ABOUT THE FUND

The dual management of the portfolio, Partners Group for private debt and UBP for liquid public debt, enables investors to access Partners Group's global platform for sourcing private debt transactions and UBP's expertise in managing high liquidity income strategies.

The Fund offers a unique liquidity feature. The strategy is more nimble than a similar stand-alone private debt portfolio with respect to managing inflows and outflows thanks to the liquid fixed income allocation managed by UBP.

The Fund can invest across private debt segments: senior loans 1st and 2nd lien, mezzanine debt, real estate and infrastructure debt.

PERFORMANCE EVOLUTION USD (NET OF FEES)

Source of data: UBP. Exchange rate fluctuations can have a positive or a negative impact on performance. Past performance is not a reliable indicator of future results. The value of investments can fall as well as rise.

SPECIFIC RISKS

Counterparty risk, credit risk, liquidity risk, currency risk

Private debt funds may experience lower liquidity terms than their official fund NAV frequency in consideration of the illiquidity of the underlying assets as well as corresponding gating restrictions. Any imposition of gating restrictions in private debt funds invested will reduce the liquidity of the Sub-Fund.

Further information on the fund's potential risks can be found in the prospectus. Any capital invested may be at risk and investors may not get back some or all of their original capital.

Since launch. Source of data: UBP. Exchange rate fluctuations can have a positive or a negative impact on performance. Past performance is not a reliable indicator of future results. The value of investments can fall as well as rise. Past performance figures are stated in the currency of the share class and calculated with dividends reinvested; they are free of ongoing charges. The calculation does not take into account sales commissions and other fees, taxes and applicable costs to be paid by the investor. For example, with an investment of EUR 100, the actual investment would amount to EUR 99 in the case of an entrance fee of 1%. At investor level, additional costs may also be incurred (e. g. front-end load or custody fee charged by the financial intermediary). YTD: Year-to-Date

GLOSSARY

Yield

The yield is the income return on an investment, such as the interest or dividends received from holding a particular security. The yield is usually expressed as an annual percentage rate based on the investment's cost, current market value or face value.

Duration

Duration is the average time to payout. This key figure is used to measure the influence of interest rate movements on the price of a bond or bond fund. Duration is defined in years (e. g. 3-year duration means that the value of a bond would increase by 3% if interest rates fall by 1% and vice versa).

Private Debt

Private Debt is a form of financing of companies and assets (e.g. infrastructure or real estate). Private Debt typically involves direct lending to corporates (as opposed to via public markets or via bank syndication) and lending to Leveraged Buyout (LBO) companies.

Credit risk

The Fund invests in bonds, cash or other money market instruments. There is a risk that

the issuer may default ; the likelihood of this happening will depend on the creditworthiness of the issuer.

Liquidity risk

There are liquidity risks when a specific security is difficult to buy or sell. If there is a high volume of transactions or if markets are partially illiquid (notably in the event of many instruments traded on an individual basis), it may prove to be impossible to carry out a transaction or unwind a position at a beneficial stock price under certain circumstances.

Counterparty risk

The probability that the other party in an investment, credit, or trading transaction may not fulfill its part of the deal and may default on the contractual obligations.

Currency risk

The Fund invests in overseas markets. It can be affected by changes in exchange rates which may cause the value of your investment to decrease or increase.

Pursuant to Regulation (EU) 2019/2088 of the European Parliament and of the Council of 27 November 2019 on sustainability-related disclosures in the financial services sector (the "Disclosures Regulation" or "SFDR"), funds are required to make certain disclosures. Funds falling under the scope of Article 6 of the SFDR are those which have been deemed not to pursue an investment approach that explicitly promotes environmental or social characteristics or aims at sustainable investment. The investments underlying such financial products do not take into account the EU criteria for environmentally sustainable economic activities. Notwithstanding this classification, the Investment Managers may take account of certain sustainability risks as further described in the fund's prospectus. Funds falling under the scope of Articles 8 or 9 of the SFDR are those subject to sustainability risks within the meaning of the SFDR. The sustainability risks and Principal Adverse Impacts (PAIs) as stipulated in the SFDR are described in the prospectus. In addition, unless otherwise specified, all funds apply the UBP Responsible Investment policy, which is available on <https://www.ubp.com/en/investment-expertise/responsible-investment>

UBP relies on information and data collected from third-party ESG data providers (the "ESG Parties"). Although UBP applies a proven process for selecting such ESG Parties, this data may prove to be incorrect or incomplete. UBP's processes and proprietary ESG methodology may not necessarily appropriately capture ESG risks. Indeed, to date, data related to sustainability risks or PAIs are either not available or not yet systematically and fully disclosed by issuers, may be incomplete and may follow various differing methodologies. Most of the information on ESG factors is based on historical data that may not reflect the future ESG performance or risks of the investments.

Although the ESG Parties obtain information from sources they consider reliable, none of the ESG Parties warrants or guarantees the originality, accuracy and/or completeness of any data herein. None of the ESG Parties makes any express or implied warranties of any kind, and the ESG Parties hereby expressly disclaim all warranties of merchantability and fitness for a particular purpose, with respect to any data herein. None of the ESG Parties shall have any liability for any errors or omissions in connection with any data herein. Further, without limiting any of the foregoing, in no event shall any of the ESG Parties accept any liability for any direct, indirect, special, punitive, consequential or any other damages (including lost profits) even if notified of the possibility of such damages.

Private Debt Funds: There is no assurance that investments in private debt funds will always be sufficiently liquid to meet redemption requests as and when made. Any lack of liquidity may affect the shares of the fund and the value of its investments. Private market investments are long-term investments that typically display more uncertainty and less liquidity and transparency than many other investments (e.g. listed securities). Certain investments are valued on the basis of estimated prices and therefore subject to potentially greater pricing uncertainties than listed securities. In addition, investors may not be able to sell assets held in private debt funds when they choose to, or realise what they perceive to be the fair value upon a sale. Investors should be aware that the portfolio of this sub-fund will be subject to high market risks and no assurance can be given that the investment objectives of this sub-fund will be achieved. Investors should carefully read the fund and sub-fund's risk warnings, in particular the specific risks concerning private debt markets stated in the prospectus, before investing in the sub-fund.

Any subscriptions not based on the fund's latest prospectus, annual or semi-annual reports or other relevant legal documents (the "Fund's Legal Documents") shall not be acceptable.

The Fund's Legal Documents may be obtained free of charge from Union Bancaire Privée, UBP SA, 96-98 rue du Rhône, P.O. Box 1320, 1211 Geneva 1, Switzerland and from UBP Asset Management (Europe) S.A., 287-289 route d'Arlon, 1150 Luxembourg, Grand Duchy of Luxembourg. The Fund's Swiss representative is UBP and the Swiss paying agent is Banque Cantonale de Genève, 17 quai de l'Île, 1204 Geneva, Switzerland.

In respect of the shares offered in Switzerland, the place of performance and jurisdiction is the registered office of the Swiss representative. UBP PG and its sub-funds are not registered for public distribution in any jurisdiction and no public marketing may be carried out for them. In Switzerland, this fund may only be offered to professional investors.

The English version of the fund's prospectus as well as a summary of investor rights associated with an investment in the fund are available on www.ubp.com. The fund's management company may decide to terminate or cause to terminate the arrangements made for the marketing of its collective investment undertakings in accordance with Article 32a of Directive 2011/61/EU.
