Fund Portrait

The JSS Sustainable Equity - Swiss Dividend aims to achieve an attractive return on capital and long-term capital growth. To this end, the Fund invests in equity of quality companies, domiciled or with majority of their economic activity in Switzerland or Liechtenstein, that are expected to pay attractive dividends on a continuous basis. Strong balance sheets, stable free cash flows and consistent earnings growth are crucial to the selection of stocks. Investments are made in different sectors and across market capitalizations. It will also systematically integrate financially-material ESG aspects throughout the entire investment process, in order to avoid controversial exposures, mitigate ESG risks and harness opportunities.

Swiss Life Holding N	4.9%	3.4	Life & Health Insurance	3.6
Kuehne & Nagel International N	3.2%	4.7	Marine Transportation	0.9

Definitions and Explanations

Exclusion criteria: Controversial weapons (biological, chemical and nuclear weapons, cluster munitions and anti-personnel mines), coal, GMO in agriculture and medicine, palm oil, defence and armament, tobacco, adult entertainment, violation of human rights and other UN Global Compact Principles.

ESG scores: An issuer's rating is the aggregation of more granular information analysed along the Environmental, Social and Governance pillars (on a scale from 0-5). Comparison at this level and aggregated at portfolio level provides more precise insights on the portfolio's exposure to sustainability risks.

Sustainability Matrix: Using our proprietary methodology, companies and industries are rated according to sustainability criteria (on a scale from 0-5). This results in a specific positioning for each company in our Sustainability Matrix, displaying both the sustainability risk exposure of a given industry (industry rating) and the relative ability of a company to mitigate those risks (company rating).

Sustainability rating of top 10 holdings: The table shows the company and industry ESG rating (on a scale from 0-5) of the 10 holdings with the highest portfolio weight.

Carbon Footprint

Stranded Assets - Potential CO₂ Emissions

Largest CO₂ Emitters

Company Name	% of Portfolio Footprint	Mitigation Efforts
CLARIANT AG	30.8%	high
NESTLE S.A.	30.2%	above average
SULZER AG	6.5%	above average
ROCHE HOLDING AG	5.8%	above average
SGS SA	5.6%	above average
NOVARTIS AG	5.3%	above average
KUEHNE + NAGEL INTERNATIONAL AG	3.3%	above average
GEBERIT AG	2.6%	above average
ABB LTD	2.5%	above average
GIVAUDAN SA	2.4%	above average

Definitions and Explanations

Carbon footprint: The portfolio's carbon footprint is a function of sector allocation and holdings' carbon intensity. Lowering the footprint vs the benchmark while preserving a sectoral balance is therefore a way to reduce related risks in the portfolio. The portfolio's Scope 1 and 2 footprint is calculated. It is measured in tons of CO₂ equivalent per USD million Enterprise Value Including Cash (EVIC).

Stranded assets: The chart shows future CO₂ emissions of fossil fuel reserves owned by the companies held in the portfolio compared to the benchmark. These CO₂ emissions are measured in tons of CO₂ equivalent per USD million Enterprise Value Including Cash (EVIC). In an environment where world leaders have agreed on carbon emissions limitations in order to address climate change issues, the economy needs to respect a global carbon budget. This in turn means that carbon assets (mostly fossil fuel reserves) are becoming stranded. Potential emissions from fossil fuel reserves therefore give insights into stranded asset risks in the portfolio.

Largest CO₂ emitters and their mitigation efforts: Climate change is a major risk driver for the entire economy and thus also a focus of political action (COP21 / Paris Agreement, UN Sustainable Development Goal 13, etc.). The way companies approach their carbon emissions (mitigation efforts) is therefore key for the long term success of their own business as well as the ecosystem in which they operate. The metric presented here shows holdings' preparedness and commitment to this challenge.

Information for Investors in Switzerland: This publication is marketing material for an investment, which has been prepared solely for the information and exclusive use of the recipient in Switzerland. The prospectus and fund contract (in German and English) and/or key information document (KID) (if any) are generally (in German, French, Italian and English) available free of charge from the custodian bank and the information center (Bank J. Safra Sarasin Ltd, Elisabethenstrasse 62, CH-4051 Basel) or the fund manager J. Safra Sarasin Investmentfonds Ltd, Wallstrasse 9, CH-4002 Basel or under: <https://product.jsafrasarasin.com/internet/product/en/index>

The statements in this document neither constitute an offer nor an invitation to buy shares of the fund. All details are provided for marketing and information purposes only and should not be misinterpreted as investment advice. The Fund is a contractual fund under Swiss law of the type "other funds for traditional investments" and which is supervised by the Swiss Financial Market Supervisory Authority ("FINMA"). This fund is a contractual investment fund (type "other funds for traditional investments") under the law of Switzerland, and is regulated by the Swiss Financial Market Supervisory Authority ("FINMA"). Potential investors should consult the prospectus, fund contract and all legally relevant local offering documents before making any investment and, in particular, inform themselves comprehensively about the risks associated with the Fund. Detailed information about risks and rewards is available in the prospectus.

Performance was calculated on the basis of net asset values (NAV) and gross dividends reinvested. When calculating performance, all the costs charged to the fund were included to give the net performance. The performance shown does not take account of any commissions and costs charged at the investor level when subscribing and redeeming units. Additional commissions, costs and taxes charged at the investor level have a negative impact on performance. Past performance is not a reliable guide to future performance. The value of your investment may go down as well as up. The return upon the investment will therefore necessarily be variable. Consequently, there is no guarantee that investors will get back the full amount of their invested capital upon redemption. Investments in foreign currencies involve a currency risk, as the return in the investor's currency may be higher or lower due to exchange rate fluctuations. The value of the investor's investment may therefore, as well as for other reasons, increase or decrease. Therefore, there is no guarantee that investors will receive back the full amount of their invested capital upon redemption.

The prospectus and fund contract as well as the annual and semi-annual reports are available free of charge from the custodian bank and the information centre (Bank J. Safra Sarasin Ltd, Elisabethenstrasse 62, P.O. Box, CH-4051 Basel, Switzerland) or the fund manager (J. Safra Sarasin Investmentfonds Ltd, Wallstrasse 9, CH-4002 Basel, Switzerland). The latest available prospectus, fund contract as well as the KID (if any) should be consulted before considering any investment.
