## Risks

UBS Small & Mid Cap Funds invest in equities and may therefore be subject to high fluctuations in value. As these UBS Funds pursue an active management style, each Fund's performance can deviate substantially from that of its reference index. Focusing intentionally on small cap equities may entail additional risks. All investments are subject to market fluctuations. Every Fund has specific risks, which can significantly increase under unusual market conditions. The fund can use derivatives, which may result in additional risks (particularly counterparty risk). This Fund may not be appropriate for investors who plan to withdraw their money before the recommended holding period disclosed in the PRIIPs KID, if available for this share class.
