to Shareholders and the Prospectus revised accordingly.

An up-to-date list of these sub-custodians along with their delegate(s) for the purpose of holding in custody financial instruments of the Company or Subfunds can be found on the webpage <https://www.credit-suisse.com/media/pb/docs/lu/privatebanking/services/list-of-credit-suisse-lux-sub-custodians.pdf> and will be made available to Shareholders and investors upon request.

The Depositary's liability shall not be affected by any such delegation to a sub-custodian unless otherwise stipulated in the Law of 17 December 2010 and/or the Depositary Agreement.

The Depositary is liable to the Company or its Shareholders for the loss of a financial instrument held in custody by the Depositary and/or a sub-custodian. In case of loss of such financial instrument, the Depositary has to return a financial instrument of an identical type or the corresponding amount to the Company without undue delay. In accordance with the provisions of the Law of 17 December 2010, the Depositary will not be liable for the loss of a financial instrument, if such loss has arisen as a result of an external event beyond its reasonable control, the consequences of which would have been unavoidable despite all reasonable efforts to the contrary.

The Depositary shall be liable to the Company and to the Shareholders for all other losses suffered by them as a result of the Depositary's negligent or intentional failure to properly fulfil its duties in accordance with applicable law, in particular the Law of 17 December 2010 and/or the Depositary Agreement.

The Company and the Depositary may terminate the Depositary Agreement at any time by giving ninety (90) days' notice in writing. In case of a voluntary withdrawal of the Depositary or of its removal by the Company, the Depositary must be replaced at the latest within two (2) months after the expiry of the aforementioned termination period by a successor depositary to whom the Company's assets are to be delivered and who will take over the functions and responsibilities of the Depositary. If the Company does not name such successor depositary in time the Depositary may notify the CSSF of the situation. The Company will take the necessary steps, if any, to initiate the liquidation of the Company, if no successor depositary bank has been appointed within two (2) months after the expiry of the aforementioned termination notice of ninety (90) days.

## 17. Central Administration

As mentioned in Chapter 14, "Management Company", the Management Company has transferred the management of the Company to Credit Suisse Fund Services (Luxembourg) S.A., a service company registered in Luxembourg, which belongs to Credit Suisse Group AG, and has authorized the latter in turn to delegate tasks wholly or partly to one or more third parties under the supervision and responsibility of the Management Company.

As the Central Administration, Credit Suisse Fund Services (Luxembourg) S.A., will assume all administrative duties that arise in connection with the administration of the Company, including the issue and redemption of Shares,

valuation of assets, calculation of the Net Asset Value, accounting and maintenance of the register of Shareholders.

## 18. Regulatory Disclosure

### Conflicts of Interest

The Management Company, the Central Administration, the Depositary and certain Distributors are part of Credit Suisse Group AG (the "Affiliated Person").

The Affiliated Person is a worldwide, full-service private banking, investment banking, asset management and financial services organization and a major participant in the global financial markets. As such, the Affiliated Person is active in various business activities and may have other direct or indirect interests in the financial markets in which the Company invests. The Company will not be entitled to compensation related to such business activities.

The Management Company is not prohibited to enter into any transactions with the Affiliated Person, provided that such transactions are carried out as if effected on normal commercial terms negotiated at arm's length. In such case, in addition to the management fees the Management Company earns for managing the Company, it may also have an arrangement with the issuer, dealer and/or Distributor of any products entitling it to a Share in the revenue from such products that it purchases on behalf of the Company.

Moreover, the Management Company is not prohibited to purchase or to provide advice to purchase any products on behalf of the Company where the issuer, dealer and/or Distributor of such products is part of the Affiliated Person provided that such transactions are carried out in the best interest of the Company as if effected on normal commercial terms negotiated at arm's length. Entities of the Affiliated Person act as counterparty and in respect of financial derivative contracts entered into by the Company.

Potential conflicts of interest or duties may arise because the Affiliated Person may have invested directly or indirectly in the Company. The Affiliated Person could hold a relatively large proportion of Shares in the Company.

Employees and Directors of the Affiliated Person may hold Shares in the Company. Employees of the Affiliated Person are bound by the terms of the respective policy on personal transactions and conflicts of interest applicable to them.

In the conduct of its business the Management Company and the Affiliated Person's policy is to identify, manage and where necessary prohibit any action or transaction that may pose a conflict between the interests of the Affiliated Persons' various business activities and the Company or its investors. The Affiliated Person, as well as the Management Company strive to manage any conflicts in a manner consistent with the highest standards of integrity and fair dealing. For this purpose, both have implemented procedures that shall ensure that any business activities involving a conflict which may harm the interests of the Company or its investors, are carried out with an appropriate level of independence and that any conflicts are resolved fairly.

Such procedures include, but are not limited to the following:

- Procedure to prevent or control the exchange of information between entities of the Affiliated Person;
- Procedure to ensure that any voting rights attached to the Company's assets are exercised in the sole interests of the Company and its investors;
- Procedures to ensure that any investment activities on behalf of the Company are executed in accordance with the highest ethical standards and in the interests of the Company and its investors;
- Procedure on management of conflicts of interest.

Notwithstanding its due care and best effort, there is a risk that the organisational or administrative arrangements made by the Management Company for the management of conflicts of interest are not sufficient to ensure with reasonable confidence, that risks of damage to the interests of the

Company or its Shareholders will be prevented. In such case these non-neutralised conflicts of interest as well as the decisions taken will be reported to investors in an appropriate manner (e.g. in the notes to the financial statements of the Company). Respective information will also be available free of charge at the registered office of the Management Company.

### Complaints Handling

Investors are entitled to file complaints free of charge with the Distributor or the Management Company in an official language of their home country.

The complaints handling procedure is available free of charge at the registered office of the Management Company.

### Exercise of Voting Rights

The Management Company has in place a dedicated policy as regards the exercise of voting rights attached to the instruments held in the Subfunds in order to act in the best interest of the Subfunds and the Shareholders and to avoid any possible conflicts of interest in relation to other funds, subfunds and investors. The Company has authorized the Management Company to exercise any voting rights attached to instruments held in the Subfunds on behalf of the Subfunds.

The Management Company may also sub-delegate its right to exercise such voting rights on behalf of the Subfunds to the Investment Manager of the respective Subfund if the Investment Manager has in place a voting rights policy in order to act in the interest of the Subfund and the Shareholders and to avoid any possible conflicts of interest in relation to other funds, subfunds and investors and furthermore exercises voting rights in the interest of the respective Subfund and the Shareholders.

Details of the actions taken will be made available to Shareholders free of charge on their request.

