Investment Strategy

EG Global Equities is an actively managed global equity fund. We invest in companies that we believe have a strong market position and long-term earnings potential. The companies studied must possess solid balance sheets and strong and competent management and are favourably valued by current market developments. The fund has a concentrated portfolio (20-40 companies), in order to ensure that the manager can monitor the companies with the degree of thoroughness and attention required.

About the Investment Advisor Dr. Markus Elsässer: He has 20 years of industrial experience in the chemical and food industries, with management positions in Europe, Asia and Australia. He became independent financial advisor for families and foundations. He served as member of several family investment committees. He is advising EG Global Equities since inception in 2007. Dr. Markus Elsässer holds a degree in Business Administration from Cologne University.
