Fact Sheet

MFS Meridian® Funds

Emerging Markets Equity Fund

Investment in the fund may involve a high degree of risk and may not be suitable for all investors. Past performance does not predict future returns and your capital is at risk. The value of the fund can be volatile and could decrease substantially in a short period of time. Investors should consider the risks, including lower returns, related to currency movements between their investing currency and the portfolio's base currency, if different. Investors should not rely on this document alone to make investment decisions and the sales prospectus and Key Information Documents (KIDs) should be carefully considered before making any investment in the fund. **The fund specific risks include: stock risk and emerging markets risk. These relevant risks, as associated with this fund, are highlighted and defined at the end of this document.**

Investment team

Portfolio Managers

Rajesh Nair

- 16 years with MFS
- 29 years in industry

Harry Purcell

- 12 years with MFS
- 27 years in industry

Institutional Portfolio Managers**

Greg Johnsen, CFA

- 6 years with MFS
- 39 years in industry

Sanjay Natarajan

- 17 years with MFS
- 28 years in industry

Fund benchmark

MSCI Emerging Markets Index
(net div)

The fund's investment objective is to seek capital appreciation, measured in U.S. dollars.

Key Points:

- Discussions with Emerging Markets Debt team surrounding factors that aid investment choices in individual securities
- Globally diversified among emerging markets, focused on earnings prospects and valuations while considering rising revenues, expanding margins, and increasing cash flows
- MFS locations within the Emerging Market areas allows for discovery of local opportunities such as on-site visits to corporate headquarters, manufacturing plants, clients, suppliers, etc.

Past performance is not a reliable indicator for future results. All financial investments involve an element of risk. The value of investments may rise and fall so you may get back less than originally invested.

Investors should consider the risks, including lower returns, related to currency movements between their investing currency and the portfolio's base currency, if different.

Other share classes are available for which performance and expenses will differ.

Returns would have been lower had sales charges, of up to 6% of the net asset value (NAV), or any commissions, fees or other charges that your financial intermediary may charge been reflected.

Please note that this is an actively managed product.

The Fund's benchmark is indicated for performance comparison only.

Performance results reflect ongoing charges and any applicable expense subsidies and waivers in effect during the periods shown. All historic results assume distributions within the fund and/or the share class are reinvested.

The source for all fund data is MFS. Source for benchmark performance: SPAR, FactSet Research Systems Inc.

Fund Inception Date: 01 September 2006

[^] Results represent the percent change in NAV.

Periods less than one year are actual not annualized.

[†] Ongoing charges are expressed at an annual rate as a percentage of net assets and are based on expenses for the semi-annual period ending July 31 or annual period ending January 31. For a Class with less than the full period of data available, or where an adjustment is necessary to reflect current charges, the ongoing charges figure is an estimate. Ongoing charges may vary from year to year. Please see the KID of the relevant Class for the most recent expense information.

[‡] Base Currency-Hedged share classes aim to reduce exchange rate and return fluctuations between the applicable non-base currency hedged share class and the unhedged currency class of the fund. From time-to-time shareholder transactions in the share class could result in a gain or a loss, which could be significant, in the share class value that is attributable to the adviser's hedging activities rather than to its investment management activities. Other share classes will not share in these gains or losses.

Class I shares are only available to certain qualifying institutional investors.

Class W shares are available to discretionary portfolio management or independent advisory accounts, clients of financial intermediaries otherwise prohibited from receiving compensation from the Fund, and to employees of MFS and its affiliates.

TRAILING 3-YEAR RISK MEASURES VS. BENCHMARK (A1USD)

Beta	1.04
Standard Deviation	18.78 vs. 17.35

Beta is a measure of the volatility of a portfolio relative to the overall market. A beta less than 1.0 indicates lower risk than the market; a beta greater than 1.0 indicates higher risk than the market. It is most reliable as a risk measure when the return fluctuations of the portfolio are highly correlated with the return fluctuations of the index chosen to represent the market.

Standard Deviation is an indicator of the portfolio's total return volatility, which is based on a minimum of 36 monthly returns. The larger the portfolio's standard deviation, the greater the portfolio's volatility.

RISK INDICATOR - CLASS A1USD

RISK INDICATOR - CLASS A1USD						
◀ Lower Risk (typically lower rewards)			4	Higher Risk ▶ (typically higher rewards)		
1	2	3	4	5	6	7
			4			

The rating is based on past volatility of returns and may be different in the future or for other classes of the fund.

See the fund's offering documents for more details, including information on fund risks and expenses.

The prospectus and the Key Information Documents for Switzerland, the articles of incorporation, the annual and semi-annual report in French, and further information can be obtained free of charge from the representative in Switzerland: Carnegie Fund Services S.A., 11, rue du General-Dufour CH-1204 Geneva, Switzerland, web: www.carnegie-fund-services.ch. The Swiss paying agent is: Banque Cantonale de Geneva, 17, quai de l'Île, CH-1204 Geneva. The last share prices can be found on www.fundinfo.ch. For the shares of the Fund distributed to non-qualified investors in and from Switzerland and for the shares of the Fund distributed to qualified investors in Switzerland, the place of performance is Geneva.

MFS Meridian Funds is an investment company with a variable capital established under Luxembourg law. MFS Investment Management Company (Lux) S.à.r.l. is the management company of the Funds, having its registered office at 4, Rue Albert

Borschette, L-1246, Luxembourg, Grand Duchy of Luxembourg (Company No. B.76.467). The Management Company and the Funds have been duly authorised by the CSSF (Commission de Surveillance du Secteur Financier) in Luxembourg.

Important Data Methodologies

Top holdings, portfolio characteristics and weightings do not reflect the effect of exposure/weightings for hedging of hedged share classes. Full holdings and net assets do reflect this hedging.

Portfolio characteristics are based on equivalent exposure, which measures how a portfolio's value would change due to price changes in an asset held either directly or, in the case of a derivative contract, indirectly. The market value of the holding may differ. The portfolio is actively managed, and current holdings may be different.

Important risk considerations

The fund may not achieve its objective and/or you could lose money on your investment in the fund. ■ **Stock:** Stock markets and investments in individual stocks are volatile and can decline significantly in response to or investor perception of, issuer, market, economic, industry, political, regulatory, geopolitical, environmental, public health, and other conditions. ■ **Emerging Markets:** Emerging markets can have less market structure, depth, and regulatory, custodial or operational oversight and greater political, social, geopolitical and economic instability than developed markets. ■ Please see the prospectus for further information on these and other risk considerations.

Benchmark and vendor disclosures

MSCI Emerging Markets Index (net div) - a market capitalization-weighted index that is designed to measure equity market performance in the global emerging markets.

It is not possible to invest directly in an index.
