 Management Fee: 0.60% p.a.
 Performance Fee*: 10%
 Ongoing Charges Figure**: 0.70%

*The performance fee is subject to a "high water mark". Please see the Prospectus for further information. | The Performance Fee is equal to 10% of the share class net performance, relative to its "hurdle". The Hurdle is a value per share, calculated by applying a cumulative rate of return of 8% per annum to the relevant High Water Mark (see the Prospectus). | **The ongoing charges figure excludes Fund transaction costs, except in the case of depositary fees and an entry/exit charge paid by the Fund when buying or selling Shares in another collective investment undertaking. A detailed description of the charges that apply is set out in the section "Charges and Expenses" in the Prospectus. The ongoing charges figure may change over time. Charges applied will reduce the return potential of investments. | If an investor's own currency is different from the currency shown, costs could increase or decrease due to currency or exchange related fluctuations. | The Manager's ability to outperform the performance fee hurdle of 8% may be impacted positively or negatively by volatility in the broad equity market.
