First Trust United Kingdom AlphaDEX® UCITS ETF

A sub-fund of First Trust Global Funds plc (the "Company")

First Trust Global Portfolios Management Limited is the manager of the Company (the "Manager")

ISIN: IE00B8X9NZ57

Share class: Class A GBP ACC

Objective and Investment Policy

Objective: The fund aims to provide investors with a total return, taking into account capital and income returns, which reflects the return of an equity index called the NASDAQ AlphaDEX® United Kingdom Index (the "Index").

Investment Policy: The fund invests primarily in equity securities that are included in the Index. The fund attempts to replicate, before fees and expenses, the performance of the Index.

The Investment Manager will seek to do this by trying to replicate the Index by holding in similar proportions the equity securities in the Index. To assist, this fund may, where direct investment in a constituent of the Index is not possible, invest in depository receipts to gain exposure to the security. The fund may also invest to a much lesser extent in money market instruments, short-term instruments and other eligible funds. The Investment Manager will regularly monitor how closely the fund tracks the Index. It is expected that the level of tracking error will be 0-2% in normal market conditions.

At all times, at least 75% of the total assets of the First Trust United Kingdom AlphaDEX® UCITS ETF will be invested in the equity securities of issuers domiciled in the United Kingdom. The Investment Manager may choose to overweight certain

equity securities in the Index, to purchase equity securities not in the Index which the Investment Manager believes are appropriate to substitute for certain securities in the Index, or utilise various combinations of the above techniques in seeking to maintain at least 75% of that Fund's total assets in the equity securities of issuers domiciled in the United Kingdom.

The Fund is passively managed and has an index replicating objective.

For details of the exact composition of the Index, please see the following address: <https://indexes.nasdaqomx.com/Index/Directory/Custom%20Indexes>

For more information about the investment policy, see "Investment Policy" in the Fund's section on supplement available at www.ftglobalportfolios.com.

You may sell your shares usually on each business day (a day on which the London Stock Exchange is open) by sending your request to the administrator.

Income is reinvested into the Fund for this share class.

Recommendation: this Fund may not be appropriate for investors who plan to withdraw their money within the short term.

An estimate is being used since the Investment Manager agreed to voluntarily limit total ongoing charges to the number shown, which is net of a fee waiver of 0.10% of the annual management fee currently provided for in the Prospectus. The annual management fee will revert to the gross figure upon the expiry of the fee waiver. See the section in the fund's Prospectus entitled "Fees, Costs and Expenses" for further information. In the event that the Fund's operational expenses exceed the stated ongoing charges figure of 0.65%, the investment Manager shall discharge any excess out of its own assets.

The ongoing charges figure is based on the fund's annual management fee, whereby the Investment Manager shall be responsible for the fund's operational expenses.
