

Pictet - Emerging Markets Multi Asset - HZ HKD

INVESTMENT OVERVIEW

Objective

To increase the value of your investment.

Reference Index

ICE BofA US Dollar 3-Month Deposit Offered Rate Constant Maturity Index (USD). Used for performance measurement.

Portfolio Assets

The Fund mainly gains exposure, directly or indirectly, to equities, bonds, money market instruments, commodities (including precious metals), real estate and currencies from emerging markets, including Mainland China. The Fund can invest across any currency, credit quality and economic sector. The Fund may gain exposure to portfolio assets by investing in funds,

which may incur a duplication of certain fees, and derivatives.

Investment Process

In actively managing the Fund, the Investment Manager uses a risk-managed approach to seek additional performance opportunities, and pursues a flexible asset allocation strategy. The Investment Manager may invest in issuers with any environmental, social, and governance (ESG) profile. It methodically exercises voting rights and may engage with issuers in order to positively influence ESG practices, SFDR product category Article 6. The Fund is not constrained by the benchmark and the similarity of its performance to the benchmark may vary.

Past performance may not be a reliable guide to future performance. All forms of investment involve risk. The value of investments and the income derived from them is not guaranteed and it can fall as well as rise and you may not get back the original amount invested. Please refer to the Risk Considerations and to the prospectus for more information.

RISK CONSIDERATIONS

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you. The risk indicator assumes you keep the product for 3 years. The actual risk can vary significantly if you cash in at an early stage and you may get back less. This product may be exposed to further risks that are not included in the Summary Risk Indicator, for example:

- Currency risk: where your reference currency differs from the currency of the share class, you will receive payments in a different currency, so the final return you will get depends on the exchange rate between the reference currency and your local currency.
- Financial derivatives risk: the leverage resulting from derivatives amplifies losses in certain market conditions.
- Sustainability risk: the risk arising from any environmental, social or governance events or conditions that, were they to occur, could cause a material negative impact on the value of the investment.

Further information can be found in the prospectus. This product does not include any protection from future market performance so you could lose some or all of your investment.

FINANCIAL GLOSSARY

Alpha

Alpha shows the percentage performance of a fund above or below that explained by its exposure to the broader market.

SFDR Classification Article 6

Investments that integrate ESG factors in their decision process in order to enhance their risk-return profile. Portfolios may invest in securities with high sustainability risks.

Beta

Beta shows the average extent a fund's return moves relative to the broader market. A fund with a beta above 1 moves on average more than the market and below 1 moves on average less than the market.

Conversion fee

Fee paid for the transfer of shares of one unit/share class to another unit/share class.

Correlation

Correlation shows how a fund's return moves in relation to the benchmark. Highly correlated investments tend to move up and down together while this is not true for investments with low correlation.

Standard deviation and annualised volatility

Annualised volatility is a risk indicator showing the extent of the price fluctuations of a security or fund unit compared to its average price over a given period. The higher the volatility, the greater the fluctuations.

Inception date

The inception date is the date taken into account for the start of performance calculation. It corresponds to the launch date.

Information ratio

The information ratio is a way of measuring the value added by the portfolio manager relative to a benchmark. It is a measure of the risk-adjusted return of a portfolio and is calculated by dividing the active return (portfolio return minus benchmark return) by the tracking error.

Launch date

The launch date is the date when the sub-fund was activated in its current legal status.

NAV

An acronym of net asset value.

Order deadline

Deadline for remittance of orders to the transfer agent in Luxembourg as set out in the relevant annexes to the prospectus. You may be required to submit your orders to your financial advisor or fund distributor by an earlier cut-off time.

Tracking error

Tracking error shows the standard deviation of the active returns (portfolio return minus benchmark return). It measures how close a fund return is to its benchmark return.

Ongoing Costs

The ongoing charges figure is based on expenses for the last 12 months. This figure may vary from year to year. It includes the management fees and other administrative or operating costs. It excludes performance fees and portfolio transaction costs, except in the case of an entry/exit charge paid by the Compartment when buying or selling units/shares in another collective investment undertaking. For funds created less than 12 months ago, future costs are estimated.