### Best Execution

The Management Company acts in the best interests of the Company when executing investment decisions. For that purpose it takes all reasonable steps to obtain the best possible result for the Company, taking into account price, costs, speed, likelihood of execution and settlement, order size and nature, or any other consideration relevant to the execution of the order (best execution). Where the Investment Managers are permitted to execute transactions, they will be committed contractually to apply equivalent best execution principles, if they are not already subject to equivalent best execution laws and regulations.

The best execution policy is available for investors free of charge at the registered office of the Management Company.

### Investor Rights

The Company draws the investors' attention to the fact that any investor will only be able to fully exercise its investor rights directly against the Company - notably the right to participate in general shareholders' meetings - if the investor is registered itself and in its own name in the registered account kept for the Company and its Shareholders by the Company's Central Administration. In cases where an investor invests in the Company through an intermediary investing into the Company in its own name but on behalf of the investor, it may not always be possible for the investor to exercise certain shareholder rights directly against the Company. Investors are advised to take advice on their rights.

### Remuneration Policy

The Management Company has implemented the group standard remuneration policy and published a local appendix which is consistent with, and promotes, sound and effective risk management and that neither

encourages risk taking which is inconsistent with the risk profiles of the Subfunds and the Articles of Incorporation nor impairs compliance with the Management Company's duty to act in the best interest of the Company and its Shareholders.

All employees of the Credit Suisse Group are subject to the Group Compensation Policy, the objectives of which include:

(a) supporting a performance culture that is based on merit and differentiates and rewards excellent performance, both in the short and long term, and recognizes Credit Suisse's company values;

(b) balancing the mix of fixed and variable compensation to appropriately reflect the value and responsibility of the role performed day to day, and to influence appropriate behaviours and actions; and

(c) consistency with, and promotion of, effective risk management practices and Credit Suisse's compliance and control culture.

Details of the up-to-date remuneration policy of the Management Company, including, but not limited to, a description of how remuneration and benefits are calculated, the identity of persons responsible for awarding the remuneration and benefits, including a description of the global Credit Suisse Group compensation committee are available on <https://www.credit-suisse.com/microsites/multiconcept/en.html> and will be made available to investors free of charge upon request.

## 19. Data Protection

The Company and the Management Company are committed to protecting the personal data of the investors (including prospective investors) and of the other individuals whose personal information comes into their possession in the context of the investor's investments in the Company.

The Company and the Management Company have taken all necessary steps, to ensure compliance with the EU Regulation 2016/679 of the European Parliament and of the Council of 27 April 2016 on the protection of natural persons with regard to the processing of personal data and on the free movement of such data and repealing Directive 95/46/EC and with any implementing legislation applicable to them (together, the "Data Protection Law") in respect of personal data processed by them in connection with investments made into the Company. This includes (non-exclusively) actions required in relation to: information about processing of the investor's personal data and, as the case may be, consent mechanisms, procedures for responding to requests to exercise individual rights, contractual arrangements with suppliers and other third parties, arrangements for overseas data transfers and record keeping and reporting policies and procedures. Personal data shall have the meaning given in the Data Protection Law and includes any information relating to an identifiable individual, such as the investor's name, address, invested amount, the investor's individual representatives' names as well as the name of the ultimate beneficial owner, where applicable, and such investor's bank account details.

When subscribing to the Shares, each investor is informed of the processing of his/her personal data (or, when the investor is a legal person, of the processing of such investor's individual representatives and/or ultimate beneficial owners' personal data) via a data protection notice which will be made available in the application form issued by the Company to the investors. This notice will inform the investors about the processing activities undertaken by the Company, the Management Company and their delegates in more details.

## 20. Main Parties

### Company

The Company has appointed Distributors and may appoint further such Distributors to sell the Shares in specific legal jurisdictions. The Distributors are named in Chapter 22, "Subfunds".

## Central Administration

Credit Suisse Fund Services (Luxembourg) S.A.,  
5, rue Jean Monnet, L-2180 Luxembourg

## 21. Distribution of Shares

In accordance with current laws, the Company intends to appoint Distributors to offer and sell the Shares of each Subfund in all countries in which the offer and sale of the Shares is permitted. In this context, the Distributors shall be entitled to retain for themselves the issuing and/or conversion and/or redemption fees for the Shares sold by them or to waive such fees in full or in part. Distribution agreements with Distributors are concluded for an indefinite period and may be terminated by either contracting party in writing subject to a three-month period of notice.

The Company's current Distributors are listed under "Distributors" in Chapter 22, "Subfunds". Additional Distributors may be appointed by the Company in due course.

## 22. Subfunds

### responsAbility Impact UCITS (Lux) – Transition to Net Zero Fund

#### Investment Objective

The Subfund responsAbility Impact UCITS (Lux) - Transition to Net Zero Fund (the "Subfund") is actively managed and seeks to invest primarily in fixed and variable interest securities with financial performance with reference to the ICE BofA Global Corporate & High Yield Index (the "Benchmark"). The investment universe for the Subfund will be similar to that of the Benchmark, in terms of credit worthiness, regional and sectorial allocation, without giving any specific restrictions regarding the investments of the Subfund. The Subfund may also invest in securities not included in the Benchmark in order to achieve its investment objective. The Benchmark does not incorporate a sustainability analysis, or any predefined environmental, social or governance objectives. Given that no index has been designated for the Subfund as a reference benchmark within the meaning of the SFDR, the eligibility of the investments in line with the Subfund's sustainable investment objective shall be assessed based solely on the Investment Adviser's proprietary Climate Transition Scoring (CTS) methodology described below.

The Subfund has as sustainable investment objective according to Art. 9 SFDR investing in issuers committing or intending to commit to substantial reductions in greenhouse gas (GHG) emissions in line with a net-zero GHG emissions pathway contributing to achieve the Paris Agreement objective of limiting global warming to well below 2 degrees Celsius above pre-industrial levels, while achieving the highest possible current income in the issuer currency of the respective Share Class.

Further information related to sustainable investment regarding the Subfund are provided in Schedule II of this Prospectus.

#### Investment Policy

a) To achieve the investment objective, the majority of the Subfund's total assets shall be invested (directly or indirectly) worldwide in debt securities, bonds, notes and similar fixed and variable interest securities issued by government, public and private issuers which target substantial GHG emissions reductions or where the issuers are committed or intend to commit to a net-zero emissions pathway following eligibility criteria defined for the Subfund (the "Eligibility Criteria"). Prior to screening against the Eligibility Criteria, a screening of the investments against violations of the UN Global Compact Principles shall be conducted.

To select eligible issuers, the Eligibility Criteria include a ranking of issuers as sustainable investments, according to the following criteria:

- Expected future GHG emission reduction or technological relevance to limit global warming to well below 2 degrees Celsius, in particular for corporates in hard-to-abate carbon sectors (e.g. emission intensive sectors, for which either there is lack of technology to decarbonize or the cost of such technology is extremely high, such as heavy industry and heavy duty transportation, including for example cement, iron and steel, chemicals, shipping, etc).
- Reputational risks.
- Level of public disclosure of GHG emissions and climate-related data, including coverage and quality of such disclosures.
- Establishment of net-zero science-based targets in line with the Paris Agreement and intermediate targets showing clear commitment to decarbonize their activities.
- Performance, in carbon intensity, relative to peers in the same sector.

