

Swiss Life Index Funds (LUX)

Prospectus
March 2024

SWISS LIFE INDEX FUNDS (LUX) (the "**Fund**") is an umbrella fund composed of sub-funds ("**Sub-Funds**") subject to the Luxembourg law of December 17, 2010 relating to undertakings for collective investment, as may be amended from time to time (the "**Law of 2010**") created in the form of an open-ended mutual investment fund ("*fonds commun de placement*"), as an unincorporated co-ownership of securities.

Subscription to the Fund's units (the "**Units**") can only be validly made on the basis of the information contained in the current Prospectus and Key Investor Document accompanied by a copy of the latest annual report as well as the latest semi-annual report if published after the last annual report. No person is authorized to give to third parties any information other than that contained in this Prospectus or the documents mentioned herein, and any purchase made by any person on the basis of statements or representations not contained in or inconsistent with the information contained in the Prospectus shall be solely at the risk of the purchaser.

By purchasing Units, any Unitholder fully approves and accepts the Management Regulations which determine the contractual relationship between the Unitholders, the Management Company and the Depositary. The Management Regulations and any future amendments thereto shall be filed with the Luxembourg Trade and Companies Register and copies thereof shall be available from the Luxembourg Trade and Companies Register. Publication on the RESA shall be made through a notice advising of the deposit of such document with the District Court of Luxembourg.

This Prospectus does not constitute an offer or solicitation by any person in any jurisdiction in which such offer or solicitation is not lawful or in which the person making such offer or solicitation is not qualified to do so or to any person to whom it is unlawful to make such offer or solicitation.

The Units have not been registered under the United States Securities Act of 1933 (the "**Securities Act**"), and the Fund has not been registered under the United States Investment Company Act of 1940. The Units may not be offered, sold, transferred or delivered, directly or indirectly, in the United States, its territories or possessions or to U.S. Persons (as defined in Regulation S under the Securities Act). Neither the Units nor any interest therein may be beneficially owned by any other U.S. Person. The Management Regulations restrict the sale and transfer of Units to U.S. Persons and the Management Company may repurchase Units held by a U.S. Person or refuse to register any transfer to a U.S. Person as it deems appropriate to assure compliance with the Securities Act.

As for any financial investments, there can be no guarantee that the Fund or the Sub-Funds will achieve their investment objectives.

The value of and income from Units in a Sub-Fund may go up as well as down and you may not get back the amount you have invested in the Fund. Before investing in a Sub-Fund you should consider the risks involved in such investment. For further risk considerations, please refer to Appendix I "Special Considerations on Risks" in this Prospectus.

Prospective investors should review this Prospectus carefully and in its entirety and consult their legal, tax and financial advisers in relation to (i) the legal requirements within their own countries for the purchase, holding, redemption or disposal of Units; (ii) any foreign exchange restrictions to which they are subject in their own countries in relation to the purchase, holding, redemption or disposal of Units; and (iii) the legal, tax, financial or other consequences of subscribing for, purchasing, holding, redeeming or disposing of Units. Prospective investors should seek the advice of their legal, tax and financial advisers if they have any doubts regarding the contents of this Prospectus.

The Fund draws the investors' attention to the fact that any investor will only be able to fully exercise his investor rights directly against the Fund, if the investor is registered himself and in his own name in the Unitholders' register of the Fund. In cases where an investor invests in the Fund through an intermediary investing into the Fund in his own name but on behalf of the investor, it may not always be possible for the investor to exercise certain Unitholder rights directly against the Fund. Investors are advised to take advice on their rights.

In relation to the Management Company or Depositary, co-owners, owners or economic beneficiaries of Units must be represented by one and the same person. The exercising of rights in connection with the Units may be suspended until this condition has been satisfied. No general meeting of Unitholders will be held and no voting rights shall be attached to the Units.

Capitalised terms will have the meaning as defined in the Glossary of Terms.

GLOSSARY OF TERMS

The following definitions apply throughout this Prospectus unless the context otherwise required.

Administrative Agent

Société Générale, Luxembourg or any successor company appointed by the Management Company as central administration agent of the Fund in accordance with the requirements of the Regulatory Authority

AIF

an alternative investment fund within the meaning of AIFMD

AIFM

an alternative investment fund manager within the meaning of AIFMD

AIFMD

the directive of the European Parliament and of the Council of 8 June 2011 on alternative investment fund managers and amending directives 2003/41/EC and 2009/65/EC and regulations (EC) N° 1060/2009 and (EU) N° 1095/2010, as may be amended from time to time

Board of Directors or Directors

Directors of the Management Company holding their offices as of the date of the current Prospectus

Business Day

A day on which banks in Luxembourg are fully open for business

Class

Each class of Unit within any Sub-Fund

Depository

Société Générale, Luxembourg or any successor company appointed by the Management Company with the prior approval of the Regulatory Authority as depository of the assets and paying agent of the Fund

Data Sheet

A document supplemental to this Prospectus which contains specific information in relation to a particular Sub-Fund

ESG Criteria

Environmental, social and corporate governance ("ESG") criteria, which may be used by a Sub-Fund for the purpose of responsible investment

EU

European Union

EU Level 2 Regulation on UCITS depository obligations

Commission Delegated Regulation (EU) 2016/438 of 17 December 2015 supplementing Directive 2009/65/EC of the European Parliament and of the Council with regard to obligations of depositaries

FATCA

The provisions of the United States Hiring Incentives to Restore

Employment (HIRE) Act of 18 March 2010 commonly referred to as the Foreign Account Tax Compliance Act (FATCA), and other regulations promulgated thereunder.

Fund

Swiss Life Index Funds (Lux) including any existing Sub-Funds thereof

Group of Companies

companies belonging to the same body of undertakings and which must draw up consolidated accounts in accordance with Directive 2013/34/EU of 26 June 2013, the annual financial statements and related reports of certain types of undertakings or in accordance with recognised international accounting rules

Investment Grade

credit rating of a counterparty which is BBB- or higher by Standard & Poor's or Baa3 or higher by Moody's if not otherwise specified in APPENDIX 1, meaning that there is a relatively low risk of default of such counterparty

Key Investor Document

The short document drawn up by the Fund which contains key information for investors.

Law of 2010

The Luxembourg law of December 17, 2010 relating to undertakings for collective investment, as may be amended from time to time

Law of 2013

The Luxembourg law of 12 July 2013 on alternative investment fund managers, as may be amended from time to time

Management Company

Swiss Life Asset Managers Luxembourg, a public limited company (*société anonyme*) organised under the laws of Luxembourg and holding a dual license as a Chapter 15 management company of the Law of 2010 and as an AIFM under article 5 of the Law of 2013 and having its registered office at 4a, rue Albert Borschette, L-1246 Luxembourg

Management Regulations

The management regulations of the Fund currently in force

Member State

A member state of the European Union and the states which are considered as equivalent to Member States of the European Union, i.e. those that are contracting parties to the Agreement creating the European Economic Area other than the Member States of the European Union

Mémorial

Mémorial C, Recueil des Sociétés et

Associations

Money Market Instruments

Instruments normally dealt in on the money market which are liquid, and have a value which can be accurately determined at any time

NAV

The net asset value as calculated on the relevant Valuation Day

Other Regulated Market

Market which is regulated, operates regularly and is recognized and open to the public, namely a market:

- (i) that meets the following cumulative criteria: liquidity, multilateral order matching (general matching of bid and ask prices in order to establish a single price) and transparency (the circulation of complete information in order to give clients the possibility of tracking trades, thereby ensuring that their orders are executed on current conditions);
- (ii) on which the securities are dealt in at a certain fixed frequency,
- (iii) which is recognized by a state or by a public authority which has been delegated by that State or by another entity which is recognized by that State or by that public authority such as a professional association and
- (iv) on which the securities dealt are accessible to the public

Other State

Any State of Europe which is not a Member State, and any State of America, Africa, Asia or Oceania

Portfolio Manager

Swiss Life Asset Management AG., or any successor company appointed by the Management Company as portfolio manager of the Sub-Funds in accordance with the requirements of the Regulatory Authority

Prospectus

The prospectus of the Fund and any Data Sheets thereto issued in accordance with the requirements of the Regulatory Authority

Reference Currency

The base currency of each Sub-Fund as set out in the relevant Data Sheet

Register

Register of the Unitholders

Registrar Agent

Société Générale, Luxembourg or any successor company appointed by the Management Company as registrar

agent of the Fund in accordance with the requirements of the Regulatory Authority

Regulated Market

A regulated market as defined in the Council Directive 2004/39/EC dated 21 April 2004 on markets in financial instruments as amended from time to time ("Directive 2004/39/EC"), namely a multilateral system operated and/or managed by a market operator, which brings together or facilitates the bringing together of multiple third-party buying and selling interests in financial instruments – in the system and in accordance with its non-discretionary rules – in a way that result in a contract, in respect of the financial instruments admitted to trading under its rules and/or systems, and which is authorised and functions regularly and in accordance with the provisions of the Directive 2004/39/EC. An updated list of Regulated Markets is available at the following internet address: <https://eur-lex.europa.eu/LexUriServ/LexUriServ.do?uri=OJ:C:2010:348:0009:0015:EN:PDF>

Regulatory Authority

The Luxembourg authority in charge of the supervision of the undertakings for collective investment in the Grand Duchy of Luxembourg

RESA

Recueil Electronique des Sociétés et Associations

Sub-Fund

A sub-fund of the Fund established by the Management Company from time to time with the prior approval of the Regulatory Authority

"Sustainability Risk"

an environmental, social or governance event or condition that, if it occurs, could cause an actual or potential material negative impact on the value of an investment

Transferable Securities

(i) shares and other securities equivalent to shares ("shares"), (ii) bonds and other debt instruments ("debt securities") and (iii) any other negotiable securities which carry the right to acquire any such transferable securities by subscription or exchange, with the exclusion of techniques and instruments

UCI

An undertaking for collective investment

UCITS

An undertaking for collective investment in transferable securities under Article 1(2) of the UCITS Directive

UCITS Directive

The Directive 2009/65/EC of the European Parliament and of the Council of 13 July 2009 on the coordination of laws, regulations and administrative provisions relating to undertakings for collective investment in transferable

securities, as amended by Directive 2014/91/EU of the European Parliament and Council of 23 July 2014 as regards depositary functions, remuneration policies and sanctions, as may be further amended in the future

Unit

Each unit within any Sub-Fund

United States

The United States of America (including the States and the District of Columbia), its territories, its possessions and any other areas subject to its jurisdiction

Unitholder

A holder of Unit(s) of the Fund

U.S. Person

The term "U.S. Person" means with respect to individuals, any U.S. citizen (and certain former U.S. citizens as set out in relevant U.S. Income Tax laws) or "resident alien" within the meaning of U.S. income tax laws and in effect from time to time.

With respect to persons other than individuals, the term "U.S. Person" means (i) a corporation or partnership or other entity created or organized in the United States or under the laws of the United States or any state thereof; (ii) a trust where (a) a U.S. court is able to exercise primary jurisdiction over the trust and (b) one or more U.S. fiduciaries have the authority to control all substantial decisions of the trust and (iii) an estate (a) which is subject to U.S. tax on its world-wide income from all sources; or (b) for which any U.S. Person acting as executor or administrator has sole investment discretion with respect to the assets of the estate and which is not governed by foreign law. The term "U.S. Person" also means any entity organized principally for passive investment such as a commodity pool, investment company or other similar entity (other than a pension plan for the employees, officers or principals of any entity organized and with its principal place of business outside the United States) which has as a principal purpose the facilitating of investment by a United States person in a commodity pool with respect to which the operator is exempt from certain requirements of Part 4 of the United States Commodity Futures Trading Commission by virtue of its participants being non United States persons

Valuation Day

Each Business Day as of which the NAV in respect of a Sub-Fund is calculated or such other day or days as the Management Company may from time to time determine and as provided for in the relevant Data Sheet, provided there shall be at least two (2) Valuation Days per month

In this Prospectus, unless otherwise specified, all references to:

'trillion' are to one thousand billion, 'billion' are to one thousand million, 'dollars', 'US\$', 'USD' or 'cents' are to the United States dollars or cents, 'euros', 'EUR' or '€' are to the Euro, and 'francs', 'Sfr' or 'CHF' are to Swiss Francs

1. THE FUND

The Fund is a common fund (*fonds commun de placement* or an "FCP") established under Part I of the Law of 2010 and registered with the Luxembourg Trade and Companies Register under the number K954. The Fund is governed by the Management Regulations effective as of 12 June 2008 which have been deposited with the Luxembourg Trade Register. Notice of such deposit has been published in the *Mémorial* on 15 July 2008. The Management Regulations have been amended for the last time with effect as of 27 March 2017 and have been deposited with the Luxembourg Trade Register. Notice of such deposit has been published on the RESA on 4 April 2017.

The Fund was set-up on 12 June 2008 for an unlimited duration.

The Fund is managed by SWISS LIFE ASSET MANAGERS LUXEMBOURG (the "Management Company") as described below.

The assets of the Fund are segregated from those of the Management Company.

The net assets of the Fund shall be at all times at least equal to EUR 1,250,000.

In accordance with the Management Regulations, the Board of Directors may issue Units in each Sub-Fund. For each Sub-Fund, a separate portfolio of investments and assets will be maintained. The different portfolios will be separately invested in accordance with the investment objective applicable to the relevant Sub-Fund as described in the Data Sheets. The Fund will be considered as one single entity. However, with regard to third parties, each Sub-Fund will be exclusively responsible for all liabilities attributable to it.

The Board of Directors may also decide to issue, within each Sub-Fund, different Classes of Units having (i) a specific sales and redemption charge structure and/or (ii) a specific management or advisory fee structure and/or (iii) different distribution, Unitholders servicing or other fees and/or (iv) different types of targeted investors and/or (v) such other features as may be determined by the Board of Directors from time to time.

The Board of Directors may, at any time, create additional Sub-Funds. In that event, this Prospectus will be updated accordingly.

Units of different Classes within each Sub-Fund may be issued, redeemed and converted at prices computed on the basis of the Net Asset Value per Unit, within the relevant Sub-Fund, as defined in the respective Data Sheet.

The contractual rights and obligations of the Unitholders, the Management Company and the Depositary are set forth in the Management Regulations.

The Management Company may, by mutual agreement with the Depositary and in accordance with Luxembourg law, make such amendments to the Management Regulations as it may deem necessary in the interest of the Unitholders. These amendments shall be effective as of the date of signature.

The Management Regulations provide that no general meetings of Unitholders shall be held and no voting rights shall be attached to the Units.

2. THE MANAGEMENT COMPANY

The Fund is managed by Swiss Life Asset Managers Luxembourg (formerly SWISS Life Fund Management (LUX) S.A.), a public limited company (*société anonyme*) holding a dual license as a

Chapter 15 management company of the Law of 2010 and as an alternative investment fund manager under article 5 of the Law of 2013 and having its registered office at 4a, rue Albert Borschette, L-1246 Luxembourg.

The Management Company was established on 9 November 2000 for an unlimited period of time. The Articles were published in the *Mémorial* of 21 December 2000. The Articles were last amended at the extraordinary general meeting of shareholders held on 14 April 2020 and published in the RESA on 30 April 2020.

The Management Company is registered in the Luxembourg Register of Commerce under number B 171.124.

Its share capital amounts to EUR 2,399,300 and is divided into 23,993 shares with a par value of EUR 100 held by Swiss Life Investment Management Holding AG., Zurich.

The Management Company also manages the assets of other Luxembourg UCITS and AIFs.

The Management Company manages the assets of the Fund in compliance with the Management Regulations in its own name, but for the sole benefit of the Unitholders.

The Board of Directors will determine the investment policy of the Sub-Funds within the investment objectives and the investment restrictions set forth in the Management Regulations.

The Board of Directors will have the broadest powers to administer and manage each Sub-Fund within the restrictions set forth in the Management Regulations, including but not limited to the purchase, sale, subscription, exchange and receipt of securities and other assets permitted by law and the exercise of all rights attached directly or indirectly to the assets of the Fund.

The Management Company may delegate under its own control and responsibility to any other party the management of the assets of the Sub-Funds subject to prior approval by the competent regulatory authority. For the avoidance of doubt the Management Company shall remain responsible for the proper performance by such third party of the delegated management functions.

The Management Company may also delegate the distribution of Units to one or several distributor(s), the list of which shall be made available at all times at its registered office. In such a case the distributor(s) will have to comply with the applicable provisions concerning the prevention of money laundering as well as market-timing and late trading practices.

The Management Company has delegated securities lending and collateral management to Société Générale S.A.

Remuneration policy

The Management Company has implemented a remuneration policy which complies with the legal requirements, in particular the principles listed in Article 111ter of the Law of 2010, among them with the following ones:

- it is consistent with and promotes sound and effective risk management by having a business model which by its nature does not promote excessive risk taking that is consistent with the risk profile of the Fund;
- it integrates governance, pay structure and risk alignment rules that are designed to be consistent with the business strategy, objectives, values and interests of the Management Company and the Fund and the Unitholders, and includes measures to avoid conflicts of interests;

- the assessment of performance is set in a multi-year framework appropriate to the holding period recommended to the investors of the UCITS managed by the Management Company in order to ensure that the assessment process is based on the longer-term performance of the UCITS and investment risks and that the actual payment of performance-based components of remuneration is spread over the same period; and
- fixed and variable components of total remuneration are appropriately balanced and the fixed component represents a sufficiently high proportion of the total remuneration to allow the operation of a fully flexible policy of variable remuneration components, including the possibility to pay no variable remuneration component.

Details of the up-to-date remuneration policy (including information on the integration of sustainability risk) are available at the following internet address <https://www.swisslife.com/en/swisslifegroup/governance/compensation.html> and a paper copy of such remuneration policy is available to Unitholders free of charge upon request at the registered office of the Management Company.

3. PORTFOLIO MANAGER

The Management Company has appointed Swiss Life Asset Management AG., Zurich, as portfolio manager for the management of the Sub-Funds pursuant to a Portfolio Management Agreement dated 12 June 2008.

The Portfolio Management Agreement provides for the appointment of the Portfolio Manager to continue for an unlimited period of time from the date of its signature. It may be terminated by either the Management Company or the Portfolio Manager upon a three (3) months' prior written notice.

Swiss Life Asset Management AG. was incorporated pursuant to the laws of Switzerland and is an indirect subsidiary of Swiss Life Investment Management Holding Ltd. The main business of Swiss Life Asset Management AG. is to provide discretionary investment management.

The Portfolio Manager provides the Board of Directors with advice, reports and recommendations in connection with the management of the assets of the relevant Sub-Funds and shall advise the Board of Directors as to the selection of UCITS and/or other UCIs, liquid assets and/or other securities and/or assets constituting the portfolios of the Sub-Funds and have discretion, on a day to day basis and subject to the overall control and responsibility of the Board of Directors, to purchase and sell the assets of the Sub-Funds and to otherwise manage the Sub-Funds' portfolios.

The Portfolio Manager is entitled to the payment of a fee. Any details regarding the remuneration of the Portfolio Manager will be specified in the Data Sheets.

The Portfolio Manager may, subject to the approval of the Management Company and of the Regulatory Authority, delegate its powers, in which case the Prospectus will be updated or supplemented accordingly.

4. DEPOSITARY AND PAYING AGENT

The Management Company has appointed Société Générale, Luxembourg as depositary of the Fund pursuant to a Depositary and Paying Agent Agreement, effective as of 13 October 2016. The Depositary and Paying Agent Agreement provides for the appointment of the Depositary to continue for an unlimited period of time from the date of its signature. It may be terminated either by the Management Company or the Depositary upon a three (3) months' prior written notice.

The Depositary is a company incorporated under Luxembourg Law having its registered office at 11, avenue Emilie Reuter, L-2420 Luxembourg and is subject to Luxembourg law. As of 31 December 2011, the capital and reserves of Société Générale, Luxembourg amount to one billion three hundred eighty-nine million forty-two thousand six hundred and forty-eight Euro (EUR 1,389,042,648).

Under the Depositary and Paying Agent Agreement, the Law of 2010 and the EU Level 2 Regulation on UCITS, depositary obligations, the Depositary performs three types of key functions, namely (i) the oversight duties (as defined in article 22.3 of the UCITS Directive), (ii) the monitoring of the cash flows of the Fund (as set out in article 22.4 of the UCITS Directive) and (iii) the safekeeping of the Fund's assets (as set out in article 22.5 of the UCITS Directive).

Under its oversight duties, the Depositary is required to:

- a) ensure that the sale, issue, redemption and cancellation of Units effected on behalf of the Fund or by the Management Company are carried out in accordance with the law and the Management Regulations;
- b) carry out the instructions of the Management Company, unless they conflict with the law or the Management Regulations;
- c) ensure that in transactions involving the assets of the Fund, any consideration is remitted to it within the usual time limits;
- d) ensure that the income of the Fund is applied in accordance with the law and the Management Regulations; and
- e) ensure that the value of Units is calculated in accordance with the law and the Management Regulations.

The overriding objective of the Depositary is to protect the interests of the Unitholders, which always prevail over any commercial interests.

Conflicts of interests may arise if and when the Fund or the Management Company maintains other business relationships with Société Générale, Luxembourg in parallel with an appointment of Société Générale, Luxembourg acting as Depositary. For example, Société Générale, Luxembourg provides the Management Company fund administration services, including the NAV calculation in relation with the Fund. From time to time, conflicts may arise between the Depositary and the delegates and sub-delegates, for example, where an appointed delegate or sub-delegate is an affiliated group company which receives remuneration for another custodial service it provides to the Fund.

In order to address any situations of conflicts of interests, the Depositary has implemented and maintains a management conflict of interest policy, aiming namely at:

- identifying and analysing potential situations of conflict of interest,
- recording, managing and monitoring the conflict of interest situations either in:
 - o relying on the permanent measures in place to address conflicts of interest such as segregation of duties, separation of reporting lines, insider lists for staff members, or
 - o implementing a case-by-case management to (i) take the appropriate preventive measures such as drawing up a new watch list, implementing a new "Chinese wall", making sure that operations are carried out at arm's length and/or informing the concerned Unitholders, or (ii)

refuse to carry out the activity giving rise to the conflict of interest.

The Depositary may delegate to third parties the safe-keeping of the Fund's assets subject to the conditions laid down in the applicable laws and regulations and the provisions of the Depositary and Paying Agent Agreement. The process of appointing such delegates and their continuing oversight follows, the highest quality standards, including the management of any potential conflict of interest that should arise from such an appointment. Such delegates must be subject to effective prudential regulation (including minimum capital requirements, supervision in the jurisdiction concerned and external periodic audit) for the custody of financial instruments. The Depositary's liability as to safe-keeping services shall not be affected by any such delegation as referred to in article 34bis of the Law of 2010.

A list of these delegates and sub-delegates is available on the website <http://www.securities-services.societegenerale.com/en/what-can-for-you/custody-and-trustee-services/global-custody/>. Such list may be updated from time to time. Updated information on delegation and sub-delegation including a complete list of all (sub-)delegates and related conflicts of interest may be obtained, free of charge and upon request, from the Depositary.

Regarding the delegation of the Depositary's safekeeping duties to a company linked to other Société Générale entities or to an entity linked to the Management Company, the policy implemented by the Depositary consists of a system which prevents conflicts of interest and enables the Depositary to exercise its activities in a way that ensures that the Depositary always acts in the best interests of the Fund. The prevention measures consist, specifically, of ensuring the confidentiality of the information exchanged, the physical separation of the main activities which may create potential conflicts of interest, the identification and classification of remuneration and monetary and non-monetary benefits, and the implementation of systems and policies for gifts and events.

Further details are available on: https://www.sgbt.lu/fileadmin/user_upload/SGBT/PDF/Summary_of_the_conflicts_of_interest_management_policy.pdf

The Depositary is also authorized to delegate any other services under the Depositary and Paying Agent Agreement other than oversight services and cash monitoring services.

In accordance with the provisions of the Law of 2010, the EU Level 2 Regulation on UCITS depositary obligations and the Depositary and Paying Agent Agreement, the Depositary shall be liable for the loss of a financial instrument held in custody by the Depositary or a third party to whom the custody of such financial instrument has been delegated as described above. In such case, the Depositary must return a financial instrument of identical type or the corresponding amount to the Fund, without undue delay. The Depositary shall not be liable if it is able to prove that the loss has arisen as a result of an external event beyond its reasonable control, the consequences of which would have been unavoidable despite all reasonable efforts to the contrary. The Depositary shall also be liable to the Fund, or to the Unitholders for all other losses suffered by them as a result of the Depositary's negligent or intentional failure to properly fulfil its obligations under the Law of 2010 and the Depositary and Paying Agent Agreement.

The Management Company may release the Depositary from its duties with 90 days written notice to the Depositary. Likewise, the Depositary may resign from its duties in relation to the Fund with 90 days written notice to the Company. In that case, a new depositary must be designated within two (2) months of the termination of the Depositary's contract to carry out the duties and

assume the responsibilities of the Depositary, as defined in the agreement signed to this effect.

