Fund Portrait

The JSS Sustainable Equity - Global Climate 2035 seeks to achieve long-term capital appreciation through global investments in equities of companies contributing to a carbon-neutral outcome. The objective is to reduce the carbon footprint (claims on carbon emissions per million USD invested) over time until it reaches net-zero by 2035 in line with J. Safra Sarasin's Climate Pledge. To this end, the fund will invest in «Green Champions», companies enabling substantial emissions reduction through innovative solutions, and «Climate Pledgers», companies on a temperature trajectory below 2°C, in line with the Paris Agreement. The portfolio will be below 2°C at all times, have at least 20% exposure to green revenues, and no exposure to stranded assets. The Sub-Fund is actively managed without replicating any benchmark. However, the Sub-Fund is managed with reference to MSCI World Climate Paris Aligned Net Return (the «Benchmark»).

Net Performance (in EUR) as of 31.10.2024

| Cadence Design Systems | 2.6% | 3.7 | Application Software | 4.8 |

Definitions and Explanations

Exclusion criteria: Controversial weapons (biological, chemical and nuclear weapons, cluster munitions and anti-personnel mines), coal, GMO in agriculture and medicine, palm oil, defence and armament, tobacco, adult entertainment, violation of human rights and other UN Global Compact Principles.

ESG scores: An issuer's rating is the aggregation of more granular information analysed along the Environmental, Social and Governance pillars (on a scale from 0-5). Comparison at this level and aggregated at portfolio level provides more precise insights on the portfolio's exposure to sustainability risks.

Sustainability Matrix: Using our proprietary methodology, companies and industries are rated according to sustainability criteria (on a scale from 0-5). This results in a specific positioning for each company in our Sustainability Matrix, displaying both the sustainability risk exposure of a given industry (industry rating) and the relative ability of a company to mitigate those risks (company rating).

Sustainability rating of top 10 holdings: The table shows the company and industry ESG rating (on a scale from 0-5) of the 10 holdings with the highest portfolio weight.

Carbon Footprint

Stranded Assets - Potential CO₂ Emissions

Largest CO₂ Emitters

| Company Name | % of Portfolio Footprint | Mitigation Efforts |
|----------------------------|--------------------------|--------------------|
| OWENS CORNING | 40.5% | above average |
| FLEX LTD. | 16.6% | above average |
| BYD COMPANY LIMITED | 8.6% | average |
| WALMART INC. | 4.0% | above average |
| HYDRO ONE LIMITED | 2.4% | above average |
| COLGATE-PALMOLIVE COMPANY | 2.1% | above average |
| NXP SEMICONDUCTORS N.V. | 2.1% | above average |
| ECOLAB INC. | 2.0% | above average |
| DEERE & COMPANY | 1.9% | above average |
| AMERICAN TOWER CORPORATION | 1.8% | above average |

Definitions and Explanations

Carbon footprint: The portfolio's carbon footprint is a function of sector allocation and holdings' carbon intensity. Lowering the footprint vs the benchmark while preserving a sectoral balance is therefore a way to reduce related risks in the portfolio. The portfolio's Scope 1 and 2 footprint is calculated. It is measured in tons of CO₂ equivalent per USD million Enterprise Value Including Cash (EVIC).

Stranded assets: The chart shows future CO₂ emissions of fossil fuel reserves owned by the companies held in the portfolio compared to the benchmark. These CO₂ emissions are measured in tons of CO₂ equivalent per USD million Enterprise Value Including Cash (EVIC). In an environment where world leaders have agreed on carbon emissions limitations in order to address climate change issues, the economy needs to respect a global carbon budget. This in turn means that carbon assets (mostly fossil fuel reserves) are becoming stranded. Potential emissions from fossil fuel reserves therefore give insights into stranded asset risks in the portfolio.

Largest CO₂ emitters and their mitigation efforts: Climate change is a major risk driver for the entire economy and thus also a focus of political action (COP21 / Paris Agreement, UN Sustainable Development Goal 13, etc.). The way companies approach their carbon emissions (mitigation efforts) is therefore key for the long term success of their own business as well as the ecosystem in which they operate. The metric presented here shows holdings' preparedness and commitment to this challenge.

Legal notices - Edition Switzerland:

Information for investors in Switzerland: This publication is marketing material for an investment, which has been prepared solely for the information and exclusive use of the recipient in Switzerland. The articles of incorporation as well as the annual and semi-annual reports, prospectus (all in German or English) and/or key information document (KID) are generally (in German, French, Italian, English) available free of charge from J. Safra Sarasin Investmentfonds Ltd. or at <https://jsafrasarasin.com/content/jsafrasarasin/language-masters/de/products/funds-list.html>. The statements in this document neither can be interpreted as investment, tax or other advice nor do they constitute an offer nor an invitation to buy shares of the Sub-Fund, and do not replace individual advice and risk disclosure by a qualified financial, legal and/or tax advisor.

JSS Investmentfonds SICAV is a UCITS organised as an open-ended investment company (société d'investissement à capital variable – "SICAV") under the law of Luxembourg (the "Fund"), and is regulated by the Commission de Surveillance du Secteur Financier ("CSSF"). The investment described in this document is a sub-fund of JSS Investmentfonds SICAV (the "Sub-Fund"). Potential investors should consult the key information document (KID), the prospectus and all legally relevant local offering documents before making any investment and, in particular, inform themselves comprehensively about the risks associated with the Sub-Fund. Detailed information about risks and rewards is available in the prospectus or KID of the share classes of the Sub-Fund. Past performance is not indicative of current or future performance. Performance was calculated on the basis of the net asset value and, if applicable, the reinvested gross dividend. When calculating the performance, all costs charged to the Fund and Sub-Fund were taken into account in order to obtain a net performance. The performance shown does not include (if and where applicable) any commissions and costs incurred at investor level on subscription and redemption of shares. Additional commissions, costs and taxes incurred at investor level have a negative impact on performance.

Investments in foreign currencies involve a currency risk, as the return in the investor's currency may be higher or lower due to exchange rate fluctuations. The value of the investor's investment may therefore, as well as for other reasons, increase or decrease. Therefore, there is no guarantee that investors will receive back the full amount of their invested capital upon redemption.

The issuer of this factsheet is not in a position to provide details of any one-off or recurring commissions paid to the bank / by the bank and / or to the fund broker / by the fund broker in connection with this Sub-Fund.