These criteria serve as quantitative inputs for the Investment Adviser's proprietary CTS methodology. The CTS aims at quantifying the expected

contribution of an investment or a company to a successful global transition to a net-zero emissions pathway. In this methodology, a weighting is allocated to each of the criteria, where the level of public disclosure of GHG emissions, as well as establishment of net-zero science-based targets in line with the Paris Agreement has the highest weighting. The Investment Adviser qualifies the issuers according to their performance in 5 categories: Yellow, Yellow Green, Light Green, Medium Green and Dark Green. The scale is developed to reflect the performance of the issuers on the basis of a large number of indicators, retrieved from various data sources listed below. Eligible issuers are those included in the categories Light Green and above that rank above the minimum threshold set by the Investment Adviser. Issuers are assessed for inclusion in (or exclusion from) the investable universe whenever necessary and if a material change occurs in any of the abovementioned criteria. A material change comprises among other things of substantial changes in coverage and quality of the disclosure of GHG emissions, a substantial increase in reputational issues, deviation from interim targets, as well as if a decrease in ambition of decarbonization targets. CTS is based on a broad range of available data, including from public and private initiatives to ensure climate data disclosure and strict science-based target setting such as the Carbon Disclosure Project (CDP), the Science Based Targets Initiative and the Climate Bonds Initiative among others.

- b) As part of the sustainable investment allocation, the Subfund may also invest in Green Bonds, Sustainable Bonds, Social Bonds as well as Sustainability-Linked Bonds, as defined in Schedule I of this Prospectus.
- c) A maximum of 45% of the Subfund's net assets can be invested in High Yield securities (credit rating below BBB-, from Standard & Poors or an equivalent rating from a recognised rating agency). Within this 45% limit, the Subfund may invest up to 10% of its net assets in distressed securities (the "Opportunistic High Yield Bonds"), i.e., distressed bonds that are priced below 40% but have not yet defaulted. The value of Opportunistic High Yield Bonds may rise over time from short-term market volatilities in credits or interest rate markets.
- d) The Subfund does not actively invest in debt securities with a rating of CCC+ (from Standard & Poors or an equivalent rating from a recognised rating agency) and below if a security is downgraded, the Subfund will divest as soon as practicable and in the best interest of investors.
- e) Up to one third of the Subfund's assets may be invested in money market instruments that are recognized by the supervisory authority as securities and are denominated in a freely convertible currency.
- f) Up to 20% of the Subfund's assets may be invested in convertible bonds or bonds with warrants. Up to 10% of the Subfund's assets may be invested in contingent convertible bonds (CoCo Bonds).
- g) Up to 10% of the Subfund's assets may be invested in equities derived from convertible bonds, other capital shares (cooperative shares, participation certificates) and bonus certificates. The Subfund will divest such equity as soon as practicable and in the best interest of investors.
- h) The Subfund may use financial derivative instruments for efficient portfolio management, hedging and investment purposes, subject to investment restrictions. Derivative financial instruments are used, inter alia, to manage various risks such as currency risk, market risk, interest rate risk (duration) and credit risk.
- i) In addition, the Subfund may hold liquid assets. The liquid assets of the Subfund may be held in all currencies in which the Subfund invests. In addition, the Subfund may hold sight and time deposits with regulated banks. However, these may only be of an accessory nature.

**Use of derivatives**

The Subfund may use financial derivative instruments for efficient portfolio management, hedging and investment purposes, subject to investment

restrictions. Derivative financial instruments are used, inter alia, to manage various risks such as currency risk, market risk, interest rate risk (duration) and credit risk.

**Global Exposure**

The global exposure of the Subfund will be calculated on the basis of the commitment approach.

The aggregate risk associated with derivatives (market risk) of the Subfund must not exceed the net asset value of the Subfund concerned.

**Profile of a Typical Investor**

This Subfund is suitable for investors wishing to participate in the performance of the global capital markets. Investors should be aware that the investments of the Subfund are subject to normal market fluctuations and other risks inherent in investing in securities and derivatives. The value of the investments and the income derived therefrom may fall as well as rise, and it is possible that investors will not recoup the original amount invested in the Subfund.

**Benchmark Regulation**

Under the Commission Delegated Regulation (EU) 2020/1818, as amended, benchmark administrators have been included in the Benchmark Register maintained by ESMA pursuant to Article 36 of the Benchmark Regulation. The list of benchmark administrators included in the Register under the Benchmark Regulation is available on the ESMA website at [www.esma.europa.eu](http://www.esma.europa.eu).

Currently, third country benchmark administrators mentioned in this Prospectus who are not yet authorized or registered, or whose indices have not been endorsed by an EU benchmark administrator pursuant to the Benchmark Regulation, benefit from transitional provisions up to 31 December 2023.

Benchmark	Benchmark Administrator
ICE BofA Global Corporate & High Yield Index	ICE Data Indices LLC

**Specific Risk Factors**

In addition to the risks listed in Chapter 6, "Risk Factors", potential investors should note that various risks arising from money flows in connection with subscriptions and redemptions may reduce the targeted return. Moreover, potential investors should be aware of the fact that the counterparty risk cannot be eliminated completely in derivative strategies. The Subfund, however, will endeavor to minimize these risks by engaging in various hedging activities.

Investors should note that the Reference Currency of the Subfund is USD, and although the Investment Manager has the ability to hedge the Subfund's exposure to movements in other currencies, there is the risk that any foreign currency exposure will not be fully or successfully hedged and that the Net Asset Value could move down due to a fall in the value of non-USD currencies against the USD. Where the Investment Manager decides to hedge part or all of a currency exposure, the hedging process may from time-to-time result in a small residual currency exposure due to market movements.

**Sustainability Risks**

Pursuant to Art. 6 of the SFDR, Sustainability Risks are (i) integrated into the investment decision process, and (ii) the Management Company shall disclose the results of the assessment of the likely impacts of Sustainability Risks on the returns of the Subfund.

*(i) integration of Sustainability Risks into investment decisions*

Pursuant to Art. 6 of the SFDR, potential Sustainability Risks are integrated into the investment decision process and ongoing risk monitoring to the extent that they represent potential or actual material risks and/or opportunities to maximizing the long-term risk-adjusted returns. Further description on the assessment of potential Sustainability Risks is outlined in the following section.