According to Luxembourg law, the Depositary is responsible to the Management Company and the Unitholders for any damage incurred by them as a result of the non-performance or inadequate performance of its responsibilities.

Pursuant to the same agreement the Management Company has also appointed the Depositary as paying agent of the Fund.

Any rebates on trailer commissions received for investments made on behalf of the Fund shall be entirely credited to the Fund.

5. ADMINISTRATIVE AGENT, REGISTRAR AGENT

Pursuant to an Administrative Agreement effective as of 30 September 2015 (which replaced and superseded the Administrative, Corporate and Domiciliary Agreement made in Luxembourg on 30 April 2012), the Management Company has appointed Société Générale, Luxembourg to act as administrative agent of the Fund.

In its capacity as Administrative Agent and Registrar Agent, Société Générale, Luxembourg, is responsible for (i) all administrative duties required by Luxembourg law, in particular for the book-keeping and calculation of the NAV of the Units, as well as (ii) keeping the Register.

Société Générale, Luxembourg, is a company incorporated under Luxembourg law, and has its registered office at 11, Avenue Emile Reuter, L-2420 Luxembourg. Its share capital amounts to one billion three hundred and eighty-nine million and forty-two thousand six hundred and forty-eight Euro (EUR 1,389,042,648).

The Management Company transfers the following responsibilities in particular to the Registrar Agent:

- a) provision of written confirmations to the subscribers against payment of the corresponding NAV; and
- b) acceptance and processing of redemption and conversion orders under the conditions provided in the Management Regulations as well as cancellation of the written confirmations for redeemed or converted Units.

6. SUPPORTING SERVICES AGENT

Pursuant to an Agreement for Provision of Supporting Services dated 12 June 2008 between the Management Company and Swiss Life Asset Management AG., the Management Company has appointed Swiss Life Asset Management AG. to act as Supporting Services Agent and to take actions relating to (i) the distribution of Units, (ii) the provision of support to the Portfolio Manager with the realization of investment strategy, (iii) the provision of support to the Management Company regarding contracts concerning rebates on trailer commissions and (iv) the management of the relationship of the Fund with the Depositary.

The Supporting Services Agent is entitled to the payment of a fee. Any details regarding the remuneration of the Supporting Services Agent will be specified in the Data Sheets.

7. RESPONSIBLE INVESTMENT POLICY

To the investment objectives, the Sub-Funds may add specific extra-financial objectives, taking into account environmental, social and corporate governance criteria (the "ESG Criteria"), such as:

- Environment: climate change (e.g. intensity of carbon emissions, carbon footprint), depletion of water and other resources, pollution;
- Social: human rights, modern slavery and child labour, development of human capital, working conditions and product quality;
- Governance: the quality of the board of directors, the compensation criteria, the capital structure, bribery and corruption.

The Board of Directors believes that responsible investing is being important for long-term value creation.

By assessing ESG criteria alongside financial metrics and risk factors, the Management Company aims to generate more sustainable results and to increase the quality of the investment portfolios as well as to anticipate future market developments, which helps it mitigate potential threats and seize investment opportunities. As sustainability factors are material across industries, the Board of Directors sees the systematic integration of sustainability into our investment approach as key to reducing risk and building lasting value.

The "ESG Board" within Swiss Life Asset Managers has been set up to steer, oversee and integrate the ESG and create the approach to responsible investment (the "RI Approach"). The ESG Board guides the implementation of ESG Criteria and coordinates asset overarching ESG matters. Please see the Responsible Investment Approach on Swiss Life Asset Managers' website: www.swisslife-am.com/responsible-investment. The Sub-Funds for which ESG Criteria were added to the investment objectives or to the investment process are closely and systematically managed by their respective portfolio managers in light of the RI Approach and as the case may be, their Transparency Code. Procedures relating to the Transparency Code may be obtained from the Management Company upon request free of charge and/or are available on website, as disclosed in the relevant Sub-Fund's appendix.

Swiss Life Asset Managers has signed the United Nations supported Principles for Responsible Investments and are thus committed to integrating sustainability factors into the investment analysis, decision making processes and active ownership practices as well as to report on activities and progress. With respect to the Fund, Swiss Life Asset Managers will exercise active ownership strategies to the extent permitted by Article 48 of the Law of 2010.

8. INVESTMENT OBJECTIVES, POLICIES, TECHNIQUES AND RESTRICTIONS

INVESTMENT OBJECTIVE OF THE FUND AND ITS SUB-FUNDS

The main objective of the Fund is the management of different portfolios for the benefit of the Unitholders according to the respective investment strategy of each Sub-Fund.

The Fund can invest in a broad range of securities within the limits of the Law of 2010.

The Board of Directors defines the investment objectives and policy for each Sub-Fund as described in the Data Sheets and is responsible for the application of these policies.

No guarantee can be given that this objective will be achieved.

ADDITIONAL INVESTMENT POLICIES FOR ALL SUB-FUNDS

Each Sub-Fund may invest in financial derivatives instruments, as well as use special techniques and instruments for the purpose of efficient portfolio management and to hedge against market risks, within the limits laid down here below under "Investment Restrictions" and "Special Investment Techniques and Instruments".

Techniques and instruments shall be used only in accordance with the Sub-Funds' investment objective and policies.

Use of the aforesaid techniques and instruments involves certain risks and there can be no assurance that the objective sought to be obtained from such use will be achieved.

INVESTMENT RESTRICTIONS

The management of the assets of each Sub-Fund will be undertaken by the Portfolio Manager within the limits of the following investment restrictions.

Except to the extent that more restrictive rules are provided for in connection with a specific Sub-Fund as described in the relevant Data Sheets, the investment policy shall comply with the rules and restrictions laid down hereafter.

A. Investments in the Sub-Funds shall consist solely of:

- (1) Transferable Securities and Money Market Instruments listed or dealt in on a Regulated Market;
- (2) Transferable Securities and Money Market Instruments dealt in on an Other Regulated Market in a Member State;
- (3) Transferable Securities and Money Market Instruments admitted to official listing on a stock exchange in an Other State or dealt in on an Other Regulated Market in an Other State;
- (4) recently issued Transferable Securities and Money Market Instruments, provided that:
 - the terms of issue include an undertaking that application will be made for admission to official listing on a Regulated Market, a stock exchange in an Other State or on an Other Regulated Market as described under (1)-(3) above;
 - such admission is secured within one year of the issue;
- (5) units of UCITS and/or other UCIs within the meaning of the first and second indent of Article 1 (2) of the UCITS Directive, whether situated in a Member State or in an Other State, provided that:
 - such other UCIs are authorized under laws which provide that they are subject to supervision considered by the Regulatory Authority to be equivalent to that laid down in EU law, and that cooperation between authorities is sufficiently ensured (including all Member States, all EFTA member states (this includes Iceland, Liechtenstein, Norway and Switzerland), G20 members, Hong Kong, Singapore, the Isle of Man, Guernsey and Jersey);
 - the level of protection for unitholders in such other UCIs is equivalent to that provided for unitholders in a UCITS, and in particular that the rules on assets segregation, borrowing, lending, and uncovered sales of Transferable Securities and Money Market Instruments are equivalent to the requirements of the UCITS Directive;
 - the business of the other UCIs is reported in half-yearly and annual reports to enable an assessment of the assets and liabilities, income and operations over the reporting period;

- no more than 10 % of the assets of the UCITS or of the other UCIs, whose acquisition is contemplated, can, according to their constitutional documents, in aggregate be invested in units of other UCITS or other UCIs;

(6) deposits with credit institutions which are repayable on demand or have the right to be withdrawn, and maturing in no more than 12 months, provided that the credit institution has its registered office in a Member State or, if the registered office of the credit institution is situated in an Other State, provided that it is subject to prudential rules considered by the Regulatory Authority as equivalent to those laid down in EU law;

(7) financial derivative instruments, e.g. in particular options, futures, including equivalent cash-settled instruments, dealt in on a Regulated Market, stock exchange in an Other State or on an Other Regulated Market referred to in (1), (2) and (3) above, and/or financial derivative instruments dealt in over-the-counter ("OTC derivatives"), provided that:

- (i)- the underlying consists of instruments covered by this Section A, financial indices, interest rates, foreign exchange rates or currencies, in which the Sub-Fund may invest according to its investment objectives;

- the counterparties to OTC derivative transactions are institutions subject to prudential supervision, and belonging to the categories approved by the Regulatory Authority; and

- the OTC derivatives are subject to reliable and verifiable valuation on a daily basis and can be sold, liquidated or closed by an offsetting transaction at any time at their fair value at the initiative of the Management Company;

- (ii) Under no circumstances shall these operations cause the Sub-Fund to diverge from its investment objectives.

(8) Money Market Instruments other than those dealt in on a Regulated Market or on an Other Regulated Market, to the extent that the issuer or the issuer of such instruments is itself regulated for the purpose of protecting investors and savings, and provided that such instruments are:

- issued or guaranteed by a central, regional or local authority or by a central bank of a Member State, the European Central Bank, the EU or the European Investment Bank, an Other State or, in case of a Federal State, by one of the members making up the federation, or by a public international body to which one or more Member States belong, or

- issued by an undertaking any securities of which are dealt in on Regulated Markets or on Other Regulated Markets referred to in (1), (2) or (3) above, or

- issued or guaranteed by an establishment subject to prudential supervision, in accordance with criteria defined by EU law, or by an establishment which is subject to and complies with prudential rules considered by the Regulatory Authority to be at least as stringent as those laid down by EU law; or

- issued by other bodies belonging to the categories approved by the Regulatory Authority provided that investments in such instruments are subject to investor protection equivalent to that laid down in the first, the second or the third indent and provided that the issuer is a company whose capital and reserves amount to at least ten million Euro (EUR 10,000,000) and which presents and publishes its annual accounts in accordance with directive 2013/34/EU, is an entity which, within a Group of Companies which includes one or several listed companies, is dedicated to the financing of the group or is an entity which is dedicated to the financing of securitisation vehicles which benefit from a banking liquidity line.

B. Unless further restricted by the investment policies of a Sub-Fund as described in Data Sheets below, each Sub-Fund may however:

(1) Invest up to 10% of its net assets in Transferable Securities and Money Market Instruments other than those referred to above under A (1) through (8).

(2) Hold ancillary liquid assets (bank deposits at sight, such as cash held in current accounts with a bank accessible at any time), representing in principle up to 20% of a Sub-Fund's assets; such restriction may exceptionally and temporarily be exceeded if the Board of Directors considers this to be in the best interest of the Unitholders due to exceptionally unfavourable market conditions.

(3) Borrow up to 10% of its net assets, provided that such borrowings are made only on a temporary basis. Collateral arrangements to cover exposure to financial derivative instruments are not deemed to constitute "borrowings" for the purpose of this restriction.

(4) Acquire foreign currency by means of a back-to-back loan.

C. In addition, the Fund shall comply in respect of the net assets of each Sub-Fund with the following investment restrictions per issuer:

(a) Risk Diversification rules

For the purpose of calculating the restrictions described in (1) to (5) and (8) hereunder, companies which are included in the same Group of Companies are regarded as a single issuer.

To the extent an issuer is a legal entity with multiple sub-funds where the assets of a sub-fund are exclusively reserved to the investors in such sub-fund and to those creditors whose claim has arisen in connection with the creation, operation and liquidation of that sub-fund, each sub-fund is to be considered as a separate issuer for the purpose of the application of the risk spreading rules described under items (1) to (5), (7) to (9) and (12) to (14) hereunder.

• Transferable Securities and Money Market Instruments

(1) No Sub-Fund may purchase additional Transferable Securities and Money Market Instruments of any single issuer if:

- (i) upon such purchase more than 10% of its net assets would consist of Transferable Securities and Money Market Instruments of one single issuer; or

- (ii) the total value of all Transferable Securities and Money Market Instruments of issuers in which it invests more than 5% of its net assets would exceed 40% of the value of its net assets. This limitation does not apply to deposits and OTC derivative transactions made with financial institutions subject to prudential supervision.

(2) A Sub-Fund may invest on a cumulative basis up to 20% of its net assets in Transferable Securities and Money Market Instruments issued by the same Group of Companies.

(3) The limit of 10% set forth above under (1)(i) is increased to 35% in respect of Transferable Securities and Money Market Instruments issued or guaranteed by a Member State, by its local authorities, by any Other State or by a public international body of which one or more Member State(s) are member(s).

(4) The limit of 10% set forth above under (1)(i) is increased up to 25% in respect of qualifying debt securities issued by a credit institution which has its registered office in a Member State and which, under applicable law, is submitted to specific public control

in order to protect the holders of such qualifying debt securities. For the purposes hereof, "qualifying debt securities" are securities the proceeds of which are invested in accordance with applicable law in assets providing a return which will cover the debt service through to the maturity date of the securities and which will be applied on a priority basis to the payment of principal and interest in the event of a default by the issuer. To the extent that a relevant Sub-Fund invests more than 5% of its net assets in debt securities issued by such an issuer, the total value of such investments may not exceed 80% of the net assets of such Sub-Fund.

(5) The securities specified above under (3) and (4) are not to be included for purposes of computing the ceiling of 40% set forth above under (1)(ii).

(6) Notwithstanding the ceilings set forth above, each Sub-Fund is authorized to invest, in accordance with the principle of risk spreading, up to 100% of its net assets in Transferable Securities and Money Market Instruments issued or guaranteed by a Member State, by its local authorities, by any other member state of the Organization for Economic Cooperation and Development ("OECD") or the Group of Twenty (G20) such as the U.S. or Singapore or Hong Kong, or by a public international body of which one or more Member State(s) are member(s), provided that (i) such securities are part of at least six different issues and (ii) the securities from any such issue do not account for more than 30% of the net assets of such Sub-Fund.

(7) Without prejudice to the limits set forth hereafter under (b), the limits set forth in (1) are raised to a maximum of 20% for investments in shares and/or debt instruments issued by the same body when the aim of the Sub-Fund's investment policy is to replicate the composition of a certain stock or bond index which is recognised by the Regulatory Authority, on the following basis:

- the composition of the index is sufficiently diversified,
- the index represents an adequate benchmark for the market to which it refers,
- it is published in an appropriate manner.

The limit of 20% is raised to 35% where that proves to be justified by exceptional market conditions in particular in Regulated Markets where certain Transferable Securities or Money Market Instruments are highly dominant. The investment up to this limit is only permitted for a single issuer.

- **Bank Deposits**

(8) A Sub-Fund may not invest more than 20% of its net assets in deposits made with the same body.

- **Financial Derivative Instruments and Efficient Portfolio Management Techniques**

(9) The risk exposure to a counterparty arising from OTC financial derivative transaction or efficient portfolio management techniques may not exceed 10% of the Sub-Fund's net assets when the counterparty is a credit institution referred to in A (6) above or 5% of its net assets in other cases.

(10) Investment in financial derivative instruments shall only be made provided that the exposure to the underlying assets does not exceed in aggregate the investment limits set forth in (1) to (5), (8), (9), (13) and (14). When the Sub-Fund invests in index-based financial derivative instruments, these investments do not have to be combined to the limits set forth in (1) to (5), (8), (9), (13) and (14).

(11) When a Transferable Security or Money Market Instrument embeds a derivative, the latter must be taken into account when complying with the requirements of (A) (7) (ii) and (D)(1) as well as

with the risk exposure and information requirements laid down in the present Prospectus.

- **Units of Open-Ended Funds**

(12) Unless otherwise provided for with respect to a particular Sub-Fund, a Sub-Fund may invest up to 100% of its net assets in the units of other UCITS and up to 30% of its net assets in other UCIs provided that in aggregate no more than 20% of its net assets is invested in the units of a single UCITS or other UCI.

- **Combined limits**

(13) Notwithstanding the individual limits laid down in (1), (8) and (9) above, a Sub-Fund may not combine:

- investments in Transferable Securities or Money Market Instruments issued by,
- deposits made with, and/or
- exposures arising from OTC derivative transactions or efficient portfolio management technique undertaken with

a single body in excess of 20% of its net assets.

(14) The limits set out in (1), (3), (4), (8), (9) and (13) above may not be combined, and thus investments in Transferable Securities or Money Market Instruments issued by the same body, in deposits, derivative instruments or efficient portfolio management techniques made with this body carried out in accordance with (1), (3), (4), (8), (9) and (13) above may not exceed a total of 35% of the net assets of the Sub-Fund.

- **Derogation**

(15) During the first six (6) months following its launch, a new Sub-Fund may derogate from the limits set out in this section "Risk Diversification Rules" provided that the principle of risk-spreading is complied with.

(b) Limitations on Control

(16) The Management Company acting in connection with all common funds which it manages and which fall within the scope of Part I of the Law of 2010 may not acquire such amount of shares carrying voting rights which would enable it to exercise a significant influence over the management of the issuer.

(16) No Sub-Fund may acquire (i) more than 10% of the outstanding non-voting shares of any one issuer; (ii) more than 10% of the outstanding debt securities of any one issuer; (iii) more than 10% of the Money Market Instruments of any one issuer; or (iv) more than 25% of the outstanding shares or units of any one UCITS and/or other UCI.

The limits set forth in (ii) to (iv) may be disregarded at the time of acquisition if at that time the gross amount of debt instruments or of the Money Market Instruments or the net amount of the instruments in issue cannot be calculated.

The ceilings set forth above under (16) and (17) do not apply in respect of:

- Transferable Securities and Money Market Instruments issued or guaranteed by a Member State or by its local authorities;
- Transferable Securities and Money Market Instruments issued or guaranteed by any Other State;

- Transferable Securities and Money Market Instruments issued by a public international body of which one or more Member State(s) are member(s); and
- shares in the capital of a company which is incorporated under or organized pursuant to the laws of an Other State provided that (i) such company invests its assets principally in securities issued by issuers of that State, (ii) pursuant to the laws of that State a participation by the relevant Sub-Fund in the equity of such company constitutes the only possible way to purchase securities of issuers of that State, and (iii) such company observes in its investments policy the restrictions set forth under C, items (1) to (5), (8), (9) and (12) to (17).

D. In addition, the Fund shall comply in respect of its net assets with the following investment restrictions per instrument:

- (1) Each Sub-Fund shall ensure that its global exposure relating to derivative instruments does not exceed the total net value of its portfolio.
- (2) Investments made in units of UCIs other than UCITS may not in aggregate exceed 30% of the net assets of a Sub-Fund.

E. Finally, the Fund shall comply in respect of the assets of each Sub-Fund with the following investment restrictions:

- (1) No Sub-Fund may acquire commodities or precious metals or certificates representative thereof or hold any option, right or interest therein. Investments in debt instruments linked to, or backed by the performance of, commodities or precious metals do not fall under this restriction.
- (2) No Sub-Fund may invest in real estate provided that investments may be made in securities secured by real estate or interests therein or issued by companies which invest in real estate or interests therein.
- (3) No Sub-Fund may use its assets to underwrite any securities.
- (4) No Sub-Fund may issue warrants or other rights to subscribe for Units in such Sub-Fund.
- (5) A Sub-Fund may not grant loans or guarantees in favour of a third party, provided that such restriction shall not prevent each Sub-Fund from investing in non-fully paid-up Transferable Securities, Money Market Instruments or other financial instruments, as mentioned under A, items (5), (7) and (8).
- (6) A Sub-Fund may not enter into uncovered sales of Transferable Securities, Money Market Instruments or other financial instruments as listed under A, items (5), (7) and (8).

F. Notwithstanding anything to the contrary herein contained:

- (1) While ensuring observance of the principle of risk-spreading, each Sub-Fund may derogate from paragraph C, items (1) to (9) and (12) to (14) for a period of six months following the date of its authorization.
- (2) The ceilings set forth above may be disregarded by each Sub-Fund when exercising subscription rights attaching to Transferable Securities and Money Market Instruments in such Sub-Fund's portfolio.
- (3) If such ceilings are exceeded for reasons beyond the control of a Sub-Fund or as a result of the exercise of subscription rights, such Sub-Fund must adopt as its priority objective in its sale

transactions the remedying of such situation, taking due account of the interests of its unitholders.

The Management Company has the right to determine additional investment restrictions to the extent that those restrictions are necessary to comply with the laws and regulations of countries where Units of the Fund are offered or sold.

SPECIAL INVESTMENT AND HEDGING TECHNIQUES AND INSTRUMENTS

A. Financial derivative instruments

1. General

Each Sub-Fund may use financial derivative instruments such as options, futures, forwards and swaps or any variation or combination of such instruments, for hedging or investment purposes, in accordance with the conditions set out in this section and the investment objective and policy of the Sub-Fund, as set out in the relevant Data Sheet. The use of financial derivative instruments may not, under any circumstances, cause a Sub-Fund to deviate from its investment objective.

Financial derivative instruments used by any Sub-Fund may include, without limitation, the following categories of instruments.

- (1) Options: an option is an agreement that gives the buyer, who pays a fee or premium, the right but not the obligation to buy or sell a specified amount of an underlying asset at an agreed price (the strike or exercise price) on or until the expiration of the contract. A call option is an option to buy, and a put option an option to sell.
- (2) Futures contracts: a futures contract is an agreement to buy or sell a stated amount of a security, currency, index (including an eligible commodity index) or other asset at a specific future date and at a pre-agreed price.
- (3) Forward agreements: a forward agreement is a customised, bilateral agreement to exchange an asset or cash flows at a specified future settlement date at a forward price agreed on the trade date. One party to the forward is the buyer (long), who agrees to pay the forward price on the settlement date; the other is the seller (short), who agrees to receive the forward price.
- (4) Interest rate swaps: an interest rate swap is an agreement to exchange interest rate cash flows, calculated on a notional principal amount, at specified intervals (payment dates) during the life of the agreement.
- (5) Swaptions: a swaption is an agreement that gives the buyer, who pays a fee or premium, the right but not the obligation to enter into an interest rate swap at a present interest rate within a specified period of time.
- (6) Credit default swaps: a credit default swap or CDS is a credit derivative agreement that gives the buyer protection, usually the full recovery, in case the reference entity or debt obligation defaults or suffers a credit event. In return the seller of the CDS receives from the buyer a regular fee, called the spread.
- (7) Total return swaps: a total return swap is an agreement in which one party (total return payer) transfers the total economic performance of a reference obligation to the other party (total return receiver). Total economic performance includes income from interest and fees, gains or losses from market movements, and credit losses.
- (8) Contracts for differences: a contract for differences or CFD is an agreement between two parties to pay the other the change in the price of an underlying asset. Depending on which way the price moves, one party pays the other the difference from the time the contract was agreed to the point in time where it ends.
- (9) Warrants: warrants confer on the purchaser the right to subscribe a fixed number of ordinary shares in the relevant company at a pre-determined price for a fixed period. The

cost of the right will be substantially less than the cost of the share itself. Consequently the price movements in the share will be multiplied in the price movements of the warrant. This multiplier is the leverage or gearing factor; the higher the leverage the more attractive the warrant. One may make comparisons or relative worth among warrant considering the premium paid for such rights and the amount of leverage imbedded in the warrants. The levels of the premium and gearing can increase or decrease with investor sentiment. Warrants are therefore more volatile and speculative than ordinary shares. Purchasers should be warned that prices of warrants are extremely volatile and that furthermore, it may not always be possible to dispose of them.

Each Sub-Fund must hold at any time sufficient liquid assets to cover its financial obligations arising under financial derivative instruments used.

The global exposure of a Sub-Fund to financial derivative instruments and efficient portfolio management techniques may not exceed the Net Asset Value of the Sub-Fund, as described under section "Investment Objectives, Policies, Techniques and Restrictions" above.

The exposure of a Sub-Fund to underlying assets referenced by financial derivative instruments, combined with any direct investment in such assets, may not exceed in aggregate the investment limits described in "Risk Diversification Rules" under section "Investment Restrictions". However, to the extent a Sub-Fund invests in financial derivative instruments referencing financial indices (as described below in 1.3 "Financial Indices") the exposure of the Sub-Fund to the underlying assets of the financial indices do not have to be combined with any direct or indirect investment of the Sub-Fund in such assets for the purposes of the limits described in "Risk Diversification Rules" under section "Investment Restrictions".

Where a Transferable Security or Money Market Instrument embeds a financial derivative instrument, the latter must be taken into account in complying with the risk diversification rules, global exposure limits and information requirements applicable to financial derivative instruments.

2. OTC financial derivative instruments

Each Sub-Fund may invest into financial derivative instruments that are traded 'over-the-counter' or OTC including, without limitation, total return swaps or other financial derivative instruments with similar characteristics, in accordance with its investment objective and policy and the conditions set out in this section as well as in sections "Investment Objectives, Policies, Techniques and Restrictions" above. Such OTC financial derivative instruments will be safe-kept by the Depositary.

The counterparties to OTC financial derivative instruments will be selected among financial institutions from OECD member states, of any legal form, subject to prudential supervision (such as credit institutions or investment firms) and specialised in the relevant type of transaction, being of good reputation and having a minimum rating of Investment Grade. The identity of the counterparties will be disclosed in the annual report of the Company. The counterparties will have no discretion over the composition or management of the portfolio of the Sub-Fund or the underlying assets of the financial derivative instruments. Otherwise, for regulatory purposes, the agreement between the Company and such counterparty will be considered as an investment management delegation.

