Fund Management

- > Founded in 1796, Lombard Odier Darier Hentsch & Cie is the oldest firm of private bankers in Geneva and one of the largest in Switzerland and in Europe. The Lombard Odier Group is present in 17 countries.
- > The Fund management is performed by our dedicated money market team.

Investment Approach

- > The Fund aims to track the Citigroup USD 1 Month EUR Deposit Index by investing in traditional money market instruments.
- > The investment universe of the Fund mainly consists of commercial paper (CP), certificates of deposit (CD), time deposits (TD), reverse repurchase agreements (repo) and fixed rate instruments (maturity no longer than 13 months) and floating rate notes (FRN). Floating rate notes maturing between thirteen months and twenty-four months are permitted up to 10% of the Fund and must be issued by AAA governments or government agencies.
- > The Fund follows a very conservative approach in terms of credit rating (each eligible instrument must have at least two top short-term ratings) and issuer concentration rules are established as a function of maturity (max. 5% if above 7 days, max. 10% if below or equal to 7 days). In addition, weighted average maturity (WAM) and weighted average life (WAL) are respectively limited to 60 days and 120 days.
- > Investments in mortgage-backed securities [MBS], collateralized debt obligations [CDO] and credit default swaps [CDS] are not authorized.

Selection Process

- > The selection process is mainly based on credit and short-term interest rate analysis [bottom-up approach].
- > The management team pays specific attention to the quality of the issuer, based on an in-house credit analysis.

Portfolio Construction and Risk Management

- > The managers of the Fund fully comply with EFAMA's proposed standards for short-term money market funds.
- > Risk management is based on a combination of guideline compliance monitoring and liquidity stress test scenarios.
