

Swisscanto (LU) Equity Fund Sustainable Healthy Longevity GT

Equity | reinvesting | September 2024 - Marketing Material

Fund Description

The fund uses a proprietary Sustainable Purpose/Quality approach to invest worldwide in equities of companies that, due to the positive solutions provided by their products/services, contribute to overcoming the challenges of the demographic mega-trend of an ageing population and to promoting and enabling a healthy lifestyle across all generations.

These companies can be expected to achieve favourable corporate growth (Sustainable Purpose) and are characterised by an attractive return on investment (Quality).

Product line and sustainability approaches in use

When selecting investments, the product lines and sustainability approaches illustrated below and described in the "Explanations regarding product lines and sustainability approaches" are used.

Note:
 - Light-coloured product lines and approaches are not applicable to the assets in question.
 - Exclusions based on SVVK-ASIR are applied in all three product lines (Traditional (non-sustainable), Responsible and Sustainable).

Awards

Profile/Suitability

This product is suitable for investors who

- have at least a medium-term investment horizon.
- focus on companies that make a contribution towards achieving the UN Sustainable Development Goals (SDGs) related to digital transformation in the economy and would like to participate in the development of the international equity market.
- are interested in high capital growth.
- are willing to accept larger price fluctuations in the short term compared to the broad global equity market due to the thematic focus.

Portfolio Data

	Fund	BM
Number of Positions	52	1'410
Number of direct investments	52	n.a.
Effective Cash	3.24%	n.a.

¹ Year/period: Since start performance calculation or at the longest for the last five years/periods.

² Minor deviations can be caused by rounding errors.

^a The performance shown is less all regular fund fees incurred. Further potential costs incurred, which can be directly charged to the fund assets, are disclosed in the fund prospectus.

^b The gross performance indicated is before deduction of any regular fund fees incurred.

The performance stated refers to the past and is not a reliable indicator of future results. The calculation is made in the reference currency of the share class. Performance in other currencies may rise or fall as a result of currency exchange rate fluctuations. The performance data assume that any dividends will be reinvested. The data take into account the costs incurred at fund level (such as administrative fees). The net performance including issue surcharge represents the performance after deduction of fees, but takes into account the maximum issue surcharge incurred of 5.00%.

Explanations regarding product lines and sustainability approaches

Product lines

The sustainability product range comprises two product lines in which different sustainability approaches are applied. The «Responsible» product line includes as standard the application of further exclusions, systematic ESG analysis as an integral part of the investment process and a reduction in the CO₂e intensity of the investments. In addition to the aforementioned approaches, the «Sustainable» product line includes the application of even more extensive exclusions and also invests in SDG leader or ESG leader (Sustainable Purpose). The exclusions based on SVVK-ASIR are applied in all product lines (including for assets that are not sustainably managed). These mainly include manufacturers of banned weapons and may also include states in addition to companies.

Stewardship - Voting / Engagement

As a shareholder, we actively engage in continuous dialogue with the companies management. This takes place in accordance with the engagement guidelines of Zürcher Kantonalbank's asset management. Among other things, companies are required to formulate ambitious greenhouse gas reduction targets, implement them consistently and report on them transparently. Our engagement activities and guidelines are published on <https://www.zkb.ch/en/home/asset-management/sustainability/investment-stewardship.html>. Our voting guidelines are based on Swiss and international corporate governance principles and on the United Nations Principles for Responsible Investment (UN PRI). The threshold for exercising voting rights in our foreign voting markets is CHF 5 million for Swiss domiciled funds and CHF 2 million for Luxemburg domiciled funds per share position. More information on our voting behaviour can be viewed at: <https://www.swisscanto.com/voting>

