

GENERALI ESG Multi Asset Fund C

Monthly Report – November 2024

Fund description

GENERALI ESG Funds are among our most sustainable investment funds. ESG stands for environment, social and governance: the three criteria we take into account when selecting investments for sustainable economic practice.

The GENERALI ESG Multi Asset Fund is an investment fund under Swiss law in the “Other funds for traditional investments” category, and it is growth-oriented. The investment goal is primarily to increase the fund’s assets and produce stable results. To this end, we invest at least 30% and no more than 70% of the fund’s assets in the bonds of Swiss and international issuers and the equities of Swiss and international companies.

Sustainable investing is important to us, because sustainability is an issue that also concerns the financial world. With our ESG Funds, we therefore invest almost exclusively in companies that demonstrate environmental and social responsibility.
