

EQUITY FUNDS PASSIVE

LLB Equities Switzerland Passive (CHF) Class P

per 31.07.2024

Investment policy

The fund invests, in accordance with the principle of risk distribution, in a broadly diversified equity portfolio of companies domiciled in Switzerland. It tracks the development of the SPI Swiss Performance Index and offers investors the possibility of participating in the development of the Swiss equity market. The optimised sampling approach has been chosen as an indexing method. The fund's level of risk relative to the reference index is constantly monitored. The fund is suitable for investors having a long-term investment horizon, who wish to benefit from the high earnings potential offered by Swiss equities, and who are ready to accept substantial temporary fluctuations in the value of their assets to do so.

NAV performance over 5 years

The value development shown here provides no guarantee of future performance. The value of a unit may rise or fall at any time. The performance data shown do not take into consideration the commissions and costs charged in connection with the issuing and redemption of units.

Sector allocation

Key benefit

- Offers investors a cost-efficient participation in the development of the Swiss equity market