The Management Company uses a process for accurate and independent assessment of the value of OTC financial derivative instruments in accordance with applicable laws and regulations.

In order to limit the exposure of a Sub-Fund to the risk of default of the counterparty under OTC financial derivative instruments, the Sub-Fund may receive cash or other assets as collateral, as further specified in section "Management of collateral and collateral policy" below.

All revenues arising from total return swaps, net of direct and indirect costs and fees, will be returned to the Fund.

Currently, total return swaps are not being used by the Fund. Should it be decided that the Fund would be entering into total return swaps, this Prospectus will be updated and investors will be informed prior to the Fund entering into any of such agreements.

3. Financial indices

Each Sub-Fund may use financial derivative instruments to replicate or gain exposure to one or more financial indices in accordance with its investment objective and policy. The underlying assets of financial indices may comprise eligible assets described in section "Investment Objectives, Policies, Techniques and Restrictions" above and instruments with one or more characteristics of those assets, as well as interest rates, foreign exchange rates or currencies, other financial indices and/or other assets, such as commodities or real estate.

For the purposes of this Prospectus, a 'financial index' is an index which complies, at all times, with the following conditions: the composition of the index is sufficiently diversified (each component of a financial index may represent up to 20% of the index, except that one single component may represent up to 35% of the index where justified by exceptional market conditions), the index represents an adequate benchmark for the market to which it refers, and the index is published in an appropriate manner. These conditions are further specified in and supplemented by regulations and guidance issued by the Regulatory Authority from time to time.

The following Sub-Funds are actively managed and without any reference to a benchmark index in the meaning of regulation (EU) 2016/1011 on indices used as benchmarks in financial instruments:

- Income (EUR)
- Balance (EUR)
- Dynamic (EUR)

The Management Company has full discretion over the composition of these Sub-Funds' portfolios, subject to the relevant investment objectives and policies (as defined in the relevant Data Sheets) which do not provide for index-tracking objectives.

The following Sub-Funds will be passively managed, i.e. they follow a pre-determined investment strategy with the intention to track the underlying reference index and to mirror its performance:

- Equity EMU
- Equity ESG EMU

B. Efficient portfolio management techniques

The Fund may employ techniques and instruments relating to transferable securities and money market instruments provided that such techniques and instruments are used for the purposes of efficient portfolio management within the meaning of, and under the conditions set out in, applicable laws, regulations and circulars issued by the Regulatory Authority from time to time. In particular the use of those techniques and instruments should not result in a change of the declared investment objective of the Sub-Fund or add substantial supplementary risks in comparison to the stated risk profile of the Sub-Fund.

The risk exposure to a counterparty generated through efficient portfolio management techniques and OTC financial derivatives must be combined when calculating counterparty risk limits referred to above under sub-section "Investment Restrictions".

All revenues arising from efficient portfolio management techniques, net of direct and indirect operational costs and fees, will be returned to the Fund. In particular, fees and cost may be paid to agents of the Fund and other intermediaries providing services in connection with efficient portfolio management techniques as normal compensation of their services. Such fees may be calculated as a percentage of gross revenues earned by

the Fund through the use of such techniques. Information on direct and indirect operational costs and fees that may be incurred in this respect as well as the identity of the entities to which such costs and fees are paid – as well as any relationship they may have with the Depositary or Portfolio Manager – will be available in the annual report of the Fund.

C. Securities lending and borrowing

Securities lending transactions consist in transactions whereby a lender transfers securities or instruments to a borrower, subject to a commitment that the borrower will return equivalent securities or instruments on a future date or when requested to do so by the lender, such transaction being considered as securities lending for the party transferring the securities or instruments and being considered as securities borrowing for the counterparty to which they are transferred.

Securities lending is used to generate additional capital or income via the terms of the transaction itself or through the reinvestment of cash collateral.

Securities lending transactions are entered into depending on the market opportunities and in particular depending on the market demand for the securities held in each Sub-Fund's portfolio at any time and the expected revenues of the transaction compared to the market conditions on the investment side. Market conditions include in particular borrowing demand and risk management parameters depending on volatility, seasonality, liquidity and diversification.

The use of securities lending transactions is continuous in principal and does not result in a change of the declared investment objective of any Sub-Fund or substantially increase the stated risk profile of the Sub-Fund.

Unless otherwise provided for with respect to a particular Sub-Fund in its Data Sheet, each Sub-Fund may enter into securities lending and borrowing transactions provided that it complies with the following rules:

- (i) The borrower in a securities lending transaction must be a credit institution from an OECD member state, of any legal form, subject to prudential supervision rules considered by the Regulatory Authority as equivalent to those prescribed by EU law, be of good reputation and have a minimum rating of Investment Grade;
- (ii) The Fund may only lend securities to a borrower either directly or through a standardised system organised by a recognised clearing institution or through a lending system organised by a financial institution subject to prudential supervision rules considered by the Regulatory Authority as equivalent to those provided by EU law and specialised in this type of transaction;
- (iii) The Fund may only enter into securities lending transactions provided that it is entitled at any time under the terms of the agreement to request the return of the securities lent or to terminate the agreement.

The counterparty and the lending agent for the securities lending is Société Générale S.A., the "French Central Agent" for the Sub-Funds that engage in securities lending. The lending agent is authorised to receive 15% of the gross revenue, with the remaining 85% of the gross revenue being received by the relevant Sub-Fund. The revenue received by the Sub-Funds arising from securities lending and other efficient portfolio management techniques is disclosed in the unitholder reports.

D. Repurchase and Reverse Repurchase Transactions

Unless otherwise provided for with respect to a particular Sub-Fund in its Data Sheet, each Sub-Fund may enter into repurchase agreements that consist of forward transactions at the maturity of which the Fund (seller) has the obligation to repurchase the assets

sold and the counterparty (buyer) the obligation to return the assets purchased under the transactions. The Fund may further enter into reverse repurchase agreements that consist of forward transactions at the maturity of which the counterparty (seller) has the obligation to repurchase the asset sold and the Fund (buyer) the obligation to return the assets purchased in aggregate under the transactions. The Fund may also enter into transactions that consist of the purchase/sale of securities with a clause reserving for the counterparty/Company the right to repurchase the securities from the Fund/counterparty at a price and term specified by the parties in their contractual arrangements.

The Fund's involvement in such transactions is, however, subject to the additional following rules:

- (i) The counterparty to these transactions must be a credit institution from an OECD, of any legal form, member state subject to prudential supervision rules considered by the Regulatory Authority as equivalent to those prescribed by EU law, be of good reputation and have a minimum rating of Investment Grade ;
- (ii) The Fund may only enter into reverse repurchase agreement and/or repurchase agreement transactions provided that it is able at any time (a) to recall the full amount of cash in a reverse repurchase agreement or any securities subject to a repurchase agreement or (b) to terminate the agreement in accordance with applicable regulations. However, fixed-term transactions that do not exceed seven (7) days should be considered as arrangements on terms that allow the assets to be recalled at any time by the Fund.

Currently, this technique is not being used by the Fund. Should it be decided that the Fund would be entering into repurchase agreements or reverse repurchase agreements, this prospectus will be updated and investors will be informed prior to the Fund entering into any of such agreements.

E. Management of Collateral and Collateral Policy General

In the context of OTC financial derivatives transactions and efficient portfolio management techniques, each Sub-Fund may receive collateral with a view to reduce its counterparty risk. This section sets out the collateral policy applied by the Sub-Fund in such case.

All assets received by the Sub-Fund in the context of efficient portfolio management techniques (securities lending, repurchase or reverse repurchase agreements) shall be considered as collateral for the purposes of this section.

Eligible Collateral

Collateral received by the Sub-Fund may be used to reduce its counterparty risk exposure if it complies with the criteria set out in applicable laws, regulations and circulars issued by the Regulatory Authority from time to time notably in terms of liquidity, valuation, issuer credit quality, correlation, risks linked to the management of collateral and enforceability.

In particular, collateral shall comply with the following conditions:

- (a) Any collateral received other than cash should be of high quality, highly liquid and traded on a regulated market or multilateral trading facility with transparent pricing in order that it can be sold quickly at a price that is close to pre-sale valuation;
- (b) It should be valued on at least a daily basis and assets that exhibit high price volatility should not be accepted as collateral unless suitably conservative haircuts are in place;

- (c) It should be issued by an entity that is independent from the counterparty and is expected not to display a high correlation with the performance of the counterparty;
- (d) It should be sufficiently diversified in terms of country, markets and issuers with a maximum exposure of 20% of the Sub-Fund's net asset value to any single issuer on an aggregate basis, taking into account all collateral received. By way of derogation, this limit may be exceeded and up to 100% of the collateral received by a Sub-Fund may consist in Transferable Securities and Money Market Instruments issued or guaranteed by one or several Member States, their local authorities, member states of the OECD or public international bodies to which one or more Member States belong, provided that such securities or instruments are part of a basket of collateral comprised of securities or instruments of at least six different issues and that securities or instruments from any one issue do not account for more than 30% of the NAV of the Sub-Fund;
- (e) Where there is a title of transfer, collateral received should be held by the Depository. For other types of collateral arrangement, collateral can be held by a third party custodian which is subject to prudential supervision and which is unrelated to the provider of the collateral; and
- (f) It should be capable of being fully enforced by the Company at any time without reference to or approval from the counterparty.

Where relevant, collateral received should also comply with the control limits set out under section "Limitations on Control" above.

Subject to the abovementioned conditions, collateral received by the Sub-Fund may consist of:

- (a) Cash and cash equivalents, including short-term bank certificates and Money Market Instruments;
- (b) Bonds issued or guaranteed by a Member State of the OECD or by their local public authorities or by supranational institutions and undertakings with EU, regional or worldwide scope;
- (c) Shares or units issued by money market UCIs calculating a daily net asset value and being assigned a rating of AAA or its equivalent;
- (d) Shares or units issued by UCITS investing mainly in bonds/shares mentioned in (e) and (f) below;
- (e) Bonds issued or guaranteed by first class issuers offering adequate liquidity; and
- (f) Shares admitted to or dealt in on a Regulated Market or on a stock exchange of a member state of the OECD, on the condition that these shares are included in a main index.

Level of collateral

The Management Company will determine the required level of collateral for OTC financial derivatives transactions and efficient portfolio management techniques by reference to the applicable counterparty risk limits set out in this Prospectus and taking into account the nature and characteristics of transactions, the creditworthiness and identity of counterparties and prevailing market conditions.

With respect to securities lending, the Company will generally require the borrower to post collateral representing, at any time during the lifetime of the agreement, at least 90% of the total value of the securities lent.

Haircut policy

Collateral will be valued, on a daily basis, using available market prices and taking into account appropriate discounts for each asset class taking into account the nature of the collateral received, such as the issuer's credit standing, the maturity, currency, price volatility of the assets and, where applicable, the outcome of liquidity stress tests under normal and exceptional liquidity conditions. This method will permit a realistic appraisal of the collateral received. Daily mark to market and variation margin are used.

The following minimum haircuts are applied:

Collateral Instrument Type	Haircut
Cash	0% - 10%
Government Bonds	3% - 10%
Non-Government Bonds	3% - 10%
Equities	3% - 20%

Stress test

Where a Sub-Fund receives collateral for at least 30% if its assets, regular stress tests will be carried out under normal and exceptional liquidity conditions to assess the liquidity risk attached to the collateral. The liquidity stress testing policy includes, without limitation, (i) design stress test scenario analysis including calibration, certification and sensitivity analysis; (ii) empirical approach to impact assessment, including back-testing of liquidity risk estimates; (iii) reporting frequency and limit/loss tolerance thresholds; and (iv) mitigation actions to reduce loss, including haircut policy and gap risk protection.

Reinvestment of cash collateral

Non-cash collateral received by a Sub-Fund may not be sold, re-invested or pledged.

Cash collateral received by a Sub-Fund can only be:

- (a) placed on deposit with credit institutions which have their registered office in an EU Member State or, if their registered office is located in a third-country, are subject to prudential rules considered by the Regulatory Authority as equivalent to those laid down in EU law;
- (b) invested in high-quality government bonds;
- (c) used for the purpose of reverse repo transactions provided the transactions are with credit institutions subject to prudential supervision and the Company is able to recall at any time the full amount of cash on accrued basis; and/or
- (d) invested in short-term money market funds as defined in the Guidelines on a Common Definition of European Money Market Funds issued by ESMA (CESR/10-049) as may be amended from time to time.

Re-invested cash collateral should be diversified in accordance with the diversification requirements applicable to non-cash collateral as set out above.

The above provisions apply subject to any further guidelines issued from time to time by the European Securities and Markets Authority ("ESMA") amending and/or supplementing ESMA guidelines applicable as of the date of the Prospectus and/or any additional guidance issued from time to time by the Regulatory Authority in relation to the above.

Centrally cleared OTC derivatives

The Fund may enter into OTC financial derivative instruments cleared through a clearinghouse that serves as a central counterparty. In such case, the Fund's ultimate counterparty is a central clearinghouse rather than a brokerage firm, bank or other

financial institution. The Fund initially will enter into cleared derivatives through an executing broker. Such transactions will then be submitted for clearing and held at regulated financial intermediaries that are members of the clearinghouse that serves as the central counterparty. For these trades, the Fund will post and/or receive collateral for the benefit of a Sub-Fund in the form of daily margin payments in accordance with the rules of the applicable clearinghouse, including rules on acceptable forms of collateral, collateral level, valuation and haircuts. The Fund will ensure that the relevant clearinghouse rules and functioning are in accordance with its collateral policy.

GLOBAL EXPOSURE LIMITS

General

In accordance with Luxembourg laws and regulations, the Management Company has adopted and implemented a risk management process which enables it to monitor and measure at any time the risk of the positions and their contribution to the overall risk profile of the Sub-Fund.

The global exposure of a Sub-Fund to financial derivative instruments and efficient portfolio management techniques may not exceed the NAV of the Sub-Fund. Global exposure is calculated, at least on a daily basis, using either the commitment approach or the Value-at-Risk or "VaR" approach, as further explained below. Global exposure is a measure designed to limit either the incremental exposure and leverage generated by a Sub-Fund through the use of financial derivative instruments and efficient portfolio management techniques (where the Sub-Fund uses the commitment approach) or the market risk of the Sub-Fund's portfolio (where the Sub-Fund uses the VaR approach). The method used by each Sub-Fund to calculate global exposure is mentioned in the relevant Data Sheet.

Commitment approach

Under the commitment approach, all financial derivative positions of the Sub-Fund are converted into the market value of the equivalent position in the underlying assets. Netting and hedging arrangements may be taken into account when calculating global exposure, where these arrangements do not disregard obvious and material risks and result in a clear reduction in risk exposure. Under this approach, the global exposure of a Sub-Fund is limited to 100% of its NAV.

VaR approach

In financial risk management, VaR is a widely used risk measure of the risk of loss on a specific portfolio of financial assets. For a given investment portfolio, probability and time horizon, VaR measures the potential loss over a given time interval that could arise under normal market conditions, and at a given confidence level.

VaR limits are set using an absolute or relative approach. The Management Company will decide which VaR approach is the most appropriate methodology given the risk profile and investment strategy of the Sub-Fund. The VaR approach selected for each Sub-Fund using VaR is specified in the relevant Data Sheet.

Under the absolute VaR approach a limit is set as a percentage of the Net Asset Value of the Sub-Fund. Using a one sided confidence interval of 99% and a holding period of 20 days the absolute VaR of each Sub-Fund is limited to 20% of its Net Asset Value. The Management Company may set a lower limit if appropriate.

The relative VaR of a Sub-Fund is expressed as a multiple of the VaR of the defined reference portfolio and is limited to no more than twice the VaR on that reference portfolio. The VaR reference portfolio of the Sub-Fund, which may be different from the benchmark used for other purposes, is specified in Data Sheets.

For regulatory purposes, additionally to the VaR, the level of leverage defined pursuant to the applicable CSSF Circular 11/512 as the "sum of notionals" of all financial derivative instruments used by the Sub-Fund, as well as any additional exposure generated by the reinvestment of cash collateral in relation to efficient portfolio management techniques is calculated.

This "sum of notionals" methodology does not allow for the offset of hedging transactions and other risk mitigation strategies involving financial derivative instruments, such as currency hedging or duration management. Similarly, the "sum of notionals" methodology does not allow for the netting of derivative positions and does not take into account the underlying assets' volatility or make any distinction between short term and long term assets. As a result, strategies that aim to reduce risks, or necessitate a high amount of notional may contribute to an increased level of this methodology.

The expected average value thereof, expressed as a percentage of the NAV of the Sub-Fund, is disclosed for each Sub-Fund using the VaR approach as an estimate in the relevant Data Sheet. The expected level is an indicator and not a regulatory limit. Higher and lower amounts may be attained by the Sub-Fund. The annual report of the Fund will provide the actual average level over the past period.

9. UNITS

The Fund issues Units in each of the separate Sub-Funds. There may be several and different Classes of Units within each Sub-Fund, having (i) a specific sales and redemption charge structure and/or (ii) a specific management or advisory fee structure and/or (iii) different distribution, Unitholders servicing or other fees and/or (iv) different types of targeted investors and/or (v) such other features as may be determined by the Board of Directors from time to time.

Fractions of Units may be issued up to three decimal places of a Unit and such fractional Units shall not be entitled to vote but shall be entitled to a participation in the net results and in the proceeds of liquidation attributable to the relevant Class of Units in the relevant Sub-Fund on a pro rata basis.

Classes of Units

Unless otherwise specified in the Data Sheets, each Sub-Fund will issue the following Classes of Units:

- (a) **Class "R" Units**, which is open to any investor. The Class "R" Units are subject to a *taxe d'abonnement* at an annual rate of 0.05% of its net assets which is calculated and payable quarterly at the end of the relevant quarter.
- (b) **Class "I" Units**, which is restricted to institutional investors within the meaning of Article 174 of the Law of 2010. The Class "I" Units are subject to a *taxe d'abonnement* at an annual rate of 0.01% of its net assets which is calculated and payable quarterly at the end of the relevant quarter.
- (c) **Class "AM" Units**, which is restricted to institutional investors within the meaning of Article 174 of the Law of 2010 that have concluded an asset management agreement or other financial services contract in return for payment with Swiss Life Asset Management AG or other entity belonging to Swiss Life group. A reduced management fee will be payable in respect of AM-Units out of the net assets of the relevant Sub-Fund. The Management Company will not issue AM-Units to any investor who is not a client of Swiss Life group entity.

In all Classes, Units can be either (i) distribution units, which basically entitle the holders thereof to an annual dividend and which reduce their NAV by an amount corresponding to the distribution made, ("Distribution Units") or (ii) capitalisation units which do not entitle the holders thereof to a dividend and whose NAV is not changed on the dividend payment date, the percentage of the total NAV attributable to the capitalisation units being increased accordingly ("Capitalisation Units").

The net proceeds from the subscriptions are invested in the specific portfolio of assets constituting the relevant Sub-Fund.

Additional Classes of Units may be established in any Sub-Fund from time to time without the approval of investors. New Classes of Units will be added to the relevant Data Sheet. Such new Classes of Units may be issued on terms and conditions that differ from the existing Classes of Units. The list and details of the Classes of Units established within each Sub-Fund, if any, are set out in the Data Sheets. The list of active Classes of Units currently available for subscription in each jurisdiction may be obtained from the Management Company upon request.

The rights and restrictions attached to Units may be modified by the Management Company from time to time, subject to the provisions of the Management Regulations.

The Management Company may change the characteristics of any existing Sub-Fund, including its objective and policy, or any existing Class of Units, without the consent of investors. In accordance with applicable laws and regulations, investors in the Sub-Fund or Class of Units will be informed about the changes and, where required, will be given prior notice of any proposed material changes in order for them to request the redemption of their Units should they disagree. This Prospectus will be updated as appropriate.

The Board of Directors will maintain for each Sub-Fund a separate portfolio of assets. As between Unitholders, each portfolio of assets will be invested for the exclusive benefit of the relevant Sub-Fund. **As regards third parties, each Sub-Fund is exclusively responsible for all liabilities attributable to it.**

Units in any Sub-Fund will only be issued in registered form.

The inscription of the Unitholder's name in the Register evidences his or her right of ownership of such registered Units. Holders of registered Units will receive a written confirmation of their respective unitholding.

Forms for the transfer of Units are available from the registered office. Units are freely transferable. Nevertheless the Management Company is entitled at its own discretion to restrict, temporarily suspend or finally discontinue the issuing of Units at any time if buyers are natural persons or legal entities resident or having a branch in certain countries or territories. The Management Company may furthermore prevent natural persons or legal entities from acquiring Units should such action become necessary in order to protect the Unitholders or the Fund.

In particular, Units will not be registered under the amended United States Securities Act of 1933 and no Unit may be offered, sold, transferred or delivered either directly or indirectly in the United States of America or to the citizens of or any persons domiciled in the United States of America (US persons).

All Units must be fully paid-up; they are of no par value and carry no preferential or pre-emptive rights.

10. SUBSCRIPTION REQUESTS

Units are issued on each Valuation Day according to the procedure indicated in the Data Sheet of each Sub-Fund.

Subscription requests may be made directly to the Registrar Agent as well as any other distributor(s) by completing two copies of the subscription form. The subscriber concerned will only receive a written confirmation.

Initial subscriptions

The initial subscription period and related procedures for all new Sub-Funds are specified for each Sub-Fund in the relevant Data Sheet.

Current subscriptions

For each Sub-Fund, subscription requests must be received before the time specified in the Data Sheet of each Sub-Fund. Applications received after that time will be processed on the following Valuation Day.

Applications for subscription for the Units in each Sub-Fund must be sent to the Registrar Agent or to the distributor(s) for the amount subscribed in the Reference Currency of the Sub-Fund concerned and/or with a number of Units, as indicated in the relevant Data Sheet.

Any subscription to new Units must be fully paid up.

Subscription prices are based on the NAV per Unit determined as of the Valuation Day (as defined under section "Net Asset Value" below) plus an entry fee of up to 5% of the NAV per Unit to the benefit of the Management Company. The maximum entry fee applicable to each Sub-Fund is indicated in the relevant Data Sheets.

Any potential taxes, royalties and administrative costs arising from a subscription are charged to the subscriber.

Applicable taxes and fees may be added to the subscription price in the respective countries in which Units are distributed.

Payments for Units should be made according to the procedure indicated in the Data Sheet of each Sub-Fund by electronic bank transfer net of all bank charges (except where local banking practices do not allow electronic bank transfers). Payment should be made in the Reference Currency or in any other freely convertible currency specified by the Unitholder (in which case any currency conversion costs will be borne by the Unitholder).

Written confirmations of unitholding will be issued by the Registrar Agent and sent to Unitholders within two (2) weeks after the relevant payment of Units.

The Management Company may agree to issue Units as consideration for a contribution in kind of securities, in compliance with the conditions set forth by Luxembourg law, in particular the obligation to deliver a valuation report from the auditor ("*réviseur d'entreprises agréé*") which will be available for inspection by any Unitholder from the registered office and provided that such securities comply with the investment objectives and policies of the relevant Sub-Fund described herein. Any costs incurred in connection with a contribution in kind of securities will be borne by the relevant Unitholder.

The Management Company will only process subscription applications that it considers clear and complete. Applications will be considered complete only if the Registrar Agent has received all information and supporting documentation it deems necessary to process the application. Unclear or incomplete applications may lead to delays in their execution. The Management Company will not accept liability for any loss suffered by applicants as a result of unclear or incomplete applications. No interest will be paid to investors on subscription proceeds received by the Management Company prior to receiving clear and complete applications.

The Management Company reserves the right to reject any subscription in whole or in part or to suspend at any time and without prior notice the issue of Units in one, several or all of the Sub-Funds.

No Units of any Sub-Fund will be issued during any period when the calculation of the NAV per Unit in such Sub-Fund is suspended by the Management Company, pursuant to the powers reserved to it by the Management Regulations.

In the case of suspension of dealings in Units the subscription will be dealt with on the first Valuation Day following the end of such suspension period.

Restriction of ownership of Units

The Fund reserves the right to:

- a) refuse all or part of a subscription application for Units.
- b) repurchase, at any time, Units held by investors not authorized to buy or own the Units.

Market timing and late trading

The Management Company and, as the case may be, intermediaries, dealers and/or professional investors appointed for the distribution of Units will at all times comply with all laws, rules and regulations applicable to it concerning late trading, market-timing or other excessive trading practices, in particular with the CSSF Circular 04/146 of June 17, 2004 as it may be amended or revised from time to time. The Management Company represents and covenants that it has adopted procedures designed to ensure, to the extent applicable, that it and, as the case may be, the intermediaries through which Units may be transacted, shall comply with the foregoing undertaking.