An analysis of Sustainability Risks focuses on ESG risks that can impact the value of the Subfund. Sustainability Risks can be linked to environmental degradation and climate-related events resulting from climate change (the so-called physical risks) or to society's response to climate change (the so-called transition risks), which may result in unanticipated losses that could negatively affect the investments and financial condition of the Subfund. Social events (e.g. inequality, inclusiveness, labor relations, investment in human capital, accident prevention, changing customer behavior, etc.) or governance shortcomings (e.g. recurrent significant breach of international agreements, bribery issues, products quality and safety, selling practices, etc.) may also translate into Sustainability Risks.

The Investment Manager is responsible for the incorporation of materially relevant Sustainability Risks into due diligence and research, valuation, asset selection, portfolio construction, and ongoing investment monitoring alongside with other material risk factors. To do this, the Investment Manager leverages the following information and resources:

- Disclosures made by companies and issuers (which may include a company's quarterly financials, earnings calls, general company reporting and/or disclosures, including sustainability-related disclosures);
- Publicly available information (official reports or industry data); and
- Third-party research and data.

*(ii) results of the assessment of the likely impacts of Sustainability Risks on the returns of the Subfund*

The impacts following the occurrence of a Sustainability Risk may be numerous and vary depending on the specific risk, region, and asset class. In general, where a Sustainability Risk occurs in respect of an asset, there will be a negative impact on, or entire loss of, its value. Such assessment of the likely impact will therefore be conducted at the portfolio level.

Despite the proactive approach with regard to Sustainability Risks, it cannot be ruled out that ESG factors can influence the value of the Subfund's portfolio and the Subfund's return.

## **Performance**

Information about the performance of the Subfund is contained in the Key Investor Information Document. Historical performance is not a guarantee of future returns.

## **Reference Currency**

The Reference Currency of the Subfund is USD.

The Investment Manager may decide to hedge or not to hedge the Subfund's exposure to other currencies, if it considers this to be in the interest of the Shareholders. Currency hedging (if any) will be made through the use of various techniques including by entering into forward currency contracts, currency options and futures. The relevant currency hedging is intended to reduce a Shareholder's exposure to the respective currencies in which the Subfund's investments are denominated. There is no guarantee that any hedging will be effective. Where the currency exposure of the Subfund is not fully hedged or where the hedging transactions are not completely effective, the value of the assets of the Subfund may be affected favourably or unfavourably by fluctuations in currency rates. From time to time the Investment Manager may not fully hedge the currency exposure, if it considers

this to be in the interest of the Shareholders. Any costs incurred relating to the above-mentioned hedging will be borne by the Subfund

For those Share Classes of the Subfund which are not issued in USD, the foreign currency risk of an overall depreciation of the Reference Currency against the alternate currency is largely hedged by the net asset value of the respective Share Class being calculated in the Reference Currency of the Subfund and by the use of forward foreign exchange transactions against the alternative currency of the Share Class. The Shares issued in an Alternate Currency Share Class are subject to a different development of the net asset value than the Share Classes issued in the Reference Currency. Any costs incurred relating to the above-mentioned hedging will be borne by the Subfund.

## **Share Classes**

The Company's Board of Directors has approved the issue of Share Classes with different minimum subscriptions, dividend policies, fee structures, currencies and other characteristics.

For the Subfund it is provided to offer Shares Classes both in the Reference Currency of the Subfund USD as well as in EUR and CHF. The Board of Directors of the Company may at any time resolve the issue of new or further Share Classes in a currency different from the Reference Currency of the Subfund and/or with different characteristics.

Shares of all Share Classes are available in uncertificated form only.

## **Management Fee**

The maximum annual management fee as defined in Chapter 8 "Expenses and Taxes", is calculated monthly on the basis of the average Net Asset Value of the Share Class in question. The actual management fee charged shall be disclosed in the relevant annual or semi-annual report.

Besides the Management Company, the Central Administration, the Investment Manager, the Investment Adviser, and the Distributors will be paid out of this fee.

## **Costs Related to Investments in Target Funds**

Investors should note that investments in Target Funds generally incur the same costs both at Subfund and Target Fund level. The Management Company may also charge a management fee for investments in Target Funds considered to be Affiliated Funds.

The cumulative management fee at Subfund and Target Fund level shall not exceed 3 % per annum.

The Investment Manager may receive fees, commissions, reimbursements, discounts or other benefits in relation to investments made in Target Funds on behalf of the Subfund. Any such payments received by the Investment Manager will be passed on to the Subfund.

## **Depositary Fee**

The Depositary is entitled to receive a depositary bank and brokerage services fee which is calculated monthly on the basis of the average Net Asset Value of the respective Share Class. Such fee amounts to up to max. 4 bps p.a. subject to a minimum fee in the amount of EUR 25'000.- p.a. (each plus any applicable taxes).

In addition, the Depositary receives a depositary control and monitoring fee which amounts to 10'000.- EUR p.a. (each plus applicable taxes).

Sub-custodian fees for Emerging Market Countries are not included in such depositary bank fee and will be charged additionally.

The actual fees that are charged shall be disclosed in the respective annual or semi-annual report.

### **Initial Issue Price**

The initial issue price is:

USD 100 for Share Classes denominated in USD.

EUR 100 for Share Classes denominated in EUR.

CHF 100 for Share Classes denominated in CHF.

After the initial issue, the issue price will be calculated as set out below under "Subscription of Shares" and "Net Asset Value".

### **Minimum Initial Subscription**

For all Share Classes the minimum initial subscription is one Share.

### **Subscription fee (in favor of the Distributors)**

The maximum subscription fee in favor of the Distributors for Shares of all Share Classes amounts to up to 3% of the subscribed amount.

### **Net Asset Value**

As defined in Chapter 7 of this Prospectus, "Net Asset Value", the Net Asset Value of the Shares of the Subfund shall be calculated as of each Valuation Day (as defined in Chapter 7 of this Prospectus, "Net Asset Value").

### **Adjustment of the Net Asset Value (Single Swing Pricing)**

The Net Asset Value calculated in accordance with Chapter 7, "Net Asset Value" will be increased by (i) up to a maximum of 0.3% per Share in the event of a net surplus of subscription applications or (ii) up to a maximum of 0.15% per Share in the event of a net surplus of conversion applications in favor of the Subfund or reduced by up to a maximum of 0.3% per Share in the event of a net surplus of redemption applications in respect of the applications received on the respective Valuation Day.

Under exceptional circumstances the Company may, in the interest of Shareholders, decide to increase the maximum swing factor indicated above.

In such case the Company would inform the investors in accordance with Chapter 14, "Information for Shareholders".

### **Subscription of Shares**

Shares may be purchased on any Banking Day except on 24 December and 31 December at the Net Asset Value per Share of the relevant Share Class, plus the applicable subscription fees and any taxes.

