Fund manager David Moss

Fund objective and policy

The Fund aims to achieve long-term capital growth through sustainable investments. The Fund is actively managed. It is not constrained by its comparator benchmark, the MSCI Europe NR Index, and has significant freedom to invest in a portfolio that is materially different to the benchmark's own composition. The Fund aims to achieve its objective by investing in equities of European companies which meet high sustainability standards, based on a detailed assessment using internal and external data. Through this the Manager seeks to avoid investments in companies with damaging or unsustainable business practices; invest in companies providing solutions to sustainability challenges or making positive contributions to society and/or the environment; and improve investee companies' ESG practices through proactive and constructive engagement and voting.

Risk warning

The value of investments and any income derived from them can go down as well as up as a result of market or currency movements and investors may not get back the original amount invested. Screening out sectors or companies may result in less diversification and hence more volatility in investment values. An investment concerns the acquisition of units or shares in a fund, and not underlying assets such as buildings or shares of a company, as these are only the underlying assets owned by the fund. The decision to invest in the promoted fund should also take into account all the characteristics or objectives of the promoted fund as described in the prospectus. Full list of relevant risks can be found in the KIID/KID and prospectus.
