Very active management and global diversification.

Major market fluctuations can be cushioned.

Additional information

- Foreign currencies are largely hedged versus the reference currency. Nevertheless, an active currency strategy is applied.
- Owing to the varying mixed asset allocation, this fund could be treated in specific phases as a bond fund for tax purposes in the UK. Investors should therefore contact a tax advisor.
- The portfolio manager is not tied to the benchmark in terms of investment selection or weight.

Risks

The fund offers no guarantee. It may see phases with negative performance. This requires corresponding risk tolerance and capacity and a medium to long investment horizon to ensure a high likelihood of meeting the return target. All investments are subject to market fluctuations. The fund can use derivatives, which may result in additional risks (particularly counterparty risk). Every fund has specific risks, which can significantly increase under unusual market conditions. A description of the fund specific risks can be found in the prospectus. This Fund may not be appropriate for investors who plan to withdraw their money before the recommended holding period disclosed in the PRIIPs KID, if available for this share class.

All investments are subject to market fluctuations. Every fund has specific risks, which can significantly increase under unusual market conditions. Please consult your client advisor for more information on the investment risks of this product.
