Objectives and investment universe

Asset class Asset allocation fund
Style Active strategy

Umbrella Fund: BCV FONDS STRATEGIQUE

This sub-fund is aiming to achieve growth in capital by employing a flexible and diversified asset allocation. It primarily comprises income-generating investment instruments. The purpose of investments in alternative investment vehicles is to lessen the degree of volatility in the sub-fund so that it runs a low degree of risk. The sub-fund is particularly well suited to investors who are looking for a defensive risk profile and stability for their capital. The sub-fund is broadly diversified. The manager incorporates, for the share of the sub-fund's assets set out in the investment policy, environmental, social and governance (ESG) criteria in its investment selection and weighting process in the portfolio.

The objective of the active investment strategy is to mitigate any significant negative downside while participating in the market's upward phases. Exposure to the various asset classes modifies according to the market situation and the indicators of the decision model.