Controversies - Exclusions Sustainable

The application of extensive exclusion criteria is an integral part of the asset manager's Sustainable approach. In terms of companies, exclusion criteria - in addition to the exclusions based on SVVK-ASIR - cover the extraction of uranium, natural gas* or oil*, the operation of fossil fuel power stations (>5% revenue)*, the extraction of coal (excluding metal production)*, coal reserves*, the manufacture of nuclear reactors*, the production of weapons and ammunition, military hardware, automobiles* (justified exceptions possible) and aircraft*, airlines* and cruise ship operators*, the operation of nuclear power plants*, the release of GMOs* and human medicine in the field of genetic engineering, non-sustainable fishing* and fish farming*, non-sustainable forestry*, intensive livestock farming, the production of tobacco and smoking goods, the production of alcohol (>5% revenue), the production of pornography, gambling (>5% revenue), exploitative child labour, non-certified palm oil (<50% RSPO) and UN Global Compact violations. In terms of states, extensive exclusion criteria are likewise in addition to possible exclusions based on SVVK-ASIR - states with a low degree of democracy and freedom (classified as "not free" in the Freedom in the World reports published annually by Freedom House Washington, DC) or a high degree of corruption (CPI score <35 according to the Corruption Perceptions Index (CPI) of Transparency International), which apply capital punishment, increase the share of nuclear energy (total share >50%)*, have a high military budget of >4% of gross domestic product and have not ratified the Paris Climate Agreement*, the Nuclear Non-Proliferation Treaty (NPT) and/or the Convention on Biological Diversity (CBD)*. When drawing up the exclusion list, socio-economic risk dimensions such as money laundering and corruption are also taken into account. *Excluding green and sustainability bonds

ESG - Systematic ESG integration

The systematic analysis of ESG criteria forms an integral component of the active investment process, with the aim of identifying risks and opportunities based on ESG trends at an early stage. ESG criteria supplement the pure financial analysis and lead to more informed investment decisions.

Climate - <2°C Paris Climate agreement

In accordance with the Paris Climate Agreement, the investment activity of the portfolio is aimed at reducing the CO₂e intensity of the investments by at least 4% per year. The investment strategy target is based on the CO₂e intensity of the investment universe at the end of 2019.

SDGs - Sustainable Purpose

The "Sustainable Purpose" approach focuses on returns through investments in companies and countries with social benefits (SDG leaders). SDG leaders use their investment power to create environmentally and socially responsible products and services. In doing so, they contribute to the fulfillment of one or more of the UN's Sustainable Development Goals (UN SDGs). For diversification purposes, a best-in-class approach can also be used to invest in securities that are considered to have above-average positive ESG criteria (ESG leaders).

Note:

- Light-coloured product lines and approaches are not applicable to the assets in question.
- Exclusions based on SVVK-ASIR are applied in all three product lines (Traditional (non-sustainable), Responsible and Sustainable).

Further information

Further, supplementary product-specific explanations regarding the sustainability approaches applied can be found in the relevant legal documents at products.swisscanto.com.

Sustainability approaches

The sustainability approaches apply to all assets or to a substantial part of the assets. Detailed information on this can be found in the prospectus, fund agreement or investment guidelines.

CO₂e

CO₂e equivalents (CO₂e) are a measure to standardise the climate impact of the greenhouse gases carbon dioxide (CO₂), methane (CH₄), nitrous oxide (N₂O) and fluorinated greenhouse gases (CFCs). All of these gases remain in the atmosphere for different lengths of time and do not contribute equally to the greenhouse effect.

ESG

ESG stands for the aspects of environment (E), social (S) and governance (G).

SVVK-ASIR

The Swiss Association for Responsible Investments (SVVK) is an association of institutional investors and was founded in 2015. The association provides services to its members so that they can focus their investment decisions on the environment, society and the economy.

Comments to the Fund

Target Investor Group - Term

Wealth management clients or investors with a cooperation partner agreement

Target Investor Group - Description

G class is only offered to institutional investors and wealth management clients. It is a prerequisite for institutional investors that they conclude a standard investment agreement with their financial intermediary. In addition, the financial intermediary must have concluded a cooperation agreement with Swisscanto Fund Management Company Ltd. The second letter «T» indicates that the class reinvests profits (accumulating). A flat rate administrative fee is charged.

Flat Fee (FF)

The AIF is used to compensate the fund management company and fund administration, asset management and - if compensated - the distribution of the fund as well as the custodian bank for the services it provides.

Swinging Single Pricing (SSP)

Upward or downward correction in the net asset value pertinent for the calculation of the issue and redemption prices depending on whether issues or redemptions of units predominate. The correction (swing factor) is based on the size of the costs incurred by the investment fund in adjusting the portfolio in line with the asset inflows/outflows (neutralises the costs incurred by the investment fund in adjusting the portfolio in line with asset inflows/outflows). The (gross/net) performance shown may contain a swing-price adjustment.

Benchmark comparison

This is just a benchmark comparison. The fund's performance does not depend on the benchmark, particularly in terms of the portfolio composition.

