Benefits

Able to achieve attractive returns irrespective of market direction.
 Complementary allocation to the majority of asset classes, helping improve the risk-return profile of a typical multi-asset, multi-manager or fund-of-funds portfolio.
 The Fund's philosophy and approach has historically achieved strong returns through periods of equity market weakness.
 Offers daily liquidity and is managed in accordance with UCITS rules and guidelines.
 Continuity of portfolio management team since inception, benefiting from the support of a broad, well-resourced research and investment solutions team.

Additional information

- The Fund has a fundamental value-led approach that is disciplined and entirely discretionary.

¹ A derivative is a contract between two or more parties whose value is based on an agreed-upon underlying financial asset (like a security) or set of assets (like an index). Common underlying instruments include bonds, commodities, currencies, interest rates, market indexes and stocks.

Risks

The Fund is primarily exposed to the price fluctuations of global currency markets. It employs leverage in order to pursue its high return objective and to have a meaningful impact on a broader portfolio through a relatively small allocation. As a result, the Fund is relatively volatile and investors should have a corresponding risk tolerance and capacity. The Fund is primarily aimed at more sophisticated investor types. The Fund may enter into OTC derivative contracts to generate currency market exposure. While these contracts are collateralized, the risk of counterparty default remains. As the Fund uses derivatives and sophisticated leverage techniques, investors must be willing to bear the additional risk involved. Every fund has specific risks which can significantly increase under unusual market conditions. A description of the fund specific risks can be found in the prospectus.

Please note that additional fees (e.g. entry or exit fees) may be charged. Please refer to your financial adviser for more details. Investors should read the Key Information Document, Prospectus and any applicable local offering document prior to investing and to get complete information of the risks. Investors are acquiring units or shares in a fund, and not in a given underlying asset such as building or shares of a company. For a definition of financial terms refer to the glossary available at www.ubs.com/am-glossary.

For marketing and information purposes by UBS. For professional clients / qualified investors only. UBS funds under Irish law. Arrangements for marketing fund units mentioned in this document may be terminated at the initiative of the management company of the fund(s). Before investing in a product please read the latest prospectus and key information document or similar legal documentation carefully and thoroughly. Any decision to invest should take into account all the characteristics or objectives of the product as described in its prospectus, or similar legal documentation. Investors are acquiring units or shares in a fund, and not in a given underlying asset such as building or shares of a company. The information and opinions contained in this document have been compiled or arrived at based upon information obtained from sources believed to be reliable and in good faith, but is not guaranteed as being accurate, nor is it a complete statement or summary of the securities, markets or developments referred to in the document. Members of the UBS Group may have a position in and may make a purchase and / or sale of any of the securities or other financial instruments mentioned in this document. Units of UBS funds mentioned herein may not be eligible for sale in all jurisdictions or to certain categories of investors and may not be offered, sold or delivered in the United States. The information mentioned herein is not intended to be construed as a solicitation or an offer to buy or sell any securities or related financial instruments. Past performance is not a reliable indicator of future results. The calculated performance takes all costs on the product level into consideration (ongoing costs). The entry and exit costs, which would have a negative impact on the performance, are not taken into consideration. If whole or part of the total costs to be paid is different from your reference currency, the costs may increase or decrease as a result of currency and exchange rate fluctuations. Commissions and costs have a negative impact on the investment and on the expected returns. If the currency of a financial product or financial service is different from your reference currency, the return can increase or decrease as a result of currency and exchange rate fluctuations. This information pays no regard to the specific or future investment objectives, financial or tax situation or particular needs of any specific recipient. Future performance is subject to taxation which depends on the personal situation of each investor and which may change in the future.
