

Focused Fund

Investment fund under Luxembourg law (“Fonds commun de placement”)

February 2025

Sales Prospectus

Units of Focused Fund (hereinafter also referred to as the (“Fund”)) may be acquired on the basis of this Sales Prospectus, the Management Regulations, the latest annual report and, if already published, the subsequent semi-annual report.

Only the information contained in the Sales Prospectus and in one of the documents referred to in the Sales Prospectus shall be deemed valid.

Furthermore, a key information document for retail and insurance-based packaged investment products within the meaning of Regulation (EU) No 1286/2014 of the European Parliament and of the Council of 26 November 2014 on key information documents for retail and insurance-based packaged investment products (PRIIPs) (“KID”), is made available to investors before subscribing for units. For the avoidance of doubt, UCITS Key Investor Information Documents (“KIIDs”) shall continue to be made available to investors in the UK to the extent this remains a regulatory requirement. References to the “KID” in this Prospectus shall therefore also be read as a reference to the “KIID” where applicable. Information on whether a sub-fund of the Fund is listed on the Luxembourg Stock Exchange can be obtained from the UCI Administrator or the Luxembourg Stock Exchange website (www.bourse.lu). The issue and redemption of Fund units is subject to the regulations prevailing in the country where this takes place. The Fund treats all investor information with the strictest confidentiality, unless its disclosure is required pursuant to statutory or supervisory provisions.

Units in this Fund may not be offered, sold or delivered within the United States.

Units of this Fund may not be offered, sold or delivered to investors who are US Persons. A US Person is any person who:

- (i) is a United States person within the meaning of Section 7701(a)(30) of the US Internal Revenue Code of 1986, as amended, and the Treasury Regulations promulgated thereunder;
- (ii) is a US person within the meaning of Regulation S under the US Securities Act of 1933 (17 CFR § 230.902(k));
- (iii) is not a Non-United States person within the meaning of Rule 4.7 of the US Commodity Futures Trading Commission Regulations (17 CFR § 4.7(a)(1)(iv));
- (iv) is in the United States within the meaning of Rule 202(a)(30)-1 under the US Investment Advisers Act of 1940, as amended; or
- (v) is any trust, entity or other structure formed for the purpose of allowing US Persons to invest in the Fund.

Management and administration

Management Company

UBS Asset Management (Europe) S.A., RCS Luxembourg B 154.210 (the “Management Company”).

The Management Company was established in Luxembourg on 1 July 2010 as an Aktiengesellschaft (public limited company) for an indefinite period. Its registered office is located at 33A, avenue J.F. Kennedy, L-1855 Luxembourg.

The Articles of Association of the Management Company were published on 16 August 2010 by way of a notice of deposit in the Mémorial, Recueil des Sociétés et Associations (hereinafter referred to as the “Mémorial”).

The consolidated version of the Articles of Association may be consulted at the Luxembourg Trade and Companies Register (Registre de Commerce et des Sociétés). The corporate purpose of the Management Company is to manage undertakings for collective investment pursuant to Luxembourg law and to issue/redeem units or shares in these products, among other activities. In addition to the Fund, the Management Company currently manages other undertakings for collective investment.

The Management Company has fully paid-up equity capital of EUR 13,742,000.

Board of Directors of the Management Company (the “Board of Directors”)

Chairman	Michael Kehl, Head of Products, UBS Asset Management Switzerland AG, Zurich, Switzerland
Members	Francesca Prym, CEO, UBS Asset Management (Europe) S.A., Luxembourg, Grand Duchy of Luxembourg
	Eugène Del Cioppo, CEO, UBS Fund Management (Switzerland) AG,

Basel, Switzerland

Luxembourg, Grand Duchy of Luxembourg

Portfolio Manager

Sub-fund	Portfolio Manager
Focused Fund – Corporate Bond Sustainable USD	UBS Asset Management (Americas) LLC, New York, US

The Management Company has assigned the Portfolio Management of the sub-funds to the Portfolio Managers as described above. The Portfolio Manager has been assigned the management of the securities portfolio under the supervision and responsibility of the Management Company; to this end, it carries out all transactions relevant hereto in accordance with the prescribed investment restrictions.

The Portfolio Management entities of UBS Asset Management may transfer their mandates, fully or in part, to associated Portfolio Managers within UBS Asset Management. Responsibility in each case remains with the aforementioned Portfolio Manager assigned by the Management Company.

Depository and Main Paying Agent

UBS Europe SE, Luxembourg Branch, 33A avenue J.F. Kennedy, L-1855 Luxembourg, (B.P. 2, L-2010 Luxembourg)

UBS Europe SE, Luxembourg Branch, has been appointed depository of the Fund (the “**Depository**”). The Depository will also provide paying agent services to the Fund.

The Depository is a Luxembourg branch office of UBS Europe SE, a European company (societas Europaea – SE) with its registered office in Frankfurt am Main, Germany, listed in the trade and companies register of the Frankfurt am Main district court (Handelsregister des Amtsgerichts Frankfurt am Main) under number HRB 107046. The Depository is located at 33A, avenue J.F. Kennedy, L-1855 Luxembourg, and is entered in the Luxembourg trade and companies register under B 209.123.

The Depository has been assigned the safekeeping of those financial instruments of the Company that can be held in custody, as well as the record keeping and verification of ownership for other assets held by the Fund. The Depository shall also ensure the effective and proper monitoring of the Fund’s cash flows pursuant to the provisions of the Law of 17 December 2010 on undertakings for collective investment (“**Law of 2010**”) and the depository agreement (hereinafter referred to as the “**Depository Agreement**”), each as amended. Assets held in custody by the Depository shall not be reused for their own account by the Depository or any third party to whom custody has been delegated, unless such reuse is expressly permitted by the Law of 2010.

In addition, the Depository shall also ensure that (i) the sale, issue, repurchase, redemption and cancellation of units is carried out in accordance with Luxembourg law, the Sales Prospectus and the Management Regulations; (ii) the value of the units is calculated in accordance with Luxembourg law; (iii) the instructions of the Management Company are carried out, unless they conflict with applicable Luxembourg law, the Sales Prospectus and/or the Management Regulations; (iv) for transactions involving the Fund’s assets, any consideration is remitted to the Fund within the usual time limits; and (v) the Fund’s income is appropriated in accordance with Luxembourg law, the Sales Prospectus and the Management Regulations.

In accordance with the provisions of the Depository Agreement and the Law of 2010, the Depository may appoint one or more sub-depositaries. Subject to certain conditions and with the aim of effectively fulfilling its duties, the Depository may thus delegate all or part

of the safekeeping of those financial instruments that can be held in custody as entrusted to it, and/or all or part of its duties regarding the record keeping and verification of ownership of other assets of the Fund. The Depositary does not permit its sub-depositaries to make use of sub-delegates without its prior approval.

In accordance with the applicable laws and regulations, as well as the directive on conflicts of interest, the Depositary shall assess potential conflicts of interest that may arise from the delegation of its safekeeping tasks to a sub-depositary or sub-delegate before any such appointment takes place. The Depositary is part of the UBS Group: a global, full-service private banking, investment banking, asset management and financial services organisation that is a major player on the global financial markets. As such, conflicts of interest may arise in connection with the delegation of its safekeeping tasks, because the Depositary and its affiliates engage in various business activities and may have diverging direct or indirect interests.

Unitholders may obtain additional information free of charge by addressing a written request to the Depositary.

In order to avoid potential conflicts of interest, the Depositary does not permit the appointment of sub-depositaries or sub-delegates that belong to the UBS Group, unless such appointment is in the interest of the unitholders and no conflict of interest is identified at the time of appointment of the sub-depositary or sub-delegate. Irrespective of whether a sub-depositary or sub-delegate is part of the UBS Group, the Depositary will exercise the same level of due skill, care and diligence both in the selection and appointment as well as in the on-going monitoring of the respective sub-depositary or sub-delegate. Furthermore, the conditions determining the appointment of any sub-depositary or sub-delegate that is member of the UBS Group will be negotiated at arm's length in order to protect the interests of the Fund and its unitholders. Should a conflict of interest arise and prove impossible to mitigate, such conflict of interest will be disclosed to the unitholders, together with all decisions taken pertaining thereto. An up-to-date description of all custody tasks delegated by the Depositary, alongside an up-to-date list of these delegates and sub-delegates can be found on the following webpage: <https://www.ubs.com/global/en/legalinfo2/luxembourg.html>.

Where the law of a third country requires that financial instruments be held in custody by a local entity and no local entity satisfies the delegation requirements of Article 34 bis, Paragraph 3, lit. b) i) of the Law of 2010, the Depositary may delegate its tasks to such local entity to the extent required by the law of such third country for as long as there are no local entities satisfying the aforementioned requirements. In order to ensure that its tasks are only delegated to sub-depositaries providing an adequate standard of protection, the Depositary must exercise all due skill, care and diligence as required by the Law of 2010 in the selection and appointment of any sub-depositary to which it intends to delegate a portion of its tasks. Furthermore, it must continue to exercise all due skill, care and diligence in the periodic review and ongoing monitoring of any sub-depositary to which it has delegated a portion of its tasks and of any arrangements entered into by the sub-depositary in respect of the matters delegated to it. In particular, delegation is only permitted if the sub-depositary keeps the assets of the Fund separate from the Depositary's own assets and the assets belonging to the sub-depositary at all times during performance of the delegated tasks pursuant to the Law of 2010. The Depositary's liability shall not be affected by any such delegation, unless otherwise stipulated in the Law of 2010 and/or the Depositary Agreement.

The Depositary is liable to the Fund and its unitholders for the loss of a financial instrument held in custody within the meaning of Article 35(1) of the Law of 2010 and Article 12 of Commission Delegated Regulation (EU) 2016/438 of 17 December 2015 supplementing the UCITS Directive with regard to the obligations of depositaries (the "**Deposited Fund Assets**") by the Depositary and/or a sub-depositary (the "**Loss of a Deposited Fund Asset**").

In the event of the Loss of a Deposited Fund Asset, the Depositary must provide a financial instrument of the same type or value to the Fund without undue delay. In accordance with the provisions of the Law of 2010, the Depositary will not be liable for the Loss of a Deposited Fund Asset if this was the result of an external event beyond its reasonable control, the consequences of which would have been unavoidable despite all reasonable efforts to the contrary.

Without prejudice to the special liability of the Depositary in the event of the loss of any fund assets held in custody, the Depositary shall be liable for any loss or damage suffered by the Fund resulting directly from the Depositary's negligence, fraud or wilful misconduct in the execution of the services under the Depositary Agreement, except in respect of the Depositary's duties under the Law of 2010 for which the Depositary will be liable for any loss or damage suffered by the Fund resulting directly from the Depositary's negligent or intentional failure to properly fulfil its obligations pursuant to the Law of 2010.

The Management Company and the Depositary may terminate the Depositary Agreement at any time by giving three (3) months' notice via registered letter. The Depositary Agreement may also be terminated on shorter notice in certain circumstances, for instance where one party commits a material breach of its obligations. Pending the appointment of a new depositary, which must take place at the latest within a period of two (2) months after the termination of the Depositary Agreement becomes effective, the Depositary shall take all necessary steps to ensure good preservation of the interests of the Fund's investors. If the Management Company does not name another depositary as its successor within this time, the Depositary may notify the Luxembourg supervisory authority (Commission de Surveillance du Secteur Financier – "**CSSF**") of the situation.

The Depositary is not involved, directly or indirectly, with the business affairs, organisation or management of the Fund and is not responsible for the content of this document and thus accepts no responsibility for the accuracy of any information contained herein or the validity of the structure and investments of the Fund. The Depositary has no decision-making discretion nor any advice duty relating to the Fund's investments and is prohibited from meddling in the management of the Fund's investments. The Depositary does not have any investment decision-making role in relation to the Fund.

In case the Depositary receives investors' data, such data might be accessible and/or transferred by the Depositary to other entities controlled by the UBS Group AG currently or in the future as well as third-party service providers (the "UBS Partners"), in their capacity as service providers on behalf of the Depositary. UBS Partners are domiciled in the EU or in countries located outside the EU but with an adequate level of data protection (on the basis of an adequacy decision by the European Commission) such as Switzerland. Data could be made available to UBS entities located in Poland, the UK, Switzerland, Monaco, and Germany as well as other branches of UBS Europe SE (in France, Italy, Spain, Denmark, Sweden, Switzerland and Poland), for the purpose of outsourcing certain infrastructure (e.g. telecommunications, software) and/or other tasks in order to streamline and/or centralise a series of processes linked to the finance,

operational, back-office, credit, risk, or other support or control functions. Further information about the outsourcing and processing of personal data by the Depository is available at <https://www.ubs.com/lux-europe-se>.

UCI Administrator Northern Trust Global Services SE, 10, rue du Château d'Eau, L-3364 Leudelange.

The administrative agent is responsible for the general administrative tasks involved in managing the Fund as prescribed by Luxembourg law. These administrative services mainly include calculating the net asset value per unit, keeping the Fund's accounts and carrying out reporting activities. In addition, as registrar and transfer agent of the Company, the UCI Administrator is also responsible for collecting the required information and performing verifications on investors to comply with applicable anti-money laundering rules and regulations. Furthermore, the UCI Administrator provides client communication services being responsible for the production and dispatch of documents intended for investors.

Auditor of the Fund

Ernst & Young S.A., 35E avenue John F. Kennedy, L-1855 Luxembourg.

Auditor of the Management Company

Ernst & Young S.A., 35E avenue John F. Kennedy, L-1855 Luxembourg.

Paying agents

UBS Europe SE, Luxembourg Branch, 33A avenue J.F. Kennedy, L-1855 Luxembourg, (B.P. 2, L-2010 Luxembourg) and other paying agents in the various distribution countries.

Distributors and other sales agents, referred to as "distributors" in the Sales Prospectus.

UBS Asset Management Switzerland AG, Zurich, and other distributors in the various distribution countries.

Profile of the typical investor

Focused Fund – Corporate Bond Sustainable USD

The sub-fund is suitable for investors who wish to invest in a diversified portfolio of US corporate bonds and in a sub-fund which promotes environmental and/or social characteristics. Investors should be prepared to accept the interest rate and credit risks inherent in this type of asset.

Historical performance

Information on where historical performance can be found is outlined in the KID of the relevant unit class or in the corresponding sub-fund-specific document for the Fund's distribution countries.

Risk profile

Sub-fund investments may be subject to substantial fluctuations and no guarantee can be given that the value of a Fund unit will not fall below its value at the time of acquisition.

Factors that can trigger such fluctuations or influence their magnitude include but are not limited to:

- Company-specific changes
- Changes in interest rates
- Changes in exchange rates
- Changes affecting economic factors such as employment, public expenditure and indebtedness, and inflation
- Changes in the legal environment
- Changes to investor confidence in certain asset classes (e.g. equities), markets, countries, industries and sectors; and
- Changes in commodity prices
- Changes that affect the use of renewable energy sources. These include wind, water and solar power, as well as biomass.

By diversifying investments, the Portfolio Manager seeks to partly reduce the negative impact of these risks on the value of the sub-fund.

The Portfolio Manager may use special techniques and financial instruments whose underlying assets are securities, money market instruments and other financial instruments. These instruments may be of crucial importance for certain sub-funds. The risks associated with such techniques are described in this Sales Prospectus under "Risks connected with the use of derivatives" and "Use of derivatives".

Where sub-funds are exposed to specific risks due to their investments, information on these risks is included in the investment policy of this sub-fund.

The Fund

Fund structure

The Fund offers investors various sub-funds (“**umbrella structure**”) that invest in accordance with the investment policy described in this Sales Prospectus. The specific features of each sub-fund are defined in this Sales Prospectus, which will be updated each time a new sub-fund is launched.

Unit classes

Not all the types of unit class described below have to be offered at all times. Information on the unit classes available can be obtained from the UCI Administrator or at www.ubs.com/funds.

“F”	Units in classes with “F” in their name are exclusively reserved for UBS Group AG affiliates. The maximum flat fee for this class does not include distribution costs. These units may only be acquired by UBS Group AG affiliates, either for their own account or as part of discretionary asset management mandates concluded with UBS Group AG companies. In the latter case, the units will be returned to the Fund upon termination of the mandate at the prevailing net asset value and without being subject to charges. The smallest tradable unit is 0.001. Unless the Management Company decides otherwise, the initial issue price of these units amounts to AUD 100, CAD 100, CHF 100, CZK 2,000, DKK 700, EUR 100, GBP 100, HKD 1,000, JPY 10,000, NOK 900, PLN 500, RMB 1,000, RUB 3,500, SEK 700, SGD 100, USD 100, NZD 100 or ZAR 1,000.
“U-X”	Units in classes with “U-X” in their name are exclusively reserved for institutional investors within the meaning of Article 174(2)(c) of the Law of 2010 who have signed a written agreement with UBS Asset Management Switzerland AG or one of its authorised contractual partners on investing in one or more sub-funds of this umbrella fund. The costs for asset management, fund administration (comprising the costs incurred by the Management Company, UCI Administrator and the Depository) and distribution are charged to investors under the aforementioned agreements. This unit class is exclusively geared towards financial products (i.e. funds of funds or other pooled structures under various legislative frameworks). Their smallest tradable unit is 0.001. Unless the Management Company decides otherwise, the initial issue price of these units amounts to AUD 10,000, BRL 40,000, CAD 10,000, CHF 10,000, CZK 200,000, DKK 70,000, EUR 10,000, GBP 10,000, HKD 100,000, JPY 1 million, NOK 90,000, PLN 50,000, RMB 100,000, RUB 350,000, SEK 70,000, SGD 10,000, USD 10,000, NZD 10,000 or ZAR 100,000.

Additional characteristics:

Currencies	The unit classes may be denominated in AUD, CAD, CHF, CZK, DKK, EUR, GBP, HKD, JPY, NOK, PLN, RMB, RUB, SEK, SGD, USD, NZD or ZAR. For unit classes issued in the currency of account of the sub-fund, this currency will not be included in the unit class name. The currency of account features in the name of the relevant sub-fund.
“hedged”	For unit classes with “hedged” in their name and with reference currencies different to the sub-fund’s currency of account (“ unit classes in foreign currencies ”), the risk of fluctuations in the value of the reference currency is hedged against the sub-fund’s currency of account. This hedging shall be between 95% and 105% of the total net assets of the unit class in foreign currency. Changes in the market value of the portfolio, as well as subscriptions and redemptions of unit classes in foreign currencies, can result in the hedging temporarily surpassing the aforementioned range. The Management Company and the Portfolio Manager will take all necessary steps to bring the hedging back within the aforementioned limits. The hedging described has no effect on possible currency risks resulting from investments denominated in a currency other than the sub-fund’s currency of account.
“RMB hedged”	Investors should note that the renminbi (ISO 4217 currency code: CNY), the official currency of the People’s Republic of China (the “ PRC ”), is traded on two markets, namely as onshore RMB (CNY) in mainland China and offshore RMB (CNH) outside mainland China. Units in classes with “RMB hedged” in their name are units whose net asset value is calculated in offshore RMB (CNH). Onshore RMB (CNY) is not a freely convertible currency and is subject to foreign exchange control policies and repatriation restrictions imposed by the PRC government. Offshore RMB (CNH), on the other hand, may be traded freely against other currencies, particularly EUR, CHF and USD. This means the exchange rate between offshore RMB (CNH) and other currencies is determined on the basis of supply and demand relating to the respective currency pair. Convertibility between offshore RMB (CNH) and onshore RMB (CNY) is a regulated currency process subject to foreign exchange control policies and repatriation restrictions imposed by the PRC government in coordination with offshore supervisory and governmental agencies (e.g. the Hong Kong Monetary Authority). Prior to investing in RMB classes, investors should bear in mind that the requirements relating to regulatory reporting and fund accounting of offshore RMB (CNH) are not clearly regulated. Furthermore, investors should be aware that offshore RMB (CNH) and onshore RMB (CNY) have different exchange rates against other currencies. The value of offshore RMB (CNH) can potentially differ significantly from that of onshore RMB (CNY) due to a number of factors including, without limitation, foreign exchange control policies and repatriation

	<p>restrictions imposed by the PRC government at certain times, as well as other external market forces. Any devaluation of offshore RMB (CNH) could adversely affect the value of investors' investments in the RMB classes. Investors should therefore take these factors into account when calculating the conversion of their investments and the ensuing returns from offshore RMB (CNH) into their target currency.</p> <p>Prior to investing in RMB classes, investors should also bear in mind that the availability and tradability of RMB classes, and the conditions under which they may be available or traded, depend to a large extent on the political and regulatory developments in the PRC. Thus, no guarantee can be given that offshore RMB (CNH) or the RMB classes will be offered and/or traded in future, nor can there be any guarantee as to the conditions under which offshore RMB (CNH) and/or RMB classes may be made available or traded. In particular, since the currency of account of the relevant sub-funds offering the RMB classes would be in a currency other than offshore RMB (CNH), the ability of the relevant sub-fund to make redemption payments in offshore RMB (CNH) would be subject to the sub-fund's ability to convert its currency of account into offshore RMB (CNH), which may be restricted by the availability of offshore RMB (CNH) or other circumstances beyond the control of the Management Company.</p> <p>The risk of fluctuations is hedged as described above under "hedged".</p> <p>Potential investors should be aware of the risks of reinvestment, which could arise if the RMB class has to be liquidated early due to political and/or regulatory circumstances. This does not apply to the risk associated with reinvestment due to liquidation of a unit class and/or the sub-fund in accordance with the section "Liquidation and merger of the Fund and its sub-funds or unit classes".</p>
"acc"	The income of unit classes with "-acc" in their name is not distributed unless the Management Company decides otherwise.
"dist"	The income of unit classes with "-dist" in their name is distributed unless the Management Company decides otherwise.
"qdist"	Units in classes with "-qdist" in their name may make quarterly distributions, gross of fees and expenses. Distributions may also be made out of the capital (this may include, inter alia, realised and unrealised net gains in net asset value) (" capital "). Distributions out of capital result in the reduction of an investor's original capital invested in the sub-fund. Furthermore, any distributions from the income and/or involving the capital result in an immediate reduction of the net asset value per unit of the sub-fund. Investors in certain countries may be subject to higher tax rates on distributed capital than on any capital gains from the sale of fund units. Some investors may therefore prefer to subscribe to accumulating (-acc) rather than distributing (-dist, -qdist) unit classes. Investors may be taxed at a later point in time on income and capital arising on accumulating (-acc) unit classes compared with distributing (-dist) unit classes. Investors should consult qualified experts for tax advice regarding their individual situation.
"UKdist"	The aforementioned unit classes can be issued as those with "UKdist" in their name. In these cases, the Management Company intends to distribute a sum which corresponds to 100% of the reportable income within the meaning of the UK reporting fund rules when the unit classes are subject to these reporting fund rules. The Management Company does not intend to make taxable values for these unit classes available in other countries, as they are intended for investors whose investment in the unit class is liable to tax in the UK.