SRI

The Summary Risk Indicator (SRI) is defined by the PRIIPs regulation and is designed to show the relative risk of a product, using a combination of market and credit risk measures.

Important information

For the purposes of this marketing material, “the Fund” means the sub-fund of the fund referred to at the top of page 1 and “the share” designates either “the unit” or “the share”, depending on the legal form of the fund. This marketing material is issued by the Fund Management Company, Pictet Asset Management (Europe) S.A., a company authorized and regulated by the Luxembourg regulator “Commission de Surveillance du Secteur Financier”. It is neither directed to, nor intended for distribution or use by, any person or entity who is a citizen or resident of or located in any locality, state, country or jurisdiction where such distribution, publication, availability or use would be contrary to law or regulation. The information and data presented in this document are not to be considered as an offer or solicitation to buy, sell or subscribe to any securities or financial instruments or services. It cannot be used as a basis for subscription and does not form part of a contract. The latest version of the fund’s prospectus, Pre-Contractual Template (PCT) when applicable, Key Information Document (KID), annual and semi-annual reports must be read before investing. They are available free of charge in English on www.assetmanagement.pictet or in paper copy at Pictet Asset Management (Europe) S.A., 6B, rue du Fort Niedergrueneuwald, L-2226 Luxembourg, Grand Duchy of Luxembourg, or at the office of the Fund local agent, distributor or centralizing agent if any. The KID is also available in the local language of each country where the compartment is registered. The prospectus, the PCT, and the annual and semi-annual reports may also be available in other languages, please refer to the website for other available languages. Only the latest version of these documents may be relied upon as the basis for investment decisions. The summary of investors rights (in English and in the different languages of our website) is available here and at www.assetmanagement.pictet under the heading “Resources”, at the bottom of

the page. The list of countries where the Fund is registered can be obtained at all times from Pictet Asset Management (Europe) S.A., which may decide to terminate the arrangements made for the marketing of the Fund or compartments of the Fund in any given country. In Switzerland, the representative agent is Pictet Asset Management S.A. and the paying agent is Banque Pictet & Cie S.A. Pictet Asset Management (Europe) S.A. has not taken any steps to ensure that the securities referred to in this document are suitable for any particular investor and this document is not to be relied upon in substitution for the exercise of independent judgment. Tax treatment depends on the individual circumstances of each investor and may be subject to change in the future. Before making any investment decision, investors are recommended to ascertain if this investment is suitable for them in light of their financial knowledge and experience, investment goals and financial situation, or to obtain specific advice from an industry professional. Top 10 holdings do not represent the full portfolio. There is no guarantee that these securities will be held in the future and you should not assume that investment in the securities listed was, or will be profitable. Any reference to a ranking, a rating or an award provides no guarantee for future performance results and is not constant over time. For hedged share classes, only the compartment’s consolidation currency is hedged into the share class currency. Foreign exchange exposure, resulting from assets in the portfolio which are not denominated in the consolidation currency, can remain. NAVs relating to dates on which shares are not issued or redeemed (“non-trading NAVs”) in your country may be published here. They can only be used for statistical performance measurements and calculations or commission calculations and cannot under any circumstances be used as a basis for subscription or redemption orders. Performance is shown based on the share class NAV per share (in the share class currency) with dividends reinvested (for distributing share classes), including actual ongoing charges, and excluding subscription/redemption fees and taxes borne by the investor. Inflation was not taken into account. As a subscription fee calculation example, if an investor invests EUR 1000 in a fund with

a subscription fee of 5%, he will pay to his financial intermediary EUR 47.62 on his investment amount, resulting with a subscribed amount of EUR 952.38 in fund shares. In addition, potential account keeping costs (by your custodian) may reduce the performance. Indices do not include fees or operating expenses and you cannot invest in them.

The decision to invest in the promoted fund should take into account all the characteristics or objectives of the promoted fund as described in its prospectus, or in the information which is to be disclosed to investors.

Pictet Asset Management retains full discretion over the implementation of exclusion criteria and reserves the right to deviate from third-party information on a case-by-case basis. For more information, please refer to the Pictet Asset Management Responsible Investment Policy.

For passive strategies exclusions are implemented to the extent portfolio structure, weight deviations, volatility and performance are not materially affected.