Payment into the account of the Depositary must be effected within one Banking Day after the Valuation Day on which the issue price of the Shares was determined.

### **Redemption of Shares**

The Company will in principle redeem Shares on any Banking Day except on 24 December and 31 December at the Net Asset Value per Share of the relevant Share Class, less any applicable taxes.

No redemption fees (in favour of the Subfund or in favour of the Distributors) will be charged.

Payment of the redemption price of the Shares shall be made within one Banking Day following calculation of this price.

### **Conversion of Shares**

Shareholders may convert all or part of their Shares into Shares of another Share Class of the Subfund or into Shares of the same or another Share Class of another Subfund of the Company managed by the Investment Manager. The conversion of Shares of the Subfund into Shares of another Subfund of the Company which is not managed by the Investment Manager is not possible.

No conversion fees (in favour of the Subfund nor in favour of the Distributors) will be charged for a conversion of the Shares into Shares of another Share Class of the same Subfund.

### **Investment Manager**

The Management Company has appointed ESG-AM AG, Gutenbergstrasse 10, 8002 Zurich, Switzerland as Investment Manager to assist with the performance of its duties. The Investment Manager is permitted to conclude transactions with a broker and to offer such transactions to the Management Company following their conclusion. Should the Management Company reject such a transaction, the relevant transaction shall be regarded as having been executed for the Investment Manager's own account.

### **Investment Adviser**

The Company has appointed responsAbility Investments AG, Zollstrasse 17, 8005 Zurich, Switzerland as Investment Adviser to assist with the performance of its duties with regard to the impact methodology of the Subfund.

### **Distributor**

responsAbility Investments AG, Zollstrasse 17, 8005 Zürich acts as the global distributor (the "Global Distributor") of the Company, as well as further intermediaries appointed by the Global Distributor.

\*\*The max. management fee (p.a.) includes the remuneration for the Management Company, the Central Administration, the Investment Manager, the Investment Adviser, and the Distributors. The management fee is calculated monthly on the basis of the average Net Asset Value of the respective Share Class.

\*\*\* The depositary fee is calculated monthly on the basis of the average Net Asset Value of the respective Share Class.

**"A" Share Classes** including the letter "A", may be purchased by private investors.

**"R" Share Classes** including the letter "R", are available for specified intermediaries only, who are not allowed to accept and retain fees, commissions or any monetary or non-monetary benefits (except for minor non-monetary benefits) paid or provided by any third party or a person acting on behalf of a third party, be this (i) due to legal requirements or (ii) due to the fact that they have concluded contractual agreement (e.g. individual discretionary portfolio management or advisory agreements with separate fee arrangements or other agreements) with their customers which exclude such payments.

**"I" Share Classes** including the letter "I" may be purchased exclusively by "institutional investors" subject to a successful application procedure according to Article 174 of the 2010 Law. For entities incorporated in the EU, the definition of "institutional investors" includes i.a. all eligible counterparties and all clients considered per se to be professionals pursuant to Directive 2014/65/EU on markets in financial instruments ("MIFID-Directive") who have not requested non-professional treatment.

**Seed investors** are those institutional investors which participate in the Subfund within 6 months from the initial subscription period and who observe the minimum subscription amount.

**"AH, RH, IH" Share Classes** including the letter "H" are hedged Share Classes to which a hedging strategy aiming at mitigating currency risk is applied, in accordance with ESMA opinion on share classes of UCITS (ESMA34-43-296).

## Schedule I: Additional information for investors in distribution countries

### Additional information for investors in Switzerland

Subfund is authorized for offering to non-qualified investors in Switzerland.

#### **Representative**

The Representative of the Company in Switzerland is UBS Fund Management (Switzerland) AG, Aeschenvorstadt 1, CH- 4051 Basel.

#### **Paying Agent**

The Paying Agent in Switzerland is Credit Suisse (Switzerland) Ltd., Paradeplatz 8, CH-8001 Zurich.

#### **Place of reference of the relevant documents**

The Prospectus, the Key Investor Information Document, the Articles of Incorporation and the annual and semi-annual reports of the Company may be obtained free of charge from the Representative.

#### **Publications**

Publications concerning responsAbility Impact UCITS (Lux) are made in Switzerland on the electronic platform [www.swissfunddata.ch](http://www.swissfunddata.ch).

The issue and redemption prices or the net asset value with the indication "excluding commissions" of the unit categories offered (the term offering also includes advertising such Shares pursuant to art. 127a of the Swiss Collective Investment Schemes Ordinance of 22 November 2006) in Switzerland are available free of charge from the Representative.

The issue and redemption prices or the net asset value with the indication "excluding commissions" of the unit categories offered in Switzerland are published at [www.swissfunddata.ch](http://www.swissfunddata.ch) for each issue and redemption of Shares.

#### **Payment of retrocessions and rebates**

The Management Company as well as its delegates may pay retrocessions to compensate for the offering of Shares in Switzerland. This compensation may be used in particular to compensate for the following services:

- Offering and brokerage activities of Shares: Offering and brokerage activities are deemed to be in particular, any activity aimed at promoting the offering or brokerage of Shares, such as the organization of road shows, participation in events and trade fairs, the production of promotional
- advertising material, the training of sales staff, etc.

Retrocessions are not considered rebates even if they are ultimately passed on to investors in whole or in part. The disclosure of the receipt of retrocessions is governed by the relevant provisions of the Swiss Financial Services Act of 15 June 2018.

The Management Company and its delegates may, in the offering in Switzerland pay rebates directly to investors upon request. Rebates serve to reduce the fees or costs attributable to the investors concerned. Rebates are permissible provided that:

- they are paid out of fees of the management company and thus do not place an additional burden on the fund assets;
- are granted on the basis of objective criteria;
- are granted to all investors who meet the objective criteria and request rebates, under the same time conditions and to the same extent.

The objective criteria for granting discounts by the Management Company are:

- The investment volume held by the investor or the future investment potential in the collective investment scheme or in the promoter's product range, as the case may be;
- The level of fees generated by the investor; the investment behavior practiced by the investor (e.g. expected investment period);
- the investor's willingness to provide support over the life cycle of a collective investment scheme.

Upon the investor's request, the Management Company shall disclose the relevant amount of discounts free of charge.

## Place of performance and jurisdiction

For Shares offered in Switzerland, the place of performance is at the registered office of the Representative in Switzerland. The place of jurisdiction is at the registered office of the Representative in Switzerland or the registered office or domicile of the investor.

