Past Performance

This chart shows the fund's performance as the percentage loss or gain per year over the last 2 years against its benchmark.

The chart shows how much the Fund increased or decreased in value as a percentage in each year, net of charges (excluding entry charge), and net of tax.

Past performance is no guarantee of future performance.

The illustration shows the fund's investment returns as a percentage of the year-on-year change in the fund's net asset value. When calculating past performance, all costs are generally deducted with the exception of the issuing fee. If the management of the fund is based on a benchmark, its performance is also shown.

The unit class launched on 18.05.2009.
