

New Capital Fund Lux - Swiss Franc Bonds

Fixed Income (O Cap) | 10 / 2024

Fund Objective

The fund invests primarily in bonds denominated in CHF and issued by first class debtors. The goal is to maximise the performance over the long term in the frame of the development of the CHF bond market, while strictly controlling the level of risk. An active duration management, on the entire curve, from the short to the mid/long term - pursues the possibility to benefit from fluctuating interest rates scenarios.

NB: the fund "Swiss Franc Bonds" was named "Short Term Bonds CHF" until April 19th 2018

Performance & Calendar Year Returns

Past performance is not necessarily a guide to the future. The value of your investments and the income from them may fall as well as rise as a result of market as well as currency fluctuations and you may not get back the full amount invested. Fund performance is net of fees and representative of the O Cap Share Class and shows a maximum of five previous calendar years and current year to date (computed on a NAV to NAV basis). Where share class inception begins prior to the five previous years the chart has been rebased to 100. Where the Fund has fewer than five full years of performance, returns are shown from the inception date. Source: EFG Asset Management, Bloomberg. As at 31 October 2024.