### Additional information for shareholders in Liechtenstein

#### **Paying Agent in Liechtenstein**

LGT Bank AG

Herrengasse 12

FL-9490 Vaduz

The Prospectus, the Articles of Incorporation, the Key Investor Information Document, the most recent annual report and, if more recent, the semi-annual report can be obtained free of charge in German or English language from the Paying Agent in Liechtenstein. ### **Additional information for investors in Luxembourg**

#### **Paying Agent in Luxembourg**

Credit Suisse (Luxembourg) SA, 5, rue Jean Monnet, L-2180 Luxembourg P.O. Box 40, L-2010 Luxembourg

The Prospectus, the Articles of Incorporation, the Key Investor Information Document, the most recent annual report and, if more recent, the semi-annual report can be obtained free of charge in French, German or English language from the Paying Agent in Luxembourg. Information for shareholders and modifications of the Prospectus, the Articles of Incorporation and the Key Investor Information Document are published on the website <https://www.credit-suisse.com/microsites/multiconcept/en.html>.

The issue and redemption prices per share are published on the website <https://www.credit-suisse.com/microsites/multiconcept/en.html>.

### **Investor complaints**

The Paying Agent is responsible for handling investor complaints relating to the Subfund.

### **Repurchase and redemption of units**

Investors in the Grand Duchy of Luxembourg who wish to receive payments from the Subfund and repurchase and redeem units in the Subfund directly via the Paying Agent have the option of opening a bank account or custody account with the Paying Agent. Opening of such accounts is subject to the usual checks (e.g. compliance checks) on the potential client (i.e. the investor) and their assets. Accordingly, the paying agent is free to decide whether or not to enter into such a client relationship.

### **Publication**

All documents relating to the Subfund and all notices to investors will be published on the Management Company's website: <https://www.credit-suisse.com/microsites/multiconcept/en.html>.

## **Tax**

Potential and existing Shareholders with tax domicile in Luxembourg are strongly recommended to seek competent advice on the tax consequences of an investment.

#### **Additional information for investors in the Netherlands**

The Prospectus, the Articles of Incorporation, the Key Investor Information Document, the most recent annual report and, if more recent, the semi-annual report can be obtained free of charge in Dutch or English language from the Paying Agent in the Netherlands. Information for shareholders and modifications of the Prospectus, the Articles of Incorporation and the Key Investor Information Document are published on the website <https://www.credit-suisse.com/microsites/multiconcept/en.html>.

The issue and redemption prices per share are published on the website <https://www.credit-suisse.com/microsites/multiconcept/en.html>.

#### **Investor complaints**

The Paying Agent is responsible for handling investor complaints relating to the Subfund.

#### **Repurchase and redemption of units**

Investors in the Netherlands who wish to receive payments from the Subfund and repurchase and redeem units in the Subfund directly via the Paying Agent have the option of opening a bank account or custody account with the Paying Agent. Opening of such accounts is subject to the usual checks (e.g. compliance checks) on the potential client (i.e. the investor) and their assets. Accordingly, the paying agent is free to decide whether or not to enter into such a client relationship.

#### **Publication**

All documents relating to the Subfund and all notices to investors will be published on the Management Company's website: <https://www.credit-suisse.com/microsites/multiconcept/en.html>.

#### **Tax**

Potential and existing Shareholders with tax domicile in the Netherlands are strongly recommended to seek competent advice on the tax consequences of an investment.

#### **Additional information for investors in Norway**

The Prospectus, the Articles of Incorporation, the Key Investor Information Document, the most recent annual report and, if more recent, the semi-annual report can be obtained free of charge in Norwegian or English language from the Paying Agent in Norway. Information for shareholders and modifications of the Prospectus, the Articles of Incorporation and the Key Investor Information Document are published on the website <https://www.credit-suisse.com/microsites/multiconcept/en.html>.

The issue and redemption prices per share are published on the website <https://www.credit-suisse.com/microsites/multiconcept/en.html>.

#### **Investor complaints**

The Paying Agent is responsible for handling investor complaints relating to the Subfund.

#### **Repurchase and redemption of units**

Investors in Norway who wish to receive payments from the Subfund and repurchase and redeem units in the Subfund directly via the Paying Agent have the option of opening a bank account or custody account with the Paying Agent. Opening of such accounts is subject to the usual checks (e.g. compliance checks) on the potential client (i.e. the investor) and their assets. Accordingly, the paying agent is free to decide whether or not to enter into such a client relationship.

#### **Publication**

All documents relating to the Subfund and all notices to investors will be published on the Management Company's website: <https://www.credit-suisse.com/microsites/multiconcept/en.html>.

#### **Tax**

Potential and existing Shareholders with tax domicile in Norway are strongly recommended to seek competent advice on the tax consequences of an investment.

#### **Additional information for investors in Sweden**

The Prospectus, the Articles of Incorporation, the Key Investor Information Document, the most recent annual report and, if more recent, the semi-annual report can be obtained free of charge in Swedish or English language from the Paying Agent in Sweden. Information for shareholders and modifications of the Prospectus, the Articles of Incorporation and the Key Investor Information Document are published on the website <https://www.credit-suisse.com/microsites/multiconcept/en.html>.

The issue and redemption prices per share are published on the website <https://www.credit-suisse.com/microsites/multiconcept/en.html>.

#### **Investor complaints**

The Paying Agent is responsible for handling investor complaints relating to the Subfund.

#### **Repurchase and redemption of units**

Investors in Sweden who wish to receive payments from the Subfund and repurchase and redeem units in the Subfund directly via the Paying Agent have the option of opening a bank account or custody account with the Paying Agent. Opening of such accounts is subject to the usual checks (e.g. compliance checks) on the potential client (i.e. the investor) and their assets. Accordingly, the paying agent is free to decide whether or not to enter into such a client relationship.

#### **Publication**

#### **Tax**

Potential and existing Shareholders with tax domicile in Sweden are strongly recommended to seek competent advice on the tax consequences of an investment.

**SCHEDULE II PRE-CONTRACTUAL DISCLOSURE FOR FINANCIAL PRODUCTS REFERRED TO IN ARTICLE 9, PARAGRAPHS 1 TO 4A, OF REGULATION (EU) 2019/2088 AND ARTICLE 5, FIRST PARAGRAPH, OF REGULATION (EU) 2020/852**

**Product name:** responsAbility UCITS Impact (Lux) – Transition to Net Zero Fund

**Legal entity identifier:** 5493007LGXVKV9Z90C

## Sustainable investment objective

**Sustainable investment** means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Does this financial product have a sustainable investment objective?	
<input checked="" type="radio"/> <input checked="" type="radio"/> <input checked="" type="checkbox"/> <b>Yes</b>	<input checked="" type="radio"/> <input type="radio"/> <input type="checkbox"/> <b>No</b>
<input checked="" type="checkbox"/> <b>It will make a minimum of sustainable investments with an environmental objective: 80%</b>	<input type="checkbox"/> <b>It promotes Environmental/Social (E/S) characteristics</b> and while it does not have as its objective a sustainable investment, it will have a minimum proportion of ___% of sustainable investments
<input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy	<input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy
<input checked="" type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy	<input type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy
<input type="checkbox"/> It will make a minimum of sustainable investments with a social objective: ___%	<input type="checkbox"/> with a social objective
<input type="checkbox"/>	<input type="checkbox"/> It promotes E/S characteristics, but <b>will not make any sustainable investments</b>

## What is the sustainable investment objective of this financial product?

The sustainable investment objective of responsAbility UCITS Impact (Lux) - Transition to Net Zero Fund (the “Subfund”) is to reduce greenhouse gases’ (GHG) emissions.

