

CT (Lux) Sustainable Opportunities European Equity

Share Class A Inc EUR

31-Oct-24

Fund manager
David Moss

Morningstar Rating^f

Fund objective and policy

The Fund aims to achieve long-term capital growth through sustainable investments. The Fund is actively managed. It is not constrained by its comparator benchmark, the MSCI Europe NR Index, and has significant freedom to invest in a portfolio that is materially different to the benchmark's own composition. The Fund aims to achieve its objective by investing in equities of European companies which meet high sustainability standards, based on a detailed assessment using internal and external data. Through this the Manager seeks to avoid investments in companies with damaging or unsustainable business practices; invest in companies providing solutions to sustainability challenges or making positive contributions to society and/or the environment; and improve investee companies' ESG practices through proactive and constructive engagement and voting.

Risk warning

The value of your investments and any income from them can go down as well as up and you may not get back the original amount invested. Screening out sectors or companies may result in less diversification and hence more volatility in investment values. An investment concerns the acquisition of units or shares in a fund, and not underlying assets such as buildings or shares of a company, as these are only the underlying assets owned by the fund. The decision to invest in the promoted fund should also take into account all the characteristics or objectives of the promoted fund as described in the prospectus. Full list of relevant risks can be found in the KIID/KID and prospectus.

Glossary

Active Engagement Report

We define engagement as dialogue between investors and companies with a focus on encouraging companies to address strategic issues including environmental, social and governance factors. The objective of such dialogue with companies is to reduce risk and support long-term performance. The table sets out, for the fund, the number of companies we have engaged with; the number of countries covered and the individual engagement themes.

Quartile Ranking

A measure of performance where all funds within the sector are ranked and split into 4 groups. The best 25% performing funds are in the first (1) quartile, the next 25% into the second (2) quartile and the worst 25% into the fourth (4) quartile.
