MultiConcept Fund Management S.A., Luxembourg

Objectives and investment policy

This Equity Fund is actively managed aiming to achieve long-term capital growth that is above the benchmark (Swiss Leaders Index (TR) in CHF) by investing mainly in equities and equity-type securities of companies listed on a Stock Exchange in Switzerland. While a large part of the investments of the Fund will be components of the benchmark which will also have similar weights as the benchmark, the Fund manager has discretion to invest in other securities not included in the benchmark. The Fund does not track the benchmark precisely but tries to exceed its performance subject to an internally applied deviation limit and may therefore differ from it moderately— both positively and negatively. The

Investment Manager will use its discretion to overweight or underweight certain components of the Benchmark. The Fund may invest up to 1/3 of its net assets in investment grade fixed-income or floating rate securities denominated in CHF. It can use derivative instruments for investment purposes and for efficient portfolio management. The investor can buy or sell shares on a daily basis (Luxembourg bank business days). This Share Class does not make regular distributions. The Fund shall bear the costs of standard brokerage and bank charges incurred by the Fund through securities transactions in relation to the portfolio. These charges are not included in the "Charges" section of this document.

Risk and reward profile

Risk profile

The Fund's risk and reward profile shows the variations in value an investment in this Fund would have undergone over the past five years, whereby simulated performance data is used in the case of missing history. The Fund's risk rating may change in the future. Please note, higher possible gains generally also mean higher possible losses. The lowest risk category does not mean that the Fund is risk free.

Why is the Fund in the specific category?

Amongst other, equity prices mainly reflect the expected prospects of firms, as estimated by market participants. Expectations tend to fluctuate more strongly in times of higher uncertainty. Investments in bonds are affected by changes in interest rates, the size of the market segment, the currency allocation, the economic sector and the credit quality of the bonds. The Fund holds mainly investments with generally good credit quality. However, the Fund may be

exposed to currency risk. The Fund may have a low degree of issuer diversification which makes it more vulnerable.

Are there any other particular risks?

The Fund's risk and reward profile does not reflect the risk inherent in future circumstances that differ from what the Fund has experienced in the recent past. This includes the following events which are rare but can have a large impact.

- Credit risk: Issuers of assets held by the Fund may not pay income or repay capital when due. The Fund's investments generally have low credit risk.
- Liquidity risk: Assets cannot necessarily be sold at limited cost in an adequately short timeframe. The Fund's investments may be prone to limited liquidity. The Fund will endeavor to mitigate this risk by various measures.
- Event risk: In the case a trigger event occurs contingent capital is converted into equity or written down and thus may lose substantially in value.
- Operational risk: Deficient processes, technical failures or catastrophic events may cause losses.
- Political and Legal risks: Investments are exposed to changes of rules and standards applied by a specific country. This includes restrictions on currency convertibility, the imposing of taxes or controls on transactions, the limitations of property rights or other legal risks.
- Sustainability risks: Sustainability risks are environmental, social or governance events or conditions can have a material negative effect on the return, depending on the relevant sector, industry and company exposure.

Charges

One-off charges taken before or after the investment	
Entry charge	1.00%
Exit charge	2.00%
Switch charge	1.00%
This is the maximum amount that may be deducted from the investor's money before it is invested or before the proceeds of the investment are paid out.	
Charges debited to the Fund over a year	
Ongoing charge	1.71%
Charges debited to the Fund under certain specific conditions