Dilution Levy

Where subscriptions, redemptions, and/or conversions in a Sub-Fund cause the Sub-Fund to buy and/or sell underlying investments, the value of these investments may be affected by bid/offer spreads, trading costs and related expenses in particular but not exclusively transaction charges, brokerage fees, and taxes. As a result, the Net Asset Value per Units of a Sub-Fund may be diluted as a result of subscriptions for or redemptions of Units in the Sub-Fund at a price that does not reflect the actual price obtained in the underlying asset transactions undertaken on behalf of the Sub-Fund to accommodate the resulting inflows or outflows. In order to protect existing or remaining investors from the potential effect of dilution, the Fund may apply a dilution levy as further explained below.

In practice, an adjustment may be made to the price at which subscriptions or redemptions shall be settled in order to cover the percentage estimate of costs and expenses to be incurred by the relevant Sub-Fund in relation to such subscriptions or redemptions respectively.

The dilution levy to be applied is not expected to exceed 2% of the NAV per unit and is payable to the Sub-Fund concerned. However, the Fund may decide to go beyond this limit or any other limit set forth in any relevant Sub-Fund supplement in exceptional circumstances (such as, but not limited to, higher market volatility) to protect Unitholders' interests. A periodical review will be undertaken in order to verify the appropriateness of the dilution levy in view of market conditions. The Company may also waive the dilution levy in favor of the respective Sub-fund to the extent that issues and redemptions can be offset against each other on a Valuation day.

The dilution levy will have the following effect on subscriptions or redemptions:

- (a) on a Sub-Fund experiencing subscriptions on a dealing day the dilution levy will be added as a premium to the subscription price; and
- (b) on a Sub-Fund experiencing redemptions on a dealing day, the dilution levy will be deducted as a discount from the redemption price.

The dilution levy will be allocated to the assets of the Sub-Fund and will, therefore, benefit the existing or remaining investors.

Note to investors on the prevention of money laundering

The Management Company and the Administrative Agent must comply with applicable international and Luxembourg laws and

regulations regarding the prevention of money laundering and terrorist financing. In particular, anti-money laundering measures in force in the Grand Duchy of Luxembourg require the Management Company or the Registrar and Transfer Agent to establish and verify the identity of subscribers for Units (as well as the identity of any intended beneficial owners of the Units if they are not the subscribers) on the basis of documents, data or information obtained from a reliable and independent source and, amongst others, to gather information on the origin of subscription proceeds and to monitor the relationship on an ongoing basis. Failure to provide information or documentation will result in delays in, or rejection by the Management Company of, any Subscription or Conversion Requests and/or delays in any Redemption Requests. Upon such event, the Management Company will not be liable for any interest, costs or compensation.

In accordance with article 3-2 (3) of the 2004 Law and article 3 of the CSSF Regulation 12-02, in case of intermediaries which subscribe and market Units in their own name but on behalf of underlying investors, the due diligence with regard to such intermediaries generally takes place at several levels, including *inter alia*:

- 1) A risk-based customer due diligence on the intermediary (by using reliable, independent source documents, data or information) as well as on its beneficial owners, such that notably the Management Company is satisfied that it knows who the beneficial owner(s) of the intermediary are;
- 2) In addition, an enhanced due diligence will also be applied on such intermediaries by the Management Company or its AML/CFT delegates. This includes, *inter alia*, that the Management Company or its AML/CFT delegates have to assess the intermediaries AML/CFT controls regarding their own underlying investors. In case of higher risk situations (e.g., underlying investors of an intermediary are located in countries presenting a higher money laundering and terrorist financing (ML/TF) risk) the Management Company or its AML/CFT delegates may ask to receive additional documents and/or information relating to the persons absolutely entitled to the sums in the intermediary accounts.

In addition to the due diligence measures on investors, pursuant to article 34(2) of CSSF Regulation 12-02, the Management Company is also required to apply precautionary measures regarding the assets of the Fund. The Management Company should assess, using its risk-based approach, the extent to which the offering of its products and services presents potential vulnerabilities to placement, layering or integration of criminal proceeds into the financial system.

Pursuant to the law of 19 December 2020 on the implementation of restrictive measures in financial matters, the application of international financial sanctions must be enforced by any Luxembourg natural or legal person, as well as any other natural or legal person operating in or from the Luxembourg territory. As a result, prior to investing in assets, the Management Company must, as a minimum, screen the name of such assets or of the issuer against the target financial sanctions lists.

Pursuant to the Luxembourg law of 13 January 2019 on the register of beneficial owners (the "RBO Law"), the Management Company is required to collect, hold accurate and up-to-date and make available certain information on its "beneficial owner(s)" (as defined in the 2004 Law) and relevant supporting evidence. Such information includes, as further specified in the RBO Law, among others, first and last name, nationality, country of residence, personal or professional address, national identification number and information on the nature and the scope of the beneficial ownership interest held by each beneficial owner in the Fund. The Management Company is further required, among others, (i) to make such information available upon request to certain Luxembourg national authorities (including the CSSF, the Commissariat aux Assurances, the Cellule de Renseignement Financier, Luxembourg tax and other national authorities as

defined in the RBO Law) and upon motivated request of other professionals of the financial sector subject to the AML/CFT Regulations, and (ii) to register such information and supporting evidence in the register of beneficial owners (the "RBO") which will be accessible to third parties with a legitimate interest, including (i) national authorities or (ii) professionals subject to the 2004 Law in order to ensure AML/CFT compliance.

Under the RBO Law, criminal sanctions may be imposed on the Management Company in case of its failure to comply with the obligations to collect and make available the required information, but also on any beneficial owner(s) that fail to make all relevant necessary information available to the Management Company. Any Unitholder that fails to comply with the Management Company's information or documentation requests may be held liable for penalties imposed on the Management Company as a result of such Unitholder's failure to provide the information or subject to disclosure of the information by the Management Company to the Luxembourg national authorities and the Management Company may, in its sole discretion, redeem the Units of such Unitholder.

11. REDEMPTION REQUESTS

Unless otherwise specified in the Data Sheets, Unitholders of the Fund may at any time request the Management Company to redeem on any Valuation Day all or any of the Units held by such Unitholder in any of the Sub-Funds.

Unitholders desiring to have all or any of their Units redeemed may apply in writing to the Registrar Agent or any distributor(s).

Redemption requests should contain the following information: the identity and address of the Unitholder requesting the redemption, the number of Units to be redeemed, the relevant Sub-Fund, the name in which such Units are registered and details as to whom payment should be made.

The Management Company will only process redemption applications that it considers clear and complete. Applications will be considered complete only if the Registrar Agent has received all information and supporting documentation it deems necessary to process the application. Unclear or incomplete applications may lead to delays in their execution. The Management Company will not accept liability for any loss suffered by applicants as a result of unclear or incomplete applications.

Unitholders whose redemption requests are accepted will have their Units redeemed at a price equal to the NAV per Unit determined on the first Valuation Day (as defined under section "Net Asset Value" below) following the receipt of a redemption request, provided that such requests have been received by the Registrar Agent or the distributor(s) before the time specified in each Sub-Fund's Data Sheet. Applications received after that time will be processed on the following Valuation Day.

Redemptions are dealt with at an unknown NAV per Unit.

Units will be redeemed at a price equal to the NAV per Unit determined as of the Valuation Day (as defined under section "Net Asset Value" below) less any applicable redemption charge as more fully described in the relevant Sub-Fund's Data Sheet. The redemption price may be higher or lower than the price paid at the time of the subscription or purchase.

Generally, the redemption price will be paid not later than two (2) Business Days from the relevant Valuation Day, or from the date on which the redemption request details have been received by the Management Company, whichever is the later date.

Payment of the redemption price will be made by wire and/or cheque mailed to the Unitholder at the address indicated by him or her or by bank order to an account indicated by the Unitholder, at such Unitholder's expense and at the Unitholder's risk.

The redemption price will be paid in the Reference Currency or in any other freely convertible currency specified by the Unitholder. In the last case, any currency conversion costs will be borne by the Unitholder.

The Board of Directors can decide to satisfy payment of the redemption price to any Unitholder who agrees, *in specie* by allocating to the Unitholder investments from the portfolio of assets of the Fund equal to the value of the Units to be redeemed. The nature and type of assets to be transferred in such case shall be determined on a fair and reasonable basis and without prejudicing the interests of the other Unitholders and the valuation used shall be confirmed by a special report of the auditor of the Fund. The costs of any such transfer shall be borne by the transferee.

Units in any Sub-Fund will not be redeemed if the calculation of the NAV per Unit of such Sub-Fund is suspended by the Management Company in accordance with the Management Regulations.

Furthermore, if on any Valuation Day, redemption requests and conversion requests pursuant to the Management Regulations relate to more than 10% of the Units in issue in a specific Sub-Fund, the Board of Directors may decide that part or all of such requests for redemption or conversion will be deferred for such period as the Board of Directors considers to be in the best interest of the relevant Sub-Fund, but normally not exceeding one Valuation Day. On the next Valuation Day following such period, these redemption and conversion requests will be met in priority to later requests.

The Management Regulations contain provisions enabling the Fund to compulsorily redeem Units held by U.S. Persons.

Where Unitholders request reimbursement of a sum which does not amount to one full Unit, the procedure will be the same as if they had requested the redemption of one Unit.

12. CONVERSION OF UNITS

Unless otherwise specified in the Data Sheets, Unitholders have the right, subject to the provisions specified hereinafter, to convert Units from one Sub-Fund for Units of another Sub-Fund. Each Unitholder may also convert his Distribution Units for Capitalisation Units within one Sub-Fund at any time. This conversion is processed in the same manner as for a Sub-Fund conversion.

A conversion of Units of one Sub-Fund for Units of another Sub-Fund will be treated as a redemption of Units of one Sub-Fund and a simultaneous purchase of Units of another Sub-Fund. A converting Unitholder may, therefore, realise a taxable gain or loss in connection with the conversion under the laws of the country of the Unitholder's citizenship, residence or domicile.

Units may be tendered for conversion on any Business Day.

Applications for conversion may be accepted either on the basis of the number of Units to be converted or on the basis of conversion amounts.

All terms and notices regarding the redemption of Units will equally apply to the conversion of Units.

Conversions shall be effected at unknown NAV per Unit of the respective Sub-Funds determined as of the Valuation Day (as defined under section "Net Asset Value" below).

Conversion fees, if any, will be disclosed in the Data Sheets.

Written confirmations of unitholding (as appropriate) will be sent to Unitholders, together with the balance resulting from such conversion, if any.

In converting Units of a Sub-Fund for Units of another Sub-Fund, a Unitholder must meet applicable minimum investment requirements imposed by the acquired Sub-Fund if any.

Units in any Sub-Fund will not be converted in circumstances where the calculation of the NAV per Unit of such Sub-Fund is suspended by the Management Company pursuant to the Management Regulations. Moreover, in the case of substantial requests, conversions may also be delayed under the same conditions as those applied to redemptions.

Conversion will be carried out using the following formula:

$$A = \frac{B \times C \times E}{D}$$

A being the number of Units allocated to the new Sub-Fund;
B being the number of Units of the old Sub-Fund to convert;
C being the NAV of the old Sub-Fund;
D being the NAV of the new Sub-Fund;
E being the selling exchange rate between the two Sub-Funds on the day of the conversion.

13. NET ASSET VALUE

Valuation Day

The NAV and the issue and redemption price per Unit of each Sub-Fund is determined as of the date specified in the relevant Data Sheet (a "Valuation Day") at least twice a month.

Reference Currency

The NAV is expressed in the Reference Currency set for each Sub-Fund. The NAV of the Fund is expressed in EUR.

Net Asset Value

The NAV per Unit will be determined as of any Valuation Day on the basis of the closing prices of the previous Business Day by dividing the net assets attributable to the relevant Sub-Fund, being the value of the portion of assets less the portion of liabilities attributable to such Sub-Fund, on any such Valuation Day, by the number of Units then outstanding, in accordance with the valuation rules set forth below. The NAV per Unit may be rounded up or down to the nearest unit of the relevant currency as the Management Company will determine.

Valuation of Assets

The value of the assets of each Sub-Fund shall be determined by the Administrative Agent, acting independently and based on the information received by it and under the supervision of the Board of Directors, as follows:

- a) Securities, including any financial assets ("derivatives"), listed or dealt in on a Regulated Market or on any Other Regulated Market will be valued on the basis of the last available closing price on the previous Business Day or may be valued at the average price (average between the last available bid price and asked price) of the securities on the corresponding securities market on which the Fund's assets were listed or dealt in on the Valuation Day, unless this price is not representative of the fair market value of the relevant assets. If the security is listed or dealt in on several Regulated Markets, it will be valued on the basis of the last available price on the relevant market which is normally the principal market of such assets.
- b) In the event that any assets held by the Fund on the Valuation Day are not listed or dealt in on any Regulated

Market or on any Other Regulated Market, or if they are not exchange-listed, or if, in the case of securities which are exchange-listed or traded on some Other Regulated Market, the value ascertained in accordance with paragraphs (a) or (d) to (g) does not reflect the fair market value, their value must be determined on the basis of the reasonably foreseeable sales price determined prudently and in good faith by the Board of Directors.

- c) Money Market Instruments will be valued on a linear basis over the period from purchase until maturity and other liquidity will be valued at their nominal value plus accrued interest.
- d) All assets not denominated in the relevant Reference Currency will be converted to the relevant Reference Currency at the mid-market rate prevailing on the Valuation Day.
- e) Units or shares of open-ended UCITS and/or other UCIs will be valued at their last determined and available net asset value or, if such price is not representative of the fair market value of such assets, then the price shall be determined by the Board of Directors on a fair and equitable basis. Units or shares of a closed-ended UCI will be valued at their last available stock market value.
- f) Forward foreign exchange transactions and options will be valued strictly at the last available market or broker prices. Where a Valuation Day is also the settlement date of an option, the relevant options will be valued at their relevant final settlement price.
- g) Financial instruments ("derivatives") which are not officially listed or dealt in on a Regulated Market or on any Other Regulated Market are valued according to generally recognized valuation rules which can be verified by auditors.
- h) All other securities and assets will be valued at fair market value as determined prudently and in good faith by the Board of Directors according to the procedure approved by the auditors of the Fund.

If the Board of Directors consequently considers that an extraordinary event has occurred between the close of the markets in which a Sub-Fund is invested and the time of valuation and that such an event will have an important impact on the value of the Fund's asset, the Board of Directors may instruct the Administrative Agent to adjust the NAV of the Units in such a way as to reflect the fair value of the assets at the time of valuation.

As far as possible, investment income, interest due, costs and other expenditures will be calculated daily. At the same time any liabilities of the Fund will be taken into account in accordance with the valuation established in good faith by the Management Company.

In the event that extraordinary circumstances render valuations as aforesaid impracticable or inadequate, the Management Company is authorized, prudently and in good faith, to follow other rules in order to achieve a fair valuation of the assets of the Fund.

The NAV of each Sub-Fund may be inspected at the registered office of the Management Company and the Administrative Agent.

Additional Provisions

If a Sub-Fund has more than one Class of Units in issue, the Administrative Agent shall calculate the NAV on each Valuation Day for each Class of Units by dividing the portion of the NAV of the relevant Sub-Fund attributable to a particular Class by the number of Units of such Class in the relevant Sub-Fund which are in issue at the time of the valuation on such Valuation Day. In

allocating assets and liabilities of the Fund between Sub-Funds (and within each Sub-Fund between the different Classes), subscriptions, redemptions, investments, profits and losses that relate to a specific Sub-Fund (or Class) will be attributed to such Sub-Fund and, within the Sub-Fund, to the relevant Class of Units. Where assets, income, capital appreciations, liabilities, expenses or capital depreciations cannot be attributed to a particular Sub-Fund, Class, they shall be attributed in proportion to the relative NAVs of the Sub-Funds, Classes as the Board of Directors, in its sole discretion, determine is the most appropriate method of attribution.

Temporary suspension of the calculation of NAV

After consultation with the Depositary, the Board of Directors is authorised to temporarily suspend the calculation of the NAV of Units, as well as the issue, redemption and conversion of Units in one or more Sub-Funds in the following cases:

- a) During any period when any market or stock exchange which is the principal market or stock exchange on which a substantial portion of the investments of one or more Sub-Funds is listed is closed, other than for ordinary holidays, or during which dealings are considerably restricted or suspended.
- b) When for any other exceptional circumstance the prices of any investments owned by the Fund attributable to any Sub-Fund cannot promptly or accurately be ascertained or when the determination of the net asset value per unit/share in the target UCITS and/or other UCIs is suspended.
- c) When the means of communication normally used to calculate the value of assets in one or more Sub-Funds are suspended or when, for any reason whatsoever, the value of an investment in one or more Sub-Funds cannot be calculated with the desired speed and precision.
- d) When restrictions on exchange or the transfer of capital prevent the execution of dealings for one or more Sub-Funds or when buying and selling transactions on their behalf cannot be executed at normal exchange rates.
- e) When factors which depend, among other things, on the political, economic, military and monetary situation and which evade the control, responsibility and means of action of the Fund, prevent the Fund from having access to the assets in one or more Sub-Funds and from calculating their NAVs in a normal or reasonable manner.
- f) When exceptional circumstances might adversely affect Unitholders' interests or in the case that significant requests for subscription, redemption or conversion are received, the Board of Directors reserves the right to set the value of Units in one or more Sub-Funds only after having sold the necessary securities, as soon as possible, on behalf of the Sub-Fund(s) concerned. In this case, subscriptions, redemptions and conversions that are simultaneously in the process of execution will be treated on the basis of a single NAV in order to ensure that all Unitholders having presented requests for subscription, redemption or conversion are treated equally.

Any such suspension of the calculation of the NAV shall be notified to the subscribers and Unitholders requesting redemption or conversion of their Units on receipt of their request for subscription, redemption or conversion.

Subscriptions and requests for redemption and conversion still outstanding may be withdrawn by written notification so long as such notification is received by the Fund before the suspension ends, unless the investors have withdrawn their applications for subscription, redemption or conversion in written notification received by the Registrar Agent or the distributor(s) before the end of the suspension period.

Suspended subscriptions, redemptions and conversions will be taken into account on the first Valuation Day after the suspension ends.

If necessary, the suspension shall be published in accordance with the provisions mentioned under section "Reports and Information for Unitholders".

14. DATA PROTECTION

DATA PROTECTION

In compliance with the provisions of the applicable Luxembourg data protection law, and as of 25 May 2018, of the Regulation n°2016/679 of 27 April 2016 on the protection of natural persons with regard to the processing of personal data and on the free movement of such data (the "Data Protection Law"), the Management Company, acting as a data controller (the "Data Controller"), collects, stores and processes by electronic or other means the data supplied by Unitholders at the time of their subscription and during the relationship between the Unitholders and the Data Controller for the purpose of fulfilling the services required by the Unitholders and complying with its legal obligations.

The data processed includes the name, the address, banking details, the commitment and/or invested amount of each Unitholder (or, if the Unitholder is a legal person, of its contact person(s) and/or beneficial owner(s)) (the "Personal Data"). All above-mentioned natural persons are hereafter referred to as the "Data Subjects".

Unitholders who are legal persons undertake and guarantee to process Personal Data and to supply such Personal Data to the Data Controller in compliance with the Data Protection Law, including, where appropriate, informing the Data Subjects of the contents of the present section, in accordance with Articles 12, 13 and/or 14 of the GDPR.

Unitholders may, at their discretion, refuse to communicate the Personal Data to the Management Company. In this event however the Management Company may reject its request for subscription for Units in the Fund.

Personal Data supplied by Unitholders is processed in order to enter into and execute the subscription of Units in the Fund, for the legitimate interests of the Management Company and to comply with the legal obligations imposed on the Management Company. In particular, the Personal Data supplied by Unitholders is processed for the purpose of (i) administering the holdings in the Fund; (ii) maintaining the register of Unitholders; (iii) processing acquisition, transfer and redemptions of Units and distribution to Unitholders; (iv) complying with applicable anti-money laundering rules and other legal obligations (including laws and regulations relating to FATCA or CRS), such as maintaining controls in respect of late trading and market timing practices.

In addition, Personal Data may be processed for the purpose of marketing. Each Data Subject has the right to object to the use of its his/her Personal Data for marketing purposes by writing to the Management Company as Data Controller at its registered office 4a, rue Albert Broschette, L-1246 Luxembourg, Grand Duchy of Luxembourg.

Personal Data may also be disclosed to the Luxembourg tax authorities, which in turn may, acting as Management Company, disclose it to foreign tax authorities.

The Personal Data may also be processed by the Management Company's data recipients (the "Recipients") which, in the context of the above mentioned purposes, refer to the Administrator and Registrar Agent, the Depositary and Paying Agent, other service providers, the Auditors and the Legal Advisors. The Recipients

may, under their own responsibility, disclose the Personal Data to their agents and/or delegates (the "Sub-Recipients"), which shall process the Personal Data for the sole purposes of assisting the Recipients in providing their services to the Management Company and/or assisting the Recipients in fulfilling their own legal obligations. The Recipients and Sub-Recipients may be located either inside or outside the European Union and, in particular, in Switzerland. Any transfer of Personal Data to the Recipients and Sub-recipients located in Switzerland relies on EU Commission decisions pursuant to which Switzerland is considered to offer an adequate level of protection for Personal Data. The Recipients and Sub-Recipients may, as the case may be, process the Personal Data as data processors (when processing the Personal Data upon instructions of the Management Company), or as distinct data controllers (when processing the Personal Data for their own purposes, namely fulfilling their own legal obligations). The Personal Data may also be transferred to third-parties such as governmental or regulatory agencies, including tax authorities, in accordance with applicable laws and regulations. In particular, Personal Data may be disclosed to the Luxembourg tax authorities which in turn may, acting as data controllers, disclose the same to foreign tax authorities.

In accordance with the conditions laid down by the Data Protection Law, the Data Subjects have rights to:

- access their Personal Data (i.e. the right to obtain from the Data Controller confirmation as to whether or not Data Subject's Personal Data are being processed, to be provided with certain information about the Data Controller's processing of their Personal Data, to access to that data, and to obtain a copy of the Personal data undergoing processing (subject to exceptions));
- rectify their Personal Data where it is inaccurate or incomplete (i.e. the right to require from the Data Controller that inaccurate or incomplete Personal Data be updated or corrected accordingly);
- object to the processing of their Personal Data (i.e. the right to object, on grounds relating to the Data Subject's particular situation, to processing of Personal Data which is based on the performance of a task carried out in the public interest or the legitimate interests of the Data Controller. The Data Controller shall stop such processing unless it can either demonstrate compelling legitimate grounds for the processing that override the Data Subject's interests, rights and freedoms or that it needs to process the data for the establishment, exercise or defence of legal claims);
- restrict the use of their Personal data (i.e. the right to obtain that, under certain circumstances, the processing of the Data Subject's Personal Data should be restricted to storage of such data unless their consent has been obtained);
- erasure of their Personal Data (i.e. the right to require that Personal Data be erased in certain circumstances, including where it is no longer necessary for the Data Controller to process this data in relation to the purposes for which it was collected or processed);
- data portability (i.e. the right to have the data transferred to the Data Subjects or another controller in a structured, commonly used and machine-readable format, where this is technically feasible).

In relation thereto, Unitholders may exercise the above rights by contacting the Management Company as Data Controller in this regard at its registered office 4a, rue Albert Borschette, L-1246 Luxembourg, Grand Duchy of Luxembourg.

Each Data Subject also has the right to lodge a complaint with the Luxembourg Data Protection Authority (CNPD) at the following address: 1, Avenue du Rock'n'Roll, L-4361 Esch-sur-Alzette, Grand Duchy of Luxembourg.

Personal Data shall not be retained for periods longer than those required for the purpose of their processing subject to any limitation periods imposed by law.

15. CHARGES AND EXPENSES BORNE BY THE FUND

The Fund shall bear the following costs, among others:

- Bank fees for securities transactions and all other related charges;
- Cost of extraordinary measures, in particular expert opinions or procedures designed to safeguard Unitholders' interests;
- Payments for paying agents and any representatives to be appointed abroad;
- Fees for the legal advisors and auditors;
- All taxes and duties levied on the Fund's assets and income, including the *taxe d'abonnement* on the net asset value;
- Cost of printing the Unit confirmations;
- Cost of producing, printing and depositing the administrative documents and memoranda with all registration authorities;
- Cost of producing, translating, printing, depositing and distributing the Prospectus, the annual and semi-annual report and other documents required by the law and the Management Regulations;
- Fees for the registration and maintenance of the Fund with all authorities;
- Cost of producing, distributing and publishing the information for Unitholders required by law or by regulatory practice;
- All processing fees;
- Any license fees payable to index providers;
- Fees for administrative, registrar and transfer agency services;
- Fees for depositary and paying agency services.

Furthermore, the following fees and expenses are payable out of the Sub-Fund's net assets:

- (a) annual management company fee amounting to a maximum of EUR 3,000 per Sub-Fund payable to the Management Company;
- (b) a management fee at a maximum rate as set out in the Data Sheets of the NAV of the Sub-Funds per annum, calculated daily and payable quarterly in arrears to (i) the Management Company, and/or – either directly or indirectly – to (ii) the Portfolio Manager, (iii) the distributors of the Units as may be designated by the Management Company, (iv) Swiss Life Asset Management AG. for its services rendered under the agreement relating to the provision of supporting services.

