

GR Aktien Schweiz -I-

31 October 2024

Investment Policy

The fund invests into equity securities of companies which are part of the Swiss Performance Index (SPI). Stock selection is based on a bottom-up research process which also includes sustainability criteria (ESG). Core investments consist of high-quality companies which generate high levels of free cash flow and are reasonably priced. The fund consists of 35-45 companies.

Market environment, performance analysis and portfolio activity

After most global equity indices gained ground in September, they took a breather in October. The third-quarter corporate reports and immediate outlooks have been rather subdued so far. Additionally, interest rates have risen significantly over the course of the month, negatively impacting stock valuations. Moreover, uncertainties regarding the upcoming US elections likely also led to profit-taking. The SPI index again lost value in October, giving up a significant portion of its positive performance for the year.

The relative monthly performance was positively impacted by overweighted Sandoz, Burckhardt Compression and Galderma as well as by underweighted SoftwareOne and ams Osram. Negatively affected was the relative performance by overweighted Tecan, Sika and Daetwyler as well as by underweighted Accelleron and Schindler. In October, we increased our holdings in Tecan and Sonova while reducing our positions in Burckhardt Compression and Julius Baer. Aryzta was newly added to the portfolio.

Fund Information

Fund Managers	Martin Würmli Adrian Peter
Custodian Bank	Privatbank Von Graffenried AG
Fund Management	1741 Fund Solutions AG
Fund Domicile / Distribution License	Switzerland
Inception Date	18 December 2020
ISIN	CH0573678486
Valor	57367848