Explanation of general risks

Investment involves risks, especially with regard to fluctuations in value and return. Investments in foreign currencies are subject to exchange rate fluctuations. Custody and counterparty risks represent further significant risks. We hereby refer to the detailed description of various risks which are included in the prospectus.

Risk Indicator

The historical data used to calculate the risk and return category cannot be used as a reliable indication of the future risk profile. The reported risk and return category may well be subject to change. The lowest risk category cannot be compared with a risk-free investment. There is no capital guarantee or capital protection. The risk of capital loss is borne by the investor.

SDG Sales contributions

Sales (in %) of issuers in the portfolio that contribute positively to the achievement of one or more of the 17 UN Sustainable Development Goals (SDGs), weighted by portfolio allocation. If an issuer's product or service contributes to more than one goal, sales are allocated accordingly.

Breakdown Allocations

Allocation refers to invested fund capital adjusted to 100%. Minor deviations can be caused by rounding errors. The weighting of the money market may include the synthetic exposure from the equity hedging strategy.

Effective Cash

Under cash, we report the total effective liquidity of all bank accounts as a percentage. Cash in foreign currencies is converted into the fund currency and added.

Direct Investment

Under Under number of direct investments (directly held investments), we report the total of all individual investments without the individual positions of the Swisscanto target funds.

SFDR

Regulation (EU) 2019/2088 of the European Parliament and of the Council of 27 November 2019 on sustainability-related disclosure requirements in the financial services sector (SFDR).

FNG-Label

This fund has been awarded the FNG-Label, the quality standard of sustainable investments. Collective investment schemes with an FNG-Label meet the quality standard of sustainable investments developed for German-speaking regions by the professional association Forum Nachhaltige Geldanlagen e. V. (FNG). The fund has been awarded three stars for a particularly demanding and comprehensive sustainability strategy. Besides fulfilling the mini-

mum standard of the FNG-Label, it achieved additional points in the categories "Institutional Credibility", "Product Standards" and "Portfolio Focus" (stock selection, engagement and KPIs), thereby attaining the highest level of the quality standard. Further information on the FNG-Label can be found at www.fng-siegel.org.

ISO Certification

Asset Management at Zürcher Kantonalbank is ISO 9001 certified. The ISO 9001 certification guarantees that the authorised user has a management system that meets the requirements of a suitable and recognised standard and has been successfully certified/assessed by the Swiss Association for Quality and Management Systems (SQS).

Disclaimer

This document is for information and promotional purposes only, is intended for distribution in Liechtenstein, and is not addressed to persons in other countries or to any person who by domicile or nationality is prohibited to receive such information according to applicable law.

Every investment involves risks, especially in terms of fluctuations in value and return. Past performance and returns are no guarantee of future investment success. The performance data have been calculated without taking account of the costs and commissions charged at the time of the issue and redemption of units. The total expense ratio (TER) refers to the commissions regularly charged to the fund assets (operating expenses) and is expressed as a percentage of the fund's assets. The figure quoted relates to the level of the TER in the past financial year or half-year and does not guarantee that the level will be similar in the future.

Swisscanto has taken all reasonable care in the preparation of this document. However, Swisscanto does not provide any guarantee with regard to the correctness or completeness of the information the document contains and waives any liability for losses arising from its use. This document is neither an offer to enter into an agreement nor an invitation to submit an offer for services. It does not constitute an offer or a recommendation for the subscription or redemption or for the acquisition, holding or sale of financial instruments. The recipient, if need be with the assistance of a consultant, is recommended to assess the information in consideration of their personal situation with regard to legal, regulatory, tax and other consequences that might be invoked. This document is neither a prospectus nor key information document.

The products and services described in this document are not available to US persons in accordance with the applicable regulations.

The fund is an undertaking for collective investment in transferable securities (UCITS) within the meaning of the EU Directive 2009/65/EC, which is subject to oversight from the Luxembourg Supervisory Authority (CSSF). The fund is registered for distribution in Liechtenstein with the relevant Liechtenstein regulatory authority (FMA).

The current fund documents (sales prospectus, contractual terms, key information document and annual/half-yearly reports) can be obtained free of charge from swisscanto.com or in paper form from Bendura Bank (Liechtenstein) AG, Schaaner Strasse 27, FL-9487 Gamprin-Bendern (representative and paying agent in Liechtenstein).
