Selected Target Investments

This month we present Enhancement Group

In August 2021, Onex acquired a stake in the Wealth Enhancement Group (WEG). WEG is one of the largest independent asset managers in the U.S. and was first owned by a private equity investor in 2015. In these almost 10 years, assets under management have increased from around USD 4 billion to over USD 85 billion today. In the approximately three years since Onex invested alone, the assets have more than doubled. This is also reflected in the valuation of the investment: for example, on the occasion of the announcement of the Q2 2024 figures last week, Onex announced that the value of the investment had also increased in the first half of 2024. We estimate that the fair value has already more than doubled since 2021. In our view, this makes WEG an exit candidate.