Legal aspects

The Fund is subject to Part I of the Law of 2010 and was launched as an open-ended investment fund without legally independent status in the form of a collective investment fund (fonds commun de placement). It was established in accordance with the Management Regulations approved on 3 June 2003 by the Board of Directors of UBS Focused Fund Management Company S.A.; they entered into force on 21 June 2003. The Management Regulations were initially published by way of a notice of deposit on 21 June 2003 in the "Mémorial" and most recently in the "Recueil Electronique des Sociétés et Associations" ("**RESA**") on 6 June 2017.

The activities of UBS Focused Fund Management Company S.A. in its function as Management Company of the Fund ended on 14 October 2010.

On 15 October 2010, UBS Asset Management (Europe) S.A. (formerly UBS Fund Management (Luxembourg) S.A.) assumed the function of Management Company.

The Fund's Management Regulations may be amended, subject to compliance with applicable law. Any amendments thereto shall be notified by way of a notice of deposit in RESA, as well as by any other means described below in the section entitled "Regular reports and publications". The new Management Regulations shall enter into force on the date of their signature by the Management Company and the Depositary. The consolidated version may be consulted at the Luxembourg trade and companies register (Registre de Commerce et des Sociétés).

The Fund has no legal personality as an investment fund. The entire net assets of each sub-fund are the undivided property of all unitholders who have equal rights in proportion to the number of units they hold. These assets are separate from the assets of the Management Company. The securities and other assets of the Fund are managed by UBS Asset Management (Europe) S.A. as separate trust assets in the interests and for the account of the unitholders.

The Management Regulations give the Management Company the authority to establish different sub-funds for the Fund as well as different unit classes with specific characteristics within these sub-funds. This Sales Prospectus will be updated each time a new sub-fund or additional unit class is launched.

There is no limit on the size of the net assets, the number of units, number of sub-funds and number of unit classes or the duration of the Fund and its sub-funds.

The Fund forms an indivisible legal unit. As regards the association between unitholders, each sub-fund is considered to be independent of the others. The assets of a sub-fund are only liable for liabilities incurred by that sub-fund. As no division of liabilities is made between unit classes, there is a risk that, under certain conditions, currency hedging transactions for unit classes with “hedged” in their name may result in liabilities that affect the net asset value of other unit classes of the same sub-fund.

The acquisition of Fund units implies acceptance of the Management Regulations by the unitholder.

The Management Regulations do not provide for a general meeting of the unitholders.

The Management Company asks investors to note that they only benefit from their rights as unitholders if they have been entered in their own name in the register of unitholders of the Fund following their investment in the Fund. However, if investors buy Fund units indirectly through an intermediary that makes the investment in its own name on behalf of the investor, and as a result, said intermediary is entered into the register of unitholders instead of the investor, the aforementioned rights as unitholders may be granted to the intermediary and not the investor. Investors are therefore advised to enquire as to their investor rights before making an investment decision. It may not always be possible for the investor to be indemnified in case of net asset value calculation errors and/or non-compliance with investment rules and/or other errors at the level of the Fund when subscribing through financial intermediaries. Investors are advised to seek advice in relation to their rights which may be negatively impacted.

The Fund’s financial year ends on the last day of September.

Investment objective and investment policy of the sub-funds

Investment objective

The Fund’s investment objective is to generate an increase in value while giving due consideration to capital security and the liquidity of the net assets.

General investment policy

The assets of the sub-funds are invested following the principle of risk diversification. The sub-funds invest their assets worldwide in equities, other share-like equity interests, such as cooperative shares, dividend-right certificates and participation certificates (other equity instruments and rights), short-term securities, money market instruments and warrants on securities, as well as debt instruments and claims. Debt instruments and claims include bonds, notes, all types of asset-backed securities, convertible bonds, convertible notes, warrant-linked bonds, as well as all legally permissible assets.

In addition, the sub-funds may invest in American depositary receipts (ADRs), global depositary receipts (GDRs) and structured products linked to equities, such as equity-linked notes.

As set out in Point 1.1(g) and Point 5 of the investment principles, the Management Company may, as a main element in achieving the investment policy for each sub-fund and within the statutory limits defined, use special techniques and financial instruments whose underlying assets are securities, money market instruments and other financial instruments.

The markets in warrants on securities, options, futures and swaps are volatile; both the opportunity to achieve gains as well as the risk of suffering losses are higher than with investments in securities. These techniques and instruments will be employed only if they are compatible with the investment policies of the individual sub-funds and do not diminish their quality.

Each sub-fund may hold ancillary liquid assets within a limit of 20% of its net assets. The 20% limit shall only be temporarily breached for a period of time strictly necessary when, because of exceptionally unfavourable market conditions, circumstances so require and where such breach is justified having regard to the interests of unitholders. Liquid assets held to cover exposure to financial derivative instruments do not fall under this restriction. Bank deposits, money market instruments or money market funds that meet the criteria of Article 41(1) of the 2010 Law are not considered to be included in the ancillary liquid assets under Article (2) b) of the 2010 Law. Ancillary liquid assets should be limited to bank deposits at sight, such as cash held in current accounts with a bank accessible at any time, in order to cover current or exceptional payments, or for the time necessary to reinvest in eligible assets provided under Article 41(1) of the 2010 Law or for a period of time strictly necessary in case of unfavourable market conditions. A sub-fund may not invest more than 20% of its Net Asset Value in bank deposits at sight made with the same body

With the sub-funds, care is also taken to ensure that investments are broadly diversified in terms of markets, sectors, borrowers, ratings and companies. For this purpose, the sub-funds may invest up to 10% of their net assets in existing UCITS and UCIs, unless otherwise defined in the individual sub-funds’ investment policy.

ESG integration

UBS Asset Management categorises certain sub-funds as ESG Integration funds. The Portfolio Manager aims to achieve investors’ financial objectives while incorporating sustainability into the investment process. The Portfolio Manager defines sustainability as the ability to leverage the Environmental, Social and Governance (ESG) factors of business practices seeking to generate opportunities and mitigate risks that contribute to the long-term performance of issuers (“Sustainability”). The Portfolio Manager believes that consideration of these factors will deliver better informed investment decisions. **Unlike funds which promote ESG characteristics or with a specific sustainability or impact objective that may have a focused investment universe, ESG Integration Funds are investment funds that primarily aim at maximising financial performance, whereby ESG aspects are input factors within the investment process.** Investment universe restrictions applied on all actively managed funds are captured in the Sustainability Exclusion Policy. Further binding factors, if applicable, are outlined in the Investment Policy of the Sub-Fund.

ESG integration is driven by taking into account material ESG risks as part of the research process. For corporate issuers, this process utilises the ESG Material Issues framework which identifies the financially relevant factors per sector that can impact investment decisions. This orientation toward financial materiality ensures that analysts focus on sustainability factors that can impact the financial performance of the company and therefore investment returns. ESG integration can also identify opportunities for engagement to improve the company's ESG risk profile and thereby mitigate the potential negative impact of ESG issues on the company's financial performance. The Portfolio Manager employs a proprietary ESG Risk Dashboard that combines multiple ESG data sources in order to identify companies with material ESG risks. An actionable risk signal highlights ESG risks to the Portfolio Manager for incorporation in their investment decision making process. For non-corporate issuers, the Portfolio Manager may apply a qualitative or quantitative ESG risk assessment that integrates data on the most material ESG factors. The analysis of material sustainability/ESG considerations can include many different aspects, such as the following among others: the carbon footprint, health and well-being, human rights, supply chain management, fair customer treatment and governance.

Sustainability Exclusion Policy

The Sustainability Exclusion Policy of the Portfolio Manager outlines the exclusions applied to all active investment strategies and therefore restricts the investment universe of actively managed funds.

<https://www.ubs.com/global/en/asset-management/investment-capabilities/sustainability.html>

Annual Sustainability Report

The "UBS Sustainability Report" is the medium for UBS' sustainability disclosures. Published annually, the report aims to openly and transparently disclose UBS' sustainability approach and activities, consistently applying UBS' information policy and disclosure principles.

<https://www.ubs.com/global/en/asset-management/investment-capabilities/sustainability.html>

Sustainability Focus/Impact Funds

UBS Asset Management categorises certain sub-funds as Sustainability Focus/Impact Funds. Sustainability Focus/Impact Funds promote ESG characteristics or have a specific sustainability objective which is defined in the investment policy.

Engagement Program

The engagement program aims to prioritize/select companies where UBS Asset Management has identified concerns or thematic topics on particular ESG factors. These companies are selected from across the universe of companies in which UBS Asset Management invests using a top-down approach in accordance with our principles, as outlined in the Global Stewardship Policy. The prioritization process determines if and when engagement with a company is required. If a company is selected for the Engagement Program, engagement dialogue will generally last for at least two years. This is not an indication that sustainability related engagement has taken place with respect to companies in this portfolio during any given time period or that the companies in this portfolio were chosen with the goal to actively engage. Information on UBS Asset Management's selection of companies, engagement activities, prioritization process and understanding of concerns can be found in the UBS Asset Management Stewardship Annual Report and Stewardship Policy.

<https://www.ubs.com/global/en/assetmanagement/capabilities/sustainable-investing/stewardship-engagement.html> .

Voting

UBS will actively exercise voting rights based on the principles outlined in the UBS Asset Management Proxy Voting policy and UBS Asset Management Stewardship policy, with two fundamental objectives:

1. To act in the best financial interests of our clients to enhance the long-term value of their investments.
2. To promote best practice in the boardroom and encourage strong sustainability practices.

This is not an indication that voting on sustainability related topics has taken place with respect to companies held by a sub-fund during any given time period. For information about voting activities with specific companies please refer to the UBS Asset Management Stewardship Annual Report.

<https://www.ubs.com/global/en/assetmanagement/capabilities/sustainable-investing/stewardship-engagement.html> .

The sub-funds and their special investment policies

Focused Fund – Corporate Bond Sustainable USD

UBS Asset Management categorises this sub-fund as a Sustainability Focus Fund. This sub-fund promotes environmental and/or social characteristics and complies with Article 8 of Regulation (EU) 2019/2088 on sustainability related disclosures in the financial services sector ("SFDR"). Further information related to environmental and/or social characteristics is available in Annex I to this document (SFDR RTS Art. 14(2)).

The actively managed sub-fund uses the benchmark Bloomberg US Corporate Intermediate Index (TR) as reference for portfolio construction, performance evaluation, sustainability profile comparison and risk management purposes. The benchmark is not designed to promote ESG characteristics. For unit classes with “hedged” in their name, currency-hedged versions of the benchmark (if available) are used. The investment universe of the sub-fund is defined by selecting the debt instruments contained in the benchmark supplemented by corporate debt instruments that are not contained in the benchmark. At least two thirds of the investments are denominated in USD. The portion of investments in foreign currencies not hedged against the sub-fund’s currency of account may not exceed 10% of the assets.

After deducting cash and cash equivalents, the sub-fund may invest up to one third of its assets in money market instruments. Up to 25% of its assets may be invested in convertible, exchangeable and warrant-linked bonds as well as convertible debentures. The sub-fund may invest up to 20% of its assets in asset-backed securities (ABS), mortgage-backed securities (MBS) and commercial mortgage-backed securities (CMBS). The risks associated with investments in ABS/MBS are listed in the section entitled “Risk information”. **The sub-fund may also invest up to 10% of its net assets in contingent convertible bonds (CoCos). The associated risks are described in the section "Risks associated with the use of CoCos".**

In addition, after deducting cash and cash equivalents, the sub-fund may invest up to 10% of its assets in equities, equity rights and warrants as well as shares, other equity shares and dividend-right certificates acquired through the exercise of conversion rights, subscription rights or options, in addition to warrants remaining after the separate sale of ex-warrant bonds and any equities acquired with these warrants. The equities acquired by exercise of rights or through subscription must be sold no later than 12 months after they were acquired.

Currency of account: USD

Fees

	Maximum flat fee (maximum management fee) p.a.	Maximum flat fee (maximum management fee) p.a. for unit classes with “hedged” in their name
Unit classes with “F” in their name	2.000% (1.600%)	2.030% (1.620%)
Unit classes with “U-X” in their name	0.000% (0.000%)	0.000% (0.000%)

General risk information

ESG risks

A “sustainability risk” means an environmental, social or governance event or condition that, if it occurs, could cause an actual or a potential material negative impact on the value of the investment. If a sustainability risk associated with an investment materialises, it could lead to the loss in value of an investment.

Investments in UCIs and UCITS

Sub-funds, which have invested at least half of their assets in existing UCIs and UCITS in accordance with their special investment policies, are structured as a fund of funds.

The general advantage of a fund of funds over funds investing directly is the greater level of diversification (or risk spreading). In a fund of funds, portfolio diversification extends not only to its own investments because the investment objects (target funds) themselves are also governed by the stringent principles of risk diversification. A fund of funds enables the investor to invest in a product that spreads its risks on two levels and thereby minimises the risks inherent in the individual investment objects, with the investment policy of the UCITS and UCIs in which most investments are made being required to accord as far as possible with the Fund’s investment policy. The Fund additionally permits investment in a single product, by which means the investor gains an indirect investment in numerous securities.

Certain fees and charges may be incurred more than once when investing in existing funds (such as Depositary and UCI Administrator fees, management/advisory fees and issuing/redemption charges of the UCI and/or UCITS in which the investment is made). Such commission payments and expenses are charged at the level of the target fund as well as of the fund of funds.

The sub-funds may also invest in UCIs and/or UCITS managed by UBS Asset Management (Europe) S.A. or by a company linked to UBS Asset Management (Europe) S.A. through common management or control, or through a substantial direct or indirect holding. In this case, no issuing or redemption charge will be charged on subscription to or redemption of these units. The double charging of commission and expenses referred to above does, however, remain.

The section titled “Expenses paid by the Fund” presents the general costs and expenses associated with investing in existing funds.

Use of financial derivative transactions

Financial derivative transactions are not in themselves investment instruments but rights whose valuation mainly derives from the price and the price fluctuations and expectations of an underlying instrument. Investments in financial derivative transactions are subject to the general market risk, settlement risk, credit and liquidity risk.

Depending on the specific characteristics of financial derivative transactions, however, the aforementioned risks may be of a different kind and occasionally turn out to be higher than the risks with an investment in the underlying instruments.

That is why the use of financial derivative transactions not only requires an understanding of the underlying instrument but also in-depth knowledge of the financial derivative transactions themselves.

The risk of default in the case of financial derivative transactions traded on an exchange is generally lower than the risk associated with financial derivative transactions that are traded over-the-counter on the open market, because the clearing agents, which assume the function of issuer or counterparty in relation to each financial derivative transaction traded on an exchange, assume a performance guarantee. To reduce the overall risk of default, such guarantee is supported by a daily payment system maintained by the clearing agent, in which the assets required for cover are calculated. In the case of financial derivative transactions traded over-the-counter on the open market, there is no comparable clearing agent guarantee and in assessing the potential risk of default, the Management Company must take account of the creditworthiness of each counterparty.

There are also liquidity risks since it may be difficult to buy or sell certain financial derivative instruments. When financial derivative transactions are particularly large, or the corresponding market is illiquid (as may be the case with financial derivative transactions traded over-the-counter on the open market), it may under certain circumstances not always be possible to fully execute a transaction or it may only be possible to liquidate a position by incurring increased costs.

Additional risks connected with the use of financial derivative transactions lie in the incorrect determination of prices or valuation of financial derivative transactions. There is also the possibility that financial derivative transactions do not completely correlate with their underlying assets, interest rates or indices. Many financial derivative transactions are complex and frequently valued subjectively. Inappropriate valuations can result in higher demands for cash by counterparties or in a loss of value for the Fund. There is not always a direct or parallel relationship between a financial derivative transaction and the value of the assets, interest rates or indices from which it is derived. For these reasons, the use of financial derivative transactions by the Management Company is not always an effective means of attaining the Fund's investment objective and can at times even have the opposite effect.

Risks connected with the use of ABS/MBS

Investors are advised that investing in ABS, MBS and CMBS may involve higher complexity and lower transparency. These products involve exposure in a pool of receivables (for ABS, these receivables may be car or student loans or other receivables based on credit card agreements; for MBS or CMBS, they are mortgages), with the receivables issued by an institution founded exclusively for this purpose and which is independent from the lender of the receivables in the pool from a legal, bookkeeping and economic perspective. The payment flows from the underlying receivables (including interest, repayment of receivables and any unscheduled repayments) are passed on to the investors in the products. These products include various tranches subject to a hierarchy. This structure determines the order of repayments and any unscheduled special repayments within the tranches. If interest rates rise or fall, investors are subject to a higher or lower repayment or reinvestment risk if the unscheduled special repayments for the underlying receivables increase or decrease due to better or worse refinancing options for the debtors.

The average term of sub-fund investments in ABS/MBS often differs from the maturity date set for the bonds. The average term is generally shorter than the final maturity date and depends on the dates of repayment flows, which are normally based on the structure of the security and the priority of cash inflows and/or borrower's behaviour in respect of refinancing, repayment and default. ABS/MBS originate from different countries with differing legal structures.

ABS/MBS may be investment grade, non-investment grade or have no rating.

Risks connected with the use of CDOs/CLOs

Investors are advised that some sub-funds may invest in certain kinds of asset-backed security known as collateralised debt obligations (CDOs) or, where the underlying is a loan, collateralised loan obligations (CLOs). Typical CDO or CLO structures have multiple tranches with varying levels of seniority, the most senior tranche having first access to the interest and principal payments out of the pool of underlyings, then the next-senior tranche and so on until the remaining (equity) tranche, which has last access to the interest and principal. CDOs/CLOs may be affected by a loss of value in the underlying assets. Due to their complex structure, they can additionally be hard to value and their behaviour may be unpredictable in different market situations.

Risks associated with the use of CoCos

A CoCo is a hybrid bond that, according to the relevant specific conditions, can either be converted into equity capital at a predetermined price, written off, or written down in value as soon as a predefined trigger event occurs.

The use of CoCos gives rise to structure-specific risks including liquidity risk and conversion risk. In some cases, the issuer may arrange to convert convertible securities into ordinary shares. If convertible securities are converted into ordinary shares, the Company may hold these ordinary shares in its portfolio, even if it does not usually invest in such shares.

CoCos are also subject to trigger level risk. These trigger levels vary and determine the degree of conversion risk, depending on the difference between the trigger level and the capital ratio. The Portfolio Manager of the sub-fund may find it difficult to foresee the triggers that would require the debt security to be converted into equity capital.

In addition, CoCos are subject to capital structure inversion risk. In the issuer's capital structure, CoCos are generally classed as subordinate in relation to traditional convertible bonds. In some cases, investors in CoCos may suffer a capital loss, while shareholders are only affected later or not at all.

It should also be noted that the use of CoCos is subject to return or valuation risk. Their assessment is influenced by a variety of unforeseeable factors, such as the issuer's creditworthiness and fluctuations in its capital ratios, supply and demand for CoCos, general market conditions and available liquidity, as well as economic, financial and political events that have implications for the issuer, the market on which it operates or the financial markets in general.

Furthermore, CoCos are subject to the risk of coupon payment suspensions. Coupon payments on CoCos are at the discretion of the issuer, who may suspend such payments at any time and for whatever reason, for an indefinite period. The arbitrary suspension of payments is not deemed as payment default. It is not possible to call for the reintroduction of coupon payments or the subsequent payment of suspended payments. Coupon payments may also be subject to approval by the supervisory authority of the issuer, and may be suspended if insufficient distributable reserves are available. As a result of the uncertainty regarding coupon payments, CoCos are volatile. A suspension of coupon payments may result in drastic price drops.

CoCos are also subject to a call extension risk. CoCos are perpetual instruments and may only be terminated on predetermined dates after approval by the competent supervisory authority. There is no guarantee that the capital that the sub-fund has invested in CoCos will be returned.

Finally, CoCos are subject to unknown risk, since these instruments are relatively new and, as a result, the market and the regulatory environment for these instruments are still evolving. It is therefore uncertain how the CoCo market overall would react to a trigger or a coupon suspension relating to an issuer.

