Investment Advisor

Alegra Capital was founded in 2003 with the sole focus on managing Collateralised Loan Obligations (CLOs). Alegra is fully independent and entirely owned by its partners. The team is specialized in assessing CLO equity risk and relative value between debt tranches and has one of the longest track-records in Europe managing CLO tranches.

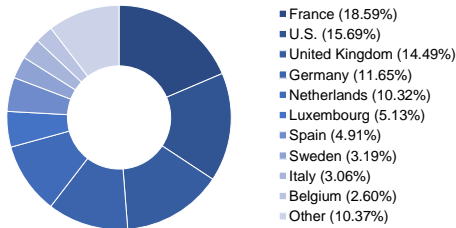

Investment Objective and Investment Strategy

The objective of the Fund is to achieve attractive risk-adjusted returns with low volatility and low correlation to fixed income markets. The fund invests in a broadly diversified pool of asset-backed securities and follows an absolute return strategy. The PvB Alegra CLO Fund is an alternative to traditional high yield bond investments. Each security in the portfolio participates in a broadly diversified pool of securitized loans. Before each investment, a thorough due diligence of the underlying assets, the default risks and concentration of counterparties is conducted by the investment advisor. Totally, the fund participates in over 500 different loans.
