Objectives and investment universe

Umbrella Fund: BCF / FKB (CH) FUNDS

The objective of the fund is long-term capital growth and, to a lesser extent, regular income generation. The fund complies with the investment principles applicable to Swiss pension funds (LPP/OPP2), subject to the authorised limit for equity investments, which is higher than that provided for in OPP 2.

Management approach

The fund invests, directly or indirectly, in bonds, equities and other types of investments around the world. Investments in equities represent a minimum of 45% and a maximum of 85% of the fund's assets. Investments are made predominantly in CHF with a maximum foreign currency exposure of 30%. The investment strategy is based on BCF's investment policy.