Swap Agreements

A sub-fund may enter into swap agreements (including total return swaps and contracts for differences) with respect to various underlyings, including currencies, interest rates, securities, collective investment schemes and indices. A swap is a contract under which one party agrees to provide the other party with something, for example a payment at an agreed rate, in exchange for receiving something from the other party, for example the performance of a specified asset or basket of assets. A sub-fund may use these techniques for example to protect against changes in interest rates and currency exchange rates. A sub-fund may also use these techniques to take positions in or protect against changes in securities indices and specific securities prices.

In respect of currencies, a sub-fund may utilise currency swap contracts where the sub-fund may exchange currencies at a fixed rate of exchange for currencies at a floating rate of exchange or vice versa. These contracts allow a sub-fund to manage its exposures to currencies in which it holds investment but also to obtain opportunistic exposure to currencies. For these instruments, the sub-fund's return is based on the movement of currency exchange rates relative to a fixed currency amount agreed by the parties.

In respect of interest rates, a sub-fund may utilise interest rate swap contracts where the sub-fund may exchange a fixed rate of interest against a variable rate (or the other way round). These contracts allow a sub-fund to manage its interest rate exposures. For these instruments, the sub-fund's return is based on the movement of interest rates relative to a fixed rate agreed by the parties. The sub-fund may also utilise caps and floors, which are interest rate swap contracts in which the return is based only on the positive (in the case of a cap) or negative (in the case of a floor) movement of interest rates relative to a fixed rate agreed by the parties.

In respect of securities and securities indices a sub-fund may utilise total return swap contracts where the sub-fund may exchange interest rate cash flows for cash flows based on the return of, for example, a unit or fixed income instrument, or a securities index. These contracts allow a sub-fund to manage its exposures to certain securities or securities indices. For these instruments, the sub-fund's return is based on the movement of interest rates relative to the return on the relevant security or index. The sub-fund may also use swaps in which the sub-fund's return is relative to the volatility of price of the relevant security (a volatility swap, which is a forward contract whose underlying is the volatility of a given product. This is a pure volatility instrument allowing investors to speculate solely upon the movement of a unit's volatility without the influence of its price) or to the variance (the square of the volatility) (a variance swap that is a type of volatility swap where the payout is linear to variance rather than volatility, with the result that the payout will rise at a higher rate than volatility).

Where a sub-fund enters into total return swaps (or invests in other financial derivative instruments with the same characteristics) it will only do so on behalf of the sub-fund with institutions which meet the requirements (including minimum credit rating requirements, if applicable). Subject to compliance with those conditions, the Portfolio Manager has full discretion as to the appointment of counterparties when entering into total return swaps in furtherance of the relevant sub-fund's investment objective and policies.

A credit default swap ("CDS") is a derivative instrument which is a mechanism for transferring and transforming credit risk between purchaser and seller. The protection buyer purchases protection from the protection seller for losses that might be incurred as a result of a default or other credit event in relation to an underlying security. The protection buyer pays a premium for the protection and the protection seller agrees to make a payment to compensate the protection buyer for losses incurred upon the occurrence of any one of a number of possible specified credit events, as set out in the CDS agreement. In relation to the use of CDS, the sub-fund may be a protection buyer and/or a protection seller. A credit event is an event linked to the deteriorating creditworthiness of an underlying reference entity in a credit derivative. The occurrence of a credit event usually triggers full or partial termination of the transaction and a payment from protection seller to protection buyer. Credit events include, but are not limited to, bankruptcy, failure to pay, restructuring, and obligation default.

Insolvency risk on swap counterparties

Margin deposits made in relation to swap contracts will be held with brokers. Though there are provisions in the structure of these contracts intended to protect each party against the insolvency for the other, these provisions may not be effective. This risk will further be mitigated by the exclusive choice of reputable swap counterparties.

Potential illiquidity of exchange traded instruments and swap contracts

It may not always be possible for the Management Company to execute a buy or sell order on exchanges at the desired price or to liquidate an open position due to market conditions including the operation of daily price fluctuation limits. If trading on an exchange is suspended or restricted, the Management Company may not be able to execute trades or close out positions on terms that the Portfolio Manager believes are desirable.

Swap contracts are over-the-counter contracts with a single counterparty and may as such be illiquid. Although swap contracts may be closed out to realise sufficient liquidity, such closing out may not be possible or may be very expensive for the Fund in extreme market conditions.

Liquidity risk

A sub-fund may invest in securities that subsequently prove difficult to sell due to reduced liquidity. This may have an adverse effect on their market price and consequently affect the net asset value of the sub-fund. The reduced liquidity of these securities may be due to unusual or extraordinary economic or market events such as a deterioration in the credit rating of an issuer or the lack of an efficient market. In extreme market situations, there may be few willing buyers and it may not be easy to sell the investments at the time and price desired; in addition, these sub-funds may have to agree to a lower price in order to sell the investments, or they may not be able to sell the investments at all. Trading in certain securities or other instruments may be suspended or restricted by the relevant exchange or by a governmental or supervisory authority, which may cause the sub-fund to incur a loss. The inability to sell a portfolio position may have a negative effect on the value of these sub-funds or prevent them from being able to exploit other investment opportunities. In order to meet redemption requests, these sub-funds may be forced to sell investments at unfavourable times and/or on unfavourable terms.

Bonds

Bonds are subject to actual and perceived measures of creditworthiness. Bonds, and in particular high-yield bonds, may be impaired by negative headlines and an unfavourable perception on the part of investors; such perceptions may not be based on a fundamental analysis, and may have a negative effect on the value and liquidity of the bond.

High yield bonds

Investing in debt instruments involves interest-rate, sector, security and credit risk. Compared with investment-grade bonds, high yield bonds generally attract a lower rating and usually offer higher yields in order to offset the lower credit rating or higher default risk associated with these securities. High yield bonds involve a greater risk of capital erosion through default or in the case of an effective interest rate that is below the current rate of interest. Economic conditions and changes in the level of interest rates may have a considerable impact on the value of these bonds. In addition, high yield bonds may be exposed to greater credit or default risk than bonds with a high rating. These bonds tend to react more to developments that affect market and credit risk than securities with a higher rating. The value of high yield bonds may be adversely affected by macroeconomic conditions, such as an economic downturn or a period of rising interest rates. High yield bonds may be less liquid and more difficult to sell or value at a favourable point in time or price than bonds with a higher rating. In particular, high yield bonds are often issued by smaller, less creditworthy and more indebted companies that are generally less able to pay capital and interest on schedule than financially sound companies.

Risks connected with the use of efficient portfolio management techniques

A sub-fund may enter into repurchase agreements and reverse repurchase agreements as a buyer or as a seller subject to the conditions and limits set out in Section 5 entitled "Special techniques and instruments with securities and money market instruments as underlying assets". If the other party to a repurchase agreement or reverse repurchase agreement should default, the sub-fund might suffer a loss to the extent that the proceeds from the sale of the underlying securities and/or other collateral held by the sub-fund in connection with the repurchase agreement or reverse repurchase agreement are less than the repurchase price or, as the case may be, the value of the underlying securities. In addition, in the event of bankruptcy or similar proceedings of the other party to the repurchase agreement or reverse repurchase agreement or its failure otherwise to perform its obligations on the repurchase date, the sub-fund could suffer losses, including loss of interest on or principal of the security and costs associated with delay and enforcement of the repurchase agreement or reverse repurchase agreement.

A sub-fund may enter into securities lending transactions subject to the conditions and limits set out in Section 5 entitled "Special techniques and instruments with securities and money market instruments as underlying assets". Securities transactions entail a counterparty risk, including the risk that the securities lent will not or cannot be returned on time. If the securities borrower does not return the securities lent by a sub-fund, there is a risk that the securities received will be realised for a lower amount than the securities lent, whether due to the imprecise pricing of the securities, unfavourable market movements, a deterioration in the security issuer's credit standing, illiquidity of the market on which the securities are traded, the negligence or insolvency of the depository holding the securities or the termination of legal agreements, for instance on the grounds of insolvency, which may have adverse effects on the sub-fund's performance. If the other party to a securities lending transaction should default, the sub-fund might suffer a loss to the extent that the proceeds from the sale of the collateral held by the Fund in connection with the securities lending transaction are less than the value of the securities lent. In addition, in the event of the bankruptcy or similar proceedings of the other party to the securities lending transaction or its failure to return the securities as agreed, the sub-fund could suffer losses, including loss of interest on or principal of the securities and costs associated with delay and enforcement of the securities lending agreement.

The sub-funds will only use repurchase agreements, reverse repurchase agreements or securities lending transactions for the purpose of either reducing risks (hedging) or generating additional capital or income for the relevant sub-fund. When using such techniques, the sub-fund will comply at all times with the provisions set out in Section 5 entitled "Special techniques and instruments with securities and money market instruments as underlying assets". The risks arising from the use of repurchase agreements, reverse repurchase agreements and securities lending transactions will be closely monitored and techniques (including collateral management) will be employed to seek to mitigate those risks. Although it is expected that the use of repurchase agreements, reverse repurchase agreements and securities lending transactions will generally not have a material impact on a sub-fund's performance, the use of such techniques may have a significant effect, either negative or positive, on a sub-fund's net asset value.

Exposure to securities financing transactions

The sub-funds' exposure to total return swaps, repurchase agreements/reverse repurchase agreements and securities lending transactions is set out below (in each case as a percentage of net asset value):

Sub-fund	Total Return Swaps		Repurchase agreements/reverse repurchase agreements		Securities Lending	
	Expected	Maximum	Expected	Maximum	Expected	Maximum
Focused Fund – Corporate Bond Sustainable USD	0%	15%	0%	10%	20%	50%

Risk management

Risk management in accordance with the commitment approach and the value-at-risk approach is carried out pursuant to the applicable laws and regulatory provisions. Pursuant to CSSF circular 14/592 (on the ESMA guidelines on ETFs and other UCITS issues), the risk management procedure will also be applied within the scope of collateral management (see section entitled “Collateral management” below) and techniques and instruments for the efficient management of the portfolio (see Section 5, “Special techniques and instruments with securities and money market instruments as underlying assets”).

Leverage

The leverage for UCITS using the value-at-risk (“VaR”) approach is defined pursuant to CSSF circular 11/512 as the “sum of the notionals” of the derivatives used by the respective sub-fund. Unitholders should note that this definition may lead to artificially high leverage which may not correctly reflect the actual economic risk due to, inter alia, the following reasons:

- Regardless of whether a derivative is used for investment or hedging purposes, it increases the leverage amount calculated according to the sum-of-notionals approach;
- The duration of interest rate derivatives is not taken into account. A consequence of this is that short-term interest rate derivatives generate the same leverage as long-term interest rate derivatives, even though short-term ones generate a considerably lower economic risk.

The economic risk of UCITS pursuant to the VaR approach is determined as part of a UCITS risk management process. This contains (among other things) restrictions on the VaR, which includes the market risk of all positions, including derivatives. The VaR is supplemented by a comprehensive stress-test programme.

The average leverage for each sub-fund using the VaR approach is expected to be within the range stated in the table below. Leverage is expressed as a ratio between the sum of the notionals and the net asset value of the sub-fund in question. Greater leverage amounts may be attained for all sub-funds, under certain circumstances.

Sub-fund	Global risk calculation method	Expected range of leverage	Reference portfolio
Focused Fund – Corporate Bond Sustainable USD	Commitment approach	n/a	n.a.

Collateral management

If the Fund enters into OTC transactions, it may be exposed to risks associated with the creditworthiness of these OTC counterparties: should the Fund enter into futures or options contracts, or use other derivative techniques, it shall be subject to the risk that an OTC counterparty might not meet (or cannot meet) its obligations under one or more contracts. Counterparty risk can be reduced by depositing a security (“collateral”, see above).

Collateral may be provided in the form of liquid assets in highly liquid currencies, highly liquid equities and first-rate government bonds. The Fund will only accept such financial instruments as collateral, which would allow it (after objective and appropriate valuation) to liquidate these within an appropriate time period. The Fund, or a service provider appointed by the Fund, must assess the collateral’s value at least once a day. The collateral’s value must be higher than the value of the position of the respective OTC counterparty. However, this value may fluctuate between two consecutive valuations.

After each valuation, however, it is ensured (where appropriate, by requesting additional collateral) that the collateral is increased by the desired amount to meet the value of the respective OTC counterparty’s position (mark-to-market). In order to adequately take into account the risks related to the collateral in question, the Management Company determines whether the value of the collateral to be requested should be increased, or whether this value should be depreciated by an appropriate, conservatively measured amount (haircut). The larger the collateral’s value may fluctuate, the higher the markdown.

The Management Company shall set up internal regulations determining the details of the above-mentioned requirements and values, particularly regarding the types of collateral accepted, the amounts to be added to and subtracted from the respective collateral, and the investment policy for liquid funds that are deposited as collateral. This framework agreement is reviewed and adapted where appropriate by the Management Company on a regular basis.

The Management Company has approved instruments of the following asset classes as collateral in OTC derivative transactions and determined the following haircuts to be used on these instruments:

Asset class	Minimum haircut (% deduction from market value)
Fixed and variable-rate interest-bearing instruments	
Liquid funds in the currencies CHF, EUR, GBP, USD, JPY, CAD and AUD.	0%
Short-term instruments (up to one year) issued by one of the following countries (Australia, Austria, Belgium, Denmark, Germany,	1%

France, Japan, Norway, Sweden, UK, US) and the issuing country has a minimum rating of A	
Instruments that fulfil the same criteria as above and have a medium-term maturity (one to five years).	3%
Instruments that fulfil the same criteria as above and have a long-term maturity (five to ten years).	4%
Instruments that fulfil the same criteria as above and have a very long-term maturity (more than ten years).	5%
US TIPS (Treasury inflation protected securities) with a maturity of up to ten years	7%
US Treasury strips or zero coupon bonds (all maturities)	8%
US TIPS (Treasury inflation protected securities) with a maturity of over ten years	10%

The haircuts to be used on collateral from securities lending, as the case may be, are described in Section 5 entitled “Special techniques and instruments with securities and money market instruments as underlying assets”.

Securities deposited as collateral may not have been issued by the respective OTC counterparty or be highly correlated with this OTC counterparty. For this reason, shares from the finance sector are not accepted as collateral. Securities deposited as collateral shall be held in safekeeping by the Depository on behalf of the Fund and may not be sold, invested or pledged by the Fund.

The Fund shall ensure that the collateral received is adequately diversified, particularly regarding geographical dispersion, diversification across different markets and the spreading of concentration risk. The latter is considered to be sufficiently diversified if securities and money market instruments held as collateral and issued by a single issuer do not exceed 20% of the Fund’s net assets.

In derogation to the above paragraph and in accordance with the modified Point 43(e) of the ESMA Guidelines on ETFs and other UCITS issues of 1 August 2014 (ESMA/2014/937), the Fund may be fully collateralised in various transferable securities and money market instruments issued or guaranteed by an EU Member State, one or more of its local authorities, a non-Member State, or a public international body to which one or more EU Member States belong. If this is the case, the Fund must ensure that it receives securities from at least six different issues, but securities from any single issue may not account for more than 30% of the net assets of the respective sub-fund.

The Management Company has decided to make use of the exemption clause described above and accept collateralisation of up to 50% of the net assets of the respective sub-fund in government bonds that are issued or guaranteed by the following countries: the US, Japan, the UK, Germany and Switzerland.

Collateral that is deposited in the form of liquid funds may be invested by the Fund. Investments may only be made in: sight deposits or deposits at notice in accordance with Point 1.1(f) of Section 1 “Permitted investments of the Fund”; high-quality government bonds; repurchase agreements within the meaning of Section 5 “Special techniques and instruments with securities and money market instruments as underlying assets”, provided the counterparty in such transactions is a credit institution within the meaning of Point 1.1(f) of Section 1 “Permitted investments of the Fund” and the Fund has the right to cancel the transaction at any time and to request the back transfer of the amount invested (incl. accrued interest); short-term money market funds within the meaning of CESR Guidelines 10-049.

The restrictions listed in the previous paragraph also apply to the spreading of concentration risk. Bankruptcy and insolvency events or other credit events involving the Depository or within its sub-depository/correspondent bank network may result in the rights of the Fund in connection with the collateral being delayed or restricted in other ways. If the Fund owes collateral to the OTC counterparty pursuant to an applicable agreement, then any such collateral is to be transferred to the OTC counterparty as agreed between the Fund and the OTC counterparty. Bankruptcy and insolvency events or other credit default events involving the OTC counterparty, the Depository or its sub-depository/correspondent bank network may result in the rights or recognition of claims of the Fund in connection with the collateral being delayed, restricted or even eliminated, which would even go so far as to force the Fund to fulfil its obligations within the framework of the OTC transaction, regardless of any collateral that had previously been provided to cover any such obligation.

Net asset value, issue, redemption and conversion price

The net asset value and the issue, redemption and conversion price per unit of each sub-fund or unit class are expressed in the currency of account of the sub-fund or unit class concerned and are calculated every business day by dividing the overall net assets of the sub-fund attributable to each unit class by the number of units in circulation in this unit class of the sub-fund. However, the net asset value of a unit may also be calculated on days where no units are issued or redeemed, as described in the following section. In this case, the net asset value may be published, but it may only be used for the purpose of calculating performance, statistics or fees. Under no circumstances should it be used as a basis for subscription and redemption orders.

The percentage of the net asset value attributable to each unit class of a sub-fund changes each time units are issued or redeemed. It is determined by the ratio of issued units in each unit class in relation to the total number of sub-fund units issued, taking into account the fees charged to that unit class.

For sub-funds that, in accordance with their investment policy, predominantly invest in money market instruments, the net assets shall be adjusted to the date customarily specified as the value date of payment of the issue or redemption price.

The value of the assets of each sub-fund is calculated as follows:

- a) Liquid assets (whether in the form of cash and bank deposits, bills of exchange, cheques, promissory notes, expense advances, cash dividends and declared or accrued interest still receivable) are valued at face value, unless this value is unlikely to be fully paid or received, in which case their value is determined by deducting an amount deemed appropriate to arrive at their real value.
- b) Securities, derivatives and other assets listed on a stock exchange are valued at the most recent market prices available. If these securities, derivatives or other assets are listed on several stock exchanges, the most recently available price on the stock exchange that represents the major market for this asset shall apply.
In the case of securities, derivatives and other assets not commonly traded on a stock exchange and for which a secondary market among securities traders exists with pricing in line with the market, the Management Company may value these securities, derivatives and other investments based on these prices. Securities, derivatives and other investments not listed on a stock exchange, but traded on another regulated market that operates regularly and is recognised and open to the public, are valued at the most recently available price on this market.
- c) Securities and other investments not listed on a stock exchange or traded on another regulated market, and for which no appropriate price can be obtained, are valued by the Management Company according to other principles chosen by it in good faith on the basis of probable market prices.
- d) Derivatives not listed on a stock exchange (OTC derivatives) are valued on the basis of independent pricing sources. If only one independent pricing source is available for a derivative, the plausibility of the valuation obtained will be verified using calculation models that are recognised by the Management Company and the Fund's auditors, based on the market value of that derivative's underlying.
- e) Units of other undertakings for collective investment in transferable securities (UCITS) and/or undertakings for collective investment (UCIs) are valued at their last known asset value.
- f) Money market instruments not traded on a stock exchange or on another regulated market open to the public will be valued on the basis of the relevant curves. Curve-based valuations are calculated from interest rates and credit spreads. The following principles are applied in this process: The interest rate nearest the residual maturity is interpolated for each money market instrument. Thus calculated, the interest rate is converted into a market price by adding a credit spread that reflects the creditworthiness of the underlying borrower. This credit spread is adjusted if there is a significant change in the borrower's credit rating.
- g) Securities, money market instruments, derivatives and other assets denominated in a currency other than the relevant sub-fund's currency of account, and not hedged by foreign exchange transactions, are valued using the average exchange rate (between the bid and ask prices) known in Luxembourg or, if none is available, using the rate on the most representative market for that currency.
- h) Term and fiduciary deposits are valued at their nominal value plus accumulated interest.
- i) The value of swaps is calculated by an external service provider and a second independent valuation is provided by another external service provider. Such calculations are based on the net present value of all cash flows (both inflows and outflows). In some specific cases, internal calculations (based on models and market data made available by Bloomberg) and/or broker statement valuations may be used. The valuation method depends on the security in question and is chosen pursuant to the applicable UBS valuation policy.

The Management Company is authorised to apply other generally recognised and verifiable valuation criteria in good faith to arrive at an appropriate valuation of the net assets if, due to extraordinary circumstances, a valuation in accordance with the foregoing provisions proves unfeasible or inaccurate.

In extraordinary circumstances, additional valuations may be made throughout the day. Such new valuations shall apply for subsequent issues and redemptions of units.

Due to fees and charges as well as the buy-sell spreads for the underlying investments, the actual costs of buying and selling assets and investments for a sub-fund may differ from the last available price or, if applicable, the net asset value used to calculate the net asset value per unit. These costs have a negative impact on the value of a sub-fund and are termed "dilution". To reduce the effects of dilution, the Board of Directors may at its own discretion make a dilution adjustment to the net asset value per unit (swing pricing).