The cost of advertising and expenses not listed here incurred in direct connection with the distribution and sale of Units are not borne by the Fund.

All costs which can be imputed precisely to individual Sub-Funds will be charged to those Sub-Funds. All other costs will be charged to the Sub-Funds in proportion to their NAV where appropriate.

Expenses incurred in connection with the launch of additional Sub-Funds will be borne by the Sub-Funds in question.

Fees of the Depositary, Paying Agent, Registrar Agent and Administrative Agent

The Depositary and Paying Agent shall be entitled to a fee of a maximum of 0.05% calculated according to percentages of the respective average total net assets of the Sub-Funds during the month concerned and paid monthly out of the assets of the Fund.

The Administrative Agent shall be entitled to receive a fee of a maximum of 0.13% calculated as a percentage per year of the average total net assets of each Sub-Fund payable monthly out of the assets of the Fund.

The fees due to the Registrar Agent may amount up to a maximum of 0.06% per year, calculated on the basis of the Net Asset Value determined on the last Valuation Day of each month. Notwithstanding such fees, the Registrar Agent will receive customary banking fees per transaction.

Any reasonable disbursements and out-of-pocket expenses (including without limitation telephone, telex, cable and postage expenses) incurred by the Depositary, Registrar Agent and Administrative Agent and any depositary charges of banks and financial institutions to whom custody of assets of the Sub-Fund is entrusted, will be borne by the respective Sub-Fund.

Multiplication of Fees

The investment policy of certain Sub-Funds may consist of investing in UCITS and/or other open-ended or closed-ended UCIs.

The investment by a Sub-Fund in target fund may result in a duplication of some costs and expenses which will be charged to the Sub-Fund, i.e. setting up, filing and domiciliation costs, subscription, redemption or conversion fees, management fees, depositary fees, auditing and other related costs. For Unitholders of the said Sub-Fund, the accumulation of these costs may cause higher costs and expenses than the costs and expenses that would have been charged to the said Sub-Fund if the latter had invested directly.

The attention of investors is drawn to the fact that there may be duplication of subscription, redemption or conversion fees for those Sub-Funds investing in UCITS and/or UCIs. Nevertheless, it is understood that the Board of Directors will ensure that the minimum applicable is applied to the Fund.

If the Management Company acquires units of other UCIs that are managed directly or indirectly by the Management Company itself or a company with which it is related by virtue of common management or control or by way of a direct or indirect stake of more than 10% of the capital or votes ("Related Target Fund(s)"), no issuing or redemptions commissions of the Related Target Funds may be charged.

Each time a Sub-Fund invests a substantial proportion of its assets in UCITS and/or other UCIs, the relevant Data Sheet will disclose the maximum level of the management fees to which the Related Target Fund is submitted.

16. DISTRIBUTION POLICY

The Board of Directors may issue Capitalisation Units and Distribution Units.

Normally, the Board of Directors decides on the appropriation of net annual income based on the accounts as of 31 August of each year.

The Management Company reserves the right to disburse the net assets of Distribution Units of the individual Sub-Funds up to the limit of the statutory minimum capital amount. The type of distribution (net proceeds of the investments or capital) must be described in details in the Fund's annual reports. The following options exist:

- the Board of Directors may decide that the relevant portion of the net proceeds of the investments and the realised capital appreciation be distributed to Distribution Units after deducting the realised capital depreciation, and that the portion attributable to the Capitalisation Units be reinvested;
- the Board of Directors may distribute the relevant portion of the net proceeds of the investments and the realised capital appreciation while deducting the realised capital depreciation as interim dividends for Distribution Units, whereby corresponding amounts on Capitalisation Units are reinvested.

The dividends and interim dividends assigned to the Distribution Units are paid out in the Reference Currency of the relevant Sub-Fund at the date and place determined by the Board of Directors.

No distribution may be made if, as a result, the NAV of the Fund would fall below EUR 1,250,000.

No interest shall be paid on a distribution declared by the Fund and kept by it at the disposal of its beneficiary.

17. DURATION, LIQUIDATION AND AMALGAMATION OF THE FUND OR SUB-FUND

The Fund is established for an unlimited period of time. However, the Fund or any of the Sub-Funds may be terminated at any time by mutual agreement between the Management Company and the Depositary subject to prior notice. The Management Company may, in particular, decide such dissolution where the value of the net assets of the Fund or of any Sub-Fund has decreased to an amount determined by the Management Company to be the minimum level for the Fund or for such Sub-Fund EUR 1,000,000 to be operated in an economically efficient manner, or in case of a significant change of the economic or political situation, or a product rationalization would justify such liquidation.

The Management Company will only decide termination of any Sub-Fund established for a limited period of time before the maturity date to the extent that such early termination does not harm the interests of the Unitholders.

The liquidation of the Fund or of a Sub-Fund cannot be requested by a Unitholder.

The event leading to dissolution of the Fund must be announced by a notice published on the RESA. In addition, the event leading to dissolution of the Fund must be announced in at least two daily newspapers with appropriate distribution, at least one of which must be a Luxembourg newspaper. Such event will also be notified to the Unitholders in such other manner as may be deemed appropriate by the Management Company.

The decision relating to the liquidation of a Sub-Fund will be published in accordance with the requirements mentioned under section "Reports and Information for Unitholders".

The Management Company or, as the case may be, the liquidator it has appointed, will realise the assets of the Fund or of the relevant Sub-Fund(s) in the best interest of the Unitholders thereof, and upon instructions given by the Management Company and the Registrar Agent, the Depositary will distribute the net proceeds from such liquidation, after deducting all liquidation expenses relating thereto, amongst the Unitholders of

the relevant Sub-Fund(s) in proportion to the number of Units held by them. The Management Company may distribute the assets of the Fund or of the relevant Sub-Fund(s) wholly or partly in kind to any Unitholder(s) who agree(s) in compliance with the conditions set forth by the Management Company (including, without limitation, delivery of independent valuation report) and the principle of equal treatment of Unitholders.

At the close of liquidation of the Fund or any Sub-Fund, the proceeds thereof corresponding to Units not surrendered will be kept in safe custody with the Luxembourg *Caisse des Consignations* until the prescription period has elapsed.

Units may be redeemed, provided that Unitholders are treated equally.

The Management Company may, with the approval of the Depositary, decide to allocate the assets of any Sub-Fund to those of another existing Sub-Fund within the Fund or to another UCITS or to another sub-fund within such other UCITS (such existing Sub-Fund, other UCITS or sub-fund within such other UCITS being the "new Fund") (following a split or consolidation, if necessary, and the payment of the amount corresponding to any fractional entitlement to Unitholders) where the value of the net assets of any Sub-Fund has decreased to an amount determined by the Management Company to be the minimum level for such Sub-Fund to be operated in an economically efficient manner, or in case of a significant change of the economic or political situation. Such decision will be announced by a notice published in accordance with the requirements applicable for the case of liquidation of a Sub-Fund and notified to the Unitholders in such manner as may be deemed appropriate by the Management Company (and, in addition, the publication will contain information in relation to the new Fund), at least thirty (30) days before the last day, as provided for in the Law of 2010, for requesting redemption or, as the case may be, conversion of their Units, free of charge. After such period, Unitholders having not requested the redemption or, if applicable, conversion of their Units will be bound by the decision of the Management Company.

Any legal, advisory or administrative costs associated with the preparation and the completion of the merger shall not be charged to the merging or the receiving UCITS or to any of their unitholders.

18. TAXATION

The following summary is based on the law and practice currently applicable in the Grand Duchy of Luxembourg and is subject to changes therein.

General

The Fund is not subject to Luxembourg income tax (corporate income tax and municipal business tax) or net wealth tax in Luxembourg and dividends paid by the Fund are exempt from Luxembourgish dividend withholding tax.

Dividends and interest received by the Fund on its investments may be subject to non-recoverable withholding or other taxes in the countries of origin.

Taxation of the Fund

The Fund is, as a rule, liable in Luxembourg to a subscription tax (taxe d'abonnement) of 0.05% per annum, such tax being payable quarterly and calculated on the basis of the aggregate net assets of the Fund valued on the last day of the relevant calendar quarter.

A reduced tax rate of 0.01% per annum will be applicable to:

- UCIs and individual compartments of umbrella UCIs that are authorised as money market funds in accordance with Regulation (EU) 2017/1131 of the European Parliament and of the Council of 14 June 2017 on money market funds;

- individual sub-funds of UCIs with multiple sub-funds subject to the 2010 Law as well as to individual classes of securities issued within a UCI or within a sub-fund of a UCI with multiple sub-funds, provided that the securities of such sub-funds or classes are reserved for one or more institutional investors.

Under certain conditions, reduced rates ranging from 0.04% to 0.01% may also be available for the portion of the net assets of a UCI that are invested in sustainable economic activities (as defined in Article 3 of Taxonomy Regulation).

In order to benefit from the above exemptions, UCIs must separately disclose the value of the eligible net assets in their periodic subscription tax returns.

The following exemptions from subscription tax apply:

- the value of the assets represented by units held in other UCIs, provided that such units have already been subject to the subscription tax provided for by Article 174 of the 2010 Law, or by Article 68 of the law of 13 February 2007 on specialised investment funds, as amended, or by Article 46 of the law of 23 July 2016 on reserved alternative investment funds, as amended. In order to benefit from this exemption, UCIs which hold such units must indicate their value separately in their periodic subscription tax returns.
- UCIs (i) whose securities are reserved for institutional investors, and (ii) that are authorised as short-term money market funds in accordance with Regulation (EU) 2017/1131 of the European Parliament and of the Council of 14 June 2017 on money market funds, and (iii) that have obtained the highest possible rating from a recognised rating agency. If several classes of securities exist within the UCI, the exemption only applies to classes whose securities are reserved for institutional investors;
- UCIs as well as individual compartments of UCIs with multiple compartments whose securities are reserved for (i) institutions for occupational retirement pension or similar investment vehicles, set up on one or more employers' initiative for the benefit of their employees, (ii) companies of one or more employers investing the funds they hold, to provide retirement benefits to their employees, and (iii) investors in the context of a pan-European Personal Pension Product established under Regulation (EU) 2019/1238 of the European Parliament and of the Council of 20 June 2019 on a pan-European Personal Pension Product (PEPP). If there are several classes of securities within the UCI or compartment, the exemption applies only to those classes whose securities are reserved for these investors;
- UCIs as well as individual compartments of UCIs with multiple compartments whose main object is to invest in micro-finance institutions;
- UCIs as well as individual compartments of UCIs with multiple compartments (i) whose securities are listed or traded on at least one stock exchange or another regulated market, operating regularly, recognised and open to the public, and (ii) whose exclusive object is to replicate the performance of one or more indices. If several classes of securities exist within the UCI, the exemption only applies to classes fulfilling the condition sub-point (i); or
- UCIs and individual compartments of UCIs with multiple compartments which are approved as ELTIFs in accordance with the ELTIF Regulation.

In order to qualify for these exemptions, UCIs must separately disclose the value of the eligible net assets in their periodic subscription tax returns.

Taxation of Unitholders

It is expected that Unitholders in the Fund will be resident for tax purposes in many different countries. Consequently, no attempt is made in the Prospectus to summarise the taxation consequences for each investor of subscribing, converting, holding or redeeming or otherwise acquiring or disposing of Units in the Fund. These consequences will vary in accordance with the law and practice currently in force in a Unitholder's country of citizenship, residence, domicile or incorporation and with his personal circumstances.

Investors should inform themselves of, and when appropriate consult their professional advisors on, the possible tax consequences of subscribing for, buying, holding, converting, redeeming or otherwise disposing of Units under the laws of their country of citizenship, residence, or domicile or incorporation.

Exchange of information

Capitalized terms used in this section should have the meaning as set forth in the CRS Law, unless provided otherwise herein.

On 9 December 2014, the Council of the European Union adopted the Directive 2014/107/EU amending the Directive 2011/16/EU of 15 February 2011 on administrative cooperation in the field of taxation which now provides for an automatic exchange of financial account information between EU Member States ("**DAC Directive**"). The adoption of the aforementioned directive implements the OECD's common reporting standard ("**CRS**") and generalizes the automatic exchange of information within the European Union as of 1 January 2016.

In addition, Luxembourg signed the OECD's multilateral competent authority agreement ("**Multilateral Agreement**") to automatically exchange information under the CRS. Under this Multilateral Agreement, Luxembourg will automatically exchange financial account information with other participating jurisdictions as of 1 January 2016. The law dated 18 December 2015 CRS-Law implements this Multilateral Agreement, jointly with the DAC Directive ("**the CRS-Law**") introducing the CRS in Luxembourg law.

Under the terms of the CRS-Law, the Fund may be required to annually report to the Luxembourg tax authority ("**LTA**"), the name, address, Member State(s) of residence, TIN(s), as well as the date and place of birth of i) each Reportable Person that is an Account Holder within the meaning of CRS-Law, ii) and, in the case of a Passive NFE within the meaning of the CRS-Law, of each Controlling Person(s) that is a Reportable Person. Such information may be disclosed by the LTA to foreign tax authorities.

Additionally, the Management Company is responsible for the processing of personal data and each Unitholder has a right to access the data communicated to the Luxembourg tax authorities and to correct such data (if necessary). Any data obtained by the Management Company is to be processed in accordance with the applicable data protection legislation.

The Fund's ability to satisfy its reporting obligations under the CRS-Law will depend on each Unitholder providing the Fund with the information, including information regarding direct or indirect owners of each Unitholder, along with the required supporting documentary evidence. Upon request of the Fund, each Unitholder shall agree to provide the Fund such information,

Although the Fund will attempt to satisfy any obligation imposed on it to avoid any taxes or penalties imposed by the CRS-Law, no assurance can be given that the Fund will be able to satisfy these obligations. If the Fund becomes subject to a tax or penalty as result of the CRS-Law, the value of the Interest held by the Unitholders may suffer material losses.

Any Unitholder that fails to comply with the Fund's documentation requests may be charged with any taxes and penalties imposed on the Fund or the Manager attributable to such Unitholder's failure to

provide the information and the Fund may, in its sole discretion, redeem the Interest of such Unitholder.

Unitholders should consult their own tax advisor or otherwise seek professional advice regarding the impact of the CRS-Law on their investment.

Value added tax

In Luxembourg, regulated investment funds such as FCPs have the status of taxable persons for value added tax ("**VAT**") purposes. Accordingly, the Fund and its Management Company are considered in Luxembourg as a single taxable person for VAT purposes without any input VAT deduction right. A VAT exemption applies in Luxembourg for services qualifying as fund management services. Other services supplied to the Fund and/or Management Company could potentially trigger VAT and require the VAT registration of the Fund and/or Management Company in Luxembourg. As a result of such VAT registration, the Fund will be in a position to fulfil its duty to self-assess the VAT regarded as due in Luxembourg on taxable services (or goods to some extent) purchased from abroad.

No VAT liability arises in principle in Luxembourg in respect of any payments by the Fund to its Unitholders, to the extent such payments are linked to their subscription to Units and do not constitute the consideration received for taxable services supplied.

Foreign Account Tax Compliance Act "**FATCA**"

Capitalized terms used in this section should have the meaning as set forth in the IGA (as defined below), unless provided otherwise herein.

As part of the process of implementing FATCA, Luxembourg has entered into a Model I Intergovernmental Agreement ("**IGA**"), implemented by the Luxembourg law dated 24 July 2015 which requires Financial Institutions located in Luxembourg to report, when required, information on Financial Accounts held by U.S. Specified Persons (within the meaning of the IGA) and non-U.S. financial institutions that do not comply with FATCA and, if any, to the competent authorities.

Being established in Luxembourg and subject to the supervision of the CSSF in accordance with the Law of 2010, the Fund will be treated as a Foreign Financial Institution (within the meaning of the IGA).

This status includes the obligation of the Fund to regularly obtain and verify information on all of its Unitholders. Upon request of the Fund, each Unitholder shall agree to provide certain information, including, in case of a Non-Financial Foreign Entity ("**NFFE**") (within the meaning of the IGA), the direct or indirect owners above a certain threshold of ownership of such NFFE, along with the required supporting documentation. Similarly, each Unitholder shall agree to actively provide to the Fund within thirty days upon a request from the Fund or from the respective depository bank of the Fund any information that would affect its status, as for instance a new mailing address or a new residency address.

FATCA and the IGA may result in the obligation for the Fund to disclose the name, address and taxpayer identification number (if available) of the Unitholder as well as information such as account balances, income and gross proceeds (non-exhaustive list) to the Luxembourg tax authorities (*administration des contributions directes*) under the terms of the IGA. Such information will be onward reported by the Luxembourg tax authorities to the U.S. Internal Revenue Service.

Additionally, the Fund is responsible for the processing of personal data and each Unitholder has a right to access the data communicated to the Luxembourg tax authorities and to correct such data (if necessary). Any data obtained by the Fund is to be

processed in accordance with the applicable data protection legislation.

Although the Fund will attempt to satisfy any obligation imposed on it to avoid imposition of FATCA withholding tax, no assurance can be given that the Fund will be able to satisfy these obligations. If the Fund becomes subject to a withholding tax as result of the FATCA regime, the value of the Units held by the Unitholders may suffer material losses. A failure for the Fund to obtain such information from each Unitholder and to transmit it to the Luxembourg tax authorities may trigger the 30% withholding tax to be imposed on payments of U.S. source income and on proceeds from the sale of property or other assets that could give rise to U.S. source interest and dividends.

Any Unitholder that fails to comply with the Fund's documentation requests may be charged with any taxes imposed on the Fund attributable to such Unitholder's failure to provide the information and the Fund may, in its sole discretion, redeem the Units of such Unitholder.

Unitholders who invest through intermediaries are reminded to check if and how their intermediaries will comply with this U.S. withholding tax and reporting regime.

Unitholders should consult a U.S. tax advisor or otherwise seek professional advice regarding the above requirements.

19. REPORTS AND INFORMATION FOR UNITHOLDERS

Reports

Annual reports approved by the auditors, and semi-annual reports are available to Unitholders at the registered office of the Management Company, the distributors, on the website www.swisslife-am.com and / or other locations designated by the former.

Annual reports shall be made available within four (4) months from the end of the fiscal year.

Semi-annual reports shall be made available within two (2) months from the end of the six-month period.

These periodic reports contain all the financial information relating to each of the Sub-Funds, the composition of and changes in their assets, as well as the consolidated financial position of all Sub-Funds, stated in EUR and based on the exchange rates in force on the day of consolidation.

Notice to Unitholders

Any other information intended for Unitholders will be published on the RESA in Luxembourg, if such publication is prescribed in the Management Regulations or in this Prospectus. Information may also be published in the Luxemburger Wort.

Publication of Unit Prices

The NAV, issue price and redemption price of Units in each Sub-Fund are available at the registered office of the Administrative Agent, the distributors and the Management Company.

20. BENCHMARK REGULATION

Pursuant to Regulation (EU) No 2016/1011 of the European Parliament and of the Council of 8 June 2016 on indices used as benchmarks in financial instruments and financial contracts or to measure the performance of investment funds and amending Directives 2004/48/EC and 2014/17/EU and Regulation (EU) No 596/2014 (the "Benchmark Regulation"), the Management Company can only use a benchmark or a combination of

benchmarks if the benchmark is provided by an administrator located in the European Union, or in a third country subject to certain equivalence, recognition or endorsement conditions, and which is included in a register maintained by the European Securities and Markets Authority ("ESMA").

EU Benchmark administrators were required to apply for authorisation or registration as a benchmark administrator under the Benchmark Regulation before 1 January 2020.

The benchmarks used by the Sub-Funds are provided by authorised benchmark administrators included in the register of administrators and benchmarks established and maintained by the ESMA pursuant to article 36 of the Benchmark Regulation.

In accordance with the Benchmark Regulation, the Management Company has established and maintains benchmark written contingency plans setting out the actions which the Management Company would take in the event that a benchmark index used by a Sub-Fund materially changes or ceases to be provided (the "Benchmark Contingency Plans"). Details of the up-to-date Benchmark Contingency Plans are available free of charge to Unitholders and investors upon request at the registered office of the Management Company.

Investors should note that the actions that may be taken by the Management Company on the basis of the Benchmark Contingency Plans in case a benchmark index used by a Sub-Fund materially changes or ceases to be provided may lead to a change of, among others, the name, the investment objectives and/or the investment policies of the relevant Sub-Fund, or the benchmark used for the calculation of a performance fee (if any), particularly if the benchmark index is changed. Alternatively, the Management Company may decide to terminate the relevant Sub-Fund or to merge or otherwise amalgamate the assets of the relevant Sub-Fund with another Sub-Fund of the Fund or another UCITS. Any such actions and the related amendments to this Prospectus will be notified to the Unitholders and will be implemented in accordance with Luxembourg law, the requirements of the CSSF (as applicable) and the terms of this Prospectus.

For the avoidance of doubt, none of the Sub-Funds will be listed on a stock exchange.

21. CONFLICT OF INTEREST, BEST EXECUTION, EXERCISE OF VOTING RIGHTS, REMUNERATION

Conflict of Interests

The Management Company is in charge of implementing and maintaining a policy, procedures and measures preventing or managing conflicts of interest related to the Fund, as further specified in the operating arrangements designed for that purpose within the Management Company.

The Management Company will in particular be in charge of:

- Identifying
- Managing
- Preventing
- Monitoring
- Disclosing

any conflicts of interests that arise in the course of managing the Fund, with and between Investors, in order to avoid detrimental effects from conflicts of interest on the interests and welfare of the Fund and its Investors and to ensure that the Fund and its Investors are treated fairly.

The Management Company will evaluate the existence of any ongoing conflict of interest, the likelihood of occurrence of such

conflicts, their associated risks and their importance and report their findings and relevant information to the Fund. The Management Company shall not make any investment or divestment decision in case of an identified conflict of interest if the Management Company has not received confirmation from the Board of Directors. The Management Company will notify the Investors of all relevant conflicts of interest if the Management Company deems such disclosure in the best interest of the Investors. Material conflicts of interest having an impact on the Investors will always be communicated without undue delay.

The Management Company or any of its Affiliates may from time to time provide other professional services to the Fund not listed in this Prospectus. Any such services shall be provided at prevailing market rates for like services under a professional service agreement (which shall include fee ranges) and a project specific contract (specifying the terms of reference and fees applicable in respect of the specific entity for which services are to be provided).

For the avoidance of doubt, no contract or other transaction between the Fund and any other company or firm shall be affected or invalidated by the sole fact that any one or more of the members of the Board of Directors, the Management Company of its Affiliates is interested in, or is a director, manager, associate, officer or employee of such other company or firm.

Potential conflict of interests will be managed according to the Management Company's conflict of interests policy. Any conflict of interest shall be resolved in the best interest of the Investors.

Best Execution

The Management Company acts in the best interest of the Fund or the Investors when executing investment decisions. For that purpose it takes all reasonable steps to obtain the best possible result for the Fund or the Investors, taking into account price, costs, speed, likelihood of execution and settlement, order size and nature, or any other consideration relevant to the execution of the order (best execution) except in cases where taking into account the type of assets, the best execution is not relevant.

The Management Company shall execute orders in accordance with an execution policy available for Investors at the registered office of the Fund and/or upon request.

Exercise of Voting Rights

The Management Company has developed adequate and effective strategies for determining when and how any voting rights held in the Fund's portfolios are to be exercised to the exclusive benefit of the Fund and its Investors.

The strategy for the exercise of voting shall include but will not be limited to the following measures and procedures for:

- monitoring relevant corporate actions;
- ensuring that the exercise of voting rights is in accordance with the investment objective and strategy of the Fund;
- preventing or managing any conflicts of interest arising from the exercise of voting rights.

Remuneration

The Management Company has established a remuneration policy which shall be applicable to all identified staff members as specified

in the UCITS Regulation and the ESMA Guidelines 2016/575 and 2016/411. Any relevant disclosures shall be made in the financial statements, if applicable, in accordance with the 2010 Law.

22. GENERAL INFORMATION

Fiscal year

The fiscal year runs from 1st September of each year to 31 August of the next following year.

The combined accounts of the Fund are maintained in EUR.

Official language

The official language of this Prospectus is English, with the reservation that the Management Company may, nonetheless, on behalf of the Fund, consider translations in the languages of those countries where the Fund's Units are offered and sold as applicable.

Applicable Law

The Management Regulations are governed by Luxembourg law.

The English version of the Management Regulations shall prevail. However, the Management Company and the Depositary may recognise translations into the languages of countries in which Units are offered and sold as binding on themselves and on the Fund in respect of Units sold to investors in these countries.

In the event of legal disputes between Unitholders, the Management Company and the Depositary, Luxembourg law shall apply.

Documents available

Investors may, upon request, obtain the copy of the following documents from the Management Company:

- a) The Management Company's articles of incorporation;
- b) The Management Regulations;
- c) The Fund's annual and semi-annual reports;
- d) This Prospectus;
- e) The relevant KIDs;
- f) The Portfolio Management Agreement;
- g) The Depositary and Paying Agency Agreement;
- h) The Administrative Agreement.

