Benefits

The Fund aims to achieve a positive environmental and social impact by seeking out sustainable assets that can offer investment returns similar to those of conventional assets.

The Fund is actively managed and offers the investor access to the UBS House View on Sustainable Investing.

The allocation of the Fund investments are expected to be flexibly adjusted in line with prevailing market expectations.

The investment funds have been identified following a due diligence process and were selected based on the strength of their investment strategy and how they fit together in a portfolio.

Risks

The underlying investment funds invest in equities, bonds of varying credit quality and money market securities on a global basis and may therefore be subject to high fluctuations in value. The Fund may use derivatives which might give rise to additional risks (inter alia the counterparty risk). The value of a unit may fall below the purchase price. This requires an elevated risk tolerance and capacity. Every fund reveals specific risks, a description of these risks can be found in the prospectus.