Units are issued and redeemed based on a single price: the net asset value per unit. To reduce the effects of dilution, the net asset value per unit is nevertheless adjusted on valuation days as described below; this takes place irrespective of whether the sub-fund is in a net subscription or net redemption position on the relevant valuation day. If no trading is taking place in a sub-fund or class of a sub-fund on a particular valuation day, the unadjusted net asset value per unit is applied. The Board of Directors has discretion to decide under which circumstances such a dilution adjustment should be made. The requirement to carry out a dilution adjustment generally depends on the scale of subscriptions or redemptions of units in the relevant sub-fund. The Board of Directors may apply a dilution adjustment if, in its view, the existing unitholders (in the case of subscriptions) or remaining unitholders (in the case of redemptions) could otherwise be put at a disadvantage. The dilution adjustment may take place if:

- (a) a sub-fund records a steady fall (i.e. a net outflow due to redemptions);
- (b) a sub-fund records a considerable volume of net subscriptions relative to its size;
- (c) a sub-fund shows a net subscription or net redemption position on a particular valuation day; or

(d) In all other cases in which the Board of Directors believes a dilution adjustment is necessary in the interests of the unitholders.

When a valuation adjustment is made, a value is added to or deducted from the net asset value per unit depending on whether the sub-fund is in a net subscription or net redemption position; the extent of the valuation adjustment shall, in the opinion of the Board of Directors, adequately cover the fees and charges as well as the buy-sell spreads. In particular, the net asset value of the respective sub-fund will be adjusted (upwards or downwards) by an amount that (i) reflects the estimated tax expenses, (ii) the trading costs that may be incurred by the sub-fund, and (iii) the estimated bid-ask spread for the assets in which the sub-fund invests. As some equity markets and countries may show different fee structures on the buyer and seller side, the adjustment for net inflows and outflows may vary. Generally speaking, adjustments shall be limited to a maximum of 2% of the relevant applicable net asset value per unit. Under exceptional circumstances (e.g. high market volatility and/or illiquidity, extraordinary market conditions, market disruptions etc.), the Board of Directors may decide to apply temporarily a dilution adjustment of more than 2% of the relevant applicable net asset value per unit in relation to each sub-fund and/or valuation date, provided that the Board of Directors is able to justify that this is representative of prevailing market conditions and is in the unitholders' best interest. This dilution adjustment shall be calculated according to the procedure specified by the Board of Directors. Unitholders shall be informed through the normal channels whenever temporary measures are introduced and once the temporary measures have ended.

The net asset value of each class of the sub-fund is calculated separately. However, dilution adjustments affect the net asset value of each class to the same degree in percentage terms. The dilution adjustment is made at sub-fund level and relates to capital activity, but not to the specific circumstances of each individual investor transaction.

Investing in Focused Fund

Conditions for the issue and redemption of units

Sub-fund units are issued and redeemed on every business day. A **"business day"** is a normal bank business day in Luxembourg (i.e. a day when the banks are open during normal business hours), except for 24 and 31 December, individual, non-statutory days of rest in Luxembourg and days on which stock exchanges in the main countries in which the respective sub-fund invests are closed, or on which 50% or more of the investments of the sub-fund cannot be adequately valued.

"Non-statutory days of rest" are days on which banks and financial institutions are closed.

Furthermore, the following sub-funds will have additional non-business days during bank holidays (i.e. days in which banks are not open during normal business hours) as specified in the table below:

Focused Fund	Sub-fund	Bank holidays
	Focused Fund - Corporate Bond Sustainable USD	US

Bank holidays defined as follows:

- United States (US): New Year's Day, Martin Luther King Jr. Day, Washington's Birthday (Presidents Day), Memorial Day, Juneteenth National Independence Day, Independence Day, Labor Day, Columbus Day, Veterans Day, Thanksgiving Day, Christmas Day and any additional national holiday declared for exceptional reasons in which banks are not open during normal business hours. (www.federalreserve.gov/aboutthefed/k8.htm);

No units will be issued or redeemed on days for which the Management Company has decided not to calculate any net asset values, as described in the section "Suspension of net asset value calculation, and suspension of the issue, redemption and conversion of units". In addition, the Management Company is entitled to reject subscription orders at its discretion.

The Management Company prohibits all transactions that it deems potentially detrimental to unitholder interests, including market timing and late trading. It is entitled to refuse any application for subscription or conversion that it considers to be allied to such practices. The Management Company is also entitled to take any action it deems necessary to protect unitholders from such practices.

Subscription and redemption orders ("orders") registered with the UCI Administrator by 15:00 CET ("cut-off time") on a business day ("order date") will be processed on the basis of the net asset value calculated for that day after the cut-off time ("valuation date").

All orders sent by fax must be received by the UCI Administrator at least one hour prior to the stated cut-off time of the respective sub-fund on a business day. However, the central settling agent of UBS AG in Switzerland, the distributors and other intermediaries may apply other cut-off times that are earlier than those specified above vis-à-vis their clients in order to ensure the correct submission of orders to the UCI Administrator. Information on this may be obtained from the central settlement agent of UBS AG in Switzerland, as well as from the respective distributors and other intermediaries.

For orders registered with the UCI Administrator after the respective cut-off time on a business day, the order date is considered to be the following business day.

The same applies to requests for the conversion of units of a sub-fund into those of another sub-fund of the Fund performed on the basis of the net asset values of the sub-funds concerned.

This means that the net asset value used for settlement is not known at the time the order is placed (forward pricing). It will be calculated on the basis of the last-known market prices (i.e. using the latest available market prices or closing market prices, provided these are available at the time of calculation). The individual valuation principles applied are described in the section below.

Unless required otherwise under the applicable law or regulations, the distributors charged with receiving orders request and accept subscription, redemption and/or conversion orders from investors on the basis of a written agreement, a written order form or in an equivalent manner, including the receipt of electronic orders. The usage of such equivalent means to written form must be approved in advance in writing by the Management Company and/or by UBS Asset Management Switzerland AG at its discretion.

Issue of units

The issue price of sub-fund units is calculated according to the provisions in the section “Net asset value, issue, redemption and conversion price”.

Any taxes, charges or other fees incurred in the relevant country of distribution will also be charged.

Subscriptions for units in the Fund are accepted at the issue price of the sub-funds by the Management Company, the UCI Administrator and the Depositary as well as at any other distributor.

Subject to applicable laws and regulations, the Depositary and/or the agents entrusted with receiving subscription payments may, at their discretion and upon investors' request, accept the payment in currencies other than the currency of account of the respective sub-fund and the subscription currency of the unit class to be subscribed. The exchange rate used will be determined by the respective agent on the basis of the bid-ask spread of the relevant currency pair. Investors shall bear all fees associated with currency exchange. Notwithstanding the above, payment of subscription prices for units denominated in RMB shall be made in RMB (CNH) only. No other currency will be accepted for the subscription of these unit classes.

The units may also be subscribed through savings plans, payment plans or conversion plans, in accordance with the locally prevailing market standards. Further information on this can be requested from the local distributors.

The issue price of sub-fund units is paid into the Depositary's account in favour of the sub-fund no later than two business days after the order date (“**settlement date**”).

If, on the settlement date or any day between the order date and the settlement date, banks in the country of the currency of the relevant unit class are not open for business or the relevant currency is not traded in an interbank settlement system, settlement shall take place on the next day on which these banks are open or these settlement systems are available for transactions in the relevant currency.

A local paying agent will carry out the requisite transactions on behalf of the final investor on a nominee basis. Costs for services of the Paying Agent may be imposed on the investor.

At the request of unitholders, the Management Company may accept full or partial subscriptions in kind for units at its own discretion. In such cases, the contribution in kind must suit the investment policy and restrictions of the relevant sub-fund. Such payments in kind will also be appraised by the auditor selected by the Management Company. The costs incurred will be charged to the relevant investor.

Units are issued as registered units only. This means that the unitholder status of an investor in the Fund with all associated rights and obligations will be based on that investor's entry in the Fund register. A conversion of registered units into bearer units may not be requested. Unitholders are reminded that registered units may also be cleared through recognised external clearing houses like Clearstream.

All units issued have the same rights. The Management Regulations nonetheless provide for the possibility of issuing various unit classes with specific features within a particular sub-fund.

Furthermore, fractions of units can be issued for all sub-funds/unit classes. Fractions of units are expressed up to three decimal places. If the relevant sub-fund or unit class is liquidated, fractional units entitle the holder to a distribution or proportionate share of the liquidation proceeds.

Redemption of units

Redemption orders are accepted by the Management Company, the UCI Administrator, the Depositary or another authorised sales or paying agent.

Consideration for sub-fund units submitted for redemption is paid no later than two business days after the order date (“**settlement date**”) unless legal provisions, such as foreign exchange controls or restrictions on capital movements, or other circumstances beyond the control of the Depositary, make it impossible to transfer the redemption amount to the country in which the redemption order has been submitted.

If, on the settlement date or any day between the order date and the settlement date, banks in the country of the currency of the relevant unit class are not open for business or the relevant currency is not traded in an interbank settlement system, settlement shall take place on the next day on which these banks are open or these settlement systems are available for transactions in the relevant currency.

If the value of a unit class in relation to the total net asset value of a sub-fund has fallen below, or failed to reach, a level that the Board of Directors has fixed as the minimum level for the economically efficient management of a unit class, the Board of Directors may decide that all units in this class are to be redeemed against payment of the redemption price on a business day determined by the Board of Directors. Investors of the class/sub-fund concerned shall not have to bear any additional costs or other financial burdens as a result of this redemption. Where applicable, the swing pricing principle described in the Section “Net asset value, issue, redemption and conversion price” shall apply.

For sub-funds with multiple unit classes that are denominated in different currencies, unitholders may, in principle, only receive any consideration for their redemption in the currency of the respective unit class.

Subject to applicable laws and regulations, the Depositary and/or the agents entrusted with paying the redemption proceeds may, at their discretion and upon investors' request, make the payment in currencies other than the currency of account of the respective sub-fund and the currency of the unit class redeemed. The exchange rate used will be determined by the respective agent on the basis of the bid-ask spread of the relevant currency pair.

Investors shall bear all fees associated with currency exchange. These fees, as well as any taxes, commissions or other fees that may be incurred in the relevant country of distribution and, for example, levied by correspondent banks, will be charged to the relevant investor and deducted from the redemption proceeds. Notwithstanding the above, payment of redemption proceeds for units denominated in RMB shall be made in RMB (CNH) only. The investor may not request payment of the redemption proceeds in any currency other than RMB (CNH).

Any taxes, charges or other fees incurred in the relevant country of distribution (including those levied by correspondent banks) will be charged.

However, no redemption charged may be levied.

Net asset value performance shall determine whether the redemption price is higher or lower than the price paid by the investor.

The Management Company reserves the right not to execute redemption and conversion orders in full (redemption gate) on any order date on which this would lead to outflows of more than 10% of the total net asset value of a sub-fund on that date. In this case, the Management Company may decide to only partially execute redemption and conversion orders, and to postpone the redemption and conversion orders for the order date that have not been executed for a period generally not to exceed 20 business days, giving them priority status.

In the event of a large volume of redemption orders, the Management Company may decide to postpone the execution of any redemption order until equivalent Fund assets have been sold (without undue delay). Should such a measure be necessary, all redemption orders received on the same day will be processed at the same price.

A local paying agent will carry out the requisite transactions on behalf of the final investor on a nominee basis. Costs for services of the Paying Agent as well as fees that are levied by correspondent banks may be imposed on the investor.

At the request of unitholders, the Management Company may offer investors full or partial redemptions in kind for units at its own discretion.

Such payments in kind will be appraised by the auditor selected by the Management Company, and must have no negative impact on the remaining unitholders of the Fund. The costs incurred will be charged to the relevant investor.

Conversion of units

At any time, unitholders may convert their units into those of another sub-fund or unit class. Conversion orders are subject to the same procedures as the issue and redemption of units.

The number of units resulting from the conversion of a unitholder's existing units is calculated according to the following formula:

$$\alpha = \frac{\beta * \chi * \delta}{\varepsilon}$$

where:

α = Number of units of the new sub-fund or unit class into which conversion is requested

β = Number of units of the sub-fund or unit class from which conversion is requested

χ = Net asset value of the units submitted for conversion

δ = Foreign exchange rate between the sub-funds or unit classes in question. If both sub-funds or unit classes are valued in the same currency of account, this coefficient equals 1

ε = net asset value of the units in the sub-fund or unit class into which conversion is requested plus any taxes, charges or other fees

Subject to applicable laws and regulations, the Depositary and/or the agents entrusted with receiving conversion payments may, at their discretion and upon investors' request, accept the payment in currencies other than the currency of account of the respective sub-fund and/or the reference currency of the unit class, into which the conversion will take place. The exchange rate used will be determined by the respective agent on the basis of the bid-ask spread of the relevant currency pair. These commissions, as well as any fees, taxes and stamp duties incurred in the individual countries for a sub-fund conversion, are charged to the unitholders.

Prevention of money laundering and terrorist financing

The Fund's distributors must comply with the provisions of the Luxembourg Law of 12 November 2004 on the fight against money laundering and terrorist financing, as amended, as well as the relevant statutory provisions and applicable circulars of the CSSF.

Accordingly, investors must provide proof of their identity to the distributor or sales agent receiving their subscription. The distributor or sales agent must request the following identifying documents from investors as a minimum: natural persons must provide a certified copy of their passport/identity card (certified by the distributor or sales agent or by the local administrative authority); companies and other legal entities must provide a certified copy of the articles of incorporation, a certified copy of the extract from the trade and companies register, a copy of the most recently published annual accounts and the full name of the beneficial owner.

Depending on the circumstances, the distributor or sales agent must request additional documents or information from investors requesting subscriptions or redemptions. The distributor must ensure that the sales agents strictly adhere to the aforementioned identification procedures. The UCI Administrator and the Management Company may, at any time, demand assurance from the distributor that the procedures are being adhered to. The UCI Administrator will monitor compliance with the aforementioned provisions for all subscription and redemption orders they receive from sales agents or distributors in countries in which such sales agents or distributors are not subject to requirements equivalent to Luxembourg or EU law on fighting money laundering and terrorist financing.

Furthermore, the distributor and its sales agents must comply with all the regulations for the prevention of money laundering and terrorist financing in force in the respective countries.

Suspension of net asset value calculation, and suspension of the issue, redemption and conversion of units

The Management Company may temporarily suspend the calculation of the net asset value of one or more sub-funds, as well as the issue and redemption of units, and conversions between individual sub-funds, for one or more business days due to the following:

- the closure, other than for customary holidays, of one or more stock exchanges used to value a substantial portion of the net assets, or of foreign exchange markets in whose currency the net asset value, or a substantial portion of the net assets, is denominated, or if trade on these stock exchanges or markets is suspended, or if these stock exchanges or markets become subject to restrictions or experience major short-term price fluctuations;
- events beyond the control, liability or influence of the Management Company that prevent access to the net assets under normal conditions without causing severe detriment to unitholder interests;
- disruptions in the communications network or any other event that prevents the value of a substantial portion of the net assets from being calculated;
- where it is impossible for the Management Company to repatriate funds to pay redemption orders in the sub-fund in question, or, in its esteem, to transfer funds from the sale or for the acquisition of investments, or for payments following unit redemptions, at normal exchange rates;
- political, economic, military or other circumstances beyond the Management Company's control that prevent the disposal of the Fund's assets under normal conditions without seriously harming the interests of the unitholders;
- for any other reason the value of assets held by a sub-fund cannot be promptly or accurately determined;
- the publication of the Management Company's decision to liquidate the Fund;
- the publication of the Management Company's decision to merge one or more sub-funds, justifying such a suspension for the protection of the unitholders; and
- the Fund can no longer settle its transactions due to restrictions on foreign exchange and capital movements.

Should the calculation of the net asset value, the issue and redemption of units, or the conversion of units between sub-funds be suspended, this will be notified without delay to all the relevant authorities in the countries where units of the Fund are approved for distribution to the public; in addition, notification will be published in the manner described below in the section titled "Regular reports and publications".

If investors no longer meet the requirements to hold units in a unit class, the Management Company is further obliged to request that the investors concerned:

- a) return their units within 30 calendar days in accordance with the provisions on the redemption of units; or
- b) transfer their units to a person who meets the aforementioned requirements for acquiring units in this class; or
- c) convert their units into those of another unit class of the respective sub-fund for which they are eligible in accordance with the acquisition requirements of this unit class.

In addition, the Management Company is authorised to:

- a) refuse a request to buy units, at its own discretion;
- b) redeem, at any time, units subscribed or purchased in defiance of an exclusion clause.

Distributions

In accordance with Article 10 of the Management Regulations, the Management Company will decide whether and what amount of distributions are to be paid out by each sub-fund after closure of the annual accounts. Distributions may be composed of income (e.g. dividend income and interest income) or capital and they may include or exclude fees and expenses.

Investors in certain countries may be subject to higher tax rates on distributed capital than on any capital gains from the sale of fund units. Some investors may therefore choose to invest in the accumulating (-acc) instead of the distributing (-dist,) unit classes. Investors may be taxed at a later point on income and capital arising on accumulating (-acc) unit classes compared with distributing (-dist) unit classes. Investors should consult qualified experts for tax advice regarding their individual situation. Any distribution results in an

immediate reduction of the net asset value per unit of the sub-fund. The payment of distributions must not result in the net assets of the Fund falling below the minimum amount for Fund assets laid down by law. If distributions are made, payment will be effected within four months of the end of the financial year.

The Management Company is entitled to decide whether interim dividends will be paid and whether distribution payments will be suspended.

Entitlements to distributions and allotments not claimed within five years of falling due will lapse and be paid back into the respective sub-fund or unit class. If said sub-fund or unit class has already been liquidated, the distributions and allocations will accrue to the remaining sub-funds of the Fund or the remaining unit classes of the sub-fund concerned in proportion to their respective net assets. The Management Company may decide, in connection with the appropriation of net investment income and capital gains, to issue bonus units. An income equalisation amount will be calculated so that the distribution corresponds to the actual income entitlement.

Taxes and expenses

Taxation

The Fund is subject to Luxembourg law. In accordance with current legislation in the Grand Duchy of Luxembourg, the Fund is not subject to any Luxembourg withholding, income, capital gains or wealth taxes. From the total net assets of each sub-fund, however, a tax of 0.01% p.a. (“taxe d’abonnement”) payable to the Grand Duchy of Luxembourg is due at the end of every quarter. This tax is calculated on the total net assets of each sub-fund at the end of every quarter. In the event that the conditions to benefit from the reduced 0.01% rate are no longer satisfied, all units in classes F and U-X may be taxed at the rate of 0.05%.

Sub-funds may benefit from reduced tax d’abonnement rates ranging from 0.01% to 0.04% p.a. for the portion of net assets that are invested into environmentally sustainable economic activities as defined in Article 3 of EU Regulation 2020/852 of 18 June 2020.

The taxable values provided are based on the most recently available data at the time they were calculated.

Unitholders are not required, under current tax law, to pay any income, gift, inheritance or other tax in Luxembourg, unless they are domiciled or resident or maintain their usual place of abode in Luxembourg or were previously resident in Luxembourg and hold more than 10% of the units in the Fund.

The aforementioned represents a summary of the fiscal impact and makes no claim to be exhaustive. It is the responsibility of purchasers of units to seek information on the laws and regulations governing the purchase, possession and sale of units in connection with their place of residence and their nationality.

Automatic exchange of information – FATCA and the Common Reporting Standard

As an investment fund established in Luxembourg, the Fund is bound by certain agreements on the automatic exchange of information – such as those described below (and others that may be introduced in future, as the case may be) – to collect specific information on its investors and their tax status, and to share this information with the Luxembourg tax authority, which may then exchange this information with the tax authorities in the jurisdictions in which the investors are resident for tax purposes.

According to the US Foreign Account Tax Compliance Act and the associated legislation (“**FATCA**”), the Fund must comply with extensive due diligence obligations and reporting requirements, established to ensure the US Treasury is informed of financial accounts belonging to specified US persons as defined in the Intergovernmental Agreement (“**IGA**”) between Luxembourg and the US. Failure to comply with these requirements may subject the Fund to US withholding taxes on certain US-sourced income and, with effect from 1 January 2019, gross proceeds. In accordance with the IGA, the Fund has been classed as “compliant” and is not charged any withholding tax if it identifies financial accounts belonging to specified US persons and immediately reports these to the Luxembourg tax authorities, which then provide this information to the US Internal Revenue Service.

Drawing extensively on the intergovernmental approach to implementing FATCA, the OECD developed the Common Reporting Standard (“**CRS**”) to combat offshore tax evasion on a global scale. Pursuant to the CRS, financial institutions established in participating CRS jurisdictions (such as the Fund) must report to their local tax authorities all personal and account information of investors, and where appropriate controlling persons, resident in other participating CRS jurisdictions that have concluded an agreement for the exchange of information with the jurisdiction governing the financial institution. Tax authorities in participating CRS jurisdictions will exchange such information on an annual basis. Luxembourg has enacted legislation to implement the CRS. As a result, the Fund is required to comply with the CRS due diligence and reporting requirements adopted by Luxembourg.

In order to enable the Fund to meet its obligations under FATCA and the CRS, prospective investors are required to provide the Fund with information about their person and tax status prior to investment, and to update this information on an ongoing basis. Prospective investors should note that the Fund is obliged to disclose this information to the Luxembourg tax authorities. The investors accept that the Fund may take any action it deems necessary regarding their stake in the Fund to ensure that any withholding tax incurred by the Fund and any other related costs, interest, penalties and other losses and liabilities arising from the failure of an investor to provide the requested information to the Fund are borne by this investor. This may include making this investor liable for any resulting US withholding taxes or penalties arising under FATCA or the CRS, and/or the compulsory redemption or liquidation of this investor’s stake in the Fund.

Prospective investors should consult qualified experts for tax advice regarding FATCA and the CRS and the potential consequences of such automatic exchange of information regimes.

