

UBS European High Dividend Sustainable Equity Fund EUR P-acc Performance **Review**

UBS (Lux) Equity SICAV - European High Dividend Sustainable (EUR) (CHF) QL-acc

Despite mixed economic signals, European equity markets set new all-time highs in August. The effects of past price shocks from the pandemic and the Russia-Ukraine conflict are still visible in the European economy. Manufacturing exporters are facing challenges due to the strength of the euro.

Monthly performance

In August the fund performed positively with 0.3%. Country allocation, sector allocation and stock selection alike all added value this month. The fund's exposures to low beta and low volatility also contributed positively to performance.

YTD performance

YTD as of the end of August, the fund has delivered a positive performance of 12.2%. In the year to date, country allocation and the fund's exposure to defensive and value companies have made positive contributions to performance. Sector allocation and stock selection have detracted in 2024 thus far.

Performance contributors

The fund's allocations to the healthcare and financials sectors added value. Its exposure to low volatility and low-beta companies contributed positively. The allocations to the Netherlands and Finland were positive for fund performance, while at the stock level it benefited from holding Sonova and GlaxoSmithKline.

Performance detractors

Meanwhile, the fund's allocations to high earnings yield and small caps detracted from performance. Its weightings in the UK and Switzerland, as well as in the industrials and energy sectors, detracted. At the stock level, performance suffered due to holding SSAB and Sage.