To this end, the Subfund invests in issuers that have committed to substantial reductions in line with a net-zero GHG emissions pathway and that are contributing to achieve the Paris Agreement objective of limiting global warming to well below 2 degrees Celsius above pre-industrial levels.

Such investments are Sustainable Investments in accordance with Article 9(3) of the Sustainable Finance Disclosure Regulation (EU) 2019/2088 (“SFDR”).

As a result of the investment objective, the Subfund contributes to the Sustainable Development Goals (SDGs) 7 (Affordable and Clean Energy) and 13 (Climate Action).

No reference benchmark has been designated for this Subfund.

- **What sustainability indicators are used to measure the attainment of the sustainable investment objective of this financial product?**
  - Absolute GHG emissions reduced annually, in million tonnes CO<sub>2</sub>e
  - Average GHG reduction rate of the portfolio (realized and expected), in %
- **How do sustainable investments not cause significant harm to any environmental or social sustainable investment objective?**

In the investment process, ESG criteria based on the principal adverse impacts (PAI) indicators that are relevant to the product are taken into account to ensure that there is no significant harm to any sustainable investment objective. The data includes research results on publicly available information and data from external data providers.

Prior to investing, all investments are screened against a list of ESG criteria aligned with sector-specific frameworks, including the UN Global Compact Principles (UNGC Principles).

Issuers or instruments with limited or no positive contribution to the climate transition, in line with the objectives of the Paris Agreement, will be excluded.

Also, securities are excluded in accordance with predefined negative criteria, which are:

- Companies in severe violation of the UN Global Compact Principles and of the OECD Guidelines;
- Companies with involvement in controversial weapons;
- Exclusion of all activities related to fossil fuels, including: Exploration, extraction and refining (when consolidated turnover from these activities is above 1%). Companies involved in transportation, shipping and storage of fossil fuels must not exceed 20% of their consolidated turnover from these activities;
- Due to their relevance to the climate transition, utility companies with exposure to fossil fuels will only be invested in via Green Bonds; and
- Companies producing alcohol or tobacco, and companies involved in gambling, pornography, civil firearms and military equipment (above 5% revenues).

In parallel, a positive selection applies to prioritize companies with better ESG performance, so that the ESG score of the portfolios reaches a satisfactory level.

### *How have the indicators for adverse impacts on sustainability factors been taken into account?*

All of the PAIs are obtained and considered ex ante. However, the extent to which they influence the Investment Advisor’s climate transition scoring (CTS) model and investment process varies according to the materiality of the indicator for the underlying sector and/or the indicator’s relevance for our overall sustainability thesis. For example, PAI 1 “GHG emissions” is a central part of the Subfund’s overall objectives and represents a key performance indicator. Conversely, PAI 8 “Emissions to water” is an indicator with very limited relevance for most of the sectors in which the Subfund invests.

Please see below for the full list of principal adverse indicators.

### *How are the sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights?*

### Sustainability indicators

measure how the sustainable objectives of this financial product are attained.

### Principal adverse impacts

are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

All issuers are being screened against international frameworks, including the UN Global Compact Principles (UNGC Principles), the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights, including the principles and rights set out in the eight fundamental conventions identified in the Declaration of the International Labour Organisation on Fundamental Principles and Rights at Work and the International Bill of Human Rights.

**Does this financial product consider principal adverse impacts on sustainability factors?**

Yes

The Investment Advisor collects and discloses the PAI indicators in Annex I (Table 1) of the SFDR RTS. The performance of the indicators guides the investment team with regards to which environmental and social aspects the Subfund should focus on in order to decrease potential adverse sustainability impacts caused by the activities of the investee companies.

If irremediable impacts are identified, the Investment Manager will evaluate and decide whether divestment is needed. A divestment will occur, in cases where the Subfund would be contributing to potentially negative effects to the issuers' stakeholders.

Information on principal adverse impacts on sustainability factors can be found in the Subfund's annual report.

Below the full list of principal adverse indicators:

PAI	Application
1. GHG emissions	Analysis of emissions, carbon footprint and GHG intensity is core to the scoring model used by the Subfund. Investments that do not achieve a minimum score of 2.6 out of 5 in our model were not considered eligible.
2. Carbon footprint	
3. GHG intensity	
4. Exposure to companies active in fossil fuel sector	Exposure to fossil fuels was excluded.
5. Share of non-renewable energy consumption and production	The energy mix applied and used by investee companies would typically form part of our analysis of a company's transition plans. However, this would be included in overall analysis of emissions and is thus not subject to a specific threshold per se.
10. Violations of UNGC principles and OECD Guidelines for Multinational Enterprises	All investments were checked for major ESG issues and reputational risk, ex ante and ex post. Serious violations would be excluded from the Subfund's investment universe.
14. Exposure to controversial weapons	Exposure to controversial weapons was excluded.
Additional PAI 4. Investments in companies without carbon emission reduction initiatives	Companies that do not have meaningful carbon emission initiatives would typically not achieve the minimum score required to be eligible for investment.

No

**What investment strategy does this financial product follow?**

The Subfund invests worldwide in debt securities, bonds, notes and similar fixed and variable interest securities issued by government, public and private issuers, which target substantial GHG emissions reductions or where the issuers are committed to a net-zero emissions pathway.

- **What are the binding elements of the investment strategy used to select the investments to attain the sustainable investment objective?**

The investment strategy guides investment decisions based on factors such as investment objectives and risk tolerance.

**Good governance** practices include sound management structures, employee relations, remuneration of staff and tax compliance.

**Asset allocation** describes the share of investments in specific assets.

**Taxonomy-aligned activities** are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

To select eligible issuers, the following criteria are considered:

- Expected future GHG emission reduction or technological relevance to limit global warming to well below 2 degrees Celsius, in particular for corporates in hard-to-abate carbon sectors (e.g. emission intensive sectors, for which either there is lack of technology to decarbonize or the cost of such technology is extremely high, such as heavy industry and heavy duty transportation, including for example cement, iron and steel, chemicals, shipping, etc);
- Reputational risks on ESG-related aspects;
- Level of public disclosure of GHG emissions and climate-related data, including coverage and quality of such disclosures;
- Establishment of net-zero science-based targets in line with the Paris Agreement and intermediate targets showing clear commitment to decarbonize their activities; and
- Performance, in carbon intensity, relative to peers in the same sector.

