

# Swisscanto (CH) Index Fund Gold Smart Sourcing & Traceable NT USD

Other | reinvesting | February 2025 - Marketing Material

## Fund Description

The fund seeks to replicate the performance of gold after the deduction of ongoing costs. The fund invests in physically deposited gold. The origin of the gold is traced back to the mines ("Traceable") and criteria for the selection of the partners involved in the procurement process are taken into account ("Smart Sourcing"). The gold is stored exclusively in Switzerland. There is no debtor risk, since it is a special asset in accordance with CISA.

## Advantages of Precious Metals

Precious metals offer an effective hedge against inflation and protection in times of crisis. Because of their low correlation with traditional investments such as bonds or equities, they provide an ideal means of diversification. Including positions in precious metals optimizes a portfolio and improves its risk-return profile.
