**Monthly comment**

In July, the performance of the Partners Group Listed Investments SICAV - Listed Private Equity Fund showed a strong increase of 4.7%, driven by positive contributions from all segments. Transaction activity gained momentum, and the private equity vehicles reported robust growth in their underlying portfolio holdings. This is in contrast to the weaker performance of global equity markets during the same period, due to tech companies reporting softer results and a slight unwinding of the 'AI trade'. Furthermore, labor data in the US fell short of expectations, and yields for longer-term debt in the US and the EU declined.

KKR, which was added to the S&P 500 index last month, delivered strong second-quarter results and emerged as one of the top performers. The company is targeting a fundraising goal of over USD 300 billion between 2024 and 2026 and is on course to achieve this objective. In Q2, KKR successfully secured USD 32 billion of new capital, leading to a total AUM exceeding USD 600 billion, marking a 16% year-over-year increase. Additionally, KKR is actively expanding its presence in the insurance sector and has recently completed the full acquisition of Global Atlantic, boosting perpetual capital by 25% during the same period. The portfolios maintained impressive performance across the platforms, with private equity showing an 18% increase, private infrastructure being up by 17%, and both credit platforms recording a 12% rise over the past 12 months. Lastly, transaction activity is gaining momentum, with USD 23 billion deployed and a robust pipeline highlighted for the second half of the year.

3i Group further contributed to the favorable performance of the Fund. The company continues to benefit from the strong performance of Action, which achieved impressive growth with revenue and EBITDA rising by 28% and 34% respectively in 2023. This growth was comprised by a like-for-like sales increase of 17% and the opening of 303 new stores. Action also had a strong start to 2024, achieving an additional 21% growth in sales. Management maintains an optimistic outlook, aiming for an annual EBITDA growth of 20% and lowering prices to pass on reductions to consumers. Additionally, 3i successfully completed a refinancing and raised its ownership stake from 55% to 58%.
