

December 2024

Investment philosophy

The objective of the BCVs / WKB (CH) Equity Switzerland sub fund is to obtain regular added value relative to its benchmark index, the SPI®, with good diversification and disciplined risk management.

Management approach

The investment process consists of taking advantage of opportunities on the equity market through quantitative and qualitative analysis applied to sectors and stocks. The sub-fund invests primarily in equities issued by companies that have their registered office or carry out a predominant part of their economic activity in Switzerland and which are included in the SPI®. Environmental, social and governance (ESG) criteria are integrated, for the main investment universe, into the selection process and weighting of investments in the portfolio..

Fund features

Security number	26378265

ESG Approach

The BCVs integrates environmental, social and governance (ESG) criteria in the process of selecting investments and weighting them in the portfolio. To this end, the BCVs has adopted two sustainable approaches: exclusion and positive screening. The QR code below allows you to access various information on the sustainability strategy implemented for this fund.
