Benefits

The weighting of the fund investments can be flexibly adjusted in line with prevailing market expectations. The broad weighting ranges give the portfolio managers considerable scope to exploit attractive opportunities. An efficient portfolio with an optimised risk-return profile can be put together thanks to its global diversification and high flexibility.

Risks

The Fund's value may fluctuate significantly due to its equity exposure, which may be very high, and is also impacted by changes in interest rates given the fixed income holdings. This requires the corresponding risk tolerance and capacity. All investments are subject to market fluctuations. Every Fund has specific risks, which can significantly increase under unusual market conditions. The fund can use derivatives, which may result in additional risks (particularly counterparty risk). This Fund may not be appropriate for investors who plan to withdraw their money before the recommended holding period disclosed in the PRIIPs KID, if available for this share class.

Please note that additional fees (e.g. entry or exit fees) may be charged. Please refer to your financial adviser for more details. Investors should read the Key Information Document, Prospectus and any applicable local offering document prior to investing and to get complete information of the risks. Investors are acquiring units or shares in a fund, and not in a given underlying asset such as building or shares of a company. For a definition of financial terms refer to the glossary available at www.ubs.com/am-glossary.