“Specified US person” as defined by FATCA

The term “specified US person” refers to any citizen or resident of the United States, and any company or trust established in the US or under US federal or state law in the form of a partnership or corporation, provided (i) a court within the United States is authorised, pursuant to applicable law, to issue orders or pass rulings in connection with all aspects of the administration of the trust, or (ii) one or

more specified US persons are authorised to take all essential decisions regarding the trust or the estate of a testator who was a US citizen or resident. The section must comply with the US Internal Revenue Code.

Taxation in the United Kingdom

Reporting sub-funds

Within the meaning of the UK Taxation (International and Other Provisions) Act 2010 (hereinafter referred to as "TIOPA"), special provisions apply to investments in offshore funds. The individual unit classes of these offshore funds are treated as separate offshore funds for this purpose. The taxation of unitholders in a reporting unit class is different to the taxation of unitholders in non-reporting unit classes. The individual taxation systems are explained below. The Board of Directors reserves the right to apply for reporting fund status for individual unit classes.

Unitholders in non-reporting unit classes

Each individual unit class is an offshore fund within the meaning of the TIOPA and the UK Offshore Funds (Tax) Regulations 2009 that came into force on 1 December 2019. Within this framework, all income from the sale, disposal or redemption of offshore fund units held by persons resident or ordinarily resident in the United Kingdom at the time of sale, disposal or redemption is taxed as income and not as capital gains. However, this is not the case if the fund is treated as a reporting fund by the UK tax authorities during the period in which the units are held. Unitholders who are resident or ordinarily resident in the United Kingdom for tax purposes and invest in non-reporting unit classes may be obliged to pay income tax on the proceeds from the sale, disposal or redemption of units. Such income is therefore taxable, even if investors would be exempt from capital gains tax under general or special provisions, which may lead to some UK investors having to bear a proportionally higher tax burden. Unitholders who are resident or ordinarily resident in the United Kingdom may offset losses on the disposal of units in non-reporting unit classes against capital gains.

Unitholders in reporting unit classes

Each individual unit class is an offshore fund within the meaning of the TIOPA. Within this framework, all income from the sale, disposal or redemption of offshore fund units at the time of the sale, disposal or redemption are taxed as income and not as capital gains. These provisions do not apply if the fund is accorded reporting fund status and maintains this status during the period in which units are held.

For a unit class to qualify as a reporting fund, the Management Company must apply to the UK tax authorities for the inclusion of the sub-fund in this category. The unit class must then report 100% of the income of the unit class for each financial year. The corresponding report is available for investors to access on the UBS website. Private investors resident in the United Kingdom should include the reportable income in their income tax return. They will then be assessed on the basis of the declared income, whether the income has been distributed or not. In order to determine the income, the income for accounting purposes is adjusted for capital and other items and is based on the reportable income of the corresponding sub-fund. Unitholders are hereby informed that income from trading (but not from investment activities) is classified as reportable income. The key criterion is the type of business activity. Given the lack of clarity in the guidelines concerning the difference between trading and investment activities, there is no guarantee that the proposed activities are not trading activities. Should the activities of the Fund be partly or wholly classified as trading activities, then the annual reportable income for unitholders and the corresponding tax burden would probably be significantly higher than would otherwise be the case. Provided that the relevant unit class fulfils the status of a reporting sub-fund, the income from this unit class will be taxed as a capital gain and not as income, unless the investor is a securities trader. Such gains may therefore be exempt from capital gains tax under general or special provisions, which may lead to some UK investors bearing a comparatively lower tax burden.

In accordance with Chapter 6 of Part 3 of the Offshore Funds (Tax) Regulations 2009 (hereinafter referred to as "**2009 Regulations**"), certain transactions of a regulated sub-fund such as the Company are generally not treated as trading activities for the purpose of calculating the reportable income for reporting sub-funds that fulfil a genuine diversity of ownership conditions. In this respect, the Board of Directors confirms that all unit classes are primarily for private and institutional investors and are offered to these target groups. Regarding the 2009 Regulations, the Board of Directors confirms that the units of the Fund can be easily acquired and are marketed and made available in such a way that they reach and attract the targeted categories of investors.

The attention of persons ordinarily resident in the United Kingdom is drawn to the provisions of Part 13(2) of the Income Tax Act 2007 ("Transfer of Assets Abroad"), which provide that under certain circumstances, these persons may be subject to income tax in connection with non-distributed income and profits arising on investments in sub-fund(s), or similar income and profits, which is not receivable in the United Kingdom by those persons.

In addition, it is important to note the provisions of Section 13 of the Taxation of Chargeable Gains Act of 1992, which govern the distribution of chargeable gains of companies that are not resident in the United Kingdom and that would be considered "close companies" if they were resident in the UK. These gains are distributed to investors who are domiciled or have their ordinary place of residence in the UK. Profits distributed in this manner are taxable for all investors holding a share of more than 10% of the distributed profit either individually or together with associated persons.

The Management Company intends to make all reasonable efforts to ensure that the sub-fund or sub-funds are not classed as a "close company" within the meaning of Section 13 of the Taxation of Chargeable Gains Act if domiciled in the United Kingdom. Moreover, when determining the impact of Section 13 of the Taxation of Chargeable Gains Act of 1992, it is important to ensure that the regulations of the double taxation treaty between the United Kingdom and Luxembourg are taken into account.

Partial exemption under the German Investment Tax Act of 2018

All sub-funds are to be regarded as “other funds” within the meaning of the German Investment Tax Act (**InvStG**), and therefore no partial exemption is possible pursuant to § 20 InvStG.

DAC 6 – Disclosure requirements for reportable cross-border tax arrangements

On 25 June 2018 Council Directive (EU) 2018/822 (“DAC 6”), which introduces rules on the mandatory automatic exchange of information in the field of taxation in relation to reportable cross-border arrangements, entered into force. DAC 6 is intended to enable EU Member States’ tax authorities to obtain comprehensive and relevant information about potentially aggressive tax planning arrangements and to enable authorities to react promptly against harmful tax practices and to close loopholes by enacting legislation or by undertaking adequate risk assessments and carrying out tax audits.

While the requirements laid down by DAC 6 will only apply from 1 July 2020, any arrangements implemented between 25 June 2018 and 30 June 2020 must be reported. The Directive obliges intermediaries in the EU to pass on information to the local tax authorities concerning reportable cross-border arrangements, including specific details concerning the arrangement and information enabling the intermediaries involved and the relevant taxpayers to be identified, i.e. the persons to whom the reportable cross-border arrangement is made available. The local tax authorities then exchange this information with the tax authorities from the other EU Member States. The Fund may therefore be obliged by law to disclose to the competent tax authorities any information in its possession or under its control concerning reportable cross-border arrangements. These legal provisions may also apply to arrangements that do not necessarily constitute aggressive tax planning.

Expenses paid by the Fund

The Fund pays a maximum monthly flat fee for unit class “F”, calculated on the average net asset value of the sub-funds. This shall be used as follows:

1. In accordance with the following provisions, a maximum flat fee based on the net asset value of the Fund is paid from the Fund’s assets for the management, administration, portfolio management and distribution of the Fund (if applicable), as well as for all Depositary tasks, such as the safekeeping and supervision of the Fund’s assets, the processing of payment transactions and all other tasks listed in the “Depositary and Main Paying Agent” section. This fee is charged to the Fund’s assets pro rata temporis upon every calculation of the net asset value, and is paid on a monthly basis (maximum flat fee). The maximum flat fee for unit classes with “hedged” in their name may contain fees for hedging currency risk. The relevant maximum flat fee will not be charged until the corresponding unit classes have been launched. An overview of the maximum flat fees can be found under “The sub-funds and their special investment policies”.
The maximum flat fee effectively applied can be found in the annual and semi-annual reports.
2. The maximum flat fee does not include the following fees and additional expenses, which are also taken from the Fund assets:
 - a) All other Fund asset management expenses for the sale and purchase of assets (bid-ask spread, market-based brokerage fees, commissions, fees, etc.); As a rule, these expenses are calculated upon the purchase or sale of the respective assets. By derogation herefrom, these additional expenses, which arise through the sale and purchase of assets in connection with the settlement of the issue and redemption of units, are covered by the application of the swing pricing principle pursuant to the section titled “Net asset value, issue, redemption and conversion price”.
 - b) Fees of the supervisory authority for the establishment, modification, liquidation and merger of the Fund, as well as all charges payable to the supervisory authorities and any stock exchanges on which the sub-funds are listed;
 - c) Auditor’s fees for the annual audit and for authorisations in connection with creations, alterations, liquidations and mergers within the Fund, as well as any other fees paid to the audit firm for services provided in relation to the administration of the Fund and as permitted by law;
 - d) Fees for legal consultants, tax consultants and notaries in connection with the creation, registration in distribution countries, alteration, liquidation and merger of the Fund, as well as for the general safeguarding of the interests of the Fund and its investors, insofar as this is not expressly prohibited by law;
 - e) Costs for publishing the Fund’s net asset value and all costs for notices to investors, including translation costs;
 - f) Costs for the Fund’s legal documents (prospectuses, KIDs, annual and semi-annual reports, and other documents legally required in the countries of domiciliation and distribution);
 - g) Costs for the Fund’s registration with any foreign supervisory authorities (if applicable), including fees payable to the foreign supervisory authorities, as well as translation costs and fees for the foreign representative or paying agent;
 - h) Expenses incurred through use of voting or creditors’ rights by the Fund, including fees for external advisers;
 - i) Costs and fees related to any intellectual property registered in the Fund’s name, or to the Fund’s rights of usufruct;

- j) All expenses arising in connection with any extraordinary measures taken by the Management Company, Portfolio Manager or Depositary to protect the interests of the investors;
 - k) If the Management Company participates in class-action suits in the interests of investors, it may charge expenses arising in connection with third parties (e.g. legal and depositary costs) to the Fund's assets. Furthermore, the Management Company may bill for all administrative costs, provided these are verifiable, and disclosed and accounted for in the Fund's published total expense ratio (TER);
3. The Management Company may pay trailer fees for the distribution of the Fund.
 4. The Management Company or its agents may pay out rebates directly to investors. Rebates serve to reduce the cost attributable to investors concerned.

Rebates are permitted provided that they:

- are paid out of fees of the Management Company or its agents and thus do not additionally impair the assets of the sub-fund;
- are granted on the basis of objective criteria;
- are granted to the same extent to all investors who meet the objective criteria equally and demand rebates;
- increase the quality of the service for which the rebate is granted (e.g. by contributing to higher assets of the sub-fund that can lead to a more efficient management of the assets and a reduced liquidation probability of the sub-fund and/or a reduction of the fixed costs pro rate for all investors) and all investors bear their fair share of the sub-fund's fees and costs.

The objective criterion for granting rebates is:

- the total assets held by the investor in the unit class of the sub-fund that qualifies for rebates;

Additional criteria may be:

- the total assets in UBS collective investment schemes held by the investor and/or
- the region where the investor is domiciled.

Upon request of the investor, the Management Company or its agents shall disclose the corresponding amount of the rebates free of charge.

All taxes on the Fund's income and assets, particularly the *taxe d'abonnement*, shall also be borne by the Fund.

For purposes of general comparability with fee rules of different fund providers that do not have a flat fee, the term "maximum management fee" is set at 80% of the flat fee.

Costs relating to the services performed for unit classes U-X for asset management, fund administration (comprising the costs of the Company, the UCI Administrator and the Depositary) and distribution are covered by the compensation to which UBS Asset Management Switzerland AG is entitled to under a separate contract with the investor.

All costs that can be allocated to specific sub-funds will be charged to those sub-funds. Costs that can be allocated to unit classes will be charged to those unit classes.

Costs pertaining to some or all sub-funds/unit classes will be charged to those sub-funds/unit classes in proportion to their respective net asset values.

With regard to the sub-funds that may invest in other UCIs or UCITS under the terms of their investment policies, fees may be incurred both at the level of the sub-fund as well as at the level of the relevant target fund. The management fees (excluding performance fees) of the target fund in which the assets of the sub-fund are invested may amount to a maximum of 3%, taking into account any trailer fees.

Should a sub-fund invest in units of funds that are managed directly or by delegation by the Management Company itself or by another company linked to the Management Company through common management or control or through a substantial direct or indirect holding, no issue charges may be charged to the investing sub-fund in connection with these target fund units.

Details on the Fund's ongoing costs (or ongoing charges) can be found in the KIDs.

Information for unitholders

Regular reports and publications

An annual report is published for each sub-fund and the Fund as at 30 September and a semi-annual report as at 31 March.

The aforementioned reports contain a breakdown of each sub-fund in the relevant currency of account. The consolidated breakdown of assets for the Fund as a whole is given in EUR.

The annual report, which is published within four months of the end of the financial year, contains the annual accounts audited by the independent auditors. It also contains details on the underlying assets to which the respective sub-funds are exposed through the use of derivative financial instruments and the counterparties involved in these derivative transactions, as well as the amount and type of collateral provided in favour of the sub-fund by the counterparties in order to reduce the credit risk.

These reports are available to unitholders at the registered office of the Management Company and the Depositary.

The issue and redemption prices of the units of each sub-fund are made available in Luxembourg at the registered office of the Management Company and the Depositary.

Notices to unitholders will be published at www.ubs.com/ame-investornotifications and can be sent by email to those unitholders who have provided an email address for this purpose. Paper copies of such notices will be mailed to those unitholders who have not provided an email address at the postal address recorded in the unitholder registry. Paper copies will also be mailed to unitholders where required by Luxembourg law or supervisory authorities, or legally required in the relevant countries of distribution, and/or published in another form permitted by Luxembourg law.

Inspection of documents

The following documents are available from the registered office of the Management Company:

1. the Management Regulations
2. the latest annual and semi-annual reports for the Fund.

The following documents are kept at the registered office of the Management Company, where they can be viewed:

1. the articles of association of the Management Company
2. the agreements concluded between the Depositary and the Management Company.

The aforementioned agreements may be amended by common consent of the parties involved.

Handling complaints, strategy for exercising voting rights and best execution

In accordance with Luxembourg laws and regulations, the Management Company provides additional information on procedures for handling complaints, the strategy for exercising voting rights as well as best execution on the following website:

www.ubs.com/ame-regulatorydisclosures

Remuneration policy of the Management Company

The Board of Directors has adopted a remuneration policy that aims to ensure remuneration complies with the applicable regulations – in particular the provisions defined under (i) UCITS Directive 2014/91/EU, the ESMA final report on sound remuneration policies under the UCITS Directive and AIFMD published on 31 March 2016, (ii) the Alternative Investment Fund Managers (AIFM) Directive 2011/61/EU, enacted into Luxembourg national law by the AIFM Law of 12 July 2013, as amended, the ESMA guidelines on sound remuneration policies under the AIFMD, published on 11 February 2013 and (iii) the CSSF Circular 10/437 on Guidelines concerning the remuneration policies in the financial sector, issued on 1 February 2010 – as well as the guidelines of the UBS Group AG remuneration policy. This remuneration policy is reviewed at least annually.

The remuneration policy promotes a solid and effective risk management framework, is aligned with the interests of investors, and prevents risks from being taken that do not comply with the risk profiles, the Management Regulations, or the Articles of Incorporation of this UCITS/AIF.

The remuneration policy also ensures compliance with the strategies, objectives, values and interests of the Management Company and the UCITS/AIF, including measures to prevent conflicts of interest.

Furthermore, this approach aims to:

- Evaluate performance over a multi-year period that is suitable to the recommended holding period of investors in the sub-fund, in order to ensure that the evaluation process is based on the Fund's long-term performance and investment risks, and that performance-related remuneration is actually paid out over the same period;
- Provide employees with remuneration that comprises a balanced mix of fixed and variable elements. The fixed remuneration component represents a sufficiently large portion of the total remuneration amount, which allows for a flexible bonus strategy. This includes the option not to pay any variable remuneration. This fixed remuneration is determined according to the individual employee's role, which includes their responsibilities and the complexity of their work, their performance, and the local market conditions. Furthermore, it should be noted that the Management Company may, at its own discretion, offer benefits to employees. These form an integral part of the fixed remuneration.

All information relevant hereto shall be disclosed in the annual reports of the Management Company in accordance with the provisions of UCITS Directive 2014/91/EU.

Unitholders can find more details about the remuneration policy, including, but not limited to, the description of how remuneration and benefits are calculated, the identity of persons responsible for awarding the remuneration and benefits, including the composition of the remuneration committee (if any), are available on www.ubs.com/ame-regulatorydisclosures

This information can also be requested in hard copy from the Management Company free of charge.

Conflicts of interest

The Management Company, the Portfolio Manager, the Depositary, the UCI Administrator and the other service providers of the Fund, and/or their respective affiliates, associates, employees or any person connected with them may be subject to various conflicts of interest in their relationships with the Fund.

The Management Company, the Portfolio Manager, the UCI Administrator and the Depositary have adopted and implemented a policy on conflicts of interest. They have taken suitable organisational and administrative measures to identify and manage conflicts of interest so as to minimise the risk of the Fund's interests being prejudiced, as well as to ensure that the Fund's unitholders are treated fairly in the event that a conflict of interest cannot be prevented.

The Management Company, the Depositary, the Portfolio Manager, the principal distributor, the securities lending transaction broker and the service provider executing securities lending transactions are part of the UBS Group (hereinafter referred to as "**Affiliated Person**").

The Affiliated Person is a global, full-service private banking, investment banking, asset management and financial services organisation that is a major player in the global financial markets. As such, the Affiliated Person is engaged in various business activities and may have other direct or indirect interests in the financial markets in which the Fund invests.

The Affiliated Person (as well as its subsidiaries and branches) may serve as the counterparty in financial derivative contracts entered into with the Fund. Conflicts of interest may also potentially arise if the Depositary is closely associated with a legally independent entity of the Affiliated Person that provides other products or services to the Fund.

In the conduct of its business, the Affiliated Person shall endeavour to identify, manage and where necessary prohibit any action or transaction that may lead to a conflict of interest between the various business activities of Affiliated Person and the Fund or its unitholders. The Affiliated Person endeavours to manage any conflicts in a manner consistent with the highest standards of integrity and fair dealing. To this end, the Affiliated Person has implemented procedures to ensure that any business activities giving rise to a conflict that could harm the interests of the Fund or its unitholders, are carried out with an appropriate level of independence and that any conflicts are resolved fairly. Unitholders may obtain additional information on the Management Company and/or the Fund's policy on conflicts of interest free of charge by addressing a written request to the Management Company.

Despite the Management Company's best efforts and due care, there remains the risk that the organisational or administrative measures taken by the Management Company for the management of conflicts of interest may not be sufficient to ensure, with reasonable confidence, that all risks of damage to the interests of the Fund or its unitholders are eliminated. If this should be the case, any non-mitigated conflicts of interest and any decisions taken in relation thereto will be notified to unitholders on the following website of the Management Company: www.ubs.com/ame-regulatorydisclosures**Error! Hyperlink reference not valid.**

This information is also available free of charge at registered office of the Management Company.

In addition, it must be taken into account that the Management Company and the Depositary are members of the same group. Accordingly, both these entities have put in place policies and procedures to ensure that they (i) identify all conflicts of interests arising from this relationship and (ii) take all reasonable steps to avoid such conflicts of interest.

Where a conflict of interest arising out of the relationship between the Management Company and the Depositary cannot be avoided, the Management Company or the Depositary will manage, monitor and disclose that conflict of interest in order to prevent adverse effects on the interests of the Fund and of the unitholders.

A description of all custody tasks delegated by the Depositary, as well as a list of all delegates and sub-delegates of the Depositary can be found on the following webpage: <https://www.ubs.com/global/en/legalinfo2/luxembourg.html>. Up-to-date information on this will be made available to unitholders upon request.

Data protection

In accordance with the provisions of the Luxembourg Law of 1 August 2018 on the organisation of the National Data Protection Commission and the general data protection framework, as amended, and Regulation (EU) 2016/679 of 27 April 2016 on the protection of natural persons with regard to the processing of personal data and on the free movement of such data (the "data protection legislation"), the Fund acts as a data controller and collects, stores and processes, by electronic or other means, the data provided by investors for the purpose of performing the services required by investors and in order to meet the Fund's legal and supervisory obligations.

The data processed includes in particular the investor's name, contact details (including their postal or email address), bank account details, the amount and the nature of the investments in the Fund (and if the investor is a legal entity, the data of natural persons connected with this legal entity, such as its contact person(s) and/or beneficial owner(s)) ("personal data").

Investors may decline to transfer personal data to the Fund at their own discretion. However, in this case the Fund is entitled to reject orders to subscribe units.

Investors' personal data is processed when they enter into a relationship with the Fund and in order to carry out the subscription of units (i.e. to fulfil a contract), to safeguard the Fund's legitimate interests and to meet the Fund's legal obligations. Personal data is processed for the following purposes in particular: (i) to carry out subscriptions, redemptions and conversions of units, pay dividends to investors and administer client accounts; (ii) to manage client relationships; (iii) to carry out checks relating to excess trading and market timing practices and for tax identification that may be mandated by Luxembourg or foreign legislation and regulations (including laws and regulations relating to FATCA and the CRS); (iv) to comply with applicable anti-money laundering regulations. Data provided by unitholders is also processed, (v) to administer the Fund's register of unitholders. In addition, personal data may be used (vi) for marketing purposes.

The above-mentioned legitimate interests include:

- the purposes listed in points (ii) and (vi) of the previous paragraph of this data protection section for which data may be processed;

- meeting the accounting and supervisory obligations of the Fund in general;
- carrying out the Fund's business in accordance with appropriate market standards.

