Fund Portrait

The investment objective of JSS Sustainable Equity – Global Multifactor is primarily to achieve long-term capital growth through global equity investments. It will also systematically integrate financially-material ESG aspects throughout the entire investment process, in order to avoid controversial exposures, mitigate ESG risks and harness opportunities, while aiming to achieve an above-average ESG profile. The JSS Sustainable Equity – Global Multifactor uses multi-factor models to evaluate stocks based on their exposure to factors such as valuation, quality, momentum, volatility and size. The Sub-fund will tilt the allocation of single factor portfolios based on a business cycle model. The Sub-Fund is actively managed without replicating any benchmark. However, the Sub-Fund is managed with reference to MSCI World NR Index (the “Benchmark”).

Review

Over the course of September, equity markets continued to rally after seeing a -4% dip in the first week of the month. After the brief risk aversion witnessed in August following carry-trade related volatility, markets turned their attention to the number and magnitude of impending interest rate cuts. A 50 bps cut in the US Federal Reserve funds target rates was well taken by equity markets, and caused factor performances to reverse, with Low Volatility and Quality stocks losing ground in favour of Momentum names, whilst Value finished the month flat on a relative basis. Geopolitical headline risks rose, but were well absorbed over the month as escalation in the Middle East does not seem to have meaningfully affected global oil supply balances. Markets were also buoyed by positive stimulus related news out of China, though the policy direction remains relatively light on concrete details and major reforms. Overall the strategy was in line with the MSCI World over the month, with factor allocation broadly neutral.

Outlook

Due to a purely systematic investment process, assessments of developments in individual stocks or market trends do not influence the current and future composition of the portfolio. The investment policy is defined by three investment pillars: the Bank J. Safra Sarasin Sustainable Investment Universe, a rule based methodology for building factor sub-portfolios through targeted stock screening and a dynamic business cycle driven factor allocation mechanism. The long-term return potential of the JSS Sustainable Equity – Global Multifactor is therefore determined by the performance contribution of these three pillars. As of the end of May 2023 our in house cycle model switched back from indicating Recession to indicating Mid as the prevailing market regime. This switch necessitated a change in factor allocation to 30% Value, 50% Momentum and 20% Quality, increasing the cyclicity and reducing the highly defensive tilt which was implemented during the recession stage. This positioning was implemented in June of 2023.

Legal notices - Edition Switzerland:

Information for investors in Switzerland: This publication is marketing material for an investment, which has been prepared solely for the information and exclusive use of the recipient in Switzerland. The articles of incorporation as well as the annual and semi-annual reports, prospectus (all in German or English) and/or key information document (KID) are generally (in German, French, Italian and English) available free of charge from J. Safra Sarasin Investmentfonds Ltd. or at <https://jsafrasarasin.com/content/jsafrasarasin/language-masters/de/products/funds-list.html>

The statements in this document neither can be interpreted as investment, tax or other advice nor do they constitute an offer nor an invitation to buy shares of the Sub-Fund, and do not replace individual advice and risk disclosure by a qualified financial, legal and/or tax advisor.

JSS Investmentfonds II SICAV is a UCITS organised as an open-ended investment company (société d'investissement à capital variable – "SICAV") under the law of Luxembourg (the "Fund"), and is regulated by the Commission de Surveillance du Secteur Financier ("CSSF"). The investment described in this document is a sub-fund of JSS Investmentfonds II SICAV (the "Sub-Fund"). Potential investors should consult the key information document (KID), the prospectus and all legally relevant local offering documents before making any investment and, in particular, inform themselves comprehensively about the risks associated with the Sub-Fund. Detailed information about risks and rewards is available in the prospectus or KID of the share classes of the Sub-Fund. Past performance is not indicative of current or future performance.

Performance was calculated on the basis of the net asset value and, if applicable, the reinvested gross dividend. When calculating the performance, all costs charged to the Fund and Sub-Fund were taken into account in order to obtain a net performance. The performance shown does not include (if and where applicable) any commissions and costs incurred at investor level on subscription and redemption of shares. Additional commissions, costs and taxes incurred at investor level have a negative impact on performance. Investments in foreign currencies involve a currency risk, as the return in the investor's currency may be higher or lower due to exchange rate fluctuations. The value of the investor's investment may therefore, as well as for other reasons, increase or decrease. Therefore, there is no guarantee that investors will receive back the full amount of their invested capital upon redemption.

The issuer of this factsheet is not in a position to provide details of any one-off or recurring commissions paid to the bank / by the bank and / or to the fund broker / by the fund broker in connection with this Sub-Fund.
