Benefits

The fund enables investors to remain invested throughout the various phases of the economic cycle.

No individual part of the fund portfolio can exert too large an influence on performance.

Active economic cycle management can increase the fund's return potential.

Additional information

- The fund invests without any benchmark restrictions. The performance of the fund is not benchmarked against an index.
- Owing to the varying mixed asset allocation, this fund could be treated in specific phases as a bond fund for tax purposes in the UK. Investors should therefore contact a tax advisor.

Risks

The fund invests in equities and may therefore be subject to high fluctuations in value. The fund offers no guarantee that its individual Scenario Portfolios, which are over- or underweighted in line with our assessment of the current state of the economy, perform well in the business cycle phase they are geared to. Phases of negative performance cannot be excluded. This requires the corresponding risk tolerance and capacity from investors. All investments are subject to market fluctuations. Every fund has specific risks, which can significantly increase under unusual market conditions. The fund can use derivatives, which may result in additional risks (particularly counterparty risk). This Fund may not be appropriate for investors who plan to withdraw their money before the recommended holding period disclosed in the PRIIPs KID, if available for this share class.

Please note that additional fees (e.g. entry or exit fees) may be charged. Please refer to your financial adviser for more details. Investors should read the Key Information Document, Prospectus and any applicable local offering document prior to investing and to get complete information of the risks. Investors are acquiring units or shares in a fund, and not in a given underlying asset such as building or shares of a company.