Procedures relating to the Management Company which Luxembourg laws and regulations require to be made available to investors for consultation (including on complaints handling, conflict of interest and voting rights) may be obtained from the Management Company upon request free of charge and/or are available on website <https://www.swisslife-am.com/#Contact>.

APPENDIX I – SPECIAL CONSIDERATIONS ON RISKS

(1) Special considerations on risks for Sub-Funds investing in fixed income and equity securities and in financial derivative instruments

A) Investments in debt securities

Among the principal risks of investing in debt securities are the following:

- interest rate risk (the risk that the value of the relevant Sub-Fund's investments will fall if interest rates rise);
- credit risk (the risk that companies in which the relevant Sub-Fund invests, or with which it does business, will fail financially, and be unwilling or unable to meet their obligations to the Sub-Fund);
- market risk (the risk that the value of the relevant Sub-Fund's investments will fall as a result of movements in financial markets generally); and
- management risk (the risk that the relevant Sub-Fund's investment techniques will be unsuccessful and may cause the Sub-Fund to incur losses).

Interest rate risk generally is greater for Sub-Funds that invest in fixed income securities with relatively long maturities than for Sub-Funds that invest in fixed income securities with shorter maturities.

B) Investing in equity securities

Investing in equity securities may offer a higher rate of return than those in short term and longer term debt securities. However, the risks associated with investments in equity securities may also be higher, because the investment performance of equity securities depends upon factors which are difficult to predict. Such factors include the possibility of sudden or prolonged market declines and risks associated with individual companies. The fundamental risk associated with any equity portfolio is the risk that the value of the investments it holds might decrease in value. Equity security values may fluctuate in response to the activities of an individual company or in response to general market and/or economic conditions. Historically, equity securities have provided greater long-term returns and have entailed greater short-term risks than other investment choices.

C) Exchange rates

Some Sub-Funds are invested in securities denominated in a number of different currencies other than the Reference Currency in which the Sub-Funds are denominated; changes in foreign currency exchange rates will affect the value of Units held in such Sub-Funds.

D) Small capitalisation companies

Investments in smaller capitalisation companies may involve greater risks such as markets and financial or managerial resources. Less frequently traded securities may be subject to more abrupt price movements than securities of larger capitalisation companies.

E) New markets

Newly created companies may not have sufficient financial support at their disposal in the years following their incorporation. Very often there shall be no distribution of dividends to the extent

that the income of such companies is capitalised to finance the development of those companies.

F) Investments in financial instruments

Substantial risks are involved in investing in the various securities and instruments that some Sub-Funds intend to purchase and sell. Prices may be influenced by, among other factors; changing supply and demand relationships; the domestic and foreign policies of governments, particularly policies to do with trade or with fiscal and monetary matters; political events, particularly elections and those events that may lead to a change in government; the outbreak of hostilities, even in an area in which the Fund has not invested; economic developments, particularly those related to balance of payments and trade, inflation, money supply, the issuance of government debt, changes in official interest rates, monetary revaluations or devaluations and modifications in financial market regulations.

Further, these Sub-Funds may have the majority of their assets invested in derivatives and other geared instruments; an extremely high degree of leverage is typical for derivatives trading accounts and, as a result, a relatively small price movement in the underlying security, commodity or currency may result in substantial losses or profits.

As a result of the nature of the investment activities, the results of the operations for these Sub-Funds may fluctuate substantially from period to period. Accordingly, investors should understand that the results of a particular period would not necessarily be indicative of results in future periods.

G) Risks of options trading

In seeking to enhance performance or hedge assets, the Sub-Funds may use options.

Both the purchasing and selling of call and put options entail risks. Although an option buyer's risk is limited to the amount of the purchase price of the option, an investment in an option may be subject to greater fluctuation than an investment in the underlying securities. In theory, an uncovered call writer's loss is potentially unlimited, but in practice the loss is limited by the term of existence of the call. The risk for a writer of a put option is that the price of the underlying security may fall below the exercise price.

Option markets are extremely volatile and the risk to incur a loss in relation to such markets is very high.

H) Investing in futures is volatile and involves a high degree of leverage

Futures markets are highly volatile markets. The profitability of the Sub-Funds will partially depend on the ability of the Portfolio Manager to make a correct analysis of the market trends, influenced by governmental policies and plans, international political and economic events, changing supply and demand relationships, acts of governments and changes in interest rates. In addition, governments may from time to time intervene on certain markets, particularly currency markets. Such interventions may directly or indirectly influence the market. Given that only a small amount of margin is required to trade on futures markets, the operations of the managed futures portion of the Sub-Funds shall be characterised by a high degree of leverage. As a consequence, a relatively small variation of the price of a futures contract may result in substantial losses for the concerned Sub-Fund and a correlated reduction of its NAV.

I) Futures markets may be illiquid

Most futures markets limit fluctuation in futures contracts prices during a single day. When the price of a futures contract has increased or decreased by an amount equal to the daily limit, positions can be neither taken nor liquidated unless the Portfolio Manager is willing to trade at or within the limit. In the past futures contracts prices have exceeded the daily limit for several consecutive days with little or no trading. Similar occurrences could prevent the concerned Sub-Fund from promptly liquidating unfavourable positions and thus subject the Sub-Fund to substantial losses. In addition, even if the prices do not get close to such limits, the Sub-Fund may be in a position not to obtain satisfying prices if the volumes traded on the market are insufficient to meet liquidation requests. It is also possible that a stock exchange, the Commodity Futures Trading Commission in the United States or another similar institution in another country suspends the listing of a particular contract, instructs the immediate liquidation of the contract or limits transactions on a contract to the sole transactions against delivery.

J) Investments in OTC Markets

Some Sub-Funds may also participate in OTC markets. When participating in the OTC markets these Sub-Funds will be exposed to:

- market risk, which is the risk of adverse movements in the value of the relevant security;
- liquidity risk, which is the risk that a party will be unable to meet its current obligations. Participants to OTC markets are not protected against defaulting counterparts in their transactions because such contracts are not guaranteed by a clearing house;
- managerial risk, which is the risk that a party's internal risk management system is inadequate or otherwise may fail to properly control the risks of transacting in the relevant security; and
- pricing risk, which is the risk of an improper pricing of the relevant security.

K) Market Risk

The investments of the Sub-Funds are subject to normal market fluctuations and the risks inherent in equity securities and similar instruments and there can be no assurances that appreciation will occur. The price of Units can go down as well as up and investors may not realise their initial investment. Although the Board of Directors will attempt to restrict the exposure of the Fund to market movements, there is no guarantee that this strategy will be successful.

L) Liquidity Risk

Investments made by some Sub-Funds may be illiquid.

In particular, it may not always be possible to execute a buy or sell order on exchanges at the desired price or to liquidate an open position due to market conditions including the operation of daily price fluctuation limits. If trading on an exchange is suspended or restricted, these Sub-Funds may not be able to execute trades or close out positions on terms which the Board of Directors believes are desirable.

In addition, swap contracts are OTC contracts with a single counterparty and may as such be illiquid. Although swap contracts may be closed out to realise sufficient liquidity, such closing out may not be possible or very expensive in extreme market conditions.

There is consequently no assurance that the liquidity of such investments will always be sufficient to meet redemption requests as and when made. Any lack of liquidity may affect the liquidity of

the Units and the value of its investments. For such reasons the treatment of redemption requests may be postponed in exceptional circumstances including if a lack of liquidity may result in difficulties in determining the NAV of the Units and consequently a suspension of issues and redemptions.

M) Warrants

Investors should be aware of, and prepared to accept, the greater volatility in the prices of warrants which may result in greater volatility in the price of Units. Thus, the nature of the warrants will involve Unitholders in a greater degree of risk than is the case with conventional securities.

N) Certain financial instruments and investment techniques

a) OTC financial derivative instruments

In general, there is less government regulation and supervision of transactions in OTC markets than of transactions entered into on organised exchanges. OTC derivatives are executed directly with the counterparty rather than through a recognised exchange and clearing house. Counterparties to OTC derivatives are not afforded the same protections as may apply to those trading on recognised exchanges, such as the performance guarantee of a clearing house.

The principal risk when engaging in OTC financial derivative instruments (such as non-exchange traded options, forwards, swaps or contracts for difference) is the risk of default by a counterparty who has become insolvent or is otherwise unable or refuses to honour its obligations as required by the terms of the instrument. OTC derivatives may expose a Sub-Fund to the risk that the counterparty will not settle a transaction in accordance with its terms, or will delay the settlement of the transaction, because of a dispute over the terms of the contract (whether or not bona fide) or because of the insolvency, bankruptcy or other credit or liquidity problems of the counterparty. Counterparty risk is generally mitigated by the transfer or pledge of collateral in favour of the Sub-Fund.

Investments in OTC derivatives may be subject to the risk of differing valuations arising out of different permitted valuation methods. Although the Management Company has implemented appropriate valuation procedures to determine and verify the value of OTC derivatives, certain transactions are complex and valuation may only be provided by a limited number of market participants who may also be acting as the counterparty to the transactions. Inaccurate valuation can result in inaccurate recognition of gains or losses and counterparty exposure.

Unlike exchange-traded derivatives, which are standardised with respect to their terms and conditions, OTC derivatives are generally established through negotiation with the other party to the instrument. While this type of arrangement allows greater flexibility to tailor the instrument to the needs of the parties, OTC derivatives may involve greater legal risk than exchange-traded instruments, as there may be a risk of loss if the agreement is deemed not to be legally enforceable or not documented correctly. There also may be a legal or documentation risk that the parties may disagree as to the proper interpretation of the terms of the agreement. However, these risks are generally mitigated, to a certain extent, by the use of industry-standard agreements such as those published by the International Swaps and Derivatives Association (ISDA).

b) Securities lending, repurchase and reverse repurchase transactions

Securities lending, repurchase or reverse repurchase transactions involve certain risks and there can be no assurance that the objective sought to be obtained from the use of such techniques will be achieved.

The principal risk when engaging in securities lending, repurchase or reverse repurchase transactions is the risk of default by a counterparty who has become insolvent or is otherwise unable or refuses to honour its obligations to return securities or cash to the Sub-Fund as required by the terms of the transaction. Counterparty risk is generally mitigated by the transfer or pledge of collateral in favour of the Sub-Fund. However, there are certain risks associated with collateral management, including difficulties in selling collateral and/or losses incurred upon realization of collateral, as described below.

Securities lending, repurchase or reverse repurchase transactions also entail liquidity risks due, inter alia, to locking cash or securities positions in transactions of excessive size or duration relative to the liquidity profile of the Sub-Fund or delays in recovering cash or securities paid to the counterparty. These circumstances may delay or restrict the ability of the Fund to meet redemption requests. The Sub-Fund may also incur operational risks such as, inter alia, non-settlement or delay in settlement of instructions, failure or delays in satisfying delivery obligations under sales of securities, and legal risks related to the documentation used in respect of such transactions as well as custody risk.

c) Collateral management

Counterparty risk arising from investments in OTC financial derivative instruments and securities lending, repurchase and reverse repurchase agreements is generally mitigated by the transfer or pledge of collateral in favour of the Sub-Fund. However, transactions may not be fully collateralised. Fees and returns due to the Sub-Fund may not be collateralised. If a counterparty defaults, the Sub-Fund may need to sell non-cash collateral received at prevailing market prices. In such a case the Sub-Fund could realise a loss due, inter alia, to inaccurate pricing or monitoring of the collateral, adverse market movements, deterioration in the credit rating of issuers of the collateral or illiquidity of the market on which the collateral is traded. Difficulties in selling collateral may delay or restrict the ability of the Sub-Fund to meet redemption requests.

A Sub-Fund may also incur a loss in reinvesting cash collateral received, where permitted. Such a loss may arise due to a decline in the value of the investments made. A decline in the value of such investments would reduce the amount of collateral available to be returned by the Sub-Fund to the counterparty as required by the terms of the transaction. The Sub-Fund would be required to cover the difference in value between the collateral originally received and the amount available to be returned to the counterparty, thereby resulting in a loss to the Sub-Fund.

O) Sustainability (related) Risks and its likely impact on the performance

Sustainability Risks may have a significant impact on some of the other risk types described in this section and contribute as a factor to the materiality of these risk types.

In addition to that, Swiss Life Asset Managers Luxembourg distinguishes sustainability risks in accordance with the concept of "double materiality":

- The outside-in perspective focusses on the investments' exposure to sustainability risks, for example harmful physical effects of climate change on the invested assets.
- The inside-out perspective considers the impact of the investments to public sustainable goals such as for example the Paris Agreement.

While ESG factors can have a positive or negative impact on the value of the assets managed, Swiss Life Asset Managers focuses on the latter in line with the prudential approach to risk management. Consequently, where possible or allowed and appropriate, the identification of ESG factors that may have a

negative impact on the invested assets as well as the determination of the impact is part of Swiss Life Asset Managers' fiduciary duties as an asset manager.

An issuer that engages in activities that seriously undermine one or more of the sustainability factors is exposed, among others, to reputational and market risk that could adversely affect the value of financial instruments issued by it and held by the fund. Exposure to this risk could therefore result in a decrease in the net asset value.

Such risk is also linked to climate-related events resulting from climate change (called physical risks) or to the society's response to climate change (called transition risks), which may result in unanticipated losses that could affect the Sub-Funds' investments and financial condition. Social events (e.g. inequality, inclusiveness, labour relations, investment in human capital, accident prevention, changing customer behaviour, etc.) or governance shortcomings (e.g. recurrent significant breach of international agreements, bribery issues, products quality and safety, selling practices, etc.) may also translate into Sustainability Risks.

The impacts following the occurrence of a Sustainability Risk may be numerous and vary depending on the specific risk, region and asset class. As all sub funds are in principal geographically, sectorial and asset class diversified, there is no particular concentration amplifying the risk.

In general, where a Sustainability Risk occurs in respect of an asset, there will be a negative impact on, or entire loss of, its value.

(2) Special considerations on risks for Sub-Funds investing in other UCITS and/or UCIs

Investment in the said Sub-Funds is subject to different and greater risks than a traditional investment. Investors must be aware that the redemption price of Units in the Fund may be lower than the amount invested on subscription.

The risks discussed below should not be construed as being an exhaustive list of all the risks associated with an investment in units of the Sub-Funds which invest in other UCITS and/or UCIs.

A) New UCITS and/or UCIs

UCITS and/or UCIs in which some Sub-Funds invest may have been recently set up and have little or no performance record as proof of the efficiency of their management. The Board of Directors intends to reduce this risk by investing in recently set up UCITS and/or UCIs selected for the quality and past experience of their respective managers.

B) Concentration

Although the Portfolio Manager intends to monitor investments and transactions effected by the UCITS and/or UCIs in which the Fund has invested part of its assets, investment decisions are normally taken independently at the level of these undertakings. It may be possible that some managers take positions simultaneously in the same security, or in securities of the same sector or country or issued in the same currency, or in the same commodity. It is also possible that an undertaking for collective investment buys an instrument at the same time another decides to sell it. There is no guarantee that the selection of managers of underlying UCITS and/or UCIs will effectively result in a diversification of investment styles and that the positions of underlying UCITS and/or UCIs would always be coherent.

C) Lack of liquidity of UCIs

Sub-Funds which are investing principally in other UCIs must make sure that their portfolios of target fund present appropriate liquidity features to enable them to meet their obligation to repurchase their shares/units. Therefore, the Board of Directors will take care to select UCIs which offer investors the possibility of presenting their shares or units for redemption within reasonable time periods. However, there is no guarantee that the market liquidity for investments in such UCIs will always be sufficient to satisfy redemption requests favourably at the exact time they are submitted.

Any absence of liquidity may have an impact on the liquidity of the Fund's Units and the value of its investments.

For this reason, the processing of redemption requests may be postponed under exceptional circumstances, including in the case of an absence of liquidity which may make calculation of the NAV of the Fund's Units difficult and, consequently, lead to the suspension of the issue and redemption of the Fund's Units.

D) Conflicts of interest

Conflicts of interest may arise between the Management Company and the persons or entities involved as advisers in the management of the Fund and/or the managers of UCITS and/or UCIs in which the Fund invests. These managers of UCITS and/or UCIs generally manage the assets of other clients who make similar investments to those made on behalf of the UCITS and/or UCIs in which the Fund invests. Consequently, such clients may compete for the same transactions or investments. Although the investments or opportunities offered to each client are generally allocated on an equitable basis, these sharing procedures may, on occasion, have a negative impact on the price paid or received for investments, or on the volume of positions acquired or settled.

Conflicts may also arise due to the other services offered by a Swiss Life Entity, especially management or deposit services, or other services rendered to the manager, other clients and to some UCITS and/or UCIs in which the Fund invests. Similarly, Directors may also be directors of UCITS and/or UCIs in which the Fund invests and this may cause a conflict of interest between such UCITS and/or UCIs and the Fund.

Generally speaking, conflicts of interest may exist between the best interests of the Fund and the interests of the Portfolio Manager, its affiliated companies and its directors, to generate fees or to realise other profits. Should any such conflict of interest arise, the Directors will attempt to resolve the matter equitably.

Moreover, some managers of UCITS and/or UCIs in which the Fund invests have a holding in their own undertaking for collective investment. Conflicts of interest cannot be excluded at the UCITS and/or UCIs level.

E) Performance fee

Due to the specialist nature of the UCITS and/or UCIs in which the Fund invests, a certain number, indeed most of them, may provide for payment of performance fees. This may result in a Sub-Fund, whose assets are invested in several UCITS and/or UCIs, having to pay performance fees in relation to some of these investments even if the NAV of the Sub-Fund has fallen due to the poor performance of some other UCITS and/or UCIs in which the Sub-Fund has invested. Furthermore, the fact that the Portfolio Managers of certain UCITS and/or UCIs in which the Fund invests are entitled to receive a performance fee could lead them to take positions that involve more risk than they would otherwise have accepted.

F) Fee structure

The Fund may have to bear the costs of its management and the fees paid to the Portfolio Manager, the Depositary and other service providers, as well as a proportionate share of the fees paid by the UCITS and/or UCIs (in which the Fund invests) to their managers or other service providers. Consequently, the operating costs of the Fund may be higher as a percentage of the NAV than those found in other investment vehicles. Moreover, some strategies deployed in UCITS and/or UCIs require frequent changes in positions and a substantial portfolio turnover. This may involve significantly higher brokerage fees than in other UCITS and/or UCIs of comparable size.

G) Multiplication of costs

The investment by a Sub-Fund in other UCITS and/or UCIs may result in a duplication of some costs and expenses which will be charged to the Sub-Fund, i.e. setting up, filing and domiciliation costs, subscription, redemption or conversion fees, management fees, depositary fees, auditing and other related costs. For Unitholders of the said Sub-Fund, the accumulation of these costs may cause higher costs and expenses than the costs and expenses that would have been charged to the said Sub-Fund if the latter had invested directly.

The Fund will however avoid any irrational multiplication of costs and expenses to be borne by the Unitholders.

H) Real Estate Investments

Certain Sub-Funds may have an exposure to the real estate market through the investment in units or shares UCIs investing in real estate and/or in securities of real estate-related companies.

There are special risk considerations associated with real estate investments. These risks include: the cyclical nature of real estate values, risk related to general and local economic conditions, overbuilding and increased competition, increases in property taxes and operating expenses, demographic trends and variations in rental income, changes in zoning laws, casualty or condemnation losses, environmental risks, regulatory limitations on rents, changes in neighbourhood values, related party risks, changes in the appeal of properties to tenants, increases in interest rates and other real estate capital market influences. Generally, increases in interest rates will increase the costs of obtaining financing, which could directly and indirectly decrease the value of the relevant Sub-Fund's investment.

(3) Special considerations on risks for Sub-Funds employing techniques and instruments for efficient portfolio management

Securities Lending, Repurchase or Reverse Repurchase Transactions

The principal risk when engaging in securities lending, repurchase or reverse repurchase transactions is the risk of default by a counterparty who has become insolvent or is

otherwise unable or refuses to honour its obligations to return securities or cash to the Sub-Fund as required by the terms of the transaction. Counterparty risk is mitigated by the transfer or pledge of collateral in favour of the Sub-Fund. However, securities lending, repurchase or reverse repurchase transactions may not be fully collateralised. Fees and returns due to the Sub-Fund under securities lending, repurchase or reverse repurchase transactions may not be collateralised. In addition, the value of collateral may decline in between collateral rebalancing dates or may be incorrectly determined or monitored. In such a case, if a counterparty defaults, the Sub-Fund may need to sell non-cash collateral received at prevailing market prices, thereby resulting in a loss to the Fund.

A Sub-Fund may also incur a loss in reinvesting cash collateral received. Such a loss may arise due to a decline in the value of the investments made. A decline in the value of such investments would reduce the amount of collateral available to be returned by the Sub-Fund to the counterparty as required by the terms of the transaction. The Sub-Fund would be required to cover the difference in value between the collateral originally received and the amount available to be returned to the counterparty, thereby resulting in a loss to the Sub-Fund.

Securities lending, repurchase or reverse repurchase transactions also entail operational risks such as the non-settlement or delay in settlement of instructions and legal risks related to the documentation used in respect of such transactions.

A Sub-Fund may enter into securities lending, repurchase or reverse repurchase transactions with other companies in the same Group of Companies as the Management Company or Portfolio Manager. Affiliated counterparties, if any, will perform their obligations under any securities lending, repurchase or reverse repurchase transactions concluded with the Sub-Fund in a commercially reasonable manner. In addition, the Management Company or Portfolio Manager will select counterparties and enter into transactions in accordance with best execution and at all times in the best interests of the Sub-Fund and its investors. However, investors should be aware that the Management Company or Portfolio Manager may face conflicts between its role and its own interests or that of affiliated counterparties. Any such conflicts will be managed in accordance with the Management Company's conflicts of interest policy and any applicable laws and regulations. At the date of this prospectus the counterparty to securities lending, the only efficient portfolio management currently in use, is not affiliated with the Management Company.

(4) Special considerations on risks relating to the Sub-Funds EQUITY EMU and EQUITY ESG EMU

Physical replication

Generally the Sub-Funds are physically replicated. To a minor degree the Sub-Funds may at the same time use derivatives to achieve their aims. Exposure to the index through physical replication may be affected by rebalancing costs, in particular where the index undergoes significant rebalancing or where constituents are not very liquid or have restrictions in terms of accessibility. Rebalancing costs are a factor of the rebalancing frequency of the underlying index, the constituents' weighting adjustments and/or the number of constituents being replaced on each rebalancing day, and the transaction costs incurred to implement such changes. High rebalancing costs will generally deteriorate the relative performance between the Sub-Funds and the index. Exposure to the index may also be affected by other factors such as market disruptions and regulatory restrictions which could have an adverse effect on the Fund's ability to adjust its exposure to the required levels in order to track the Underlying Index. Errors in index data, index computations or the construction of the Underlying Index in accordance with its methodology may occur from time to time and may not be identified and corrected by the Index Provider for a period of time or at all, which may have an

adverse impact on the Fund and its unitholders. Unusual market conditions or other unforeseen circumstances (such as natural disasters, political unrest or war) may impact the Index Provider or a third party data provider, and could cause the Index Provider to postpone a scheduled rebalance. This could cause the Underlying Index to vary from its normal or expected composition. Tracking error may occur because of differences between the securities and other instruments held in the Fund's portfolio and those included in the Underlying Index, pricing differences, transaction costs incurred by the Fund, the Fund's holding of uninvested cash, differences in timing of the accrual or the valuation of dividends or interest received by the Fund or distributions paid to the Fund's unitholders, the requirements to maintain pass-through tax treatment, changes to the Underlying Index or the costs to the Fund of complying with various new or existing regulatory requirements, among other reasons. This risk may be heightened during times of increased market volatility or other unusual market conditions. Tracking error also may result because the Fund incurs fees and expenses, while the Underlying Index does not.

Due account shall be taken of the principle of risk diversification, security of the capital invested and liquidity of the assets. In order to achieve this, the Management Company shall assume a fair and reasonable degree of risk. However, in consideration of market fluctuations and other risks there can be no guarantee that the investment objective of the Sub-Funds will be achieved. The value of investments may go down as well as up and investors may not recover the value of their initial investment.

Anticipated Tracking Error

The anticipated tracking error is an estimation of the potential ex-post tracking error, based on the expected volatility of differences between the returns of the Sub-Funds and the returns of their benchmark indices. For a physically replicating Sub-Fund, the primary driver of anticipated tracking error is the difference between the Sub-Funds' holdings and index constituents. The tracking difference measures the actual difference between the returns of the Sub-Funds and the returns of the benchmark index (i.e. how closely the Sub-Fund tracks its index), while ex post tracking error measures the increase and decrease in tracking difference (i.e. volatility of tracking difference). Investors should consider both the tracking difference and the ex-post tracking error when evaluating the track record of an index-tracking Sub-Fund. The anticipated levels of tracking errors of the Sub-Funds are further specified in the Data Sheets of each Sub-Fund. Cash management, trading costs from rebalancing and the application of the regulatory exclusions, have an impact on tracking difference and ex-post tracking error. Depending on the underlying circumstances, the impact can be either positive or negative.

