**PIGUET GLOBAL FUND - International Bond (CHF) D**

**Bloomberg : PIGIBDI LX**

**About the Benchmark Index**

- No Benchmark

**Main investment risks**

- Market risk : Risk of loss resulting from fluctuations in the prices of financial instruments.
- Liquidity risk : Liquidity problems on the financial markets that may affect purchases and sales of fund positions.
- Credit risk : Risk that a borrower will not repay all or part of its credit on the maturity dates stipulated in the contract signed between the borrower and the lending institution.
- Risk of capital loss : A capital loss occurs if a unit is sold at a price lower than its purchase price. The Sub-fund does not benefit from any capital protection or guarantee

**Legal information**

International Bond (CHF) is a Sub-fund of the PIGUET GLOBAL FUND, a UCITS type umbrella fund under Luxembourg law.

The prospectus, the key investor information document, the management rules, as well as the annual and interim reports can be obtained free of charge from:

The information in this document is for informational purposes only. It does not constitute an offer or a solicitation to subscribe for units or shares in the Sub-fund in the jurisdictions in which such an offer or solicitation is not authorized. It is not available to any person to whom it would be legally prohibited to make such an offer or proposal.

This document reflects the management company's opinion as of the issuance date.

The opinions expressed in this document do not take into account investors' specific situation, objectives, or requirements. Investors are encouraged to consult professional advisors where appropriate.

This document cannot be considered financial research. The investments mentioned in this document may involve risks difficult to quantify and include in the appraisal of investments.

The risk factors are fully described in the Sub-fund's prospectus.

**WARNING**

- The figures listed relate to past years.
- Historical performance is not an indicator of current or future returns. Performance data does not take into account commissions and fees collected upon unit issuance and redemption.
- If the currency of the investor's country of residence is different from the Sub-fund's reference currency, the gains may be increased or decreased depending on exchange rate fluctuations
- The value of the investment may fluctuate downwards as well as upwards.
- The investment presents a risk of capital loss, up to the total amount of the investment.
- Tax treatment depends on each investor's individual situation, which may be subsequently modified.
