Investment Strategy

EG European Equities is an actively managed European equities fund. The investment approach is based on a top-down sector analysis combined with bottom-up fundamental research. We invest in large-, medium- and small-cap stocks. Our preference is to invest in companies that can sustain above-average earnings growth for an extended period of time. To find such companies, managers apply a disciplined process using strict quality criteria, including profit transparency, low cyclicality, high return on equity, sustainable profit margins and self-financing capabilities. We avoid financials, cyclicals and utilities.

About the investment advisor Comgest SA (Laurent Dobler): Founded in 1985, Comgest is an independent, international asset management group with entities in Paris, Dublin, Hong Kong and Tokyo. Comgest is characterised by its unique approach of 'quality growth in the long term' through its unconstrained style across all equity portfolios.