These criteria serve as quantitative inputs for the Investment Adviser’s proprietary CTS methodology. The CTS quantifies the expected contribution of an investment or a company to a successful global transition to a net-zero emissions pathway. The CTS is based on a broad range of available data, including from public and private initiatives to ensure climate data disclosure and strict science-based target setting such as CDP, the Science Based Targets Initiative and the Climate Bonds Initiative among others.

In the CTS methodology, a weighting is allocated to each of the abovementioned criteria, where the level of public disclosure of GHG emissions, as well as establishment of net-zero science-based targets in line with the Paris Agreement have the highest weighting. Eligible issuers are those that rank above the minimum threshold set by the Investment Adviser. Issuers are assessed for inclusion in (or exclusion from) the investable universe whenever necessary and if a material change occurs in any of the abovementioned criteria.

A material change can entail substantial changes in coverage and quality of the disclosure of GHG emissions, a substantial increase in reputational issues, deviation from interim targets, decrease in ambition of decarbonization targets.

● **What is the policy to assess good governance practices of the investee companies?**

Good governance practices are verified via the ESG screening of the issuer.

Governance matters are incorporated into the CTS model and will affect the issuer’s overall scoring. When flagged in the CTS, major governance issues of an issuer will be reviewed by an ESG expert. If an issue is serious, it can lead to exclusion from the investable universe or divestment. Consequently, good governance practices of investee companies increase the likelihood of investment.

Governance-related data comes from an external provider.

**What is the asset allocation and the minimum share of sustainable investments?**

The Subfund will invest at least 80% of its total assets in sustainable investments within the meaning of Article 2(17) SFDR.

A maximum of 20% of the Subfund’s total assets can be invested worldwide cash retained for liquidity purposes, money market instruments and derivative financial instruments used, inter alia, to manage various risks such as currency risk, market risk, interest rate risk (duration) and credit risk.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

**Enabling activities** directly enable other activities to make a substantial contribution to an environmental objective.

**Transitional activities** are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

**are** sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under the EU Taxonomy.

● **How does the use of derivatives attain the sustainable investment objective?**

The Subfund does not use derivatives to attain the sustainable investment objective. It does use derivative financial instruments, inter alia, to manage various risks such as currency risk, market risk, interest rate risk (duration) and credit risk.

● **What minimum extent are sustainable investments with an environmental objective aligned with the EU Taxonomy?**

In the absence of sufficiently available information and data related to EU Taxonomy alignment from investee companies, the fund has adopted a prudent approach and does not commit to a minimum threshold of investments aligned with the EU Taxonomy at this stage.

● **Does the financial product invest in fossil gas and/or nuclear energy related activities that comply with the EU Taxonomy<sup>1</sup>?**

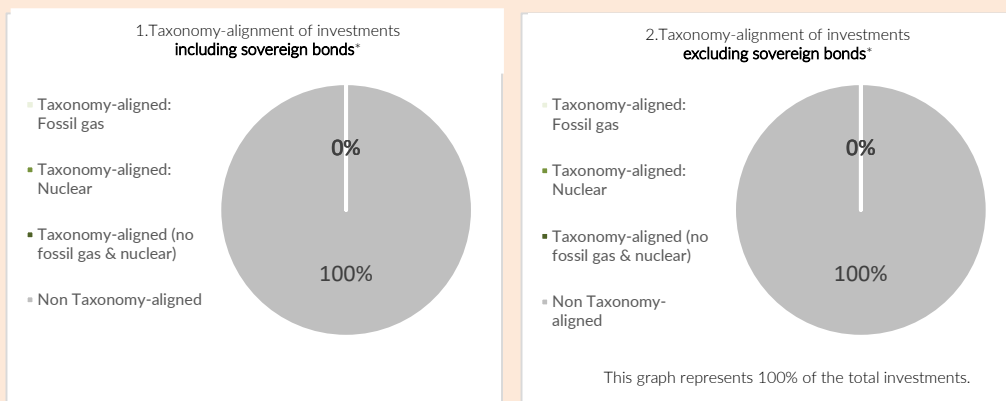

Yes:

In fossil gas

In nuclear energy

No

**The two graphs below show in green the minimum percentage of investments that are aligned with the EU Taxonomy. As there is no appropriate methodology to determine the Taxonomy-alignment of sovereign bonds\*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.**

\* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

● **What is the minimum share of investments in transitional and enabling activities?**

0%. The Subfund targets issuers committed to net-zero greenhouse gas emissions by 2050, that can contribute substantially to climate change mitigation.

● **What is the minimum share of sustainable investments with an environmental objective that are not aligned with the EU Taxonomy?**

80%. The Subfund has adopted a prudent approach and does not commit to a minimum threshold of investments aligned with the EU Taxonomy at this stage.

● **What is the minimum share of sustainable investments with a social objective?**

0%. The Subfund does not have a social investment objective

● **What investments are included under "#2 Not sustainable", what is their purpose and are there any minimum environmental or social safeguards?**

<sup>1</sup>Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objectives - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

A maximum of 20% of the Subfund's total assets can be invested worldwide cash retained for liquidity purposes, money market instruments and derivative financial instruments used, inter alia, to manage various risks such as currency risk, market risk, interest rate risk (duration) and credit risk.

Minimum environmental or social safeguards are applied, where relevant, to make sure that these investments included under “#2 Not sustainable” are in line with the sustainable investments' objective of the Subfund and the “no significant harm” principle of Article 2(17) of the SFDR. For instance, these safeguards consist for money market instruments and derivatives to ensure that the issuers or the counterparties (i) have not been subject to international sanctions or comply with international regulations regarding work organisation, notably on the elimination of forced labour and child labour; and (ii) are not located in a fiscally non-cooperative country from a Luxembourg Tax law perspective.

Reference benchmarks are indexes to measure whether the financial product attains the sustainable investment objective.

#### Is a specific index designated as a reference benchmark to meet the sustainable investment objective?

No. The Investment Manager considers that no EU Climate Transition Benchmark nor any EU Paris-aligned Benchmark would allow a fair representation of the investment universe of the Subfund and as a result, no such benchmark has been designated by the Subfund. The Investment Manager will always ensure the alignment of the Subfund's portfolio with achieving the long-term global warming objectives of the Paris Agreement.

- **How does the reference benchmark take into account sustainability factors in a way that is continuously aligned with the sustainable investment objective?**

N/A

- **How is the alignment of the investment strategy with the methodology of the index ensured on a continuous basis?**

N/A

- **How does the designated index differ from a relevant broad market index?**

N/A

- **Where can the methodology used for the calculation of the designated index be found?**

N/A

#### Where can I find more product specific information online?