For this purpose and in accordance with the provisions of the Data Protection Act, the Fund may transmit personal data to its data recipients (hereinafter "recipients"), which are related and third-party companies providing support for the Fund's activities as regards the previously mentioned purposes. These include in particular the management company, the UCI Administrator, the distributors, the depositary, the paying agent, the investment manager, the domiciliary agent, the global distributor, the auditor and the legal advisor of the Fund.

The recipients may pass on the personal data on their own responsibility to their representatives and/or agents (the "sub-recipients"), who may process the personal data solely for the purpose of assisting the recipients in performing their services for the Fund and/or in meeting their legal obligations.

The recipients and sub-recipients may be located in countries inside or outside the European Economic Area (EEA) where data protection legislation may not provide an appropriate level of protection.

When transferring personal data to recipients and/or sub-recipients located in a country outside the EEA which does not have appropriate data protection standards, the Fund shall establish contractual safeguards to ensure that investors' personal data is afforded the same protection as that provided by the data protection legislation and may use the model clauses approved by the European Commission to do so. Investors are entitled to request copies of the relevant documents that enable the transfer of personal data to these countries by sending a written request to the Management Company's address listed above.

When subscribing to units, every investor is explicitly reminded that their personal data may be transferred to and processed by the above-mentioned recipients and sub-recipients, including companies located outside the EEA and in particular in countries that may not offer an appropriate level of protection.

The recipients and sub-recipients may process the personal data as processors when handling the data on the Fund's instructions, or as controllers in their own right when processing the personal data for their own purposes, i.e. to meet their own legal obligations. The Fund may also transfer personal data to third parties in accordance with the applicable legislation and regulations, such as government and supervisory authorities, including tax authorities inside or outside the EEA. In particular, personal data may be passed on to the Luxembourg tax authorities which in turn act as controllers and can forward this data to foreign tax authorities.

In accordance with the provisions of the data protection legislation, every investor has the right, by sending a written request to the Management Company's address listed above, to the following:

- Information on their personal data (i.e. the right to a confirmation from the Fund about whether their personal data is being processed, the right to certain information about how the fund is processing their personal data, the right to access this data and the right to a copy of the personal data that has been processed (subject to statutory exemptions));
- To have their personal data corrected if it is incorrect or incomplete (i.e. the right to request the Fund to update and correct incomplete or incorrect personal data or errors);
- To restrict usage of their personal data (i.e. the right to demand that the processing of their personal data is restricted under certain circumstances until they have given consent for this data to be stored);
- To object to the processing of their personal data, including prohibiting processing of their personal data for marketing purposes (i.e. the right to prohibit the Fund, for reasons relating to the investor's particular situation, from processing data in order to carry out a task in the public interest or based on its legitimate interests; the Fund will then cease to process this data, unless it can demonstrate that there are legitimate and overriding grounds for processing the data which take precedence over the interests, rights and freedoms of the investor, or that processing the data is necessary to enforce, implement or defend legal claims);
- To have their personal data deleted (i.e. the right to request the deletion of their personal data in certain circumstances, in particular if the Fund no longer needs to process this data for the purpose for which it was collected or processed);
- Data portability (i.e. the right, if technically feasible, to request the transfer of the data to the investor or another controller in a structured, widely-used and machine-readable format).

Investors also have the right to lodge a complaint with the National Data Protection Commission at 1, Avenue du Rock'n'Roll, L-4361 Esch-sur-Alzette, Grand Duchy of Luxembourg, or with another national data protection authority if they are resident in another Member State of the European Union.

Personal data will not be stored for longer than required for the purpose for which the data is being processed. The relevant statutory time limits for data storage shall apply.

Index provider

Bloomberg

BLOOMBERG® is a trademark and service mark of Bloomberg Finance L.P. ® is a trademark and service mark of Bank Plc, used under license. Bloomberg Finance L.P. and its affiliates, including Bloomberg Index Services Limited ("BISL") (collectively, "Bloomberg"), or Bloomberg's licensors, own all proprietary rights in the Bloomberg US Corporate Intermediate Index (TR).

Benchmark Regulation

The indices used by the sub-funds as benchmarks (“use” defined in accordance with Regulation (EU) 2016/1011, hereinafter the “Benchmark Regulation”) as at the date of this Sales Prospectus are provided by:

(i) benchmark administrators included in the register of administrators and benchmarks kept by ESMA in accordance with Article 36 of the Benchmark Regulation. Up-to-date information on whether the benchmark is provided by an administrator included in the ESMA register of administrators and benchmarks from the EU and third countries is available at <https://registers.esma.europa.eu>; and/or

(ii) benchmark administrators authorised under the Benchmarks (Amendment and Transitional Provision) (EU Exit) Regulations 2019 of the United Kingdom (“UK Benchmark Regulations”), have the status of benchmark administrators from third countries within the meaning of the Benchmark Regulation and are included in a register of administrators and benchmarks kept by the FCA, and is available at <https://register.fca.org.uk/BenchmarksRegister>; and/or

(iii) benchmark administrators to whom the transitional arrangements under the Benchmark Regulation apply and, consequently, are not yet included in the register of administrators and benchmarks kept by the ESMA.

The transition period for benchmark administrators and the period in which they must apply for authorisation or registration as an administrator under the Benchmark Regulation depend both on the classification of the benchmark concerned and on the domicile of the benchmark administrator.

In the event of significant changes to or the cessation of a benchmark, the Management Company has a written contingency plan that includes the measures to be taken in such a case, as required by Article 28(2) of the Benchmark Regulation. Unitholders may consult the Contingency Plan free of charge upon request at the registered office of the Management Company.

Measuring the sustainability profile (Sustainability Focus Funds)

The binding element(s) are calculated at quarter end using the average of all of business days’ values in the quarter.

Liquidation and merger of the Fund and its sub-funds

Liquidation of the Fund and its sub-funds or unit classes

Unitholders, their heirs and other beneficiaries may not demand the division or liquidation of the Fund, a sub-fund or a unit class. The Management Company, however, is authorised to liquidate the Fund, sub-funds and unit classes provided that, taking into account the unitholders’ interests, such liquidation is deemed appropriate or necessary to protect the Management Company or the Fund, or due to the investment policy.

If the total net asset value of a sub-fund, or unit class within a sub-fund, has fallen below or failed to reach a value required for that sub-fund or unit class to be managed with economic efficiency; or in the event of a substantial change in the political, economic or monetary environment; or as part of a rationalisation; the Management Company may decide to redeem all units of the corresponding unit class(es) at the net asset value (taking into account the actual investment realisation rates and expenses) as at the valuation date or time at which this decision takes effect.

Any resolution to liquidate a sub-fund or unit class will be published in the manner described above in the section titled “Regular reports and publications”. No units may be issued after the date of such a decision and all conversions into the sub-fund/unit class will be suspended. The redemption of units or conversion from the sub-fund/unit class concerned will still be possible even after this decision has been implemented and it shall be ensured that the sub-fund or relevant unit class will take any liquidation costs into account. Those holding units in the sub-fund/relevant unit class at the time the decision to liquidate is taken will consequently bear such costs. In the event of liquidation, the Management Company will realise the Fund’s assets in the best interests of the unitholders and instruct the Depositary to distribute the net proceeds from the liquidation of the sub-fund or unit class to the unitholders of that sub-fund or unit class in proportion to their respective holdings. Any liquidation proceeds that cannot be distributed to the unitholders at the end of the liquidation process (which can take up to nine months) will be deposited immediately at the Caisse de Consignation in Luxembourg.

Liquidation of the Fund is mandatory in the cases prescribed by law and in the event of the liquidation of the Management Company. Notice of such liquidation will be published in at least two daily newspapers (one of which is a Luxembourg daily newspaper) as well as in the RESA.

Merger of the Fund or of sub-funds with another undertaking for collective investment (“UCI”) or with a sub-fund thereof; merger of sub-funds

“Mergers” are transactions in which

- a) one or more UCITS or sub-funds of such UCITS (the “**absorbed UCITS**”), upon being wound up without liquidation, transfer all assets and liabilities to another existing UCITS or a sub-fund of that UCITS (the “**absorbing UCITS**”), and in return, the unitholders of the absorbed UCITS receive units in the absorbing UCITS and (if applicable) a cash payment not exceeding 10% of the net asset value of those units;
- b) two or more UCITS or sub-funds of such UCITS (the “**absorbed UCITS**”), upon being wound up without liquidation, transfer all their assets and liabilities to another UCITS formed by them or by a sub-fund of that UCITS (the “**absorbing UCITS**”), and the unitholders of the absorbed UCITS receive in return units in the absorbing UCITS and, if applicable, a cash payment not exceeding 10% of the net asset value of such units;

- c) one or more UCITS or sub-funds of such UCITS (the “**absorbed UCITS**”) that continue to exist until liabilities have been paid off transfer all net assets to another sub-fund of the same UCITS, to another UCITS formed by them or to another existing UCITS or a sub-fund of that UCITS (the “**absorbing UCITS**”).

Mergers are permissible under the conditions provided for in the Law of 2010. The legal consequences of a merger are defined in the Law of 2010.

Under the conditions described in the section “Liquidation of the Fund and its sub-funds or unit classes”, the Management Company may decide to allocate the assets of a sub-fund or unit class to another existing sub-fund or unit class of the Fund, or to another Luxembourg UCI pursuant to Part 1 of the Law of 2010 or to a foreign UCITS pursuant to the provisions of the Law of 2010. The Management Company may also decide to redesignate the units of the sub-fund or unit class in question as units of another sub-fund or unit class (as a result of the scission or consolidation, if necessary, and through the payment of an amount that corresponds to the pro rata entitlement of the unitholders).

Unitholders will be informed of any such decision by the Management Company in the manner described above in the section entitled “Regular reports and publications”.

Should the Management Company make such a decision, the merger shall be binding for all unitholders of the relevant sub-fund after a period of 30 days commencing on the date on which the decision is published. During this period, unitholders may submit their units for redemption without having to pay any redemption fee or administrative costs. Units not presented for redemption will be exchanged on the basis of the net asset value of the relevant sub-fund, calculated for the day on which the merger takes effect.

Applicable law, place of performance and legally binding document language

The Luxembourg District Court shall have jurisdiction to hear all legal disputes between the unitholders, the Management Company and the Depositary. Luxembourg law shall apply. However, in matters concerning the claims of investors from other countries, the Management Company and/or the Depositary may elect to make themselves and the Fund subject to the jurisdiction of the countries in which the units were bought and sold.

Only the English version of this Sales Prospectus shall be legally binding. However, the Management Company and the Depositary may recognise translations (they themselves have approved) into the languages of the countries in which units are bought or sold to investors as binding upon themselves and the Fund in matters concerning those units.

Investment principles

The following conditions also apply to the investments made by each sub-fund:

1. Permitted investments of the Fund

1.1 The sub-funds’ investments must consist exclusively of:

- a) Securities and money market instruments that are listed or traded on a regulated market, as defined in Directive 2004/39/EC of the European Parliament and of the Council of 21 April 2004 on markets in financial instruments;
- b) Securities and money market instruments that are traded in a Member State on another market that is recognised, regulated, operates regularly and is open to the public. The term “**Member State**” designates a member country of the European Union; countries that are parties to the agreement on the European Economic Area but are not Member States of the European Union are considered equivalent to Member States of the European Union, within the limits of said agreement and its related agreements;
- c) Securities and money market instruments admitted to official listing on a stock exchange in a non-Member State or traded on another market of a European, American, Asian, African or Australasian country (hereinafter “**approved state**”) which operates regularly and is recognised and open to the public;
- d) Newly issued securities and money market instruments, provided the terms of issue stipulate that an application must be made for admission to official listing on one of the securities exchanges or regulated markets mentioned under Points 1.1(a)–(c), and that this admission must be granted within one year of the issue of the securities;
- e) Units of UCITS approved pursuant to Directive 2009/65/EC and/or other UCI within the meaning of Article 1(2)(a) and (b) of Directive 2009/65/EC with their registered office in a Member State as defined in the Law of 2010 or a non-Member State, provided that:
 - such other UCIs have been approved in accordance with legislation subjecting them to prudential supervision that, in the opinion of the CSSF, is equivalent to that which applies under Community law, and that adequate provision exists for ensuring cooperation between authorities;

- the level of protection afforded to unitholders of the other UCIs is equivalent to that afforded to unitholders of the Fund and, in particular, regulations apply that are equivalent to those in Directive 2009/65/EC governing the segregation of assets, borrowing, lending and the short-selling of securities and money market instruments;
- the business operations of the other UCIs are the subject of annual and semi-annual reports that permit an assessment to be made of the assets and liabilities, income and transactions arising during the reporting period;
- the UCITS or such other UCI, the units of which are to be acquired, may invest, pursuant to its Management Regulations or its founding documents, a maximum of 10% of its assets in units of other UCITS or UCIs.

Each sub-fund may invest no more than 10% of its assets in other UCITS or UCIs, unless otherwise stipulated in the investment policy of that sub-fund.

- f) Sight deposits or deposits at notice at credit institutions with a term of up to 12 months, provided the credit institution has its registered office in an EU Member State, or (if the credit institution's registered office is located in a non-Member State) it is subject to supervisory regulations that the Luxembourg supervisory authority deems equivalent to those under Community law;
- g) Derivative financial instruments ("**derivatives**"), including equivalent cash-settled instruments, that are traded on one of the regulated markets listed in (a), (b) and (c) above, and/or derivatives that are not traded on a stock exchange or regulated market ("**OTC derivatives**"), provided that
 - the use of derivatives is in accordance with the investment purpose and investment policy of the respective sub-fund and is suited to achieving their goals;
 - the underlyings constitute instruments as defined by Article 41(1) of the Law of 2010 or are financial indices, such as macroeconomic indices, interest rates, exchange rates or currencies in which investments may be made in line with the investment policy of the sub-fund directly or indirectly via other existing UCIs/UCITS.
 - the sub-funds ensure, through adequate diversification of the underlying assets, that the diversification requirements applicable to them and listed in the section entitled "Risk diversification" are adhered to;
 - the counterparties in transactions involving OTC derivatives are institutions subject to prudential supervision and belonging to the categories admitted by the CSSF and expressly approved by the Board of Directors. The approval process by the Board of Directors is based on the principles drawn up by UBS AM Credit Risk and concerning, inter alia, the creditworthiness, reputation and experience of the relevant counterparty in settling transactions of this type, as well as their willingness to provide capital. The Board of Directors maintains a list of counterparties it has approved;
 - the OTC derivatives are valued daily in a reliable and verifiable manner and may be sold, liquidated or settled by means of a back-to-back transaction at any time, upon the Fund's initiative and at the appropriate fair value; and
 - the counterparty is not granted discretion regarding the composition of the portfolio managed by the relevant sub-fund (e.g. in the case of a total return swap or a derivative financial instrument with similar characteristics), or regarding the underlying of the relevant OTC derivative.
- h) Money market instruments within the meaning of Article 1 of the Law of 2010, which are not traded on a regulated market, provided that the issuance or issuer of these instruments is governed by rules providing protection for investors and investments and on condition that such instruments are:
 - issued or guaranteed by a central, regional or local entity or the central bank of a Member State, the European Central Bank, the European Union or European Investment Bank, a non-Member State, or, in the case of a federal state, a Member State of the federation, or by a public international institution of which at least one Member State is a member;
 - issued by an undertaking whose securities are traded on the regulated markets listed under Point 1.1(a), (b) and (c);
 - issued or guaranteed by an institution subject to prudential supervision in accordance with the criteria laid down in Community law, or by an institution subject to supervision that, in the opinion of the CSSF, is at least as stringent as that provided for in Community law, and that complies with Community law; or

- issued by other issuers belonging to a category approved by the CSSF, provided that regulations protecting investors that are equivalent to those in the first, second or third points above apply to investments in these instruments, and provided that the issuers constitute either a company with equity capital amounting to at least 10 million euro (EUR 10,000,000) that prepares and publishes its annual accounts in accordance with the Fourth Council Directive 78/660/EEC, or an entity within a group encompassing one or more listed companies and responsible for its financing, or an entity which is to fund the securitisation of liabilities by means of a credit line provided by a bank.

- 1.2 In derogation of the investment restrictions set out in Point 1.1, each sub-fund may invest up to 10% of its net assets in securities and money market instruments other than those named in Point 1.1.
- 1.3 The Management Company ensures that the overall risk associated with derivatives does not exceed the overall net value of the Fund portfolio. As part of its investment strategy, each sub-fund may invest in derivatives within the limits set out in Points 2.2 and 2.3, provided the overall risk of the underlying instruments does not exceed the investment limits stipulated in Point 2.
- 1.4 Each sub-fund may hold ancillary liquid assets.

2. Risk diversification

- 2.1 In accordance with the principle of risk diversification, the Management Company is not permitted to invest more than 10% of the net assets of a sub-fund in securities or money market instruments from a single institution. The Management Company may not invest more than 20% of the net assets in deposits with a single institution. In transactions by a sub-fund in OTC derivatives, counterparty risk must not exceed 10% of the assets of that sub-fund if the counterparty is a credit institution as defined in Point 1.1(f). The maximum allowable counterparty risk is reduced to 5% in transactions with other counterparties. The total value of all positions in the securities and money market instruments of those institutions that account for more than 5% of the net assets of a sub-fund may not exceed 40% of the net assets of that sub-fund. This restriction does not apply to deposits and transactions in OTC derivatives with financial institutions that are subject to prudential supervision.
- 2.2 Regardless of the maximum limits set out in 2.1, each sub-fund may invest no more than 20% of its net assets in a single institution, in a combination of:
 - securities and money market instruments issued by this institution,
 - Deposits with that institution and/or
 - OTC derivative contracts with this institution.
- 2.3 In derogation of the above, the following applies:
 - a) The maximum limit of 10% mentioned in Point 2.1 is raised to 25% for certain bonds which fall under the definition of covered bonds in point (1) of Article 3 of Directive (EU) 2019/2162 of the European Parliament and of the Council and for bonds that were issued before 8 July 2022 by credit institutions domiciled in an EU Member State and subject, in that particular country, to special prudential supervision by public authorities designed to protect the holders of these instruments. In particular, funds originating from the issue of such bonds issued before 8 July 2022 must, in accordance with the law, be invested in assets that provide sufficient cover for the obligations arising from them during the entire term of the bonds and that provide a preferential right to payment of the capital and interest in the event of insolvency of the issuer. If a sub-fund invests more than 5% of its net assets in bonds of a single issuer, then the total value of these investments may not exceed 80% of the value of the net assets of the sub-fund.
 - b) The maximum limit of 10% is raised to 35% for securities or money market instruments issued or guaranteed by an EU Member State or its local authorities, by another approved state, or by public international bodies of which one or more EU Member States are members. Securities and money market instruments that come under the special ruling referenced in Point 2.3(a) and (b) are not accounted for in calculating the aforementioned 40% maximum limit pertaining to risk diversification.
 - c) The limits set out in Points 2.1, 2.2, 2.3(a) and (b) may not be aggregated; therefore, the investments listed in these paragraphs made in securities or money market instruments of a single issuing institution, or in deposits with that institution or derivatives thereof, may not exceed 35% of the net assets of a given sub-fund.
 - d) Companies belonging to the same group for the purposes of consolidated accounts, as defined by Council Directive 83/349/EEC Article 1(1) or recognised international accounting rules, must be treated as a single issuer for the calculation of the investment limits set out in this section.
However, investments by a sub-fund in securities and money market instruments of a single corporate group may total up to 20% of the assets of that sub-fund.
 - e) **In the interest of risk diversification, the Management Company is authorised to invest up to 100% of a sub-fund's net assets in securities and money market instruments from various issues that are guaranteed or issued by an EU Member State or its local**

authorities, another authorised OECD member state, China, Russia, Brazil, Indonesia or Singapore, or by public international bodies of which one or more EU Member States are members. These securities and money market instruments must be divided into at least six different issues, with securities or money market instruments from a single issue not exceeding 30% of the total net assets of a sub-fund.

- 2.4 The following provisions apply with regard to investments in other UCITS or UCIs:
- a) The Management Company may invest up to 20% of the net assets of a sub-fund in units of a single UCITS or other UCI. In implementing this investment limit, each sub-fund of a UCI comprising multiple sub-funds is treated as an independent issuer, provided each of these sub-funds is individually liable in respect of third parties.
 - b) Investments in units of UCIs other than UCITS may not exceed 30% of the sub-fund's net assets. The assets of the UCITS or other UCI in which a sub-fund has invested are not included when calculating the maximum limits set out in Points 2.1, 2.2 and 2.3.
 - c) For sub-funds that, in accordance with their investment policies, invest a significant portion of their assets in units of other UCITS and/or other UCIs, the maximum management fees chargeable by the sub-fund itself and by the other UCITS and/or other UCIs in which it invests are listed in the "Expenses paid by the Fund" section.
- 2.5 The sub-funds may subscribe, acquire and/or hold units that are to be issued by or have been issued by one or more other sub-funds of the Fund, provided that:
- the target sub-fund does not itself invest in the sub-fund that is investing in that target sub-fund; and
 - the target sub-funds to be acquired may, in accordance with their sales prospectuses or articles of incorporation, invest no more than 10% of their own assets in units of other target sub-funds of the same UCI; and
 - any voting rights associated with the securities in question are suspended for the period they are held by the sub-fund in question, regardless of their appropriate valuation in financial accounts and periodic reports; and
 - as long as these securities are held by the sub-fund, their value is not, in any event, included in the calculation of the sub-fund's net asset value described in the Law of 2010 to verify the minimum net assets in accordance with that law; and
 - no administration/subscription or redemption fees are double charged at the level of the sub-fund and that of the target sub-fund in which it invests.
- 2.6 The Fund may invest up to 20% of a sub-fund's assets in equities and/or debt securities of a single issuer if, according to that sub-fund's investment policy, the sub-fund's objective is to replicate a specific equity or bond index recognised by the CSSF. This is subject to the following conditions:
- the composition of the index is sufficiently diversified;
 - the index is an appropriate benchmark for the market it represents;
 - the index is published in an appropriate manner.