Furthermore, withholding tax may affect the tracking error as well. To which extent the tracking error is influenced by withholding tax depends on several factors such as any reclaims filed with tax authorities, any benefits obtained under a tax treaty.

(5) Special considerations on risks relating to the Depositary

The Held In Custody Assets (as defined in the Depositary and Paying Agent Agreement) owned by the Fund are held in custody for account of the Fund by the Depositary that is also regulated by the Regulatory Authority. The Depositary may entrust the safe-keeping of the Fund's Held In Custody Assets (as defined in the Depositary and Paying Agent Agreement) to sub-custodians in the markets where the Fund invests. Luxembourg law provides that the Depositary's liability shall not be affected by the fact that it has entrusted the Fund's Held In Custody Assets (as defined in the Depositary and Paying Agent Agreement) to third parties. The Regulatory Authority requires that the Depositary ensures that

there is legal separation of non-cash assets held under custody and those records maintained accordingly clearly identify the nature and amount of all assets under custody, the ownership of each asset and where the documents of title to that are located. Where the Depositary engages a sub-custodian, the Regulatory Authority requires that the Depositary ensures that the sub-custodian maintains these standards and the liability of the Depositary will not be affected by the fact that it has entrusted to a sub-custodian some or all of the assets of the Fund.

However, certain jurisdictions have different rules regarding the ownership and custody of assets generally and the recognition of the interests of a beneficial owner such as a Sub-Fund. There is a risk that in the event the Depositary or sub-custodian becomes insolvent, the relevant Sub-Fund's beneficial ownership of assets may not be recognised in foreign jurisdictions and creditors of the Depositary or sub-custodian may seek to have recourse to the Sub-Fund's assets. In jurisdictions where the relevant Sub-Fund's beneficial ownership is ultimately recognised, the Sub-Fund may suffer a delay in recovering its assets, pending the resolution of the relevant insolvency or bankruptcy proceedings.

In respect of cash, the general position is that any cash accounts will be designated to the order of the Depositary for the benefit of the relevant Sub-Fund. However, due to the fungible nature of cash, it will be held on the balance sheet of the bank with whom such cash accounts are held (whether a sub-custodian or a third party bank), and will not be protected from the bankruptcy of such bank. A Sub-Fund will therefore have counterparty exposure risk to such bank. Subject to any applicable government guarantee or insurance arrangements in respect of bank deposits or cash deposits, where a sub-custodian or third party bank holds cash assets and subsequently becomes insolvent, the Sub-Fund would be required to prove the debt along with other unsecured creditors. The Sub-Fund will monitor its exposure in respect of such cash assets on an ongoing basis.

(6) Special considerations on risks for the Fund in general

Counterparty risk

Counterparty risk refers to the risk of loss for a Sub-Fund resulting from the fact that the counterparty to a transaction entered into by the Sub-Fund may default on its contractual obligations. There can be no assurance that an issuer or counterparty will not be subject to credit or other difficulties leading to a default on its contractual obligations and the loss of all or part of the amounts due to the Sub-Fund. This risk may arise at any time the assets of a Sub-Fund are deposited, extended, committed, invested or otherwise exposed through actual or implied contractual agreements. For instance, counterparty risk may arise when a Sub-Fund has deposited cash with a financial institution, invests into debt securities and other fixed income instruments, enters into OTC financial derivative instruments, or enters into securities lending, repurchase and

reverse repurchase agreements.

Operational risk

Operational risk means the risk of loss for the Fund resulting from inadequate internal processes and failures in relation to people and systems of the Management Company and/or its agents and service providers, or from external events, and includes legal and documentation risk and risk resulting from the trading, settlement and valuation procedures operated on behalf of the Fund.

Laws and regulations risk

The Fund may be subject to a number of legal and regulatory risks, including contradictory interpretations or applications of laws, incomplete, unclear and changing laws, restrictions on general public access to regulations, practices and customs, ignorance or breaches of laws on the part of counterparties and other market participants, incomplete or incorrect transaction documents, lack of established or effective avenues for legal redress, inadequate investor protection, or lack of enforcement of existing laws. Difficulties in asserting, protecting and enforcing rights may have a material adverse effect on the Sub-funds and their operations.

FATCA

The Fund may be subject to regulations imposed by foreign regulators, in particular, the United States laws and regulations known as FATCA. FATCA provisions generally impose a reporting to the US Internal Revenue Services of non-US financial institutions that do not comply with FATCA and US persons (within the meaning of FATCA)' direct and indirect ownership of non-US accounts and non-US entities. Failure to provide the requested information may lead to a 30% withholding tax applying to certain US source income (including dividends and interest) and gross proceeds from the sale or other disposal of property that can produce US source interest or dividends.

APPENDIX II – DISTRIBUTION

GERMANY

Additional information for investors in Germany

The offering of the Units has been notified to the German Financial Services Supervisory Authority in accordance with Section 310 of the Investment Code (*Kapitalanlagegesetzbuch*).

Paying Agent

Société Générale, Luxembourg, 11, avenue Emile Reuter, L-2420 Luxembourg, has undertaken the role of the paying agent ("German Paying Agent").

Requests for redemptions or conversions of Units may be submitted to the German Paying Agent. German resident investors can request that the redemption proceeds, any distributions and other payments due to them are paid through the German Paying Agent.

In this case the payments will be transferred to an account designated by the investor or paid in cash by the German Paying Agent.

Information Agent

Swiss Life Invest GmbH, Zeppelinstrasse 1, 85748 Garching Munich, Germany, has undertaken the role of the information agent ("German Information Agent") in accordance with Section 309 para. 2 of the Investment Code.

Information for Unitholders

The Prospectus, the Key Investor Document, the Management Regulations, the annual and semi-annual reports can be obtained in paper form free of charge at the German Information Agent. Copies of the agreements with the Depositary, the Administrative Agent, the Registrar Agent, the Portfolio Manager and the legally designated paying agents in the countries in which the Sub-Funds are registered for sale can also be inspected at the German Information Agent free of charge. The latest subscription and redemption prices as well as possible information to the Unitholders are available free of charge upon request at the German Information Agent.

The subscription and redemption prices of the Units will be published on the website www.swisslife-am.com. Notices to Unitholders will be published in the Electronic Federal Gazette ("Bundesanzeiger").

The investors in Germany will be additionally informed through a durable medium in the meaning of section 167 of the Investment Code about:

1. the suspension of the redemption of the Units;
2. the termination of the management or liquidation of the Fund or a Sub-Fund;
3. changes to the Management Regulations of the Fund that are incompatible with the existing investment policies, that affect material Unitholder rights or that affect the fees and reimbursement of expenses that can be paid out of the assets of the Fund;
4. the merger of funds in the form of the information on the merger that is required to be prepared according to article 43 of the UCITS Directive;

5. the conversion of an investment fund into a feeder fund or changes to a master fund in the form of the information that are required to be prepared according to article 64 of the UCITS Directive."

Tax Information

The Fund intends to fulfil the German fund tax law publication requirements in relation to the German tax base within the meaning of section 5 paragraph 1 Investment Tax Act ("InvTA").

However, it cannot be guaranteed by the Fund that the premises set forth in section 5 paragraph 1 InvTA will be effectively fulfilled.

In case the Fund does not provide sufficient evidence or does not comply with the publication requirements of the InvTA, the provisions of the lump-sum taxation in accordance with section 6 InvTA apply, i.e. the German tax resident investor will be taxed on (1) distributions made by the Fund, (2) the interim profit and (3) in addition the increase between the first and the last redemption price of the calendar year per unit of the Fund, at least 6 % of the last redemption price of the calendar year multiplied with the number of Units held by the tax resident German investor in relation to the Fund at the end of the calendar year (31 December).

According to section 5 paragraph 1 number 5 InvTA the Federal Tax Office may request the Fund to provide full evidence within 3 months that the German tax base has been determined and published in accordance with the German tax laws. In the case that mistakes would be observable for the past, the correction of these mistakes will not be accomplished for the past, but instead be recognized within the publication for the actual business year of the Fund (in accordance with section 5 paragraph 1 sentence 1 number 5 sentence 3 InvTA). Therefore, the correction of such mistakes may harm or favour German tax resident investors, who have received a distribution or a deemed distribution within the actual business year of the Fund.

The aforementioned information merely present a general survey of the taxation of German tax resident investors of the Fund and are neither meant to be exhaustive nor to replace an in-depth professional consultation e.g. by a lawyer, a tax advisor or an auditor (see section 3 of the Tax Advising Law). Due to the pending legislation concerning the adaptation of the Investment Tax Act to the amended fund supervisory law which was changed by the enactment of the Investment Code (*Kapitalanlagegesetzbuch*) effective 22 July 2013, the Investment Tax Act is applicable on an interim basis based on the order of continued validity issued by Decree of the Federal Ministry of Finance dated 18 July 2013 (Az. IV C 1 - S 1980-1/12/10011 / IV D 3 - S 7160-h/12/10001). The aforementioned information is based on the legal situation as well as on the opinion of the German fiscal authorities at the point in time of the publication of this Prospectus. Due to the fact, that the legal situation and the opinion of the fiscal authorities might change between the publication of this prospectus and the investment decision of the German tax resident investor, the Fund emphatically recommends to consult a qualified person before the investment in the Units of the Fund is made.

DATA SHEETS

INCOME (EUR)	
PROFILE OF THE TYPICAL INVESTOR	Income (EUR) sub-fund (the “Sub-Fund”) is suitable for the investor seeking to build capital with a well-diversified portfolio and a low to moderate risk and return potential. A mid-term investment horizon – at least 3 years – is required in order to ride out potentially adverse market trends.
INVESTMENT OBJECTIVE AND POLICY	<p>The objective of this Sub-Fund is to achieve medium to long term optimal investment returns based on a Euro perspective.</p> <p>Taking advantage of international diversification opportunities, this Sub-Fund invests, after deduction of liquid assets, at least two thirds of its net assets in stock and bonds indices products, through investment via UCITS and/or other UCIs (including but not limited to Exchange Traded Funds (“ETF”)) or via derivative instruments. Up to one third of its net assets may be invested in assets which comply with the provisions set forth in section 7 “Investment Objectives, Policies, Techniques and Restrictions” of this Prospectus.</p> <p>In addition and cumulatively to the rule defined above, at least 51% of the net assets of the Sub-Fund’s portfolio on a consolidated basis shall be invested to Money Market Instruments, bonds, notes or similar fixed or variable debt instruments directly or indirectly.</p> <p>In any case, the investments by the Sub-Fund in other UCIs may not exceed the limits set forth in article D (2) of the above mentioned section.</p> <p>The Sub-Fund will not enter into repurchase and reverse repurchase transactions.</p> <p>As of the date of this Prospectus, all assets may be subject to securities lending transactions.</p> <p>A maximum of 30% of the net assets held by the Sub-Fund can be subject to securities lending transactions.</p> <p>The expected percentage of the net assets subject to securities lending transactions is around 10%.</p> <p>The Sub-Fund will use the commitment approach to monitor its global exposure.</p> <p>The Sub-Fund does not systematically integrate ESG Criteria into its investment decision-making process, since the application of ESG Criteria on the underlying assets are not possible or allowed. Sustainability risks are therefore not integrated into investment decisions.</p> <p>The investments underlying this financial product do not take into account the EU criteria for environmentally sustainable economic activities.</p> <p>The principal adverse impacts on sustainability factors, are not being considered since they are not in scope of the Sub-Fund’s investment strategy.</p>
MANAGEMENT FEE	For the services they provide, the Portfolio Manager and/or the distributors of Units as may be designated by the Management Company and/or Swiss Life Asset Management AG. for its services rendered under the agreement relating to the provision of supporting services, are entitled to a management fee of a maximum rate of 1.75% calculated as a percentage of the NAV on the basis of the NAV of the Sub-Fund determined on each Valuation Day and is payable at the end of each quarter.
DUPLICATION OF FEES	<p>Except as provided below, there may be duplication of other operating fund related expenses, including subscription and redemption fees.</p> <p>If the Management Company acquires units of other UCIs that are managed directly or indirectly by the Management Company itself or a company with which it is related by virtue of common management or control or by way of a direct or indirect stake of more than 10% of the capital or votes (“Related Target Funds”), no issuing or redemptions commissions of the Related Target Funds will be charged.</p> <p>Management fees of underlying UCITS and/or UCI will not exceed 5% of the NAV per annum.</p>
VALUATION DAY & CURRENCY	<p>The NAV per Unit is expressed in EUR.</p> <p>The NAV and the issue and redemption price per Unit are calculated in Luxembourg on each Business Day (“Valuation Day”).</p>

<p>SUBSCRIPTIONS</p>	<p>Subscriptions for Units shall be accepted on each Business Day.</p> <p>Subscription forms must be received by the Registrar Agent as well as any other distributor(s) authorized for this purpose no later than 3:00 p.m. (Luxembourg time) on the Business Day preceding the relevant Valuation Day. Subscription applications received after that time will be settled on the next Valuation Day.</p> <p>Subscription monies are payable in EUR and must reach the Depository no later than two (2) Business Days after the Valuation Day.</p> <p>Subscriptions must be sent to the Depository for the amount subscribed in the Reference Currency of the Sub-Fund.</p> <p>A subscription fee of up to 5% of the amount subscribed may be charged. This subscription fee shall revert to the Management Company or to the distributor(s) of Units.</p>
<p>REDEMPTIONS</p>	<p>Units may be redeemed on each Valuation Day.</p> <p>Redemption requests must be received by the Registrar Agent by 3:00 p.m. (Luxembourg time) on the Business Day preceding the relevant Valuation Day.</p> <p>Redemption proceeds shall be paid no later than two (2) Business Days after the Valuation Day.</p> <p>No redemption fee will be applied.</p>
<p>CONVERSIONS</p>	<p>Units of the Sub-Fund may be converted into Units of other Sub-Funds which are open to conversions as disclosed in their Data Sheet. The Sub-Fund is open to conversions from other Sub-Funds, as further described under section "Conversion of Units" of the Prospectus.</p> <p>Conversion requests must be received by the Registrar Agent by 3:00 p.m. (Luxembourg time) on the Business Day preceding the relevant Valuation Day.</p> <p>No conversion fee will be charged.</p>
<p>CLASSES OF UNITS AVAILABLE</p>	<ul style="list-style-type: none"> • There is currently one class of Units available in the Sub-Fund, i.e.: <ul style="list-style-type: none"> - Class "R-capitalisation" • The Board of Directors reserves the right to issue Units of the following classes at its full discretion, and to amend the Prospectus accordingly at such appropriate time: <ul style="list-style-type: none"> - Class "R-distribution" Units - Class "I" Units - Such Units can be either distribution Units or capitalisation Units.

The information contained in this Data Sheet must be read in conjunction with the complete text of the Prospectus.

BALANCE (EUR)	
PROFILE OF THE TYPICAL INVESTOR	Balance (EUR) sub-fund (the “Sub-Fund”) is suitable for the investor who is seeking to build capital with a well-diversified portfolio and a moderate risk and return potential. A mid-term investment horizon – at least 3 to 5 years – is required in order to ride out potentially adverse market trends.
INVESTMENT OBJECTIVE AND POLICY	<p>The objective of this Sub-Fund is to achieve medium to long term optimal investment returns based on a Euro perspective.</p> <p>Taking advantage of international diversification opportunities, this Sub-Fund invests, after deduction of liquid assets, at least two thirds of its net assets in stock and bonds indices products, through investment via UCITS and/or other UCIs (including but not limited to Exchange Traded Funds (“ETF”)) or via derivative instruments. Up to one third of its net assets may be invested in other assets which comply with the provisions set forth in section 7 “Investment Objectives, Policies, Techniques and Restrictions” of this Prospectus.</p> <p>In addition and cumulatively to the rule defined above, no less than 30% of the assets of the Sub-Fund will be invested in Money Market Instruments, bonds, notes and similar fixed or variable debt instruments, directly or indirectly.</p> <p>In any case, the investments by the Sub-Fund in other UCIs may not exceed the limits set forth in article D (2) of the above mentioned section.</p> <p>The Sub-Fund will not enter into repurchase and reverse repurchase transactions.</p> <p>As of the date of this Prospectus, all assets may be subject to securities lending transactions.</p> <p>A maximum of 30% of the net assets held by the Sub-Fund can be subject to securities lending transactions.</p> <p>The expected percentage of the net assets subject to securities lending transactions is around 10%.</p> <p>The Sub-Fund will use the commitment approach to monitor its global exposure.</p> <p>The Sub-Fund does not systematically integrate ESG Criteria into its investment decision-making process, since the application of ESG Criteria on the underlying assets are not possible or allowed. Sustainability risks are therefore not integrated into investment decisions.</p> <p>The investments underlying this financial product do not take into account the EU criteria for environmentally sustainable economic activities.</p> <p>The principal adverse impacts on sustainability factors, are not being considered since they are not in scope of the Sub-Fund’s investment strategy.</p>
MANAGEMENT FEE	For the services they provide, the Portfolio Manager and/or the distributors of Units as may be designated by the Management Company and/or Swiss Life Asset Management AG. for its services rendered under the agreement relating to the provision of supporting services, are entitled to a management fee of a maximum rate of 1.75% calculated as a percentage of the NAV on the basis of the NAV of the Sub-Fund determined on each Valuation Day and is payable at the end of each quarter.
DUPLICATION OF FEES	<p>Except as provided below, there may be duplication of other operating fund related expenses, including subscription and redemption fees.</p> <p>If the Management Company acquires units of other UCIs that are managed directly or indirectly by the Management Company itself or a company with which it is related by virtue of common management or control or by way of a direct or indirect stake of more than 10% of the capital or votes (“Related Target Funds”), no issuing or redemptions commissions of the Related Target Funds may be charged.</p> <p>Management fees of underlying UCITS and/or UCI will not exceed 5% of the NAV per annum.</p>
VALUATION DAY & CURRENCY	<p>The NAV per Unit is expressed in EUR.</p> <p>The NAV and the issue and redemption price per Unit are calculated in Luxembourg on each Business Day (“Valuation Day”).</p>

SUBSCRIPTIONS	<p>Subscriptions for Units shall be accepted on each Business Day.</p> <p>Subscription forms must be received by the Registrar Agent as well as any other distributor(s) authorized for this purpose no later than 3:00 p.m. (Luxembourg time) on the Business Day preceding the relevant Valuation Day. This subscription fee shall revert to the Management Company or to the distributor(s) of Units.</p>
<p>REDEMPTIONS</p>	<p>Units may be redeemed on each Valuation Day.</p> <p>Redemption requests must be received by the Registrar Agent by 3:00 p.m. (Luxembourg time) on the Business Day preceding the relevant Valuation Day.</p> <p>Redemption proceeds shall be paid no later than two (2) Business Days after the Valuation Day.</p> <p>No redemption fee will be applied.</p>
<p>CONVERSIONS</p>	<p>Units of the Sub-Fund may be converted into Units of other Sub-Funds which are open to conversions as disclosed in their Data Sheet. The Sub-Fund is open to conversions from other Sub-Funds, as further described under section "Conversion of Units" of the Prospectus.</p> <p>Conversion requests must be received by the Registrar Agent by 3:00 p.m. (Luxembourg time) on the Business Day preceding the relevant Valuation Day.</p> <p>No conversion fee will be charged.</p>
<p>CLASSES OF UNITS AVAILABLE</p>	<ul style="list-style-type: none"> • There is currently one class of Units available in the Sub-Fund, i.e.: <ul style="list-style-type: none"> - Class "R-capitalisation" • The Board of Directors reserves the right to issue Units of the following classes at its full discretion, and to amend the Prospectus accordingly at such appropriate time: <ul style="list-style-type: none"> - Class "R-distribution" Units - Class "I" Units - Such Units can be either distribution Units or capitalisation Units.

The information contained in this Data Sheet must be read in conjunction with the complete text of the Prospectus.

EQUITY EMU	
PROFILE OF THE TYPICAL INVESTOR	Equity EMU sub-fund (the “Sub-Fund”) is suitable for investors with high risk tolerance and a long-term view who wish to invest in a broadly diversified portfolio of equity securities within Europe Economic and Monetary Union.
INVESTMENT OBJECTIVE AND POLICY	<p>The Sub-Fund tracks the MSCI EMU Index as its benchmark index.</p> <p>The investment objective of this Sub-Fund is to provide the unitholders with a return in line with the performance of the MSCI EMU Index (the “Underlying Index”) (see description under the section “Description of the Underlying Index”).</p> <p>The Sub-Fund may invest in a representative selection of securities from the benchmark index (optimized sampling) rather than in all the securities in the index. Selection is facilitated by a system that takes account of both quantitative factors as well as factors that determine returns. The portfolio may be limited to a representative selection of securities from the benchmark index owing to the investment restrictions set out below, to other legal or statutory restrictions, to costs and expenses incurred by the Sub-Fund, or to the illiquidity of certain securities.</p> <p>The Sub-Fund invests:</p> <ul style="list-style-type: none"> a) in equities and other equity-type securities and rights (shares, dividend-right certificates, shares in cooperatives, participation certificates, etc.) of companies which are contained in the above-mentioned benchmark index; b) temporarily in equities and other equity-type securities and rights (shares, dividend-right certificates, shares in cooperatives, participation certificates, etc.) of companies which are not contained in the benchmark index but where there is a high probability that such securities will be able to join the MSCI EMU Index on the basis of its acceptance criteria, c) up to 10% in assets of companies which are not contained in the benchmark index but have similar investment characteristics with a corresponding risk profile; d) in units of passively managed collective investment schemes, both domestic and foreign and listed and unlisted, that are consistent with the investment policy; e) in derivatives (including warrants) on the above investments. For the avoidance of doubt, such derivatives may include futures on the benchmark index, on financial indices that the Portfolio Manager believes to be highly correlated to the benchmark index, on indices of individual countries and regions that are reflected in the benchmark index or on indices which are primarily based on the same markets as the Sub-Fund’s benchmark index. <p>Investments (including derivatives on these investments) which are dropped from the benchmark index must be sold within an appropriate period while safeguarding the interests of the investors. The Sub-Fund will invest more than 50% of the value of its total assets in Qualifying Equity Instruments.</p> <p>Subject to conditions set out in the Investment Restrictions section, sub-section B), the Sub-Fund may invest in ancillary liquid assets (i.e., bank deposits at sight) up to 20% of the total net assets of the Sub-Fund in order to cover current or exceptional payments, or for the time necessary to reinvest in eligible assets under Part I of the Law of December 17, 2010 or for a period of time strictly necessary in case of unfavourable market conditions. Additionally the Sub-Fund may also invest up to 20% of its total net assets in liquidity funds, money market funds and money market instruments. In any case and for the avoidance of doubt, investments in any other UCITS or UCI (including liquidity funds and money market funds) are limited to 10% of the total net assets.</p> <p>The Sub-Fund may not enter into securities lending and borrowing transactions.</p> <p>The investments underlying this Sub-Fund do not take into account the EU criteria for environmentally sustainable economic activities.</p> <p>The Sub-Fund does not systematically integrate ESG Criteria into its investment decision-making process, since the application of ESG Criteria on the underlying assets are not possible or allowed. Sustainability risks are therefore not integrated into investment decisions.</p> <p>The investments underlying this financial product do not take into account the EU criteria for environmentally sustainable economic activities.</p> <p>The principal adverse impacts on sustainability factors, are not being considered since they are not in scope of the Sub-Fund’s investment strategy.</p> <p>The Sub-Fund will use the commitment approach to monitor its global exposure.</p>

