

Synchrony (LU) World QualiLife Stocks A

ISIN LU2404427523

Open to all investors. Like all vehicles investing predominantly in company shares, the fund will expose the investor to a significant risk of capital loss.

June 2024

Fund Profile

- Thematic fund invested in equities issued by companies around the world whose innovation helps to protect and improve the quality of life.
- The investment theme was implemented in three key areas: innovation in the healthcare sector/natural resources management/digitisation for individuals and companies.
- Funds with global geographical exposure, more focused on areas with strong innovation momentum, with no restrictions in terms of company capitalisation.
- Conviction fund, concentrated on a limited number of stocks with higher sales and earnings growth potential than the market.
- The sub-fund is therefore intended for investors seeking long-term capital gains in exchange for the volatility associated with this type of investment.
- The sub-fund may invest up to 10% of its net assets in units of UCITS and other UCIs. The reference currency of the sub-fund is the US dollar (USD).

Risks

- Market risk: risk of loss that may result from fluctuations in the prices of financial instruments.
- Liquidity risk: liquidity problems in the financial markets that may affect the purchase and sale of fund positions.

Fund manager's report

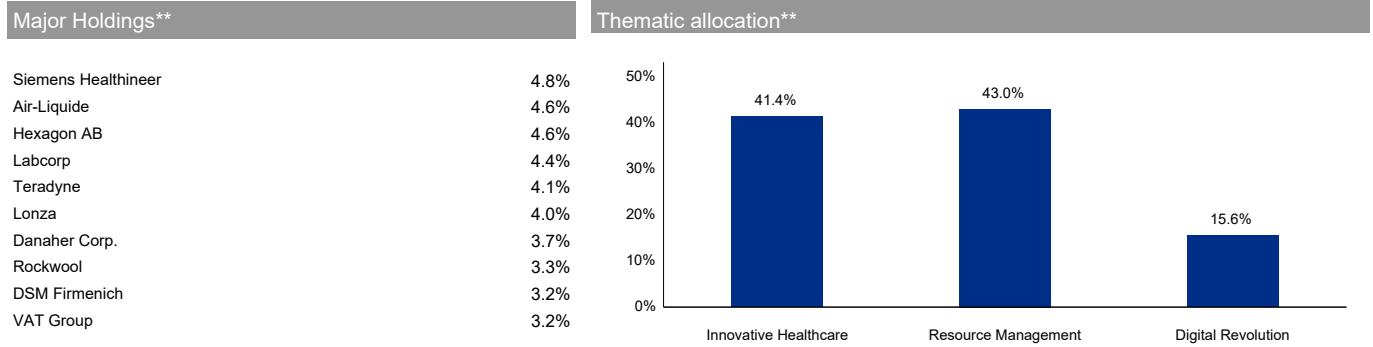

The turbulence of the European elections and the dissolution of the French parliament impacted the fund's performance. In this uncertain environment, investors stayed away from European companies (-2.32%), in particular small capitalisations (-4.51%). The fund is currently keeping its exposure at a little over 50% in Europe.

But the political uncertainties on the other side of the Atlantic prevented a re-rating of companies related to the energy transition. The indices of companies active in new sustainable energies corrected (-9.05%), impacting the funds, which have a 42.98% exposure to the resource management theme.