The limit is 35% provided this is justified due to exceptional market conditions; particularly on regulated markets heavily predominated by certain securities or money market instruments. Investment up to this upper limit is only permitted in the case of a single issuer.

If the limits mentioned in Points 1 and 2 are exceeded unintentionally or as a consequence of the exercise of subscription rights, the Management Company must manage the sale of its securities so as to give top priority to amending the situation while working in the best interests of the unitholders.

For a period of six months after they are officially approved, newly launched sub-funds may deviate from the particular restrictions pertaining to risk diversification indicated, provided that they continue to observe the principle of risk diversification.

3. Investment restrictions

The Management Company is prohibited from:

- 3.1 Acquiring securities for the Fund, if the subsequent sale of these is restricted in any way by contractual agreements;
- 3.2 Acquiring shares with voting rights that would enable the Management Company, possibly in collaboration with other investment funds under its management, to exert a significant influence on the management of an issuer;

3.3 Acquiring more than:

- 10% of the non-voting shares of a single issuer;
- 10% of the debt instruments of a single issuer;
- 25% of the units of a single UCITS or UCI;
- 10% of the money market instruments of a single issuer.

In the latter three cases, the restrictions on acquiring securities need not be observed if, at the time of acquisition, it is impossible to determine the gross sum of debt instruments or money market instruments, and the net sum of units issued.

The following are exempt from the provisions of Points 3.2 and 3.3:

- Securities and money market instruments issued or guaranteed by an EU Member State or its local authorities, or by another approved state;
- securities and money market instruments issued or guaranteed by a non-Member State;
- securities and money market instruments issued by public international bodies to which one or more Member States of the European Union belong;
- shares in a company in a non-Member State that primarily invests its assets in the securities of issuers domiciled in that non-Member State, where under that non-Member State's law, holding such shares is the only way to legally invest in the securities of that non-Member State's issuers. In doing so, the provisions of the Law of 2010 must be complied with; and
- Shares in subsidiary companies carrying out certain administrative, advisory or sales activities surrounding unit redemption at the behest of unitholders, in the country in which they are located and exclusively on behalf of the Company.

3.4 Short-selling securities, money market instruments or other instruments listed in Point 1.1(f) and (g);

3.5 Acquiring precious metals or related certificates;

3.6 Investing in real estate and buying or selling commodities or commodities contracts;

3.7 Taking out loans, unless

- the loan is a back-to-back loan to purchase foreign currency;
- the loan is only temporary and does not exceed 10% of the net assets of the sub-fund in question;

3.8 Granting loans or acting as guarantor for third parties. This restriction does not prevent the acquisition of securities, money market instruments or the other instruments listed in Point 1.1(e), (g) and (h) if these are not fully paid up.

The Management Company is authorised to introduce additional investment restrictions at any time in the interests of the unitholders, provided these are necessary to ensure compliance with the laws and regulations of those countries in which Fund units are offered and sold.

4. Asset pooling

The Board of Directors may permit internal merging and/or the collective management of assets from particular sub-funds in the interest of efficiency. In such cases, assets from different sub-funds are managed collectively. A group of collectively managed assets is referred to as a "pool"; pooling is used exclusively for internal management purposes. Pools are not official entities and cannot be accessed directly by unitholders.

Pools

The Management Company may invest and manage all or part of the portfolio assets of two or more sub-funds (referred to as "participating sub-funds" in this context) in the form of a pool. Such an asset pool is created by transferring cash and other assets (provided

these assets suit the relevant pool's investment policy) from each participating sub-fund to the asset pool. From then on, the Management Company can make transfers to that asset pool. Assets can also be returned to a participating sub-fund, up to the full amount equivalent to its participation.

A participating sub-fund's share in a particular asset pool is calculated in terms of notional units of equal value. When an asset pool is created, the Board of Directors must specify a starting value for the notional units (in a currency that the Board of Directors deems appropriate) and allot to each participating sub-fund notional units equivalent to the cash (or other assets) it has contributed. The value of a notional unit is then calculated by dividing the net assets of the asset pool by the number of existing notional units.

If additional cash or assets are contributed to or withdrawn from an asset pool, the notional units assigned to the relevant participating sub-fund are increased or reduced by a figure that is arrived at by dividing the cash or assets contributed or withdrawn by the participating sub-fund by the current value of that participating sub-fund's share in the pool. If cash is contributed to the asset pool, it is reduced for the purposes of calculation by an amount that the Board of Directors deems appropriate to cover any tax expenses, as well as for the closing charges and acquisition costs for the cash investment. If cash is withdrawn, a corresponding deduction may be made to account for any costs incurred in the disposal of securities or other assets of the asset pool.

Dividends, interest and other income-like distributions obtained from the assets of an asset pool are allocated to that asset pool, and thus increase its net assets. If the Fund is liquidated, the assets of an asset pool are allocated to the participating sub-funds in proportion to their respective shares in the asset pool.

Collective management

To reduce operating and management costs while enabling broader diversification of investments, the Board of Directors may decide to manage part or all of the assets of one or more sub-funds collectively with those of other sub-funds or other undertakings for collective investment. In the following paragraphs, the term "**collectively managed entities**" refers to the Fund and each of its sub-funds, as well as any entities between which a collective management agreement might exist. The term "**collectively managed assets**" refers to the whole of the assets of these collectively managed entities, which is managed in accordance with the aforementioned collective management agreement.

As part of the collective management agreement, the respective portfolio manager is entitled, on a consolidated basis for the relevant collectively managed entities, to make decisions on investments and sales of assets that affect the composition of the portfolio of the Fund and its sub-funds. Each collectively managed entity holds a share in the collectively managed assets in proportion with its own net assets' contribution to the aggregate value of the collectively managed assets. This proportion held (referred to in this context as a "**proportionate share**") applies to all asset classes held or acquired under collective management. Investment and/or divestment decisions have no effect on a collectively managed entity's proportionate share, and future investments are allotted in proportion with it. When assets are sold, they are subtracted proportionately from the collectively managed assets held by each collectively managed entity.

When a new subscription is made with one of the collectively managed entities, subscription proceeds are allocated to each collectively managed entity taking into account the adjusted proportionate share of the jointly managed entity to which the subscription applies; this adjustment corresponds to the increase in that entity's net assets. Allocating assets from that collectively managed entity to the others changes the net asset total of each in line with its adjusted proportionate share. By the same token, when a redemption is ordered from one of the collectively managed entities, the requisite cash is taken from the collectively managed entities' cash reserves based on the proportionate shares as adjusted for the decrease in the net assets of the collectively managed entity to which the redemption applies. In this case, too, the total net assets of each will change to match its adjusted proportionate share.

Unitholders are alerted to the fact that the collective management agreement may lead to the composition of the assets of a particular sub-fund being affected by events (e.g. subscriptions and redemptions) that concern other collectively managed entities unless extraordinary measures are taken by the Board of Directors or an entity commissioned by the Management Company. Thus, all other things being equal, subscriptions received by an entity that is collectively managed with a sub-fund will result in an increase in that sub-fund's cash reserves. Conversely, redemptions received by an entity that is collectively managed with a sub-fund will serve to reduce that sub-fund's cash reserves. However, subscriptions and redemptions can be executed on the special account opened for each collectively managed entity outside the scope of the agreement, through which subscriptions and redemptions must pass. Because a large volume of subscriptions and redemptions may be ordered to these special accounts and because the Board of Directors or entities it commissions may decide to end a sub-fund's participation in the collective management agreement at any time, that sub-fund may avoid restructuring its portfolio if this could adversely affect the interests of the Fund and its unitholders.

If a change in a given sub-fund's portfolio, occurring as a result of redemptions or payments of fees and expenses associated with another collectively managed entity (i.e. one that cannot be counted as belonging to the sub-fund), could cause a breach of the investment restrictions on that sub-fund, the relevant assets will be excluded from the agreement before the change takes effect so that they are not impacted by the resulting adjustments.

Collectively managed assets of sub-funds will only be managed collectively with assets to be invested in pursuit of the same investment objectives. This serves to ensure that investment decisions can be reconciled with the investment policy of the relevant sub-fund in every respect. Collectively managed assets may only be managed together with assets for which the same portfolio manager is authorised to make investment and divestment decisions, and for which the Depositary also acts as depositary. This serves to ensure that the Depositary is capable of fully fulfilling its obligations to the Fund and its sub-funds in accordance with the Law of 2010 and other legal requirements. The Depositary must always keep the assets of the Fund separate from those of the other collectively managed entities; this allows it to accurately determine the assets of each individual sub-fund at any time. As the investment policies of the collectively

managed entities need not correspond exactly with that of any sub-fund, the collective investment policy for these entities may be more restrictive than that of the sub-fund.

The Board of Directors may decide to terminate the collective management agreement at any time without giving prior notice.

At any time, unitholders may enquire at the Management Company's registered office as to the percentage of collectively managed assets and entities with which there is a collective management agreement at the time of their enquiry.

The composition and percentages of collectively managed assets must be stated in the annual reports.

Collective management agreements with non-Luxembourg entities are permissible if (i) the agreement involving the non-Luxembourg entity is governed by Luxembourg law and subject to Luxembourg jurisdiction or (ii) each collectively managed entity is endowed with such rights that no insolvency or bankruptcy administrator, or creditor, of the non-Luxembourg entity has access to the assets or is authorised to freeze them.

5. Special techniques and instruments with securities and money market instruments as underlying assets

Subject to the conditions and limits set out in the Law of 2010, the Fund and its sub-funds may use repurchase agreements, reverse repurchase agreements, securities lending agreements and/or other techniques and instruments that have securities and money market instruments as underlying assets for efficient portfolio management purposes in accordance with the requirements defined by the CSSF (the "techniques"). If such transactions relate to the use of derivatives, the terms and limits must comply with the provisions of the Law of 2010. The techniques described in the section titled "Exposure to securities financing transactions" are constantly applied although, depending upon market conditions, it may be decided from time to time to suspend or reduce exposure to securities financing transactions. The use of these techniques and instruments must be in accordance with the best interests of the investors.

Repurchase agreements are transactions in which one party sells a security to the other party with a simultaneous agreement to repurchase the security at a fixed future date at a stipulated price reflecting a market rate of interest unrelated to the coupon rate of the securities. A reverse repurchase agreement is a transaction whereby a sub-fund purchases securities from a counterparty and simultaneously commits to resell the securities to the counterparty at an agreed upon date and price. A securities lending agreement is an agreement whereby title to the "loaned" securities is transferred by a "lender" to a "borrower" with the borrower contracting to deliver "equivalent securities" to the lender at a later date ("securities lending").

Securities lending may be effected only via recognised clearing houses such as Clearstream International or Euroclear, or using first-class financial institutions that specialise in such activities and following the procedure specified by them.

In the case of securities lending transactions, the Fund must, in principle, receive collateral, the value of which must at least correspond to the total value of the securities lent out and any accrued interest thereon. This collateral must be issued in a form of financial collateral permitted by the provisions of Luxembourg law. Such collateral is not required if the transaction is effected via Clearstream International or Euroclear, or another organisation which guarantees the Fund that the value of the securities lent will be refunded.

The provisions of the section entitled "Collateral management" shall apply accordingly to the management of collateral that was left to the Fund within the scope of securities lending. In derogation of the provisions of the section entitled "Collateral management", units from the finance sector are accepted as securities within the framework of securities lending.

Service providers that provide services to the Fund in the field of securities lending have the right to receive a fee in return for their services that is in line with the market standards. The amount of this fee is reviewed and adapted, where appropriate, on an annual basis. Currently, 60% of the gross revenue received from securities lending transactions negotiated at arm's lengths is credited to the relevant sub-fund concerned, while 30% of the gross revenue are retained as fees by UBS Switzerland AG as the securities lending service provider, responsible for the ongoing securities lending activities and collateral management, and 10% of the gross revenue are retained as fees by UBS Europe SE, Luxembourg Branch as the securities lending agent, responsible for the transactions management, ongoing operational activities and collateral safekeeping. All fees for operating the securities lending program are paid from the securities lending agents' portion of the gross income. This covers all direct and indirect costs incurred through securities lending activities. UBS Europe SE, Luxembourg Branch and UBS Switzerland AG are part of the UBS Group.

Furthermore, the Management Company has drawn up internal framework agreements regarding securities lending. These framework agreements contain, among other things, the relevant definitions, the description of the principles and standards of the contractual management of the securities lending transactions, the quality of the collateral, the approved counterparties, the risk management, the fees to be paid to third parties and fees to be received by the Fund, as well as the information to be published in the annual and semi-annual reports.

Furthermore, the Management Company has drawn up internal regulations regarding securities lending. These framework agreements contain, among other things, the relevant definitions, the description of the principles and standards of the contractual management of the securities lending transactions, the quality of the collateral, the approved counterparties, the risk management, the fees to be paid to third parties and fees to be received by the Fund, as well as the information to be published in the annual and semi-annual reports.

The Board of Directors of the Management Company has approved instruments of the following asset classes as collateral from securities lending transactions and determined the following haircuts to be used on these instruments:

Asset class	Minimum haircut (% deduction from market value)
Fixed and variable-rate interest-bearing instruments	

Instruments issued by a state belonging to the G-10 (excluding the US, Japan, the UK, Germany and Switzerland, including their federal states and cantons as issuers) and with a minimum rating of A*	2%
Instruments issued by the US, Japan, the UK, Germany and Switzerland, including their federal states and cantons**	0%
Bonds with a minimum rating of A	2%
Instruments issued by supranational organisations	2%
Instruments issued by an entity and belonging to an issue with a minimum rating of A	4%
Instruments issued by a local authority and with a minimum rating of A	4%
Shares	8%
Shares listed on the following indexes are accepted as permissible collateral:	Bloomberg ID
Australia (S&P/ASX 50 INDEX)	AS31
Austria (AUSTRIAN TRADED ATX INDX)	ATX
Belgium (BEL 20 INDEX)	BEL20
Canada (S&P/TSX 60 INDEX)	SPTSX60
Denmark (OMX COPENHAGEN 20 INDEX)	KFX
Europe (Euro Stoxx 50 Pr)	SX5E
Finland (OMX HELSINKI 25 INDEX)	HEX25
France (CAC 40 INDEX)	CAC
Germany (DAX INDEX)	DAX
Hong Kong (HANG SENG INDEX)	HSI
Japan (NIKKEI 225)	NKY
Netherlands (AEX-Index)	AEX
New Zealand (NZX TOP 10 INDEX)	NZSE10
Norway (OBX STOCK INDEX)	OBX
Singapore (Straits Times Index STI)	FSSTI
Sweden (OMX STOCKHOLM 30 INDEX)	OMX
Switzerland (SWISS MARKET INDEX)	SMI
Switzerland (SPI SWISS PERFORMANCE IX)	SPI
UK (FTSE 100 INDEX)	UKX
US (DOW JONES INDUS. AVG)	INDU
US (NASDAQ 100 STOCK INDX)	NDX
US (S&P 500 INDEX)	SPX
US (RUSSELL 1000 INDEX)	RIY

* In this table, "rating" refers to the rating scale used by S&P. Ratings by S&P, Moody's and Fitch are used with their corresponding scales. If the ratings given to a certain issuer by these rating agencies are not uniform, then the lowest rating shall apply.

** Unrated issues by these states are also permissible. No haircut is applied to these either.

In general, the following requirements apply to repurchase/reverse repurchase agreements and securities lending agreements:

- (i) Counterparties to a repurchase/reverse repurchase agreement or securities lending agreement will be entities with legal personality typically located in OECD jurisdictions. These counterparties will be subject to a credit assessment. Where the counterparty is subject to a credit rating by any agency registered and supervised by ESMA, that rating shall be taken into account in the credit assessment. Where a counterparty is downgraded to A2 or below (or comparable rating) by such a credit rating agency, a new credit assessment in respect of the counterparty will be undertaken without delay.
- (ii) The Management Company must be able at any time to recall any security that has been lent out or terminate any securities lending agreement into which it has entered.
- (iii) When the Management Company enters into a reverse repurchase agreement it must ensure that it is able at any time to recall the full amount of cash (including the interest incurred up to the time of being recalled) or to terminate the reverse repurchase agreement on either an accrued basis or a mark-to-market basis. When the cash is recallable at any time on a mark-to-market basis, the mark-to-market value of the reverse repurchase agreement should be used for the calculation of the Net Asset Value of the relevant sub-fund. Fixed-term reverse repurchase agreements that do not exceed seven days should be considered as arrangements on terms that allow the assets to be recalled at any time by the Management Company.
- (iv) When the Company enters into a repurchase agreement it must ensure that it is able at any time to recall any securities subject to the repurchase agreement or to terminate the repurchase agreement into which it has entered. Fixed-term repurchase agreements that do not exceed seven days should be considered as arrangements on terms that allow the assets to be recalled at any time by the Company.

- (v) Repurchase/reverse repurchase agreements or securities lending do not constitute borrowing or lending for the purposes of the UCITS Directive.
- (vi) All the revenues arising from efficient portfolio management techniques, net of direct and indirect operational costs/fees, will be returned to the relevant sub-fund.
- (vii) Any direct and indirect operational costs/fees arising from efficient portfolio management techniques that may be deducted from the revenue delivered to the relevant sub-fund must not include hidden revenue. Such direct and indirect operational costs/fees will be paid to the entities outlined in the respective annual or semi-annual report of the Fund, which shall indicate the amounts of the respective fees and whether the entities are related to the Management Company or the Depositary.

As a general rule, the following applies for total return swaps:

- i) one hundred percent (100%) of the gross returns achieved by the total return swaps, less direct and indirect operational costs/fees, are remitted to the sub-fund.
- (ii) All direct and indirect operational costs/fees arising in relation to total return swaps are paid to the company mentioned in the Fund's annual and semi-annual reports.
- (iii) No fee-sharing agreements have been concluded in relation to total return swaps.

The Fund and its sub-funds may under no circumstances deviate from their investment objectives for these transactions. Equally, the use of these techniques may not cause the risk level of the sub-fund in question to increase significantly with regard to its original risk level (i.e. without the use of these techniques).

With regards to the risks inherent to the use of these techniques, reference is made here to the information contained in the section entitled "Risks connected with the use of efficient portfolio management techniques".

The Management Company ensures that it or one of its appointed service providers will monitor and manage the risks incurred through the use of these techniques, particularly counterparty risk, as part of the risk management procedure. The monitoring of potential conflicts of interest arising from transactions with companies associated with the Fund, the Management Company and the Depositary is primarily carried out through reviewing the contracts and corresponding processes on a regular basis. Furthermore, the Management Company ensures that, despite the use of these techniques and instruments, the investors' redemption orders can be processed at any time.

Annex I – SFDR related information

Pre-contractual disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name:

Focused Fund - Corporate Bond Sustainable USD

Legal entity identifier:

549300PE4X9CU4XXD597

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Environmental and/or social characteristics

Does this financial product have a sustainable investment objective?

Yes

No

It will make a minimum of **sustainable investments with an environmental objective**: ____ %

It **promotes Environmental/Social (E/S) characteristics** and while it does not have as its objective a sustainable investment, it will have a minimum proportion of 10% of sustainable investments

in economic activities that qualify as environmentally sustainable under the EU Taxonomy

with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy

in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

with a social objective

It will make a minimum of **sustainable investments with a social objective**: _____ %

It promotes E/S characteristics, but **will not make any sustainable investments**

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

What environmental and/or social characteristics are promoted by this financial product?

The following characteristics are promoted by the financial product:

- 1) A sustainability profile that is higher than its benchmark's sustainability profile.
- 2) A lower Weighted Average Carbon Intensity (WACI) than the reference benchmark.

The benchmark is a broad market index which does not assess or include constituents according to environmental and/or social characteristics and therefore is not intended to be consistent with the characteristics promoted by the financial product. No ESG reference benchmark has been designated for the purpose of attaining the characteristics promoted by the financial product.

- ***What sustainability indicators are used to measure the attainment of each of the environmental or social characteristics promoted by this financial product?***

The above characteristics are measured using the following indicators respectively:

For characteristic 1):

The UBS Blended ESG Score is used to identify issuers/companies for the investment universe with strong environmental and social performance characteristics, or a strong sustainability profile. The UBS Blended ESG Score represents an average of normalized ESG assessment data from UBS and two recognized external ESG data providers, MSCI and Sustainalytics. This blended score approach enhances the quality of the derived sustainability profile by integrating multiple independent ESG assessments, rather than depending solely on one single view. The UBS Blended ESG Score represents an entity's sustainability profile assessing material environmental, social, and governance factors. These factors may include, but are not limited to, environmental footprint and operational efficiency, risk management, climate change response, natural resource utilization, pollution and waste management, employment standards, supply chain oversight, human capital development, board diversity, occupational health and safety, product safety, and anti-fraud and anti-corruption policies. Each assessed entity is assigned a UBS Blended ESG Score, which ranges from 0 to 10, with 10 indicating the best sustainability profile.