DESCRIPTION OF THE UNDERLYING INDEX	<p>The MSCI EMU (European Economic and Monetary Union) Index is a free float-adjusted market capitalization weighted index that is designed to measure the equity market performance of countries within EMU. The MSCI EMU Index consists of the following 10 developed market country indices: Austria, Belgium, Finland, France, Germany, Ireland, Italy, the Netherlands, Portugal and Spain. Pursuant to the index rules the index is rebalanced on a quarterly basis and may also be rebalanced at other times, e.g. in order to reflect corporate activity such as mergers and acquisitions, as provided for in the index rules. Additional information in relation to the index performance, characteristics, constituents, sector and country weights, methodology of construction and maintenance, rebalancing dates and other general information is available on the index provider's website https://www.msci.com/indexes.</p> <p>The MSCI EMU Index is provided by MSCI Limited, a UK Benchmark Administrator granted authorization by the UK's Financial Conduct Authority. MSCI Ltd is governed by the UK Benchmark Regulations (UK BMR) and currently the EU Benchmark Regulations (EM BMR) transitional period for all non-EU administrators, allowing supervised entities to continue to utilize benchmarks which are provided by non-EU administrators, and which are not included in the ESMA register. The EU Commission adopted a Delegated Act on 14 July 2023 that would extend the transitional period by two years to 31 December 2025. For more details you may refer MSCI – Index Regulation webpage.</p>
TRACKING ERROR	<p>Under normal market conditions, it is expected that the anticipated level of tracking error will be less than 0.30%.</p>
MANAGEMENT FEE	<p>For the services they provide, the Portfolio Manager and/or the distributors of Units as may be designated by the Management Company and/or Swiss Life Asset Management AG. for its services rendered under the agreement relating to the provision of supporting services, are entitled to a management fee of a maximum rate of 0.90% calculated as a percentage of the NAV on the basis of the NAV of the Sub-Fund determined on each Valuation Day and is payable at the end of each quarter.</p>
DUPLICATION OF FEES	<p>Except as provided below, there may be duplication of other operating fund related expenses, including subscription and redemption fees.</p> <p>If the Management Company acquires units of other UCIs that are managed directly or indirectly by the Management Company itself or a company with which it is related by virtue of common management or control or by way of a direct or indirect stake of more than 10% of the capital or votes ("Related Target Funds"), no issuing or redemptions commissions of the Related Target Funds may be charged.</p> <p>The Sub-Funds will not invest in underlying UCIs which are themselves submitted to a management fee exceeding 2.5%.</p>
VALUATION DAY AND CURRENCY	<p>The NAV per Unit is expressed in EUR.</p> <p>The NAV and the issue and redemption price per Unit are calculated in Luxembourg on each Business Day ("Valuation Day").</p>
SUBSCRIPTIONS	<p>Subscriptions for Units shall be accepted on each Business Day.</p> <p>Subscription forms must be received by the Registrar Agent as well as any other distributor(s) authorized for this purpose no later than 2.00 p.m. (Luxembourg time) on the Business Day preceding the relevant Valuation Day. Subscription applications received after that time will be settled on the next Valuation Day.</p> <p>Subscription monies are payable in EUR and must reach the Depository no later than two (2) Business Days after the Valuation Day.</p> <p>Subscriptions must be sent to the Depository for the amount subscribed in the Reference Currency of the Sub-Fund.</p> <p>Subscriptions may be subject to issuing charges of max. 2.00% that are allocated to the Sub-Fund on the issue of Units in this Sub-Fund. This contribution to costs covers in particular but not exclusively transaction costs, tax charges and bid/offer spreads incurred by the respective Sub-fund due to subscriptions and/or conversions in and out of the Sub-Fund.</p>

<p>REDEMPTIONS</p>	<p>Units may be redeemed on each Valuation Day.</p> <p>Redemption requests must be received by the Registrar Agent by 2:00 p.m. (Luxembourg time) on the Business Day preceding the relevant Valuation Day.</p> <p>Redemption proceeds shall be paid no later than two (2) Business Days after the Valuation Day.</p> <p>Redemptions may be subject to redemption charges of max. 2.00% that are allocated to the Sub-Fund on the redemption of Units in this Sub-Fund. This contribution to costs covers in particular but not exclusively transaction costs, tax charges and bid/offer spreads incurred by the respective Sub-fund due to redemptions, subscriptions and/or conversions in and out of the Sub-Fund.</p>
<p>CONVERSIONS</p>	<p>Units of the Sub-Fund may be converted into Units of other Sub-Funds which are open to conversions as disclosed in their Data Sheet. The Sub-Fund is open to conversions from other Sub-Funds, as further described under section "Conversion of Units" of the Prospectus.</p> <p>Conversion requests must be received by the Registrar Agent by 2:00 p.m. (Luxembourg time) on the Business Day preceding the relevant Valuation Day.</p> <p>No conversion fee will be charged.</p>
<p>CLASSES OF UNITS AVAILABLE</p>	<ul style="list-style-type: none"> • There is currently one class of Units available in the Sub-Fund, i.e.: <ul style="list-style-type: none"> - Class "AM-capitalisation" which initial subscription date is as from 30.04.2024, - Class "I-capitalisation" which initial subscription date is as from 30.04.2024, • The Board of Directors reserves the right to issue Units of the following classes at its full discretion, and to amend the Prospectus accordingly at such appropriate time: <ul style="list-style-type: none"> - Class "AM-distributing" Units. - Class "I-distributing" Units. - Class "R" Units - Such Units can be either distribution Units or capitalisation Units

EQUITY ESG EMU	
PROFILE OF THE TYPICAL INVESTOR	Equity ESG EMU sub-fund (the “Sub-Fund”) is suitable for investors with high risk tolerance and a long-term view who wish to invest in a broadly diversified portfolio of equity securities within Europe Economic and Monetary Union.
INVESTMENT OBJECTIVE AND POLICY	<p>This Sub-Fund qualifies as an Article 8 Product of the Regulation (EU) 2019/2088 on sustainability-related disclosures in the financial services sector (“SFDR”). The Sub-Fund promotes environmental and social characteristics but does not have as its objective a sustainable investment.</p> <p>The information about the environmental or social characteristics of the Sub-Fund is available in the Appendix 4.1. “SFDR Related Information” to be found at the end of the Prospectus.</p> <p>The Sub-Fund tracks the MSCI EMU ESG Leaders Index as its benchmark index.</p> <p>The investment objective of this Sub-Fund is to provide the unitholders with a return in line with the performance of the MSCI EMU ESG Leaders Index (the “Underlying Index”) (see description under the section “Description of the Underlying Index”).</p> <p>The Sub-Fund may invest in a representative selection of securities from the benchmark index (optimized sampling) rather than in all the securities in the index. Selection is facilitated by a system that takes account of both quantitative factors as well as factors that determine returns. The portfolio may be limited to a representative selection of securities from the benchmark index owing to the investment restrictions set out below, to other legal or statutory restrictions, to costs and expenses incurred by the Sub-Fund, or to the illiquidity of certain securities.</p> <p>The Sub-Fund invests:</p> <ol style="list-style-type: none"> a) in equities and other equity-type securities and rights (shares, dividend-right certificates, shares in cooperatives, participation certificates, etc.) of companies which are contained in the above-mentioned benchmark index; b) temporarily in equities and other equity-type securities and rights (shares, dividend-right certificates, shares in cooperatives, participation certificates, etc.) of companies which are not contained in the benchmark index but where there is a high probability that such securities will be able to join the MSCI EMU ESG Leaders Index on the basis of its acceptance criteria; c) up to 10% in assets of companies which are not contained in the benchmark index but have similar investment characteristics with a corresponding risk profile; d) in units of passively managed collective investment schemes, both domestic and foreign and listed and unlisted, that are consistent with the investment policy; e) in derivatives (including warrants) on the above investments. For the avoidance of doubt, such derivatives may include futures on the benchmark index, on financial indices that the Portfolio Manager believes to be highly correlated to the benchmark index, on indices of individual countries and regions that are reflected in the benchmark index or on indices which are primarily based on the same markets as the Sub-Fund’s benchmark index. <p>Investments (including derivatives on these investments) which are dropped from the benchmark index must be sold within an appropriate period while safeguarding the interests of the investors. The Sub-Fund will invest more than 50% of the value of its total assets in Qualifying Equity Instruments.</p> <p>Subject to conditions set out in the Investment Restrictions section, sub-section B), the Sub-Fund may invest in ancillary liquid assets (i.e., bank deposits at sight) up to 20% of the total net assets of the Sub-Fund in order to cover current or exceptional payments, or for the time necessary to reinvest in eligible assets under Part I of the Law of December 17, 2010 or for a period of time strictly necessary in case of unfavourable market conditions. Additionally the Sub-Fund may also invest up to 20% of its total net assets in liquidity funds, money market funds and money market instruments. In any case and for the avoidance of doubt, investments in any other UCITS or UCI (including liquidity funds and money market funds) are limited to 10% of the total net assets.</p> <p>The Sub-Fund may not enter into securities lending and borrowing transactions.</p> <p>The Sub-Fund will use the commitment approach to monitor its global exposure.</p>

DESCRIPTION OF THE UNDERLYING INDEX	<p>The MSCI EMU ESG Leaders Index is a capitalization weighted index that provides exposure to companies with high Environmental, Social and Governance (ESG) performance relative to their sector peers. MSCI EMU ESG Leaders Index consists of large and mid cap across the 10 Developed Markets countries in the EMU. Developed Market countries in the EMU include: Austria, Belgium, Finland, France, Germany, Ireland, Italy, the Netherlands, Portugal and Spain. To assess whether a given company has high ESG ratings relative to its sector peers, the benchmark administrator excludes companies with controversial business lines. The benchmark administrator further rates controversial business practices and excludes companies with severe controversies with regard to ESG indicators. The benchmark administrator finally performs a holistic assessment of companies according to universal and industry-specific subjects and rates companies on various indicators in the environmental, social and governance pillars, whereby companies that do not meet the required minimum standards on a list of ESG factors are excluded.</p> <p>Pursuant to the index rules the index is rebalanced on a quarterly basis and may also be rebalanced at other times, e.g. in order to reflect corporate activity such as mergers and acquisitions, as provided for in the index rules. Additional information in relation to the index performance, characteristics, constituents, sector and country weights, methodology of construction and maintenance, rebalancing dates and other general information, including changes made from time to time by the benchmark administrator to the index methodology as described above, is available on the website of the benchmark administrator at https://www.msci.com/index-methodology.</p> <p>The MSCI EMU ESG Leaders Index is provided by MSCI Limited, a UK Benchmark Administrator granted authorization by the UK's Financial Conduct Authority. MSCI Ltd is governed by the UK Benchmark Regulations (UK BMR) and currently the EU Benchmark Regulations (EM BMR) transitional period for all non-EU administrators, allowing supervised entities to continue to utilize benchmarks which are provided by non-EU administrators, and which are not included in the ESMA register. The EU Commission adopted a Delegated Act on 14 July 2023 that would extend the transitional period by two years to 31 December 2025. For more details you may refer MSCI – Index Regulation webpage.</p>
TRACKING ERROR	<p>Under normal market conditions, it is expected that the anticipated level of tracking error will be less than 0.30%.</p>
MANAGEMENT FEE	<p>For the services they provide, the Portfolio Manager and/or the distributors of Units as may be designated by the Management Company and/or Swiss Life Asset Management AG. for its services rendered under the agreement relating to the provision of supporting services, are entitled to a management fee of a maximum rate of 0.90% calculated as a percentage of the NAV on the basis of the NAV of the Sub-Fund determined on each Valuation Day and is payable at the end of each quarter.</p>
DUPLICATION OF FEES	<p>Except as provided below, there may be duplication of other operating fund related expenses, including subscription and redemption fees.</p> <p>If the Management Company acquires units of other UCIs that are managed directly or indirectly by the Management Company itself or a company with which it is related by virtue of common management or control or by way of a direct or indirect stake of more than 10% of the capital or votes ("Related Target Funds"), no issuing or redemptions commissions of the Related Target Funds may be charged.</p> <p>The Sub-Funds will not invest in underlying UCIs which are themselves submitted to a management fee exceeding 2.5%.</p>
VALUATION DAY AND CURRENCY	<p>The NAV per Unit is expressed in EUR.</p> <p>The NAV and the issue and redemption price per Unit are calculated in Luxembourg on each Business Day ("Valuation Day").</p>

<p>SUBSCRIPTIONS</p>	<p>Subscriptions for Units shall be accepted on each Business Day.</p> <p>Subscription forms must be received by the Registrar Agent as well as any other distributor(s) authorized for this purpose no later than 2:00 p.m. (Luxembourg time) on the Business Day preceding the relevant Valuation Day. APPENDIX – SFDR RELATED INFORMATION

Information relating to the environmental and social characteristics or objectives of the sub-fund(s) is provided in the below Annexes in accordance with Regulation 2019/2088 on Sustainability-Related Disclosures in the Financial Services Sector.

Content

- Equity ESG EMU

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Pre-contractual disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product Name: Swiss Life Index Funds (LUX) – Equity ESG EMU
Legal entity identifier: 254900ML5Z7FSO21CN11

Environmental and/or social characteristics

Does this financial product have a sustainable investment objective?

Yes
 No

<input type="checkbox"/> It will make a minimum of sustainable investments with an environmental objective: ___% <ul style="list-style-type: none"> <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy 	<input type="checkbox"/> It promotes Environmental/Social (E/S) characteristics and while it does not have as its objective a sustainable investment, it will have a minimum proportion of ___% of sustainable investments <ul style="list-style-type: none"> <input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with a social objective
<input type="checkbox"/> It will make a minimum of sustainable investments with a social objective: ___%	<input checked="" type="checkbox"/> It promotes E/S characteristics, but will not make any sustainable investments

What environmental and/or social characteristics are promoted by this financial product?

This Sub-Fund aims to replicate the MSCI ESG EMU Leader Index designed to represent the performance of companies that are selected from an underlying index based on Environmental, Social and Governance (ESG) criteria.

The sub-Funds promotes the following environmental and social characteristics:

- promotes to invest according to the ESG methodology of the index provider (best-in-class).
- promotes to not invest in certain issuers based on ESG Exclusions applied by the index provider when constructing the index
- promotes adherence to, and conducting business activities in accordance with conduct-based exclusions of SVVK-ASIR (Business-conduct Exclusions on direct investments) provided the Sub-Fund stays within the anticipated tracking error as determined in the Prospectus

This Sub-Fund makes use of a reference benchmark for the purpose of attaining the environmental and/or social characteristics.

Please find further information on ESG strategy and ESG Exclusions below in the question "What investment strategy does this financial product follow?".

● **What sustainability indicators are used to measure the attainment of each of the environmental or social characteristics promoted by this financial product?**

The Sub-Fund uses the following sustainability indicators:

- ESG Rating
- ESG Controversies Flag

● **What are the objectives of the sustainable investments that the financial product partially intends to make and how does the sustainable investment contribute to such objectives?**

Not applicable.

● **How do the sustainable investments that the financial product partially intends to make, not cause significant harm to any environmental or social sustainable investment objective?**

Not applicable.

– **How have the indicators for adverse impacts on sustainability factors been taken into account?**

Not applicable.

– **How are the sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:**

Not applicable.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific EU criteria.

The “do not significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

Does this financial product consider principal adverse impacts on sustainability factors?

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

Yes, the Management Company considers some principal adverse impacts on sustainability factors and intends to mitigate its negative impact by excluding some controversial sectors (implied by the index methodology),

- PAI 1 (GHG emissions),
- PAI 2 (carbon footprint),
- PAI 3 (GHG intensity of investee companies),
- PAI 4 (Share of investment in companies active in the fossil fuel sector),
- PAI 5 (Share on non-renewable energy consumption and production).
- PAI 10 (Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises)
- PAI 14 (Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons, and biological weapons).

In accordance with Article 11, paragraph 2 of the SFDR, information on the principal adverse impacts on sustainability factors at the product level is available in the Fund's annual report.

No

What investment strategy does this financial product follow?

The investment strategy guides investment decisions based on factors such as investment objectives and risk tolerance.

The investment strategy of the Sub-Fund is to track its reference benchmark. The Sub-Fund may invest in a representative selection of securities from the benchmark index (optimized sampling) rather than in all the securities in the index. Selection is facilitated by a system that takes account of both quantitative factors as well as factors that determine returns. To attain the environmental or social characteristics promoted by this Sub-Fund, this Sub-Fund applies an ESG best-in-class approach and ESG Exclusions.

Regulatory exclusions: The Sub-Fund excludes investments involved in controversial weapons (such as antipersonnel landmines, cluster munitions, biological, chemical or nuclear weapons) and issuers that fall under the Financial Action Task Force (FATF) blacklist.

In addition, provided the Sub-Fund stays within the anticipated tracking error as determined in the prospectus, the portfolio management team may integrate additional ESG considerations for the selection of securities, like the following:

Normative and sectorial exclusions : The sub-fund is not allowed to invest in issuers: that are involved in very severe ESG controversies, including breaches of the UN Global Compact principles, or that derive more than 10% of their revenues from thermal coal mining or trading.

- **What are the binding elements of the investment strategy used to select the investments to attain each of the environmental or social characteristics promoted by this financial product?**

The binding elements are:

- Adhere to the index methodology of the index provider:
 - Companies are required to have a MSCI Rating of BB or above
 - Companies are required to have a MSCI ESG controversies score of 3 or above

- Application of conduct-based exclusions of SVVK-ASIR, provided the Sub-Fund stays within the anticipated tracking error of the Prospectus. Please note, the Investment Managers may discontinue to apply the conduct-based exclusions at any time if the tracking error exceeds the anticipated tracking error as described for the Prospectus.

● **What is the committed minimum rate to reduce the scope of the investments considered prior to the application of that investment strategy?**

The sub-fund does not commit to reduce the scope of the investments prior to the application of the investment strategy.

● **What is the policy to assess good governance practices of the investee companies?**

The Management Company assesses company decision-making processes and controls, as well as how management balances the interests of shareholders, employees, suppliers, customers, the community and other stakeholders. Based on ESG ratings and controversies assessments, the analysis of company governance includes:

- audit and financial reporting practices
- alignment between remuneration schemes and corporate strategy
- composition, effectiveness and oversight of the board
- company's ownership and control
- tax transparency
- business ethics issues such as fraud, executive misconduct, corrupt practices, money laundering, or anti-trust violations.

In addition, the Management Company applies Swiss Life Asset Managers' normative exclusions to avoid issuers with poor governance practices.

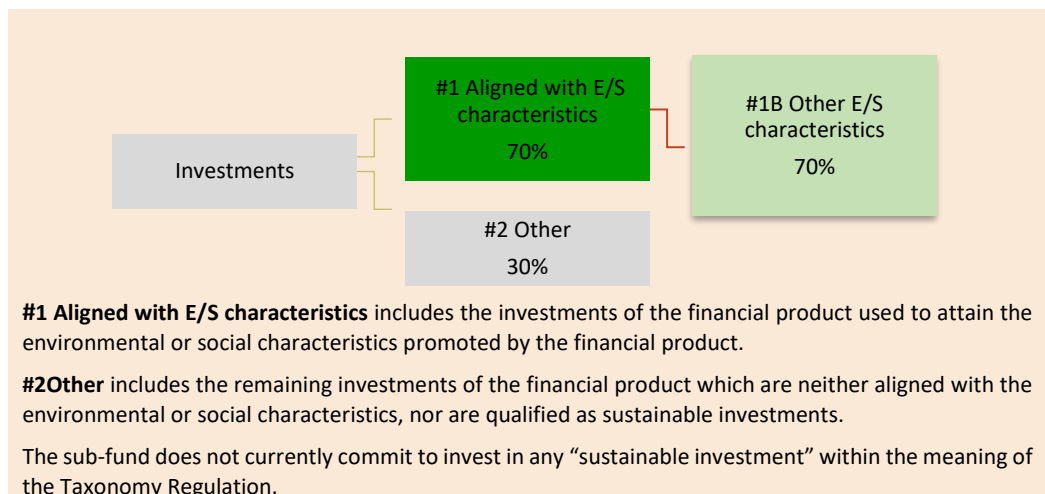

Asset allocation describes the share of investments in specific assets.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

What is the asset allocation planned for this financial product?

The sub-fund is expected to invest at least 70% of its NAV in issuers that integrate E/S characteristics (#1). The sub-fund is allowed to invest the remainder of its NAV in remaining investments such as cash, cash equivalents, issuers that do not systematically integrate E/S characteristics, investments in other UCITS/UCIs and/or derivative instruments (#2 Other).]

● **How does the use of derivatives attain the environmental or social characteristics promoted by the financial product?**

Derivatives are not used to attain the environmental or social characteristics of the Sub-Fund. However, they may be used as efficient portfolio management tools, for cash management, for hedging purposes, or as an additional source of return.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

To what minimum extent are sustainable investments with an environmental objective aligned with the EU Taxonomy?

Not applicable.

- Does the financial product invest in fossil gas and/or nuclear energy related activities that comply with the EU Taxonomy¹?

- Yes:
- In fossil gas In nuclear energy
- No

The two graphs below show in green the minimum percentage of investments that are aligned with the EU Taxonomy. As there is no appropriate methodology to determine the Taxonomy-alignment of sovereign bonds, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

- What is the minimum share of investments in transitional and enabling activities?

Not applicable.

What is the minimum share of sustainable investments with an environmental objective that are not aligned with the EU Taxonomy?

Not applicable.

What is the minimum share of socially sustainable investments?

Not applicable.

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective – see explanatory note in the left-hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

What investments are included under “#2 Other”, what is their purpose and are there any minimum environmental or social safeguards?

These investments include derivatives, cash and cash equivalent positions ensuring the sub-fund's liquidity, issuers that do not systematically integrate E/S characteristics and investments in other funds. These investments are not measured against ESG criteria, including any minimum environmental or social safeguards as defined under SFDR.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under the EU Taxonomy.

Is a specific index designated as a reference benchmark to determine whether this financial product is aligned with the environmental and/or social characteristics that it promotes?

Yes, the Sub-Fund tracks the MSCI EMU ESG Leaders Index as the reference benchmark. The methodology of the reference benchmark is explained online at: <https://www.msci.com/msci-esg-leaders-indexes>

- **How is the reference benchmark continuously aligned with each of the environmental or social characteristics promoted by the financial product?**

The reference benchmark is aligned with each of the environmental or social characteristics by investing in companies that are required to have a MSCI Rating of BB or above, by investing in companies that are required to have a MSCI ESG controversies score of 3 or above, and by excluding companies that are involved in the controversial sectors defined in the Appendix 2 of the MSCI ESG Leaders Indexes Methodology. The reference benchmark is periodically rebalanced as described in the index methodology.

- **How is the alignment of the investment strategy with the methodology of the index ensured on a continuous basis?**

This Sub-Fund tracks the reference benchmark and is continuously monitoring the constituents of the benchmark.

- **How does the designated index differ from a relevant broad market index?**

The reference benchmark is based on the MSCI EMU Index as its parent index. It differs from this broad market index by a higher exposure to companies with highest ESG ratings and by avoiding exposure to companies involved in severe controversies.

- **Where can the methodology used for the calculation of the designated index be found?**

The methodology of the reference benchmark is explained online at: www.msci.com/indexes.

Where can I find more product specific information online?

More product-specific information can be found on the website: <https://lu.swisslife-am.com/en/home/responsible-investment/sustainability-related-disclosures.html>.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

Additional information for investors in Switzerland

Representative

The representative in Switzerland is Swiss Life Asset Management AG, General Guisan-Quai 40, 8002 Zurich.

Paying agent

The paying agent in Switzerland is UBS Switzerland AG, Bahnhofstrasse 45, 8001 Zurich.

Place where the relevant documents may be obtained

The Prospectus and the Key Investor Information, the Articles as well as the annual and semi-annual reports may be obtained free of charge from the representative.

Publications

Publications concerning the foreign collective investment scheme are made in Switzerland on the electronic platform www.swissfunddata.ch. Each time units are issued or redeemed, the issue and the redemption prices or the net asset value together with a reference stating "excluding commissions" must be published for all share classes on the electronic platform www.swissfunddata.ch and on the website www.swisslife-am.com. Prices must be published at least twice per month, on the first and third Monday or the following Business Day.

Payment of retrocessions and rebates

The Company and its agents may pay retrocessions as remuneration for distribution activity in respect of fund units in Switzerland. This remuneration may be deemed payment for the following services in particular:

- setting up processes for subscribing, holding and safe custody of the units;
- keeping a supply of marketing and legal documents, and issuing the said;
- forwarding or providing access to legally required publications and other publications;
- performing due diligence delegated by the Company in areas such as money laundering, ascertaining client needs and distribution restrictions;
- mandating an authorized auditor to check compliance with certain duties of the Distributor;
- operating and maintaining an electronic distribution and/or information platform for third-party providers
- clarifying and answering specific questions from investors pertaining to the investment product or the Company;
- drawing up fund research material;
- central relationship management;

- subscribing units as a "nominee" for several clients as mandated by the Company;
- training client advisors in collective investment schemes;
- mandating and monitoring additional distributors.

Retrocessions are not deemed to be rebates even if they are ultimately passed on, in full or in part, to the investors.

Disclosure of the receipt of retrocessions is based on the applicable provisions of FinSA.

In the case of distribution activity in Switzerland, the Company and its agents may, upon request, pay rebates directly to investors. The purpose of rebates is to reduce the fees or costs incurred by the investor in question. Rebates are permitted provided that:

- they are paid from fees received by the Company and therefore do not represent an additional charge on the fund assets;
- they are granted on the basis of objective criteria;
- all investors who meet these objective criteria and demand rebates are also granted these within the same timeframe and to the same extent.

The objective criteria for the granting of rebates by the Company are as follows:

- the volume subscribed by the investor or the total volume they hold in the collective investment scheme or, where applicable, in the product range of the promoter;
- the amount of the fees generated by the investor;
- the investment behaviour shown by the investor (e.g. expected investment period);
- the investor's willingness to provide support in the launch phase of a collective investment scheme.

At the request of the investor, the Company must disclose the amounts of such rebates free of charge.

Place of performance and jurisdiction

In respect of the shares offered in Switzerland, the place of performance is the registered office of the representative. The place of jurisdiction is at the registered office of the representative or at the registered office or place of residence of the investor.