There is no minimum UBS Blended ESG Score at individual investment level.

For characteristic 2):

Scope 1 and 2 Weighted Average Carbon Intensity (WACI):

- Scope 1 refers to direct carbon emissions and therefore includes all direct greenhouse gas emissions from owned or controlled sources of the relevant entity or issuer.

- Scope 2 refers to indirect carbon emissions and therefore includes greenhouse gas emissions from the generation of electricity, thermal energy and/or steam that is consumed by the relevant entity or issuer.

- ***What are the objectives of the sustainable investments that the financial product partially intends to make and how does the sustainable investment contribute to such objectives?***

The objectives of the sustainable investments that the financial product partially intends to make is to contribute to the environmental and/or social characteristic(s) promoted by the financial product.

- ***How do the sustainable investments that the financial product partially intends to make, not cause significant harm to any environmental or social sustainable investment objective?***

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti - corruption and anti - bribery matters.

	<p>When assessing “do no significant harm” (DNSH), we consider selected principal adverse impact indicators based on availability and appropriateness. These indicators are combined into a signal based on individual thresholds defined per indicator. A fail on a single indicator leads to an investment failing the DNSH criteria.</p>
	<p><i>How have the indicators for adverse impacts on sustainability factors been taken into account?</i></p>
	<p>Principal adverse impacts (the “PAI”) are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti - corruption, and anti - bribery matters. UBS integrates PAI indicators in its decision making process.</p> <p>At present, the following PAI indicators are considered by means of exclusions from the investment universe:</p> <p>1.4 “Exposure to companies active in the fossil fuel sector”:</p> <ul style="list-style-type: none"> - Companies that exceed a certain revenue threshold (as per the UBS AM Sustainability Exclusion Policy) from thermal coal mining and its sale to external parties or from oil sands extraction are excluded. - Companies that exceed a certain revenue threshold (as per the UBS AM Sustainability Exclusion Policy) from thermal coal-based power generation are excluded. <p>1.10 “Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises”:</p> <ul style="list-style-type: none"> - Companies violating the United Nations Global Compact (UNGC) principles which do not demonstrate credible corrective action as determined by UBS-AM’s Stewardship Committee are excluded <p>1.14 “Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons)”:</p> <ul style="list-style-type: none"> - UBS-AM does not invest in companies involved in: cluster munitions, anti-personnel mines or chemical and biological weapons, nor does it invest in companies in breach of the Treaty on the Non- Proliferation of Nuclear Weapons. UBS-AM considers a company to be involved in controversial weapons if the company is involved in development, production, storage, maintenance or transport of controversial weapons, or is a majority shareholder (>50% ownership stake) of such a company. <p>The link to the Sustainability Exclusion Policy can be found in the section headed “Sustainability Exclusion Policy” in the main body of the Sales Prospectus.</p> <p>The following PAI indicator is considered by virtue of the promoted characteristics:</p> <p>1.3 “GHG intensity of investee companies”</p> <ul style="list-style-type: none"> - The Portfolio Manager selects investments based upon a low scope 1+2 carbon intensity, either absolute or relative to a benchmark <p>The following PAI indicators are additionally part of the DNSH signal:</p> <p>1.7 “Activities negatively affecting bio-diversity-sensitive areas”</p> <p>1.13 “Board gender diversity”</p> <p>1.15. “GHG Intensity”</p> <p>1.16. “Investee countries subject to social violations”</p>
	<p><i>How are the sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:</i></p>
	<p>Companies violating the United Nations Global Compact (UNGC) principles which do not demonstrate credible corrective action as determined by UBS-AM’s Stewardship Committee are excluded.</p>

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific EU criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

Does this financial product consider principal adverse impacts on sustainability factors?

Yes

Yes, Principal adverse impacts (the “PAI”) are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti - corruption, and anti - bribery matters. UBS integrates PAI indicators in its decision making process.

At present, the following PAI indicators are considered by means of exclusions from the investment universe:

1.4 “Exposure to companies active in the fossil fuel sector”:

- Companies that exceed a certain revenue threshold (as per the UBS AM Sustainability Exclusion Policy) from thermal coal mining and its sale to external parties or from oil sands extraction are excluded.
- Companies that exceed a certain revenue threshold (as per the UBS AM Sustainability Exclusion Policy) from thermal coal-based power generation are excluded.

1.10 “Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises”:

- Companies violating the United Nations Global Compact (UNG) principles which do not demonstrate credible corrective action as determined by UBS-AM’s Stewardship Committee are excluded

1.14 “Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons)”:

- UBS-AM does not invest in companies involved in: cluster munitions, anti-personnel mines or chemical and biological weapons, nor does it invest in companies in breach of the Treaty on the Non-Proliferation of Nuclear Weapons. UBS-AM considers a company to be involved in controversial weapons if the company is involved in development, production, storage, maintenance or transport of controversial weapons, or is a majority shareholder (>50% ownership stake) of such a company.

The link to the Sustainability Exclusion Policy can be found in the section headed “Sustainability Exclusion Policy” in the main body of the Sales Prospectus.

The following PAI indicator is considered by virtue of the promoted characteristics:

1.3 “GHG intensity of investee companies”

- The Portfolio Manager selects investments based upon a low scope 1+2 carbon intensity, either absolute or relative to a benchmark

When assessing “do no significant harm” (DNSH), we consider selected principal adverse impact indicators based on availability and appropriateness. These indicators are combined into a signal based on individual thresholds defined per indicator. A fail on a single indicator leads to an investment failing the DNSH criteria. The following PAI indicators are additionally part of this signal:

	<p>1.7 “Activities negatively affecting bio-diversity-sensitive areas”</p> <p>1.13 “Board gender diversity”</p> <p>1.15. “GHG Intensity”</p> <p>1.16. “Investee countries subject to social violations”</p> <p>Information on consideration of PAIs on sustainability factors is also available in the sub-fund’s annual report.</p>

--	-----------------------------

The investment strategy guides investment decisions based on factors such as investment objectives and risk tolerance.

What investment strategy does this financial product follow?

ESG Integration:

ESG Integration is driven by taking into account material ESG risks as part of the research process. ESG integration enables the Portfolio Manager to identify financially relevant sustainability factors that impact investment decisions and to incorporate ESG considerations when implementing investment decisions, and allows ESG risks to be systematically monitored and compared to risk appetite and constraints. It also assists in portfolio construction through securities selection, investment conviction and portfolio weightings.

- For corporate issuers, this process utilizes an internal UBS ESG material issues framework which identifies the financially relevant factors per sector that can impact investment decisions. This orientation toward financial materiality ensures that analysts focus on sustainability factors that can impact the financial performance of the company and therefore investment returns. ESG integration can also identify opportunities for engagement to improve the company’s ESG risk profile and thereby mitigate the potential negative impact of ESG issues on the company’s financial performance. The Portfolio Manager employs an internal UBS ESG risk dashboard that combines multiple internal and external ESG data sources in order to identify companies with material ESG risks. An actionable risk signal highlights ESG risks to the Portfolio Manager for incorporation in their investment decision making process.
- For non-corporate issuers, the Portfolio Manager applies a qualitative or quantitative ESG risk assessment that integrates data on material ESG factors.

The analysis of material sustainability/ESG considerations can include many different aspects, such as the following among others: the carbon footprint, health and well-being, human rights, supply chain management, fair customer treatment and governance.

Fund specific exclusions:

Corporate issuers: Generally corporate issuers are assessed for ESG risks using a proprietary UBS ESG Risk Recommendation, which rates issuers using a five-point scale (1 – negligible, 2 – low, 3 – moderate, 4 – high and 5 – severe). The sub-fund will generally exclude corporate issuers with risks identified in the ESG Risk Dashboard (described in the ESG Integration section) unless the overall UBS ESG risk recommendation is between 1 and 3.

Non Corporate issuer: In the absence of a UBS ESG Risk Recommendation, the sub-fund will consider the risk signal from the proprietary ESG Risk Dashboard and exclude issuers with a positive risk signal from the proprietary ESG Risk Dashboard

Securitized bonds are not part covered by the ESG integration process.

Sustainability Exclusion Policy:

The Sustainability Exclusion Policy of the Portfolio Manager outlines the exclusions applied to the investment universe of the financial product. The link to the Sustainability Exclusion Policy can be found in the section headed “Sustainability Exclusion Policy” in the main body of the Sales Prospectus.

	<ul style="list-style-type: none"> ● What are the binding elements of the investment strategy used to select the investments to attain each of the environmental or social characteristics promoted by this financial product?
	<p>The following binding element(s) of the investment strategy are used to select the investments to attain the characteristic(s) promoted by this financial product:</p> <p>Characteristic 1):</p> <p>A sustainability profile that is higher than its benchmark’s sustainability profile.</p> <p>Characteristic 2):</p> <p>A lower Scope 1 and 2 Weighted Average Carbon Intensity (WACI) than its benchmark.</p> <p>The calculations do not take account of cash, derivatives and unrated investment instruments.</p> <p>The characteristic(s), the minimum proportion of sustainable investments and the minimum proportion of investments used to meet the environmental and/or social characteristics promoted by the financial product are calculated at quarter end using the average of all business days’ values in the quarter.</p> <p>Fund specific exclusions:</p> <p>Corporate issuers: Generally corporate issuers are assessed for ESG risks using a proprietary UBS ESG Risk Recommendation, which rates issuers using a five-point scale (1 – negligible, 2 – low, 3 – moderate, 4 – high and 5 – severe). The sub-fund will generally exclude corporate issuers with risks identified in the ESG Risk Dashboard (described in the ESG Integration section) unless the overall UBS ESG risk recommendation is between 1 and 3.</p> <p>Non Corporate issuer: In the absence of a UBS ESG Risk Recommendation, the sub-funds will consider the risk signal from the proprietary ESG Risk Dashboard and exclude issuers with a positive risk signal from the proprietary ESG Risk Dashboard</p> <p>Securitized bonds are not part covered by the ESG integration process.</p> <p>Sustainability Exclusion Policy:</p> <p>The Sustainability Exclusion Policy of the Portfolio Manager outlines the exclusions applied to the investment universe of the financial product. The link to the Sustainability Exclusion Policy can be found in the section headed “Sustainability Exclusion Policy” in the main body of the Sales Prospectus.</p>
	<ul style="list-style-type: none"> ● What is the committed minimum rate to reduce the scope of the investments considered prior to the application of that investment strategy?
	<p>Not applicable.</p>
	<ul style="list-style-type: none"> ● What is the policy to assess good governance practices of the investee companies?
	<p>Good corporate governance is a key driver of sustainable performance and is therefore embedded in the Portfolio Manager’s investment strategy. The Portfolio Manager employs a proprietary ESG Risk Dashboard that combines multiple ESG data sources from internal and recognized external providers in order to identify companies with material ESG risks. An actionable risk signal highlights ESG risks to the Portfolio Manager for incorporation in their investment decision making process. The assessment</p>

Good governance practices include sound management structures, employee relations, remuneration of staff and tax compliance.

of good governance includes consideration of board structure and independence, remuneration alignment, transparency of ownership and control, and financial reporting.

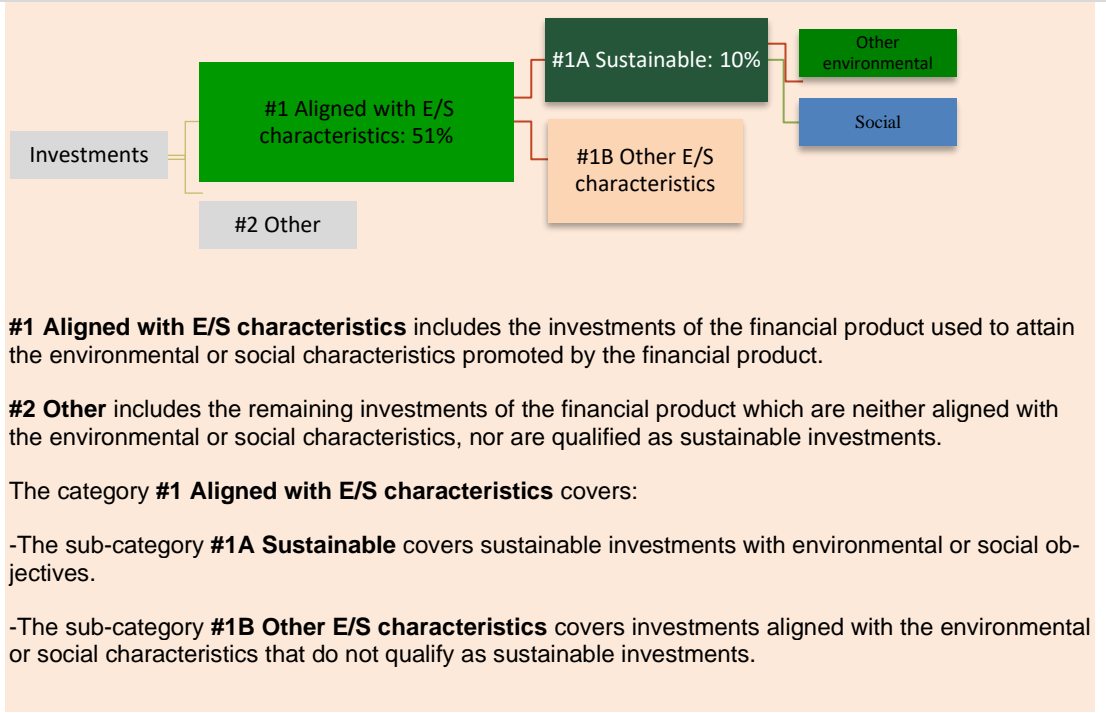

What is the asset allocation planned for this financial product?

The minimum proportion of the investments used to meet the environmental and/or social characteristics promoted by the financial product is 51%. The minimum proportion of sustainable investments of the financial product is 10%.

Asset allocation describes the share of investments in specific assets.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

● **How does the use of derivatives attain the environmental or social characteristics promoted by the financial product?**

Derivatives are not used for the attainment of the characteristics promoted by this financial product. Derivatives are primarily used for hedging and liquidity management purposes.

To what minimum extent are sustainable investments with an environmental objective aligned with the EU Taxonomy?

It has not been possible to collect data on the environmental objective(s) set out in Article 9 of the Taxonomy Regulation and on how and to what extent the investments underlying the financial product are in economic activities that qualify as environmentally sustainable under Article 3 of the Taxonomy Regulation ("Taxonomy Aligned Investments"). On that basis, the financial product has 0% Taxonomy Aligned Investments.

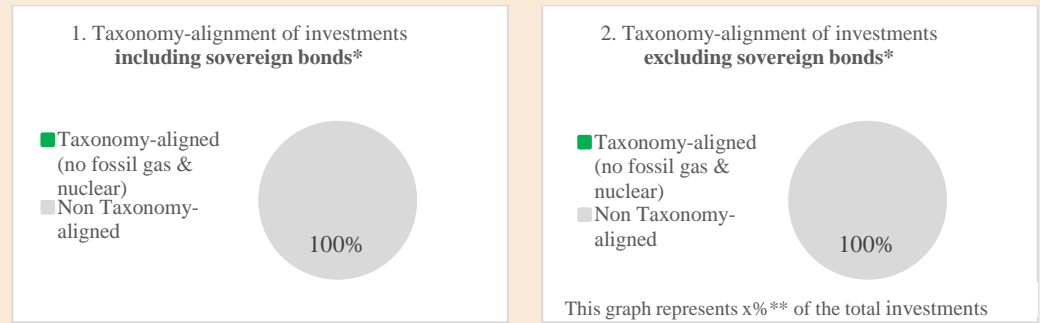

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

● **Does the financial product invest in fossil gas and/or nuclear energy related activities that comply with the EU Taxonomy?**

Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective – see explanatory note in the left-hand margin. The full

	<input type="checkbox"/> Yes: <input type="checkbox"/> In fossil gas <input type="checkbox"/> In nuclear energy <input checked="" type="checkbox"/> No
--	--

The two graphs below show in green the minimum percentage of investments that are aligned with the EU Taxonomy. As there is no appropriate methodology to determine the Taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures

** No percentage has been inserted as it is not relevant (no Taxonomy-aligned investments)

	<ul style="list-style-type: none"> What is the minimum share of investments in transitional and enabling activities?
	<p>There is no commitment to a minimum proportion of investments in transitional and enabling activities.</p>
	<p>What is the minimum share of sustainable investments with an environmental objective that are not aligned with the EU Taxonomy?</p>
	<p>The sustainable investments made by the financial product will contribute to either environmental or social objectives or both. The financial product does not commit to a predetermined combination of environmental or social objectives, and therefore there is no minimum share of sustainable investments with an environmental objective that are not aligned with the EU Taxonomy. Where the financial product does invest in environmentally sustainable investments that are not Taxonomy-aligned, this is due to the absence of necessary data to determine Taxonomy-alignment.</p>
	<p>What is the minimum share of socially sustainable investments?</p>

criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

	<p>The sustainable investments made by the financial product will contribute to either environmental or social objectives or both. The financial product does not commit a predetermined combination of environmental or social objectives, and therefore there is no minimum share of socially sustainable investments.</p>
	<p>What investments are included under “#2 Other”, what is their purpose and are there any minimum environmental or social safeguards?</p> <p>Included in “#2 Other” are cash and unrated instruments for the purpose of liquidity and portfolio risk management. Unrated instruments may also include securities for which data needed for the measurement of attainment of environmental or social characteristics is not available.</p>
	<p>Is a specific index designated as a reference benchmark to determine whether this financial product is aligned with the environmental and/or social characteristics that it promotes?</p> <p>No ESG reference benchmark has been designated for the purpose of determining whether the financial product is aligned with the characteristics that it promotes.</p>
	<ul style="list-style-type: none"> • <i>How is the reference benchmark continuously aligned with each of the environmental or social characteristics promoted by the financial product?</i>
	<p>Not applicable.</p>
	<ul style="list-style-type: none"> • <i>How is the alignment of the investment strategy with the methodology of the index ensured on a continuous basis?</i>

Information for Swiss Investors

Representative in Switzerland

The representative in Switzerland is UBS Fund Management (Switzerland) AG, Aeschenvorstadt 1, CH-4051 Basel.

Paying Agent in Switzerland

The paying agent in Switzerland is UBS Switzerland AG, Bahnhofstrasse 45, CH-8001 Zurich and its branches in Switzerland.

Place where relevant documents may be obtained

The Prospectus, Key Investor Information Document, the Management Regulations as well as the annual and semi-annual reports may be obtained free of charge from the representative or the paying agent in Switzerland or from www.ubs.com/fonds.

Publications

1. Publications in respect of foreign collective investment scheme must be made in Switzerland on the electronic platform of Swiss Fund Data AG www.swissfunddata.ch.
2. The issue and the redemption prices or the net asset value together with a footnote stating "excluding commissions" are published daily at www.ubs.com/fonds and on the website of Swiss Fund Data AG www.swissfunddata.ch.

Payment of retrocessions and rebates

1. The management company and its agents may pay retrocessions to compensate for the distribution of fund units in Switzerland. This compensation may cover in particular the following services:
 - Promotion and execution of the distribution of fund units;
 - Training of client advisors and distribution staff;
 - Organising and participating in road shows, events and trade fairs of all kinds in connection with the distribution of fund units;
 - Contacting potential investors;
 - Central relationship management and support of existing customer relationships;
 - Clarifying and responding to special inquiries from investors relating to the investment product or the provider;
 - Production and distribution of advertising material and legal documents;
 - Carrying out all kinds of administrative activities in connection with the distribution of fund units;
 - Handling the subscription and redemption of fund units;
 - Subscription of units as nominee for several customers on behalf of the provider;
 - Commissioning and monitoring of additional distributors;
 - Performing duties of care delegated by the distributor in areas such as clarifying customer needs and sales restrictions;
 - Assigning a person admitted to audit to verify compliance with certain obligations of the distributor, in particular the guidelines for the distribution of collective investment schemes of the Asset Management Association Switzerland AMAS.
 - Operation of a product and distribution platform;
 - Central reporting for fund providers and distributors;
 - Carrying out all types of administrative activities, including audits from the point of view of money laundering and terrorist financing in connection with the distribution of fund units.

Retrocessions do not count as rebates even if they are ultimately passed on to investors in whole or in part. The disclosure of the receipt of retrocessions is governed by the relevant provisions of the FinSA.

2. The Management Company or its agents may pay rebates directly to investors. Rebates serve to reduce the cost attributable to investors concerned.

Rebates are permitted provided that they:

- are paid out of fees of the Management Company or its agents and thus do not additionally impair the assets of the sub-fund;
- are granted on the basis of objective criteria;

- are granted to the same extent to all investors who meet the objective criteria equally and demand rebates.)
- increase the quality of the service for which the rebate is granted (e.g. by contributing to higher assets of the sub-fund that can lead to a more efficient management of the assets and a reduced liquidation probability of the sub-fund and / or a reduction of the fixed costs pro rate for all investors) and all investors bear their fair share of the sub-fund's fees and costs.

The objective criterion for granting rebates is:

- the total assets held by the investor in the share class of the sub-fund that qualifies for rebates;

Additional criteria may be

- the total assets in UBS collective investment schemes held by the investor and / or
- the region where the investor is domiciled.

Upon request of the investor, the Management Company or its agents shall disclose the corresponding amount of the rebates free of charge.

Place of performance and jurisdiction

For units offered in Switzerland the place of performance shall be the domicile of the representative. The jurisdiction shall be the domicile of the representative or the domicile of the investor.
